

ASX ANNOUNCEMENT

5 February 2026

EUR sells 2.5m CRML Shares for approximately \$A45m

European Lithium Ltd (ASX: EUR, FRA: PF8, OTC: EULIF) (“European Lithium” or the “Company”) advises that it has completed a **sale of 2.5 million ordinary shares** in **Critical Metals Corp.** (NASDAQ: CRML).

The transaction is expected to generate **proceeds of approximately A\$45million** to EUR, therefore increasing the Company’s cash reserves to approximately A\$356m.

Following the transaction EUR continues to hold 45,536,338 ordinary shares in CRML. Based on the closing share price of CRML US\$15.14 per share as of 4 February 2026, the Company’s remaining investment is valued at US\$689,420,157 (A\$984,885,940) noting that this valuation is subject to fluctuation in the daily share price movement of CRML and the exchange rate.

Tony Sage, Executive Chairman of European Lithium, commented “This contracted sale of CRML shares further reinforces the Company’s already robust balance sheet. The Company does not anticipate disposing of any additional CRML shares over the next four months, thereby preserving EUR’s substantial strategic influence in any potential corporate transactions that may arise during this period.

About European Lithium

European Lithium Limited is an exploration and development stage mining company focused on lithium & titanium assets in Austria, Ukraine, and Ireland. It also has significant holdings in CUFEL Ltd (copper/ gold / bismuth/ silver/ iron ore) in Western Australia & the Northern Territory, MOAB (uranium in Tanzania), Iron Bear Resources Ltd (The Iron Bear Project in Canada) and a direct 7.5% stake in the Tanbreez rare earth project in Greenland.

About Critical Metals Corp.

Critical Metals Corp (Nasdaq: CRML) is a leading mining development company focused on critical metals and minerals, and producing strategic products essential to electrification and next-generation technologies for Europe and its Western world partners. Its flagship Project, Tanbreez, is one of the world's largest, rare-earth deposits and is located in Southern Greenland. The deposit is expected to have access to key transportation outlets as the area features year-round direct shipping access via deep water fjords that lead directly to the North Atlantic Ocean.

Another key asset is the Wolfsberg Lithium Project located in Carinthia, 270 km south of Vienna, Austria. The Wolfsberg Lithium Project is the first fully permitted mine in Europe and is strategically located with access to established road and rail infrastructure and is expected to be the next major producer of key lithium products to support the European market. Wolfsberg is well positioned with offtake and downstream partners to become a unique and valuable asset in an expanding geostrategic critical metals portfolio. With this strategic asset portfolio, Critical Metals Corp is positioned to become a reliable and sustainable supplier of critical minerals essential for defense applications, the clean energy transition, and next-generation technologies in the western world.
