

\$7m Placement to Advance Marble Bar Gold Project

Kali Metals Limited (**ASX: KM1**) ("**Kali**" or "**the Company**") is pleased to announce that it has successfully secured firm commitments from new and existing institutional and sophisticated investors to subscribe for 39.0 million new ordinary shares of the Company ("**New Shares**") at an issue price of \$0.18 per New Share ("**Issue Price**") to raise gross proceeds of ~\$7.0 million ("**Placement**"). Kali's Directors have subscribed for a total of A\$95,000 of the Placement, subject to receipt of shareholder approval.

Proceeds from the Placement will be used to progress ongoing exploration programs at the Marble Bar Gold Project and Higginsville Lithium Project, including drilling and associated technical work, and for general working capital purposes.

Kali Metals' Managing Director Paul Adams said:

"We are delighted to have received strong support from both new and existing institutional and sophisticated investors to raise ~\$7.0 million. The funds will be directed towards our Phase II drill program at our Marble Bar Gold Project, where our maiden program delivered shallow, high-grade results and demonstrated strong potential for strike and down-dip growth. This next phase of drilling will be designed to systematically build on those results and advance Marble Bar toward a more defined gold system.

In parallel we will continue to progress exploration across our broader portfolio, in particular, our large lithium portfolio at Higginsville. We look forward to keeping shareholders updated as our exploration activity advances."
