AMUIF Commences Trading on the OTCQB in US

American Uranium Limited upgrades its U.S. trading status to the OTCQB Venture Market, enhancing access for North American investors.

Highlights

- American Uranium's U.S. trading status has upgraded from OTCID to the OTCQB® Venture Market.
- Trading on OTCQB® continues under the ticker "AMUIF" and should provide improved liquidity and accessibility for U.S. investors.
- Move to the OTCQB® aligns with American Uranium's strategy to broaden its North American shareholder base.
- As an ASX-listed company, American Uranium already satisfies OTCQB® reporting standards, with no additional compliance burden.

American Uranium Limited (ASX:AMU, OTCQB:AMUIF) (**American Uranium, AMU or the Company**) is pleased to advise that following approval by OTC Markets, its US U.S. trading status has been upgraded from OTCID market to the OTCQB® Venture Market. Trading on the OTCQB® continues under the ticker "AMUIF", enabling American investors to trade the Company's shares in U.S. dollars during U.S. market hours.

This upgrade aligns with the Company's stated strategy to broaden its North American shareholder base and enhance market visibility in the United States, where its flagship Lo Herma ISR uranium project is located.

As an ASX-listed company, American Uranium already meets the financial reporting and disclosure standards required by OTCQB®. Accordingly, the upgrade does not impose any additional compliance or regulatory obligations on the Company.

Background and Increased U.S. Investor Interest

The decision to upgrade the Company's status on the OTC Markets platform follows increasing U.S. investor interest in American Uranium's portfolio of U.S. based uranium assets, led by the Lo Herma ISR uranium project in Wyoming's Powder River Basin. Lo Herma is one of the few new near-term, low-cost ISR uranium projects in the United States and is advancing through resource growth and technical de-risking programs.

The OTCQB® listing is expected to support improved liquidity and broaden participation from U.S. investors at a time of growing focus on domestic uranium supply and nuclear energy security in the United States.

AMU CEO and Executive Director Bruce Lane commented:

"We are pleased to have achieved this upgrade of American Uranium's shares on the OTCQB Market. This milestone is expected to continue to enhance our visibility in the U.S. investment market and provide North American investors with improved access to our ordinary shares as we advance Lo Herma toward development."

OTCQB Trading Details

OTC Market: OTCQB® Venture Market
Ticker Code: AMUIF
Share Class: Ordinary shares (same class as ASX:AMU)
Trading Currency: U.S. Dollars (USD)

About American Uranium Limited

American Uranium Limited (ASX: AMU | OTCQB: AMUIF) is an Australian-listed uranium explorer and developer focused on advancing low-cost, in-situ recovery (ISR) uranium projects in the United States. The Company's flagship Lo Herma ISR uranium project is located in Wyoming's Powder River Basin, one of North America's premier uranium districts, and is positioned to support the growing need for secure domestic uranium supply to the U.S. nuclear energy sector.

Caution Regarding Forward Looking Statements

This announcement may contain forward looking statements which involve a number of risks and uncertainties. Forward-looking statements are expressed in good faith and are believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and assumptions based on currently available information. Should one or more risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and strategies described in this announcement. The forward-looking statements are made as at the date of this announcement and the Company disclaims any intent or obligation to update publicly such forward looking statements, whether as the result of new information, future events or results or otherwise.
