It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Representations contained in this Prospectus are made taking into account that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters are publicly available information or may reasonably be expected to be known to investors and professional advisers whom prospective investors may consult.

### Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

As at the date of this Prospectus, the Company has Shareholders resident in Australia, New Zealand, Germany, Hong Kong, Qatar, Botswana, Canada, Singapore, Spain, Thailand and the United Kingdom and the Offer is being extended to Shareholders in each of those jurisdictions. However, the Offer is not being extended, and Securities will not be issued to those with a registered address which is outside those jurisdictions.

For further information on overseas Shareholders please refer to Section 2.9.

### Continuous disclosure obligations

The Company is a "disclosing entity" (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Securities.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Please refer to Section 6.2 for further details.

## Target Market Determination

In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (**TMD**) as set out on the Company's website ([www.verityresources.com.au](http://www.verityresources.com.au)).

## Company Website

No documents or other information available on the Company's website is incorporated into this Prospectus by reference.

## Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

## Clearing House Electronic Sub-Register System (CHESS) and Issuer Sponsorship

The Company will apply to participate in CHESS, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHESS will be issuer sponsored by the Company.

Electronic sub-registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with statements (similar to a bank account statement) that set out the number of Securities issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHESS and issuer sponsorship.

Electronic sub-registers also mean ownership of securities can be transferred without having to rely upon paper documentation. Further monthly statements will be provided to holders if there have been any changes in

their security holding in the Company during the preceding month.

Photographs used in this Prospectus which do not have descriptions are for illustration only and should not be interpreted to mean that any person shown endorses the Prospectus or its contents or that the assets shown in them are owned by the Company. ## 1.7 Underwriting

The Offer is partially underwritten by:

- (a) CAP Holdings, an entity associated with the Company's Director, Mr Patrick A Volpe, who is a director and shareholder of CAP Holdings and a beneficiary of the CAP Trust) and substantial shareholder Patrick John Volpe; and
- (b) Ricketts Point Investments, an entity associated with the Company's Director, Mr Paul Dickson (who is a sole director and secretary of Ricketts Point Investments),

(each an **Underwriter** and together, the **Underwriters**), for a total amount of up to approximately \$604,619.97 (**Underwritten Amount**), comprising:

- (c) **CAP Holdings**: up to approximately \$533,786.62 (being up to approximately 21,351,465 Shares); and
- (d) **Ricketts Point Investments**: up to approximately \$70,833.35 (being up to approximately 2,833,334 Shares).

Refer to Section 6.4.1 for a summary of the Underwriting Agreements.

## 1.8 Details of Underwriting Agreements and Effect on Control

If all Eligible Shareholders take up their Entitlements, the issue of Securities under the Offer will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company.

However, if not all Eligible Shareholders take up their Entitlements, then changes to the ownership interests of the Company may occur. The table below sets out Patrick John Volpe and associated entities' voting power in the Company as at the Record Date and the potential increase to its voting power under several scenarios relating to the percentage acceptance of Entitlements under the Offer.

One of the Underwriters, CAP Holdings, is an entity associated with the Company's Director, Mr Patrick A Volpe, who is a director and shareholder of CAP Holdings and a beneficiary of the CAP Trust) and substantial shareholder, Patrick John Volpe. As set out in Section 1.5 above, Patrick John Volpe has a relevant interest in 63,624,999 Shares at the date of this Prospectus, equivalent to a voting power of 15.55% in the Company.

The maximum amount underwritten by CAP Holdings is \$533,786.62, equivalent to 21,351,465 Shares, which (if issued to CAP Holdings) would result in Patrick John Volpe increasing his voting power to 19.9% in the Company. The underwriting has been structured so that, depending on the level of take up by Eligible Shareholders (other than Mr Volpe and his associates) and the number of Shortfall Securities available for allocation to CAP Holdings, Mr Volpe's voting power may increase up to, but not exceed, 19.9% (as illustrated in Table 1 below). Accordingly, if the subscription received from Shareholders is lower, the number of Shares that may be subscribed for under the Underwriting will be lower due to the 19.9% voting power limitation.

The Offer is partially underwritten by CAP Holdings and Ricketts Point Investments. If the number of Shares available under the Shortfall Offer is insufficient to satisfy the commitments of both Underwriters in full, the Shares allocated to each Underwriter will be scaled back on a pro rata basis (by reference to their respective underwriting commitments).

For the avoidance of any doubt, although the Company is permitted to issue the Underwritten Shares to the Underwriters at any time within 15 business days after the close of the Offer in accordance with ASX Listing Rule 10.12 (Exception 2), Shareholders and other investors will have priority to apply for and be allocated any Shortfall Securities during this period. No Underwritten Shares will be issued to the Underwriters until the priority period has expired and then only to the extent that Shortfall Securities have not been taken up by Shareholders or other investors. The Shortfall Offer will otherwise remain open for a

period of up to 3 months from the Closing Date, in accordance ASX Listing Rule 7.2 (Exception 3).

For example, if 20,000,000 Shares remain as Shortfall Securities at the close of the Offer and Shareholders apply for 15,000,000 of those Shares during the priority period, the Underwriters would only be issued 5,000,000 Underwritten Shares after that period expires.

By way of another example, if Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders (other than Mr Patrick John Volpe and his associates) take up 50% of their Entitlements, a Shortfall of 34,551,010 Shares would arise. Shareholders and other investors will have priority to apply for and be allocated those 34,551,010 Shortfall Securities during the priority period. At the conclusion of the priority period, and only to the extent that any of those Shortfall Securities remain unallocated, CAP Holdings may be issued up to 18,072,176 Shares (CAP Holdings' underwriting being subject to a 19.9% voting power cap as described in more detail below).

**Table 1: Voting power of Mr Patrick John Volpe and his associates**

**Notes:**

2. "50% take up" assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders other than Mr Volpe and his associates take up 50% of their Entitlement (34,551,010 Shares);
3. "25% take up" assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders other than Mr Volpe and his associates take up 25% of their Entitlement (17,275,506 Shares); and
4. "0% take up" assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders other than Mr Volpe and his associates take up 0% of their Entitlement (0 Shares).
5. No underwriting, 100% take up by Eligible Shareholders.
6. This assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders, other than Mr Volpe and his associates, take up 69.10% of their Entitlements (47,750,556 Shares) and CAP Holdings underwrites part of the Shortfall up to the voting power cap of 19.90%, being \$533,786.62 (21,351,465 Shares).
7. This assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders, other than Mr Volpe and his associates, take up 50% of their

Entitlement (34,551,010 Shares) and CAP Holdings underwrites part of the Shortfall, up to the voting power cap of 19.90%, being \$451,804 (18,072,176 Shares).

8. This assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders, other than Mr Volpe and his associates, take up 25% of their Entitlement (17,275,506 Shares) and CAP Holdings underwrites part of the Shortfall, up to the voting power cap of 19.90%, being \$344,507 (13,780,259 Shares).
9. This assumes that Mr Patrick John Volpe and his associates take up 100% of their Entitlement (12,724,999 Shares) and Eligible Shareholders, other than Mr Volpe and his associates, take up 0% of their Entitlement and CAP Holdings underwrites part of the Shortfall, up to the voting power cap of 19.90%, being \$237,208.55 (9,488,342 Shares).

The underwriting has been structured so that, depending on the level of take-up by Eligible Shareholders (other than Mr Volpe and his associates) and the number of Shortfall Securities available for allocation to CAP Holdings, Mr Volpe's voting power may increase up to, but not exceed, 19.9% (as illustrated in Table 1 above) at completion of the Offer. Mr Dickson's shareholding in the Company is comparatively small and, accordingly, the underwriting arrangements are not expected to result in any material change to his voting power.

In accordance with the terms of the Underwriting Agreements, the Underwriters may engage sub-underwriters to offset some of their commitment to underwrite the Offer, such that neither the Underwriters or the sub-underwriters, individually, will have a voting power in the Company in excess of 19.9% after the issue of the Shortfall. As at the date of this Prospectus, no sub-underwriters have been appointed.

The Company will ensure that the Offer (including the equitable dispersion of any Shortfall Securities) complies with the provisions of Chapter 6 of the Corporations Act 2001 (Cth) and is otherwise consistent with the policy guidelines contained in ASIC Regulatory Guide 6 and Takeovers Panel Guidance Note 17.

### 1.9 Potential dilution on non-participating Shareholders

In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 16.67% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).

No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 16.67% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).

For illustrative purposes, the table below shows how the dilution may impact the holdings of Shareholders:

HOLDER	HOLDING AS AT RECORD DATE	% AT RECORD DATE	ENTITLEMENTS UNDER THE OFFER	HOLDINGS IF OFFER NOT TAKEN UP	% POST OFFER
Shareholder 1	10,000,000	2.44%	2,000,000	10,000,000	2.04%
Shareholder 2	5,000,000	1.22%	1,000,000	5,000,000	1.02%
Shareholder 3	1,500,000	0.37%	300,000	1,500,000	0.31%
Shareholder 4	400,000	0.10%	80,000	400,000	0.08%
Shareholder 5	50,000	0.01%	10,000	50,000	0.01%

**Notes:**

1. This is based on a share capital of 409,135,102 Shares as at the date of the Prospectus and assumes no Options currently on issue are exercised or other Shares are issued.
2. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Underwriting and Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

## 2.3 Payment options

### (a) By BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

You should be aware that your own financial institution may implement earlier cut-off times with regard to electronic payment, and you should therefore take this into consideration when making payment. **It is your responsibility to ensure that funds submitted through BPAY® are received by 5:00pm (EST) on the Closing**

**Date. The Company shall not be responsible for any delay in the receipt of the BPAY® payment.**

**Guidance where you have more than one CRN (Shareholding of Shares)**

If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form.

**Do not use the same CRN for more than one of your Shareholdings.** This can result in your Application monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any Application in respect of your remaining Shareholdings will not be valid).

(b)

**By Electronic Funds Transfer (overseas applicants)**

For payment by Electronic Funds Transfer (**EFT**) for overseas Eligible Shareholders, please follow the instructions on the Entitlement and Acceptance Form. You can only make a payment via EFT if you are the holder of an account that supports EFT transactions to an Australian bank account. Please note that should you choose to pay by EFT:

- (i) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form;
- (ii) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your Application monies; and
- (iii) if you pay more than is required to subscribe for your Entitlement, you will be taken to have applied for Shortfall Securities (if any) under the Shortfall Offer, to the extent of the excess.

(c)

**By Cheque**

Payment by cheque or case will not be accepted.

**2.4 Implications of an acceptance**

Returning a completed Entitlement and Acceptance Form or paying any Application monies by BPAY® or EFT will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® or EFT payment instruction is given in relation to any Application monies, the application may not be varied or withdrawn except as required by law.

**2.5 Minimum subscription**

There is no minimum subscription.

**2.6 Shortfall Offer**

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer (**Shortfall Securities**). The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.025 being the price at which Shares have been offered under the Offer

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall Offer and potentially be allocated to other Eligible Shareholders or other third parties or the Underwriters as part of the Shortfall Offer. The Shortfall Offer will only be available where there is a Shortfall between applications received from Eligible Shareholders and the number of Shares proposed to be issued under the Offer.

Eligible Shareholders who wish to subscribe for Securities above their Entitlement are invited to apply for Shortfall Securities under the Shortfall Offer by completing the appropriate section on their Entitlement and Acceptance Form or by making payment for such Shortfall Securities in accordance with Section 2.3.

The Board presently intends to allocate Shortfall Securities as follows:

- (a) to Eligible Shareholders who apply for an excess of their full Entitlement, so long as the issue of Shortfall Securities to that Eligible Shareholder would not take their voting power to in excess of 19.99%; then
- (b) to third parties at the reasonable discretion of the Board in accordance with the allocation policy set out in this Section, which may include parties who are not currently Shareholders; and then
- (c) to the Underwriters, but only to the extent of any remaining Shortfall Securities not taken up under paragraphs (a) and (b), and only after the expiry of the priority period referred to below.

No Shares will be issued to a party under the Shortfall Offer if the effect would be to increase that party's voting power in the Company to an amount greater than 19.99%.

The Company reserves the right to issue an Eligible Shareholder a lesser number of Shortfall Securities than applied for or no Shortfall Securities at all. However, the Directors do not intend to refuse an application for Shortfall Securities from Eligible Shareholders other than in circumstances of oversubscription or where acceptance may result in a breach of the Corporations Act. If the number of Shortfall Securities applied for by Eligible Shareholders exceeds the total Shortfall, the Shortfall Securities will be allocated among applying Eligible Shareholders proportionate to their existing holdings.

All decisions regarding the allocation of Shortfall Securities will be made by the Directors and will be final and binding on all applicants under the Shortfall Offer. As such there is no guarantee that any Shortfall Securities applied for will be issued to Eligible Shareholders.

The Company will have no liability to any Applicant who receives less than the number of Shortfall Securities they applied for under the Shortfall Offer. If the Company scales back any applications for Shortfall Securities under the Shortfall Offer any Application monies will be returned (without interest) as soon as practicable.

The Company notes that no Securities will be issued to an applicant under this Prospectus or via the Shortfall Offer if the issue of Securities would contravene the takeover prohibition in section 606 of the Corporations Act. Similarly, no Securities will be issued via the Shortfall Offer to any related parties of the Company, other than the Underwriters.

The Company reserves the right to refuse to issue Shortfall Securities where it reasonably considers that such issue may contravene Australia's foreign investment laws.

For the avoidance of any doubt, although the Company is permitted to issue the Underwritten Shares as part of the Shortfall Securities to the Underwriters at any time within 15 business days after the close of the Offer in accordance with ASX Listing Rule 10.12 (Exception 2), Shareholders and other investors will have priority to apply for and be allocated any Shortfall Securities during this period. No Underwritten Shares will be issued to the Underwriters until the priority period has expired and then only to the extent that Shortfall Securities have not been taken up by Shareholders or other investors. The Shortfall Offer will otherwise remain open for a period of up to 3 months from the Closing Date, in accordance ASX Listing Rule 7.2 (Exception 3). For example, if 2,000,000 Shares remain as Shortfall Securities at the close of the Offer and Shareholders apply for 1,500,000 of those Shares during the priority period, the Underwriters would only be issued 500,000 Underwritten Shares after that period expires.

## 2.7 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out in Section 1.1. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of three months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

The Company will not apply for Official Quotation of the New Options issued pursuant to this Prospectus.

## 2.8 Issue of Securities

Securities issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at Section 1.

Securities issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Securities issued is less than the number applied for, or where no issue is made, surplus Application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Securities or payment of refunds pursuant to this Prospectus, all Application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account, and each Applicant waives the right to claim interest.

Holding statements for Securities issued under the Offer will be mailed as soon as practicable after the issue of Securities and for Shortfall Securities issued under the Shortfall Offer as soon as practicable after their issue.

### 3. PURPOSE AND EFFECT OF THE OFFER

#### 3.1 Purpose of the offer

The purpose of the Offer is to raise up to \$2,045,676 before costs.

The funds raised from the Offer are intended to be applied in accordance with the table set out below:

ITEM	PROCEEDS OF THE OFFER	FULL SUBSCRIPTION (\$)	%
1.	Monument Gold Project Mineral Resource Estimation update, technical and scoping level studies, engineering and mine planning	\$525,000	26%
2.	Testing additional previously untested targets across 20km of strike at Monument	\$425,000	21%
3.	Re-commencing Botswana copper-silver project work programs	\$475,000	23%
4.	Follow up testwork at Brazil REE project	\$200,000	10%
5.	Working capital and review of additional opportunities	\$370,676	18%
6.	Expenses of the Offer <sup>1</sup>	\$50,000	2%
	<b>Total</b>	<b>\$2,045,676</b>	<b>100%</b>

**Notes:**

1. Refer to Section 6.8 for further details relating to the estimated expenses of the Offer.

In the event that no Eligible Shareholders (other than Mr Patrick John Volpe and his associates and Ricketts Point Investments and its associates) take up their Entitlements and the Company raises approximately \$680,177.85 (comprising of the underwriting by CAP Holdings of \$262,052.50<sup>1</sup> and its Entitlement of \$318,125, and underwriting by Ricketts Point Investments of \$70,833.35 and its Entitlement of \$29,167<sup>2</sup>), funds would be applied first to pay the expenses of the offer in full, with the balance prioritised toward progressing the Monument Gold Project Mineral Resource Estimation update. All other exploration activities would be materially reduced, staged or deferred (including testing additional Monument targets and work programs in Botswana and Brazil), and working capital (including the review of additional opportunities) would be reduced accordingly.

As at 31 December 2025, the Company had a total of \$0.86 million in cash on hand. On completion of the Offer, the Board believes the Company will have sufficient working capital to achieve its stated objectives. However, Shareholders should refer to the risk factor titled 'Going Concern' in Section 5, which outlines the material uncertainty regarding the Company's ability to continue as a going concern in the absence of sufficient funding. In the event the Offer is not fully subscribed, operational objectives are likely to be modified, which may result in delay or substantial changes to the Company's future plans. In this event (and after accounting for associated Offer costs) it is likely that the Company will appropriate scale back funds available for exploration expenditure (Items 1, 2 and 3 in the table above).

In addition, it should be noted that the Company's budgets and forecasts will be subject to modification on an ongoing basis depending on the results achieved from its business activities and operations.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events (including exploration success or failure) and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

<sup>1</sup> Refer to Section 1.8, Table 1.

<sup>2</sup> Refer to Section 1.4.

### 3.2 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted and no Shares are issued including on exercise or conversion of other Securities on issue prior to the Record Date, will be to:

## 4. RIGHTS AND LIABILITIES ATTACHING TO SECURITIES

### 4.1 Rights and liabilities attaching to Shares

The following is a summary of the more significant rights and liabilities attaching to the Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

#### (a) **Voting rights**

At a general meeting, on a show of hands every Shareholder present in person has one vote. At the taking of a poll, every Shareholder present in person or by proxy and whose shares are fully paid has one vote for each of his or her shares. On a poll, the holder of a partly paid share has a fraction of a vote with respect to the share. The fraction is equivalent to the proportion which the amount paid (not credited) bears to the total amount paid and payable (excluding amounts credited).

#### (b) **Dividend rights**

The Directors may pay to ordinary shareholders any interim and final dividends as, in the Directors' judgement, the financial position of Company justifies. The Directors may fix the amount, the record date for determining eligibility and the method of payment. All dividends must be paid to the Shareholders in proportion to the number and the amount paid on the shares held.

#### (c) **Liquidation rights**

Subject to any Shares that may in the future be issued with special or preferential rights (currently there are none), the surplus assets of the Company after winding up will be divided among the members in proportion to the number of Shares held by them, irrespective of the amounts paid or credited as paid on the Shares.

However, a liquidator in a winding-up may, with the sanction of a special resolution of members, divide among the members the whole or any part of the property of the Company and determine how the division is to be carried out as between members of different classes.

#### (d) **Decisions of directors**

Questions arising at a meeting of Directors are decided by a majority of votes. Where the votes are equal on a proposed resolution the Chairman does not have a casting vote.

#### (e) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

#### (f) **Future increase in capital**

Subject to the Constitution, the Corporations Act and the ASX Listing Rules, the Directors may issue, or grant options in respect of, shares to such persons on such terms as they think fit. In particular, the Directors may issue preference shares, including redeemable preference shares, and may issue shares with preferred, deferred or special rights or restrictions in relation to dividends, voting, return of capital and participation in surplus on winding up.

#### (g) **Variation of rights**

The Company may only modify or vary the rights attaching to any class of shares with the prior approval by a special resolution of the holders of shares in that class

at a meeting of those holders, or with the written consent of the holders of at least three-fourths of the issued shares of that class.

(h) **Directors**

The minimum number of Directors is three and the maximum is 14 unless resolved otherwise in general meeting. Currently, there are three Directors. Directors must retire on a rotational basis so that one-third of Directors retire at each annual general meeting. Any other Director who has been in office for three or more years must also retire. A retiring Director is eligible for re-election. The Directors may appoint a Director either in addition to existing Directors or to fill a casual vacancy, who then holds office until the next annual general meeting.

(i) **Alteration of constitution**

The Constitution can only be amended by a special resolution passed by at least 75% of ordinary Shareholders present and voting at a general meeting. At least 28 days' notice of the intention to propose the special resolution must be given.

**4.2 Terms of New Options**

(a) **Entitlement**

Each Option entitles the holder to subscribe for one (1) Share upon exercise of the New Option.

(b) **Exercise Price**

Subject to paragraph (i), the amount payable upon exercise of each New Option will be \$0.036 (**Exercise Price**).

(c) **Expiry Date**

Each Option will expire at 5:00 pm (AEDT) five (5) years from the date of issue (**Expiry Date**). A New Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

(d) **Exercise Period**

The New Options are exercisable at any time on or prior to the Expiry Date (**Exercise Period**).

(e) **Notice of Exercise**

The New Options may be exercised during the Exercise Period by notice in writing to the Company in the manner specified on the New Option certificate (**Notice of Exercise**) and payment of the Exercise Price for each New Option being exercised in Australian currency by electronic funds transfer or other means of payment acceptable to the Company.

(f) **Exercise Date**

A Notice of Exercise is only effective on and from the later of the date of receipt of the Notice of Exercise and the date of receipt of the payment of the Exercise Price for each New Option being exercised in cleared funds (**Exercise Date**).

(g) **Timing of issue of Shares on exercise**

Within 5 Business Days after the Exercise Date, the Company will:

- (i) issue the number of Shares required under these terms and conditions in respect of the number of New Options specified in the Notice of Exercise and for which cleared funds have been received by the Company;
- (ii) if required, give ASX a notice that complies with section 708A(5)(e) of the Corporations Act, or, if the Company is unable to issue such a notice, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy

section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors; and

(iii) if admitted to the official list of ASX at the time, apply for official quotation on ASX of Shares issued pursuant to the exercise of the New Options.

If a notice delivered under (g)(ii) for any reason is not effective to ensure that an offer for sale of the Shares does not require disclosure to investors, the Company must, no later than 20 Business Days after becoming aware of such notice being ineffective, lodge with ASIC a prospectus prepared in accordance with the Corporations Act and do all such things necessary to satisfy section 708A(11) of the Corporations Act to ensure that an offer for sale of the Shares does not require disclosure to investors.

(h) **Shares issued on exercise**

Shares issued on exercise of the New Options rank equally with the then issued shares of the Company.

(i) **Reconstruction of capital**

If at any time the issued capital of the Company is reconstructed, all rights of an Optionholder are to be changed in a manner consistent with the Corporations Act and the ASX Listing Rules at the time of the reconstruction.

(j) **Participation in new issues**

There are no participation rights or entitlements inherent in the New Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the New Options without exercising the New Options.

(k) **Change in exercise price**

A New Option does not confer the right to a change in Exercise Price or a change in the number of underlying securities over which the New Option can be exercised.

(l) **Transferability**

The New Options are transferable subject to any restriction or escrow arrangements imposed by ASX or under applicable Australian securities laws.

## 5. RISK FACTORS

### 5.1 Introduction

The Securities offered under this Prospectus should be considered as highly speculative and an investment in the Company is not risk free.

The Directors strongly recommend that prospective investors consider the risk factors set out in this Section 5, together with all other information contained in this Prospectus.

The future performance of the Company and the value of the Securities may be influenced by a range of factors, many of which are largely beyond the control of the Company and the Directors. The key risks associated with the Company's business, the industry in which it operates and general risks applicable to all investments in listed securities and financial markets generally are described below.

The risks factors set out in this Section 5, or other risk factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities. This Section 5 is not intended to provide an exhaustive list of the risk factors to which the Company is exposed.

Before determining whether to invest in the Company you should ensure that you have a sufficient understanding of the risks described in this Section 5 and all of the other information set out in this Prospectus and consider whether an investment in the Company is suitable for you, taking into account your objectives, financial situation and needs.

If you do not understand any matters contained in this Prospectus or have any queries about whether to invest in the Company, you should consult your accountant, financial adviser, stockbroker, lawyer or other professional adviser.

### 5.2 Company specific

RISK CATEGORY	RISK
<b>Potential for dilution</b>	<p>In addition to potential control impacts set out in Section 1.8, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 16.67% (as compared to their holdings and number of Shares on issue as at the date of this Prospectus).</p> <p>No immediate dilution will occur as a result of the issue of New Options under this Prospectus. However subsequent exercise of any or all of the New Options will result in dilution. Assuming all New Options offered pursuant to this Prospectus are issued and exercised into Shares, Shareholders who do not participate in the Offer, are likely to be diluted by an aggregate of approximately 16.67% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus).</p> <p>It is not possible to predict what the value of the Company, a Share or an Option will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.</p> <p>The last trading price of Shares on ASX prior to the Prospectus being lodged of \$0.027 is not a reliable indicator as to the potential trading price of Shares after implementation of the Offer.</p>
<b>Control risk</b>	Mr Patrick John Volpe (together with his associates, including CAP Holdings) is currently the largest Shareholder of the Company and has a relevant interest in approximately 15.55% of the Shares in the Company. Assuming Mr Volpe takes up its full Entitlement, and no other Shareholders accept their entitlements, Mr Volpe's voting power in the Company could be as high as 18.66%.

RISK CATEGORY	RISK
	<p>As detailed above, one of the Underwriters, CAP Holdings, is an entity associated with Director, Patrick Antonio Volpe. In the event no Eligible Shareholders take up their Entitlements, Mr Patrick John Volpe and his associates take up 100% of their Entitlement under the Offer and the Underwriter (being, one of the associated entities of Patrick John Volpe and Patrick Antonio Volpe) takes up their Underwritten Amount, at completion of the Offer Mr Patrick John Volpe and his associates will hold a voting power of 19.90%.</p> <p>Mr Patrick John Volpe (and his associates') interest in the capital of the Company means that they may be in a position to potentially influence the financial decisions of the Company, and their interests may not align with those of all other Shareholders.</p>
<b>Additional requirements for capital</b>	<p>The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.</p>
<b>Going Concern</b>	<p>The Company's Annual Report for 30 June 2025 (Financial Report) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.</p> <p>Notwithstanding the 'going concern' included in the Financial Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current exploration commitments and short-term working capital requirements. However, it is highly likely that further funding will be required to meet the medium to long term working capital costs of the Company.</p> <p>In the event that the Offer is not completed successfully, there is significant uncertainty as to whether the Company can continue as a going concern which is likely to have a material adverse effect on the Company's activities.</p>
<b>Mineral, development and production</b>	<p>Mineral exploration and development are high risk undertakings. The tenements of the Company are at various stages of exploration, development and production. There can be no assurance that exploration of the mining tenements, or any other tenements that may be acquired in the future, will result in the discovery of economic mineral reserves and, even if identified, there is no guarantee that they can be economically exploited. Even if economic mineralisation is discovered there is no guarantee that it can be commercially exploited.</p>

RISK CATEGORY	RISK
<b>Operating Risks</b>	<p>The operations of the Company may be affected by various factors, including operational and technical difficulties encountered in mining and maintaining mining productivity rates; difficulties in commissioning and operating plant and equipment; unforeseen increases in capital or operating costs; mechanical failure or plant breakdown; unanticipated metallurgical problems which may affect extraction costs; adverse weather conditions (e.g. significant rainfall); delays in construction of tails dam wall lifts; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, labour and contractors, spare parts and plant and equipment. This may have an adverse effect on the operations and production ability of the Company by increasing costs or delaying activities.</p>
<b>Title and Tenure Risk</b>	<p>Interests in mining tenements in Botswana, Australia and Brazil are governed by National (in the case of Botswana) and State (in the case of Australia and Brazil) legislation and are evidenced by the granting of licences or leases. Each licence or lease is for a specific term and has annual expenditure and reporting commitments, together with other conditions requiring compliance. While the Company has good title to its tenements, the Company could lose its title to or its interest in one or more of the tenements in which it has an interest if licence conditions are not met or if insufficient funds are available to meet the minimum expenditure commitments.</p> <p>The Company's mining tenements, and other tenements in which the Company may acquire an interest, will be subject to renewal, which is usually at the discretion of the relevant authority. If a tenement is not renewed the Company may lose the opportunity to discover mineralisation and develop that tenement.</p> <p>The Company cannot guarantee that any tenements in which it has an interest will be renewed beyond their current expiry date, and there is a material risk that, in the event the Company is unable to renew any of its tenements beyond their current expiry date, all or part of the Company's interests in the corresponding projects may be relinquished.</p> <p>On 17 May 2024, the Perth Warden's Court dismissed an application by Camin Resources Pty Ltd (Camin) for 10 Prospecting Licences (39/6390 – 6399), tenements which Monument Pty Ltd, a 100% owned subsidiary of the Company, had made an application to amalgamate with its surrounding tenements. The order was subject to a judicial review period which expired on 27 November 2024. Camin has since referred the matter to the Western Australia Minister for Mines and Petroleum, and the Company may be requested to file a submission in response. In the event the objection is successful the Company's interest in the relevant tenements may be impacted. The Company cannot guarantee the objection won't be successful.</p>
<b>Sovereign Risk</b>	<p>The Company has projects located in Botswana and Brazil. The Company is therefore subject to the risks associated with operating in foreign countries. There are risks attached to exploration and mining operations in foreign countries that are not necessarily present in Australia. These risks may include economic, social or political instability or change, inflation, currency non-convertibility or instability and changes of (or the interpretation of) laws affecting foreign ownership, government</p>

RISK CATEGORY	RISK
	participation, taxation, working conditions, rates of exchange, exchange control, exploration licensing, export duties, repatriation of income or return of capital, environmental protection and labour relations as well as government control over natural resources or government regulations that require employment of local staff or contractors or require other benefits to be provided to local residents.
<b>Geotechnical Risk</b>	Geotechnical risks arise from the movement of the ground during and following mining activity. This may result in temporary or permanent access to a mine being cut off. The loss of access may have a significant impact on the economics of the ore body or delay the delivery of ore to the processing plant. Additionally, significant additional costs may result from designing and constructing alternative access drives which will also impact the economics of the mining operation, potentially making the mine uneconomic. Assessment of the extent and magnitude of ground movements that could take place or that have taken place within the mine and surrounding area will be evaluated by the Company.
<b>Climate Risk</b>	<p>There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:</p> <p>(a) the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. The Company may be impacted by changes to local or international compliance regulations related to climate change mitigation efforts, or by specific taxation or penalties for carbon emissions or environmental damage. These examples sit amongst an array of possible restraints on industry that may further impact the Company and its profitability. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and</p> <p>(b) climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns. All these risks associated with climate change may significantly change the industry in which the Company operates.</p>
<b>Related party risk</b>	<p>The Company has a number of key contractual relationships with related parties. If these relationships breakdown and the related party agreements are terminated, there is a risk that the Company may not be able to find a satisfactory replacement.</p> <p>Further, the operations of the Company will require involvement of related parties and other third parties. With respect to these persons and despite applying best practice in terms of pre-contracting due diligence, the Company is unable to completely avoid the risk of:</p>

RISK CATEGORY	RISK
	<p>(a) financial failure or default by a participant in any agreement to which the Company may become a party; and/or</p> <p>(b) insolvency, default on performance or delivery by any operators, contractors or service providers.</p> <p>There is also a risk that where the Company has engaged a contractor who is a related party, the contract between the contractor and the Company may terminate for reasons outside of the control of the Company. This may then result in the termination of the contract between the Company and the contractor and the impact the Company's position, performance and reputation.</p>

### 5.3 General risks

RISK CATEGORY	RISK
<b>Economic</b>	General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.
<b>Market conditions</b>	<p>Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:</p> <p>(a) general economic outlook;</p> <p>(b) introduction of tax reform or other new legislation;</p> <p>(c) interest rates and inflation rates;</p> <p>(d) changes in investor sentiment toward particular market sectors;</p> <p>(e) the demand for, and supply of, capital; and</p> <p>(f) terrorism or other hostilities.</p> <p>The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.</p>
<b>Litigation risks</b>	The Company is exposed to possible litigation risks including intellectual property claims, contractual disputes, occupational health and safety claims and employee claims. Further, the Company may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on the Company's operations, financial performance and financial position. The Company is not currently engaged in any litigation.
<b>Dividends</b>	Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

RISK CATEGORY	RISK
<b>Taxation</b>	<p>The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All prospective investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.</p> <p>To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Securities under this Prospectus.</p>
<b>Exchange Rate Risk and Commodity Price Volatility</b>	<p>Any revenue the Company may derive through the sale of any other minerals it may discover exposes the potential income of the Company to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of the Company. Such factors include supply and demand fluctuations for precious and base metals, technological advancements, forward selling activities and other macroeconomic factors such as inflation expectations, interest rates and general global economic conditions.</p> <p>Furthermore, international prices of various commodities are denominated in United States dollars whereas the income and expenditure of the Company are and will be taken into account in Australian, Botswanan and Brazilian currency. This exposes the Company to the fluctuations and volatility of the rate of exchange between each of the United States dollar, the Australian dollar and the currencies of Botswana and Brazil as determined in international markets.</p> <p>If the price of commodities declines this could have an adverse effect on the Company's exploration, development and possible production activities, and its ability to fund these activities, which may no longer be profitable.</p>
<b>Reliance on key personnel</b>	<p>The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.</p>
<b>Economic conditions and other global or national issues</b>	<p>General economic conditions, laws relating to taxation, new legislation, trade barriers, movements in interest and inflation rates, currency exchange controls and rates, national and international political circumstances (including outbreaks in international hostilities, wars, terrorist acts, sabotage, subversive activities, security operations, labour unrest, civil disorder, and states of emergency), natural disasters (including fires, earthquakes and floods), and quarantine restrictions, epidemics and pandemics, may have an adverse effect on the Company's operations and financial performance, including the Company's exploration, development and production activities, as well as on its ability to fund those activities.</p> <p>General economic conditions may also affect the value of the Company and its market valuation regardless of its actual performance.</p>

#### 5.4 Speculative investment

The risk factors described above, and other risks factors not specifically referred to, may have a materially adverse impact on the performance of the Company and the value of the Securities.

Prospective investors should consider that an investment in the Company is highly speculative.

There is no guarantee that the Securities offered under this Prospectus will provide a return on capital, payment of dividends or increases in the market value of those Securities.

Before deciding whether to subscribe for Securities under this Prospectus you should read this Prospectus in its entirety and consider all factors, taking into account your objectives, financial situation and needs.

The Underwriting Agreements otherwise contain provisions considered standard for an agreement of its nature (including representations and warranties and confidentiality provisions).

#### **6.4.2 Underwriter and related party considerations**

The Underwriters, CAP Holdings and Ricketts Point Investments, are related parties of the Company for the purposes of the Corporations Act by virtue of:

- (a) Mr Patrick Antonio Volpe being both a Director of the Company and CAP Holdings; and
- (b) Mr Paul Dickson being both a Director of the Company and Ricketts Point Investments.

As Mr Volpe and Mr Dickson are both directors of the Underwriters and the Company, they have some ability to influence the planning, directing and controlling the activities of both entities.

The Board (other than Mr Volpe) considered prior Shareholder approval for the entry into the Underwriting Agreement with CAP Holdings was not required on the basis that the terms of the Underwriting Agreement is considered to be on 'arm's length' terms.

The Board (other than Mr Dickson) considered prior Shareholder approval for the entry into the Underwriting Agreement with Ricketts Point Investments was not required on the basis that the terms of the Underwriting Agreement is considered to be on 'arm's length' terms or terms more favourable to the Company.

Having regard to ASIC Regulatory Guide 6 (Takeovers: Exceptions to the general prohibition) and Regulatory Guide 76 (Related party transactions), the Board considered the terms of the Underwriting Agreements to be on an arm's length basis for the following reasons:

- (a) the Company unsuccessfully sought to engage non-related party underwriters on similar terms prior to engaging the Underwriters;
- (b) the Company engaged in robust protocols to ensure that conflicts of interest were appropriately managed in negotiating and structuring the Underwriting Agreements;
- (c) the purpose of the underwriting is not to confer control onto the Underwriters, but rather to provide a degree of certainty in raising funds under the Offer (on the basis that all Eligible Shareholders will have (in priority) a pro-rata entitlement to subscribe for Shares under the Offer if they choose to participate, including under the Shortfall Offer as set out in Section 1.8);
- (d) the Company has chosen to proceed with the Offer and to engage the Underwriters due to the Company's immediate funding requirements. As at 31 December 2025, the Company had a total of \$0.86 million in cash on hand. The Directors believe that proceeding with the Offer under the current underwriting terms represents the most viable path to urgently secure the necessary capital to meet near-term working capital obligations;
- (e) there are no undisclosed fees payable to the Underwriters; and
- (f) the Underwriters will not receive any benefits, other than as Shareholders of the Company, from the Company's proposed use of capital raised.

In addition, Listing Rule 10.11 provides that unless one of the exceptions in Listing Rule 10.12 applies, a listed company must not issue or agree to issue equity securities to a related party unless it first obtains approval of its shareholders. Listing Rule 10.12 (Exception 2) provides an exception to Listing Rule 10.11, where the securities are being issued to an underwriter under an agreement to underwrite the shortfall of a pro rata issue to shareholders, where the entity has disclosed the name of the underwriter, the extent of the underwriting, the fee, commission or other consideration payable to the underwriter and a summary of the significant events that could lead to the underwriting being terminated in the Appendix 3B lodged in relation to the pro-rata issue.

#### 6.4.3 Takeover Panel Guidance Note 17

The Company has considered Takeovers Panel Guidance Note 17 (**GN 17**) in seeking to put in place appropriate strategies to mitigate the potential control effects of the Offer.

Prior to entering into the Underwriting Agreement with CAP Holdings, the Company considered alternative options to mitigate against any potential control effects. This included exploring several funding alternatives and meeting with unrelated third-party underwriters. The Company was not able to reach agreement in relation to any of these alternatives.

In the Board's opinion, in the current commercial environment and having explored all options, the partial underwriting by CAP Holdings of a non-renounceable entitlement issue was the only feasible underwriting option that was available to the Company in the context of an urgent need for funding by the Company. As at 31 December 2025, the Company had a total of \$0.86 million in cash on hand.

In order to further mitigate the potential control effects of the underwriting by CAP Holdings, the Company included a shortfall facility for Eligible Shareholders to subscribe for extra Shares and has given priority to such Shareholders ahead of the Underwriters, as further described in Section 2.6. In addition, under the Underwriting Agreement with CAP Holdings, the underwriting has been structured so as to maximise funds raised by the Company, subject to a cap designed to ensure that the underwriting does not result in CAP Holdings acquiring voting power in the Company in excess of 19.99% or otherwise giving rise to a prohibited control outcome.

If the Offer is oversubscribed (by take up of Entitlements and applications for Shortfall Shares by Eligible Shareholders), scale back will be applied to applications under the Shortfall Offer on a pro-rata basis to the respective shareholdings of Eligible Shareholders.

Allocation of the Shortfall Shares will be subject to the allocation policy set out in Section 2.6, and no Shares will be issued to an applicant under the Shortfall Offer if the issue of Shares would contravene the takeover prohibition in section 606 of the Corporations Act. To that end, in exercising their discretion regarding the allocation of the Shortfall, the Board will not do so in a manner which is likely to exacerbate a potential unacceptable control effect on the Company.

The Company has a clear need for funds, having a cash balance of only \$0.86 million at 31 December 2025, which has not been contrived, and having regard to all available options, the Company has considered that entering into the Underwriting Agreement with CAP Holdings provides the Company with the highest degree of certainty in the time available, so that the Offer will be successful.

In light of the above, the Company considers that the structure of the Offer should not give rise to unacceptable circumstances.
