\*FUM and flows data in this presentation does not include GQG Private Capital Solutions, unless specifically referenced.

\*\*Intramonth FUM are based on daily un-audited numbers that are subject to change. Where available and known to GQG, we have adjusted flows for fund or strategy net transfers. FUM and flows for our US Retailed Managed Account business are generally reported on monthly or weekly cycles and are thus approximate in the intramonth figures and based on the most recent information received. Furthermore, we caution against extrapolation of this data as seasonality and other factors can have meaningful impact on flows and there may not be a strong signal in such short-term data.

Strategy Level Performance as at 31 December 2025

As at 31 December 2025. Represents composite performance for GQG Partners' primary investment strategies calculated in US dollars. Returns are presented net of management fees and include the reinvestment of all income. Net performance is calculated after the deduction of actual trading expenses and other administrative fees (custody, legal, administration, audit and organisation fees). Net of fee returns also are calculated by deducting GQG's stated annual fee for separately managed accounts, pro-rated on a quarterly basis. Net performance is net of applicable foreign withholding taxes. Performance for periods prior to 1 June 2016 was achieved prior to the creation of the firm. Returns for periods greater than one year are annualised. Full Composite track record in all instances predates the inception of the firm. Full Composite performance is available on request. Benchmarks correspond to the benchmarks GQG has used for each strategy since inception which are published in documentation for funds using the strategy. PAST PERFORMANCE MAY NOT BE INDICATIVE OF FUTURE RESULTS. Please see the Important Information at the end of this document for additional disclosures and benchmark descriptions.

AS AT 31 DECEMBER 2025

## Commentary

- **Net revenue** increased primarily driven by an increase in management fees from growth in average FUM from US\$148.2 billion to US\$164.3 billion, or 10.8%, partially offset by a decrease in fee realization from 49.6 basis points to 48.4 basis points year over year. The decrease in fee realization is primarily due to a shift in strategy and vehicle mix.
- **Operating expenses** increased due to higher compensation and third-party distribution expenses, partially offset by lower general and administrative expenses:
  - **Compensation and benefits** increased, primarily driven by an increase in average number of employees from 212 to 240, or 13.2%, year over year.
  - **Third-party distribution, servicing and related fees** increased, driven by growth in US mutual fund and UCITS FUM.
  - **General and administrative** decreased, primarily due to a decrease in legal, consulting and accounting advisory fees following the completion of PCS-related and other non-recurring projects in 2024; partially offset by an increase in occupancy, middle-office expenses, general business expenses, depreciation expense and non-income taxes.
  - **Information technology and services** increased, primarily due to investments in market research data providers.
- **Non-operating income:** modest change due to offsetting factors. 2024 gain on PCS was not recurring, and FX losses reversed to gains in 2025.
- **Provision for income taxes** increased in absolute and relative terms as a result of higher operating income and a change in effective tax rate to 26.7% from 26.5% due to changes in apportionment and state and local taxes.

## Commentary

- GQG continues to have a strong balance sheet, with total assets as of 31 December 2025 of US\$493.4 million.

### Balance Sheet Highlights

- Cash continues to be primarily used for working capital and dividends.
- **Advisory fee receivable** represents billed and unbilled revenue earned but not yet collected on management and performance fees at the end of the period.
- **Deferred tax asset, net** decreased primarily due to the amortization of the goodwill deferred tax asset for the year-to-date period.
- **Right-of-use assets** and **Operating lease liability** increased primarily due to the commencement of new leases in Fort Lauderdale and Seattle.
- **Compensation accrual and benefits** is primarily comprised of sales commissions incentive compensation and deferred cash incentive programs.

AS AT 31 DECEMBER 2025

## Commentary

- The primary use of GQG's cash continues to be working capital and dividends. Dividends are based upon distributable earnings calculated as Net Income After Tax plus the cash tax savings resulting from the amortization of the goodwill deferred tax asset, less unrealized investment and foreign currency gains and losses.
- GQG paid US\$439.3 million in dividends to investors and dividend equivalents to holders of certain restricted stock units during the year.
- The following dividends were paid during 2025:

USD\$M	4Q24	1Q25	2Q25	3Q25
<b>Dividend Paid</b>	111.7	111.7	105.2	109.3
<b>Payout Ratio</b>	90%	93%	90%	90%

- Board declares 4th quarter 2025 final dividend of US\$0.0365 per share, US\$108.0 million in aggregate, representing a 90% payout ratio of distributable earnings.

The information provided in this document does not constitute investment advice and no investment decision should be made based on it. Neither the information contained in this document or in any accompanying oral presentation is a recommendation to follow any strategy or allocation. In addition, neither is it a recommendation, offer or solicitation to (i) sell or buy any security, (ii) purchase shares in any investment fund that GQG Partners LLC and its affiliates (collectively "GQG") may sponsor, offer or manage, (iii) establish any separately managed account, or (iv) implement any investment advice. It should not be assumed that any investments made or recommended by GQG in the future will be profitable or will equal the performance of any securities discussed herein. Before making any investment decision, you should seek expert, professional advice, including tax advice, and obtain information regarding the legal, fiscal, regulatory and foreign currency requirements for any investment according to the law of your home country, place of residence or current abode.

This document reflects the views of GQG as of a particular time. GQG's views may change without notice. Any forward-looking statements or forecasts are based on assumptions and actual results may vary.

GQG provides this information for informational purposes only. GQG has gathered the information in good faith from sources it believes to be reliable, including its own resources and third parties. However, GQG does not represent or warrant that any information, including, without limitation, any past performance results and any third-party information provided, is accurate, reliable or complete, and it should not be relied upon as such. GQG has not independently verified any information used or presented that is derived from third parties, which is subject to change. Information on holdings, allocations, and other characteristics is for illustrative purposes only and may not be representative of current or future investments or allocations.

The information contained in this document is unaudited. It is published for the assistance of recipients, but is not to be relied upon as authoritative and is not to be substituted for the exercise of one's own judgment. GQG is not required to update the information contained in these materials, unless otherwise required by applicable law.

The contents of this document are confidential and intended solely for the recipient. No portion of this document and/or its attachments may be reproduced, quoted or distributed without the prior written consent of GQG.

Any account or fund advised by GQG involves significant risks and is appropriate only for those persons who can bear the economic risk of the complete loss of their investment. There is no assurance that any account or fund will achieve its investment objectives. Accounts and funds are subject to price volatility and the value of a portfolio will change as the prices of investments go up or down. Before investing in a strategy, you should consider the risks of the strategy as well as whether the strategy is appropriate based upon your investment objectives and risk tolerance.

There may be additional risks associated with international and emerging markets investing involving foreign, economic, political, monetary, and/or legal factors. International investing is not for everyone. You can lose money by investing in securities.

Unless otherwise indicated, the performance information shown is unaudited, pre-tax, net of applicable management, performance and other fees and expenses, presumes reinvestment of earnings and excludes any investor-specific charges. All past performance results must be considered with their accompanying footnotes and other disclosures.

Past performance may not be indicative of future results. Performance may vary substantially from year to year or even from month to month. The value of investments can go down as well as up. Future performance may be lower or higher than the performance presented, and may include the possibility of loss of principal. It should not be assumed that recommendations made in the future will be profitable or will equal the performance of securities listed herein.

Actual returns will be reduced by the advisory fees and any other expenses that may be incurred in the management of any investment advisory account or fund. Fees may be modified or waived for certain investors. Please refer to Part 2A of GQG's Form ADV for a complete description of GQG's customary investment advisory fees. Refer to the offering memorandum or prospectus of a fund advised by GQG for a description of fees and expenses associated with it. An investor's actual performance and actual fees may differ from the performance information shown due to, among other factors, capital contributions and withdrawals/redemptions, different fund share classes and eligibility to participate in "new issues." Certain investment strategies and fund share classes may be closed, including any share class from which performance shown has been derived.

GQG Partners LLC claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this performance information in compliance with the GIPS standards. GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. GIPS composite reports may be obtained by emailing [clientservices@gqg.com](mailto:clientservices@gqg.com).

Performance data is based on the firm's composites for each strategy. The composites were created in June 2016. Performance presented prior to June 1, 2016 was achieved prior to the creation of the firm. The prior track record has been reviewed by Ashland Partners & Company, LLP and conforms to the portability requirements of the GIPS standards. On June 28, 2017, ACA Performance Services, LLC acquired the investment performance service business of Ashland Partners & Company, LLP. For periods after June 1, 2016, the composites consist of accounts managed by GQG pursuant to the strategy.

A representative portfolio is the account in a composite that GQG believes most closely reflects the current portfolio management style for a strategy. Performance is not a consideration in the selection of a representative portfolio. The information for a representative portfolio may differ from that of a composite, however, performance for the representative portfolio is generally not materially higher than the performance of a composite.

The US dollar is the currency used to express performance. Returns are presented net of management fees and include the reinvestment of all income. Net performance is calculated after the deduction of actual trading expenses and other administrative fees (custody, legal, administration, audit and organization fees). Net returns are calculated using the highest/model rack rate fee. Net performance is net of foreign withholding taxes. PAST PERFORMANCE MAY NOT BE INDICATIVE OF FUTURE RESULTS. Returns for periods greater than one year are annualized.

GQG Partners LLC is a wholly owned subsidiary of GQG Partners Inc., a Delaware corporation that is listed on the Australian Securities Exchange (ASX: GQG). GQG Partners LLC and its affiliates provide certain services to each other.

GQG Partners LLC is registered as an investment adviser with the US Securities and Exchange Commission. Please see its Form ADV Part 2, which is available upon request, for more information.

## INFORMATION ABOUT CHANNEL CLASSIFICATIONS

Sub-advisory: Pooled funds where we provide investment advisory services on a delegated basis and the fund sponsor provides distribution services directly or through intermediaries. Wholesale: Pooled funds where we serve as primary investment adviser and arrange for distribution through third party intermediaries. ## INFORMATION ABOUT BENCHMARKS

MSCI benchmark returns have been obtained from MSCI, a non-affiliated third-party source. Neither MSCI nor any other party involved in or related to compiling, computing or creating the MSCI data makes any express or implied warranties or representations with respect to such data (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability or fitness for a particular purpose with respect to any of such data. Without limiting the foregoing, in no event shall MSCI, any of its affiliates or any third party involved in or related to compiling, computing, or creating the data have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Net total return indices reinvest dividends after the deduction of withholding taxes, using (for international indices) a tax rate applicable to nonresident institutional investors who do not benefit from double taxation treaties.

Information about benchmark indices is provided to allow you to compare it to the performance of GQG strategies. Investors often use these well-known and widely recognized indices as one way to gauge the investment performance of an investment manager's strategy compared to investment sectors that correspond to the strategy. However, GQG's investment strategies are actively managed and not intended to replicate the performance of the indices: the performance and volatility of GQG's investment strategies may differ materially from the performance and volatility of their benchmark indices, and their holdings will differ significantly from the securities that comprise the indices. You cannot invest directly in indices, which do not take into account trading commissions and costs.
