This represents a net equity exposure of \$99,000.

#### *Costs paid by Regal Partners*

The Investment Manager continues to show strong alignment with and support of the Company and its shareholders, with its Parent Company, Regal Partners Limited (**Regal Partners**), paying the majority of the Company's operating costs. In the six months ended 31 December 2025, the Regal Partners paid for over \$200,000 of operating expenses (2024: \$220,000) which include ASX and ASIC fees, audit costs, legal and tax advice costs, external advisor costs and any fees charged by the Company's Fund Administrator.

This represented approximately 25% of the shares the Company had on issue as at 17 October 2024 (being the last practicable day prior to finalisation of the notice of meeting of the AGM). The approval received from shareholders did not oblige the Company to undertake a buy-back of any shares. It was not guaranteed that the Company will buy back either the maximum number of issued shares approved pursuant to this resolution or as otherwise permitted by the *Corporations Act 2001* (Cth). The Company retains the ability to undertake on-market share buy-back under the 10/12 rule, which permits buy-back of up to 10% of issued capital within any 12-month period without requiring shareholder approval.

The buy-back will be funded from the Company's available cash reserves and conducted on-market. The objective of the buy-back remains capital management.

### On-market share buy-back program

The objective of the buy-back is capital management. Any buy-back or series of such transactions will be funded from the Company's existing financial resources where the Directors consider that it is in the interest of all existing shareholders to do so.

As part of the Company's 2024 Annual General Meeting (**AGM**) in November 2024, the Company sought and received approval from its shareholders to undertake an on-market buy-back of up to 39,486,547 shares in the Company over the 12-month period commencing from the AGM date. This represented approximately 25% of the shares the Company had on issue as at 17 October 2024 (being the last practicable day prior to finalisation of the notice of meeting of the AGM). The approval received from shareholders did not oblige the Company to undertake a buy-back of any shares. It was not guaranteed that the Company will buy back either the maximum number of issued shares approved pursuant to this resolution or as otherwise permitted by the *Corporations Act 2001* (Cth). The Company retains the ability to undertake on-market share buy-back under the 10/12 rule, which permits buy-back of up to 10% of issued capital within any 12-month period without requiring shareholder approval.

## 8. Financial instruments measured at fair value

The Company measures and recognises its investments as 'financial assets and liabilities at fair value through profit or loss' on a recurring basis.

*AASB 13: Fair Value Measurement* requires the disclosure of fair value information using a fair value hierarchy reflecting the significance of the inputs in making the measurements. The fair value hierarchy consists of the following levels:

- Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
- Level 3 fair value measurements are those derived from valuation techniques that include inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The following table presents the Company's 'financial assets and liabilities measured and recognised at fair value' at the reporting date. The carrying amounts of all financial instruments are reasonable approximations of the respective instrument's fair value.

### *Transfers between levels*

The Company's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the end of the reporting period. There were no transfers between levels for recurring fair value measurements during the half-year ended 31 December 2025 (30 June 2025: nil).

#### *Listed equity securities*

Listed equity securities for which quoted prices in an active market for an identical instrument are available are valued using those prices (Level 1 measurement).

#### *Equity swaps*

Market inputs to equity swaps, such as market prices for equity swaps, are based on the relevant market close price on the relevant exchange. If the required inputs are not available from external pricing sources, they will be obtained either from the counterparty or market maker quotes.

#### *Foreign currency forward contracts*

The foreign currency forward contracts pricing model derives the exchange rate differential between currencies from the expiration date of the forward contracts and calculates its present value.

## 9. Derivative contracts

The Company has investments in derivative contracts, which are included in the Statement of Financial Position as part of “Financial assets / liabilities at fair value through profit or loss”.

The Company's outstanding derivative contracts are detailed below:

	<b>Notional value assets \$</b>	<b>Notional value liabilities \$</b>	<b>Fair value assets \$</b>	<b>Fair value liabilities \$</b>

<b>Total</b>		<b>48,922,858</b>		<b>9,098,681</b>

### *Equity swaps*

The Company enters into equity swaps which represent agreements that obligate two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Therefore, amounts required for the future satisfaction of the swap may be greater or less than the amount recorded.

The realised gain or loss depends upon the prices at which the underlying financial instrument of the swap is valued at the swap's settlement date and is included in net gains on financial assets / liabilities measured at fair value through profit or loss in the Statement of Profit or Loss and Other Comprehensive Income.

### *Foreign currency forward contracts*

The Company may use foreign currency forward contracts to meet the requirements of its trading activities and for risk management. Foreign currency forward contracts are agreements for delayed delivery of specific currencies and commodities in which the seller agrees to make delivery at a specified future date of specified currencies and commodities. Risks associated with foreign currency forward contracts are the inability of counterparties to meet the terms of their respective contracts and movements in fair value and exchange rates. Gains and losses on foreign currency forward contracts are recorded based on changes in the fair values and are included with net gains on financial assets / liabilities measured at fair value through profit or loss in the Statement of Profit or Loss and Other Comprehensive Income.

## 9. Derivative contracts (continued)

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. In the normal course of business, the Company enters into various master netting agreements or other similar arrangements that do not meet the criteria for offsetting in the Statement of Financial Position but still allow for the related amounts to be offset in certain circumstances, such as bankruptcy or the termination of the contracts.

The disclosures set out in the table below include financial assets and financial liabilities that are subject to an enforceable master netting or similar agreement that covers similar financial instruments as at 31 December 2025 and 30 June 2025. The similar agreements include derivative clearing agreements. Similar financial instruments include derivatives and securities borrowing agreements.

# Independent Auditor's Review Report

To the shareholders of Regal Asian Investments Limited (RG8)

- giving a true and fair view of the Company's financial position as at 31 December 2025 and of its performance for the Half-year ended on that date; and
- complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

The **Half-year Period** is the six months ended on 31 December 2025.

## Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report.

We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the *Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

## Responsibilities of the Directors for the Half-year Financial Report

The Directors of the Company are responsible for:

- the preparation of the Half-year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*
- such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

## Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Company's financial position as at 31 December and its performance for the Half-Year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with *Australian Auditing Standards* and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
