- ▶ Acquisition follows **Genesis' outstanding production and cash generation for January 2026** - Gold production stands at 23koz for the 31-day period, driven by record monthly mill throughput at Laverton of 292kt, resulting in **cash and equivalents of A\$465 million at 31st January⁷ (~A\$404 million at 31st December)**. January production included no third-party ore with the final campaign on track to end by 31st March 2026

Genesis Executive Chair, Raleigh Finlayson, said:

"This transaction creates substantial value for both groups of shareholders, delivering genuine synergies while combining the right assets with the right people".

"Magnetic's Lady Julie Gold Project will add more than 2Moz at an attractive high grade to Genesis' Laverton inventory, further bolstering the mine life and production outlook".

"Shareholders of both companies will benefit by leveraging Genesis' existing infrastructure, including the 3Mtpa Laverton mill, and through the savings which would flow from a single open pit development".

Magnetic Managing Director, George Sakalidis, said:

"Genesis' offer follows a strategic review which the Board and its advisers have been working on for several years to explore potential options to collaborate with other operators which have the existing skill set or combination synergies to develop Magnetic's discoveries and unlock value for our shareholders".

⁷ December Cash, bullion and listed investments of A\$403.6 million (Refer to GMD ASX Announcement dated 29th January 2026 "Quarterly Activities Report – December 2025"; January 2026 underlying cash generation of ~A\$83 million before investing A\$22 million in growth and exploration.

Genesis will retain a liquidity position of pro forma ~A\$280 million (with Genesis retaining the right to elect the funding composition of the total cash consideration across available cash and corporate revolving cash advance facility).

⁹ Based on Magnetic's 295,454,516 fully paid ordinary shares, 20,418,862 nil-paid Contributing Shares and 5,000,000 performance rights and Genesis' 1,142,328,193 fully paid ordinary shares outstanding. Excludes Magnetic's 3,750,000 unlisted options, which are intended to be cancelled via private treaty for cash. This also assumes 28,012,245 New Genesis Shares issued to Magnetic shareholders (including holders of performance rights that vest) under the proposed Scheme.

¹⁰ These voting undertakings also restrict the shareholders from disposing of, or encumbering, the Magnetic shares the subject of the undertaking, and from acquiring further relevant interests in Magnetic shares. The shareholders are able to terminate the undertakings in the event of a superior proposal (after giving effect to Genesis' matching rights) or if the independent expert concludes that the Scheme is not in the best interests of Magnetic shareholders.

¹¹ Date is indicative only. Any changes to timetable will be announced to ASX and will be available under Genesis' profile on ASX.

"This proposal provides an opportunity for shareholders to realise an attractive premium, with the flexibility to accept cash or shares in Genesis. Exchanging Magnetic shares for Genesis shares will enable Magnetic shareholders to retain exposure to Lady Julie with the benefit of Genesis' best-in-class project development team, diversified operating cash flow and robust balance sheet.

The Board of Magnetic is pleased to unanimously recommend the Scheme in the absence of a Superior Proposal emerging and subject to the independent expert concluding (and continuing to conclude) that the Scheme is in the best interest of Magnetic shareholders and look forward to working with Genesis to implement the transaction".

Overview of the Scheme

Genesis Minerals Limited (ASX:GMD) (**Genesis**) and Magnetic Resources NL (ASX:MAU) (**Magnetic**) are pleased to announce that they have entered into a binding Scheme Implementation Deed (**SID**) under which it is proposed that Genesis will acquire 100% of the issued shares in Magnetic by way of a Court-approved scheme of arrangement under Part 5.1 of the *Corporations Act 2001* (Cth) (**Scheme**).

Under the terms of the Scheme, Genesis will acquire 100% of the issued fully-paid ordinary shares in Magnetic (**Magnetic Shares**) for A\$1.40 cash and 0.0873 New Genesis Shares for each Magnetic Share (approximately 70% cash and 30% scrip) as default consideration (**Default Consideration**).¹²

Holders of Magnetic Shares will have the ability to elect to receive the Scheme consideration in the form of 100% cash (**Maximum Cash Consideration**) or 100% New Genesis Shares (**Maximum Scrip Consideration**) as alternatives to the Default Consideration, subject in each case to scale back based on a maximum total cash pool of A\$445 million¹³. Further details are set out in the SID attached to this announcement and will be included in the Scheme Booklet to be issued by Magnetic. Based on a Genesis share price of A\$6.87¹⁴, the Default Consideration implies a value of A\$2.00 per Magnetic Share and a fully diluted equity value for Magnetic of ~A\$639 million.¹⁵ Upon implementation of the Scheme, Magnetic shareholders will own ~2.4% of the pro forma Genesis shares outstanding.¹⁶

Subject to the terms of the Scheme, Magnetic shareholders who do not make an election will receive the Default Consideration¹⁷.

The Scheme is subject to certain conditions, including (among other things):

- ▶ an independent expert issues a report which concludes that the Scheme is in the best interests of Magnetic shareholders before the date on which the Scheme Booklet is lodged with ASIC;
- ▶ customary conditions, including receipt of regulatory approvals and no Material Adverse Change, Magnetic Prescribed Event or Genesis Prescribed Event occurring (each as defined in the SID);
- ▶ approval by Magnetic shareholders at a meeting of shareholders to vote on the Scheme (**Scheme Meeting**). For the Scheme to proceed, the resolutions at the Scheme Meeting must be approved by at least 75% of all votes cast by Magnetic shareholders and a majority by number of all Magnetic shareholders present and voting (in person or by proxy) at the Scheme Meeting;
- ▶ the requisite Court approvals;
- ▶ the approval, clearance or waiver of the transaction by the Australian Competition and Consumer Commission; and
- ▶ cancellation of Magnetic Options currently on issue.

The full conditions are set out in the SID, a copy of which is attached as Appendix E to this announcement.

¹² Cash element of the default Scheme consideration for Magnetic shareholders holding Magnetic Contributing Shares is A\$1.20, to reflect the A\$0.20 unpaid amount per share; Genesis and Magnetic intend to enter into private treaty arrangements with the holders of unlisted options in Magnetic to cancel their options for a cash payment of \$0.47 per option. Ineligible Foreign Shareholders (as defined in the SID) will receive the Scheme consideration in the form of 100% cash.

¹³ Ineligible Foreign Shareholders (as defined in the SID) will receive the Scheme consideration in the form of 100% cash.

¹⁴ Being the closing price of Genesis shares on the ASX as of 13 February 2026, the last ASX trading day immediately preceding this announcement.

¹⁵ Fully diluted equity value based on implied Scheme consideration of A\$2.00 per share for Magnetic's 295,454,516 fully paid ordinary shares and 5,000,000 performance rights, A\$1.80 for 20,418,862 nil-paid Contributing Shares on issue and cash payment of \$0.47 per option for Magnetic's 3,750,000 unlisted options which are intended to be cancelled via private treaty for cash.

¹⁶ Based on Magnetic's 295,454,516 fully paid ordinary shares, 20,418,862 nil-paid Contributing Shares and 5,000,000 performance rights and 1,142,328,193 Genesis ordinary shares currently outstanding. Excludes Magnetic's 3,750,000 unlisted options, which are intended to be cancelled via private treaty for cash. This also assumes 28,012,245 New Genesis Shares issued to Magnetic shareholders (including holders of performance rights that vest) under the proposed Scheme.

¹⁷ Ineligible Foreign Shareholders (as defined in the SID) will receive the Scheme consideration in the form of 100% cash.

The SID contains customary exclusivity obligations, including “no shop”, “no talk” and “no due diligence” restrictions, notification obligations and a regime giving Genesis matching rights in the event any Superior Proposal emerges for Magnetic. The “no talk” and “no due diligence” restrictions are subject to customary fiduciary exceptions.

The SID also details circumstances under which a mutual A\$6.39 million break fee may be required to be paid.

Full details of the terms and conditions of the proposed transaction (including the draft Scheme) are set out in the SID, a copy of which is attached as Appendix E to this announcement.

Strategic rationale

The Scheme is expected to deliver significant value for Genesis shareholders if successfully implemented, including:

5 Strategic acquisition of the Lady Julie Gold Project with a Mineral Resource of ~2.2Moz grading 1.8g/t Au¹⁸ situated in close proximity to Genesis' operating 3Mtpa Laverton mill;
Lady Julie adjoins Mineral Resources recently acquired by Genesis via its acquisition of Focus Minerals Limited's Laverton Gold Project¹⁹, meaning there is scope for substantial synergies and cost savings as opposed to two separate neighbouring operations;
10 **The current pit size and extensional upside are curtailed by the Magnetic / Genesis tenement boundary; Removing this boundary presents a genuine synergy for both sets of shareholders;**

- ▶ Expands Genesis' Laverton footprint and adds valuable Mineral Resource and Ore Reserve ounces and highly prospective exploration targets;
- ▶ Step change in Genesis' Laverton Mineral Resources to ~8.4Moz Au, an increase of 40%, consisting of:
 - Magnetic's Mineral Resources of ~2.4Moz Au (44Mt at 1.7g/t Au)²⁰; and
 - Genesis' Laverton Mineral Resources of ~6.0Moz Au (120Mt at 1.6g/t Au)²¹;
- ▶ Leveraging its strong balance sheet and proven technical expertise, the acquisition paves the way for an uplift in Genesis' growth strategy to "ASPIRE 500";
- ▶ Cash component of Scheme consideration reduces overall dilution to existing Genesis shareholders, supporting long-term value accretion;
- ▶ Longer term opportunities for further inorganic growth with the acquisition bolstering ongoing studies into expanding the milling capacity at Laverton; and
- ▶ Scrip component of Scheme consideration preserves Genesis' strong net cash and liquidity position and ensures it remains well capitalised to fund growth initiatives across its Leonora and Laverton operations.

The benefits of the Scheme to Magnetic shareholders include:

- ▶ Immediate upside through the delivery of an attractive premium to recent Magnetic trading prices including²²:
 - 25% premium to last close of A\$1.60 for Magnetic Shares; and
 - 35% premium to 30-day volume weighted average price of A\$1.49 for Magnetic Shares;
- ▶ Holders of Magnetic Shares will have the ability to elect to receive the Maximum Cash Consideration or the Maximum Scrip Consideration in place of the Default Consideration, subject in each case to scale back mechanisms, with²³:
 - Upfront cash consideration providing immediate and certain value; and
 - Scrip consideration providing ongoing exposure to the exploration and development of Lady Julie;
- ▶ Accelerated and de-risked development of Lady Julie leveraging Genesis' proven technical and development expertise (i.e. open pit expertise and low cost GMS internal mining services division), strong balance sheet and cashflow generation;
- ▶ Material diversification and broader benefits from receiving New Genesis Shares, including:
 - Exposure to Genesis' Leonora and Laverton operations, two high-quality, high-margin production centres in Western Australia with FY2026 production outlook guidance of ~275,000 ounces (mid-point), and 10+ years mine life backed by existing Ore Reserves;²⁴ and
 - Enhanced market positioning, increased liquidity and improved access to capital markets via Genesis' larger market capitalisation and inclusion in ASX100 index.

Overview of Magnetic

Magnetic is an ASX-Listed gold developer, with a primary focus on the exploration and development of its flagship Lady Julie Gold Project, located in the Laverton region of Western Australia.

Currently Magnetic has a total Mineral Resource of ~2.4Moz and Ore Reserves of ~1.0Moz²⁵.

²⁰ Refer to MAU ASX Announcement dated 20th January 2026 entitled "Lady Julie Gold Project Exceeds 2.24Moz – Updated" available at <https://cdn-api.markitdigital.com/apiman-gateway/ASX/asx-research/1.0/file/2924-03047553-6A1307726&v=undefined>.

²¹ Genesis Laverton Mineral Resource excludes Leonora Mineral Resource (~9.7Moz Au) and Bardoc (~2.9Moz Au); See Appendix A.

²² Calculated on the basis of the Default Consideration of A\$2.00 per Magnetic Share, based on Genesis' closing share price on the ASX of A\$6.87 per share on 13 February 2026. The implied value of the Default Consideration and the Maximum Scrip Consideration will change with fluctuations in Genesis' share price. Rounding errors may occur.

²³ Scale back mechanisms are detailed further in the draft Scheme included in the SID attached as Appendix E to this announcement. Ineligible Foreign Shareholders (as defined in the SID) will receive the Scheme consideration in the form of 100% cash.

Tenement Overview

Within the Laverton region, Magnetic has a total tenement package of ~202km² comprising E38/3127 Hawks Nest, E38/3100 Mt Jumbo, E38/3205 Hawks Nest East, E38/3666 Lady Julie North 4 East, P38/4319 & P38/4322 Mt Jumbo East, E39/2125 & P39/6134-44 Little Well, P38/4380, P38/4380 & P38/4382 Lady Julie and P38/4581 LNJ4 NE (Figure 2).

Mining and Miscellaneous Licences approved in 2025 included M38/1315 LNJ4, L38/0395 HN Connection Corridor, M38/1317 Hawks Nest 9, and M38/1318 Lady Julie Hub.

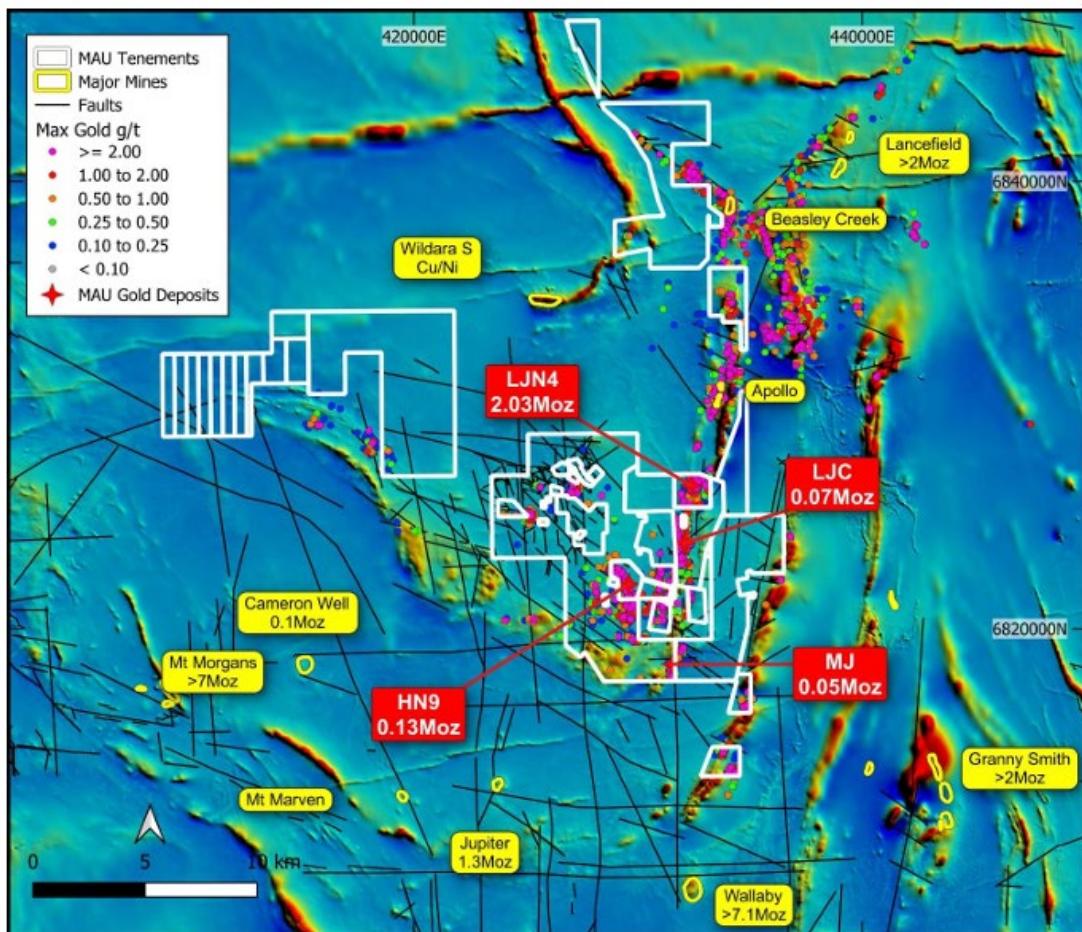

Figure 2. Lady Julie North 4 (LJN4), Lady Julie Central (LJC), Hawks Nest 9 (HN9) and Mt Jumbo (MJ) projects, showing tenements, major shear zones, targets and gold deposits and historic workings.

Lady Julie Gold Project

Lady Julie (100% owned by Magnetic) is located in the Laverton region of Western Australia on existing mining leases. Lady Julie consists of three deposits, Lady Julie Central, Lady Julie North 4 (**LJN4**) and Hawks Nest 9, with a combined Mineral Resource Estimate of 2.2Moz Au, at an average Au grade of 1.8g and an Ore Reserve Estimate of 1.0Moz, at an average Au grade of 1.7g²⁶. These three areas are all shallow deposits with Lady Julie Central and Hawks Nest 9 starting from surface and Lady Julie North 4 from 30m depth, thus providing low strip ratios and potential for open-cut mining and which is effectively part of one mining centre.

Magnetic's latest publicly announced Mineral Resource Estimate (see Magnetic ASX Announcement dated 20 January 2026 referred to in footnote 26) follows the completion of several deep diamond infill drillholes at LJN4 in 2025 to upgrade the resource category in the northern portion of the current resource, and to expand the resource at depth. Following this work, the combined Mineral

Resource for Lady Julie now exceeds 39.1Mt at ~1.8g/t containing ~2.2Moz, with approximately 80% of the resource defined within the Indicated category. 82% of the largest resource, LJN4, now falls in the Indicated category (Table 1), amounting to an 8% increase.

The updated Mineral Resource Estimate at LJN4 represents an excellent development proposition which is now significantly larger, both in scale and detail, than the resource considered in the Lady Julie Feasibility Study (refer to MAU ASX announcement released 23 July 2025²⁸), with the depth of information now available providing increased confidence in the viability of the proposed development and associated unlocked value.

Lady Julie is located ~20kms east of Genesis' existing processing capacity and supporting infrastructure at Laverton.

Magnetic Board and shareholder support for the Scheme

The Board of Magnetic unanimously supports the Scheme and has unanimously recommended that Magnetic shareholders vote in favour of the Scheme, in the absence of a Superior Proposal emerging and subject to an independent expert concluding (and continuing to conclude) that the Scheme is in the best interests of Magnetic shareholders.

Major shareholders of Magnetic, holding 58,014,762 Magnetic Shares (approximately 19.64% of Magnetic's ordinary shares on issue), being Mr Chim Seng Oan (27,095,503 Magnetic Shares, approximately 9.17%), Target Range Pty Ltd (21,495,107 Magnetic Shares, approximately 7.28%) and Alcock Superannuation Fund Pty Ltd (9,424,152 Magnetic Shares, approximately 3.19%), have undertaken to Genesis to vote the Magnetic Shares that they currently hold in favour of the Scheme (and not dispose of or encumber the Magnetic Shares the subject of the undertaking). The shareholders may terminate these undertakings in the event of a Superior Proposal (after giving effect to Genesis' matching rights under the SID) or if the independent expert concludes that the Scheme is not in the best interests of Magnetic shareholders.

Magnetic Contributing Shares and Magnetic Options

Magnetic's nil-paid Contributing Shares will be acquired by Genesis as part of the Scheme. Genesis and Magnetic have agreed that Magnetic shareholders holding Magnetic Contributing Shares will receive default Scheme consideration of A\$1.20 plus 0.0873 New Genesis Shares per Magnetic Contributing Share and will also have the ability to elect to receive that Scheme consideration in the form of 100% cash or 100% New Genesis Shares as alternatives to the default Scheme consideration (subject in each case to the scale-back mechanism referred to above)²⁹.

In addition, Genesis intends to enter into private treaty arrangements with the holders of unlisted Magnetic Options under which the holders agree to cancel all of their Magnetic Options for cash consideration of \$0.47 for each Magnetic Option (to be paid or funded by Genesis), subject to receipt of usual ASX waivers and to the Scheme becoming effective.

²⁷ Refer to Appendix A for Mineral Resource Estimates; Notes: All figures reported to two significant figures. Rounding errors may occur. Mineral Resources are inclusive of Ore Reserves. Rounding may result in apparent summation differences between tonnes, grade and contained metal content.

²⁸ Refer to MAU ASX Announcement dated 23 July 2025 entitled "Feasibility Study Confirms Robust Economics for Lady Julie" available at <https://cdn-api.markitdigital.com/apiman-gateway/ASX/asx-research/1.0/file/2924-02969865-6A1274187&v=undefined>.

²⁹ Reflects the unpaid amount of A\$0.20 on each Magnetic Contributing Share. Ineligible Foreign Shareholders (as defined in the SID) will receive the Scheme consideration in the form of 100% cash.

Further details of the obligations of the parties relating to both the Magnetic Contributing Shares and Magnetic Options are set out in the SID, a copy of which is attached as Annexure E to this announcement.

Certain interests of Magnetic in the Scheme

As at the date of this announcement, the Magnetic Board collectively holds ~59.4 million or 20.1%³⁰ of the Magnetic Shares on issue, approximately ~3.2 million or 15.7%³¹ of the Magnetic Contributing Shares on issue, all of the 3.75 million unlisted Magnetic Options on issue and all of the 5 million Magnetic performance rights on issue.

The Magnetic Directors have each carefully reviewed their positions and consider that their interests in the Magnetic Shares, Magnetic Contributing Shares, Magnetic Options and Magnetic performance rights do not preclude them from making recommendations in relation to the Scheme.

Genesis funding overview

As at the date of this announcement Genesis has existing cash reserves, bullion and liquid investments of ~A\$465 million and an undrawn corporate revolving cash advance facility of A\$225 million, providing total available liquidity of ~A\$690 million³².

Genesis intends to fund the cash consideration component of the Scheme consideration via a combination of existing cash reserves and amounts available under the undrawn corporate revolving cash advance facility. Following implementation of the Scheme, Genesis will retain significant balance sheet flexibility with pro forma ~A\$280 million in available funding³³.

The scrip component of the Scheme consideration helps preserve Genesis' balance sheet and liquidity position to ensure it remains well capitalised to fund its growth strategy, including organic growth across its Leonora and Laverton operations.

Indicative timetable

Magnetic Shareholders do not need to take any action in relation to the Scheme at this stage.

Magnetic Shareholders will be asked to approve the Scheme at a Scheme Meeting expected to be held in late May or early June 2026.

A Scheme Booklet containing information in relation to the Scheme including the basis for the Magnetic Board's unanimous recommendation, an Independent Expert's Report and details of the Scheme is expected to be circulated in Late April 2026.

The Scheme Booklet will be accompanied by an election form in relation to the election of the Maximum Cash Consideration and the Maximum Scrip Consideration.

Section 1 Sampling Techniques and Data – Magnetic Resources

Criteria	JORC Code explanation	Comments																																				
Sampling Techniques	<ul style="list-style-type: none"> Nature and quality of sampling (e.g., cut channels, random chips, or specific specialised industry standard measurement tools appropriate to the minerals under investigation, such as down hole gamma sondes, or handheld XRF instruments, etc). These examples should not be taken as limiting the broad meaning of sampling. Include reference to measures taken to ensure sample representivity and the appropriate calibration of any measurement tools or systems used. Aspects of the determination of mineralisation that are Material to the Public Report. In cases where 'industry standard' work has been done this would be relatively simple (e.g., 'reverse circulation drilling was used to obtain 1m samples from which 3 kg was pulverised to produce a 30 g charge for fire assay'). In other cases, more explanation may be required, such as where there is coarse gold that has inherent sampling problems. Unusual commodities or mineralisation types (e.g., submarine nodules) may warrant disclosure of detailed information. 	<p>The table below summarises the different types of drilling that have been carried out at the Lady Julie/Hawks Nest 9 deposits.</p> <table border="1"> <thead> <tr> <th>Hole Type</th><th>Holes</th><th>Metres</th><th>%</th></tr> </thead> <tbody> <tr> <td>RC</td><td>1971</td><td>159,979</td><td>63.0%</td></tr> <tr> <td>RAB</td><td>843</td><td>24,488</td><td>9.6%</td></tr> <tr> <td>AC</td><td>579</td><td>29,782</td><td>11.7%</td></tr> <tr> <td>DDH</td><td>82</td><td>37,096</td><td>14.6%</td></tr> <tr> <td>RCD</td><td>12</td><td>2,347</td><td>1.0%</td></tr> <tr> <td>Unk</td><td>11</td><td>295</td><td>0.1%</td></tr> <tr> <td>VAC</td><td>15</td><td>48</td><td>0.1%</td></tr> <tr> <td>Total</td><td>3,522</td><td>254,035</td><td></td></tr> </tbody> </table> <ul style="list-style-type: none"> More than 80% of RC drilling (which is the basis of the mineral resource estimate) has been completed by Magnetic Resources. The remainder were drilled by more than a dozen other exploration companies. All the reported historical drilling and relevant sampling procedures, QAQC and analytical methods etc. are referred to in the original WAMEX reports (references in the main text of ASX release of 7 November 2018) For Magnetic's RC drilling, a 1 metre split is taken directly from a cone splitter mounted beneath the drill rig's cyclone. The cyclone and splitter are cleaned regularly to minimize contamination. Sampling and QAQC procedures are carried out using Magnetic's protocols as per industry sound practice. Historic RC drilling methodology has obtained bulk 1 metre samples from which composite 4m samples were prepared by spear sampling of the bulk 1m samples. 3kg of the composite sample was pulverized to produce a 50g charge for fire assay for gold. The assay results of the composite samples are used to determine which 1m samples from the drill rig's cyclone and splitter are selected for fire assay using the same method. Various drilling additives (including muds and foams) have been used to condition the RC holes to maximize recoveries and sample quality. Quality of assay data and laboratory tests	<ul style="list-style-type: none"> The nature, quality and appropriateness of the assaying and laboratory procedures used and whether the technique is considered partial or total. For geophysical tools, spectrometers, handheld XRF instruments, etc, the parameters used in determining the analysis including instrument make and model, reading times, calibrations factors applied and their derivation, etc. Nature of quality control procedures adopted (e.g., standards, blanks, duplicates, external laboratory checks) and whether acceptable levels of accuracy (i.e. lack of bias) and precision have been established. 	<ul style="list-style-type: none"> RC samples are assayed using a 50g charge and a fire assay method with an AAS finish which is regarded as appropriate. The technique provides an estimate of the total gold content. Industry standard standards and duplicates are used by the NATA registered laboratory conducting the analyses. Verification of sampling and assay	<ul style="list-style-type: none"> The verification of significant intersections by either independent or alternative company personnel. The use of twinned holes. Primary data is entered into an in-house database and checked by the database manager No adjustment of assay data other than averaging of repeat and duplicate assays No verification of historically reported drilling has been carried out.

Core samples were normally sampled at 1m intervals. Data spacing and distribution is sufficient to establish geological and grade continuity appropriate for Mineral Resource estimation.
Orientation of data in relation to geological structure	<ul style="list-style-type: none"> Whether the orientation of sampling achieves unbiased sampling of possible structures and the extent to which this is known, considering the deposit type. A limited number of vertical diamond holes were completed at LJN4. There is currently insufficient evidence to indicate any sampling bias

Environmental factors or assumptions	<ul style="list-style-type: none"> Assumptions made regarding possible waste and process residue disposal options. Mineral Resource Estimate for Conversion to Ore Reserves	<ul style="list-style-type: none"> <i>Description of the Mineral Resource estimate used as a basis for the conversion to an Ore Reserve.</i> <i>Clear statement as to whether the Mineral Resources are reported additional to, or inclusive of, the Ore Reserves.</i> 	<ul style="list-style-type: none"> Mineral Resource has been estimated and reported previously, as noted in previous sections. The resource block models were evaluated by third party open pit optimizer using a range of economic modifying factors (detailed fully in the FS document). The optimization parameters were subsequently verified by detailed scheduling and zero-base costing. The resource and mining reserve statements are reported separately. The mining inventory is a subset of the resource total.
Site Visits	<ul style="list-style-type: none"> <i>Comment on any site visits undertaken by the Competent Person and the outcome of those visits.</i> <i>If no site visits have been undertaken indicate why this is the case.</i> 	<ul style="list-style-type: none"> Site visits were undertaken in June 2023, November 2023, January 2024 and June 2024 by Mr Cullum, a competent person, who completed the economic evaluation.
Study Status	<ul style="list-style-type: none"> <i>The type and level of study undertaken to enable Mineral Resources to be converted to Ore Reserves.</i> <i>The Code requires that a study to at least Pre-Feasibility Study level has been undertaken to convert Mineral Resources to Ore Reserves. Such studies will have been carried out and will have determined a mine plan that is technically achievable and economically viable, and that material Modifying Factors have been considered.</i> 	<ul style="list-style-type: none"> A Feasibility study was undertaken to convert resources to an open pit mining reserve The open pit mining reserve was computed using detailed pit designs. Capacity based extraction was used to schedule pit depletion and hence production estimates. Underground mining inventory was based on individual stope designs, whose extraction was scheduled according to available resources. The resource block model was adjusted with mining recovery and extraction factors to suit the deposit style and configuration.
Cut-off Parameters	<ul style="list-style-type: none"> <i>The basis of the cut-off grade(s) or quality parameters applied.</i> 	<ul style="list-style-type: none"> For open pit ore, the processing cutoff (0.55g/t Au) utilized the mined grade, process recovery, and cost factors for mining, processing, administration and recovery. The gold price (AUD4,000/oz) was the standard used for the study. Revenue was adjusted for royalty. For underground, the processing cutoff calculation employed the same economic inputs albeit with a higher mining cost. The cutoff here was 1.55g/t Au. The incremental cutoff (0.3g/t Au) used the same factors excluding ex pit haulage, i.e. it assumed the mineralized rock was stockpiled on surface.
Mining Factors or Assumptions	<ul style="list-style-type: none"> <i>The method and assumptions used as reported in the Pre-Feasibility or Feasibility Study to convert the Mineral Resource to an Ore Reserve (i.e., either by application of appropriate factors by optimisation or by preliminary or detailed design).</i> <i>The choice, nature and appropriateness of the selected mining method(s) and other mining parameters including associated design issues such as pre-strip, access, etc.</i> <i>The assumptions made regarding geotechnical parameters (eg pit slopes, stope sizes, etc), grade control and pre-production drilling.</i> <i>The major assumptions made, and Mineral Resource model used for pit and stope optimisation (if appropriate).</i> <i>The mining dilution factors used.</i> <i>The mining recovery factors used.</i> <i>Any minimum mining widths used.</i> <i>The manner in which Inferred Mineral Resources are utilised in mining studies and the sensitivity of the outcome to their inclusion.</i> <i>The infrastructure requirements of the selected mining methods.</i> 	<ul style="list-style-type: none"> Optimisation was the method used to interrogate the block model to create pit shells. The desired pit shell (based on planned gold price) was then adjusted to incorporate a ramp and to factor geotechnical considerations. The adjusted pit design led to a mining inventory. Optimisation factors were selected based on recent experience or test results. A similar optimisation technique was used to schedule underground lode exploitation. Rib and sill pillars were added to ensure stability – both being guided by geotechnical considerations. Open pit mining was the chosen method of extraction because it allowed the appropriate scale to extract the majority of the resource in the most economical fashion. The pre-strip requirement for each orebody was considered in selecting the extraction sequence for scheduling. Ore that could not be easily exploited by open pit means, was considered for underground mining. Longhole stoping was chosen as it balanced the need for productivity and stability. Pit wall slope angles were calculated following detailed analysis of diamond drill core, with drilling located to test the rocks near the planned pit walls. Geotechnical modelling (with up to 4 modes of failure assessed in each pit) has been undertaken by a consultant in the field. Geotechnical assessment of underground stope stability used drill core and stress field measurements from nearby mines to guide stope span design.

Criteria	JORC Code explanation	Comments
		<ul style="list-style-type: none"> In each case, the block model used for open pit optimisation represented the latest resource estimate for each of the mineralized zones, LN4, LLC and HN9. The resources were reported to the ASX in June 2025. For underground modelling, the resource reported to the ASX in January 2025 was used. The open pit mining factors employed were – dilution 15%, recovery 95%. There were considered appropriate for the ore configuration and its impact on mining. For underground, design dilution was incorporated in the stope reserves – it varies according to the configuration of mineralisation. A minimum mining width of 20m was used in considering cutbacks. Inferred resource has been included in the mineral inventory estimation – it represents 7% of the total. When scheduling the inventory, the Inferred category material is not mined until after year 5 by which time project payback has been achieved. The Inferred resource grade is similar to that in Indicated category so the impact on overall economics by this inclusion is low. For both open pit and underground mining, infrastructure will be developed commensurate with the needs of the activity. For both, it will comprise offices, workshops, fuel storage and distribution, change facilities, dewatering pumping and storage capacity, small magazine. Personnel will be FIFO and accommodation will be provided in Laverton.
Metallurgical Factors or Assumptions	<ul style="list-style-type: none"> <i>The metallurgical process proposed and the appropriateness of that process to the style of mineralisation.</i> <i>Whether the metallurgical process is well-tested technology or novel in nature.</i> <i>The nature, amount and representativeness of metallurgical test work undertaken, the nature of the metallurgical domaining applied and the corresponding metallurgical recovery factors applied.</i> <i>Any assumptions or allowances made for deleterious elements.</i> <i>The existence of any bulk sample or pilot scale test work and the degree to which such samples are considered representative of the orebody as a whole.</i> <i>For minerals that are defined by a specification, has the ore reserve estimation been based on the appropriate mineralogy to meet the specifications?</i> 	<ul style="list-style-type: none"> The ore is free milling and is similar to many other deposits in the Eastern and Northern Goldfields. Processing will require crushing and grinding, followed by gravity separation, flotation with the concentrate fine ground and the tails subject to cyanide leaching. The addition of the flotation/fine grind circuit has boosted overall average recoveries from 88 to 91.9%. The processes consist of gravity recovery, CIL leaching, flotation and fine grinding. Composite samples from drill cuttings (representing each oxidation state and lithology) have been tested. Weighted average recoveries were used in modelling for fresh, transition and oxide ores respectively. An overall average recovery of 91.9% was achieved in modelling. No deleterious elements noted in testwork. There was some preg robbing potential noted in some LJC samples but this had no impact on overall recovery. The composite samples collected were from drilling at various locations in each deposit so provided a broad mix of each oxidation state. Resource assessment is based on gold assay only.
Environmental	<ul style="list-style-type: none"> <i>The status of studies of potential environmental impacts of the mining and processing operation. Both ore and waste are non-acid forming so no encapsulation is required and no lining of the tailings dam is required. Tailings will be neutralised before being pumped to the dam to remove residual cyanide. Approval for dumps is pending – the Mining Proposal is currently under review.
Infrastructure	<ul style="list-style-type: none"> <i>The existence of appropriate infrastructure: availability of land for plant development, power, water, transportation (particularly for bulk commodities), labour, accommodation; or the ease with which the infrastructure can be provided, or accessed.</i> 	<ul style="list-style-type: none"> There is no infrastructure on the site, however Laverton is 17 km away and there is an all-weather shire road at the lease boundary. The constructed cost is estimated at plus/minus 20%. A contingency of 10% of plant cost has been applied. Other capital costs have been estimated on the basis of recent Establishment and Mobilisation experience. Operating costs have been based on quoted purchase/hire rates for equipment, full on-costed labour rates (labour hire quotes), and current estimates for major commodities. Productivity is based on recent experience in similar mining operations. Costs are worked up from a zero base and then checked against industry unit cost experience. There is no allowance for inflation. The same principle applies for mining, processing and administration. Recent contracted rates in area have been used for bulk commodity transport.

Market Assessment	<ul style="list-style-type: none"> <i>The demand, supply and stock situation for the particular commodity, consumption trends and factors likely to affect supply and demand into the future.</i> <i>A customer and competitor analysis along with the identification of likely market windows for the product.</i> <i>Price and volume forecasts and the basis for these forecasts.</i> <i>For industrial minerals the customer specification, testing and acceptance requirements prior to a supply contract.</i> 	<ul style="list-style-type: none"> Gold is not traded as an industrial commodity. Central banks hold the largest reserves and have been buying gold in the last 2 years. Demand for gold increases in times of tension or when countries rebalance their reserves. Gold is internationally traded and is sourced from many countries. Australia is one of the top 3 producers. Gold produced from the project will be sold through Perth mint at prices set daily by the LME. Supply and demand of gold is not linked to industrial usage so forecasts generally balance supply and demand. Price has risen from AUD553/oz to AUD3,100/oz in the last 18 years – a CAGR of 10.0%. No price growth is assumed in the model.
Economic	<ul style="list-style-type: none"> <i>The inputs to the economic analysis to produce the net present value (NPV) in the study, the source and confidence of these economic inputs including estimated inflation, discount rate, etc.</i> <i>NPV ranges and sensitivity to variations in the significant assumptions and inputs.</i> 	<ul style="list-style-type: none"> An inflation rate of 0 has been applied to both costs and revenue. The discount rate used in NPV calculation was 8%. The project cashflow to compute NPV was derived from costing/revenue computed on a quarterly basis linked to production scheduled from the designed pits/underground mine. The feasibility study calculated project NPV as a base and then subjected it to various key assumptions. Variables with the greatest impact include ore grade, gold recovery and gold price. A 9% change in either variable will alter the NPV by 19%. The impact of other variable like CAPEX or operating cost are far less significant..

Testing, modelling and monitoring are key elements of mine planning. The project sites are all on approved exploration or prospecting licenses. Mining leases are under application with submission of a Mining Proposal; approval of the Mining Proposal will also specify any operating conditions. No marketing arrangement is in place – a contract with Perth Mint will be concluded close to time. There are reasonable grounds to expect that all necessary government approvals will be received. A Mining Proposal has been submitted for consideration. The grant of a mining lease (and approval of Mining Proposal) is subject to signing of a Native Title Agreement, negotiations for which are currently in progress.

This will be progressively improved to Proven category with grade control drilling ahead of mining. The results reflect the nature, style and scale of project proposed as engineered by the competent person, Mr Andrew Cullum. JORC Code, 2012 Edition – Table 1 Chatterbox Trend

Section 1 Sampling Techniques and Data

(Criteria in this section apply to all succeeding sections.)

Criteria	Commentary
Sampling techniques	<ul style="list-style-type: none"> This report relates to results from Reverse Circulation (RC) and diamond core (DDH) drilling. Unless specifically mentioned Chatterbox deposits Apollo - Whisper, Eclipse – Garden Well, Innuendo and Rumor are referred to the Chatterbox in this table. The deposits covered in this release have been drilled by various companies over the years. Most companies held multiple tenements during their tenure with similar drill practices were applied at each deposit. This includes Focus Minerals Ltd (FML), Crescent Gold NL (Crescent), Metex Resources (Metex) and its Laverton Exploration Joint Venture (LEJV) with Delta Gold NL (DGL) and Placer Dome Asia Pacific (PDAP), Sons of Gwalia Ltd (SOG), Western Mining Corporation (WMC), Hillmin Gold Mines Pty Ltd (Hillmin), which was renamed Ashton Gold Mines Pty Ltd (Ashton) in October 1989. This was dissolved in December 1990 with all rights and obligations assumed by Ashton Gold (WA) Ltd. Chatterbox Trend was drilled by FML, Crescent, Metex/LEJV and WMC. Early Crescent RC holes were sampled at 1m intervals with the sample from the cyclone being collected in a plastic bag then put through a 75/25 riffle splitter, resulting in a 3-4kg sample. Later, larger programs collected 1m RC samples automatically using a cone splitter off the drill rig producing 3kg samples. Crescent diamond core was sampled across geologically identified zones of mineralisation, the sample lengths varied between a minimum of 0.1m and a maximum of 1.3m. The diamond core was marked up for sampling by the supervising geologist during the core logging process, with sample intervals determined by the presence of lithology, alteration, and where applicable core loss. The core was cut in half using a core saw and the same half of the core (RHS looking downhole) was routinely sent to the laboratory for analysis. FML and more recent Crescent RC percussion drill chips were collected through a cone splitter from the drill rig. The bulk sample from drilling was placed in neat rows directly on the ground (not bagged) with the nominal 2-3kg calico split sub-sample placed on top of the corresponding pile. RC chips were passed through a cone splitter to achieve a nominal sample weight of approximately 3kg. The splitter was levelled at the beginning of each hole. Geological logging defined whether a sample was to be submitted as a 1m cone split sample or a 4m spear composite sample. Split samples (1m) were transferred to sample numbered calico bags for submission to the laboratory. Composite samples were spear sampled using a scoop to obtain a small representative sample and deposited into numbered sample bags. Mineralised 4m composite sampled where resampled at 1m intervals using stored original 1m cyclone split samples. FML diamond core was sampled across identified zones of mineralisation and vary from 0.2m to a maximum of 1.2m. The core was cut in half using a core saw and the ½ core samples submitted for assay. WMC RC samples were collected on 1m intervals. Metex / LEJV collected RC samples in 1m intervals in plastic bags. All dry sample were riffle split to return a representative 1m split sample for analysis. Any wet/Moist samples where 50mm PVC spear sampled. Samples were 4m composites with corresponding 1m intervals resampled via the same method from composites that returned assay values greater than 0.1ppm. Metex Diamond holes had an RC pre-collar that was generally composite sampled in 4m intervals, the core was half core samples with sample lengths from only a handful of 4m composites to 0.5m length with the majority of core sampled to 1m intervals.
Drilling techniques	<ul style="list-style-type: none"> Only Reverse Circulation (RC) and Diamond drilling (DD) methods have been included in the resource estimate. FML RC drilling was conducted using a 5 3/8inch face sampling hammer for RC drilling or NQ2 triple tube diamond drilling. At hole completion, downhole surveys for RC holes were completed at 30m intervals using a True North Seeking Gyro tool. Crescent completed RC using a face sampling hammer or HQ diamond drilling. Metex/LEJV RC drilling was conducted using 5 3/8inch bits and face sampling hammers with 900cfm/350psi of air boosted to 1200cfm/700psi where necessary by an auxiliary compressor. Metex Diamond drilling was by NQ sized core barrels at Gladiator and PQ or HQ triple tube core barrels at Chatterbox all with RC pre-collars. Metex reported that WMC RC holes were drilled using a conventional cross-over sub.
Drill sample recovery	<ul style="list-style-type: none"> Historic RC drill sample recovery is not well documented. FML/Crescent RC sample recovery was recorded by a visual estimate % during the logging process. Crescent diamond core recovery was reported as a percentage of the core run. FML diamond core recovery was measured and recorded as a percentage of the core “run”. That is, the length of core between the run blocks against the increase in hole depth. Metex/LEJV sample recovery is not well documented in their WAMEX reports. In a Chatterbox report diamond core recoveries were generally good. Core loss was recorded in limited areas with significant jointing/fractures or weathered clays. Along the Chatterbox trend the high water table issues prevalent at Beasley Creek also impacted samples. Work by Crescent in 2011 to establish unreliable samples based on logging of Wet samples or poor recovery from sample weights were flagged and excluded from the Resource estimate. Metex developed a sample quality matrix to log sample return and moisture when logging. Sample recovery/return was split into 0-25%, 25-65%, 65- 100%; whilst moisture was Wet, Damp, Dry. A record of 1 had the lowest recovery and was wet, 9 was considered high recovery and dry. Samples logged with a Quality ranking of wet, regardless of % return was set to absent and ignored during the grade estimation process but used in the guidance of mineralisation.
Logging	<ul style="list-style-type: none"> FML/Crescent RC samples were geologically logged to record weathering, regolith, rock type, colour, alteration, mineralisation, structure, texture and any other notable features that are present. All data is entered directly into validating digital software directly. In addition to parameters logged over RC chips, all diamond core was also logged for structure. If an orientation line was available, structure orientation measurements were taken and recorded.

Criteria	Commentary
	<ul style="list-style-type: none"> Core holes were oriented where possible and marked into metre intervals with relation to hole depth. Any loss of core was noted and recorded in the drilling database. Recovery and RQD measurements were recorded. The logging information was transferred into the company's drilling database once the log was complete. Logging was qualitative, however the geologists often recorded quantitative mineral percentage ranges for the sulphide minerals present. Diamond core was photographed one core tray at a time wet and dry using a standardised photography jig. The entire length of all holes was logged. WMC RC samples were logged to record colour, grain size, occasional weathering, structural fabric and rock type. Metex/LEJV RC and DD holes were logged for colour, weathering, structural fabric, alteration, veining, mineralisation, sample quality and lithology. Diamond core was also logged for recovery and RQD.
Sub-sampling techniques and sample preparation	<ul style="list-style-type: none"> FML All samples were collected in a pre-numbered calico bag bearing a unique sample ID. Jinning Testing & Inspection completed the assay testing, with sample preparation and assay completed in Kalgoorlie. All samples were oven dried, crushed to a nominal 10mm using a jaw crusher (core samples only) and weighed. Samples in excess of 3kg in weight were riffle split to achieve a maximum 3kg sample weight before being pulverized to 90% passing 75µm. Gold analysis was by 40g Fire Assay with an AAS Finish. Crescent submitted 1m RC samples or 1/2 core diamond samples. Samples were collected in pre-numbered bags weighing approx. 3kg and submitted to various laboratories for fire assay or screen fire assay with an ICP-OES or AAS Finish. WMC sub-sampling and assay preparation not documented. Samples were submitted to WMC labs at its Windarra or Kalgoorlie operations. Metex/ LEJV RC samples were submitted to Amdel or Genalysis Kalgoorlie for analysis with either an aqua regia digest or 50g fire assay. At Gladiator a multielement analysis was run on samples. Metex diamond samples were submitted to Genalysis for multielement analysis with Aqua regia analysis and fire assay on the re-split.
Quality of assay data and laboratory tests	<ul style="list-style-type: none"> FML inserted 2 standards and collected 4 duplicates for every 100 samples. Diamond core field duplicates were not taken. Laboratory replicates were also taken in the sample preparation stage by the responsible laboratory. All results from assay standards, duplicates and lab repeats were scrutinised to ensure they fell within acceptable tolerances. Crescent submitted Certified Standards, blanks, field duplicates and laboratory repeats at regular intervals over the drill programme. Crescent logged the sample quality as wet, moist or dry and reviewed sample weights to flag holes as being unreliable and excluded from the estimation. Crescent also twinned 5 RC holes at Innuendo with diamond to ascertain the effects of the high water content encountered whilst drilling. The report concluded there is reliability issues with down hole contamination in wet samples. This has been taken into account with the estimation by removing all samples logged as wet or unreliable. All results from assay standards, duplicates and lab repeats were scrutinised to ensure they fell within acceptable tolerances. Crescent resource geologists also reviewed the available QAQC data for pre- Crescent drilling and generated Q-Q plots to compare the data within flagged lodes and filtered by reliability. The data distribution between companies was comparable and considered acceptable to use. WMC sample checks and laboratory information is not well documented however the drilling techniques and assay method are appropriate for this style of mineralisation. Previous Crescent and Metex resource estimates have reviewed and plotted QQ plots to confirm the tenor of mineralisation is comparable. Metex submitted field duplicates at a rate of 1:50 for RC drilling and also used laboratory repeats and standards in their quality checks. In 1998 along the Chatterbox trend Metex drilled diamond holes to twin previously drilled Metex RC holes as a check. Results showed similar widths and grades of mineralisation were intersected by both drilling methods. No geophysical tools, spectrometers or handheld XRF instruments were used.
Verification of sampling and assaying	<ul style="list-style-type: none"> Historic sampling and assaying have been checked against hard copy WAMEX reports. FML primary data is sent in digital format to the company's Database Administrator (DBA) as often as was practicable. The DBA imports the data into an acQuire database, with assay results merged into the database upon receipt from the laboratory. Once loaded, data was extracted for verification by the geologist in charge of the project. No adjustments were made to any current or historic data. If data could not be validated to a reasonable level of certainty it was not used in any resource estimations.
Location of data points	<ul style="list-style-type: none"> FML utilises Landgate sourced regional topographic maps and contours as well as internally produced survey pick-ups produced by the mining survey teams utilising DGPS base station instruments. FML drill collars were surveyed upon completion, using a DGPS instrument. Drill core was oriented by the drilling contractor using an Ezy-mark system. For RC a north-seeking gyroscope tool was used to survey down hole. For DDH a magnetic single shot survey was completed at 30m intervals on advance. The majority of Crescent Gold holes were surveyed by Electronic Multi-shot down hole or gyroscopic survey with collars surveyed by site survey personnel. Drill core was oriented by the drilling contractor using an Ezy-mark system. WMC holes were collar surveyed by WMC survey staff in a local grid. Metex/LEJV holes were surveyed by a consultant survey company. Diamond core samples were surveyed by Single Shot Eastman camera. Later RC holes drilled in the JV were gyroscopic down-hole surveyed. All coordinates and bearings use the MGA94 Zone 51 grid system. Historic holes have been converted to MGA94 Zone 51 grid system in Acquire. Historic hole collars were sometimes still visible and re-surveyed to check the accuracy of the grid conversion. The comparison was considered within acceptable error limits of using a DGPS unit.
Data spacing and distribution	<ul style="list-style-type: none"> Drill spacing along the Chatterbox Trend within the deposit areas is nominally on a grid spacing of 25m x 25m, although at Rumor the grid spacing is closer to 50m x 25m. Apollo within and proximal to the existing open pits has been drilled down to 12.5m x 12.5m spacing in places. Between deposits spacing increases to 50m x 25m and 100m x 50m at the extremes.
Orientation of data in relation	<ul style="list-style-type: none"> Drilling was designed based on known geological models, field mapping, verified historical data and cross-sectional interpretation. Drill holes were oriented at right angles to strike of deposit, with dip optimised for drill capabilities and the dip of the ore body.

Criteria	Commentary
<i>to geological structure</i>	
Sample security	<ul style="list-style-type: none"> • All samples were reconciled against the sample submission with any omissions or variations reported to FML. • All samples were bagged in a tied numbered calico bag, grouped into green plastic bags. The bags were placed into bulka bags with a sample submission sheet and kept within the Laverton yard until ready for transport to Kalgoorlie by transport courier. • Historic sample security is not recorded.
Audits or reviews	<ul style="list-style-type: none"> • Early Crescent Resource Models were completed by external consultants who undertook data validation as part of the scope of works. • No external audit or review of the Resource Models has been undertaken.

Section 2 Reporting of Exploration Results

(Criteria in this section apply to all succeeding sections.)

Criteria	Commentary
<i>Mineral tenement and land tenure status</i>	<ul style="list-style-type: none"> • All exploration was conducted on tenements 100% owned by FML or its subsidiary companies Focus Operations Pty Ltd and Focus Minerals Laverton. All tenements are in good standing. • Various royalties may be in place as documented in the FML Annual Report. • Native title determination for Nyalpa Pirniku was announced on 31 October 2023. The Laverton Gold Project includes regions that are variously classified in this determination. The Central Laverton deposits and Mineralised Trends detailed in this report are within regions now classified as: Native title exists (non exclusive). • Chatterbox deposits occur across tenements M 38/535 and M 38/101.
<i>Exploration done by other parties</i>	<ul style="list-style-type: none"> • Various stakeholders over the years have engaged in activities over the deposits including but not limited to geological mapping, ground magnetic surveys, soil sampling, aeromagnetic surveys, costean sampling and rock chip sampling. • Drilling campaigns have been completed over the area by various parties detailed in Section 1. • Along with RC and DD drilling, Air Core and RAB drilling methods have been used to delineate the deposits. • Focus Minerals Laverton successful acquired Crescent Gold in October 2012. • Along the Chatterbox, in 2004 the JV between Metex Resources and PDAP mined a trial pit at Apollo (formerly known as Whisper at time of mining) as part of a pre-feasibility study. A figure of 68Kt @ 2.44g/t Au for 5,351 ounces has been recorded. Crescent Gold commenced open cut mining along the Apollo trend as four discrete pits, separate from the original Whisper pit, from November 2011 to September 2012. The pits varied from 20m deep to 75m total depth. A total of 1.05Mt @ 1.76g/t Au for 59,500 ounces was mined from the four pits. Eclipse (Garden Well) was also mined by Crescent during this time to a depth of 60m for a total of 103Kt @ 2.86g/t Au for 9,443 ounces. • Locally the Chatterbox Trend of deposits is hosted by a large-scale structural feature of the region – the Chatterbox Shear Zone, from which its name is derived. This moderately ESE dipping ductile/brittle fault zone separates the Laverton Lithostructural domains from the Mount Margaret Lithostructural domains. Rock units within the deposit areas are strongly altered and sheared sediments and metasediment rocks, felsic intrusives and ultramafics to the east, in the footwall. Mineralisation is commonly associated with increased goethite/manganese/hematite alteration or the intrusions.

- (A) any Magnetic Director's, the Magnetic Board's (or any sub-committee of the Magnetic Board's) and management's (a **Relevant Person**) consideration of the Transaction or any proposal by Genesis at any time in relation to the acquisition of an interest in Magnetic; or

- (B) result in a waiver or loss of legal professional privilege.

5.3 Genesis's right to separate representation

Genesis is entitled to separate representation at all Court proceedings relating to the Scheme. Nothing in this deed is to be taken to give Magnetic any right or power to make or give undertakings to the Court for or on behalf of Genesis.

(c) A Magnetic Director may withdraw their Recommendation if an Abstain Requirement applies to that Magnetic Director.

(d) A statement made by Magnetic, the Magnetic Board or any Magnetic Director, to the effect that no action should be taken by Magnetic Shareholders pending the assessment of a Competing Transaction by the Magnetic Board or the completion of the matching right process set out in clause 9.7 will not contravene any provision of this deed.

- (d) Without limiting its other obligations under this clause 9.5, Magnetic must keep Genesis reasonably informed on a prompt and timely basis (and in any event within 48 hours after the receipt or delivery thereof) of the status of and any material developments, discussions or negotiations regarding any Competing Transaction or proposed Competing Transaction and the material terms and conditions thereof (including any change in price or form of consideration or other material amendment thereto), and must provide Genesis with such information regarding any Competing Transaction or proposed Competing Transaction reasonably requested by Genesis.

9.6 Fiduciary exceptions

The obligations in each of clauses 9.3 and 9.4 do not apply to the extent that they restrict Magnetic, the Magnetic Board or any other Representative of Magnetic from taking or refusing to take any action with respect to a bona fide Competing Transaction (which did not directly or indirectly result from a contravention of clause 9.2, 9.3 or 9.4) provided that the Magnetic Board has determined, in good faith that:

- (a) after consultation with its financial advisors, such bona fide Competing Transaction is, or could reasonably be expected to become, a Superior Proposal; and
- (b) after receiving written legal advice from external legal advisers, compliance with that clause would be reasonably likely to constitute a breach of the Magnetic Board's fiduciary or statutory obligations.

9.7 Matching right

- (a) During the Exclusivity Period, Magnetic:
 - (i) must not, and must procure that each other member of the Magnetic Group and its and their Representatives do not, enter into any legally binding agreement, arrangement or understanding (whether or not in writing) pursuant to which a third party or Magnetic proposes (or both a third party and Magnetic propose) to undertake or give effect to an actual, proposed or potential Competing Transaction; and
 - (ii) must procure that no Magnetic Director changes, withdraws, modifies or qualifies their recommendation in favour of the Scheme or publicly recommends, supports or endorses an actual, proposed or potential Competing Transaction or makes any public statement to the effect that they may do so at a future time,

unless:

- (iii) the Magnetic Board acting in good faith, after taking advice from its external legal and financial advisers, determines that the Competing Transaction constitutes a Superior Proposal;
- (iv) the Magnetic Board, after receiving such legal advice from its external legal advisers, determines that the failure to take such actions specified in clause 9.7(a)(i) and/or 9.7(a)(ii) would be reasonably likely to constitute a breach of the Magnetic Board's fiduciary or statutory duties to Magnetic Shareholders;
- (v) Magnetic has provided Genesis with the material terms and conditions of the Competing Transaction (including price and the identity of the person that has proposed the Competing Transaction); and
- (vi) Genesis has not, within five Business Days of the notification under clause 9.7(a)(v), submitted a written proposal to Magnetic (including a proposed variation to the terms of the Scheme or any other transaction) (**Revised Genesis Proposal**) which is on terms no less favourable to Magnetic than the Competing Transaction (taking into account, without limitation, the price, form and certainty of consideration to be provided under the Revised Genesis Proposal).

(b) The Magnetic Board must consider the Revised Genesis Proposal and if it determines, acting in good faith after taking advice from its external legal and financial advisers, that the Revised Genesis Proposal is on terms no less favourable to Magnetic than the Competing Transaction (taking into account, without limitation, the price, form and certainty of consideration to be provided under the Revised Genesis Proposal), Magnetic and Genesis must, in the absence of receipt of a more favourable proposal for another Competing Transaction, use reasonable endeavours to agree any amendments to this deed and the contents of the Scheme Booklet (if applicable), which are reasonably necessary to reflect the Revised Genesis Proposal.

(c) Any amendment or modification of a Competing Transaction proposed by a third party that results in the Magnetic Board determining that the amended or modified Competing Transaction is, or may reasonably be expected to lead to, a Superior Proposal will be deemed to be a new Competing Transaction so that the provisions of this clause 9.7 will require notification by Magnetic to Genesis of the terms of the amended Competing Transaction and the right of Genesis to match such amended Competing Transaction, but on the basis that Genesis will have 5 Business Days to submit a revised proposal.

9.8 Permitted conduct

Nothing in this clause 9 (nor in any other clause of this deed) prevents Magnetic from:

- (a) publicly releasing a statement to the effect that:
 - (i) the Magnetic Board has determined that a Competing Transaction (which did not directly or indirectly result from a contravention of clause 9.2, 9.3 or 9.4) is a Superior Proposal and has commenced the matching right process set out in clause 9.7; and
 - (ii) Magnetic Shareholders should take no action pending the completion of the matching right process set out in clause 9.7;
- (b) providing information to its Representatives, its Subsidiaries and Representatives of its Subsidiaries; or
- (c) providing information required to be provided by applicable law, including to satisfy its obligations of disclosure under the rules or policies of an applicable securities exchange or to any Regulatory Authority,

nor will any such activity give rise to any contravention of this deed, an obligation to pay any break fee nor any right to terminate any of this deed, the Scheme or the Deed Poll.

9.9 Legal advice

Magnetic acknowledges that it has received legal advice on this deed and the operation of this clause 9 and clause 10.

10. Reimbursement of costs - Magnetic**10.1 Background**

This clause 10 has been agreed in circumstances where:

- (a) Genesis and Magnetic believe that the Transaction will provide significant benefits to Genesis, Magnetic and their respective shareholders, and Genesis and Magnetic acknowledge that, if they enter into this deed and the Scheme is subsequently not implemented, Genesis will incur significant costs;
- (b) Genesis has requested that provision be made for the payment outlined in clause 10.2, without which Genesis would not have entered into this deed;
- (c) the Magnetic Board believes that it is appropriate for Magnetic to agree to the payment referred to in clause 10.2, without which Genesis would not have entered into this deed; and
- (d) Magnetic has received legal advice on this deed and the operation of this clause 10.

10.2 Payment

Magnetic agrees to pay to Genesis \$6,390,000 if:

- (a) **(Competing Transaction)** on or before the End Date a Competing Transaction is announced or is open for acceptance and is reasonably capable of being completed and is more favourable to Magnetic Shareholders than the Scheme;
- (b) **(withdrawal or modification of recommendation)** any Magnetic Director:
 - (i) fails to recommend the Scheme as contemplated by clause 6.3;
 - (ii) withdraws or adversely modifies their recommendation contemplated by clause 6.3; or
 - (iii) makes any public statement to the effect, or takes (or fails to take) any other action that suggests that they no longer make the recommendation contemplated by clause 6.3,

except:

- (iv) if a Magnetic Director changes his recommendation following the receipt of the Independent Expert's Report where that report states that in the opinion of the Independent Expert the Scheme is not in the best interests of, Magnetic Shareholders (other than where a Competing Transaction has been proposed or announced before the report is issued which the Independent Expert may reasonably regard to be on more favourable terms than the transaction contemplated by this deed);
- (v) where Magnetic is entitled to terminate this deed pursuant to clause 15.1(i) and has given the appropriate termination notice to Genesis;
- (vi) where Magnetic is entitled to terminate this deed as a result of a Genesis Prescribed Event and has given the appropriate termination notice to Genesis; or
- (vii) if the Magnetic Director abstains from making a recommendation to Magnetic Shareholders (or publicly withdraws their recommendation) in accordance with an Abstain Requirement that relates to that Magnetic Director.

- (c) **(material breach)** Genesis terminates this deed under clause 15.1(h);
- (d) **(breach of exclusivity)** Magnetic is in breach of clause 9 and does not cease the conduct which caused the breach within 5 Business Days following written notice from Genesis outlining the nature of the breach;
- (e) **(Superior Proposal)** if the Transaction does not proceed because Magnetic enters into a legally binding agreement to undertake a Superior Proposal (notwithstanding any other provision of this clause 10.2); or

(f) **(Magnetic Prescribed Event or Material Adverse Change)** all of the following are satisfied:

- (i) a Magnetic Prescribed Event or a Material Adverse Change occurs prior to 8.00am on the Second Court Date; and
- (ii) this deed is terminated in accordance with clause 15; and
- (iii) all of the following apply in relation to the Magnetic Prescribed Event or the Material Adverse Change:
 - (A) the prevention of the Magnetic Prescribed Event or Material Adverse Change was within the control of Magnetic; and
 - (B) had the Magnetic Prescribed Event or Material Adverse Change occurred prior to the date of this deed, the Magnetic Prescribed Event or Material Adverse Change might reasonably be expected to have resulted in Genesis not entering into this deed; and
 - (C) Magnetic has failed to rectify the Magnetic Prescribed Event or Material Adverse Change within 10 Business Days after receipt of notice from Genesis requiring Magnetic to do so.

10.3 Timing of payment

- (a) Magnetic must pay Genesis the amount referred to in clause 10.2 within 10 Business Days of receipt by Magnetic of a demand for payment from Genesis. The demand may only be made:
 - (i) after the occurrence of an event referred to in clause 10.2(a), 10.2(b)(i), 10.2(b)(ii), 10.2(b)(iii), 10.2(c), 10.2(d) or 10.2(e); or
 - (ii) if all of the circumstances referred to in clause 10.2(f) have occurred.
- (b) The demand for payment set out in clause 10.3(a) must:
 - (i) set out in reasonable detail the circumstances which give rise to the payment referred to in clause 10.2; and
 - (ii) nominate a bank account into which Magnetic is to pay the amount referred to in clause 10.2.

10.4 Nature of payment

The amount payable by Magnetic to Genesis under clause 10.2 is an amount to compensate Genesis for:

- (a) advisory costs (including costs of advisers other than success fees);
- (b) costs of management and directors' time;
- (c) out-of-pocket expenses; and

(d) reasonable opportunity costs incurred by Genesis in pursuing the Transaction or in not pursuing other alternative acquisitions or strategic initiatives which it could have developed to further its business and objectives.

The parties agree that the costs incurred are of a nature that they cannot be accurately quantified and that a genuine pre-estimate of the costs would equal or exceed the amount of the payment under clause 10.2. For the avoidance of doubt, Magnetic is only liable to pay the amount required by this clause 10 once.

10.5 Payment not payable

Notwithstanding anything else in this deed, if:

- (a) the Scheme becomes Effective; or
- (b) at any time or times, one or more transactions are completed pursuant to which any member of the Genesis Group acquires a Relevant Interest (or voting power, as defined in the Corporations Act) in 100% of the issued Magnetic Shares,

then the amount payable by Magnetic to Genesis under clause 10.2 is not payable by Magnetic to Genesis, and, if the amount payable by Magnetic to Genesis under clause 10.2 has been paid in whole or part to Genesis, it must be refunded by Genesis to Magnetic within five Business Days after receiving a written demand for payment from Magnetic setting out the basis upon which the amount must be refunded.

Notwithstanding anything else in this deed, no amount payable by Magnetic to Genesis under clause 10.2 is payable by Magnetic merely by reason of the Magnetic Shareholders not approving the Scheme at the Scheme Meeting.

10.6 Reduction in amount payable

- (a) The amount payable by Magnetic to Genesis under clause 10.2 is reduced by an amount equal to the amount (if any) which is recovered by Genesis as a result of a claim against Magnetic pursuant to any other remedies available to Genesis under this deed including pursuant to clause 13.
- (b) Where the amount payable by Magnetic to Genesis under clause 10.2 has already been paid, Genesis must, within 2 Business Days of the event contemplated by clause 10.6(a) which would have reduced the amount payable, refund an amount to Magnetic which is equivalent to that calculated under clause 10.6(a).

10.7 Limitation of liability

- (a) Where an amount becomes payable to Genesis under clause 10.2 and is actually paid to Genesis, Genesis cannot make any Claim (other than a Claim under this clause 10) against Magnetic which relates solely to the event that gave rise to the right to make a demand under clause 10.3.
- (b) Subject to clauses 10.7(c) and 10.7(d), but otherwise notwithstanding anything to the contrary in this deed, the maximum aggregate amount which Magnetic is required to pay in relation to this deed (including as a result of any

breach of this deed by Magnetic or any other Claim) is the amount set out in clause 10.2 and in no event will the aggregate liability of Magnetic under or in connection with this deed or any Claim exceed such amount.

- (c) The limitation in clause 10.7(b) does not apply:
 - (i) in connection with a breach by Magnetic of clause 9 or where Magnetic has agreed (whether or not in breach of clause 9) to pay to a third party a break fee or similar cost reimbursement commitment in connection with any actual, proposed or potential Competing Transaction;
 - (ii) to prevent Genesis recovering the actual costs it incurs in connection with this deed or the Scheme (to the extent such costs exceed the amount set out in clause 10.2) if Magnetic has breached its obligations to register all transfers of Magnetic Shares to Genesis in accordance with paragraph 19 of Schedule 4; or
 - (iii) to extinguish or limit the liability of Magnetic for any:
 - (A) interest payable on any amount payable by it under or in connection with this deed;
 - (B) conduct designed or intended to frustrate the Transaction or the implementation of the Scheme; or
 - (C) breach of this deed arising from criminal acts, fraud, wilful misconduct or wilful breach by Magnetic, its directors, officers or employees.
- (d) Nothing in this clause affects Genesis's right to specific performance, injunctive relief or any other remedies which would otherwise be available in equity or at law as a remedy for a breach or threatened breach of this deed by Magnetic.

10.8 Survival

Any accrued obligations under this clause survive termination of this deed.

11. Reimbursement of costs - Genesis

11.1 Background

This clause 11 has been agreed in circumstances where:

- (a) Genesis and Magnetic believe that the Transaction will provide significant benefits to Genesis, Magnetic and their respective shareholders, and Genesis and Magnetic acknowledge that, if they enter into this deed and the Scheme is subsequently not implemented, Genesis will incur significant costs;
- (b) Magnetic has requested that provision be made for the payment outlined in clause 11.2, without which Magnetic would not have entered into this deed;

- (c) the Genesis Board believes that it is appropriate for Genesis to agree to the payment referred to in clause 11.2, without which Magnetic would not have entered into this deed; and
- (d) Genesis has received legal advice on this deed and the operation of this clause 11.

11.2 Payment

Genesis agrees to pay to Magnetic \$6,390,000 if:

- (a) **(material breach)** Magnetic terminates this deed under clause 15.1(i); or
- (b) **(Genesis Prescribed Event)** all of the following are satisfied:
 - (i) a Genesis Prescribed Event occurs prior to 8.00am on the Second Court Date; and
 - (ii) this deed is terminated in accordance with clause 15; and
 - (iii) all of the following apply in relation to the Genesis Prescribed Event:
 - (A) the prevention of the Genesis Prescribed Event was within the control of Genesis; and
 - (B) had the Genesis Prescribed Event occurred prior to the date of this deed, the Genesis Prescribed Event might reasonably be expected to have resulted in Magnetic not entering into this deed; and
 - (C) Genesis has failed to rectify the Genesis Prescribed Event within 10 Business Days after receipt of notice from Magnetic requiring Genesis to do so.

11.3 Timing of payment

- (a) Genesis must pay Magnetic the amount referred to in clause 11.2 within 10 Business Days of receipt by Genesis of a demand for payment from Magnetic. The demand may only be made:
 - (i) after the occurrence of an event referred to in clause 11.2(a); or
 - (ii) if all of the circumstances referred to in clause 11.2(b) have occurred.
- (b) The demand for payment set out in clause 11.3(a) must:
 - (i) set out in reasonable detail the circumstances which give rise to the payment referred to in clause 11.2; and
 - (ii) nominate a bank account into which Genesis is to pay the amount referred to in clause 11.2.

11.4 Nature of payment

The amount payable by Genesis to Magnetic under clause 11.2 is an amount to compensate Magnetic for:

- (a) advisory costs (including costs of advisers other than success fees);
- (b) costs of management and directors' time;
- (c) out-of-pocket expenses; and
- (d) reasonable opportunity costs incurred by Magnetic in pursuing the Transaction or in not pursuing other alternative transactions or strategic initiatives which it could have developed to further its business and objectives.

The parties agree that the costs incurred are of a nature that they cannot be accurately quantified and that a genuine pre-estimate of the costs would equal or exceed the amount of the payment under clause 11.2. For the avoidance of doubt, Genesis is only liable to pay the amount required by this clause 11 once.

11.5 Payment not payable

Notwithstanding anything else in this deed, if:

- (a) the Scheme becomes Effective; or
- (b) at any time or times, one or more transactions are completed pursuant to which any member of the Genesis Group acquires a Relevant Interest (or voting power, as defined in the Corporations Act) in 100% of the issued Magnetic Shares,

then the amount payable by Genesis to Magnetic under clause 11.2 is not payable by Genesis to Magnetic, and, if the amount payable by Genesis to Magnetic under clause 11.2 has been paid in whole or part to Magnetic, it must be refunded by Magnetic to Genesis within five Business Days after receiving a written demand for payment from Genesis setting out the basis upon which the amount must be refunded.

11.6 Reduction in amount payable

- (a) The amount payable by Genesis to Magnetic under clause 11.2 is reduced by an amount equal to the amount (if any) which is recovered by Magnetic as a result of a claim against Genesis pursuant to any other remedies available to Magnetic under this deed including pursuant to clause 13.
- (b) Where the amount payable by Genesis to Magnetic under clause 11.2 has already been paid, Magnetic must, within 2 Business Days of the event contemplated by clause 11.6(a) which would have reduced the amount payable, refund an amount to Genesis which is equivalent to that calculated under clause 11.6(a).

11.7 Limitation of liability

- (a) Where an amount becomes payable to Magnetic under clause 11.2 and is actually paid to Magnetic, Magnetic cannot make any Claim (other than a Claim under this clause 11) against Genesis which relates solely to the event that gave rise to the right to make a demand under clause 11.3.
- (b) Subject to clauses 11.7(c) and 11.7(d), but otherwise notwithstanding anything to the contrary in this deed, the maximum aggregate amount which Genesis is required to pay in relation to this deed (including as a result of any breach of this deed by Genesis or any other Claim) is the amount set out in clause 11.2 and in no event will the aggregate liability of Genesis under or in connection with this deed or any Claim exceed such amount.
- (c) The limitation in clause 11.7(b) does not apply:
 - (i) to limit Genesis's liability in connection with a failure by Genesis to provide the Scheme Consideration in accordance with this deed, the Scheme and the Deed Poll; or
 - (ii) to extinguish or limit the liability of Genesis for any:
 - (A) interest payable on any amount payable by it under or in connection with this deed;
 - (B) conduct designed or intended to frustrate the Transaction or the implementation of the Scheme; or
 - (C) breach of this deed arising from criminal acts, fraud, wilful misconduct or wilful breach by Genesis, its directors, officers or employees.
- (d) Nothing in this clause affects Magnetic's right to specific performance, injunctive relief or any other remedies which would otherwise be available in equity or at law as a remedy for a breach or threatened breach of this deed by Genesis.

11.8 Survival

Any accrued obligations under this clause survive termination of this deed.

12. Compliance with law

12.1 Release from obligations

Subject to clause 12.5, if a court or the Takeovers Panel determines that any part of the obligations of Magnetic under clause 9 or clause 10, or the obligations of Genesis under clause 11:

- (a) constitutes, or would if performed constitute:
 - (i) a breach of the fiduciary or statutory duties of Magnetic's Board to Magnetic or, as the case may be, a breach of the fiduciary or statutory duties of Genesis's Board to Genesis; or
 - (ii) unacceptable circumstances within the meaning of the Corporations Act; or
- (b) is, or would if performed be, unlawful for any reason,

then, provided that Magnetic or (as the case may be) Genesis has complied with its obligations under this clause 12, Magnetic will not be obliged to comply with that part of clause 9 or clause 10 or (as the case may be) Genesis will not be obliged to comply with that part of clause 11 (but in each case they will be obliged to comply with all other parts of those clauses).

12.2 Undertaking

Subject to clause 12.5, if the Takeovers Panel indicates to Magnetic or Genesis that in the absence of a written undertaking pursuant to section 201A of the *Australian Securities and Investments Commission Act 2001* (Cth), it will make a declaration of unacceptable circumstances, each of Magnetic and Genesis (as the case may be) may give that undertaking on their own behalf and must give reasonable consideration to giving that undertaking if requested by the other party. Where such undertakings are given, clause 9 and clause 10 will operate in a manner consistent with the terms of such undertakings.

12.3 No court or similar application

Subject to clause 12.5, neither party may make, nor may it cause or permit to be made, any application to a court, arbitral tribunal or the Takeovers Panel for or in relation to a determination referred to in clause 12.1.

12.4 Third party application

If any third party makes any application to a court, arbitral tribunal or the Takeovers Panel for or in relation to a determination referred to in clause 12.1, each party must make submissions in the course of those proceedings supporting to the fullest extent reasonably practicable the position that no such determination should be made.

12.5 Appeal or review proceedings

Nothing in this clause 12 precludes either party from bringing or requires either party to bring appeal or review proceedings in relation to any determination referred to in clause 12.1. If either party brings such proceedings:

- (a) the other must make submissions in the course of those proceedings supporting to the fullest extent reasonably practicable the review application made by the first party; and
- (b) for the purposes of this clause 12, the determination the subject of the appeal or review proceeding shall be deemed not to have been made and clauses 12.1 and 12.2 shall have effect only in relation to any determination made in the appeal or review proceedings.

13. Representations and warranties

13.1 Magnetic's representations and warranties

Magnetic represents and warrants to Genesis (on its own behalf and separately as trustee or nominee for each of the other Genesis Indemnified Parties) that each of the statements set out in Schedule 6 is true and correct as at the date of this deed and as at 5.00pm on the Business Day immediately prior to the Second Court Date (except where a statement is given as of a particular date, in which case Magnetic represents and warrants that the statement is true and correct as at that particular date).

13.2 Magnetic's indemnity

Magnetic indemnifies the Genesis Indemnified Parties against all Losses incurred directly or indirectly as a result of any of the representations and warranties in clause 13.1 not being true and correct.

13.3 Magnetic warranty certificate

Magnetic must provide to Genesis by 5.00pm on the Business Day immediately prior to the Second Court Date a certificate signed by a Magnetic Director and made in accordance with a resolution of the Magnetic Board stating, as at that date, that the representations or warranties given by Magnetic in clause 13.1 remain true and correct or, if any such representation or warranty is not true and correct as at that date, providing complete particulars of the facts and matters which make the representation or warranty untrue or incorrect.

13.4 Qualifications to Magnetic's representations and warranties

The representations and warranties given by Magnetic in clause 13.1 are given subject to any matters:

- (a) fairly disclosed in the Due Diligence Materials;
- (b) within the actual knowledge of any Genesis Specified Person as at the date of this deed;
- (c) which are expressly set out in the Budget;

For personal use only

- (d) which are agreed to by Genesis or requested by Genesis, in each case, in writing;
- (e) which are required or expressly permitted under this deed, the Scheme, the Deed Poll or the transactions contemplated under any of them; or
- (f) result from the vesting, exercise or conversion of Magnetic Performance Rights or Magnetic Options on issue as at the date of this deed, in the manner contemplated by this deed.

13.5 Genesis's representations and warranties

Genesis represents and warrants to Magnetic (on its own behalf and separately as trustee or nominee for each of the other Magnetic Indemnified Parties) that each of the statements set out in Schedule 7 is true and correct in all material respects as at the date of this deed and as at 5.00pm on the Business Day immediately prior to the Second Court Date (except where a statement is given as of a particular date, in which case Genesis represents and warrants that the statement is true and correct in all material respects as of that particular date).

13.6 Genesis's indemnity

Genesis indemnifies the Magnetic Indemnified Parties against all Losses incurred directly or indirectly as a result of any of the representations and warranties in clause 13.5 not being true and correct.

13.7 Genesis warranty certificate

Genesis must provide to Magnetic by 5.00pm on the Business Day immediately prior to the Second Court Date a certificate signed by a director of Genesis and made in accordance with a resolution of the Genesis Board stating, as at that date, that the representations and warranties given by Genesis in clause 13.5 remain true and correct or, if any such representation or warranty is not true and correct as at that date, providing complete particulars of the facts and matters which make the representation or warranty untrue or incorrect.

13.8 Qualifications to Genesis's representations and warranties

The representations and warranties given by Genesis in clause 13.5 are given subject to any matters:

- (a) fairly disclosed in:
 - (i) the announcements by Genesis to ASX within two years prior to the date of this deed; and
 - (ii) the publicly available documents in relation to Genesis which would be disclosed in a search of each of:
 - (A) ASIC records on the date three Business Days before the date of this deed;

For personal use only

- (B) the PPS Register on the date three Business Days before the date of this deed; and
- (C) the registry of the High Court, the Federal Court and the Federal Circuit Court, the Supreme Court of Western Australia, the Western Australian Magistrates Court, the Western Australian District Court and the Western Australian Mining Warden's Court, each on 11 February 2026;
- (iii) the publicly available documents in relation to a member of the Genesis Group other than Genesis which would be disclosed in a search of each of:
 - (A) ASIC records on the date two Business Days before the date of this deed;
 - (B) the PPS Register on the date two Business Days before the date of this deed; and
 - (C) the registry of the High Court, the Federal Court and the Federal Circuit Court, the Supreme Court of Western Australia, the Western Australian Magistrates Court, the Western Australian District Court and the Western Australian Mining Warden's Court, each on 12 February 2026;
- (b) within the actual knowledge of any Magnetic Specified Person as at the date of this deed;
- (c) which are agreed to by Magnetic or requested by Magnetic, in each case, in writing; or
- (d) which are required or expressly permitted under this deed, the Scheme, the Deed Poll or the transactions contemplated under any of them.

14. Court proceedings

14.1 Appeal process

If the Court refuses to make orders convening the Scheme Meeting or approving the Scheme, Genesis and Magnetic must appeal the Court's decision to the fullest extent possible except to the extent that:

- (a) the parties agree otherwise;
- (b) external legal advisers representing that party in relation to the Scheme indicate that, in their opinion, an appeal would likely have less than a 50% prospect of success;
- (c) there is, in the bona-fide view of the Magnetic Board, a Superior Proposal which should be recommended in preference to the Scheme; or

(d) the first appeal to the initial Court's refusal to make orders convening the Scheme Meeting or approving the Scheme does not overturn the initial Court's decision, and where this deed and the Scheme (as required) is not able to be amended in a manner which addresses the reasons for the initial Court's refusal and which does not alter the fundamental commercial effect of the Scheme,

in which case either party may terminate this deed in accordance with clause 15.1(f)(iii). A party will not be entitled to terminate this deed pursuant to clause 15.1(f)(iii) if the Court's refusal to make the orders was the result of a breach of this deed by that party.

14.2 Defence of proceedings

Each of Genesis and Magnetic must vigorously defend, or must cause to be vigorously defended, any lawsuits or other legal proceeding brought against it (or any of its Subsidiaries) challenging this deed or the completion of the Transaction. Neither Genesis nor Magnetic may settle or compromise (or permit any of its Subsidiaries to settle or compromise) any claim brought in connection with this deed without the prior written consent of the other, such consent not to be unreasonably withheld.

14.3 Costs

Any costs incurred as a result of the operation of this clause 14 will be borne equally by each party.

15. Termination

15.1 Termination events

Without limiting any other provision of this deed, this deed may be terminated:

- (a) **(End Date)** by either party, if the Scheme has not become Effective on or before the End Date, unless the Scheme has not become Effective due to a breach by such party of its obligations under this deed;
- (b) **(lack of support or breach)** by Genesis, at any time prior to 8.00am on the Second Court Date, if any Magnetic Director changes their recommendation or ceases to recommend to Scheme Participants that they vote in favour of the resolution to approve the Scheme, including any adverse modification to their recommendation, or otherwise makes a public statement indicating that they no longer support the Transaction, except in respect of a failure by a Magnetic Director to make a recommendation or the withdrawal of a recommendation (or in respect of a public statement indicating that a Magnetic Director no longer recommends, endorses or supports the Transaction) which is due to an Abstain Requirement that relates to that Magnetic Director;
- (c) **(Scheme not approved)** by either party if the resolution submitted to the Scheme Meeting is not approved by the requisite majority;

- (d) **(competing interest)** by Genesis, if a person (other than Genesis, or a member of the Genesis Group) has a Relevant Interest in more than 15% of the Magnetic Shares,
- (e) **(restraint)** by either party if a court or other Regulatory Authority has issued a final and non-appealable order, decree or ruling or taken other action which permanently restrains or prohibits the Transaction;
- (f) **(consultation or appeal failure)** in accordance with and pursuant to:
 - (i) clause 3.9(a)(i);
 - (ii) clause 3.9(a)(ii); or
 - (iii) clause 14.1;
- (g) **(Competing Transaction)** by Magnetic (provided that Magnetic has complied with its obligations under clause 9), if the Magnetic Board determines that a Competing Transaction that was not solicited, invited, encouraged or initiated in breach of clause 9.2 is a Superior Proposal and the Competing Transaction is not matched by Genesis under clause 9.7 (Magnetic having complied with its obligations under clause 9.7);
- (h) **(breach by Magnetic)** by Genesis if Magnetic is in material breach of any clause of this deed (including a warranty), taken in the context of the Transaction as a whole, provided that Genesis has, if practicable, given notice to Magnetic setting out the relevant circumstances and stating an intention to terminate and the relevant circumstances continue to exist 5 Business Days (or any shorter period ending at 5.00 pm on the day before the Second Court Date) after the time such notice is given;
- (i) **(breach by Genesis)** by Magnetic if Genesis is in material breach of any clause of this deed (including a warranty), taken in the context of the Transaction as a whole, provided that Magnetic has, if practicable, given notice to Genesis setting out the relevant circumstances and stating an intention to terminate and the relevant circumstances continue to exist 5 Business Days (or any shorter period ending at 5.00 pm on the day before the Second Court Date) after the time such notice is given;
- (j) **(Independent Expert)** by either party if the Independent Expert opines that the Scheme is not in the best interests of Magnetic Shareholders;
- (k) **(Insolvency)** by either party if the other party, or any Subsidiary of the other party, becomes Insolvent; or
- (l) **(agreement)** if agreed to in writing by Genesis and Magnetic.

15.2 Termination

Where a party has a right to terminate this deed, that right for all purposes will be validly exercised if the party delivers a notice in writing to the other party stating that it terminates this deed.

15.3 Effect of Termination

In the event that a party terminates this deed, or if this deed otherwise terminates in accordance with its terms, then in either case all further obligations of the parties under this deed, other than the obligations set out in clauses 10, 14.3, 16.6, 17, 18, 19 and 19.1 will immediately cease to be of further force and effect without further liability of any party to the other, provided that nothing in this clause releases any party from liability for any pre-termination breach of this deed.

16. Public announcements**16.1 Public announcement of Scheme**

Immediately after signing this deed, Magnetic and Genesis will issue either a joint or separate ASX announcement(s) in agreed terms, including a statement by the Magnetic Directors that, subject to the Independent Expert concluding, and continuing to conclude, that the Scheme is in the best interests of Magnetic Shareholders, they intend to recommend that Magnetic Shareholders vote in favour of the Scheme subject to no Superior Proposal being made.

16.2 No announcement

Neither party may make an announcement relating to the subject matter of this deed or its termination or make public this deed (or any of its terms) unless the announcement or publication:

- (a) is required by clause 16.1 or any other provision of this deed;
- (b) has the prior written approval of the other party (such approval not to be unreasonably withheld or delayed); or
- (c) is required to be made by any applicable law or stock exchange rules.

16.3 Prior notice of announcement

Subject to clause 16.5, if a party is required to make an announcement under clause 16.2(c), it must, to the extent practicable, without that party breaching any applicable law, give to the other party:

- (a) such notice as is reasonable in the circumstances of its intention to make the announcement; and
- (b) a draft of the announcement and the opportunity, which is reasonable in the circumstances, to comment on the contents of the draft announcement.

16.4 Alternative or Superior Proposal

The requirements of clauses 16.2 and 16.3 do not apply to either party if a Competing Transaction or Superior Proposal has been announced and publicly recommended, promoted or otherwise endorsed by either party without breach of the terms of this deed and has not been publicly withdrawn.

16.5 Required disclosure and procedural matters

Notwithstanding clauses 16.2 and 16.3, a party does not require the other party's approval to issue any public disclosures if the content of those disclosures is limited to procedural matters (or information that has previously been disclosed to Magnetic Shareholders within the Scheme Booklet or any other ASX announcement), provided that to the extent not prohibited by applicable law the disclosing party gives the other party prior notice that it proposes to make a public disclosure in reliance on this clause 16.5.

16.6 Termination of this deed

If this deed is terminated in accordance with its terms, either party may disclose by way of announcement to ASX the fact that this deed has been terminated, where such disclosure is in the reasonable opinion of that party required to ensure that the market in its securities is properly informed, and provided where reasonably practicable, that party consults with the other party as to (and gives the other party a reasonable opportunity to comment on) the form and content of the announcement prior to its disclosure.

17. Confidential Information**17.1 Disclosure of Genesis Confidential Information**

No Genesis Confidential Information may be disclosed by Magnetic to any person except:

- (a) to Representatives of Magnetic or its Related Bodies Corporate requiring the information for the purposes of this deed;
- (b) with the consent of Genesis (which consent may be given or withheld in its absolute discretion);
- (c) if Magnetic is required to do so by law or by a stock exchange (but only to the extent required); or
- (d) if Magnetic is required to do so in connection with legal proceedings relating to this deed.

17.2 Use of Genesis Confidential Information

Magnetic must use the Genesis Confidential Information exclusively for the purpose of due diligence, preparing the Scheme Booklet and implementing the Transaction and for no other purpose (and must not make any use of any Genesis Confidential Information to the competitive disadvantage of Genesis or any of its Related Bodies Corporate).

17.3 Disclosure of Magnetic Confidential Information

No Magnetic Confidential Information may be disclosed by Genesis to any person except:

- (a) to Representatives of Genesis or its Related Bodies Corporate requiring the information for the purposes of this deed;
- (b) with the consent of Magnetic (which consent may be given or withheld in its absolute discretion);
- (c) if Genesis is required to do so by law or by a stock exchange (but only to the extent required); or
- (d) if Genesis is required to do so in connection with legal proceedings relating to this deed.

17.4 Use of Magnetic Confidential Information

Genesis must use the Magnetic Confidential Information exclusively for the purpose of due diligence, preparing the Scheme Booklet and implementing the Transaction and for no other purpose (and must not make any use of any Magnetic Confidential Information to the competitive disadvantage of Magnetic or any of its Related Bodies Corporate).

17.5 Disclosure by recipient of Confidential Information

Any party disclosing information under clause 17.1(a), 17.1(b), 17.3(a) or 17.3(b) must use all reasonable endeavours to ensure that persons receiving Confidential Information from it do not disclose the information except in the circumstances permitted in clause 17.1 or (as the case may be) clause 17.3.

17.6 Excluded Information

Clauses 17.1, 17.2, 17.3, 17.4 and 17.5 do not apply to the Excluded Information.

17.7 Termination

This clause 17 will survive termination (for whatever reason) of this deed.

18. Notices and other communications**18.1 Form - all communications**

Unless expressly stated otherwise in this deed, all notices, certificates, consents, approvals, waivers and other communications in connection with this deed (**Communications**) must be:

- (a) in writing;
- (b) signed by the sender (if an individual) or an Authorised Officer of the sender; and

(c) marked for the attention of the person identified in clause 18.2 or, if the recipient has notified otherwise, then marked for attention in the way last notified.

(b) any liability with respect to the Scheme.

3.4 Effective Date

The Scheme is Effective on the Effective Date.

3.5 End Date

This Scheme will lapse and be of no further force or effect if the Scheme has not become Effective on or before the End Date.

4. Implementation of the Scheme

4.1 Court order

This Scheme will become binding on Magnetic and each Scheme Participant if and only if the Court makes an order under section 411(4)(b) of the Corporations Act approving this Scheme and that order becomes effective under section 411(10) of the Corporations Act.

4.2 Lodgement with ASIC

Magnetic must lodge with ASIC an office copy of the order of the Court made under section 411(4)(b) of the Corporations Act approving this Scheme as soon as practicable and, in any event, by 5.00pm on the first Business Day after the Court approves the Scheme.

4.3 Transfer of Scheme Shares

On the Implementation Date:

(a) subject to the provision of the Scheme Consideration by Genesis in the manner contemplated by clauses 5.8(a) and 5.8(b), the Scheme Shares, together with all rights and entitlements attaching to the Scheme Shares as at the Implementation Date, must be transferred to Genesis, without the need for any further act by any Scheme Participant (other than acts performed by Magnetic as attorney and agent for Scheme Participants under clause 9.5), by:

- (i) Magnetic delivering to Genesis a duly completed Scheme Transfer, executed on behalf of the Scheme Participants by Magnetic, for registration; and
- (ii) Genesis duly executing the Scheme Transfer, attending to the stamping of the Scheme Transfer (if required) and delivering it to Magnetic for registration; and

(b) immediately following receipt of the Scheme Transfer in accordance with clause 4.3(a)(ii), but subject to the stamping of the Scheme Transfer (if required), Magnetic must enter, or procure the entry of, the name of Genesis in the Register in respect of all the Scheme Shares transferred to Genesis in accordance with this Scheme.

5. Scheme Consideration

5.1 Consideration under the Scheme

- (a) On the Implementation Date, in consideration for the transfer to Genesis of the Scheme Shares, each Scheme Participant will be entitled to receive the Scheme Consideration in respect of their Scheme Shares in accordance with this clause 5.
- (b) Notwithstanding any other provision of this Scheme:
 - (i) the aggregate Scheme Cash Consideration to be paid by Genesis under the terms of this Scheme will not exceed the amount calculated under paragraph (a) of the definition of Available Cash Consideration plus the amount calculated under paragraph (b) of that definition; and
 - (ii) the aggregate Scheme Scrip Consideration to be provided by Genesis under the terms of this Scheme will not exceed the number of New Genesis Shares calculated under paragraph (a) of the definition of Available Scrip Consideration.

5.2 Election procedure

- (a) Each Magnetic Shareholder (other than an Ineligible Foreign Shareholder) will be entitled to make an Election.
- (b) All Elections will take effect in accordance with this Scheme provided that the Magnetic Shareholder who makes the relevant Election qualifies as a Scheme Participant.
- (c) Magnetic must ensure that the Scheme Booklet is accompanied by an Election Form.
- (d) Subject to clause 5.2(h), an Election may only be made in accordance with the terms and conditions stated on the Election Form for it to be valid and must be completed and returned in writing to the address specified on the Election Form so that it is received before the Election Date.
- (e) A Magnetic Shareholder which makes an Election may vary, withdraw or revoke that Election by lodging a replacement Election Form so that it is received on or before the Election Date.
- (f) An Election must be made in accordance with the terms and conditions of the Election Form and this clause 5.2, and an Election not so made will not be a valid election for the purpose of this Scheme and will not be recognised by Genesis or Magnetic for any purpose (provided that Genesis may, with the agreement of Magnetic, waive this requirement and may, with the agreement of Magnetic, settle as it thinks fit any difficulty, matter of interpretation or dispute which may arise in connection with determining the validity of any Election, and any such decision will be conclusive and binding on Genesis, Magnetic and the relevant Scheme Participant).

For personal use only

- (g) Subject to clause 5.2(h), if a Magnetic Shareholder makes an Election, that Election will be deemed to apply in respect of the Magnetic Shareholder's entire registered holding of Magnetic Shares at the Record Date, regardless of whether the Magnetic Shareholder's holding of Magnetic Shares at the Record Date is greater or less than the Magnetic Shareholder's holding at the time it made its Election.
- (h) A Magnetic Shareholder who is noted on the Register as holding one or more parcels of Magnetic Shares as trustee or nominee for, or otherwise on account of, another person, may make separate Elections under this clause 5.2 in relation to each of those parcels of Magnetic Shares (subject to providing to Genesis and Magnetic any substantiating information they reasonably require), and if it does so it will be treated, for the purpose of determining the Scheme Consideration receivable by that Scheme Participant, as a separate Scheme Participant in respect of each such parcel in respect of which a separate Election is made (and in respect of any balance of its holding), provided that if, at the Record Date, it holds fewer Magnetic Shares than it held at the time that it made the Election, then, unless it has at the time of any sale of Magnetic Shares notified Magnetic whether the Magnetic Shares sold relate to any such separate Election (and if so which separate Election the Magnetic Shares sold relate to), it will be treated as not having made a valid Election in respect of any of its Magnetic Shares (or will be treated in any other manner that Genesis and Magnetic agree is fair to the Magnetic Shareholder in all the circumstances acting reasonably).
- (i) The parties agree that the Election Form will include the following terms and conditions:
 - (i) Ineligible Foreign Shareholders may not make an Election and that any purported Election by such persons will be of no effect and clause 5.5 will apply to such persons;
 - (ii) if a Magnetic Shareholder (who is not an Ineligible Foreign Holder or an Unmarketable Parcel Shareholder) does not make a valid Election, clause 5.4 will apply to that person;
 - (iii) Scheme Participants who receive Scheme Scrip Consideration agree to become members of Genesis from the Implementation Date and become bound by the Genesis Constitution pursuant to this Scheme;
 - (iv) Scheme Participants who receive Scheme Scrip Consideration will have such Scheme Scrip Consideration issued having the same holding name and address and other details as the holding of the relevant Scheme Shares; and
 - (v) such other terms and conditions as Genesis reasonably requires to be stated on the Election Form.

5.3 Scheme Consideration if valid Election made

Subject to the Cash Scaleback Mechanism and the Scrip Scaleback Mechanism, and to the terms of this Scheme, if a Magnetic Shareholder makes a valid Election that Magnetic Shareholder will be entitled to receive the Scheme Consideration as nominated by their Election.

5.4 Scheme Consideration if valid Election not made

If a Magnetic Shareholder (not being an Ineligible Foreign Holder or an Unmarketable Parcel Shareholder) does not make a valid Election, the Scheme Consideration payable to that Magnetic Shareholder will be the Default Consideration, subject to the terms of this Scheme.

5.5 Scheme Consideration for Ineligible Foreign Shareholders and Unmarketable Parcel Shareholders

Notwithstanding any other provision of this Scheme:

- (a) if a Scheme Participant is an Ineligible Foreign Shareholder, the Scheme Consideration payable to that Scheme Participant will be the Maximum Cash Consideration, which will not be subject to the Cash Scaleback Mechanism;
- (b) Genesis has no obligation to provide, and will not provide under the Scheme, any Scheme Scrip Consideration to any Ineligible Foreign Shareholder regardless of the Election made by such Ineligible Foreign Shareholder; and
- (c) a Scheme Participant will be deemed to have elected Maximum Cash Consideration (which will not be subject to the Cash Scaleback Mechanism) if:
 - (i) the Scheme Scrip Consideration to which it would otherwise have been entitled comprises a number of New Genesis Shares that is less than a Marketable Parcel; and
 - (ii) the Scheme Participant has not completed the appropriate section of the Election Form indicating that they wish to receive their Scheme Scrip Consideration even where it comprises a number of New Genesis Shares that is less than a Marketable Parcel.

5.6 Cash Scaleback Mechanism

If:

- (a) a Scheme Participant (other than an Ineligible Foreign Holder or an Unmarketable Parcel Shareholder) has made a valid Maximum Cash Consideration Election on or before the Election Date; and
- (b) the Aggregate Maximum Cash Consideration exceeds the Available Cash Consideration,

then the Scheme Participant will receive the following as Scheme Consideration for each Scheme Share held:

(c) a cash amount which is calculated as follows:

$$A \times \frac{B}{C}$$

where:

A = in respect of a Scheme Share which is a Magnetic Ordinary Share, \$2.00 and, in respect of a Scheme Share which is a Magnetic Contributing Share, \$1.80;

B = the Available Cash Consideration; and

C = the Aggregate Maximum Cash Consideration; *plus*

(d) a number of New Genesis Shares which is calculated as follows:

$$\frac{A - B}{\text{Genesis Reference Share Price}}$$

where:

A = in respect of a Scheme Share which is a Magnetic Ordinary Share, \$2.00 and, in respect of a Scheme Share which is a Magnetic Contributing Share, \$1.80; and

B = the Scheme Cash Consideration calculated in accordance with clause 5.6(c)

5.7 Scrip Scaleback Mechanism

If:

(a) a Scheme Participant (other than an Ineligible Foreign Holder or an Unmarketable Parcel Shareholder) has made a valid Maximum Scrip Consideration Election on or before the Election Date; and

(b) the Aggregate Maximum Scrip Consideration exceeds the Available Scrip Consideration,

then the Scheme Participant will receive the following as Scheme Consideration for each Scheme Share held:

(c) the number of New Genesis Shares which is calculated as follows:

$$\frac{A}{\text{Genesis Reference Share Price}} \times \frac{B}{C}$$

A = in respect of a Scheme Share which is a Magnetic Ordinary Share, \$2.00 and, in respect of a Scheme Share which is a Magnetic Contributing Share, \$1.80;

B = the Available Scrip Consideration; and

C = the Aggregate Maximum Scrip Consideration; *plus*

(d) a cash amount which is calculated as follows:

$$A - B$$

Where:

A = in respect of a Scheme Share which is a Magnetic Ordinary Share, \$2.00 and, in respect of a Scheme Share which is a Magnetic Contributing Share, \$1.80; and

B = the number of Genesis Shares calculated in accordance with clause 5.7(c) multiplied by the Genesis Reference Share Price.

5.8 Provision of Scheme Consideration

(a) Genesis must, by no later than the Business Day before the Implementation Date, deposit, or procure the deposit of, in Immediately Available Funds an amount equal to the aggregate amount of the Scheme Cash Consideration payable to all Scheme Participants into an Australian dollar denominated trust account with an ADI operated by Magnetic as trustee for the Scheme Participants, provided that any interest on the amounts deposited (less bank fees and other charges) will be credited to Genesis's account).

(b) Genesis must, subject to clauses 5.9, 5.10, 5.11, 5.12 and 5.13:

- (i) on or before the Implementation Date, issue the New Genesis Shares to the Scheme Participants who are entitled under this Scheme to be issued the New Genesis Shares; and
- (ii) procure that the name and address of each Scheme Participant is entered in the Genesis Register in respect of the New Genesis Shares; and
- (iii) procure that, as soon as reasonably practicable after (and in any event on or before the date that is five Business Days after) the Implementation Date, a share certificate or holding statement (or equivalent document) is sent to the Registered Address of each Scheme Participant representing the number of New Genesis Shares issued to the Scheme Participant pursuant to this Scheme.

(c) On the Implementation Date, subject to funds having been deposited in accordance with clause 5.8(a), and subject to clause 5.8(e), Magnetic must pay or procure the payment of the Scheme Cash Consideration to each Scheme Participant from the trust account referred to in clause 5.8(a).

(d) The obligations of Magnetic under clause 5.8(c) will, subject to clause 5.8(e), be satisfied by Magnetic by either (in its absolute discretion, and despite any election referred to in clause 5.8(d)(i) or authority referred to in clause 5.8(d)(ii) made or given by the Scheme Participant):

- (i) if a Scheme Participant has, before the Record Date, made a valid election in accordance with the requirements of the Magnetic Registry to receive dividend payments from Magnetic by electronic

funds transfer to a bank account nominated by the Scheme Participant, paying, or procuring the payment of, the relevant amount in Australian currency by electronic means in accordance with that election;

- (ii) paying, or procuring the payment of, the relevant amount in Australian currency by electronic means to a bank account nominated by the Scheme Participant by an appropriate authority from the Scheme Participant to Magnetic; or
- (iii) dispatching, or procuring the dispatch of, a cheque for the relevant amount in Australian currency to the Scheme Participant by prepaid post to their Registered Address (as at the Record Date), such cheque being drawn in the name of the Scheme Participant (or in the case of joint holders, in accordance with the procedures set out in clause 5.9).

(e) The Scheme Cash Consideration payable to each Scheme Participant with a Registered Address outside Australia will be paid to a bank account nominated by that Scheme Participant in the manner contemplated by clause 5.8(d)(i) or clause 5.8(d)(ii) or other appropriate authority provided by the relevant Scheme Participant to Magnetic. If a Scheme Participant with a Registered Address outside Australia has not nominated a bank account for receipt of payments, Magnetic may hold payment of the Scheme Cash Consideration owed to that Scheme Participant until a valid bank account has been nominated by an appropriate authority from the Scheme Participant to Magnetic.

(f) To the extent that, following satisfaction of Magnetic's obligations under clauses 5.8(c) to 5.8(e), there is a surplus in the amount held by Magnetic as trustee for the Scheme Participants in the trust account referred to in that clause, that surplus must be paid by Magnetic to Genesis.

5.9 Joint holders

In respect of Scheme Shares held in joint names:

- (a) the New Genesis Shares to be issued under this Scheme must be issued to and registered in the names of the joint holders;
- (b) the Scheme Cash Consideration is payable to the joint holders;
- (c) any cheque required to be sent under this Scheme will be made payable to the joint holders and sent to either, at the sole discretion of Magnetic, the holder whose name appears first in the Register as at the Record Date or to the joint holders; and
- (d) any other document required to be sent under this Scheme, will be forwarded to either, at the sole discretion of Magnetic, the holder whose name appears first in the Register as at the Record Date or to the joint holders.

5.10 Withholding

(a) Subject to clauses 5.10(b) and 5.10(d), if Genesis forms the view (in its reasonable opinion acting in good faith) that it is required by Subdivision 14-D of Schedule 1 of the TAA (**Subdivision 14-D**) to pay amounts to the Commissioner in respect of the acquisition of Scheme Shares from certain Scheme Participants who have an associate-inclusive shareholding in Magnetic of 10% or more (each a **FRCGW Holder**), Genesis will:

- (i) determine the amount required by Subdivision 14-D to be paid to the Commissioner in respect of each FRCGW Holder (each a **FRCGW Amount**);
- (ii) deduct the FRCGW Amount from the Scheme Cash Consideration otherwise payable to the FRCGW Holder;
- (iii) if the FRCGW Amount in respect of a FRCGW Holder is greater than the Scheme Cash Consideration payable to that FRCGW Holder:
 - (A) determine the number of New Genesis Shares required to be sold in order to satisfy the balance of the FRCGW Amount by the Sale Agent (taking into account potential fluctuations in the price of Genesis Shares, an amount necessary to cover costs associated with the sale of the New Genesis Shares by the Sale Agent and the amount of Scheme Cash Consideration deducted at clause 5.10(a)(i));
 - (B) issue those New Genesis Shares to the Sale Agent for sale;
 - (C) pay the FRCGW Amount to the Commissioner within the time required under Subdivision 14-D; and
 - (D) after paying the FRCGW Amount to the Commissioner, remit any excess sale proceeds to the FRCGW Holder.

(b) In determining the FRCGW Amount to be paid by Genesis to the Commissioner in accordance with clause 5.10(a), Genesis agrees to calculate the FRCGW Amount using the reduced rate specified in a variation notice issued by the Commissioner under section 14-235 of Subdivision 14-D to the extent that Genesis is provided such notice prior to the Implementation Date.

(c) The Scheme Consideration payable to any Scheme Participant who is a FRCGW Holder shall not be increased to reflect the FRCGW Amount and the net aggregate sum payable to those Scheme Participants shall be taken to be in full and final satisfaction of the amount owing to those Scheme Participants.

(d) Genesis acknowledges and agrees that it shall not pay any FRCGW Amount to the Commissioner with respect to a Scheme Participant or sell any Genesis Shares where Genesis:

For personal use only

- (i) receives a Magnetic Shareholder Declaration from the Scheme Participant prior to the Implementation Date and Genesis does not know that the Magnetic Shareholder Declaration is false; or
- (ii) receives a Nil Variation Notice prior to the Implementation Date.

(e) If Genesis forms the view that it knows or suspects that a Magnetic Shareholder Declaration it has received is false, and Genesis received the Magnetic Shareholder Declaration more than 30 days before the Implementation Date, Genesis agrees that it shall not pay any FRCGW Amounts to the Commissioner in respect of the relevant Scheme Participant until it has:

- (i) provided information upon which it relied to form that view to the Scheme Participant who has provided that Magnetic Shareholder Declaration no less than 20 days before the Implementation Date;
- (ii) provided the Scheme Participant by notice in writing the opportunity to review the information provided to it and respond with their views no less than 10 days before the Implementation Date; and
- (iii) reviewed any response from the Scheme Participant and, after having reconsidered its view, still be of the view that it has knowledge that the Magnetic Shareholder Declaration it has received is false.

(f) Magnetic agrees that Genesis may approach the ATO to obtain clarification as to the application of Subdivision 14-D to the Scheme and will provide all information and assistance that Genesis reasonably require in making any such approach.

(g) Genesis agrees:

- (i) to provide Magnetic a reasonable opportunity to review the form and content of all materials to be provided to the ATO for the purposes of enabling Magnetic to comment on the materials;
- (ii) to consider, incorporate and more generally take into account in good faith any reasonable comments from Magnetic on those materials which Magnetic must provide on a timely basis;
- (iii) to provide Magnetic a reasonable opportunity to participate in any discussions and correspondence between Genesis and the ATO in connection with the application of Subdivision 14-D to the Scheme; and
- (iv) not to contact any holders of Magnetic Shares in connection with the application of Subdivision 14-D to the Scheme without Magnetic's prior written consent.

(h) The parties agree to:

- (i) consult in good faith as to the application of Subdivision 14-D, including taking into account any clarification provided by the ATO following any process described in clause 5.10(f); and
- (ii) take all actions that they agree (each acting reasonably) are necessary or desirable following that consultation.

- (i) Genesis agrees to use its best endeavours to engage with the ATO and agree a pragmatic approach in order to minimise the number of Scheme Participants required to provide Magnetic Shareholder Declarations to Genesis under Subdivision 14-D.

5.11 Fractional entitlements and splitting

- (a) Where the calculation of the Scheme Consideration to be issued to a particular Scheme Participant would result in the Scheme Participant becoming entitled to a fraction of a New Genesis Share and/or cent (as applicable), the fractional entitlement will:
 - (i) if such fractional entitlement is less than 0.5, be rounded down to the nearest whole number of New Genesis Shares or cent (as applicable); or
 - (ii) if such fractional entitlement is equal to or greater than 0.5, be rounded up to the nearest whole number of New Genesis Shares or cent (as applicable).
- (b) If Genesis and Magnetic (acting reasonably) agree in writing that two or more Scheme Participants, each of which holds a holding of Magnetic Shares which results in a fractional entitlement to New Magnetic Shares have, before the Record Date, been party to a shareholding splitting or division in an attempt to obtain an advantage by reference to the rounding provided for in the calculation of each Scheme Participant's entitlement to the Scheme Consideration, then Magnetic will give written notice to those Scheme Participants:
 - (i) setting out the names and Registered Addresses of all of them;
 - (ii) stating that opinion; and
 - (iii) attributing to one of them specifically identified in the notice the Magnetic Shares held by all of them,
 and, after the notice has been so given, the Scheme Participant specifically identified in the notice shall, for the purposes of this Scheme, be taken to hold all those Magnetic Shares and each of the other Scheme Participants whose names are set out in the notice shall, for the purposes of this Scheme, be taken to hold no Magnetic Shares.

5.12 Unclaimed monies

- (a) Magnetic may cancel a cheque issued under this clause 5 if the cheque:
 - (i) is returned to Magnetic; or
 - (ii) has not been presented for payment within 6 months after the date on which the cheque was sent.
- (b) During the period of 12 months commencing on the Implementation Date, on request in writing from a Scheme Participant to Magnetic (or the Magnetic Registry) (which request may not be made until the date which is 20 Business Days after the Implementation Date), Magnetic must reissue a cheque that was previously cancelled under this clause 5.12.
- (c) The Unclaimed Money Act 1990 (WA) will apply in relation to any Scheme Consideration which becomes 'unclaimed money' (as defined in section 3 of the Unclaimed Money Act 1990 (WA)).

5.13 Orders of a court or Government Agency

If written notice is given to Magnetic (or the Magnetic Registry) or Genesis (or the Genesis Registry) of an order or direction made by a court of competent jurisdiction or by another Government Agency that:

- (a) requires consideration to be provided to a third party (either through payment of a sum or the issuance of a security) in respect of Scheme Shares held by a particular Scheme Participant, which would otherwise be payable or required to be issued to that Scheme Participant by Magnetic in accordance with this clause 5, then Magnetic shall be entitled to procure that provision of that consideration is made in accordance with that order or direction; or
- (b) prevents Magnetic from providing consideration to any particular Scheme Participant in accordance with this clause 5, or the payment or issuance of such consideration is otherwise prohibited by applicable law, Magnetic shall be entitled to (as applicable):
 - (i) retain an amount, in Australian dollars, equal to the Scheme Cash Consideration to which that Scheme Participant would otherwise have been entitled; and/or
 - (ii) direct Genesis not to issue, or to issue to a trustee or nominee, such number of New Genesis Shares to which that Scheme Participant would otherwise have been entitled,

until such time as provision of the Scheme Consideration in accordance with this clause 5 is permitted by that (or another) order or direction or otherwise by applicable law.

5.14 Status of New Genesis Shares

The New Genesis Shares to be issued in accordance with this Scheme will:

- (a) be validly issued;
- (b) be fully paid;
- (c) be free from any mortgage, charge, lien, encumbrance or other security interest; and
- (d) rank equally in all respects with all other Genesis Shares then on issue (other than in respect of any dividend already declared and not yet paid by Genesis, where the record date for entitlement to that dividend occurred prior to the Implementation Date).

5.15 Scheme Participants bound

Each Scheme Participant who is to receive New Genesis Shares under this Scheme agrees (for all purposes including section 231 of the Corporations Act) to:

- (a) become a member of Genesis and to accept the New Genesis Shares issued to them under this Scheme subject to, and to be bound by, Genesis's constitution and other constituent documents; and
- (b) have their name and address entered into the Genesis Register.

5.16 Authority given to Magnetic

Each Scheme Participant will be deemed (without the need for any further act) to have irrevocably authorised Magnetic (and each of its directors and officers, jointly and severally) as agent and attorney to do and execute all acts, matters, things and documents on the part of each Scheme Participant necessary to implement and give full effect to this Scheme and the transactions contemplated by it, including (without limitation):

- (a) executing a proper instrument of transfer (including for the purposes of section 1071B of the Corporations Act) of their Scheme Shares in favour of Genesis, which may be a master transfer of some or all Scheme Shares; and
- (b) where Scheme Shares are held in a CHESS holding, causing a message to be transmitted to ASX Settlement in accordance with the Settlement Rules to transfer the Scheme Shares held by the Scheme Participant from the CHESS sub-register to the issuer sponsored sub-register operated by Magnetic and subsequently completing a proper instrument of transfer under clause 5.16(a).

5.17 Appointment of sole proxy

Upon the Scheme Consideration being issued by Genesis pursuant to this clause 5 and until Magnetic registers Genesis as the holder of all Scheme Shares in the Register, each Scheme Participant:

- (a) is deemed to have appointed Genesis as attorney and agent (and directed Genesis in such capacity) to appoint the chairman of Genesis as its sole proxy and, where applicable, corporate representative, to attend shareholders meetings, exercise the votes attaching to the Scheme Shares registered in their name and sign any shareholders' resolution, and no Scheme Participant may itself attend or vote at any of those meetings or sign any resolutions, whether in person, by proxy or by corporate representative (other than pursuant to this clause 5.17(a)); and
- (b) must take all other actions in the capacity of a registered holder of Scheme Shares as Genesis reasonably directs.

6. Ancillary Matters**6.1 Magnetic notice and Scheme Participant consent**

- (a) Magnetic must provide, or procure the provision, to Genesis, details of any Election made by Magnetic Shareholders, on the Business Day after the Election Date, including the name and address of each Magnetic Shareholder who has made a valid Election and the amount of cash that Genesis must pay and number of New Genesis Shares that Genesis must issue to those Magnetic Shareholders to meet its obligations under the Scheme in accordance with those Magnetic Shareholders' Elections subject to the terms of this Scheme, including the Cash Scaleback Mechanism and the Scrip Scaleback Mechanism.
- (b) As soon as practicable after the Record Date, and in any event at least two (2) Business Days before the Implementation Date, Magnetic must give to Genesis (or procure that Genesis be given) details of the names and Registered Addresses shown in the Register of all Scheme Participants and the number of Scheme Shares held by each of them at the Record Date (in such form as may be reasonably requested by Genesis and clearly identifying the fully paid ordinary shares and Magnetic Contributing Shares held), together with details of the valid Elections (if any) made by each such Scheme Participant and the amount of cash that Genesis must pay and number of New Genesis Shares that Genesis must issue to each Scheme Participant to meet its obligations under the Scheme in accordance with those Elections subject to the terms of this Scheme, including the Cash Scaleback Mechanism and the Scrip Scaleback Mechanism.
- (c) Scheme Participants agree that any information referred to in clauses 6.1(a) and 6.1(b) may be disclosed to Genesis, Genesis's advisors, Magnetic's advisors and other service providers (including the Genesis Registry) to the extent necessary to effect the Scheme.

6.2 Deferred settlement trading

Genesis will use its reasonable endeavours to ensure that the New Genesis Shares are quoted on ASX initially on a deferred settlement basis on and from the Business Day after the Effective Date (or such later date as ASX may require), and on an ordinary settlement basis on and from the Business Day following the Implementation Date.

6.3 Appointment of Genesis as attorney and agent

Each Scheme Participant, without need for any further act, irrevocably appoints Genesis and each of its directors and officers, jointly and severally, as that Scheme Participant's attorney and agent for the purpose of executing any form of application required for New Genesis Shares to be issued to that Scheme Participant under the Scheme.

7. Dealings in Magnetic Shares**7.1 No issue**

No Magnetic Shares will be issued by Magnetic after the Effective Date and before the Implementation Date.

7.2 Determination of Scheme Participants

To establish the identity of the Scheme Participants, dealings in Magnetic Shares or other alterations to the Register will only be recognised if:

- (a) in the case of dealings of the type to be effected using CHESS, the transferee is registered in the Register as the holder of the relevant Magnetic Shares on or before the Record Date; and
- (b) in all other cases, registrable transfer or transmission applications in respect of those dealings, or valid requests in respect of other alterations, are received on or before the Record Date at the place where the Register is kept,

and Magnetic must not accept for registration, nor recognise for any purpose (except a transfer to Genesis pursuant to this Scheme and any subsequent transfer by Genesis or its successors in title), any transfer or transmission application or other request received after such times, or received prior to such times but not in registrable or actionable form, as appropriate.

7.3 Register

- (a) Magnetic must register registrable transmission applications or transfers of the Scheme Shares that are received in accordance with clause 7.2(b) on or before the Record Date provided that, for the avoidance of doubt, nothing in this clause 7.3(a) requires Magnetic to register a transfer that would result in a Magnetic Shareholder holding a parcel of Magnetic Shares that is less than a "marketable parcel". For the purposes of this clause 7.3(a), the term "marketable parcel" has the meaning given in the ASX Operating Rules).

- (b) If this Scheme becomes Effective, a holder of Scheme Shares (and any person claiming through that holder) must not dispose of, or purport or agree to dispose of, any Scheme Shares or any interest in them after the Record Date otherwise than pursuant to this Scheme, and any attempt to do so will have no effect and Magnetic shall be entitled to disregard any such disposal.
- (c) For the purpose of determining entitlements to the Scheme Consideration, Magnetic must maintain the Register in accordance with the provisions of this clause 7.3 until the Scheme Consideration has been paid to the Scheme Participants. The Register in this form will solely determine entitlements to the Scheme Consideration.
- (d) All statements of holding for Magnetic Shares (other than statements of holding in favour of any Excluded Holder) will cease to have effect after the Record Date as documents of title in respect of those shares and, as from that date, each entry current at that date on the Register (other than entries on the Register in respect of any Excluded Holder) will cease to have effect except as evidence of entitlement to the Scheme Consideration in respect of the Magnetic Shares relating to that entry.

8. Quotation of Magnetic Shares

8.1 Suspension of trading

Magnetic must apply to ASX for suspension of trading of Magnetic Shares on ASX after the close of trading on ASX on the Effective Date. It is expected that suspension of trading in Magnetic Shares will occur from the commencement of the Business Day following the day on which Magnetic notifies ASX of this Scheme becoming Effective.

8.2 Termination of quotation

On a date after the Implementation Date to be determined by Genesis and only after the transfer of the Scheme Shares has been registered in accordance with clause 4.3, Magnetic must apply for termination of the official quotation of Magnetic Shares and to have itself removed from the official list of ASX.

9. General

9.1 Consent to amendments to this Scheme

If the Court proposes to approve this Scheme subject to any alterations or conditions:

- (a) Magnetic may by its counsel consent on behalf of all persons concerned to those alterations or conditions to which Genesis has consented; and
- (b) each Scheme Participant agrees to any such alterations or conditions which Magnetic has consented to.

9.2 Scheme Participants' agreements and warranties

(a) Each Scheme Participant:

- (i) agrees to the transfer of their Magnetic Shares together with all rights and entitlements attaching to those Magnetic Shares in accordance with this Scheme;
- (ii) agrees to the variation, cancellation or modification of the rights attached to their Magnetic Shares constituted by or resulting from this Scheme;
- (iii) agrees to, on the direction of Genesis, destroy any holding statements or share certificates relating to their Magnetic Shares;
- (iv) agrees to become a member of Genesis and to be bound by the terms of the constitution of Genesis;
- (v) who holds their Magnetic Shares in a CHESS Holding agrees to the conversion of those Magnetic Shares to an Issuer Sponsored Holding and irrevocably authorises Magnetic to do anything necessary or expedient (whether required by the Settlement Rules or otherwise) to effect or facilitate such conversion; and
- (vi) acknowledges and agrees that this Scheme binds Magnetic and all Scheme Participants (including those who do not attend the Scheme Meeting and those who do not vote, or vote against this Scheme, at the Scheme Meeting).

(b) Each Scheme Participant is taken to have warranted to Magnetic and Genesis on the Implementation Date, and to have appointed and authorised Magnetic as its attorney and agent to warrant to Genesis on the Implementation Date, that:

- (i) all their Magnetic Shares (including any rights and entitlements attaching to those shares) which are transferred under this Scheme will, at the date of transfer, be fully paid (other than any Magnetic Contributing Shares, each of which are paid to nil and unpaid to \$0.20) and free from all mortgages, charges, liens, encumbrances, pledges, security interests (including any 'security interests' within the meaning of section 12 of the Personal Property Securities Act 2009 (Cth)) and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind; and
- (ii) they have full power and capacity to transfer their Magnetic Shares to Genesis together with any rights and entitlements attaching to those shares,

and Magnetic undertakes that it will provide such warranties to Genesis as agent and attorney of each Scheme Participant.

9.3 Title to and rights in Scheme Shares

(a) To the extent permitted by law, the Scheme Shares (including all rights and entitlements attaching to the Scheme Shares) transferred under this Scheme to Genesis will, at the time of transfer of them to Genesis vest in Genesis free from all mortgages, charges, liens, encumbrances, pledges, security interests (including any 'security interests' within the meaning of section 12 of the Personal Property Securities Act 2009 (Cth)) and interests of third parties of any kind, whether legal or otherwise and free from any restrictions on transfer of any kind.

(b) Immediately upon the provision of the Scheme Consideration to each Scheme Participant in the manner contemplated by clauses 5.8(a) and 5.8(b), Genesis will be beneficially entitled to the Scheme Shares to be transferred to it under this Scheme pending registration by Magnetic of Genesis in the Register as the holder of the Scheme Shares.

9.4 Appointment of sole proxy

Immediately upon the provision of the Scheme Consideration to each Scheme Participant in the manner contemplated by clauses 5.8(a) and 5.8(b), and until Magnetic registers Genesis as the holder of all Scheme Shares in the Register, each Scheme Participant:

(a) is deemed to have appointed Genesis as attorney and agent (and directed Genesis in each such capacity) to appoint any director, officer, secretary or agent nominated by Genesis as its sole proxy and, where applicable or appropriate, corporate representative to attend shareholders' meetings, exercise the votes attaching to the Scheme Shares registered in their name and sign any shareholders' resolution or document;

(b) must not attend or vote at any of those meetings or sign any resolutions, whether in person, by proxy or by corporate representative (other than pursuant to clause 9.4(a));

(c) must take all other actions in the capacity of a registered holder of Scheme Shares as Genesis reasonably directs; and

(d) acknowledges and agrees that in exercising the powers referred to in clause 9.4(a), Genesis and any director, officer, secretary or agent nominated by Genesis under clause 9.4(a) may act in the best interests of Genesis as the intended registered holder of the Scheme Shares.

9.5 Authority given to Magnetic

Each Scheme Participant, without the need for any further act:

(a) on the Effective Date, irrevocably appoints Magnetic and each of its directors, officers and secretaries (jointly and each of them severally) as its attorney and agent for the purpose of enforcing the Deed Poll against Genesis, and Magnetic undertakes in favour of each Scheme Participant that it will enforce

the Deed Poll against Genesis on behalf of and as agent and attorney for each Scheme Participant; and

(b) on the Implementation Date, irrevocably appoints Magnetic and each of its directors, officers and secretaries (jointly and each of them severally) as its attorney and agent for the purpose of executing any document or doing or taking any other act necessary, desirable or expedient to give effect to this Scheme and the transactions contemplated by it, including (without limitation) executing the Scheme Transfer,

and Magnetic accepts each such appointment. Magnetic as attorney and agent of each Scheme Participant may sub-delegate its functions, authorities or powers under this clause 9.5 to all or any of its directors, officers, secretaries or employees (jointly, severally or jointly and severally).

9.6 Instructions and elections

Except for a Scheme Participant's tax file number, to the extent not prohibited by law (and including where permitted or facilitated by relief granted by a Government Agency), all instructions, notifications or elections by a Scheme Participant to Magnetic that are binding or deemed binding between the Scheme Participant and Magnetic relating to Magnetic or Magnetic Shares, including instructions, notifications or elections relating to:

- (a) whether dividends are to be paid by cheque or into a specific bank account;
- (b) payments of dividends on Magnetic Shares; and
- (c) notices or other communications from Magnetic (including by email),

will be deemed from the Implementation Date (except to the extent determined otherwise by Genesis in its sole discretion), by reason of this Scheme, to be made by the Scheme Participant to Genesis and to be a binding instruction, notification or election to, and accepted by, Genesis in respect of the New Genesis Shares issued to that Scheme Participant until that instruction, notification or election is revoked or amended in writing addressed to Genesis at its registry.

9.7 Scheme binding

Each Scheme Participant will transfer their Scheme Shares to Genesis (together with all rights and entitlements attaching to those Scheme Shares as at the Implementation Date) in accordance with the terms of this Scheme and this Scheme binds Magnetic and all Scheme Participants (including those who do not attend the Scheme Meeting, do not vote at the Scheme Meeting, or vote against this Scheme at the Scheme Meeting) and, to the extent of any inconsistency, overrides the constitution of Magnetic.

9.8 Accidental omissions and non-receipt of notice

The accidental omission to give notice of the Scheme Meeting to any holder of Magnetic Shares or the non-receipt of such a notice by any holder of Magnetic Shares

will not, unless so ordered by the Court, invalidate the Scheme Meeting or the proceedings at the Scheme Meeting.

9.9 Notices

Where a notice, transfer, transmission application, direction or other communication referred to in this Scheme is sent by post:

- (a) to Magnetic, it will not be deemed to be received in the ordinary course of post or on a day other than the date (if any) on which it was actually received at Magnetic's registered office or the Magnetic Registry; and
- (b) to a Scheme Participant, it will be sent by ordinary pre-paid post (or by airmail in the case of Scheme Participants with overseas Registered Addresses) or courier to the Registered Address of the relevant Scheme Participant at the Record Date, or delivered to that address by any other means at no cost to the recipient.

9.10 Further obligations

Magnetic and Genesis must each execute all deeds and other documents (including transfers) and do all acts and things as may be necessary or expedient on its part to implement and give full effect to this Scheme in accordance with its terms.

9.11 No liability

Neither Magnetic nor Genesis, nor any of their respective officers, is liable to Scheme Participants for anything done or for anything omitted to be done in performance of this Scheme in good faith.

9.12 Costs and Duty

Magnetic will pay the costs of the Scheme other than Duty. All Duty (if any) payable and any related fines, interest and penalties in connection with the transfer of the Scheme Shares to Genesis will be payable by Genesis.

9.13 Governing law

The Scheme is governed by the laws of Western Australia. Magnetic, Scheme Participants and Genesis each submit to the non-exclusive jurisdiction of the courts exercising jurisdiction in Western Australia, and any court that may hear appeals from any of those courts, for any proceedings in connection with this document, and waive any right they might have to claim that those courts are an inconvenient forum.

10. GST

10.1 Construction

In this clause 10:

- (a) unless there is a contrary indication, words and expressions which are not defined in this document but which have a defined meaning in the GST Law have the same meaning as in the GST Law;

(b) **GST Law** has the same meaning given to that expression in the A New Tax System (Goods and Services Tax) Act 1999 (Cth) or, if that Act does not exist for any reason, means any Act imposing or relating to the imposition or administration of a goods and services tax in Australia and any regulation made under that Act; and

(c) references to GST payable and input tax credit entitlements include:

- (i) notional GST payable by, and notional input tax credit entitlements of the Commonwealth, a State or a Territory (including a government, government body, authority, agency or instrumentality of the Commonwealth, a State or a Territory); and
- (ii) GST payable by, and the input tax credit entitlements of, the representative member of a GST group of which the entity is a member.

10.2 Consideration GST exclusive

Unless otherwise expressly stated, all consideration, whether monetary or non-monetary, payable or to be provided under or in connection with this document is exclusive of GST (**GST-exclusive consideration**).

10.3 Payment of GST

If GST is payable on any supply made by:

- (a) a party; or
- (b) an entity that is taken under the GST Law to make the supply by reason of the capacity in which a party acts (**Supplier**) under or in connection with this document, the party providing the consideration for the supply must pay to the Supplier an additional amount equal to the GST payable on the supply.

10.4 Timing of GST payment

Subject to clause 10.5, the amount referred to in clause 10.3 must be paid in addition to and at the same time and in the same manner (without any set-off or deduction) that the GST-exclusive consideration for the supply is payable or to be provided.

10.5 Tax invoice

The Supplier must deliver a tax invoice or an adjustment note to the recipient of a taxable supply before the Supplier is entitled to payment of an amount under clause 10.3.

10.6 Adjustment event

If an adjustment event arises in respect of a supply made by a Supplier under or in connection with this document, any amount that is payable under clause 10.3 will be calculated or recalculated to reflect the adjustment event and a payment will be made by the recipient to the Supplier or by the Supplier to the recipient as the case requires.

10.7 Reimbursements

- (a) Where a party is required under or in connection with this document to pay for, reimburse or contribute to any expense, loss, liability or outgoing suffered or incurred by another party or indemnify another party in relation to such an expense, loss, liability or outgoing (**Reimbursable Expense**), the amount required to be paid, reimbursed or contributed by the first party will be reduced by the amount of any input tax credits to which the other party is entitled in respect of the Reimbursable Expense.
- (b) This clause 10.7 does not limit the application of clause 10.3, if appropriate, to the Reimbursable Expense as reduced in accordance with clause 10.7(a).

10.8 No merger

This clause 10 does not merge on the completion, rescission or other termination of this document or on the transfer of any property supplied under this document.

in each case in connection with that person, which is preparatory to or could result in any of (i), (ii) or (iii) above;

- (v) it is taken (under section 459F(1) of the Corporations Act) to have failed to comply with a statutory demand;

- (b) on or after the Second Court Date, the variation is agreed to in writing by Magnetic and is approved by the Court,

in which event, Genesis must enter into a further deed poll in favour of Scheme Participants giving effect to that amendment.

7.2 Assignment
