Principal activities

During the financial half-year the principal continuing activities of the Group consisted of the development and sale of the Asset Vision platform - an Australian-built, cloud-based asset and works management system with native GIS capabilities. The platform assists asset owners and their service providers across sectors such as Transport, Local Government, Ports & Marine, Utilities, and Facilities Management to plan, inspect, maintain, and manage critical infrastructure more easily and collaboratively.

Dividends

There were no dividends paid, recommended or declared during the current or previous financial half-year.

Review of operations

The loss for the Group after providing for income tax amounted to \$54,052 (31 December 2024: profit of \$93,618).

The Group delivered a strong operating half, marked by continued momentum in recurring revenue and a solid cash position, while profitability was temporarily impacted by deliberate investment decisions.

Sustainable revenue growth was underpinned by strong ARR expansion with 38% growth vs pcp, reflecting continued customer acquisition, contract uplifts, and successful conversion of prior sales activity. Growth was broad-based, with both licensing revenue (28% increase on pcp) and services revenue (24% increase on pcp) contributing, indicating healthy customer engagement beyond core subscriptions.

Cash position strengthened, providing balance-sheet resilience and flexibility to continue funding growth initiatives without immediate reliance on external capital. Net cash operating inflows for the half amounted to \$669k.

Cost growth outpaced revenue in the half, driven by targeted investment in headcount, product development, and supporting infrastructure to scale the business. Non-FTE costs increased as the Group invested in systems, professional services, and growth-related operating expenses.

Underlying operating performance remained resilient, with EBITDA pre-corporate broadly stable year on year, demonstrating that core operations continue to scale effectively despite increased investment.

Reported profitability was impacted by non-cash items, including a higher fair value charge on shares and performance rights (1H26 \$548k vs 1H25 \$371k), which drove the movement from PBT and NPAT profitability in the prior half to a modest loss in the current period. These impacts do not reflect underlying trading performance or cash generation.

The Group remains focused on cash flow generation and liquidity management to ensure long-term success. The Group continues to generate strong cash flow from core operations, essential for maintaining day-to-day activities, funding future growth, and meeting working capital needs. The receipt of the R&D tax offset further strengthens the Group's cash position, reinforcing its commitment to innovation. The tax offset serves as a valuable financial resource that can be reinvested into new initiatives or used to support ongoing operations.

Net assets now stand at \$5.6 million, reflecting a \$0.5 million increase since 30 June 2025. The increase reflects the Group's positive performance for the half year, with earnings generated during the period strengthening the balance sheet. This improvement in net assets enhances the Group's financial position and provides a stronger platform to support ongoing operations and future growth initiatives.

Overall, the half reflects the Group's prioritisation of long-term growth and product capability, supported by strong recurring revenue momentum and a healthy cash position, with short-term earnings impacts largely attributable to planned investment and non-cash accounting adjustments.

Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Group during the financial half-year.

Matters subsequent to the end of the financial half-year

No matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Auditor's independence declaration

A copy of the auditor's independence declaration as required under section 307C of the Corporations Act 2001 is set out immediately after this directors' report.

This report is made in accordance with a resolution of directors, pursuant to section 306(3)(a) of the Corporations Act 2001.

On behalf of the directors

Damian Smith
Managing Director

Note 1. Material accounting policy information

These general purpose financial statements for the interim half-year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard AASB 134 'Interim Financial Reporting' and the Corporations Act 2001, as appropriate for for-profit oriented entities. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 'Interim Financial Reporting'.

These general purpose financial statements do not include all the notes of the type normally included in annual financial statements. Accordingly, these financial statements are to be read in conjunction with the annual report for the year ended 30 June 2025 and any public announcements made by the company during the interim reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The accounting policies adopted are consistent with those of the previous financial year and corresponding interim reporting period, unless otherwise stated.

New or amended Accounting Standards and Interpretations adopted

The Group has adopted all of the new or amended Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new or amended Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Note 1. Material accounting policy information (continued)

Going concern

The consolidated financial statements have been prepared on a going concern basis, which assumes the continuity of normal business activities and the settlement of liabilities in the normal course of business.

During the half-year ended 31 December 2025, the Group reported a net loss after tax of \$54,052 (2024: profit of \$93,618) and had net cash operating inflows of \$669,281 (2024: \$862,103). The result for the current half-year included the following significant non-cash items:

- Share-based payments of \$547,739 for the cost of shares and performance rights issued to current directors and employees; and
- Depreciation and amortisation charges of \$196,825.

As at 31 December 2025, the Group's current assets exceeded current liabilities by \$1,002,797 (2024: \$359,333) indicating a robust liquidity position. This positive working capital suggests that the Group has more than enough short-term assets to cover its immediate financial obligations, enhancing its financial stability and reducing the risk of liquidity issues in the short term. This solid financial foundation is a key indicator of the Group's ability to navigate potential challenges and meet its operational requirements.

Currently, the Group has no plans to raise capital, as the financial forecast for the next 12 months projects positive EBITDA driven by revenue growth in new and existing markets, facilitated by the core asset management platform and the expansion of the new AutoPilot product.

Further supporting the Group's liquidity position and cash flow outcomes for the period, the Group recorded strong growth in both recurring and licensing revenues compared to the prior corresponding period (pcp).

Annual Recurring Revenue (ARR) increased by 38%, reflecting continued expansion of the Group's core Asset Vision platform. This growth was driven by a combination of new customer acquisitions, contract renewals, and incremental expansion within the existing customer base. ARR increased from \$3.8 million at pcp to \$5.2 million at the end of the reporting period, improving revenue visibility and supporting the predictability of future cash inflows.

Licensing revenue increased by 28% compared to pcp, totalling \$2.4 million for the half. The increase was primarily attributable to the signing of new customers during the period, in addition to customer wins secured in the second half of FY25. These customers were acquired across a range of sectors, including utilities, facilities management, local government, and transport, which reduces customer concentration risk and supports the sustainability of the Group's recurring revenue base.

The directors are confident that the Group will be able to continue as a going concern, meaning it will be able to keep trading, realise assets, and settle liabilities in the ordinary course of business for at least 12 months from the date of the consolidated financial report.

Accordingly, the consolidated financial statements do not include any adjustments relating to the recoverability and classification of recorded assets or liabilities that might be necessary should the Group not continue as a going concern.

Note 2. Operating segments

Identification of reportable operating segments

An operating segment is a component of an entity: (a) that engages in business activities from which it may earn revenues and incur expenses, (b) whose operating results are regularly reviewed by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance, and (c) for which discrete financial information is available.

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors (chief operating decision maker) in assessing performance and determining the allocation of resources.

At reporting date, the Directors have determined that there is only one reporting segment, being the business as a whole.

The Group conducts impairment testing of the relevant businesses as required. Impairment testing was carried out as of 31 December 2025 to support the carrying value of goodwill and other non-financial assets of the Group. The recoverable amount of the Group's non-financial assets was calculated using a value in use approach, employing a discounted cash flow model based on a 5-year projection period approved by Management, along with a terminal value. Management's estimates of cash flow projections and gross margins are derived from past performance and future expectations.

Key assumptions are those to which the recoverable amount of an asset or cash generating unit are most sensitive.

The key assumptions used in the value in use calculation for Asset Vision were as follows:

Pre-tax discount rate 28.17% (June 2025: 28.17%)

Terminal value growth rate 2.50% (June 2025: 2.50%)

Revenue growth rate ranges from 10%-30% (June 2025: 10%-30%)

There were no other key assumptions.

The review indicates that the value in use is higher than the carrying amount of the Group's non-financial assets therefore no impairment charge is necessary.

Revaluation surplus reserve

The reserve is used to recognise increments and decrements in the fair value of investments.

Financial assets at fair value through other comprehensive income reserve

The reserve is used to recognise increments and decrements in the fair value of financial assets held at fair value through other comprehensive income.

Performance rights reserve

The reserve is used to recognise the value of performance rights provided to employees and directors as part of their remuneration under the Group's Long Term Incentive Plan.

Share option reserve

The reserve is used to recognise the value of options granted to directors as part of their remuneration, and to other parties as part of their compensation for services.

Note 13. Share-based payments

The Group has introduced a new Long-Term Incentive Plan (LTIP) designed to align employee interests with the Group's strategic goals. Under this plan, eligible senior executives and staff may receive Performance Rights as a form of incentive. The LTIP is available to current employees and includes a three-year vesting period for recipients of Performance Rights. These rights are issued over ordinary shares in the Company and are granted to members of the Executive Leadership, Business Leadership, and Technical Leadership teams. They are provided at no cost to participants and are awarded based on performance criteria set by the Remuneration and Nomination Committee.

The Group also offers Long-Term Incentives specifically for Non-Executive Directors and Corporate Advisers, including the provision of options. These incentives are intended to align the interests of Directors and Advisers with the Group's strategic objectives and to serve as a form of motivation. They are available exclusively to current Directors and current and past Advisers and are not subject to vesting conditions. Options are granted over ordinary shares in the Company to newly appointed Non-Executive Directors and Corporate Advisers for services rendered and are issued at no cost. The grants are made in accordance with performance guidelines set by the Remuneration and Nomination Committee.

The fair value of the equity share settled options granted is estimated as at the grant date using the Binomial model taking into account the terms and conditions upon which the options were granted.

The fair value of the equity share settled Performance Rights granted under the LTIP is estimated as at the grant date using the Monte Carlo Simulation model taking into account the terms and conditions upon which the Performance Rights were granted.

Note 13. Share-based payments (continued)

Set out below are the options exercisable at the end of the financial half-year:

Grant date	Expiry date	31 Dec 2025 Number	31 Dec 2024 Number
26/10/2023	01/07/2025	-	10,000,000
17/10/2024	01/07/2025	-	<u>10,000,000</u>
			<u>20,000,000</u>

The weighted average remaining contractual life of options outstanding at the end of the financial half-year was 1.48 years (31 December 2024: 0.79 years).

For the rights granted during the current financial half-year, the valuation model inputs used to determine the fair value at the grant date, are as follows:

Grant date	Expiry date	Share price at grant date	Exercise price	Expected volatility	Dividend yield	Risk-free interest rate	Fair value at grant date
22/09/2025	30/06/2030	\$0.045	\$0.000	103.000%	-	3.428%	\$449,123

Note 14. Events after the reporting period

No matter or circumstance has arisen since 31 December 2025 that has significantly affected, or may significantly affect the Group's operations, the results of those operations, or the Group's state of affairs in future financial years.

Asset Vision Co Limited
Directors' declaration
31 December 2025

In the directors' opinion:

- the attached financial statements and notes comply with the Corporations Act 2001, Australian Accounting Standard AASB 134 'Interim Financial Reporting', the Corporations Regulations 2001 and other mandatory professional reporting requirements;
- the attached financial statements and notes give a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the financial half-year ended on that date; and
- there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to section 303(5)(a) of the Corporations Act 2001.

Independent Auditor's Review Report to the Members of Asset Vision Co Limited**Report on the Half-Year Financial Report****Conclusion**

We have reviewed the half-year financial report of Asset Vision Co Limited ("the company"), which comprises the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the half-year ended on that date, including material accounting policy information, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of the company does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's Responsibilities for the Review of the Financial Report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001* which has been given to the directors of the company, would be in the same terms if given to the directors as at the time of this auditor's review report.

Responsibility of the Directors for the Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
