

Half Year Results FY26

6 months to 31 December 2025

St Barbara Limited (“St Barbara” or the “Company”) (ASX:SBM) announces the Company’s financial results for the half year ended 31 December 2025 (“H1 FY26”).

Key highlights – H1 FY26

- Underlying Profit After Tax of A\$1.3 million (as compared to H1 FY25: loss of A\$48.1 million)
- Statutory Loss After Tax of A\$0.2 million (as compared to H1 FY25: loss of A\$48.5 million)
- Half Year Operating Cash Contribution after sustaining capital of A\$18.0 million (H1 FY25: loss of A\$35.3 million)
- Growth capital, studies and exploration expenditure of A\$40.5 million (H1 FY25: A\$23.9 million expenditure)
- St Barbara anticipates being fully funded for growth capital at both the New Simberi Gold Project and 15-Mile Processing Hub Project as a result of:
 - Completion of the agreement¹ reached with Lingbao Gold International Company Limited (Lingbao) to acquire 40% of the New Simberi Gold Project with proceeds of A\$370 million in cash to be received by the Company; and
 - A\$100 million agreement¹ with Kumul Mineral Holdings Ltd (Kumul) by which Kumul’s subsidiary will acquire 20% of the New Simberi Gold Project
- St Barbara is targeting the end of Q3 of FY26 for completion of both the Lingbao and Kumul transactions
- Recent study results at Simberi and Atlantic have confirmed attractive project economics:
 - New Simberi Gold Project Feasibility Study – annual production over 200 kozpa at an AISC of between US\$1,100 and US\$1,400/oz over a mine life extending to 13 years
 - 15-Mile Processing Hub Pre-Feasibility Study – gold production of over 100 kozpa and a +11-year mine life at AISC averaging US\$1,188/oz
 - Touquoy Restart Pre-Feasibility Study – gold production of 38koz and AISC averaging US\$1,598/oz

St Barbara Limited Managing Director and CEO Andrew Strelein said *“The December half year financial results reflect the solid year of progress throughout our business with Simberi generating Operating Contribution of A\$22.4 million for the half year and A\$40.5 million invested in Growth Capital and Exploration across the group.”*

“We have delivered a number of project milestones in the first half with the delivery of the Feasibility Study for the New Simberi Gold Project, the Touquoy Restart Pre-Feasibility and, subsequent to the end of the December half year we announced the results of Pre-Feasibility Study for 15-Mile Processing Hub.”

“In December, the Company announced combined agreements with Lingbao Gold and the PNG government owned Kumul Minerals enabling the New Simberi Gold Project to progress to FID, with St Barbara to be fully funded for its share of development costs whilst retaining a 40% attributable share in the expanded operation.”

“Alongside our financial results being released today, we have updated our Mineral Resources and Ore Reserves Statement, with Total Ore Reserves of 3.8 Moz of contained gold and Total Mineral Resources of 7.9 Moz of contained silver. For the first time at Simberi we have also reported Mineral Resources of 15.3 Moz of contained silver and Ore Reserves of 4.5 Moz of contained silver.”

¹ Refer to ASX announcements on 10 December 2025 titled *“St Barbara to be Fully Funded for Simberi Expansion; Lingbao Gold to Acquire a 50% Strategic Interest”* and *“Kumul Minerals to acquire a 20% interest in Simberi Gold Mine”*

Full details are set out in the attached Appendix 4D and Interim Financial Report for the half year ended 31 December 2025.

Significant items after tax	(1,585)	(468)

St Barbara's strategic focus remains the development of the New Simberi Gold Project in Papua New Guinea (PNG) and of the 15-Mile Processing Hub Project in Canada.

Operations at Simberi Gold continued with the mining and processing of remnant open pit oxide ores to maintain business continuity leading into the proposed expansion.

The Atlantic Gold Operation is no longer recognised as a discontinued operation in the half year financial statements for the period ended 31 December 2025 following discontinuation of the sale process for the asset.

There has been no further update on the tax assessment received from the Papua New Guinea Internal Revenue Commission (IRC). St Barbara remains of the view that there is no merit to the IRC reassessments issued in December 2024. For more information see Notes 4 and 9.

Key 2026 half-year achievements include:

- ✓ Agreement reached with Lingbao Gold International Company Limited (Lingbao) to acquire 50% of St Barbara Mining Pty Ltd (a wholly owned subsidiary of St Barbara) on terms that will deliver St Barbara cash receipts of A\$370 million at completion targeted for the end of Q3 of FY26.
- ✓ A\$100 million agreement with Kumul Mineral Holdings Ltd (Kumul) by which Kumul's subsidiary will acquire 20% of the Simberi Operation to form an unincorporated joint venture with St Barbara Mining Pty Ltd with completion targeted for the end of Q3 of FY26.
- ✓ Feasibility Study outcomes of US\$1,023 million Post Tax NPV (assumed gold price of US\$3,000/oz), 200kozpa, +13 year mine life for New Simberi Gold Project.
- ✓ Prefeasibility Study outcome of A\$1,402 million Post Tax NPV (assumed gold price of US\$3,000/oz), 100kozpa +11 year mine life for 15-Mile Processing Hub.
- ✓ Prefeasibility Study outcome of C\$60 million NPV (assumed gold price of US \$3,000/oz) for the Touquoy Restart Project.
- ✓ A\$58 million institutional placement (before costs).
- ✓ Continued progress on the New Simberi Project early works and pre-expansion capital.
- ✓ Touquoy Care and Maintenance and Rehabilitation program running to schedule.

The Group's Underlying Net Profit after Tax for the six months ended 31 December 2025 was \$1,336,000. The result comprises a pre-tax segment operating profit at Simberi of \$20,639,000, offset by corporate costs of \$6,571,000, care and maintenance costs of \$4,396,000, share based payment expenses of \$3,976,000 and net foreign exchange loss of \$3,868,000.

Cash on hand was \$74,784,000 as at 31 December 2025 excluding restricted cash of \$87,288,000 provided as security for letters of credit issued for the Touquoy site and classified under "Trade and other receivables". Material cash inflows include \$54,433,000 from the share capital raise (net of costs), \$23,382,000 cash contribution from the Simberi Operations and \$13,476,000 receipt from the sale of Peel Mining Limited and Brightstar Resources Limited Shares. Cash outflows include \$36,111,000 for progressing development of the New Simberi Gold Project, and \$4,399,000 for progressing development of the 15-Mile Processing Hub Project and Touquoy stockpile processing projects. Other cash outflows included corporate and exploration activities, and lease financing.

Going Concern

Based on the Group's current cash reserves, liquid assets as well as scalability and flexibility to manage uncommitted expenditure, the Directors are confident that the Group will be able to meet its obligations as and when they fall due for at least 12 months from the date of this report and that it is appropriate for the financial statements to be prepared on a going concern basis. The Directors have considered the potential impact of funding delays, commodity price sensitivities, market conditions and the operating performance of the Simberi site to deliver on guidance. The independent auditor's report includes an emphasis of matter that highlights the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern. Refer to note 1 and the Independent Auditor's Report for further details.

Overview of Operating Results

The table below provides a summary of the financial performance of the St Barbara Group's mining operations.

	Simberi		Atlantic		Consolidated Mining Operations	
	2025	2024	2025	2024	2025	2024
A\$'000s for the six months ended 31 December:						
Revenue	128,830	88,961	-	8,364	128,830	97,325
Mine operating costs	(95,820)	(116,164)	-	(1,160)	(95,820)	(117,324)
Gross profit/(loss)	33,010	(27,203)	-	7,204	33,010	(19,999)
Royalties	(3,137)	(2,216)	-	(166)	(3,137)	(2,382)

Profit/(loss) from operations ⁽²⁾	20,639	(37,547)	(279)	6,500	20,360	(31,047)

(1) Earnings before interest, tax, depreciation and amortisation (EBITDA) is a non-IFRS financial measure, which has not been subject to review or audit by the Group's external auditors.

(2) Excludes impairment, write down on assets, accelerated depreciation, care and maintenance costs, corporate costs, exploration expenses, interest and tax and is non-IFRS financial information, which has not been subject to review or audit by the Group's external auditors.

The table below provides a summary of the cash contribution from St Barbara's cash generating units.

	Simberi		Atlantic		Consolidated Mining Operations	
	2025	2024	2025	2024	2025	2024
A\$'000s for the six months ended 31 December:						
Operating cash contribution	23,382	(34,917)	(4,396)	2,418	18,986	(32,499)
Capital - sustaining	(1,027)	(2,790)	-	-	(1,027)	(2,790)

Total cash contribution	(13,756)	(58,009)	(8,795)	(1,148)	(22,551)	(59,157)

(1) Cash contribution is non-IFRS financial information, which has not been subject to review or audit by the Group's external auditors. This measure is provided to enable an understanding of the cash generating performance of the operations. This amount excludes growth capital and corporate royalties paid.

(2) Growth capital at Simberi represents expenditure associated with the New Simberi Gold Project excluding capitalised exploration and evaluation costs, feasibility expenditures and costs associated with near mine studies.

(3) Other Growth capital at both Simberi and Atlantic represents capitalised exploration and evaluation costs, feasibility expenditures and costs associated with near mine studies.

A summary of production performance for the period ended 31 December 2025 is provided in the table below.

Half-year ended December:		Simberi	
Metric	Unit	2025	2024
Ore Mined	kt	1,056	1,215
Ore Mined Grade	g/t Au	0.89	1.10
Ore Milled (including stockpiles)	kt	873	884
Ore Milled Grade	g/t Au	0.99	1.07
Recovery	%	73	74
Gold Production	oz troy	20,215	22,495
Gold Sales	oz troy	21,907	22,504
Cash Cost ⁽¹⁾	A\$/oz	5,170	4,503
All-in-sustaining cost ⁽²⁾	A\$/oz	5,397	4,822
Average gold price received	A\$/oz	5,822	3,916

(1) Cash costs are mine operating costs including government royalties, and after by-product credits. This is a non-IFRS financial measure which has not been subject to review or audit by the Group's external auditors. It is presented to provide meaningful information to assist management, investors and analysts in understanding the results of the operations. Cash costs are calculated according to common mining industry practice using The Gold Institute (USA) Production Cost Standard (1999 revision).

(2) AISC is a non-IFRS financial measure which has not been subject to review or audit by the Group's external auditors. It is presented to provide a meaningful measure by which to assess the total sustaining cash cost of an operation. It is calculated in accordance with the World Gold Council's Guidance Note on Non-GAAP Metrics – All-In Sustaining Costs and All-In Costs (June 2013).

Analysis of Simberi Operations

Simberi's focus remains on maintaining a safe operation, cash neutral or better, with a steady sustainable production profile until commencement of the New Simberi Gold Project. This is an intentional strategy to ensure business continuity to avoid disruption to established operational functions and to landowner businesses. Increasingly, the operation focuses on business readiness activities to ensure it can successfully scale up for the commencement of the New Simberi Gold Project.

Total growth capital expenditure in the period of \$36,111,000 was due to the increasing levels of investment in progressing the New Simberi Gold Project, including the addition of new mobile fleet, camp upgrades and 5.8Mw ball mill procurement, reverse osmosis water treatment plant and the studies. Sustaining capital expenditure of \$1,027,000 focused on increasing plant and mining reliability.

Simberi Operations produced 20,215 ounces in the half-year with progression into higher grade zones scheduled for the second half of financial year 2026.

Total mine operating costs at Simberi Operations fell during the period to \$95,820,000 with lower fixed plant and mobile fleet maintenance costs following capital improvements and the progressive fleet upgrade

Analysis of Atlantic Operations

The Touquoy Project remains in care and maintenance although investigation is underway on the restart in FY27 to process remnant stockpiles.

Growth capital expenditure including project development, studies and exploration in the period was \$4,399,000 focused on the 15-Mile Processing Hub Project.

Debt management and liquidity

The available cash balance at 31 December 2025 was \$74,784,000 (30 June 2025: \$67,437,000) with an additional \$87,288,000 held as restricted cash and reported within trade and other receivables.

Total interest bearing liabilities decreased to \$2,877,000 as at 31 December 2025 (30 June 2025: \$5,572,000), with the balance comprising finance leases of \$1,932,000 (30 June 2025: \$2,939,000), \$960,000 (30 June 2025: \$1,161,000) in 'right of-use asset' lease liabilities while there was nil relating to the insurance premium funding (30 June 2025: \$1,521,000).

The AUD/USD exchange rate as at 31 December 2025 was 0.6675 (30 June 2025: 0.6582).

The AUD/CAD exchange rate as at 31 December 2025 was 0.9161 (30 June 2025: 0.8956).

Notes to the Interim Financial Statements

Note 1: Basis of Preparation

Significant accounting policies

The accounting policies applied by the Group in this consolidated half-year financial report are the same as those applied by the Group in its consolidated financial report as at and for the year ended 30 June 2025. These accounting policies are consistent with Australian Accounting Standards.

The Group has adopted all the new and revised Standards and Interpretations issued by the AASB that are relevant to its operations and effective for the current half-year report. Accounting policies are applied consistently by each entity in the Group.

Critical accounting judgement and estimates

The preparation of the consolidated half-year financial report in conformity with AASB and IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

In preparing this consolidated half-year financial report, the significant estimates and judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the most recent annual financial report.

Going concern

The consolidated half-year financial report has been prepared on a going concern basis, which contemplates the continuity of normal business operations, including the realisation of assets and the settlement of liabilities in the ordinary course of business.

For the period ended 31 December 2025, the Group incurred a net loss after tax of \$249,000 (2024: net loss after tax \$48,526,000), with net cash outflows from operating activities of \$13,665,000 (2024: \$76,179,000) and net cash outflow from investing activities of \$28,119,000 (2024: \$2,973,000). The Group has a working capital surplus of \$193,301,000 (30 June 2025: \$201,357,000).

The Group's total cash balance, including restricted cash is \$162,072,000 (\$87,288,000 restricted cash is disclosed in trade and other receivables).

As announced to the ASX, St Barbara Limited (SBL) entered into the binding agreement under which Lingbao will acquire 50% plus one share of St Barbara Mining Pty Ltd ("SBML"), a wholly owned subsidiary of SBL, that will end up owning an 80% interest in the New Simberi Gold Project. SBL will receive \$370 million in cash as a result of the transaction with Lingbao and SBL sharing the funding of the Initial Capital for the New Simberi Gold Project. In a separate but linked transaction, SBL and Kumul Minerals Holdings Ltd ("Kumul") have entered into a binding agreement by which a wholly owned subsidiary of Kumul will acquire a 20% interest in the New Simberi Gold Project through the establishment of an unincorporated joint venture. The sale price of \$100 million will be funded by SBML which will at that point be owned by SBL and Lingbao. St Barbara, Lingbao and Kumul are targeting completion of the

transactions and Final Investment Decision (FID) on the New Simberi Gold Project at the end of Q3 FY26. The transaction is subject to Conditions Precedent which management continue to work on. In the event the Conditions Precedent are not met, or the transaction is not completed, the Group will be required to find alternative sources of funding.

Completion of the transactions coincide with Final Investment Decision (FID) for the expansion of the New Simberi Gold Project. As discussed earlier the transaction will deliver \$370 million in cash to the Group.

The majority of future capital commitments associated with the New Simberi Gold Project are not expected to be incurred until FID, at which time funding will have been secured as a pre-condition of FID. As at the reporting date, the Group has existing capital commitments of approximately \$36.8 million, primarily relating to long-lead items, including the ball mill, mobile fleet and detox plant and completion works for the camp upgrade.

The Simberi Operation operates in a challenging jurisdiction and is subject to operating risks and hazards, infrastructure and supply chain challenges as well as a complex regulatory framework.

As a result of the above, the presence of a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern, and its ability to realise its assets and discharge its liabilities in the normal course of business.

The Directors are satisfied that it remains appropriate to prepare the financial statements on a going concern basis based on the following factors:

- The Group has assessed that it holds sufficient cash and liquid assets to meet minimum expenditure obligations required to maintain tenements in good standing and sustain planned operations over the twelve months from the date of this report;
- The Group held a listed share portfolio with a fair value of \$24,304,000 as at 31 January 2026;
- The Simberi Operation currently holds Gold in Circuit of 5,183oz worth approximately \$36,480,000 when sold as at 31 January 2026;
- Sustaining and growth capital commitments for the next twelve months from the date of this report are minimal and can be deferred if required;
- The Investment Agreement reached with Lingbao and the sale of 20% interest in the New Simberi Gold Project provides third party verification of the compelling investment case for the New Simberi Gold Project and upon completion would leave the Group fully funded for its share of the Initial Capital Investment at FID; and
- The Group retains flexibility to reduce discretionary expenditure to conserve working capital.

The consolidated half-year financial report does not include any adjustments that may be required should the Group be unable to continue as a going concern.

Note 1: Basis of Preparation (continued)

Going concern (continued)

The Directors have considered the potential impact of funding delays, commodity price sensitivities, market conditions and the operating performance of the Simberi Operation to deliver on guidance. Based on the Group's current cash reserves, liquid assets as well as scalability and flexibility to manage uncommitted expenditure, the Directors are confident that the Group will be able to meet its obligations as and when they fall due for at least twelve months from the date of this report.

Accordingly, the Directors consider it appropriate to present the financial statements on a going concern basis.

Restatement

The Condensed Consolidated Balance Sheet and the associated notes for 30 June 2025 have been restated in accordance with the AASBs to reflect the reclassification of operations previously presented as discontinued operations, which are now presented as continuing operations.

For personal use

Accounting judgements and estimates

At each reporting date, the Group performs a review of the probable future taxable profit in each jurisdiction. The assessments are based on the latest life of mine plans relevant to each jurisdiction and the application of appropriate economic assumptions, such as gold price and operating costs. Any resulting recognition of deferred tax assets is categorised by type (e.g. tax losses or temporary differences) and recognised based on which would be utilised first according to that particular jurisdiction's legislation.

At 31 December 2025, the Australian tax consolidated group did not have any unused tax losses.

Note 4: IRC Tax Assessment

In December 2024, Simberi Gold Company Limited, a wholly owned subsidiary of the Group that owns and operates the Simberi Gold Mine, received a tax assessment from the PNG Internal Revenue Commission (IRC) as a result of an IRC audit.

An appeal against the assessment was lodged on 14 February 2025. The Directors are of the view that no amounts will be payable once the appeal process is completed. As such no amounts have been provided for within the half year results (see Note 9).

For further details, refer to the ASX announcements released 24 December 2024 'Simberi Gold receives PNG IRC assessment' and 18 February 2025 'Tax Assessment Objection Lodged with IRC'.

The tax assessment is for a sum of PGK523 million (approximately A\$190 million). Of this amount, PGK283 million is due to a calculation error made by the IRC, and PGK187 million relates to penalties issued in error. The remaining PGK54 million is a result of the IRC's incorrect application of the tax legislation in relation to the calculation of:

- Allowable Capital Expenditure impacting depreciation deduction claims between 2017 to 2021; and
- Deemed dividend withholding tax, assessed on a debt-to-equity transaction on the recapitalisation of Simberi Gold in 2018.

Note 5: Rehabilitation Provision

Balance at beginning of the period	136,446	143,285
Change in discount rate ⁽¹⁾	1,483	1,129

Provision used during the year	(2,028)	(12,578)
Increase in provisions	-	-
Effects of movements in FX rates	(3,698)	2,162
Balance at end of period	133,342	136,446

(1) Represents an increase in real discount rate applied to the rehabilitation provision at all operations.

Provisions, including those for legal claims and rehabilitation and restoration costs, are recognised when the Group has a present legal or constructive obligation as a result of past events, it is more likely than not that an outflow of resources will be required to settle the obligation, and the amount has been reliably estimated. Provisions are not recognised for future operating losses.

The Group has obligations to dismantle, remove, restore and rehabilitate certain items of property, plant and equipment and areas of disturbance during mining operations.

A provision is made for the estimated cost of rehabilitation and restoration of areas disturbed during mining operations up to reporting date but not yet rehabilitated. The provision also includes estimated costs of dismantling and removing the assets and restoring the site on which they are located. The provision is based on current estimates of costs to rehabilitate such areas, discounted to their present value based on expected future cash flows.

The estimated cost of rehabilitation includes the current cost of contouring, topsoiling and revegetation to meet legislative requirements. Changes in estimates are dealt with on a prospective basis as they arise.

There is some uncertainty as to the extent of rehabilitation obligations that will be incurred due to the impact of potential changes in environmental legislation and many other factors (including future developments and price increases). The rehabilitation liability is remeasured at each reporting date in line with changes in the timing and/or amounts of the costs to be incurred and discount rates.

The liability is adjusted for changes in estimates. Adjustments to the estimated amount and timing of future rehabilitation and restoration cash flows are a normal occurrence in light of the significant judgments and estimates involved.

Accounting judgements and estimates

Mine rehabilitation provision requires significant estimates and assumptions as there are many transactions and other factors that will ultimately affect the liability to rehabilitate the mine sites. Factors that will affect this liability include changes in regulations, changes resulting from further studies, prices fluctuations, physical impacts of climate change and changes in timing of cash flows which are based on life of mine plans. When these factors change or are known in the future, such differences will impact the mine rehabilitation provision in the period in which it becomes known.

The split between current and non-current portions is based on the best available information at the reporting date. Rehabilitation expenditure profiles are currently under a review, and as a result, the classification reflects management's best estimate as at that date.

Note 6: Contributed Equity

At 31 December 2025	1,209,795,861	1,476,151

On 21 August 2025, 862,563 performance shares were issued at \$0.35 per share raising \$299,000 after costs.

On 10 October 2025, 126,086,957 shares were issued at \$0.46 per share raising \$54,433,000 after costs.

Note 7: Financial Assets

The financial assets balance within non-current assets on the balance sheet of \$16,980,000 pertain to equity investments in the listed company:

- Geopacific Resources Limited (ASX: GPR);

The Group received shares in Geopacific Resources Limited in exchange for its shares held in Patronus Resources Limited.

The equity investment is a financial instrument traded in an active market (Australian Securities Exchange). The fair value is determined by the quoted (close) price at the end of the period, and consequently are categorised as Level 1 on the fair value hierarchy.

During the period, the Group disposed of its investment in, Peel Mining Limited and Brightstar Resources Limited with net proceeds after costs of \$13,476,000.

Note 8: Events After the Reporting Period

The Directors are not aware of any matter or circumstance that has arisen since the end of the financial year that, in their opinion, has significantly affected or may significantly affect in future years the Company's or the Group's operations, the results of those operations or the state of affairs.

Note 9: Contingencies

The Group undergoes routine and regular tax reviews and audits by tax authorities in each jurisdiction. The ultimate outcome of any current and future reviews and audits by tax authorities cannot be determined with an acceptable degree of reliability at this time. Nevertheless, the Group believes it is making adequate provision for its tax liabilities, including amounts shown as deferred tax liabilities, and takes reasonable steps to address potentially contentious issues with the tax authorities.

Refer to note 4 in respect of the assessment received from the IRC. No amounts have been provided for in the financial statements in respect of this amount as, in the opinion of the Directors and Management, the outflow of economic resources is, in the case of the whole amount demanded, not probable, and to the extent that economic resources could be considered to flow from the entity, the amount cannot be measured with any degree of certainty.

Aside from the IRC tax matter there are no contingent liabilities.

Directors' Declaration

In the Directors' opinion:

- (a) the financial statements and accompanying notes set out on pages 8 to 17 are in accordance with the *Corporations Act 2001*, including:
 - i) complying with Australian Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Act 2001*; and
 - ii) giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the six month period ended on that date; and
- (b) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of Directors made pursuant to section 303(5) of the *Corporations Act 2001*.

Independent auditor's review report to the members of St Barbara Limited

Report on the half-year financial report

Conclusion

We have reviewed the half-year financial report of St Barbara Limited (the Company) and the entities it controlled during the half-year (together the Group), which comprises the Condensed Consolidated Balance Sheet as at 31 December 2025, the Condensed Consolidated Comprehensive Income Statement, Condensed Consolidated Statement of Changes in Equity, Condensed Consolidated Statement of Cash Flows, for the half-year ended on that date, selected explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the accompanying half-year financial report of St Barbara Limited does not comply with the *Corporations Act 2001* including:

1. giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date, and
2. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity (ASRE 2410)*. Our responsibilities are further described in the Auditor's responsibilities for the review of the half-year financial report section of our report.

We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional & Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to the audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

Material uncertainty relating to going concern

We draw attention to Note 1 in the half-year financial report, which describes the directors' assessment of the ability of the Group to continue as a going concern. The events or conditions as stated in Note 1 indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

Responsibilities of the directors for the half-year financial report

The directors of the Company are responsible for the preparation of the half-year financial report, in accordance with Australian Accounting Standards and the *Corporations Act 2001*, including giving a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement whether due to fraud or error.

Auditor's responsibilities for the review of the half-year financial report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and of its performance for the half-year ended on that date and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
