36th Copper Concentrate Shipment Dispatched

Perth, Australia: Alara Resources Limited (ASX: AUQ) (**Alara** or the **Company**), a base and precious metals producer and explorer with projects in Oman, is pleased to announce the dispatch of the 36th shipment of copper concentrate from its Al Wash-hi Majaza copper-gold mine in Oman. The Al Wash-hi Majaza mine is operated by Alara's joint venture company Al Hadeetha Resources LLC (**AHRL**). Alara holds a 51% interest in AHRL.

Key Highlights

- **36th shipment of 827 WMT copper-concentrate shipped on 30th January, comprising 156 MT copper and 51.2 Oz contained gold**
- **Shipment is the final parcel, culminating 5,100 WMT delivered to Fangcheng port**

The Al Wash-hi Majaza copper-concentrate plant has achieved a production of 827 WMT of copper-gold concentrate with approximately 156 MT of copper and 51.2 Oz of contained gold in its latest shipping cycle. This latest shipment was delayed owing to the non-availability of ships for carriage to Fangcheng, China.

This comprises the 36th parcel of copper-concentrate exported from the plant, and departed Sohar Port on 20th February.

This smaller than usual parcel comprised only 827 WMT, as it satisfies the balance of concentrate tonnage obligated within the 5,100 WMT commitment to Fangcheng port. A total of 4273 WMT being previously dispatched in January 2026.
