4. Assuming no divestment of the Tourism Portfolio and subject to no additional growth capex or decline in business performance

Limited recourse ring-fenced SPV debt facilities

Financing facilities provide flexibility and optionality for governments

- Kelsian has had ring-fenced, limited recourse asset financing facilities ('SPV') in place since July 2023 for some Australian bus service contracts
- The SPV structure facilitates scalability for governments across the globe seeking to upgrade public transport infrastructure and expand or accelerate the roll out of electric buses and the electrification of depots
- Kelsian 'warehouses' government contracted bus assets on balance sheet along with the corresponding debt for the duration of the contract
- Asset value and debt profile are matched and amortised over the term of the contract
- Assets and debt revert to government if the contract is not renewed (no stranded asset risk or financial exposure)
- There are some contracted buses not yet in SPVs
- Limited recourse financing facilities are excluded when Kelsian's financiers calculate bank covenants

Government-backed contracted assets financed in SPV structures: **~\$83.8m¹**

Government-backed contracted assets with a vehicle termination payment obligation: **~\$117.3m¹**

1HFY26 overview

- Increase in costs reflects several factors:
 - Performance of our captive insurance structure, including elevated claims activity
 - Recognition of non-cash long-term incentive expense
 - Ongoing cyber security investment
 - Implementation costs associated with the Workday global Finance and HR platform
- New finance & HR system implementation costs with \$5.1m incurred in the period
- While impacting short-term earnings, the new platform is AI enabled, expected to deliver meaningful efficiency, governance and control benefits as we standardise systems and retire 13 legacy platforms across the Group

Growth & Outlook

Tourism Portfolio¹ divestment

Entered binding sale agreements for total cash consideration of \$161m

- Journey Beyond² to acquire all Tourism Portfolio operations
- Completion subject to ACCC, FIRB and other conditions and expected in 1HFY27
- Competitive process undertaken with interest from multiple domestic and international parties
- Tourism Portfolio LTM underlying EBITDA to 31 December 2025 was \$23.7m
- Other identified tourism assets, including two properties, to be sold separately; expected additional cash consideration of ~\$3m
- Proceeds will be applied consistently with the Capital Management and Allocation Framework, including accelerating the reduction in leverage, and towards targeted organic and inorganic growth
- On a proforma basis for the 12 months to 31 December 2025, leverage, post divestment would be within target range

1. Refer Kelsian ASX Release 24 February 2026 and 2 April 2025 for identified Tourism Portfolio business units to be divested

Post divestment of Tourism Portfolio

Leading global transport business

- Kelsian's streamlined operations to be focused on marine, bus and motorcoach transport services
- Retained marine operations have similar infrastructure-like characteristics to Kelsian's bus operations
- Revenue to be less sensitive to economic conditions and backed by long-term, low-risk, government and corporate-backed service contracts
- Greater predictability of earnings and cashflow
- Marine division will have a lower sustaining capex requirement

Retained Marine Business Units	
Kangaroo Island	Up to 25-year licence with the SA Government
Gladstone	Contracts with global petroleum companies for marine transport to Curtis Island LNG plants
South-East Queensland	Vehicle and passenger ferry links to North Stradbroke Island QLD Government passenger ferry contract and vehicle ferry service to the Southern Moreton Bay Islands QLD Government contract for Moggill cross river ferry
North Queensland	QLD Government passenger ferry contracts for services from Townsville to Magnetic and Palm Islands
Perth	Passenger ferry contract with WA Public Transport Authority
Brisbane	Brisbane City Council contract to operate the Citycat ferry network

Foundations in place to deliver long-term growth

Focus on operational excellence to drive improved returns from existing assets and capitalise on significant growth pipeline

Growth opportunities

Australian Bus	<ul style="list-style-type: none">• Operational efficiencies, contract extensions and service growth from existing contracts• Western Sydney Airport bus services• Queensland and Victoria market expansion• Newcastle (NSW), Wellington (NZ) – capital light organic growth opportunities
International Bus	<ul style="list-style-type: none">• Existing contract expansion and new employee shuttle opportunities in the USA• Attractive capital recycling opportunities – organic growth and targeted M&A• Singapore – Serangoon Eunos Bus Package tender• Regional UK bus franchising – contracts for 10,000+ buses over the next 3-5 years
Marine	<ul style="list-style-type: none">• Maximise returns from new, higher capacity vessels• Further yield management, asset utilisation and cost out opportunities• Auckland Transport ferry contract• Perth ferries (Transperth)• Sydney Ferries

Disciplined growth strategy focused on operational excellence, executing on capital-light organic growth pipeline, targeted investments and acquisitions into existing geographies that deliver against capital management targets

2HFY26 guidance & outlook

Operations

- January 2026 trading in line with expectations, continued strong performance from International Bus
- Ongoing ramp up of industrial contracts in USA – two new leased depots to open in March 2026
- Bankstown rail replacement services expected to continue for full period
- Transition & mobilisation of new Kangaroo Island contract ~\$4m of costs to be incurred
- Focus on Sydney bus operational improvements and efficiencies
- Rollout of new global Finance & HR platform
- Near term growth opportunities in the UK and New Zealand
- Separation of Tourism Portfolio from retained marine operations

FY26 guidance and estimates¹

- Underlying EBITDA now expected to be between \$303m and \$312m (previously \$297m to \$310m)
- Capex ~\$135m
- Depreciation ~\$129m (core assets ~\$87m, ROU ~\$33m, SPV ~\$9m)
- Amortisation ~\$32m
- Interest ~\$59m (corporate facilities ~\$46m, ROU ~\$8m, SPV ~\$5m)

Less: lease expense	(38.1)	(33.0)	(31.0)
Pre-AASB 16 EBITDA	259.4	252.0	236.0
Less: SPV adjustments	(16.8)	(18.5)	(18.0)
Pre-AASB 16 EBITDA (exc SPV)	242.6	233.5	218.0
Leverage (pre-AASB 16, excl. SPV)	2.7	2.7	3.2

Approach to calculating leverage

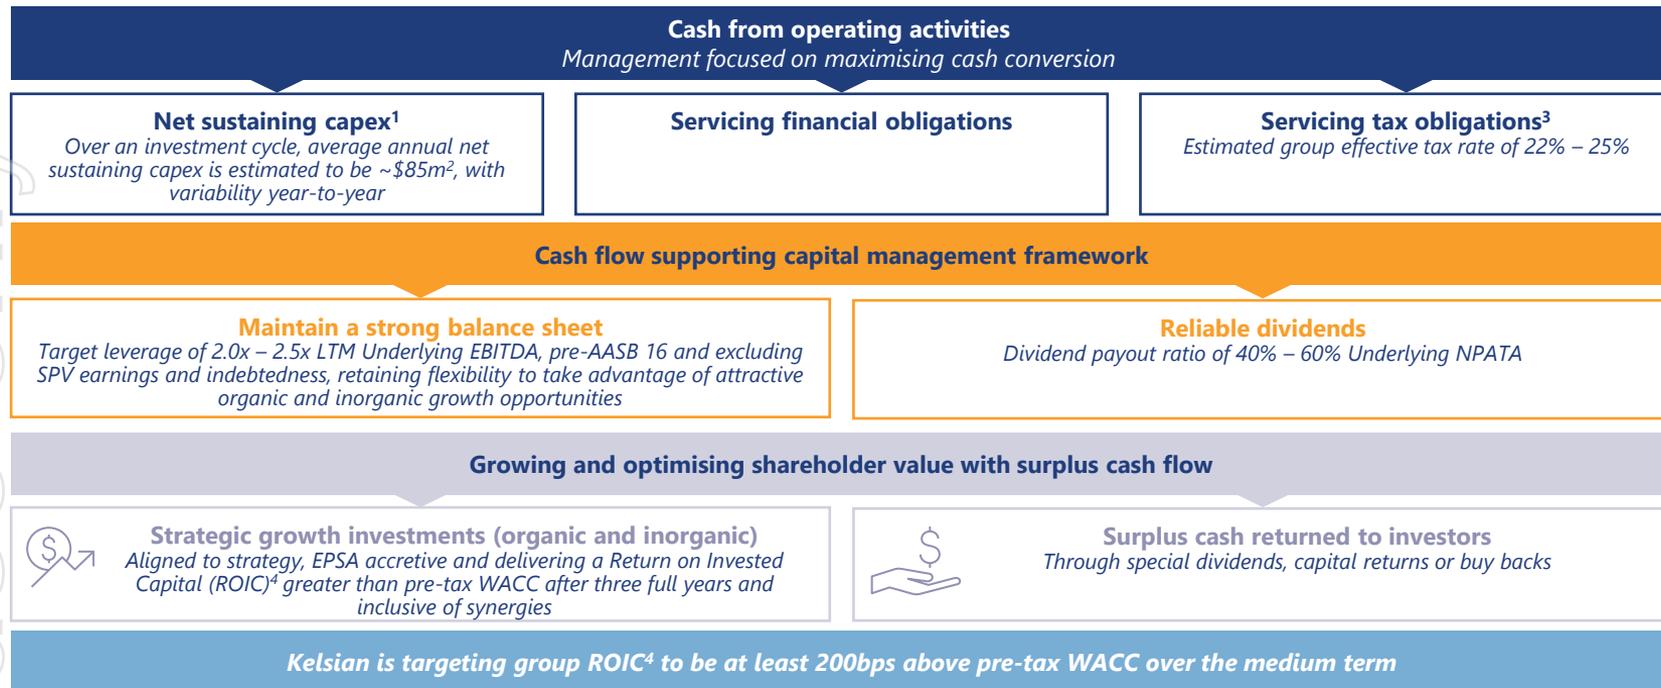

- SPV liabilities, assets and earnings excluded
 - Limited recourse to Kelsian
 - Assets ring-fenced in SPV
- As at 31 December 2025, Kelsian held ~\$33.5m in government backed contracted assets on our balance sheet which are yet to be moved into the ring fenced SPV structure
- Leverage excluding these contracted government-backed assets was 2.56x (3.0x as at 31 December 2024)

Target leverage range of **2.0x** to **2.5x** LTM Underlying EBITDA, pre-AASB 16 and excluding SPV earnings and indebtedness, retaining flexibility to take advantage of attractive organic and inorganic growth opportunities. Expected to reach leverage target by the end of FY26¹

1. Assuming no divestment of the Tourism Portfolio and subject to no additional growth capex or decline in business performance.

Capital Management & Allocation Framework

Maintaining a strong balance sheet, facilitating growth and maximising total shareholder returns

1. Maintenance plus replacement capex less proceeds from asset sales.

2. Based on the current steady-state asset portfolio and an illustrative 30-year 'through-the-cycle' period on a nominal basis. SPV assets have been excluded from this analysis as their ongoing funding is captured within the SPV structure and is limited recourse to Kelsian. Analysis assumes constant FX rate and that current market settings prevail.

3. Assumes current steady-state asset portfolio and corporate tax rates applicable to Kelsian's operations are 30% for Australia, 26% for the US, 17% for Singapore and 25% for the UK. Certain material adjustments also apply, including relating to receipt of an annual tax rebate associated with Kelsian's marine shipping incentives.

4. Calculated as underlying EBITA (pre-AASB 16, excluding SPV adjustments) divided by average equity plus average net debt (pre-AASB 16, excluding SPV debt). Net debt includes senior debt, finance leases, other loans, and debt relating to government-backed contracted assets, but excludes SPV-related debt.
