The Directors of Euroz Hartleys Group Limited announce a net profit after tax (attributable to members) of \$13,840,000 for the 6 months to 31 December 2025 (2024: \$6,255,000).

Euroz Hartleys Limited ("Euroz Hartleys") is a leading Western Australian Capital Markets and Wealth Management business, that reports an improved six months trading and overall profitability for the first half of the financial year.

Equity Capital Market (ECM) raisings remain the most important leverage in our business and are traditionally correlated to the overall volume of market ECM raisings and specific activity in the Metals and Mining sector. ECM raisings for the half-year were approximately \$1,780,900,000 up 84% from the previous corresponding period of \$964,759,000. ECM revenues were up 56% to \$35,648,000 versus \$22,816,000 for the previous corresponding half-year reporting period.

For personal use only

The half-year saw an improvement in Advisory revenues from notable transactions for Ramelius Resources Limited, SRG Global Limited and Alkane Resources Limited with revenues up 533% to \$5,217,000 versus \$824,000 in the previous corresponding half-year reporting period.

Brokerage income for the half-year was up 31% to \$21,222,000 versus \$16,157,000 for the previous corresponding half-year reporting period, reflecting a strong underlying base of trading activity.

Our recurring Wealth management fees for the half-year were up 12% to \$12,298,000 versus \$10,943,000 for the previous corresponding half-year reporting period.

We believe our diverse revenue streams are a great strength of our business, and we will continue to embrace both transactional and recurring revenues.

The Group's combined Funds Under Management ("**FUM**") as at 31 December 2025 was \$5,095,082,000 increasing from \$4,449,830,000 as at 30 June 2025. This reflects our ongoing focus to build recurring revenue streams. Our team has spent considerable time and effort in developing new strategies to drive FUM growth. We expect that the remainder of the year will continue to deliver stronger underlying organic FUM growth.

Our cash and investments at fair value as at 31 December 2025 was \$94,292,000 (30 June 2025: \$91,699,000), continues to support our activities, differentiates us from many of our competitors and provides confidence to our significant adviser network and their extensive client base.

During the half-year, we returned \$23,075,000 of excess capital to shareholders by way of equal capital reduction paid in August 2025.

DIVIDENDS

A fully franked final dividend for the financial year ended 30 June 2025 of 3.5 cents per share was paid to shareholders in September 2025.

In December 2025, the Directors approved a fully franked dividend of 2.5 cents per share. This was provided for as at 31 December 2025 and paid in February 2026.

The Group has returned \$358,277,000 in fully franked dividends and \$63,067,000 of capital to shareholders across our 26-year history.

We remind investors that our second half-year performance and final dividend will be dependent on market sentiment, commodity prices and ECM activity.

- the preparation of the Half-year Financial Report that gives a true and fair view in accordance with *Australian Accounting Standards* and the *Corporations Act 2001*.
- such internal control as the Directors determine is necessary to enable the preparation of the Half-year Financial Report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

Auditor's Responsibilities for the Review of the Half-year Financial Report

Our responsibility is to express a conclusion on the Half-year Financial Report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the Half-year Financial Report does not comply with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the Half-year ended on that date, and complying with *Australian Accounting Standard AASB 134 Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a Half-year Financial Report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. (a) Basis of preparation

The half-year financial report has been prepared on the basis of historical cost modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. Cost is based on the fair values of the consideration given in exchange for assets.

The half-year financial report is presented in Australian Dollars, which is the consolidated Group's functional currency. All amounts have been rounded to the nearest dollar, unless otherwise indicated.

The accounting policies and methods of computation adopted in the preparation of the half-year financial report are consistent with those adopted and disclosed in the consolidated group's annual financial report for the financial year ended 30 June 2025.

Potential for regulatory exposures

The Group operates in the highly regulated Australian financial services market. It is common for the Group to engage with its regulators in relation to regulatory investigations, surveillance and reviews, reportable situations, formal and informal enquiries and regulatory supervisory activities. The Group has received various notices and requests for information from its regulators as part of both industry wide and Group specific reviews. The nature of these interactions can be wide ranging. The outcomes and total costs associated with such activity, if any, are inherently difficult to estimate and as a result any possible exposures remain uncertain. At this time, the Group considers the likelihood of material financial exposures arising from this activity to be uncertain.

Potential for customer exposures

From time to time the Group will receive claims for compensation from customers. These will usually relate to a complaint that has been made to the Australian Financial Complaints Authority. The outcomes and total costs associated with such activity, if any, are inherently difficult to estimate and, as a result, any possible exposures remain uncertain. At this time, the Group considers the likelihood of material financial exposures arising from this activity to be remote in circumstances where the Group has appropriate professional indemnity insurance arrangements in place regarding this activity.

Litigation

There are outstanding court proceedings, claims and possible claims for and against the Group. Where relevant, expert legal advice has been obtained and, in the light of such advice, disclosures as deemed appropriate have been made. We have not disclosed the estimated financial impact of the individual items either because it is not practicable to do so or because such disclosure may prejudice the interests of the Group.

The responsible manager of the fund is Westoz Funds Management Pty Ltd a wholly owned subsidiary of Euroz Hartleys Group Limited.

Note 8: Fair value measurement

The following table details the consolidated group's fair value of financial instruments categorised by the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets and liabilities.

Level 2: Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices). Techniques, such as estimated discounted cash flows and Black-Scholes model are used to determine fair value for the financial instruments.

Level 3: Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

Note 9: Right of use asset and liabilities

Euroz Hartleys Group Limited signed a lease agreement in May 2023 for office space at QV1 located at 250 St Georges Terrace, Perth. The lease is for part of Level 37 and the whole of Level 38 of QV1 for a period of 10 years that commenced on 1 July 2024 and includes two options to renew for 5 years commencing 1 July 2034 and 1 July 2039. The lease for 2,505 square metres is on normal commercial terms with a market rate incentive.

An assessment of the contract determined that it qualifies as a lease, as it grants the right to control the use of a specific asset for a defined period in exchange for compensation. (e) Movements in share-based payments reserve

The reserve records items recognised as expenses on valuation of share-based payments. The movement in the current period totalling \$1,340,000 (December 2024: \$1,090,000) relates to the vesting expense related to the fair value of shares issued under all share-based payments plans in the prior year and the current year.

	2025 \$'000	2024 \$'000
Opening balance – 1 July	6,753	10,912
Vested shares under Performance Rights Plan	(2,791)	(6,989)

	<u>1,340</u>	<u>1,090</u>
Closing balance – 31 December	<u>5,302</u>	<u>5,013</u>

The decrease in the share-based payments reserve relates to the fair value of shares issued in respect of performance rights that vested as part of the performance rights plan. The fair value of performance rights is determined at grant date and is calculated as 25% of an individual's annual bonus as determined by the Board.

Advisors who are paid a commission may also be paid in equity when they meet specific performance hurdles as set out in their individual employment contract. Performance rights convert to plan shares after year 1 which are held as treasury shares by the Euroz Share Trust. These plan shares are subject to a 3-year vesting period.
