## **APPENDIX 4D HALF-YEAR REPORT FOR THE PERIOD ENDED 31 DECEMBER 2025**

*This information, given under ASX listing Rule 4.2A, should be read in conjunction with the most recent annual financial report.*

Current period:	1 July 2025 to 31 December 2025
Prior corresponding period ( <b>pcp</b> ):	1 July 2024 to 31 December 2024

## RESULTS FOR ANNOUNCEMENT TO THE MARKET

For the period ended 31 December, the Consolidated Group results are:

\$'000	HY Dec 2025	HY Dec 2024	Change	Change %
Revenue from operations	<b>85,277</b>	66,130	19,147	29.0%
Earnings before interest, tax, and depreciation and amortisation	<b>32,232</b>	31,182	1,050	3.4%
Earnings before interest and tax	<b>23,749</b>	24,705	(956)	(3.9%)
Profit after tax from operations attributable to members	<b>15,464</b>	17,860	(2,396)	(13.4%)
Total comprehensive income for the period attributable to members	<b>12,521</b>	21,109	(8,588)	(40.7%)
Profit after tax and before amortisation of acquired intangible assets	<b>18,377</b>	19,116	(739)	(3.9%)

## DIVIDENDS

A fully franked final dividend of 30.5¢ (thirty and a half cents) per ordinary share for the financial year ended 30 June 2025 (2024: final 27.5¢) was paid on ordinary shares during the half year ended 31 December 2025.

In relation to the half year ended 31 December 2025, a fully franked interim dividend of **12.0¢ (twelve cents) per share** (2025: 24.0¢) will be paid on ordinary shares as follows:

- Record date: 4 March 2026
- Payment date: 18 March 2026

## NET TANGIBLE ASSETS<sup>1</sup>

Cents	31 December 2025	30 June 2025
Net Tangible Assets (NTA) per ordinary share	(187.30)	84.13

<sup>1</sup> The net tangible asset backing per ordinary share include the value of leased assets as recognised under AASB 16 Leases.

The decrease in net tangible assets is due the acquisitions of Dream Giveaways UK on 14 October 2025 and Dream Giveaways US on 30 October 2025 (largely intangible assets). The pro forma NTA excluding the acquisitions would be 96.91 per ordinary share.

## CONTROL GAINED OVER ENTITIES

On 14 October 2025, the Group acquired 100% of the Dream Car Giveaways group of companies (**Dream Giveaways UK**) via its fully controlled subsidiary Jumbo Interactive UK Limited. Dream Giveaways UK is a leading B2C brand and digital market proposition in the UK prize draw market, where customers can participate to win prizes such as cars, cash, property and lifestyle products.

Dream Giveaways UK is an established and trusted digital prize draw competition platform, which contributed \$2,931,000 profit after tax to the Group's consolidated profit from ordinary activities during the half-year ended 31 December 2025. The result has been determined on a provisional basis.

On 30 October 2025, the Group through its newly-incorporated US subsidiary Jumbo Interactive USA, Inc., has acquired DG Acquisition, Inc. – the holding company of three companies (FN Funding, Inc., DG Motors, Inc. and RYNO.CO, Inc.) that collectively comprise the Dream Giveaway business (**Dream Giveaways US**). Dream Giveaways US develops and manages promotional campaigns centred around prizes, primarily in the automotive sector.

The acquisition of Dream Giveaways US provides Jumbo with a B2C entry point into the US prize draw market. Dream Giveaways US contributed \$681,000 loss after tax to the Group's consolidated profit from ordinary activities during the half-year ended 31 December 2025. The net loss includes a non-cash fair value adjustment reducing the opening deferred revenue balance by \$1,771,000. This distorts the financial performance of Dream Giveaways US from the Group statutory reporting perspective. Excluding the fair value adjustment the underlying operational performance of Dream Giveaways US in 1H26 from acquisition date is \$640,000 profit after tax. These figures have been determined on a provisional basis.

## LOSS OF CONTROL OVER ENTITIES

There were no changes in control over entities within the Jumbo Group since 30 June 2025.

## DETAILS OF ASSOCIATES AND JOINT VENTURE ENTITIES

Not material as carrying values are nil.

## FINANCIAL REVIEW

Jumbo brings together technology, creativity, and purpose to deliver winning experiences through digital lotteries and prize draws. Our B2B SaaS platforms and Managed Services power both government and charity fundraising programs, while our B2C brands - including Oz Lotteries, Dream Car Giveaways, and Dream Giveaway - connect millions of customers to life-changing prizes and meaningful causes.

### EXPLANATION OF RESULTS

We report revenue on a net revenue inflow basis when we are acting as an agent such as with the sale of lottery tickets. The gross amount received for the sale of goods and rendering of services is advised as Company Total Transaction Value (**TTV – Company**). In addition, where we act as a licensor of our software platform, the gross amount of third-party lottery ticket sales transacted through our software platform is advised as third-party Total Transaction Value (**TTV – Third-party**). Revenue is generated mainly as a percentage of TTV. The revenue from sales of the tickets in relation to prize draws is recognised at point-in-time on draw date at the value of cash collected from ticket sales net of prizes, where the Group considers that it acts in a Principal capacity and prizes won represent a consideration payable to its customers.

The Lottery Retailing segment continues to be the largest contributor to Group revenue and profits. 1H26 was characterised by a subdued jackpot environment that was unfavourable compared to the pcp. As a result, Lottery Retailing TTV declined by 0.2%, while revenue increased by 5.5%. While the financial results remain subject to the volatility of jackpots in the short term, over the long term, lotteries have delivered consistent growth and have proven to be highly resilient to economic downturns and cycles. In addition, digital penetration has steadily increased over time and Jumbo remains well placed to capitalise on this trend. At 1H26, online ticket sales of lottery tickets accounted for 41.2% of overall Australian lottery sales (1H25: 40.4%; FY25: 41.8%).

SaaS segment TTV increased 9.9%, with external revenue up 13.1%. Similar to the Lottery Retailing segment, Lotterywest TTV declined by 2.4% which was impacted by the subdued jackpot environment. Excluding Lotterywest, the SaaS segment performed strongly with TTV and revenue growth of 12.4% and 22.5% respectively.

The Managed Services segment includes Jumbo's subsidiaries in the UK and Canada. In aggregate, Managed Services segment TTV and revenue were up 19.1% and 17.3% respectively.

In October 2025, Jumbo acquired Dream Car Giveaways UK and Dream Giveaway US. The performance of these businesses has been presented in a separate 'Dream Giveaways' segment in Jumbo's 1H26 disclosures. The 1H26 result reflects a 2½ month contribution from DCG UK and 2 month contribution from DG USA. In aggregate, this segment contributed \$35.7 million and \$13.7 million in TTV and revenue respectively.

The financial position of the Group is sound with strong liquidity. As at 31 December 2025, the Group had general cash reserves of \$57,932,000. Excluding customer funds of \$13,195,000, the available cash to the Group was \$44,737,000. Including the undrawn debt facilities of \$13,102,000, the Group had access to \$57,839,000 of available cash and undrawn debt.

We continue to invest in the three main pillars that support the long-term growth of the Group:

- \$3,068,000 (1H25: \$3,256,000) invested in the proprietary software platform (intangible assets);
- \$13,263,000 (1H25: \$4,663,000) invested in marketing activities primarily to acquire new and retain existing customers (the significant increase as a result of the inclusion of the UK and US acquisitions; and
- \$17,310,000 (1H25: \$13,894,000) invested in employees who provide the software development and marketing skills, customer support services, and management.

## CONSOLIDATED H1 FY2026 FINANCIAL PERFORMANCE IN REVIEW

### Result Highlights (Statutory and underlying earnings)

To enhance comparability between 1H26 and 1H25 and to provide more insight into the underlying earnings of the Group, equivalent financial information has also been included. Underlying earnings is the primary reporting measure used by management and the Group's chief operating decision maker (the Chief Executive Officer) for the purposes of monitoring and managing the financial performance of the business. Statutory earnings are adjusted by significant non-recurring items to derive underlying earnings.

These significant non-recurring items include:

\$'000	HY Dec 2025	HY Dec 2024
Merger & Acquisition activity costs <sup>1</sup>	3,239	389
Employee payments <sup>2</sup>	-	123

Tax benefit / (expense)	(894)	27
<b>Add / (deduct) significant items (post-tax)</b>	<b>4,388</b>	<b>(546)</b>

<sup>1</sup>Principally reflect due diligence costs (consultants & legal) associated with the acquisition of Dream Car Giveaways UK and Gream Giveaway USA in 1H26 and the evaluation of other opportunities in 1HY25.

<sup>2</sup>1H25 reflects redundancy payments in Australia and Canada.

<sup>3</sup>Partial non-cash acquisition accounting adjustment under AASB3, relating to the fair value of DG USA deferred revenue at acquisition. This related to draws that commenced prior to acquisition and were completed during the half.

<sup>4</sup>Other includes:

- i) Costs relating to the integration of new acquisitions into the business (1H26);
- ii) Fluctuations in the GBP/AUD foreign exchange rate resulted in net foreign exchange losses of \$148k on intercompany loans and accounts denominated in foreign currencies (1H26 and 1H25);
- iii) Following the finalisation of the StarVale earnout, \$830k (£425k) of contingent consideration (held in escrow) was released (1H25); and
- iv) The de-recognition of a customer liability balance of \$600k as the obligation expired during 1H25.

### Major items impacting performance

- Lottery Retailing – The number of jackpots is an important driver of TTV. 1H26 was impacted by a subdued jackpot environment, which was unfavourable to the comparative period.
- Lottery Retailing marketing – Marketing costs have increased as a result of planned strategic changes in the marketing playbook.
- Acquisitions – during 1H26 the Company acquired Dream Car Giveaways UK and Dream Giveaway US. These businesses contributed to the Groups financial performance.

The Group's financial performance is presented in the profit and loss summarised below.

## Review of Operations

### (a) Lottery Retailing

The Lottery Retailing segment operates the [www.ozlotteries.com](http://www.ozlotteries.com) website and sells tickets in:

- The National draw lottery games in all Australian states and territories (excluding QLD and WA) and in certain overseas jurisdictions, under the Reseller Agreements with TLC which run until 25 August 2030;
- Charity lottery games in Australia under agreements with Australian licenced registered charities; and
- Proprietary products such as Splash for Good and the Daily Winners loyalty program that offer players innovative and engaging ways to win.

<sup>1</sup>These are non-IFRS measures and are not subject to review procedures.

While TTV was in line with the pcp, it was impacted by the subdued jackpot environment. Revenue increased 5.5% due to the continued momentum in charity and proprietary products. EBITDA decreased 7.7% primarily due to an increase in marketing costs. Marketing costs were \$6,839,000 (1H25: \$3,540,000) and is equivalent to 3.3% of TTV (1H25: 1.7%).

The number of large jackpots (Division 1 pool  $\geq$ \$30m) is an important driver of TTV. The TTV and large jackpot trend over the last three half-year periods is summarised below:

		HY Dec 2025	HY Jun 2025	HY Dec 2024
<b>TTV - Company<sup>1</sup></b>	<b>\$'000</b>	<b>207,878</b>	<b>248,923</b>	<b>208,258</b>

<sup>1</sup>These are non-IFRS measures and are not subject to review procedures.

TTV generated from outside the TLC reseller agreements (Charities / Other) was equivalent to 4.8% of total Lottery Retailing TTV. The increase in Charities/Other TTV compared to the pcp was mainly due to the continued momentum in charity (new charities launched in June) and proprietary products.

The Group invests in online marketing to grow and activate the customer database that transacts via its website ([www.ozlotteries.com](http://www.ozlotteries.com)) and associated mobile apps (iOS & Android). An amount of \$6,839,000 (1H25: \$3,540,000) was invested in marketing activities during the period primarily to acquire new and engage existing customers. These costs were fully expensed through the profit and loss.

The following key performance indicators (**KPIs**) are used to track the effectiveness of online marketing campaigns:

- Number of new online accounts established in a given period (these may potentially become active online customers).
- Marketing expense (as a % of TTV) is defined as the total marketing cost to acquire these new accounts divided by the TTV in a given period.
- Number of active online customers is defined as customers who have spent money on tickets in a given period.
- Average spend per active online customer is defined as the total spent by active online customers divided by the number of active online customers in a given period.

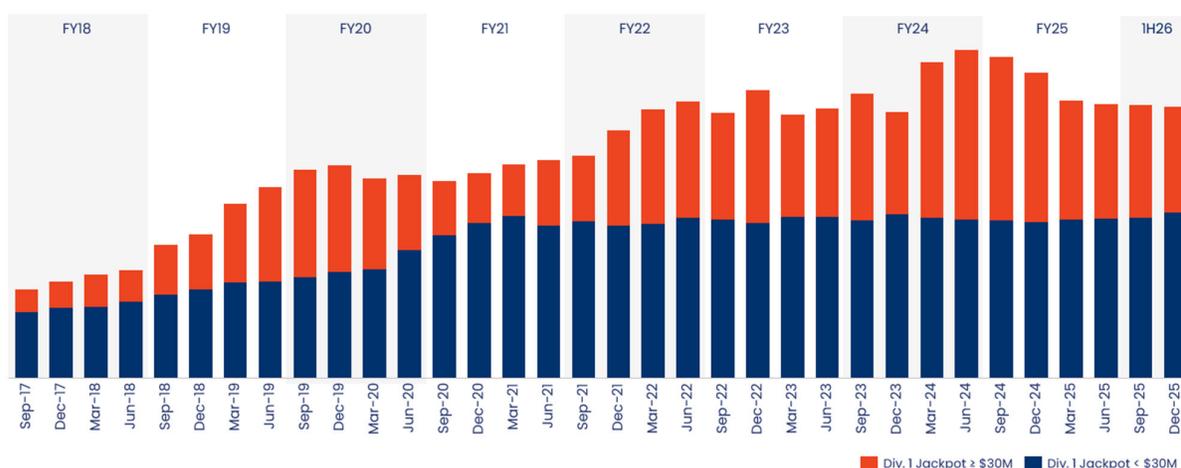

The following table summarises the Marketing KPIs:

	HY Dec 2025	HY Dec 2024
Number of new online accounts (6-month period)	66,021	81,177
Marketing expense (% of TTV)	3.3%	1.7%
Number of active online customers (12-month period)	817,293	1,035,700
Average spend per active online customer (12-month period)	\$559	\$490

The decline in new online accounts and number of active players reflects the subdued jackpot environment where aggregate large jackpots decreased 33% from \$610 million to \$410 million.

The underlying business remains solid as evidenced by the stable TTV contribution from jackpots lower than \$30 million.

The Oz Lotteries rolling 12-month TTV<sup>1</sup> by fiscal quarter is shown in the graph below:

<sup>1</sup>Excludes contribution from Western Australia customers transitioned to SaaS (effective 21 December 2020).

**(b) Software-as-a-Service (SaaS)**

The SaaS segment licenses the Jumbo lottery software platform, Jumbo Lottery Program (**JLP**) to several customers, including to ozlotteries.com, and develops, improves, and maintains the Jumbo proprietary platform.

Software licence fees range between ~3% and ~10% of TTV.

An intersegment fee of 7.5% is charged to the Lottery Retailing segment as:

- JLP has been developed for this internal customer over many years at a significant investment compared to other customers who receive an adapted version of JLP at a lower development cost; and
- The internal customer has a significantly higher usage of other services such as data analytics and marketing tools. The level of this fee falls within the arm's length upper/lower interquartile range based on international benchmarking undertaken by an independent third party.

<sup>1</sup>These are non-IFRS measures and are not subject to review procedures.

TTV increased 9.9%, and revenue increased 2.1%. External revenue grew due to solid growth in Mater and new partnerships however this was offset by a lower contribution from Lotterywest (due to the subdued jackpot environment).

Revenue was also impacted by a lower intersegment fee from Lottery Retailing as a result of the subdued jackpot environment.

Operating expenses increased as a result of higher employee costs.

The above factors resulted in EBITDA decreasing by 1.8%.

**(c) Managed Services**

The Group's Managed Services segment provides lottery management services including prize procurement, lottery game design, campaign marketing, and customer relationship and draw management. The segment includes - Gatherwell Ltd (**Gatherwell**) and the StarVale Group of companies (**StarVale**) as External Lottery Managers (**ELM**) in the UK and Stride Management Corp. (**Stride**) as an **ELM** for charity lotteries in Canada.

The consolidated half-year financial statements were approved for issue in accordance with a resolution by the Directors on 25 February 2026. The Directors have the power to amend and reissue the consolidated half-year financial statements.

The consolidated half-year financial statements are general purpose financial statements which:

- have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board (**AASB**) and International Financial Reporting Standards (**IFRS**) issued by the International Financial Standards Board;
- have been prepared under the historical cost convention;
- are presented in Australian dollars (**A\$**), with all amounts being rounded off in accordance with the requirements of ASIC Corporations (Rounding in Financial/Directors' Reports) *Instrument 2016/191* issued by the Australian Securities and Investments Commission to the nearest thousand dollars, unless otherwise indicated;
- where necessary, comparative information has been restated to conform with changes in presentation in the current half-year period; and
- adopts all new and amended Accounting Standards and Interpretations issued by the AASB that are relevant to the operations of the Group effective for reporting periods beginning on or after 1 July 2025.

---

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

**Note 1. Basis for preparation of half-year report**

These general purpose financial statements for the half-year reporting period ended 31 December 2025 have been prepared in accordance with Australian Accounting Standard *AASB 134 Interim Financial Reporting* and the *Corporations Act 2001*.

These half-year financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the consolidated Group as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2025 and any public announcements made by Jumbo Interactive Limited during the half-year reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The same accounting policies and methods of computation have generally been followed in these half-year financial statements as compared with the most recent annual financial statements, except for the new and amended accounting standards and policies stated below.

The Group has adopted all the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (**AASB**) that are relevant to its operations and effective for the current half-year reporting period. Where the adoption of these new and revised Standards and Interpretations had a material financial impact on the amounts recognised in the half-year financial statements of the Group for the current or prior periods, this has been disclosed below.

**New or amended accounting standards and interpretations adopted**

There are no new or amended mandatory accounting standards and interpretations effective 1 July 2025 that have a material impact to the Group.

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

## **Note 2. Operating segments**

The Group determines and presents operating segments on a product and geographic basis as this is how the results are reported internally to the Chief Executive Officer (**CEO**), being the chief operating decision maker, and how the business is managed. The Chief Executive Officer assesses the performance of the Group based on the earnings before interest, tax, and depreciation and amortisation (**EBITDA**) amongst other key metrics and key performance indicators.

### **(a) Description of segments**

The following summary describes the operations of each of the Group's reportable segments:

#### **Lottery Retailing**

Sales of Australian national lottery and charity lottery tickets through the internet and mobile devices to customers (**B2C**) in Australia and certain overseas jurisdictions.

#### **Software-as-a-Service (SaaS)**

Development, supply and maintenance of proprietary software-as-a-service (**SaaS**) for authorised businesses, charities and governments (**B2B/B2G**) mainly in the lottery market in Australia.

#### **Managed Services**

Provision of lottery management services for authorised Businesses and Charities (**B2B**) in the lottery market on an in the UK and Canada. Services include prize procurement, lottery game design, campaign marketing, and customer relationship and draw management.

#### **Dream Giveaways**

In October 2025 the Group acquired the Dream Car Giveaways UK (**DCG UK**) and Dream Giveaway US (**DG US**) businesses operating in the prize draw market in the UK and US where customers (**B2C**) can participate to win prizes such as cars, cash, property and lifestyle products. These businesses formed a new Dream Giveaways segment within the Group.

#### **Intersegment eliminations**

The SaaS segment licences the lottery software platform to the Lottery Retailing segment at a licence fee of 7.5% of relevant lottery ticket sales.

#### **Expenses**

Direct costs are included in expenses of operating segments and indirect costs are allocated to operating segments based on the headcount assigned to each operating segment.

#### **Corporate/Other**

Other reconciling items are corporate expenses including costs in respect of the Directors, CEO, Chief Financial Officer, corporate advertising, acquisition costs, corporate investment and finance, tax, audit, risk, governance, share-based payments, and other strategic projects.

Revenue from rendering of services overtime <sup>1</sup>	2,118	1,943
	<u>85,277</u>	<u>66,130</u>

<sup>1</sup>Revenue from rendering of services overtime relates to the lottery management services provided by Stride, which are based on a fixed service fee and recognised as revenue on a straight-line basis while services are delivered to the customer over the service period as set in the contract.

The Group reports revenue from the sale of lottery tickets and related services on a net revenue inflow basis where it considers that it acts as an Agent than as a Principal such as with the sale of lottery tickets.

The revenue from sales of the monthly subscription in relation to Daily Winners premium membership loyalty program is reported on gross basis, where the Group considers that it acts in a Principal capacity.

The revenue from sales of the tickets in relation to prize draws is recognised at point-in-time on draw date at the value of cash collected from ticket sales net of prizes, where the Group considers that it acts in a Principal capacity and prizes won represent a consideration payable to its customers.

**Disaggregation of revenue from contracts with customers**

In the following table, revenue from contracts with customers is disaggregated by the main geographic markets, customer type and main products and services. The table includes a reconciliation of the disaggregated revenue with the Group's reportable segments.

**Recognition and measurement**

The following specific recognition criteria must also be met before revenue is recognised:

**Sale of Goods and/or Rendering of Services**

Revenue from sale of goods and/or rendering of services is recognised when control of the goods or services is transferred to the buyer in an amount that reflects the consideration to which the entity expects to be entitled in exchange for these goods and/or services. Control is the ability of the customer to direct the use of, and obtain substantially all of the remaining benefits from, an asset. Indicators that control has passed includes that the customer has (i) a present obligation to pay, (ii) physical possession of the asset(s), (iii) legal title, (iv) risk and rewards of ownership, and (v) accepted the asset(s).

**(a) Lottery Retailing revenue** includes agent commission received under the Reseller Agreements with The Lottery Corporation Limited (TLC) and administration fees received from customers at the time an entry is purchased by the customer in Draw Lottery Games, Charity Lottery Games and Instant Win Games. Revenue is derived at a point-in-time with payment terms ranging between immediate payment to seven days payment.

**(b) SaaS revenue** includes the development, supply and maintenance of proprietary software-as-a-service (SaaS) for authorised Business, Charity and Government lotteries and is recognised as the software licence fee received from customers once the service has been rendered. Revenue is derived at a point-in-time with payment terms of 14 days after invoice date.

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

**Note 3. Revenue from contracts with customers (continued)**

**(c) Managed services revenue** is recognised as the commission or service fee received from customers when the official draw for each lottery is completed or once the service has been rendered, including the provision of SaaS-related services in the lottery market in the UK. This includes Gatherwell using their proprietary lottery software platform to provide 'lottery-in-a-box' lottery management services to society lotteries in the UK and StarVale providing a full range of weekly lottery, raffle and prize draw services in the UK. Revenue is derived at a point-in-time with payment terms of between date of invoice to 14 days after invoice date.

Stride uses their proprietary lottery software platform and digital payments solution to provide lottery project management services to charities in Canada. Stride services include fixed and variable fee arrangements:

- i) Services under fixed rate fees generally form one performance obligation recognised over time during the service period per contract, because the customer simultaneously receives and consumes the benefit provided to them. Stride uses an input method in measuring progress of the services provided because there is a direct relationship between the effort and the transfer of service to the customer.
- ii) Variable rate fees revenue relates to revenue from activities such as commission on actual ticket sales, ticket order processing etc., with revenue being recognised at the point-in-time when the performance obligation is satisfied.

**(d) Dream Giveaways revenue** is derived from the sale of competition tickets, providing customers with entry into competitions to win luxury cars, cash alternatives or other lifestyle prizes. The Group recognizes revenue in accordance with *AASB 15 - Revenue from contracts with customers* at the point when the competition result is announced net of the prize costs which are considered a payment to the customer.

The Group recognises at the start of the competitions a financial liability for the prize money if the Group is required to do the draw regardless of the number of tickets sold and the customer has an option for a cash prize.

<sup>1</sup>Prepayments balance at 31 December 2025 includes prepaid insurance in relation to Dream Car Giveaways UK prepaid on acquisition date.

**Recognition and measurement**

Trade receivables are recognised at original invoice amounts less an allowance for uncollectible amounts and generally have repayment terms ranging from 7 to 31 days. The Group has applied the simplified approach to measuring expected credit losses prescribed by *AASB 9 – Financial Instruments*, which uses a lifetime expected loss allowance.

**Note 8. Inventories**

Other	15	15
	14,332	15

**Recognition and measurement**

The Group operates prize draw competitions where participants purchase tickets for a chance to win non-cash prizes (such as vehicles, luxury goods, or other physical items). These prizes are usually purchased in advance and held until awarded to competition winners.

Non-cash prizes are recognised as inventory at cost when purchased, in accordance with *AASB 102 - Inventories*. Cost comprises the purchase price and any directly attributable costs necessary to bring the prize to its present location and condition (such as delivery costs, insurance, or customisation costs). Prize inventory is measured at the lower of cost and net realizable value at each reporting date.

The inventory is derecognised when it is delivered to the winner, at which point the risks and rewards of ownership are transferred, concurrent with the derecognition of the related financial liability under *AASB 9 – Financial Instruments*.

When car prizes are subsequently sold (because the winner selected cash alternative) any proceeds from sale are recognised as "income from car sales" and carrying value of the prize inventory is recognised as "car resale costs" in other expenses in profit and loss.

**(a) Significant judgements and estimates**

**Impairment assessment of goodwill and domain names**

A key judgement by management with regards to the (i) Lottery Retailing Cash Generating Unit (**CGU**) is that the reseller agreements with The Lottery Corporation will continue; (ii) Software-as-a-Service CGU is that software licence agreements with customers will continue; (iii) Managed Services CGU is that the lottery management agreements with customers will continue; and (iv) Dream Giveaways CGU is that future business growth will be in line or exceeding the forecasted performance used in value-in-use calculations. Goodwill and domain names are tested for impairment half-yearly.

**Impairment assessment of other intangible assets**

The Group considers half-yearly whether there have been any indicators of impairment and then tests whether non-current assets have incurred any impairment in accordance with the accounting policy.

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

**Note 9. Intangible assets (continued)**

**Estimated useful life of website development costs**

Management estimates the useful life of website development costs based on the expected period of time over which economic benefits from the use of the asset will be derived. Management reviews useful life assumptions on an annual basis having given consideration to variables including historical and forecast usage rates, technological advancements and changes in legal and economic conditions.

The amortisation period relating to the website developments costs is five years.

**Estimated useful life of customer contracts and relationships**

Management estimates the useful life of customer contracts and relationships based on the expected period of time over which economic benefits from the use of the asset will be derived. Management reviews useful life assumptions on an annual basis having given consideration to variables including any changes in customer contract terms and conditions, customer net attrition, and changes in legal and economic conditions.

The amortisation period relating to customer contracts and relationships on acquisition of Stride and StarVale is estimated of 10 years. For the customer relationships that were acquired as part of Dream Giveaways businesses amortisation period is ranging between 5 and 14 years (see note 14 for the details).

**Estimated useful life of trademarks**

Trademarks acquired as part of a business combination are recognised separately from goodwill and measured at fair value at the acquisition date in accordance with AASB 3 *Business Combinations*. Following initial recognition, trademarks are carried at cost less accumulated amortisation and any accumulated impairment losses.

The Group assesses trademarks as having finite useful lives. In determining the useful life of trademarks, the Group considered factors including:

- The expected usage of the trademark by the Group
- Typical prize draw life cycles and market research information for similar trademarks
- Technical, technological, or commercial obsolescence
- The stability of the industry, regulatory environment and changes in market demand
- Expected actions by competitors or potential competitors
- The period of control over the trademark and legal or similar limits on its use
- Whether the useful life is dependent on the useful life of other assets

Based on this assessment, trademarks are amortised on a straight-line basis over their estimated useful life of 20 years. The amortisation period of 20 years reflects management's estimate of the period over which the Group expects to derive economic benefits from the trademarks, considering the nature of the Dream Giveaways business, brand longevity, and market positioning (see note 14 for the details).

The facilities are provided by Australia and New Zealand Banking Group Limited (ANZ) and are subject to general and specific terms and conditions being set and met periodically.

The bank loan facility is subject to standard commercial terms and conditions, including loan covenants.

During the period, the facility was increased to \$120 million. The facility has a three-year term, with repayment due at maturity. Interest on drawn amounts is charged at variable rates based on the applicable benchmark rate plus a margin.

The facilities are available for general working capital purposes and to support the Group's ongoing operations and were renewed during the period.

**Loan covenants**

Under the terms of the bank loan facility with ANZ, the Group is required to comply with the following financial covenants on any date in respect of each 12-month period ending on that date:

- the Net Leverage Ratio must not exceed 3:1; and
- the Interest Cover Ratio is not less than 2:1.

The financial covenants must be tested at the end of each annual and half-year reporting period. The Group has complied with these covenants throughout the half-year reporting period ended 31 December 2025.

**(b) Assets pledged as security**

The bank facilities are secured by a fixed and floating charge over all the Australian assets of the Group.

**(c) Defaults and breaches**

There have been no defaults or breaches during the half-year ended 31 December 2025.

**(a) Acquisition of Dream Car Giveaways UK**

On 14 October 2025, the Group acquired 100% of the Dream Car Giveaways group of companies (**DGC UK** or **Dream Giveaways UK**) via its fully controlled subsidiary Jumbo Interactive UK Limited for GBP 64,862,000 (\$133,270,000).

Dream Giveaways UK is a leading B2C brand and digital market proposition in the UK prize draw market, where customers can participate to win prizes such as cars, cash, property and lifestyle products. Dream Giveaways UK is an established and trusted digital prize draw competition platform. As a result of the acquisition, the Group is expected to broaden its footprint in the UK by establishing a business-to-consumer (**B2C**) presence in the market, which aligns with the Group's strategy to diversify outside of the Australian lottery retailing segment.

The Group prepared the acquisition accounting of Dream Giveaways UK on provisional basis. Details of the consideration paid, the assets acquired and liabilities assumed and the effects on the cash flows of the Group at the acquisition date are as follows:

	<b>Fair value recognised on acquisition date (Provisional) \$'000</b>
<b>(i) Purchase consideration</b>

**(iv) Acquisition-related costs**

	<b>\$'000</b>
Acquisition costs charged to expenses	2,147

Acquisition-related costs of \$2,147,000 are included in "Consultancy and legal expenses" in the consolidated statement of profit or loss and other comprehensive income and in operating cash flows in the consolidated statement of cash flows.

**(v) Contingent consideration**

The contingent consideration arrangement requires the Group to pay post 31 December 2026 up to an additional GBP12,000,000 in cash to the Dream Car Giveaways UK vendors if certain revenue growth and earnings hurdles are met.

The fair value of the contingent consideration on acquisition date was estimated to the amount of GBP 11,158,000 (\$22,994,000 at foreign exchange rate on acquisition date) and was estimated by calculating the face value of the estimated earnout payable based on the assumed probability-adjusted profit in Dream Giveaways UK for the relevant period, discounted at 6% per annum. This is a Level 3 fair value measurement.

	<b>\$'000</b>
<b>Contingent consideration at FVTPL</b>

The unpaid consideration balance is included in 'Contingent consideration at FV non-current' line in the statement of financial position.

**(vi) Identifiable net assets acquired**

*Intangible assets identified*

Customer relationships, trademarks and developed software have been identified as separately identifiable intangible assets. The fair value of these assets has been valued by an independent valuer using the multi-period excess earnings method (MEEM) for customer relationships and relief from royalty method for trademarks and software, with a cost to recreate method cross checked to estimate the fair value of the software.

The useful life for these assets estimated on provisional basis is as follows:

- Customer relationships – 14 years
- Trademarks – 20 years
- Software – 3 years

*Dream Points liability*

Dream Points liability relates to promotional incentives or loyalty credits that could be used for future competition entries ("Dream Points") and is recognised as contract liability, representing an obligation to provide competition entries at the customer's discretion. Dream Points liability is measured at fair value on acquisition date. The fair value of Dream Points is determined as the present value of expected redemptions, reflecting the obligation to provide competition entries at the customer's discretion.

---

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

**Note 14. Business combinations (continued)**

*Deferred revenue*

Cash collected from ticket sales during the campaign period is recognised as a liability on the balance sheet and released to revenue in the profit and loss statement on the draw date when the winner is announced. Therefore, as at the acquisition date, the deferred revenue balance included amounts collected for draws that commenced pre-acquisition and will conclude post-acquisition.

In accordance with IFRS 3, deferred revenue must be revalued to fair value. This represents a Level 3 fair value measurement prepared on a provisional basis and represents a **significant accounting judgement**.

*Deferred tax liability*

Deferred liability balance mainly related to acquired customer relationships, estimated at 25% tax rate.

*Leases*

The Group acquired lease agreements in relation to the office rental. The right-of-use asset and lease liability have been remeasured based on expected minimum lease payments for the remaining 10-year lease period, considering extension options available, and discounted at the at the incremental borrowing rate (IBR) on acquisition date.

*Other net assets acquired*

The fair value of other assets and liabilities acquired approximated to their carrying value on account acquisition date.

**(vii) Goodwill**

The goodwill of \$17,652,000 arising from the acquisition is attributable to the Dream Giveaways UK strong position and competitive advantage in the prize draw market in the UK and the synergies expected to arise from the economies of scale in combining the operations, marketing skills and technology of the Group with those Dream Giveaways UK. It is not deductible for tax purposes.

**(viii) Revenue and profit attribution**

Dream Giveaways UK contributed \$11,512,000 revenue \$2,931,000 profit after tax to the Group's consolidated profit from ordinary activities for the period from 14 October 2025 to 31 December 2025. These figures have been determined on a provisional basis.

**(b) Acquisition of Dream Giveaway US**

On 30 October 2025, the Group through its newly-incorporated US subsidiary Jumbo Interactive USA, Inc., has acquired DG Acquisition, Inc. – the holding company of the three companies (FN Funding, Inc., DG Motors, Inc. and RYNO.CO, Inc.) that collectively comprise the Dream Giveaway business (**DG US** or **Dream Giveaways US**). Dream Giveaways US develops and manages impactful promotional campaigns centred around desirable prizes, primarily in the automotive sector. The acquisition of Dream Giveaways US provides Jumbo with a B2C entry point into the US prize draw market.

The Group prepared the acquisition accounting of Dream Giveaways US on provisional basis. Details of the consideration paid, the assets acquired and liabilities assumed and the effects on the cash flows of the Group at the acquisition date are as follows:

	<b>Fair value recognised on acquisition date (Provisional) \$'000</b>
<b>(i) Purchase consideration</b>	
Cash paid on completion	57,324
Working capital adjustment payable	942
<b>Total consideration for the business</b>	<b>58,266</b>
<b>(ii) Fair value of identifiable assets and liabilities at acquisition date:</b>

Cash acquired on acquisition	(2,501)
<b>Cash outflow on acquisition</b>	<b>54,823</b>
<b>(iv) Acquisition-related costs</b>	
	<b>\$'000</b>
Acquisition costs charged to expenses	971

Acquisition-related costs of \$971,000 are included in "Consultancy and legal expenses" in the consolidated statement of profit or loss and other comprehensive income and in operating cash flows in the consolidated statement of cash flows.

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

**Note 14. Business combinations (continued)**

**(v) Contingent consideration**

In addition to cash consideration settled on acquisition date, the Group has to pay additional US\$ 617,000 (\$922,000 at the foreign exchange rate on 31 December 2025) in relation to working capital settlement adjustment estimated on provisional basis. The unpaid consideration balance is included in 'Contingent consideration at FV current' line in the statement of financial position.

**(vi) Identifiable net assets acquired**

*Intangible assets identified*

Customer relationships and trademarks have been identified as separately identifiable intangible assets. The fair value of these assets has been valued by an independent valuer using the multi-period excess earnings method (MEEM) for customer relationships and relief from royalty method for trademarks.

The useful life for these assets estimated on provisional basis is as follows:

- Customer relationships – 5 years
- Trademarks – 20 years

*Inventories*

Dream Giveaways US inventory comprises luxury exotic cars purchased as prizes for competitions. While some cars are brand new, a significant portion consists of classic vintage cars for which market values are not readily available. Therefore, an external valuation was performed by an independent valuer certified to value automotive commodities.

*Contract liability*

The contract liability relates to prize costs for draws that had closed as at the acquisition date, but where winners had not yet collected their prizes from Dream Giveaways US. The fair value of the contract liability equals the cost of the prizes.

*Deferred revenue*

Dream Giveaways US typically runs campaigns lasting 6-11 months. Cash collected from ticket sales during the campaign period is recognised as a liability on the balance sheet and released to revenue in the profit and loss statement on the draw date when the winner is announced. Therefore, as at the acquisition date, the deferred revenue balance included amounts collected for draws that commenced pre-acquisition and will conclude post-acquisition.

In accordance with IFRS 3, deferred revenue must be revalued to fair value. Based on the valuation performed, the accounting deferred revenue opening balance was reduced by US\$2.26m (\$3.45m at the acquisition date exchange rate) as a fair value adjustment. This fair value adjustment will be released to revenue in line with the completion of draws during the post-acquisition period. This represents a Level 3 fair value measurement prepared on a provisional basis and represents a **significant accounting judgement**.

*Deferred tax liability*

Deferred liability balance mainly related to acquired customer relationships and trademarks, estimated at 25.345% tax rate.

*Leases*

The Group acquired lease agreements in relation to the office rental. The right-of-use asset and lease liability have been remeasured based on expected minimum lease payments for the remaining 6.5-year lease period, considering extension options available, and discounted at the at the incremental borrowing rate (IBR) on acquisition date.

*Other net assets acquired*

The fair value of other assets and liabilities acquired approximated to their carrying value on account acquisition date.

**(vii) Goodwill**

The goodwill of \$47,325,000 arising from the acquisition is attributable to the Dream Giveaways US strong position and broad opportunities in the large prize draw market in the US and the synergies expected to arise from the economies of scale in combining the operations, marketing skills and technology of the Group with those Dream Giveaways US. It is not deductible for tax purposes.

---

**Notes to the consolidated financial statements for the half-year ended  
31 December 2025**

**Note 14. Business combinations (continued)**

**(viii) Revenue and profit attribution**

Dream Giveaways US contributed \$2,154,000 revenue and \$681,000 loss after tax to the Group's consolidated profit from ordinary activities for the period from 14 October 2025 to 31 December 2025.

**Recognition and measurement**

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition-date fair values of the assets transferred, equity instruments issued or liabilities incurred by the acquirer to former owners of the acquiree and the amount of any non-controlling interest in the acquiree. For each business combination, the non-controlling interest in the acquiree is measured at either fair value or at the proportionate share of the acquiree's identifiable net assets. All acquisition costs are expensed as incurred to profit or loss.

On the acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic conditions, the Group's operating or accounting policies and other pertinent conditions in existence at the acquisition-date.

Where the business combination is achieved in stages, the Group remeasures its previously held equity interest in the acquiree at the acquisition-date fair value and the difference between the fair value and the previous carrying amount is recognised in profit or loss.

Contingent consideration to be transferred by the acquirer is recognised at the acquisition-date at fair value. Subsequent changes in the fair value of the contingent consideration classified as an asset or liability is recognised in profit or loss. Contingent consideration classified as equity is not remeasured and its subsequent settlement is accounted for within equity.

The difference between the acquisition-date fair value of assets acquired, liabilities assumed and any non-controlling interest in the acquiree and the fair value of the consideration transferred and the fair value of any pre-existing investment in the acquiree is recognised as goodwill. If the consideration transferred and the pre-existing fair value is less than the fair value of the identifiable net assets acquired, being a bargain purchase to the acquirer, the difference is recognised as a gain directly in profit or loss by the acquirer on the acquisition-date, but only after a reassessment of the identification and measurement of the net assets acquired, the non-controlling interest in the acquiree, if any, the consideration transferred and the acquirer's previously held equity interest in the acquirer.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets or liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition-date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

**Note 15. Events after the reporting period**

Apart from the interim dividend determination announced on 25 February 2026 and the Board's decision to continue the on-market share buy-back, there are no matters or circumstances that have arisen that have significantly affected, or may significantly affect, the operations of the Group in the financial period subsequent to 31 December 2025.

## DIRECTORS' DECLARATION

The Directors of the Group declare that:

- (1) The consolidated financial statements, comprising the Consolidated Statement of Profit or Loss and Other Comprehensive Income, Consolidated Statement of Financial Position, Consolidated Statement of Changes in Equity and Consolidated Statement of Cash Flows, and accompanying notes, are in accordance with the Corporations Act 2001 and:
  - a. comply with Australian Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001; and
  - b. give a true and fair view of the Group financial position as at 31 December 2025 and of its performance for the half-year ended on that date.
- (2) In the Directors' opinion, there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

The declaration is made in accordance with a resolution of the Directors.

## **Independent auditor's review report to the members of Jumbo Interactive Limited**

### **Conclusion**

We have reviewed the accompanying condensed half-year financial report of Jumbo Interactive Limited (the Company) and its subsidiaries (collectively the Group), which comprises the condensed statement of financial position as at 31 December 2025, the condensed statement of comprehensive income, condensed statement of changes in equity and condensed statement of cash flows for the half-year ended on that date, explanatory notes and the directors' declaration.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of the Group does not comply with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the consolidated financial position of the Group as at 31 December 2025 and of its consolidated financial performance for the half-year ended on that date; and
- b. Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

### **Basis for conclusion**

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity* (ASRE 2410). Our responsibilities are further described in the *Auditor's responsibilities for the review of the half-year financial report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to reviews of the half-year financial report of public interest entities in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

### **Directors' responsibilities for the half-year financial report**

The directors of the Company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

**Shape the future  
with confidence**

### **Auditor's responsibilities for the review of the half-year financial report**

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 December 2025 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
