

## \$21.7m Western Military Contracts

**DroneShield Limited (ASX:DRO) (DroneShield or the Company)** is pleased to announce that it has received a package of six standalone contracts for \$21.7 million from an in-country reseller for delivery to a western military end-customer.

The contracts are for the supply of dismounted counter-drone systems, spare kits, and software subscriptions. All items are readily available from existing inventories and it is expected delivery will be made in Q1 2026, with payment expected in Q2 2026. No additional material conditions need to be satisfied.

The reseller is a wholly-owned subsidiary of a multi-billion dollar, global, publicly listed company that is required to distribute the products to the western military end-customer. Over the past seven years, prior to this contract, DroneShield has received 39 contracts from this reseller totalling over \$17.8 million. There are no obligations for any additional contracts from this reseller or end-customer.

DroneShield confirms that:

- It does not consider the identity of the counterparty/customer to be information that a reasonable person would expect to have a material effect on the price or value of DroneShield's securities; and
- The announcement contains all material information relevant to assessing the impact of the contract on the price or value of DroneShield's securities and is not misleading by omission.
