

Pilot secures \$25 million institutional equity subscription facility with LDA Capital

- **\$25 million institutional equity subscription facility with US institutional investment group LDA Capital**
- **Facility enables Pilot to fast-track data centre projects**
- **Multi-year facility available through CYE 2028**

Pilot Energy Limited (**ASX:PGY**) (**Pilot** or **Company**) is pleased to provide the details of a A\$25 million equity funding package to be provided by LDA Capital Group, LLC (**LDA Capital**), a US global institutional alternative investment group.

Pilot will be able to, at its sole discretion, flexibly draw down up to A\$25 million by exercising put options to LDA Capital over the duration of the three-year agreement (**Put Option Agreement**). The structure of the package is low cost and substantially reduces potential project funding risk for Pilot's implementation of both the Cliff Head Carbon Storage Project and the recently announced¹ expanded data centre projects with Kala Data.

LDA Capital's low-cost funding package includes a 2% facility fee totaling A\$500,000, which is payable within 12 months of execution of the Put Option Agreement. In addition, Pilot has agreed to issue LDA Capital options to subscribe for 7,386,062 million shares in the Company with an exercise price of \$0.09/share with a pricing reset at the 6-month anniversary of the Agreement.

More details of the terms of the Put Option Agreement are set out in Annexure A.

This announcement has been authorised for release to ASX by the Board of the Company.
