BRIGHTSTAR
RESOURCES LIMITED

Building a Multi-Asset Western Australian Gold Producer

Fully Funded Developer with a Tier-1 Growth Asset in the Go Bay

March 2026

Important Notices & Disclaimers

Important Notices

This presentation (**Presentation**) has been prepared by Brightstar and has been authorised for release by the Board of Directors of Brightstar on the basis it is to be read in conjunction with these important notices and disclaimers.

This Presentation dated 18 March 2026 has been prepared by the management of Brightstar Resources Limited (ACN 100 727 491) ("**BTR**", "**Brightstar**" or "**Company**").

Disclaimer

- This Presentation has been prepared by Brightstar based on information from its own and third-party sources and is not a disclosure document. No party other than Brightstar has authorised or caused the issue, lodgement, submission, despatch or provision of this Presentation, or takes any responsibility for, or makes or purports to make any statements, representations or undertakings in this Presentation. Except for any liability that cannot be excluded by law, Brightstar and its respective related bodies corporate, directors, employees, advisers and agents disclaim and accept no responsibility or liability for any expenses, losses, damages or costs incurred by any party relating in any way to this Presentation including, reliance without limitation, the information contained in or provided in connection with it, any errors or omissions from it however caused, lack of accuracy, completeness, currency or reliability or you or any other person placing any on this Presentation, its accuracy, completeness, currency or reliability.
- This Presentation is not a prospectus, disclosure document or other offering document under Australian law or under any other law. It is provided for information purposes and is not an invitation nor offer of shares or recommendation for subscription, purchase or sale in any jurisdiction. This Presentation does not purport to contain all the information that a prospective investor may require in connection with any potential investment in Brightstar. Each recipient must make its own independent assessment of Brightstar before making an investment decision.

Not Investment Advice

- Each recipient of the Presentation should make its own enquiries and investigations regarding all information in this Presentation including but not limited to the assumptions, uncertainties and contingencies which may affect future operations of Brightstar and the impact that different future outcomes might have. Information in this Presentation is not intended to be relied upon as advice to investors or potential investors and has been prepared without taking account of any person's individual investment objectives, financial situation or particular needs. Before making an investment decision, prospective investors should consider the appropriateness of the information having regard to their own investment objectives, financial situation and needs and seek legal, accounting and taxation advice appropriate to their jurisdiction. Brightstar are not licensed to provide financial product advice in respect of their securities.

Forward-Looking Statements

- This Presentation contains certain "forward-looking statements". The words "expect", "anticipate", "estimate", "intend", "believe", "guidance", "should", "could", "may", "will", "predict", "plan" and other similar expressions are intended to identify forward-looking statements. Indications of, and guidance on, future financial position or performance are also forward-looking statements. Forward-looking statements, opinions and estimates provided in this Presentation are based on assumptions and contingencies which are subject to change without notice and involve known and unknown risks and certainties and other factors which are beyond the control of Brightstar and its directors and management. Forward-looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance. Actual results, performance or achievements may differ materially from those expressed or implied in such statements and any projections and assumption on which these statements are based. These statements may assume the success of Brightstar business strategies. The success of any of those strategies will be realised in the period for which the forward-looking statement may have been prepared or otherwise. Readers are cautioned not to place undue reliance on forward-looking statements, particularly in light of the current economic climate and the significant volatility, and except as required by law or regulation, none of Brightstar or their respective representatives or advisers assumes any obligation to update these forward-looking statements. No representation or warranty, express or implied, is made as to the accuracy, likelihood of achievement or reasonableness of any forecasts, prospects, or statements in relation to future matters contained in this Presentation. The forward-looking statements are based on information available to Brightstar as at the date of this Presentation. Except as required by law or regulation (including the ASX Listing Rules), none of Brightstar and their respective representatives or advisers undertakes any obligation to provide any additional or updated information whether as a result of a change in expectations or assumptions, new information, future events, or results or otherwise. Indications of, and guidance or outlook on future financial position or performance are also forward-looking statements.

Aspirational Statements

- The statements which may appear in this Presentation regarding the aspirations for Brightstar to undertake construction of a Sandstone processing plant in 2H'CY27 for first gold production in 2H'CY28, aligning with continued planned production growth from Brightstar's Laverton and Menzies hubs to aspirationally target Group production profile of +200koz p.a. by 2029, are aspirational statements. The statement of the Company's goal (of targeting +1.0Moz Ore Reserve in the PFS, a 1.5-2.5Moz Ore Reserve in the DFS and increasing the currently-stated Mineral Resource of 2.4Moz to targeting a long-term ambition of a 3.0Moz - 4.0Moz Mineral Resource longer term) are aspirational statements. These statements are not production targets as Brightstar does not yet have sufficient objective reasonable grounds to believe that the statements can be achieved.
- Importantly, the statements are considered aspirational because, as disclosed in its ASX announcement dated 30 April 2025 titled 'Sandstone gold project accelerating towards development' (**April 2025 Announcement**) and 27 January 2026 titled 'Sandstone Strategic Plan to Deliver Long-Life Production Hub' (**January 2026 announcement**), Brightstar has not yet completed a pre-feasibility study for Sandstone, noting that Sandstone has a long operating history with detailed information available on historical performance across the majority of deposits, ore mineralisation styles and operating parameters (i.e. open pit mining and conventional carbon-in-leach processing conducted in the recent past). While preliminary assessments have been undertaken, as disclosed in the April 2025 and January 2026 Announcements, substantial further work is required before Brightstar will be in a position to have sufficient objective reasonable grounds to publish production targets or forecast financial information relating to the Sandstone Project.
- The study will need to consider a number of variables and focus areas which are expected to include, but are not limited to items within the following feasibility study workstreams: preparing robust update Mineral Resource Estimates for each deposit based on geological models generated by existing and new geological information informed by Brightstar's current drilling programs; applying current (CY26) mining cost and operational parameters to delineate economic mining optimisations, open pit mine designs and schedules that encapsulates geotechnical and metallurgical recovery information from third party test work; assessments into approvals and permitting processes, along with detailed engineering design work, optimal processing flowsheets and requisite infrastructure that delivers the best outcome of recovered metal, operating costs and capital costs which supports these aspirations.
- Brightstar confirms that the inclusion of Aspirational Statements in this presentation are based entirely on the April Announcement and contains no new information.

Important Notices & Disclaimers

Feasibility Study - Cautionary Statement

Goldfields Project Feasibility Study

- The production targets and forecast financial information disclosed in this presentation were first announced in accordance with ASX Listing Rules 5.16 and 5.17 in the Company's announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.
- Unless otherwise stated, the Company confirms that all material assumptions underpinning the production targets and forecast financial information derived from the production targets in the original DFS release¹ continue to apply and have not materially changed.
- The Company cautions that a portion of the production target (27%) is based on Inferred Mineral Resources. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the production targets themselves will be realised.

Production Target

- The Production Target (and forecast financial information derived from the Production Target) referred to in this announcement is underpinned by Measured and Indicated Mineral Resources of approximately 73% and Inferred Mineral Resources of approximately 27% over the DFS period.
- The total Life of Mine Production Target includes 27% Inferred Resources, 3% Indicated Resource outside of Reserve and the remaining 70% is underpinned by Proven and Probable Ore Reserves. There is a low level of geological confidence associated with Inferred Mineral Resources and there is no certainty that further exploration work will result in the determination of Indicated Mineral Resources or that the Production Target itself (or the forecast financial information) will be realised.

Competent Persons Statements

- The Mineral Resources and Ore Reserves estimates disclosed in this Presentation were first disclosed in accordance with ASX Listing Rules 5.8 and 5.9 in the announcements as cross-referenced. Brightstar confirms that it is not aware of any new information or data that materially affects the information included in the relevant announcement and that all material assumptions and technical parameters underpinning the estimates in the previous announcements continue to apply and have not materially changed.

Currency

- Unless otherwise stated, all dollar values in this Presentation are reported in Australian dollars.

¹ Refer ASX announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.

Fully funded gold developer executing on major production growth

Two large-scale production centres to unlock Brightstar's TARGET200 aspiration of becoming a +200koz p.a. WA gold producer¹

Major production growth across two assets bases in Western Australia²

- ▶ 351koz Ore Reserves & +4.0Moz Mineral Resources 100% on granted Mining Leases
- ▶ Brightstar's existing **owner-operate** capabilities to be leveraged into production growth execution at the Goldfields and Sandstone Projects
- ▶ **A\$193M equity & US\$120M debt successfully raised** providing Brightstar with \$387M in available cash and liquidity – fully funding the Goldfields project development and Sandstone to FID

Compelling Goldfields DFS 2.0 development case³ advancing to FID

- ▶ 6 Year Production Plan averaging 75koz p.a.
- ▶ Construction of a new conventional 1.5Mtpa CIL processing plant **upgradeable to 2.5Mtpa during operations** (upgrading potentially enables +100koz p.a. production)
- ▶ 457koz of gold produced over 6 years - underpinned by Ore Reserves of 351koz @ 1.6g/t Au²

Goldfields DFS 2.0 robust economics^{3,4} **FULLY FUNDED FOR DEVELOPMENT**

- ▶ Pre-tax NPV₈ Base: \$606M; **Spot \$911M** | Pre-tax IRR Base: 74%; **Spot: 106%** | Average FCF per annum Base: \$163M; **Spot: \$236M**
- ▶ LOM unit costs⁵: C1 \$2,581/oz; AISC \$2,998/oz
- ▶ Peaking funding requirement⁴ of \$188M; Payback⁵ in 17 months
- ▶ Final permits/approvals targeted early in JunQ'26

Sandstone: growing the size of the opportunity

- ▶ Targeting a district scale long-life production centre
- ▶ Shallow, **under-explored district-scale opportunity with MRE of 2.4Moz @ 1.5g/t Au²**
- ▶ +120,000m drilled to date by Brightstar – assessed in **PFS targeted for 2H'26**
- ▶ Goldfields cash generation to accelerate Sandstone's development and Brightstar's pathway to becoming a 200koz p.a. producer¹

1. Refer to the Aspirational Statements disclaimer on page 2.

2. Refer to Appendices 2 - 4 for Mineral Resource estimates and Ore Reserve statement.

3. Refer ASX announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.

4. Base Case: A\$6,000/oz, Spot Case: A\$7,000/oz. Financial metrics are presented on a pre-tax basis – as at 31 December 2025, Brightstar had \$209M of Group tax losses which are anticipated to be utilised for minimising ultimate tax expense

5. Assumes Base Case A\$6,000/oz.

Goldfields DFS 2.0 – Key outcomes¹

Physicals & Costs	Total Material Open Pit: 7.9Mt @ 1.5g/t Au Underground: 1.5Mt @ 2.6g/t Au	LOM Gold Produced 457koz over 6 years	Ore Reserves 6.9Mt @ 1.6g/t Au for 351koz	Average Annual Production ~75koz p.a.				
	C1 Cash Cost² \$2,581/oz	Group AISC² \$2,998/oz	Peak Funding Requirement² \$188M	Laverton Plant Throughput³ 1.5Mtpa				
Financial Outcomes ⁴	Base Case \$6,000/oz:							
	Pre-tax NPV₈ \$606M	Pre-tax IRR 74%	Average Annual FCF \$163M	LOM FCF \$977M				
	Spot Case \$7,000/oz:							
	Pre-tax NPV₈ \$911M	Pre-tax IRR 106%	Average Annual FCF \$236M	LOM FCF \$1.4B				
Return on Investment	Pre-tax NPV₈ / Pre-Production Capital⁵ 3.2x	AUD Gold Price	\$5,000/oz	\$5,500/oz	Base: \$6,000/oz	\$6,500/oz	Spot: \$7,000/oz	\$7,500/oz
		NPV ₈ (\$M) ³	301	454	606	758	911	1,063
	Payback Period⁵ 17 months	IRR (%) ³	41	58	74	90	106	121
		Annual FCF (\$M)	90	126	163	200	236	273
		LOM FCF (\$M)	538	758	977	1,197	1,417	1,637

1. Refer ASX announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.

2. C1 cash cost includes mining opex, haulage, processing and G&A costs, AISC = C1 cash costs plus sustaining capital + royalties – both based on gold ounces produced. Assumes Base Case of A\$6,000/oz.

3. 1.5Mtpa design capacity based on 100% fresh rock throughput, targeted to deliver higher processing rates with higher blends of oxide material. Plant design has embedded optionality for expansion to 2.5Mtpa.

4. Base Case: A\$6,000/oz (Brightstar is evaluating put options strategies to underpin Base Case), Spot Case: A\$7,000/oz. Financial metrics are presented on a pre-tax basis – as at 31 December 2025, Brightstar had \$209M of Group tax losses which are anticipated to be utilised for minimising ultimate tax expense once taxable income commences to be generated.

5. Payback period calculated from the first month of gold production after mill commissioning. Both Payback Period and NPV/Capital ratio assume Base Case of A\$6,000/oz.

Two projects, one target – clear path to TARGET200

Advancing TARGET200 strategy: Production growth across Goldfields and Sandstone Hubs → Targeted value realisation from Brightstar's 4.0Moz Mineral Resource base

Production Growth Target ^{A,B,C}

1 Goldfields Development – Near-term Production Growth ¹

- ▷ Fully funded for development
- ▷ Updated Goldfields DFS 2.0 delivers enhanced production and financial metrics:
 - +75koz p.a. of production over an initial 6 years
 - **First gold production targeted in JunQ'27**
 - 1.5Mtpa mill incorporates design to be readily upgraded to 2.5Mtpa providing growth optionality
 - Robust LOM FCF generation of ~\$1.0 billion²
 - Compelling Base Case return on capital with NPV/Capex ratio of 3.2x and pre-tax IRR 74%
 - GR Engineering Services selected as preferred contractor to build the processing plant through a fixed-price EPC contract underpinning a de-risked construction cost & schedule
 - Site establishment complete - including camp upgrade to accommodate plant construction team and clearing/preparation of processing plant site

2 Sandstone Project – Material Scale & Upside to Drive Long Term Value

- ▷ Current Mineral Resource: 2.4Moz at 1.5g/t Au, including:
 - 1.6Moz located in the top 150m from surface
- ▷ Mineral Resource Estimate update due JunQ'26
- ▷ Sandstone PFS targeted for 2H'CY26:
 - Evaluating a 4–5Mtpa central processing facility
 - Potential for significant production profile and mine life to complement near-term Goldfields Hub production
- ▷ FID targeted for MarQ'28

A. Refer to the Cautionary Statement on page 3 regarding production targets and forecast financial information.
 B. Refer to the Aspirational Statements disclaimer on page 2.
 1. Refer to ASX announcement 'Sandstone gold project accelerating towards development' dated 30 April 2025 and 'Strategic Plan to Unlock Sandstone' dated 27 January 2026.

1. Refer ASX announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.
 2. Assumes Base Case of A\$6,000/oz.

Fully Funded Goldfields Development – Pathway to TARGET200

\$193M equity & US\$120M debt raised providing ~\$387M⁴ in available cash and liquidity – fully funding the Goldfields project development

US\$120 Million Nordic Bond¹

- ▶ Simple, flexible structure with a four-year tenor
- ▶ No principal repayments for 18 months with a tiered amortization profile thereafter and a 20% bullet repayment
- ▶ No options, warrants, royalties or other dilutive instruments in the debt structure
- ▶ No mandatory hedging instruments that cap gold price upside – leaving full price upside to shareholders
- ▶ Structure allows for potential re-financing in 2028 in line with expected Sandstone investment decision

A\$175 Million Institutional Placement² and A\$18 Million Share Purchase Plan³

- ▶ Strongly supported by new and existing institutional shareholders
- ▶ Globally-renowned natural resource specialist funds underpinned the equity raising
- ▶ The participation by Tier-1 institutional investors provides a formative re-positioning of the equity ownership for the long-term benefit of Brightstar
- ▶ SPP strongly supported by loyal retail shareholders

- ✓ Total funding package of ~A\$383M⁴
- ✓ Funding secured to execute on Goldfields development: DFS 2.0 delivers A\$1.6Bn⁵ free cash flow (pre-tax)
- ✓ Material budget to advance Sandstone to FID to establish Brightstar as a dual-asset producer targeting +200koz p.a.⁶

1. Refer ASX announcement 'Successful Completion of US\$120 million Bond Issue' dated 4 March 2026.

2. Refer ASX announcement 'Strategic \$180M Capital Raising to Fund Material Gold Production Growth' dated 2 February 2026.

3. Refer ASX announcement 'Brightstar Upsizes Share Purchase Plan to \$18M due to Strong Support from Shareholders' dated 3 March 2026.

4. Gross Bond proceeds converted at 0.70 AUD/USD.

5. Refer ASX announcement 'Updated Goldfields Feasibility Study' dated 29 January 2026.

6. Refer to the Aspirational Statements disclaimer on page 2.

BRIGHTSTAR
RESOURCES LIMITED

Goldfields DFS 2.0

Accelerating development & production growth

Goldfields DFS 2.0 – Overview¹

+75koz p.a. produced from consolidated and enlarged Laverton processing strategy yielding ~\$1B of pre-tax free cash flow²

1. Refer ASX announcement "Updated Goldfields Feasibility Study" dated 29 January 2026.
2. Assumes Base Case of A\$6,000/oz.
3. Gross revenue less royalties.

Goldfields DFS 2.0 – Physicals

Underpinned by 73% of production from Measured & Indicated Mineral Resources

Goldfields DFS 2.0	Unit	Laverton	Menzies	Total
Key Production Outcomes²				
Open Pit Mining				
Ore	kt	4,893	3,014	7,906
Grade ³	g/t Au	1.4	1.6	1.5
Contained ounces	koz	226	150	377
Operating Strip ratio	w:o	9.2	11.7	10.2
Underground Mining

Targeted Sandstone FID

Aligning with Goldfields' anticipated peak production & cash generation period (average DFS 2.0 pre-tax FCF of \$236M p.a.² over a 6 year mine life)

1. Indicative timings subject to potential change.
2. Assumes Spot Case of \$7,000/oz.

1.5Mtpa Laverton Processing Plant

Fixed Price EPC Contract to de-risk construction phase with embedded capacity to cost-effectively expand to 2.5Mtpa during operations for additional upside optionality

- ▶ A competitive Front End Engineering Design process for a new 1.5Mtpa CIL processing plant in Laverton has been completed
- ▶ Early Works Contract with GR Engineering Services (GRES) executed with long lead-time orders being awarded to enable fast-tracking of development
- ▶ Lump sum, fixed price, Engineering, Procurement and Construction (EPC) delivery model selected for **construction of the new 1.5Mtpa processing infrastructure**
- ▶ Conventional 1.5Mtpa CIL plant (single stage crush and SAG mill) with imbedded engineering design for an expansion to 2.5Mtpa during operations
- ▶ LOM average processing cost of A\$31/t processed
- ▶ Plant design is based on consolidated metallurgical parameters from all mine sites and material types, delivering **LOM recoveries of 91%**
- ▶ Removal of Brightstar's legacy plant has been completed, along with remediation of the site in preparation for the new project development
 - Targeted FID, EPC contract execution and commencement of processing plant construction early in the JunQ'26

Clearing of old mill site completed (Dec'25)

Ready for new 1.5Mtpa plant construction (Jan'26)

Brightstar Project execution team

Significant combined capabilities across mine development, operations, exploration and capital markets – with **decades of Western Australian mining and gold experience**

Mine Development & Operations Corporate / Finance Geology & Project Delivery	ANDREW RICH EXECUTIVE DIRECTOR - OPERATIONS - Mining Engineer (WASM) - First Class Mine Managers Certificate - Led multiple underground operations for ASX-listed & private entities (Contractor: Mako Mining; Client: Ramelius, Westgold) - Previously Managing Director of Linden Gold Alliance Ltd	DANIEL JOLLEY PROJECT DIRECTOR - Engineering and studies professional with +20 years' experience in feasibility studies and development execution - Previously senior studies and engineering roles with Northern Star, De Grey Mining, Fortescue and Mineral Resources	JULIE BUDREY GROUP OHS MANAGER 25 years' experience in the mining industry as a Health & Safety professional - Built and enhanced operational safety systems for open pit and underground mining operations across Australia - Previously General Manager - HSET at Emeco Group and Group OHS Manager for Westgold Resources
	ALEX ROVIRA MANAGING DIRECTOR - Appointed Managing Director of Brightstar in 2022 - Corporate finance and geology professional - Experienced equity markets / M&A investment banker with over a decade of experience in the metals and mining industry	NICKY MARTIN CHIEF FINANCIAL OFFICER - Experienced finance and accounting professional - Background in building finance & accounting teams at emerging producers - Previously Head of Finance for Pilbara Minerals Ltd	SAMUEL MAIN CORPORATE DEVELOPMENT OFFICER - Previously CFO of Linden Gold Alliance Ltd - Experience commercial, corporate & project finance and M&A - Background in mining transactions, corporate finance at PCF (now Argonaut) and commercial mining roles
	JONATHAN GOUGH GENERAL MANAGER – GEOLOGY - Experienced geology professional with +15 years' experience in West Australian gold - Strong background in production, resource definition and exploration - Previously Exploration Manager for Musgrave Minerals Ltd	GRAHAM DE LA MARE PRINCIPAL RESOURCE GEOLOGIST - Experienced geology professional with +30 years' experience in gold and other commodities - Strong background in estimation and reporting of geological resource models - Previously Principal Resource Geologist with Karora Resources Inc	BRENDAN BOW ENVIRONMENTAL & APPROVALS MANAGER - Experienced environmental and approvals professional with 20+ years' in WA's mining sector - Strong operational experience navigating complex regulatory frameworks, managing teams and driving sustainable outcomes - Previously Manager – Environmental & Approvals for HanRoy and Atlas Iron

BRIGHTSTAR
RESOURCES LIMITED

Sandstone - Scale & Upside

Growing the size of the opportunity

Sandstone's 'London Bridge'

Consolidated Sandstone – 2.4Moz Mineral Resource base & growing

Emerging district-scale open pit Western Australian development opportunity with 1.6Moz located in the top 150m from surface

- Platform is set for a **significant, stand-alone WA gold development**
- Sandstone Mineral Resource¹: 2.4Moz @ 1.5g/t Au**
- No mining activities since 2010 despite gold price increasing 7x from ~A\$1,000/oz to +A\$7,000/oz
- All Mineral Resources located on Granted Mining leases**
- Infrastructure and permits/licensing in place to provide material synergies for de-risked development at Sandstone
- PFS underway evaluating between 4 - 5Mtpa central Sandstone processing capacity** located on existing processing plant site
- Targeting FID at the Sandstone Hub in 2H'CY27

Exploration Upside:

- Shallow Mineral Resources with limited historical systematic exploration
 - 1.6Moz is less than 150m vertical depth**
- ~100,000m drilled already under BTR ownership (~12 months)
- BTR targeting material MRE upgrades in 1H'CY26
- Targeted 4-6 rig drilling throughout CY26**

¹ Refer to Appendix 3 for Sandstone Mineral Resource estimates.

Two Year Sandstone Strategic Plan¹ - to deliver district scale opportunity

STRATEGIC PLAN

1

Improve Mineral Resource Quality and Continue Organic Growth

- Targeting material Mineral Resource update to the existing 2.4Moz @ 1.5g/t Au endowment (across two MRE updates in CY26)
- Transition from infill drilling (>100km completed to date) to extensional drilling & greenfield targets

2

Maximise Mineral Resource-to-Ore Reserve conversion

- Underpinned by comprehensive & quality technical work in support of maiden Ore Reserve in PFS.
- The shallow Mineral Resources are well positioned for large-scale open pit mining and potential conversion into an Ore Reserve with 1.6Moz in the top 150m

3

'Right-size' the processing infrastructure

- A 4-5Mtpa processing plant has been identified as optimal throughput capacity which creates a foundation for district-scale, long-life production centre
- This unlocks the value of the entire Brightstar landholding, with ~1,800km² of highly prospective and underexplored Greenstone Belt terrane

	Calendar Year	2026	2027	2028	Alignment to Strategic Plan ¹
Drilling	Infill Drilling	★ MRE Upgrade	★ MRE Upgrade		• Long term MRE growth target¹ of 3.0Moz – 4.0Moz in Sandstone to support a long-life operation
	Growth & Greenfields		★ MRE Upgrade		
Studies	Geotechnical Testwork				• PFS: Targeting¹ maiden +1.0Moz Ore Reserve, supporting an initial 6-8 year mine life • DFS: Targeting¹ 1.5Moz – 2.5Moz Ore Reserve, supporting a +10 year mine life
	Metallurgical Testwork				
	Processing Plant	PFS & FEED engineering	Detailed engineering & EPC	★ Commence construction	
	Pre Feasibility Study (PFS)		★ PFS		
	Permitting & Approvals				
	Definitive Feasibility Study (DFS)			★ DFS	
Execution	Funding				• Target: Utilise Goldfields free cash flows and debt refinance to fund Sandstone development capex
	Final Investment Decision (FID)			★ FID	

1. Refer to ASX announcement 'Sandstone gold project accelerating towards development' dated 30 April 2025 and 'Strategic Plan to Unlock Sandstone' dated 27 January 2026.

Aspirational Statement

This statement of the Company's goal (of targeting +1.0Moz Ore Reserve in the PFS, a 1.5-2.5Moz Ore Reserve in the DFS in 2027 and increasing the currently-stated MRE to targeting 3.0Moz - 4.0Moz MRE) longer term are aspirational statements, and the Company does not yet have reasonable grounds to believe the statement can be achieved. Refer to the Aspiration Statement disclaimer on page 2

Quantifying the size of the Sandstone opportunity

Mill throughput (Mtpa) vs mill feed head grade (g/t Au)^{1,2}

Ounces produced per annum (measured in thousands of ounces, rounded to nearest thousand)

	1.0g/t Au	1.1g/t Au	1.2g/t Au	1.3g/t Au	1.4g/t Au	1.5g/t Au
4.0Mtpa	120	132	144	155	167	179
4.5Mtpa	135	148	161	175	188	202
5.0Mtpa	150	164	179	194	209	224

Table above is for illustrative purposes and utilises a 93% recovery factor on all scenarios. These are not production targets or forecasts, and is conceptual mathematical output based on varying mill throughputs and head grades which is not based on the current Mineral Resources or any new information.

Infill Drilling at Vanguard and Lord Nelson

1. Refer to Aspirational Statements under Important Notices & Disclaimers on page 2.

2. Refer to ASX announcement 'Sandstone gold project accelerating towards development' dated 30 April 2025 and 'Strategic Plan to Unlock Sandstone' dated 27 January 2026.

2. As at 11 March 2026 - sourced from S&P CapIQ.
3. Goldfields DFS 2.0 only.

Forward outlook - Platform set for unrivalled sustained growth

TARGET 200 Advancing multi-hub production growth¹

Tier-1 Jurisdiction: +4.0Moz Au in Mineral Resources located on Granted Mining Licenses

De-risked near-term development of 1.6Moz Au Goldfields Hub

First gold targeted 1H'CY27

75koz p.a. production for 6 years

Construction of a 1.5Mtpa Mill strategically located south of Laverton unlocks value of BTR portfolio

Exploration & Development

+100,000m drilling programs planned in CY26

Sandstone PFS due 2H'CY26 underpinned by significant drilling and fast-tracked Strategic Plan³

Exploration programs to target resource growth and quality

Enhanced Goldfields DFS 2.0 establishes production path to +75koz p.a.

LOM Free Cash Flow \$977M² over 6 years

Pre-tax NPV₈ \$606m²; pre-tax IRR 74%²

Tax losses of ~A\$209M available for offsetting future tax obligations

Laverton-Menzies future cashflows targeted to contribute funding to Sandstone development

Capturing Value

Brightstar trades on an undemanding valuation on key Reserve and Production metrics

Significant potential to re-rate as BTR matures into a multi mine developer

Target further equity re-rating to inline with producer peers as production scale ramps up

Experienced team

Brightstar has a team of experienced mine builders and operators with deep experience in running WA gold mines

Brightstar has successfully built the Fish Underground Mine on time and on budget demonstrating project execution ability

Community Engagement

Strong relationships with key stakeholders (Native Title, local Shires, pastoralists)

Advance negotiations for Native Title Agreements across the portfolio

Ongoing rehabilitation of legacy exploration/mine areas

BRIGHTSTAR
RESOURCES LIMITED

DFS 2.0 Project Details

Lord Byron Open Pit

Lord Byron Open Pit

- ▷ JORC Mineral Resource of 5.4Mt @ 1.5g/t Au for 267koz Au¹
- ▷ Fully approved for mining operations to commence
- ▷ Two small historic open pits coalesce into one, large open pit mine
- ▷ 2.5 year mine life based on current open pit mining inventory
- ▷ Mining to commence DecQ'26
- ▷ Processing physicals and costs²:
 - Mining 2.5Mt @ 1.4g/t Au for 112koz Au mined
 - 92koz Au recovered (82% recovery)
 - Average operating strip ratio of 8:1
 - C1 Cash Cost: \$2,491/oz
 - AISC Cost: \$2,878/oz³
- ▷ Ore Reserves: 1.8Mt @ 1.4g/t Au for 83koz⁴
- ▷ Located ~50km from Brightstar's processing facility along established haul routes
- ▷ Open down dip and along strike to the South – near term drilling focused on shallow mine life extensions to the South

Targeting commencement of mining operations and stockpiling from Q4'CY26 in advance of Brightstar's processing plant commissioning

1. Refer to Appendix 2 for Goldfields Mineral Resources.
 2. Refer ASX announcement "Updated Goldfields Feasibility Study" dated 29 January 2026.
 3. Assumes Base Case of A\$6,000/oz.
 4. Refer to Appendix 4 for Ore Reserve statement.

Cork Tree Well Open Pit

Cork Tree Well Open Pit

- ▷ JORC Mineral Resource of 6.5Mt @ 1.4g/t Au for 292koz Au¹
- ▷ **Mining to commence 2030**
- ▷ **2.5 year mine life** based on current open pit design
- ▷ Processing physicals and costs²:
 - Mining 2.4Mt @ 1.5g/t Au for 114koz Au mined
 - **108koz Au recovered** (95% recovery)
 - Average operating strip ratio of 10:1
 - C1 Cash Cost: \$2,411/oz
 - AISC Cost: **\$2,813/oz**³
- ▷ Ore Reserves: **2.1Mt @ 1.5g/t Au for 104koz**⁴
- ▷ Open at depth and along strike - significant exploration upside to grow Resources on underexplored tenure
- ▷ Located ~75km from Brightstar's processing facility along established haul routes

1. Refer to Appendix 2 for Goldfields Mineral Resources.
 2. Refer ASX announcement "Updated Goldfields Feasibility Study" dated 29 January 2026.
 3. Assumes Base Case of A\$6,000/oz.
 4. Refer to Appendix 4 for Ore Reserve statement.

Yunndaga Underground

Yunndaga Underground

- Set to be Brightstar's next underground mine
- JORC Mineral Resource of 3.1Mt @ 2.1g/t Au for 206koz Au¹ (inclusive of lower grade halo)
- **Mining to commence SepQ'27**
- Significant advantage utilising existing underground equipment, infrastructure and personnel from current underground operations
- **2 year mine life** based on current underground mining plan
- Processing physicals and costs²:
 - Mining 0.6Mt @ 2.6g/t Au for 52koz mined
 - **50koz Au recovered** (~92% recovery)
 - C1 Cash Cost: \$3,291/oz
 - AISC Cost: **\$3,441/oz**³
- Ore Reserves: 0.5Mt @ 2.7 g/t Au for 47koz⁴
- Open at depth with significant scope for Mineral Resource growth and mine life extension
- Standard WA underground open stope, retreat mining methodology utilising conventional underground mining equipment

1. Refer to Appendix 2 for Goldfields Mineral Resources.
 2. Refer ASX announcement "Updated Goldfields Feasibility Study" dated 29 January 2026.
 3. Assumes Base Case of A\$6,000/oz.
 4. Refer to Appendix 4 for Ore Reserve statement.

Lady Shenton Open Pit

Lady Shenton Open Pit

- ▷ JORC Mineral Resource of 8.1Mt @ 1.4g/t Au for 352koz Au¹
- ▷ Fully approved for mining operations to commence
- ▷ Mining to commence 2H'CY28
- ▷ ~3 year mine life based on current open pit mining inventory
- ▷ On-going exploration to assess potential for underground operations following open pit mining
- ▷ Processing physicals and costs²:
 - Mining 2.7Mt @ 1.5g/t Au for 132koz Au mined
 - 121koz Au recovered (91% recovery)
 - Average operating strip ratio of 11:1
 - C1 Cash Cost: \$2,959/oz
 - AISC Cost: \$3,516/oz³
- ▷ Ore Reserves: 2.4Mt @ 1.5g/t Au for 117koz⁴
- ▷ Open at depth and along strike - significant exploration upside to grow Mineral Resources on underexplored tenure

1. Refer to Appendix 2 for Goldfields Mineral Resources.
 2. Refer ASX announcement "Updated Goldfields Feasibility Study" dated 29 January 2026.
 3. Assumes Base Case of A\$6,000/oz.
 4. Refer to Appendix 4 for Ore Reserve statement.

Goldfields DFS 2.0 – Costs & Sensitivity

Goldfields DFS 2.0	\$M
Capital Costs	
Processing Infrastructure	118
NPI and Site Works	15
Start-up Capex	133
Net capitalised cash flows (mining, G&A etc. working capital) ¹	55
Peak funding requirement¹	188
Contingency (10% of Processing Infrastructure)	12

Goldfields DFS 2.0			
Operating Costs³	\$M	\$/t Milled	\$/oz Produced
Open Pit Mining	324	41	960
Underground	188	124	1,579
Mining Cost	512	54	1,121
Haulage & Processing	577	61	1,262
G&A	91	10	199
C1 Cash Operating Cost	1,179	125	2,581
Royalties ¹	93	10	203
Sustaining Capital	99	10	216
All-in Sustaining Costs (AISC)	1,371	146	2,998

Financial metrics ²	\$5,000/oz	\$5,500/oz	Base: \$6,000/oz	\$6,500/oz	Spot: \$7,000/oz	\$7,500/oz
Pre-tax NPV ₈ (\$M)	301	454	606	758	911	1,063
Pre-tax IRR (%)	41	58	74	90	106	121
Annual FCF (\$M)	90	126	163	200	236	273
LOM FCF (\$M)	538	758	977	1,197	1,417	1,637

1. Assumes Base Case of \$6,000/oz.

2. Base Case: A\$6,000/oz (Brightstar is evaluating put options strategies to underpin Base Case), Spot Case: A\$7,000/oz. Financial metrics are presented on a pre-tax basis – as at 31 December 2025, Brightstar had \$209M of Group tax losses which are anticipated to be utilised for minimising ultimate tax expense once taxable income commences to be generated.

3. Some variances may occur due to rounding.
