

## Receipt of Tax Indemnity Claim – Challenger Mines Pty Ltd

**Adelong Gold Limited (ASX:ADG) (Adelong or the Company)** advises that it has received a demand from Great Divide Mining Limited (ASX: GDM) for payment of approximately \$1.17 million under tax indemnity provisions contained in the Share Subscription Deed dated 11 March 2025 relating to Challenger Mines Pty Ltd (**CMPL**).

The demand follows completion of an Australian Taxation Office review of CMPL's GST reporting for the period 1 July 2021 to 30 June 2025, as previously disclosed in the notes to the Company's half-year financial statements.

The claim relates to what the Company considers to be fraudulent activities by the former accountants to the Company and CMPL, which pre-dated the appointment of the current Board and management team of ADG.

The Company intends to dispute the claim and has or will advise GDM of the same.

The Company will update the market as and when there are material developments.

## ABOUT ADELONG GOLD

---

**Adelong Gold Limited (ASX:ADG)** is an Australian mineral exploration company advancing high-grade exploration at the recently acquired Apollo and Lauriston Gold Projects in Victoria. The Company also holds a highly prospective lithium portfolio in Brazil.

The **Apollo Gold and Antimony Project**, acquired in 2025, lies within Victoria's highly prospective Melbourne Zone and demonstrates strong bulk-tonnage gold potential, with mineralisation open at depth and along strike. The project also hosts antimony-bearing stibnite, akin to the nearby Costerfield and Sunday Creek deposits.

The **Lauriston Gold and Antimony Project**, also acquired in 2025, is a 28,700-hectare tenement adjacent to the Fosterville Mine. It hosts the high-grade Comet discovery, with drill results including 8.0m at 104 g/t Au and 5.9m at 15.3 g/t Au. With minimal historical drilling and a structural setting comparable to Fosterville's Swan Zone, Lauriston offers strong near-term exploration upside.

Complementing its gold strategy, Adelong also holds a strategic lithium portfolio in Brazil, including tenements in the renowned 'Lithium Valley' and the Borborema Region. These assets provide significant exposure to the global energy transition, with early exploration already identifying promising lithium pegmatite targets. With a diversified portfolio and a clear path to production, Adelong Gold is well-positioned for growth and long-term value creation.

## FORWARD LOOKING STATEMENTS
