

ASX: VMM MARKET ANNOUNCEMENT

Not for release to US wire services or distribution in the United States

STRONG GLOBAL INSTITUTIONAL DEMAND DRIVES HEAVILY OVERSUBSCRIBED AU\$25M PLACEMENT

Viridis Well Funded to FID on Colossus Rare Earth Project in Q3 2026

ASX Release: 18 March 2026

Highlights

- ▶ Viridis has secured firm commitments to raise AU\$25 million in a heavily oversubscribed Placement, reflecting strong institutional demand and growing global recognition of the Colossus Rare Earth Project as it advances toward Final Investment Decision ('FID') in Q3 2026.
- ▶ The Placement attracted strong participation from high-quality new and existing global institutional investors, including cornerstone support from North American and European institutions reflecting confidence in the strategic significance of the Colossus Project.
- ▶ Upon settlement of the Placement, Viridis will emerge with cash of up to ~AU\$76 million, comprising AU\$15 million cash at 31 December 2025, US\$25 million (~AU\$36 million) remaining under the binding investment agreement with Ore Investments Ltda. ('ORE') and Regia Capital Ltda⁴. ('Regia'), and AU\$25 million from the Placement.
- ▶ The Company is very well positioned to accelerate development activities through to FID and continue de-risking the pathway to production.
- ▶ The Placement follows a period of significant project advancement, including receipt of the Preliminary Environmental License and completion of the Company's ECA-led project debt framework, with formal support from Export Finance Australia ('EFA'), Export Development Canada ('EDC'), Bpifrance Assurance Export ('Bpifrance') and the Brazilian National Bank for Economic and Social Development ('BNDES').
- ▶ Together, strong institutional backing, environmental permitting progress, strategic capital partnerships and support from leading global export credit agencies ('ECAs') position Viridis to accelerate development of the Colossus Project and advance its position as a future leading Western supplier of rare earth elements.
- ▶ Proceeds from the Placement will be used to accelerate critical path activities for the Colossus Project, including placement of purchase orders ('POs') for Long Lead Items ('LLIs') in July 2026 and awarding the EPCM contract in August 2026, while continuing to advance the Mixed Rare Earth Carbonate ('MREC') demonstration plant, resource and reserve update drilling, the Definitive Feasibility Study ('DFS') and Installation License environmental approval.

Managing Director, Rafael Moreno commented:

"The strong support for this Placement, particularly from leading global institutional investors across North America and Europe, represents a clear endorsement of the strategic importance of the Colossus Rare Earth Project and the significant progress our team has achieved as we advance toward FID in Q3 2026. We are also pleased to welcome a number of highly regarded new institutions to the register alongside the continued support of our existing shareholders.

With this financing, Viridis is exceptionally well positioned from a capital perspective. Combined with our existing strategic investment agreement and the project debt framework established with leading export credit agencies, we have significantly strengthened our balance sheet and are well funded to accelerate development activities and continue de-risking the pathway to production.

Importantly, we are already advancing key execution workstreams. The Company has completed the Expression of Interest process for EPCM contractors and is now progressing to the formal Invitation to Tender with a selected group of contractors. In parallel, we have issued requests for quotation for the four long lead items identified on the Project's critical and sub-critical path and expect to receive proposals shortly, positioning us to place POs for these items in July 2026.

This additional capital enables Viridis to bring forward execution activities earlier and further de-risk the critical path toward first production."

Placement

Viridis Mining and Minerals Limited (**'Viridis' or 'Company'**) is pleased to announce that it has secured commitments for a Placement to raise AU\$25 million from new and existing international and domestic institutional investors at AU\$1.90 per new fully paid ordinary share (**'New Share'**), via the issue of approximately 13,157,895 New Shares.

Proceeds from the Placement will be used for:

- Placement of POs for Long Lead Items;
- Award of EPCM Contract for the Colossus Project;
- Operating MREC Demonstration Plant at the Colossus Project in Brazil;
- Completion of the DFS for the Project;
- Further exploration and drilling in areas adjacent to the Project to test for additional mineralised zones;
- Advancement of Environmental Approvals;
- General working capital

Viridis is entering a catalyst-rich 6-month period as it accelerates towards FID in September 2026, as highlighted in Figure 1. Having recently received its Preliminary Environmental License and having completed its targeted ECA-led project debt framework, which includes formal support from EFA, EDC, Bpifrance and BNDES.

Proceeds from the Placement will fast-track essential technical and permitting workstreams, enabling Viridis to finalise offtake and financing discussions with a clear pathway to kick off early project execution activities in Q3 2026.

Placement Details

Euroz Hartleys Limited (ACN 104 195 057), Canaccord Genuity (Australia) Limited (ACN 075 071 466) and Bell Potter Securities Limited (ACN 006 390 772) acted as joint lead managers to the Placement and will receive a 6% brokerage fee on funds raised.

The Placement offer price of \$1.90 represents an 11% discount to the last close price of \$2.14 and 9% discount to the 30-day VWAP. The Placement will take place as a single tranche, and New Shares will be issued via the Company's placement capacity pursuant to ASX Listing Rules 7.1 and 7.1A.

INDICATIVE OFFER TIMETABLE	
Event	Time / Date
Placement Settlement	Wednesday, 25 March 2026
Expected Date of ASX Quotation of New Shares	Thursday, 26 March 2026

About Viridis Mining and Minerals

Viridis Mining and Minerals Limited is a resource exploration and development company with assets in Brazil, Canada and Australia. The Company's Projects comprise:

- The Colossus Project, with a Mineral Resource Estimate and Ore Reserve Estimate for Rare Earth Elements following completion of a Pre-Feasibility Study;
- The South Kitikmeot Project, where the Company intends to continue gold exploration;
- The Boddington West Project, which the Company considers to be prospective for gold;
- The Bindoon Project, which the Company considers to be prospective for nickel, copper and platinum group elements; and
- The Pochera and Smoky Projects, which the Company considers prospective for kaolin-halloysite.

Competent Person Statement

The Company confirms that it is unaware of any new information or data that materially affects the information included in the market announcements referred to in this release and in the case of estimates of Mineral Resources, Ore Reserves, Production Targets and forecast financial information that all material assumptions and technical parameters underpinning the estimates in the relevant referenced market announcements continue to apply and have not materially changed. To the extent disclosed above, the Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

All announcements referred to throughout can be found on the Company's website – viridismining.com.au.

Forward-Looking Statements

This announcement contains 'forward-looking information' based on the Company's expectations, estimates and projections as of the date the statements were made. This forward-looking information includes, among other things, statements concerning the Company's business strategy, plans, development, objectives, performance, outlook, growth, cash flow, projections, targets and expectations, mineral reserves and resources, results of exploration and related expenses. Generally, this forward-looking information can be identified by the use of forward-looking terminology such as 'outlook', 'anticipate', 'project', 'target', 'potential', 'likely', 'believe', 'estimate', 'expect', 'intend', 'may', 'would', 'could', 'should', 'scheduled', 'will', 'plan', 'forecast', 'evolve' and similar expressions. Persons reading this announcement are cautioned that such statements are only predictions and that the Company's results or performance may differ materially. Forward-looking information is subject to known and unknown risks, uncertainties, and other factors that may cause the Company's actual results, level of activity, performance or achievements to materially differ from those expressed or implied by such forward-looking information.

Not an Offer of Securities

This announcement has been prepared for publication in Australia and may not be released to US wire services or distributed in the United States. This announcement does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any other jurisdiction. Any securities described in this announcement have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act and applicable US state securities laws.
