What this means

Programmable Money

Smart contracts give money rules for BNPL schedules, auto-savings, milestone-based payouts. No central bank is needed.

Buy now, Pay Later (BNPL)

Stablecoin-backed merchant settlement converted to fiat in real-time. Smart contracts enforce BNPL repayment schedules, auto-savings, and milestone-based payouts.

Stablecoins as Payment Rails

Best routing picks the cheapest rail automatically. The user sees one button.

Global, 24/7, No Intermediaries

Traditional FX: 3-5 days, 3-7% fees. Stablecoin transfer: <10 seconds, <0.1%. Creating the consumer interface for this new global money layer.
