Submer Deal Unlocks GPU Upside for Activeport

Activeport Group Ltd (ASX: ATV) ("Activeport" or "the Company") is pleased to announce that Submer Technologies, S.L. (**Submer**) has acquired Activeport's GPU software partner, Radian Arc Limited (**Radian Arc**). The transaction strengthens Radian Arc's growth outlook and is expected to increase demand for Activeport's GPU software, supporting future licence and recurring revenue.

- **Submer has acquired Radian Arc, forming a full-stack AI infrastructure company.**

- **The acquisition is expected to accelerate Radian Arc's cloud gaming growth, powered by Activeport's GPU software.**

- **Activeport retains a strategic equity stake in the combined business valued at over $1M.**

- **Activeport's long-term partnership continues, with its GPU orchestration and streaming software powering Radian Arc's cloud gaming platform.**

- **Expanded cloud gaming and edge GPU deployments will increase demand for Activeport's software, boosting licence and recurring revenue from Radian Arc.**

Submer, founded in Barcelona, Spain, is a leading global provider of liquid immersion cooling solutions and full-stack AI datacentre infrastructure for AI and GPU workloads.

The acquisition combines Submer's high-density AI datacentre technology with Radian Arc's distributed GPU edge computing platform to create an integrated, full-stack AI infrastructure platform spanning hyperscale datacentres to telco edge networks, supporting sovereign AI, low-latency GPU workloads and cloud gaming services.

Activeport and Radian Arc maintain a long-standing strategic partnership with Activeport's GPU orchestration and streaming software underpinning Radian Arc's cloud gaming platform and enabling the automated deployment of distributed GPU resources across telecommunications networks and edge data centres.

The transaction materially strengthens the ecosystem for Activeport's technology and positions the Company to capture more software license revenue as Radian Arc accelerates its growth under Submer's ownership.

Activeport and Radian Arc have collaborated for several years to enable telecommunications operators to deploy GPU-based infrastructure for cloud gaming. The partnership has generated tangible commercial outcomes and will continue to do so under this new ownership.

 Peter Christie, Chairman and CEO of Activeport said, *"I'm very excited for David Cooke, Radian Arc's founder and CEO to have reached this milestone and congratulate the entire Radian Arc team on this outstanding result. Radian Arc is positioned to rapidly expand its cloud gaming deployments under Submer's ownership and I expect this transaction to drive meaningful growth in demand for Activeport's GPU orchestration and streaming software."*

The Company is confident the strengthened ecosystem will generate additional commercial opportunities for Activeport's software platform as Submer and Radian Arc expand their AI and GPU infrastructure footprint worldwide.

About Activeport

Activeport develops software for telecommunications providers and data centre operators. Activeport's orchestration software cloud-enables traditional network infrastructure to improve the customer experience using self-service portals to automate service provisioning, accelerate 'time to live' for new services and enable flexible pay-per-use consumption. Activeport offers comprehensive orchestration features covering last mile, core network, data centre infrastructure and GPU's for cloud gaming and AI.
