

ASX Announcement

MLG SECURES NEW CONTRACTS AND EXTENSIONS DELIVERING \$20 MILLION IN ANNUAL REVENUE

- Extending services for a further five years at Gruyere
- Providing mobile crushing services to Northern Star
- New civil construction project for endurance mining

Integrated mining services and resource asset management company, MLG Oz Ltd (ASX: MLG) (MLG or the Company), is pleased to announce the awarding and extension of three contracts with a **combined annual revenue of approximately \$20.0 million**, with Gruyere Mining Company Pty Ltd (Gruyere), a wholly owned subsidiary of Gold Fields Ltd (NYSE/JSE: GFI), Northern Star Resources Ltd (Northern Star) (ASX: NST) and Endurance Mining Pty Ltd (Endurance Mining).

GRUYERE– CONTRACT EXTENSION

MLG has secured a **five-year extension** (three-year contract plus two, one year extension options) of its road maintenance and site services contract at the Gruyere Gold Mine operation, circa 200km east of Laverton in Western Australia.

The contract extension is expected to generate approximately **\$4.0 million in revenue per annum** and reflects MLG's established on-site presence at the Gruyere Mine and the quality of services delivered to Gold Fields over time.

NORTHERN STAR – NEW MOBILE CRUSHING AWARD

The Company has also been awarded a contract to deliver mobile crushing services across Northern Star's Jundee, Bronzewing, Thunderbox, Carosue Dam, Kanowna Belle and South Kalgoorlie operations, spanning both the Yandal and Kalgoorlie production centres.

The contract represents a meaningful expansion of MLG's existing relationship with the top-tier producer, with MLG to supply and operate fully-maintained mobile crushing and screening plants, with associated personnel, to deliver campaign-based services across Northern Star's sites, effective immediately through to September 2028.

ENDURANCE MINING – NEW CIVIL CONSTRUCTION PROJECT

Separately, MLG has received a letter of intent for the awarding of a new civil construction project with Endurance Mining, a privately owned Western Australian resources company. The project is expected to generate approximately **\$6.0 million in revenue** over a three-month period, commencing in April 2026.

The scope of works includes:

- Embankment earthworks
- Construction of drainage systems
- Installation of tailings and decant pipelines
- Construction of access roads, ramps, laydowns and bunding

Acting Chief Executive Officer, Mark Hatfield, said: “We are fortunate to win this additional work with the calibre of companies such as Gold Fields, Northern Star and Endurance Mining, and further reflects MLG’s ability to build and maintain long-term, trusted relationships with its clients.

“The extension of services at Gruyere and expansion of our crushing and screening across Northern Star’s Yandal and Kalgoorlie production centres is a really important outcome for MLG.

“The awarding of a new civil construction project with Endurance Mining – our first with this company – extends our base of clients. We look forward to working alongside the Endurance team to support the development of their asset.”

Authorised for release by the Board of Directors.

About MLG Oz Limited

MLG Oz Limited (ASX: MLG) is a Kalgoorlie-based integrated mining services and resource asset management company, founded by Managing Director Murray Leahy. MLG delivers tailored solutions to mining operations, primarily focused on supporting its clients’ ore processing facilities across gold, iron ore and other base metals in Western Australia and the Northern Territory.

MLG offers a comprehensive range of services under an integrated business model, often within a single contractual framework. These include Civil & Construction, Crushing & Screening, Bulk Haulage & Site Services, and the supply of Open Pit Mining & Construction Materials from MLG’s strategically located regional quarries.

The Company’s key capabilities include build, own, and operate models, contract crushing and screening services, as well as crusher feed and material management.

Services extend to include construction, road maintenance, rehabilitation work, vehicle maintenance, and machinery and labour hire.
