### About Underwood Capital

Underwood Capital Limited (“Underwood Capital”, “UWC” or the “Company”) (ASX: UWC) is an Australian-listed, specialist investment company that has traded on the ASX since 2015.

UWC’s investment manager is HD Capital Partners Pty Ltd (ACN 664 583 537) (“HD”). HD was appointed to that role for a term of five years commencing 1 July 2023.

HD is a value-oriented, fundamental bottom-up stock picker focussing primarily on opportunities in listed small cap equities markets including:

- undervalued, well-managed growth companies, often founder-led, that are off the radar of the broader investment community;
- undervalued securities where HD seeks to realise value; and
- situations that are dependent on a specific corporate action, such as mergers, liquidations, tender offers and divestments.

### UNDERWOOD CAPITAL NEWS

#### UWC Financial Results for March 2026

During March 2026, UWC's Net Asset Value (before provision for tax) decreased by 6%. The decrease was primarily due to a \$1.1m revaluation loss<sup>1</sup> on UWC's portfolio of listed Australian small cap shares.

UWC determines its valuation of Weed Me by:

- calculating a blended EV/NRM using the end of month market valuations of various listed Canadian companies, each of which UWC considers to be broadly comparable to Weed Me;
- determining what the value of UWC's Weed Me holding would be if that same blended EV/NRM was applied to Weed Me's 12 month historical revenues as most recently advised by Weed Me to UWC; and
- applying a 15% discount to that derived value, to account for Weed Me being unlisted.

UWC's shareholders should always be mindful that:

- UWC's NTA is constantly fluid, and UWC's reported month-end NTA is a point-in-time assessment only;
- for so long as Weed Me remains a large part of UWC's portfolio, UWC's NTA will be affected by fluctuations in the Weed Me valuation; and
- management bases its judgements, estimates and assumptions on historical experience and on other various factors, including expectations of future events which management believes to be reasonable under the circumstances<sup>2</sup>. Because Weed Me is unlisted, the fair value which UWC ascribes to its Weed Me holding is necessarily an estimate, using the valuation techniques described above to measure the fair value of the investment.

#### Receipt of final payment for ETG

In September 2024 UWC sold its stake in Emerging Therapeutics Group Pty Ltd (ETG) for \$3.8m. The agreed consideration comprised:

- a) cash of \$3.5m which was paid on 25 September 2024; and
- b) a further cash amount of \$0.3m payable in March 2026.

The scheduled balance of \$0.3m was received by UWC in March 2026.

#### Investment Manager Update<sup>3</sup>

Markets sold off aggressively in March due to fears around fuel shortages and the war in Iran.

Our approach is to look through the fear and uncertainty, and find businesses we can be confident will perform through the cycle, and be significantly stronger and more profitable in the medium term.

The market could keep falling, but that is always the case. Some of the stocks we have been buying have already fallen - 75% from peak, in fact much of the pain has been felt in growth/quality names.

We are happy with the companies we hold and are selectively topping up or adding new names as opportunities arise. We are effectively fully invested but do have cash available should markets continue to decline.

The permanent capital nature of Underwood Capital shines during periods like this and we expect to look back in several years and view this period as an attractive buying opportunity.

Note:

The reference to AAA ETF refers to the investment in higher yielding cash on call deposits via an investment in ASX:AAA.

UWC's investment in Weed Me comprises 4.24m shares representing approximately 13% of Weed Me's issued capital (as at month end, UWC had ascribed to these shares a valuation of CAD1.86 per share).

2. Valuation of Assets

UWC values its investments by applying the following principles:

- Listed securities – the book value is based on the closing share prices for public companies at period end.
- Unlisted equity securities – Generally, UWC's preference is to value its investment in Weed Me by applying an Enterprise Value to Net<sup>1</sup> Revenue Multiple (EV/NRM) provided these valuations are materially consistent with any recent material capital raises by Weed Me. The applied multiple of 1.1 (prior month: 1.1) is derived from market valuations of various listed Canadian companies, each of which UWC considers to be broadly comparable to Weed Me. The applied multiple represents the average of these multiples which range between 0.7 and 1.6. UWC also applies a liquidity discount of 15% to the EV/NRM valuation, to account for Weed Me's unlisted status. The Net Asset Value or NAV is calculated after deducting a provision for company tax on any net unrealised gains that may arise on such theoretical disposal. UWC does not hedge the carrying value of existing investments denominated in non-AUD currencies. UWC's financial statements are subject to statutory audit or review by UWC's independent auditor at 31 December and 30 June each year.

Note:

- All information within this release is unaudited unless stated otherwise.
- The book value includes shares, convertible notes, options, loans, warrants and accrued interest.
