

10 April 2026 | ASX RELEASE

## Tepa Project: Ministerial consent received for Ghana Prospecting Licences.

Orange Minerals NL (ASX: OMX) (“Orange” or “the Company”) is pleased to announce that it has received Ministerial consent under the Minerals and Mining Act, 2006 (Act 703) for the assignment of Tepa Gold Project Prospecting Licences, Mpasaso, Wioso and Ohiapae, to the Company’s wholly owned Ghanaian subsidiary, Hunsuyesi Resources Limited.

The approval follows a recommendation by the Minerals Commission and represents a key step in finalising the transfers of the Tepa Gold Project licences, with completion of the transfers remaining subject to formal notice and registration processes. Receipt of Ministerial consent supports Orange’s entry into Ghana and provides a clear pathway towards advancing exploration activities at Tepa, which lies along strike from Asante Gold’s Bibiani and Chirano mines.

Figure 1. The Tepa Gold Project lies within a multi-million-ounce gold district.

This ASX announcement has been authorised for release by the Board of Orange Minerals NL.

**About Orange Minerals NL**

Orange Resources NL (ASX: OMX) is an Australian exploration company focused on polymetallic (Zn–Pb–Cu–Ag–Au) opportunities in Western Australia’s Pilbara region and New South Wales’ Lachlan Fold Belt. Additionally, the company is preparing to commence exploration activities at the Tapa Gold Project in Ghana’s prolific Sefwi belt following completion of licence transfers.

Orange Minerals aims to progress both projects through systematic, data-driven exploration supported by clear technical reporting and a disciplined sequence of upcoming milestones.
