

New Convertible Notes Offering and Concurrent Repurchase

A\$300m new convertible notes offering and concurrent repurchase of up to 100% of the existing 2029 convertible notes

- New Hope Corporation Limited ABN 38 010 653 844 (ASX: NHC) (**New Hope** or the **Company**) today announces that it has launched an offering of A\$300 million of senior unsecured convertible notes due 2032¹ (**New Notes**) (**Offering**).
- The Offering will allow New Hope to fund a concurrent repurchase (**Concurrent Repurchase**) of up to 100% of its existing A\$300 million senior unsecured convertible notes due 2029² (**Existing Notes**). The balance will be used to fund any future redemption or repurchase of any remaining Existing Notes and for general corporate purposes consistent with the Company's strategy.
- **New Hope CFO, Rebecca Rinaldi, commented:**

"We are pleased to return to the convertible bond market for the third time. The convertible bond market continues to be an important and cost-effective component of our capital structure. Through this transaction, we are proactively refinancing our 2029 notes at improved terms, extending our debt maturity profile and reducing our financing costs. Consistent with our prior issuance, New Hope may cash settle any conversions, providing us with flexibility to manage any future dilution that may arise."

New Notes Offering

The Offering is being marketed to eligible investors, with the final terms of the New Notes to be determined via a book-build process expected to be completed prior to market open tomorrow.

New Hope will apply for the New Notes to be listed on the Official List of the Singapore Exchange Securities Trading Limited (**SGX-ST**). Where a noteholder exercises its conversion rights, importantly, New Hope may satisfy the conversion value in cash or by the issue of fully paid ordinary shares in New Hope (**Ordinary Shares**). A summary of the key terms of the New Notes is set out in the Appendix of this announcement.

Jefferies (Australia) Pty Ltd (**Jefferies**) is acting as Sole Global Coordinator and Jefferies and Jarden Australia Pty Ltd (**Jarden**) are acting as Joint Lead Managers on the Offering (**Joint Lead Managers**).

1) New Notes investors have a put option on 22 April 2030
2) Existing Notes investors have a put option on 12 July 2027

New Notes Offering and Concurrent Repurchase

Concurrent Repurchase

Concurrent with the Offering, New Hope intends to repurchase up to 100% of the Existing Notes (outstanding principal amount of A\$300m).

New Hope is undertaking a reverse book-build process to receive indications of interest from holders of the Existing Notes (that are not, and are not acting on behalf of, persons located or resident in the United States) willing to sell their Existing Notes in return for cash. The repurchase amount and price will be determined by the reverse book-build process. New Hope will retain absolute discretion on any repurchase allocations in relation to holders of Existing Notes who are not participating in the Offering.

If the Concurrent Repurchase results in the repurchase and cancellation of more than 85% of the Existing Notes, New Hope intends to exercise its right to redeem the remaining Existing Notes at their principal amount (plus accrued and unpaid interest to the relevant date fixed for redemption) in accordance with their terms and conditions.

Concurrent with the launch of the Existing Notes in 2024, the Company purchased certain privately negotiated cash-settled call options (**Existing Capped Call Options**). Following the Offering of the New Notes and the Concurrent Repurchase, the Company may choose to amend the terms of the Existing Capped Call Options, including the notional, tenor or strike prices. The Company may also choose to purchase additional privately negotiated cash-settled call options in order to obtain an economic hedge up to a cap price in relation to the New Notes.

Delta Placement and Trading Activities

In connection with, and to facilitate some or all of the hedging activity that may be executed in relation to the Offering and Concurrent Repurchase, the Sole Global Coordinator and/or its designated affiliates may run a delta placement (**Delta Placement**), as required. If conducted, the manner of conducting the Delta Placement will be determined by the Sole Global Coordinator in consultation with the Company. Should the Delta Placement take place, it will be conducted at a price of A\$5.39, being today's closing price of Ordinary Shares. The Delta Placement price will be used as the reference share price to determine the initial conversion price of the New Notes.

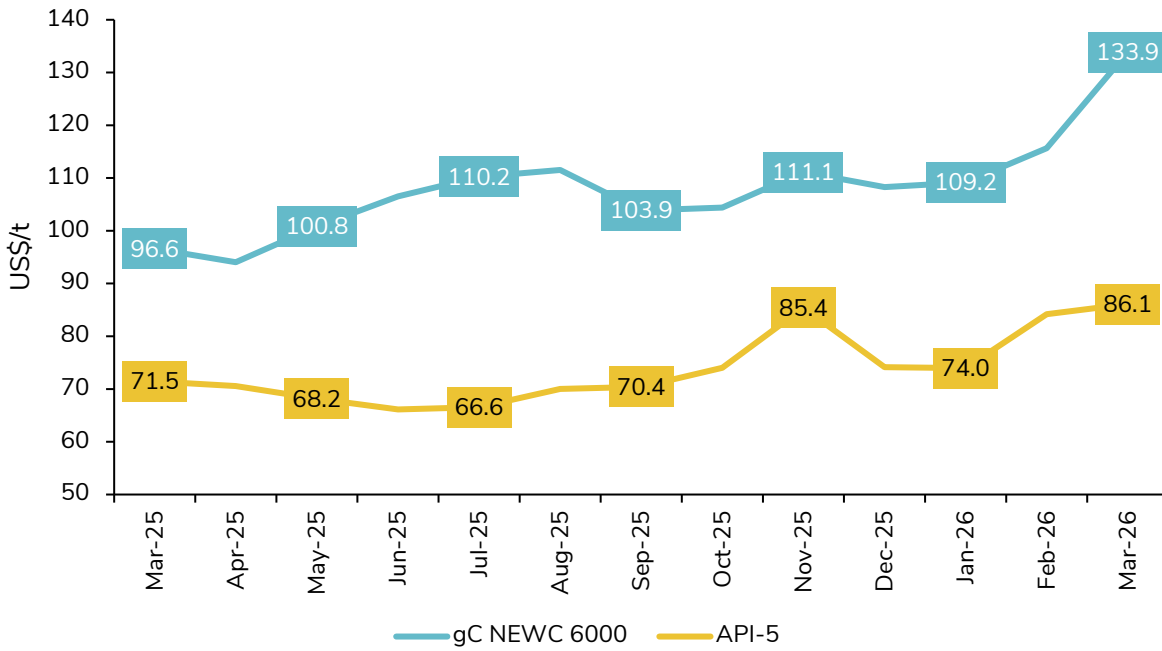

Delta Placement activities together with any New Notes, Existing Notes and other Ordinary Shares acquired by the Sole Global Coordinator or its respective affiliates in connection with its ordinary course sale and trading, principal investing, hedging and other activities, may result in the Sole Global Coordinator or its affiliates having a substantial exposure to the Company.

New Notes Offering and Concurrent Repurchase

Current Trading Update

Since late February 2026, thermal coal prices elevated due to the impacts to and volatility in global energy markets as a consequence of conflict in the Middle East, as shown in the graph below.

gC NEWC 6000 and API-5 historical pricing

Source: globalCOAL and Argus/McCloskey.

While periods of conflict escalation and de-escalation may occur, the Company anticipates that the impacts of and uncertainty related to the conflict will continue to influence energy markets beyond immediate events.

The Company's production and cost performance is presently tracking well within its published guidance range for FY26.
