

21 April 2026 - ASX Announcement

Quarterly Activities Report for the Period Ended 31 March 2026

DeSoto Resources Limited (ASX:DES) (“DES” or the “Company”) is pleased to present its Quarterly Activities Report for the period 1 January 2026 to 31 March 2026 (the “Quarter”).

Highlights

- Secured 532km² of new ground in southwest Siguiiri Basin with acquisition of Yarakoura, Doufila, Moussaya, Dalaban, Woussoubadou and Branama Projects from United Mining SARL. The projects consolidate DeSoto's southwest project grouping to 687km² of contiguous exploration tenure.
- The new projects consolidate the Company's southwest project grouping with 687km² of near-contiguous exploration ground. The new Projects are located along strike and within the “Siguiiri Gold Mineralisation Trend”.
- Identified extensive 9km-long active artisanal gold mining zone at Koba Project. Dump sampling returned high grades up to 15.2g/t Au. Initial soil sampling completed to define drill targets.
- DeSoto is now exploring across more than 1,000km² exploration programs concurrently with BLEG, soil sampling and infill soil sampling being undertaken across 11 permits, including Dadjan and Tolé, following up on maiden 2025 drilling that confirmed a large gold system.
- Broad permit-wide Soil sampling programs at Koba and Nerekoro Sud are currently being infilled around zones of gold anomalism and artisanal workings.
- First pass regional-scale soil sampling has been completed across Kassa and Mini, with infill targeting work to be completed in the coming weeks.
- The Company's portfolio approach (Fig. 1) to exploration is designed to produce a pipeline of drill targets, with trenching, power auger and/or air core drilling programs expected to commence in the coming weeks.
- Maintained extensive 100%-owned ground position in Siguiiri Basin and Gauoul with additional project acquisitions and permit applications. Siguiiri portfolio now totals 24 projects covering over 1,900km².
- Cash balance of A\$11M at 31 March 2026. Well-funded to advance process-driven exploration programs.

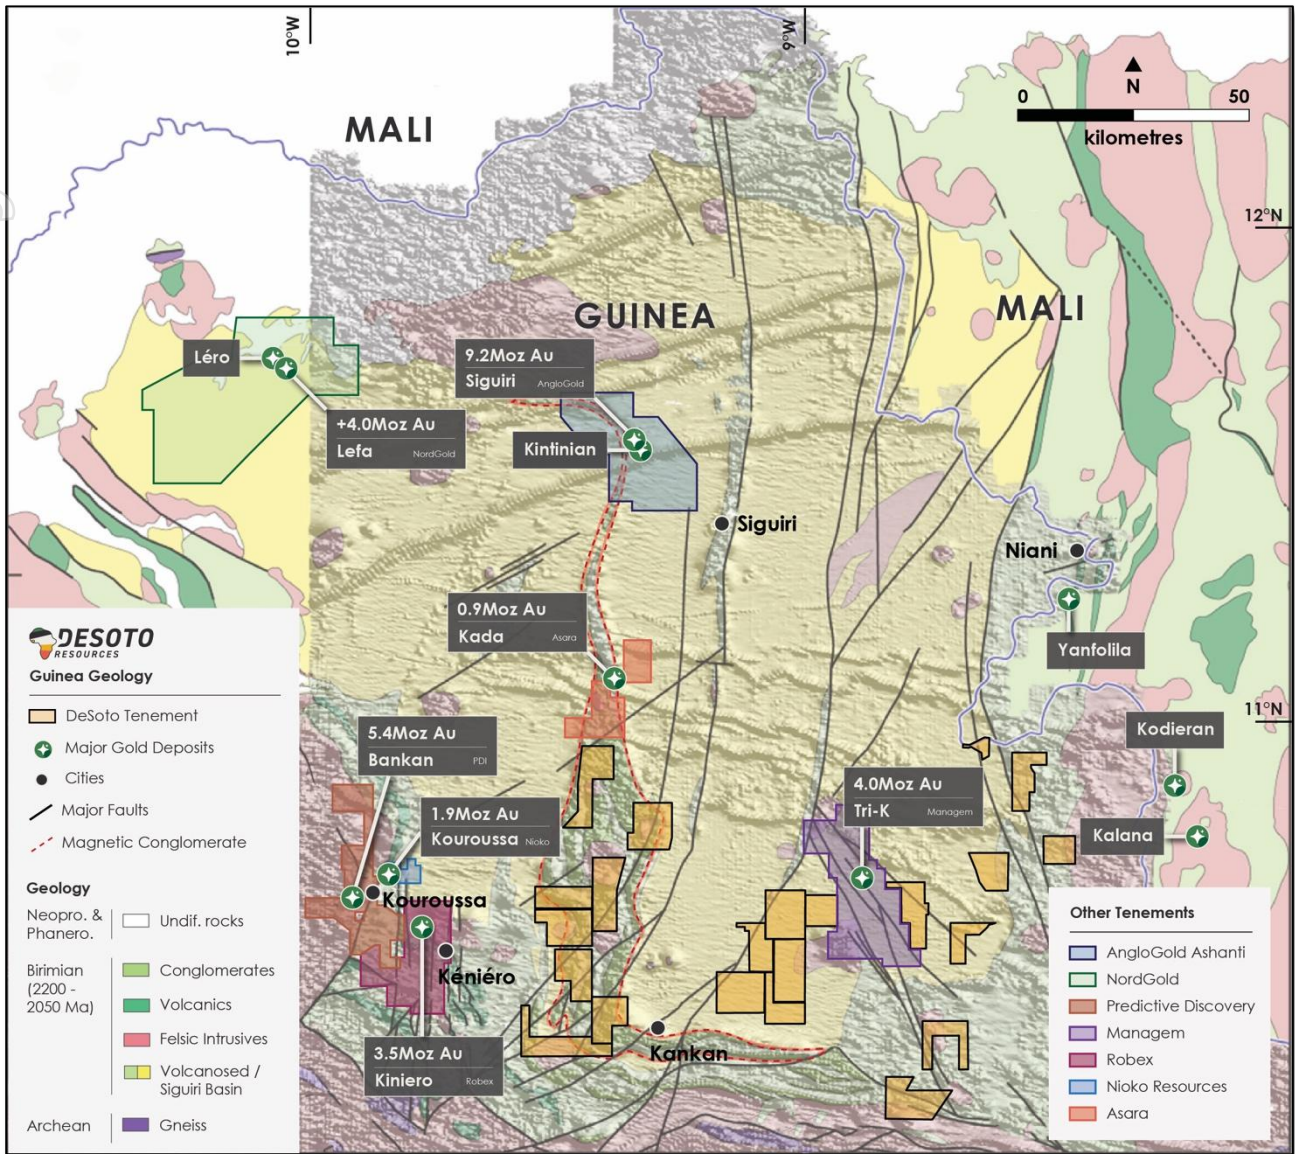

Figure 1 - DeSoto's portfolio of Applications, Reconnaissance and Exploration Authorisations, located in the Siguiri Basin, Guinea.

Guinea – Siguiri Basin

During the March 2026 Quarter, DeSoto continued to consolidate its strategic ground position in the Siguiri Basin. The Company acquired an additional 532km² through an agreement with United Mining SARL, comprising the Yarakoura, Doufila, Moussaya, Dalaban, Woussoubadou and Branama Projects in the southwest Siguiri Basin, increasing DeSoto's contiguous project area in the southwest to 687km².

At the Koba Project in the south-central Siguiri, initial field reconnaissance identified a significant 9km-long zone of active artisanal workings up to 1km wide (Figure 2.).

Dump sampling returned high-grade assays up to 15.2g/t Au. DeSoto completed an initial soil geochemistry program to define priority drill targets.

Figure 2 – Artisanal workings identified at Koba, including mechanised mining, over more than 9km.

Across DeSoto's broader south-central project grouping, the Company recommenced exploration with BLEG sampling, soil sampling and power auger drilling. Programs are underway on 11 permits including at the Dadjan and Tolé Projects, following up on the maiden drilling which confirmed a large gold system.

Systematic exploration also continued at the Timbakouna Project, where DeSoto is conducting permit-wide soil sampling on a 200m x 200m grid to generate targets.

During the quarter, DeSoto maintained an active presence across its extensive portfolio to ensure good standing of its permits. Additional acquisitions and applications grew the 100%-owned project pipeline to 25 permits spanning over 1,900km².

Mining Indaba

Chairman Paul Roberts attended the Mining Indaba conference in Cape Town during February. As Africa's largest mining investment event, Indaba provided an ideal platform for DeSoto to showcase its highly prospective Guinea portfolio and disciplined exploration approach to the global mining and investment community.

Additionally, DeSoto management met with representatives from Fortuna Mining Corp (TSX:FVI), the Company's Exploration Alliance and Joint Venture partner in the Siguiri Basin, to review progress and align on upcoming exploration activities.

Northern Territory – Spectrum and Fenton Projects

No work was completed on the Company's Northern Territory Assets, with exploration activities focused on its Siguiri Basin Projects. The Company will seek divestment and/or JV opportunities for its Northern Territory portfolio.

Corporate

Financial Position

As per ASX Listing Rule 5.3.1, a summary of the Company's exploration activities for the quarter is contained herein, with exploration expenditure incurred during the period of circa \$1,252k.

Project	Cash Expenditure \$'000
Siguiri Basin & Goual Gold Projects	1,237
Pine Creek Projects	15
Total	1,252

As per ASX Listing Rule 5.3.2, there were no substantive mining production and development activities undertaken during the quarter.

DeSoto is well funded with cash of ~\$11M at 31 March 2026.

DeSoto continues to assess various project opportunities on an ongoing basis.

As per ASX Listing Rule 5.3.5 and as disclosed in Sections 6.1 and 6.2 of the Appendix 5B, the company paid \$111k to related parties, being \$70k for Directors' salaries, \$33k for non-executive directors' fees and \$8k for other corporate support costs.

Tenement Schedule per ASX listing Rule 5.3.3:

Mining tenements held during the quarter and their location:

Guinea: Siguiri Basin and Gauoul Projects

Project Name	Tenement ID	Holder	Type	Area (km ²)
Dadjan	22621	Societe ID Gold SARL	Recherche	98.5
Tole	22627	Societe Sofac SA	Recherche	50.8
Kassa Est	23395	Societe Sofac BD Ressources Mining SARL	Reconnaissance	99.6

Moussaya	24876	Syncerus Gold SARLU	Reconnaissance	93.8
Sabere	23823	Angex Services	Reconnaissance	99.956
Natatigare	23732	Angex Services	Reconnaissance	99.936
Kakony	23733	Angex Services	Reconnaissance	98.61

*Note to the table: Since 2021, the Republic of Guinea has undertaken major reforms in the mining sector, notably the modernisation and cleansing of the mining cadastre, in order to improve management and transparency in line with international best practices and ESG standards. This process has resulted in the withdrawal of permits and authorisations that were no longer compliant with the provisions of the Mining Code and its implementing regulations. When DeSoto acquired the ANGEX properties in February 2025 it was aware that as part of the Project packages that the Nérékoro Sud, Koba and Mini Projects would be revoked, but likely re-acquired by DeSoto. Subsequent to this, the Company has received a comfort letter from the Minister of Mines assuring the Company of the Ministry of Mines' full support for the development of its Projects. These renewals are awaiting processing in accordance with current procedures. In light of the investments already made under the Technical Partnership, the Ministry understands the delays and in order to reassure partners for the financing of exploration work, in line with Article 78 of the Mining Code, the Minister has authorized Groupe Wassolon Mining and its partners, DeSoto Resources Ltd and ANGEX Services SARLU, to continue exploration work on the aforementioned permits and authorizations until completion of the cadastre modernization and regularization process.

Northern Territory Projects

TENEMENT No.	Location	Interest %	Holder

COMPETENT PERSONS STATEMENT

The information in this report that relates to exploration results is based on and fairly represents information and supporting documentation prepared by Ms Rebecca Morgan. Ms Morgan is a consultant to the company, is a member of the Australian Institute of Geoscientists and has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Ms Morgan consents to the inclusion in this report of the matters based on this information in the form and context in which they appear.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
