REVIEW OF OPERATIONS

KOLOSORI NICKEL PROJECT (80%)

The Kolosori Nickel Project (“Kolosori Project”) is a direct shipping ore nickel laterite project located on Isabel Island in the Solomon Islands which was developed through to production during the Period.

Kolosori Operations

The operation had been affected by a combination of factors in late June/early July 2024 from low machine availability, bad weather which also caused degradation of the haul road, which together continued to impact the mining schedule at the Kolosori Nickel operation.

The ongoing effect of these issues on the operations is that the shipment scheduled for early July was then delayed until late July/early August 2024. This meant that additional working capital was required for the Project.

After a review of the Kolosori operation in early July 2024, the Company in consultation with its Kolosori project financier Glencore International AG (“Glencore”) agreed that the best course of action in the short term was to cease operations and review the project in light of the operational issues and the weak nickel price outlook in the short to medium term.

By the end of August 2024, the mining contractor had unavoidably been demobilised from site.

During the last quarter of 2024, a local mining contractor was re-engaged to return to site to ensure compliance for the operation under its mining licence. Six shipments of nickel ore were made between December 2024 and December 2025 to assist in the funding of those site activities.

Glencore Financing

Glencore provided a US\$22 million secure loan facility (“Loan Agreement”) for the development of the Kolosori Nickel Project. Pacific Nickel has worked in close collaboration with Glencore since the commencement of production in late December 2023. As disclosed on 13 June 2024, Pacific Nickel has not yet commenced repayment of the Glencore loan as originally anticipated and Glencore has reserved its rights with regard to the project debt. During the period August to October 2024, the Group made additional drawdowns totalling A\$4.517 million (US\$2.950 million) under the same facility.

Trading Halt and Suspension on the ASX

The Company entered into a trading halt on the ASX on 16 July 2024, followed by a voluntary suspension on 18 July 2024, while it held discussions with Glencore regarding project financing in light of operational challenges and a weak short- to medium-term nickel price outlook. On 23 June 2025, the securities of PNM were suspended from quotation by the ASX under Listing Rule 17.3.1. The suspension will remain in place until the ASX is satisfied that PNM complies with the Listing Rules, including Rules 12.1 and 12.2, and that it is otherwise appropriate for the Company’s securities to be reinstated to quotation.

The ongoing liquidity, working capital and continued financial viability of the Company (and the Project) is dependent on resolving the funding arrangements with Glencore. In the Company’s opinion, continued trading of the Company’s securities is likely to be materially prejudicial to its ability to finalise those discussions with Glencore

The timetable for coming out of suspension is predicated on the outcome of the matters noted above.

JEJEVO NICKEL PROJECT (80%)

The Jejevo Nickel Project (Jejevo Project) is an advanced stage direct shipping ore nickel laterite project with excellent potential for development.

The Company holds the Jejevo Project via an 80% equity interest in Pacific Nickel Mines Varej Limited (PNMVL), which holds Prospecting Lease PL 01/18 located on the south coast of Santa Isabel Island in the Solomon Islands. The remaining 20% is owned by land owners. The Jejevo Project is located within the PL 01/18 project area. In December 2022, PNMVL applied for a Mining Lease over PL 01/18. No work was conducted at the Jejevo Nickel Project during the period.

The JORC mineral resource estimate at the Jejevo Project is 7.82 million tonnes at 1.46 % Ni at a 1.2% Ni cut off.

REVIEW OF OPERATIONS

ROYALTIES

The Group retains a 2% Net Smelter Return on gold produced from future underground operations at the Lorena Gold Project, near Cloncurry.

REVIEW OF OPERATIONS

JORC COMPETENT PERSON STATEMENT

The information in this report that relates to Exploration Results, Mineral Resource estimates and Exploration Targets is based on, and fairly represents, information and supporting documentation prepared by Mr Stuart Hutchin, a Member of the Australian Institute of Geoscientists. Mr Hutchin is a full-time employee of Mining One Consultants and has sufficient experience which is relevant to the style of mineralisation and type of deposit and to the activity which they are undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Hutchin consents to the inclusion in this report of the matters based on this information in the form and context in which it appears.

CAUTIONARY STATEMENT

Definitive Feasibility Study outcomes, production target and forecast financial information referred to in the study are based on accuracy levels for technical and economic assessments that are sufficient to support an estimation of Ore Reserves.

An updated JORC compliant Mineral Resource Estimate (MRE) for the Project was released on 23 November 2022. The initial Ore Reserve Statement for the Project dated 31 January 2023 is appended to the Company's ASX Announcement 1 February 2023 "Kolosori Nickel Project Definitive Feasibility Study Delivers Highly Attractive Economics". Pacific Nickel confirms that it is not aware of any new information or data that materially affects the information included in these releases. All material assumptions and technical parameters underpinning the MRE and the Ore Reserve continue to apply and have not materially changed.

A.B.N 86 075 613 268

**CONSOLIDATED FINANCIAL REPORT
FOR THE FINANCIAL YEAR ENDED 30 JUNE 2025**

This financial report is for the consolidated entity consisting of Pacific Nickel Mines Limited and its subsidiaries. The financial report is presented in Australian currency.

Pacific Nickel Mines Limited is a company limited by shares, incorporated and domiciled in Australia. Its registered office and principal place of business is:

Pacific Nickel Mines Limited
Level 4
283 George Street
Sydney NSW 2000

A description of the nature of the Group's operations and its principal activities is included in the review of operations in the directors' report.

The financial report was authorised for issue by the directors on 20 April 2026. The Directors have the power to amend and reissue the financial report.

Through the use of the internet, we have ensured that our corporate reporting is timely, complete, and available globally at a minimum cost to the company. All ASX releases, financial reports and other information are available on our website: www.pacificnickel.com

DIRECTORS' REPORT

Your directors present their report on the consolidated entity (referred to hereafter as the Group) consisting of Pacific Nickel Mines Limited (referred to hereafter as the Company) and the entities it controlled at the end of, or during, the year ended 30 June 2025.

BOARD OF DIRECTORS

The names and positions of the directors of the consolidated entity in office during the financial year and until the date of this report are set out below. Directors were in office for this entire period unless otherwise stated, are:

Terry Cuthbertson

Non-Executive Interim Chairman

Mr Cuthbertson is a qualified Chartered Accountant and holds a Bachelor of Business Degree with extensive corporate finance expertise, having advised several businesses and government organisations in relation to mergers, acquisitions and financing. He was formerly a Partner of KPMG Corporate Finance and NSW Partner in Charge of Mergers and Acquisitions, where he coordinated government privatisations, mergers, divestitures and public offerings on the ASX for the New South Wales practice. He is the Non-Executive Chairman of Austpac Resources NL and Non-Executive Director of Mint Payments Limited.

Geoff Hiller

Executive Director and CEO (Resigned 9 October 2024)

Mr Hiller is a mining/civil engineer with over 25 years of mining industry experience including feasibility, financing, development and construction of projects. Mr Hiller holds a Bachelor of Engineering Mining (Hons) from the University of Melbourne, a Bachelor of Civil Engineering (Hons) from the University of Sydney and MBA from the Australian Graduate School of Management (University of New South Wales). Mr Hiller resigned the Chief Executive Officer of Pacific Nickel Mines Limited and was a Non-Executive Director of Southern Palladium Limited (SPD.ASX) (resigned 10 June 2024) and Austpac Resources NL (resigned 15 September 2024).

Gary Stewart

Non-Executive Director (Appointed 29 November 2024)

Gary Stewart serves as Principal of GS Solicitors. With over 35 years of legal and corporate experience, including as company secretary and director for several ASX-listed entities.

Gary holds Bachelor of Laws first admitted as a solicitor in 1988. He has played a key role in guiding the firm through regulatory, governance, and client-facing challenges, and is committed to upholding high standards of legal and ethical practice.

Robert Thomson

Non-Executive Director

Mr Thomson is a Mining Engineer with extensive experience (gold and base metals including nickel sulphides) in site operations as well as the successful exploration, feasibility, financing and development of nine exploration projects into sustainable mining operations and businesses in Asia, Africa and Australia. Mr Thomson holds a Bachelor of Mining Engineering, a MBA and is a Fellow of the AusIMM. As a former MD/CEO, with three companies, he also has extensive corporate and industry experience with local and international mining companies as a director of publicly listed companies on the ASX and formerly on the AIM Exchange and the TSX Venture Exchange. He is a founding Director and currently the Non-Executive Director of dual listed Southern Palladium Limited (SPD.ASX, SDL.JSE) and Non-Executive Director of unlisted Bayrock Resources Limited.

James Dean ACIP

Non-Executive Director (Resigned 15 November 2024)

Mr Dean is a Corporate Advisor and Professional Investor with over 30 years professional experience in the finance industry and investment in mining, construction equipment, property development, feature film and biotech. Most of his experience has been related to evaluating the operational and financial performance of numerous businesses and then aptly negotiating and matching risk profiles with investment criteria. For more than 25 years he has held fiduciary positions with regard to shareholders and beneficiaries of various investment vehicles. He is extensively travelled and possesses a worldwide network of business collaborators.

DIRECTORS' REPORT

COMPANY SECRETARY

On 2 July 2024, Mr Andrew J. Cooke resigned as Company Secretary of Pacific Nickel Mines Limited and was replaced by Mr Gary Stewart.

Mr Stewart is a solicitor with over 30 years of corporate experience, including as company secretary for several ASX-listed entities.

DIRECTORS' MEETINGS

The following table sets out the number of directors' meetings (including meetings of committees of directors) held during the financial year and the number of meetings attended by each director (while they were a director or committee member).

	Board of Directors		Audit Committee		Remuneration Committee	
	Eligible to Attend	Attended	Eligible to Attend	Attended	Eligible to Attend	Attended
Mr T Cuthbertson	7	7	1	1	-	-
Mr R Thomson	7	7	1	1	-	-
Mr G Stewart (Appointed 29 November 2024)	2	2	1	1	-	-
Mr G Hiller (Resigned 9 October 2024)	3	3	-	-	-	-
Mr J Dean (Resigned 15 November 2024)	3	2	-	-	-	-

PRINCIPAL ACTIVITIES

The principal activity of the consolidated entity during the financial year was the development of nickel projects in the Solomon Islands.

No significant changes in the nature of the principal activities occurred during the financial year.

DIVIDENDS

No dividends have been paid or declared since the start of the financial year. The directors do not recommend the payment of a dividend in respect of the year ended 30 June 2025 (2024: Nil).

REVIEW OF RESULTS AND OPERATIONS

SOLOMON ISLAND NICKEL PROJECTS

Kolosori Nickel Project (80%) Solomon Islands

The Company owns an 80% interest in Pacific Nickel Mines Kolosori Ltd (PNMK), a subsidiary entity of the Company incorporated in the Solomon Islands, with the remaining 20% interest held by local landowners. On 14 September 2022, PNMK was granted a Mining Lease ML 02/22. The Kolosori Nickel Project ("Project") was developed during 2023 with the first shipment of nickel ore in late December 2023. During the first half of 2024, the Company was ramping up to full ore production of around 1.5mtpa. The major focus for the Company, during this weak nickel price, was to improve mining operations and production efficiencies to ensure that the Kolosori site can achieve at least two shipments per month during the dry season to achieve 1.5mtpa of ore shipped.

The operation had been affected by a combination of factors in late June/early July from low machine availability, bad weather which also caused degradation of the haul road, which together continued to impact the mining schedule at the Kolosori Nickel operation.

The ongoing effect of these issues on the operations is that the shipment scheduled for early July was then delayed until late July/early August. This meant that additional working capital was required for the Project.

REVIEW OF RESULTS AND OPERATIONS (CONTINUED)

After a review of the Kolosori operation in early July, the Company in consultation with its Kolosori project financier Glencore International AG ("Glencore") agreed that the best course of action in the short term was to cease operations and review the project in light of the operational issues and the weak nickel price outlook in the short to medium term.

By the end of August 2024, the mining contractor had unavoidably been demobilised from site.

During the last quarter of 2024, a local mining contractor was re-engaged to return to site to ensure compliance for the operation under its mining licence. Six shipments of nickel ore were made between December 2024 and December 2025 to assist in the funding of those site activities.

Glencore Financing

Glencore provided a US\$22m secure loan facility ("Loan Agreement") for the development of the Kolosori Nickel Project. Pacific Nickel has worked in close collaboration with Glencore since the commencement of production in late December 2023. As disclosed on 13 June 2024, Pacific Nickel has not yet commenced repayment of the Glencore loan as originally anticipated and Glencore has reserved its rights with regard to the project debt.

Trading Halt and Voluntary Suspension on the ASX

The Company entered into a trading halt on the ASX on 16 July 2024, followed by a voluntary suspension on 18 July 2024, while it held discussions with Glencore regarding project financing in light of operational challenges and a weak short- to medium-term nickel price outlook. On 23 June 2025, the securities of PNM were suspended from quotation by the ASX under Listing Rule 17.3.1. The suspension will remain in place until the ASX is satisfied that PNM complies with the Listing Rules, including Rules 12.1 and 12.2, and that it is otherwise appropriate for the Company's securities to be reinstated to quotation.

The ongoing liquidity, working capital and continued financial viability of the Company (and the Project) is dependent on resolving the funding arrangements with Glencore. In the Company's opinion, continued trading of the Company's securities is likely to be materially prejudicial to its ability to finalise those discussions with Glencore.

The timetable for coming out of suspension is predicated on the outcome of the matters noted above.

Jejevo Nickel Project (80%) Solomon Islands

The Jejevo Nickel Project (Jejevo Project) is an advanced stage direct shipping ore (DSO) nickel laterite project.

The Company holds the Jejevo Project via an 80% equity interest in Pacific Nickel Mines Varej Limited (PNMVL), which holds Prospecting Lease PL 01/18 located on the south coast of Santa Isabel Island in the Solomon Islands. The remaining 20% of PNMVL is owned by groups associated with the landowners. The Jejevo Project is located within the PL 01/18 project area.

In December 2022, PNMVL applied for a Mining Lease over PL 01/18.

No work was conducted at the Jejevo Nickel Project during the Period.

The Company notes that there is a legal case relating to a judicial review of decisions made by government authorities in the Solomon Islands in relation to the awarding of PL 01/18 in 2018. At the date of this Report these legal proceedings are ongoing. The Company has legal advice that the case lacks merit.

ROYALTIES

The Group retains a 2% Net Smelter Return on gold produced from future underground operations at the Lorena Gold Project, near Cloncurry.

DIRECTORS' REPORT

RISKS OVERVIEW

The Board is responsible for the Company's risk management and control framework. The material business risks that the Company faces that could influence the Company's future prospects, and how these are managed, are outlined below.

Asset Values / Mining Projects in Construction/Early Operation Phase

The Directors recognise the company is in a ramp up phase of its operation with all the inherent risks of achieving name plate capacity regarding mining and barging rates.

Financial Risk

The Company has a loan facility with Glencore. Glencore has reserved its right with regard to the project debt due to non-payment of principal due in April 2024. This was reported in an ASX announcement dated 13 June 2024.

Sovereign Risk

The Company has considered the sovereign risk as it applies to the Solomon Islands. To mitigate this risk, the Company has executed formal agreements with the Solomon Islands government, which provide certainty around tenure and all fiscal matters. As agreed with the Government of Solomon Islands the Company will maintain USD accounts in Australia to meet our funding commitments.

Discontinuance of Support from Government

The Solomon Islands government recognises the Kolosori and Jejevo projects are strategically important to the economy there. The Company maintains a transparent and professional relationship with the Government and the various relevant departments.

Commodity Prices and Exchange rates

The Company's projects are primarily mining nickel ore. Nickel prices can fluctuate significantly due to factors beyond the control of the company. A significant decrease in commodity prices is likely to adversely affect the company's profit, sentiment and market support towards a mining company.

The company has limited exchange rate risks as Nickel sales will be in US dollars, our project financing is US dollars, and our principal mining contract is in US dollars. In addition, the Solomon Island dollar is predominately linked to the US dollar.

Cyber Security

The integrity, availability, and confidentiality of data within the Group's information and operational technology systems may be subject to intentional or unintentional disruption. Given the current size of the Group's business, the Company engages a third-party IT support company who have robust processes and technology. The Group also use a third-party secured data room for various interactions with lenders and consultants. The Group has no customer data so that aspect of cyber security risk is limited.

Climate Change

The Group is likely to be subject to increasing regulations and costs associated with climate change and, specifically, management of carbon emissions. Strategic, regulatory and operational risks and opportunities associated with climate change and the energy transition are progressively being incorporated into Company policy, strategy and risk management processes and practices. The Company is exploring geothermal and solar energy to drive projects and a formal rehabilitation plan to replant trees on the mining site.

SIGNIFICANT CHANGES IN STATE OF AFFAIRS

Refer to Kolosori Operations in the Review of Operations and After Balance Date Events of this Directors' Report.

There were no other significant changes in the state of affairs of the Group during the financial year.

DIRECTORS' REPORT

FUTURE DEVELOPMENTS, PROSPECTS AND BUSINESS STRATEGIES

The Group's main focus is to completing the Share Sale and Purchase Agreement with Glencore International AG regarding the nickel projects in the Solomon Islands.

The Company will also consider other possible opportunities in the exploration/mining sector.

ENVIRONMENTAL REGULATIONS

The Group has an environmental rehabilitation policy that is applied to each tenement upon grant. The policy has been adhered to and no breaches have occurred during the period.

PROCEEDINGS ON BEHALF OF THE COMPANY

The Company notes that certain group entities are the 1st Defendant, the 2nd Defendant and the 3rd Defendant in a proceeding in the High Court of Solomon Islands Civil Case No: 215 of 2025 (Proceeding). The parties to the Proceeding are:

- a. Clifton Bazil Likoho and Father Wilson Mapuru (Claimants)
- b. Pacific Nickel Mines (SI) Ltd (1st Defendant);
- c. Pacific Nickel International Pty Ltd (2nd Defendant); and
- d. Pacific Nickel Mines Kolosori Ltd (3rd Defendant).

The PNM group entities have also lodged a counterclaim in the Proceeding against the Claimants. Bridge Legal & Consultancy Firm, a Solomon Islands law firm, acts for the group companies in the Proceeding.

No other proceedings have been brought or intervened in on behalf of the company with leave of the Court under section 237 of the *Corporations Act 2001*.

CORPORATE

Capital Structure

On 2 August 2024, 2,740,000 ordinary shares were issued in the satisfaction of the performance rights to Solomon Islands employees for work done in 2023.

As at 30 June 2025 the Company had the following securities on issue:

- 420.993 million fully paid ordinary shares; and
- 14.130 million performance rights.

FINANCIAL PERFORMANCE

During the 2025 financial year the consolidated net loss of the Group was \$2.297 million (2024: loss of \$17.453 million).

FINANCIAL POSITION

Total equity of the Group decreased from \$3.688 million as at 30 June 2024 to \$1.067 million as at 30 June 2025 as a result of a net loss of \$2.297 million, a net decrease in reserves of \$0.353 million and a net increase in contributed equity of \$0.030 million.

At 30 June 2025, the Group had liabilities in respect of secured loans from Glencore International AG of \$49.467 million (USD 32.309 million) (2024: \$38.244 million (USD25.469 million)).

DIRECTORS' REPORT

CASH FLOWS

Cash flows from operating activities for the Group was negative \$8.913 million (2024: negative \$21.142 million).

Cash flows from investing and financing activities for the Group included:

- Received advance from customer of \$4.116 million;
- Received an unsecured loan from key management personnel of \$0.03 million;
- Additional drawdowns under the same loan facility from Glencore International AG of \$4.517 million.

Cash as at 30 June 2025 was \$0.273 million (2024: \$0.538 million).

GOING CONCERN

The Group experienced operating losses of \$2.297 million and negative cash flows from operations of \$8.913 million during the period ended 30 June 2025.

At 30 June 2025, the Group has current liabilities amounting to \$50.965 million (30 June 2024: \$39.627 million).

The Group's cash position at balance date was \$0.273 million, which will not be sufficient to fund the Group's forecast cash outflows from operations for the next 12 months, as the Group currently relies on its nickel projects in the Solomon Islands for its continuing viability and for its ability to continue as a going concern and to meet its debts and commitments.

As a result of these matters, there is a material uncertainty related to events or conditions that may cast significant doubt on whether the Group will continue as a going concern and, therefore, whether it will realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report.

The continuing viability of the Group and its ability to continue as a going concern and meet its debts and commitments as and when they fall due are dependent on completion of the Share Sale and Purchase Agreement with Green Rock Limited, which remains subject to conditions precedent including shareholder approval, regulatory approvals in the Solomon Islands (including environmental and mining approvals), exchange control approval from the Central Bank of Solomon Islands, and withdrawal of discontinuance of Civil Case 215 of 2025. It is also dependent on Glencore subsequently releasing PNM, PNI and their respective associated persons from all liability, obligations and claims under the Glencore Secured Facility Agreement, the debt facility relating to the Kolosori Project.

The Group has a successful track record of identifying opportunities and raising new capital from both existing shareholders and strategic investors.

On that basis the directors believe it is reasonable to expect that the Group will be successful in some of the above matters and, accordingly, have prepared the financial report on a going concern basis.

The financial report for the period ended at 30 June 2025 contains an independent auditor's review report which includes an emphasis of matter paragraph in regard to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern.

ROUNDING OF AMOUNTS

The Parent Entity has applied the relief available to it under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. Accordingly, amounts in the financial statements have been rounded off to the nearest \$1,000.

AFTER BALANCE DATE EVENTS

On 5 August 2025, 14,130,000 performance rights have lapsed as the conditions have become incapable of being satisfied.

AFTER BALANCE DATE EVENTS (CONTINUED)

On 1 September 2025, the dormant subsidiaries of Pacific Nickel Mines (SI) Limited, which are Sunshine Nickel Limited, Pacific Nickel Mines Moumolu Limited, and Sunshine Moumolu Limited were deregistered.

On 4 November 2025, Pacific Nickel International Pty Ltd (PNI), a wholly owned subsidiary of Pacific Nickel Mines Limited (PNM), entered into a Share Sale and Purchase Agreement (SPA) to sell 100% of its interest in Pacific Nickel Mines (SI) Ltd, a wholly owned subsidiary of PNI that holds 80% of the Jejevo and Kolosori Projects in the Solomon Islands, to Green Rock Limited (Buyer). G.R.P. & Associates Limited has agreed to guarantee the obligations of Green Rock under the SPA.

The sale, for nominal consideration of A\$1.00, is subject to several conditions precedent including PNM shareholder approval and receipt of several regulatory approvals in the Solomon Islands. As part of the transaction, PNI will enter into a Royalty Agreement with the Buyer, under which PNI may receive royalties on ore shipped from the Kolosori Nickel Project when certain condition is met. PNM and PNI will also enter into a Deed of Release with Glencore International AG, the financier of the Kolosori Nickel Project, releasing PNM, PNI and their respective associated persons from all liability, obligations and claims under the Glencore Secured Facility Agreement.

On 25 February 2026, PNI and the Buyer agreed to extend the conditions precedent end date to 3 March 2026. Subsequently, on 13 March 2026, the Company announced that PNI and the Buyer had formally agreed to a further extension of the conditions precedent end date to 27 May 2026. Details of the conditions precedent are set out in the Company's announcement dated 4 November 2025.

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

REMUNERATION REPORT

The remuneration report is set out under the following main headings:

- a) Principles used to determine the nature and amount of remuneration
- b) Details of remuneration
- c) Share-based compensation
- d) Additional information
- e) Other transactions of Key Management Personnel
- f) Equity instrument disclosures relating to Directors and Key Management Personnel
- g) Voting of shareholders at last year's annual general meeting

The information provided in this remuneration report has been audited in accordance with the requirements of the *Corporations Act 2001*.

a) Principles used to determine the nature and amount of remuneration

The Group's policy for determining the nature and number of emoluments of board members and senior executives of the consolidated entity is as follows:

The objective of the entity's executive reward framework is to ensure reward for performance is competitive and appropriate for the results delivered. The framework aligns executive reward with achievement of strategic objectives and the creation of value for shareholders and conforms with market best practice for delivery of reward. The Board ensures that executive reward satisfies the following key criteria for good reward governance practices:

- Competitiveness and reasonableness
- Acceptability to shareholders
- Performance linkage/alignment of executive compensation
- Transparency
- Capital management.

The Group has structured an executive remuneration framework that is market competitive and complimentary to the reward strategy of the organisation.

REMUNERATION REPORT (CONTINUED)

Alignment to shareholders' interests:

- attracts and retains well qualified and suitably experienced applicants
- has the goal of economic profit as a core component of plan design
- focuses on sustained growth in shareholder wealth, consisting of growth in share price, and, in the longer term, payment of dividends and delivering an adequate return on assets as well as focusing the executive on key non-financial drivers of value.
- attracts and retains high calibre executives.

Alignment to program participants' interests:

- rewards capability and experience
- reflects competitive reward for contribution to growth in shareholder wealth
- provides a clear structure for earning rewards
- provides recognition for contribution.

The framework provides a mix of fixed and variable pay, and a blend of short (STI) and long-term (LTI) incentives. As executives gain seniority with the Group, the balance of this mix shifts to a higher proportion of "at risk" rewards.

Executive remuneration includes a base salary that is set with reference to the market, Equity Incentive Plan that comprises a short term incentive comprises performance rights to reflect performance and a long term incentive that provides scope for equity participation over the longer term.

Non-executive directors

Fees and payments to non-executive directors reflect the demands which are made on, and the responsibilities of, the directors. Non-executive directors' fees and payments are reviewed annually by the Board. The Board has also drawn on external sources of information to ensure non-executive directors' fees and payments are appropriate and in line with the market.

Non-executive directors' fees are determined within an aggregate directors' fee pool limit, which is periodically recommended for approval by shareholders. The maximum currently stands at \$300,000 per annum and was approved by shareholders at the AGM on 30 November 2015.

b) Details of remuneration

Cash remuneration packages are set at levels that are intended to attract and retain executives capable of managing and enhancing the consolidated entity's operations. Remuneration of individual Non-Executive Directors is determined by the Board and may be varied from time to time but always such that the aggregate is within the maximum amount (currently \$300,000 per annum) for which prior approval of the shareholders has been received.

Details of the nature and amount of each element of the emoluments of each of the directors and the key management personnel of Pacific Nickel Mines Limited during the year ended 30 June 2025 are set out below.

2025	Salary & Fees	Superannuation	Share-based payments	Total
	\$	\$	\$	\$

REMUNERATION REPORT (CONTINUED)

c) Share-based compensation

Equity Incentive Plan

The Company operates an Equity Incentive Plan ("EIP") and approved by shareholders at the AGM on 26 November 2021. The EIP is designed to provide long-term incentives for an employee, officer, director or consultant (Employee) of the Company and/or any of its associated bodies corporate (Group Company). The EIP provides for the ability to offer options, performance rights and acquisition loans funded shares to Employee. The EIP is administered by the Board.

Performance Rights are granted under the EIP for rights to be issued a share in the Company for nil exercise price upon the satisfaction of certain vesting conditions and which may have restrictions on their sale and disposal. Each performance rights entitles the holder to be issued one ordinary fully paid share in the capital of the Company.

No performance rights were issued under EIP during the year ended 30 June 2025 (2024: 11,750,000).

Employee Option Plan

The Company operates an Employees and Contractors Option Plan ("Plan"). The Plan is administered by the Board. Only eligible persons (and their associates) may be invited to participate in the Plan. Eligible persons include full time employees of the Company, permanent part-time employees, qualifying contractors and persons who may be a director, alternate director or company secretary of the Company or an entity in the Group. The Plan is designed to provide long term incentives for executives to deliver shareholder value.

Options are granted under the plan for no consideration. Options granted under the Plan carry no dividend or voting rights. Each option entitles the holder to subscribe for and be allotted one ordinary fully paid share in the capital of the Company. The exercise price is determined by the Directors at the time of issuing an invitation to participate in the Plan.

During the financial year, no share options were granted to Key Management and Personnel, Employees and Contractors.

d) Additional information

The Group's projects are at a stage of advanced exploration progressing to development and as a result, the Group does not yet have earnings from mining. In view of that, shareholder wealth is based on the market's view of the value of future production, the Group's potential for future discovery success, and the quality and experience of its people. This is reflected in market capitalisation, which is also influenced by factors outside the Group's control, such as commodity prices and general market behaviour.

Accordingly, remuneration policy for key management personnel is based primarily on the extent to which the corporate exploration and evaluation objectives are met, recognising that the timeframe for success commonly exceeds one year.

e) Other transactions of Key Management Personnel

Unsecured Loans

On 26 August 2024, the Group entered into an unsecured loan from Key Management Personnel for an amount of \$30,000. The loan was provided for a term of three months, bearing interest at 12% per annum, with both principal and interest payable at maturity. As the loan was not repaid upon maturity, a default interest rate of 15% per annum was applied to the outstanding balance from the expiry of the initial term until the date of repayment. As at 30 June 2025, accrued interest on the loan totalled \$3,965, which was recognised as a current liability in the consolidated statement of financial position and as interest expense in the consolidated statement of profit and loss for the year ended 30 June 2025. The loan principal and accrued interest were repaid in full on 14 August 2025, with total interest paid of \$4,126.

DIRECTORS' REPORT

REMUNERATION REPORT (CONTINUED)

f) Equity instrument disclosures relating to Directors and Key Management Personnel

The number of shares in the Company held during the financial year by each director of Pacific Nickel Mines Limited and other key management personnel of the Group, including their personally related parties, are set out below. There were no shares granted during the reporting period as compensation.

Shares	Number held 1 July 2024	Subscribed/Purchased	Shares issued on the exercised options	Others (i)	Number held 30 June 2025
2025					
Mr T Cuthbertson	15,638,061	-	-	-	15,638,061
Mr G Stewart (appointed 29 November 2024)	-	-	-	110,000	110,000
Mr J Dean (resigned 15 November 2024)	16,078,337	-	-	-	16,078,337
Mr G Hiller (resigned 9 October 2024)	13,628,027	-	-	-	13,628,027
Mr R Thomson	8,553,850	-	-	-	8,553,850

(i) Initial director's holding.

Performance Rights	Number held 1 July 2024	Subscribed/Purchased	Option issued/exercised	Others	Number held 30 June 2025
2025					
Mr T Cuthbertson	750,000	-	-	-	750,000
Mr G Hiller (resigned 9 October 2024)	4,620,000	-	-	-	4,620,000
Mr R Thomson	2,000,000	-	-	-	2,000,000

On 5 August 2025, performance rights have lapsed as the conditions have become incapable of being satisfied.

g) Voting of shareholders at last year's annual general meeting

The Company received 96.15% of "yes" votes on its remuneration report for the 2024 financial year. The Company did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

End of remuneration report.

SHARE OPTIONS AND PERFORMANCE RIGHTS

Share options

At the date of this report, the company's unissued ordinary shares under option is nil.

Shares issued on the exercise of options

At the date of this report, the unissued performance rights of the Company under the performance right is nil.

Shares issued upon satisfaction of performance rights

The following ordinary shares of Pacific Nickel Mines Limited were issued on 2 August 2024 upon satisfaction of Performance Right granted:

Grant Date	Performance Milestones	Exercise Price	Deemed Price	Number under Option
13 September 2023	Various	Nil	\$0.02	2,740,000

DIRECTORS' REPORT

INDEMNIFICATION OF OFFICERS AND AUDITORS

Indemnification

In accordance with the Constitution of Pacific Nickel Mines Limited each director and officer was indemnified on a full indemnity basis and to the full extent permitted by law against all losses, liabilities, costs, charges and expenses incurred by them as officers of Pacific Nickel Mines Limited or a related body corporate. The consolidated entity has not indemnified or agreed to indemnify the auditor of the consolidated entity against any liabilities incurred as auditor.

Insurance Policies

The consolidated entity has paid premiums in respect of directors' and executive officers' liability and legal expenses insurance contracts. Such insurance contracts insure against certain liability (subject to specific exclusions) persons who are or have been directors or executive officers of the parent entity.

Directors have not included details of the nature of the liabilities covered, or the amount of the premium paid, as such disclosure is prohibited under the terms of the insurance contract.

AUDITORS

Non-audit Services

No amounts paid or payable to the auditor for non-audit services provided during the year.

Auditor's independence declaration

A copy of the auditors' independence declaration as required under section 307C of the *Corporations Act 2001* can be found on the next page.

Signed in accordance with a resolution of the directors.

On behalf of the Directors

Terry Cuthbertson
Non-Executive Interim Chairman
Sydney, 20 April 2026

**AUDITOR'S INDEPENDENCE DECLARATION UNDER SECTION 307C OF
THE CORPORATIONS ACT 2001
TO THE DIRECTORS OF PACIFIC NICKEL MINES LIMITED AND CONTROLLED ENTITIES
ABN 86 075 613 268**

In accordance with section 307C of the *Corporations Act 2001*, I am pleased to provide the following declaration of independence to the directors of Pacific Nickel Mines Limited and controlled entities.

As the auditor for the audit of the financial report of Pacific Nickel Mines Limited and controlled entities for the year ended 30 June 2025, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- i. the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
- ii. any applicable code of professional conduct in relation to the audit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION

The principal accounting policies adopted in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial statements are for the consolidated entity consisting of Pacific Nickel Mines Limited and its subsidiaries.

a) Basis of preparation

These general purpose consolidated financial statements have been prepared in accordance with the *Corporations Act 2001*, Australian Accounting Standards and Interpretations of the Australian Accounting Standards Board and in compliance with International Financial Reporting Standards as issued by the International Accounting Standards Board. The Group is a for-profit entity for financial reporting purposes under Australian Accounting Standards. Material accounting policy information adopted in the preparation of these financial statements are presented below and have been consistently applied unless stated otherwise.

Except for cash flow information, the financial statements have been prepared on an accrual basis and are based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and financial liabilities.

Critical accounting estimates

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the consolidated entity's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates that are significant to the financial statements, are disclosed in note 3.

Significant Matters relating to the ongoing viability of operations

Consistent with the nature of the Group's activities and its ongoing investment of funds into projects the Group has experienced operating losses of \$2.297 million and negative cash flows from operations of \$8.913 million during the period ended 30 June 2025.

At 30 June 2025, the Group has current liabilities amounting to \$50.965 million (30 June 2024: \$39.627 million).

The Group's cash position at balance date was \$0.273 million, which will not be sufficient to fund the Group's forecast cash outflows from operations for the next 12 months, as the Group currently relies on its nickel projects in the Solomon Islands for its continuing viability and for its ability to continue as a going concern and to meet its debts and commitments.

As a result of these matters, there is a material uncertainty related to events or conditions that may cast significant doubt on whether the Group will continue as a going concern and, therefore, whether it will realise its assets and settle its liabilities and commitments in the normal course of business and at the amounts stated in the financial report.

The continuing viability of the Group and its ability to continue as a going concern and meet its debts and commitments as and when they fall due are dependent on completion of the Share Sale and Purchase Agreement with Green Rock Limited, which remains subject to conditions precedent including shareholder approval, regulatory approvals in the Solomon Islands (including environmental and mining approvals), exchange control approval from the Central Bank of Solomon Islands, and withdrawal of discontinuance of Civil Case 215 of 2025. It is also dependent on Glencore subsequently releasing PNM, PNI and their respective associated persons from all liability, obligations and claims under the Glencore Secured Facility Agreement, the debt facility relating to the Kolosori Project.

The Group has a successful track record of identifying opportunities and raising new capital from both existing shareholders and strategic investors.

On that basis the directors believe it is reasonable to expect that the Group will be successful in some of the above matters and, accordingly, have prepared the financial report on a going concern basis.

The financial report for the year ended at 30 June 2025 contains an independent auditor's report which includes an emphasis of matter paragraph in regard to the existence of a material uncertainty that may cast significant doubt about the Group's ability to continue as a going concern.

Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Pacific Nickel Mines Limited ("company" or "parent entity") as at 30 June 2025 and the results of all subsidiaries for the year then ended. Pacific Nickel Mines Limited and its subsidiaries together are referred to in these financial statements as the Group or the consolidated entity.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

a) Basis of preparation (continued)

Subsidiaries are all those entities over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for the acquisition of subsidiaries by the Group.

Intercompany transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Investments in subsidiaries are accounted for at cost in the individual financial statements of Pacific Nickel Mines Limited.

b) Cash and cash equivalents

For the purpose of the cash flows statements, cash and cash equivalents includes:

- cash on hand and at call deposits with banks or financial institutions; and
- investments in money market instruments with less than 90 days to maturity that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

c) Employee benefits

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits and annual leave expected to be settled within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liability for annual leave and all other short-term employee benefit obligations are presented as other payables.

(ii) Other long-term employee benefit obligations

The liability for long service leave and annual leave which is not expected to be settled within 12 months after the end of the period in which the employees render the related service is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the end of the reporting period on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

The obligations are presented as current liabilities in the consolidated statement of financial position if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting date, regardless of when the actual settlement is expected to occur.

(iii) Share-based compensation

Share-based compensation benefits are provided to employees via the Pacific Nickel Mines Limited Employee Option Plan. Information relating to the plan is set out in note 27.

The fair value of options granted under the Pacific Nickel Mines Limited Employee Option Plan is recognised as an employee benefit expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

c) Employee benefits (continued)

The fair value at grant date is determined using a Black Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk-free interest rate for the term of the option.

The fair value of the options granted is adjusted to reflect market vesting conditions but excludes the impact of any non-market vesting conditions (for example, profitability and sales growth targets). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each balance date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate.

d) Exploration, Evaluation and Development Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. Such expenditure comprises direct costs and depreciation and does not include general overheads or administrative expenditure not having a nexus with a particular area of interest.

These costs are only carried forward where there is current or planned activity and rights of tenure, and one of the following conditions is met:

- the exploration, evaluation and development expenditures are expected to be recouped through successful development and exploitation of the area of interest, or alternatively, by its sale.
- exploration, evaluation and development activities in the area of interest at the reporting date have not reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves, but, nevertheless, active and significant operations in, or in relation to, the area of interest are continuing.

Accumulated costs in relation to an abandoned area are written off, in full, in the year in which the decision to abandon the area is made or where it fails to meet the conditions outlined above for the carry-forward of these costs as an asset.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest in accordance with AASB 6 Exploration for and Evaluation of Mineral Resources and the Group's impairment policy (note 1(g)).

e) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The nominal value less estimated credit adjustments of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the Group for similar financial instruments.

The fair value of financial instruments traded in active markets (such as publicly traded derivatives, and trading and available-for-sale securities) is based on quoted market prices at the balance date. The quoted market price used for financial assets held by the Group is the current bid price; the appropriate quoted market price for financial liabilities is the current ask price.

f) Goods and Services Tax

Revenues, expenses and assets are recognised net of the amount of associated GST, unless the GST incurred is not recoverable from the taxation authority. In this case it is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated inclusive of the amount of GST receivable or payable. The net amount of GST recoverable from, or payable to, the taxation authority is included with other receivables or payables in the consolidated statement of financial position.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to the taxation authority, are presented as operating cash flows.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

g) Impairment of assets

Intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

h) Income Tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the company's subsidiaries and associates operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax rates (and laws) that have been enacted or substantially enacted by the reporting date and are expected to apply when the related deferred income tax assets are realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are not recognised for temporary differences between the carrying amount and tax bases of investments in controlled entities where the parent entity is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Tax consolidation legislation

Pacific Nickel Mines Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation.

The head entity, Pacific Nickel Mines Limited, and the controlled entities in the tax consolidated group account for their own current and deferred tax amounts. These tax amounts are measured as if each entity in the tax consolidated group continues to be a stand-alone taxpayer in its own right.

In addition to its own current and deferred tax amount, Pacific Nickel Mines Limited also recognises the current liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

h) Income Tax (continued)

Assets and liabilities arising under tax funding agreement with the tax consolidated entities are recognised as amounts receivable from or payable to other entities in the Group.

Any difference between amounts assumed and amounts receivable or payable under the tax funding agreement are recognised as a contribution (or distribution from) wholly-owned tax consolidated entities.

Overseas subsidiaries

Solomon Islands incorporated subsidiaries are subject to the Tax Laws in Solomon Islands.

i) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition. Trade and other payables are presented as current liabilities unless payment is not due within 12 months from the reporting date. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

j) Investments and other financial assets

Classification

The Group classifies its financial assets in the following categories: financial assets at fair value through profit and loss, loans and receivables and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition and, in the case of assets classified as held-to-maturity, re-evaluates this designation at each reporting date.

(i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading which are acquired principally for the purpose of selling in the short term with the intention of making a profit. Assets in this category are classified as current assets if they are expected to be settled within 12 months; otherwise, they are classified as non-current.

(ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Group provides money, goods or services directly to a debtor with no intention of selling the receivable. They are included in current assets, except for those with maturities greater than 12 months after the reporting period which are classified as non-current assets. Loans and receivables are included in receivables in the consolidated statement of financial position (notes 9 and 11).

(iii) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the end of the reporting period. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

k) Borrowings

Loans are recorded at an amount equal to the net proceeds received. Interest expense is recognised on an accrual basis.

All loans and borrowings are initially recognised at cost, being the fair value of the consideration received net of issue costs associated with the borrowing.

After initial recognition, loans and borrowings are subsequently measured at amortised cost using the effective interest method.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

k) Borrowings (continued)

Loans and borrowings are removed from the consolidated statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income or finance costs.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

l) Leases

The Group does not have any lease arrangements as defined under AASB 16 Leases.

The company has assessed its operations and confirmed that there are no contracts that convey the right to use an identified asset for a period of time in exchange for consideration. Accordingly, no right-of-use assets or lease liabilities have been recognised in the financial statements.

All occupancy and operating costs are incurred as service or usage fees and are expensed as incurred in the statement of profit or loss.

m) Inventories

Inventories are measured at the lower of cost and net realisable value. The cost of manufactured products includes direct materials, direct labour and an appropriate proportion of variable and fixed overheads. Overheads are applied on the basis of normal operating capacity. Costs are assigned on the basis of weighted average costs.

The cost of mining stocks includes direct materials, direct labour, transportation costs and variable and fixed overhead costs relating to mining activities.

n) Loss per share

(i) Basic loss per share is calculated by dividing:

- the loss attributable to equity holders of the Company, excluding any costs of servicing equity other than ordinary shares.
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted loss per share

Diluted loss per share adjusts the figures used in the determination of basic loss per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares; and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

o) Revenue Recognition

Revenue is recognised when it is probable that economic benefits will flow to the company and the amount of revenue can be measured reliably.

(i) Sales of Nickel Ore

Revenue from the sale of nickel ore is recognised in accordance with AASB 15 Revenue from Contracts with Customers.

Under the FOB (Free on Board) terms of sale, control of the product transfers to the customer when the nickel ore is loaded onto the vessel at the port of shipment.

At this point, the customer assumes ownership and the associated risks and rewards.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

o) Revenue Recognition (continued)

Revenue is measured at the transaction price, being the FOB selling price, net of taxes, discounts and other applicable charges.

(ii) Interest income

Interest income is recognised on a time proportion basis, taking into account the interest rates applicable to financial assets.

(iii) Other income

Other income is measured at the fair value of the consideration received or receivable.

p) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

q) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of Directors.

r) Plant and equipment

Plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the consolidated statement of profit or loss and other comprehensive income during the financial period in which they are incurred.

Land is not depreciated. Depreciation on plant and equipment is calculated on a diminishing value basis so as to write off the net cost of each asset over its expected useful life. The following estimated useful lives are used in the calculation of depreciation:

Motor Vehicles	5-6 years
Plant and equipment	4-10 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount (note 1(g)).

s) Foreign Currency Transactions and Balances

Functional and presentation currency

The functional currency of each of the Group's entities is the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars, which is the Parent Entity's functional currency.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

1 SUMMARY OF MATERIAL ACCOUNTING POLICIES INFORMATION (CONTINUED)

s) Foreign Currency Transactions and Balances (continued)

Exchange differences arising on the translation of monetary items are recognised in profit or loss, except exchange differences that arise from net investment hedges.

Exchange differences arising on the translation of non-monetary items are recognised directly in other comprehensive income to the extent that the underlying gain or loss is recognised in other comprehensive income; otherwise the exchange difference is recognised in profit or loss.

Exchange differences arising on translation of foreign operations with functional currencies other than Australian dollars are recognised in other comprehensive income and included in the foreign currency translation reserve in the statement of financial position and allocated to non-controlling interest where relevant. The cumulative amount of these differences is reclassified into profit or loss in the period in which the operation is disposed of.

t) Parent entity financial information

The financial information for the parent entity, Pacific Nickel Mines Limited, disclosed in note 28 has been prepared on the same basis as the consolidated financial statements.

u) Rounding of amounts

The Parent Entity has applied the relief available to it under ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191. Accordingly, amounts in the financial statements have been rounded off to the nearest \$1,000.

v) New and amended policies adopted by the group

AASB 2020-1: Classification of Liabilities as Current or Non-current

The Group adopted AASB 2020-1 which amends AASB 101 to clarify requirements for the presentation of liabilities in the statement of financial position as current or non-current. It also clarifies the meaning of "settlement of a liability".

The adoption of the amendment did not have a material impact on the financial statements.

AASB 2022-6: Amendments to Australian Accounting Standards – Non-Current Liabilities with Covenants

The Group adopted AASB 2022-6 which amends AASB 101 to improve the information an entity provides in its financial statements about liabilities from loan arrangements for which the entity's right to defer settlement of those liabilities for at least 12 months after the reporting period is subject to the entity complying with conditions specified in the loan arrangement.

The adoption of the amendment did not have a material impact on the financial statements.

w) New and amended policies not yet adopted by the group

AASB 18: Presentation and Disclosure in Financial Statements

AASB 18 will replace AASB 101 to amend the presentation and disclosure requirements in financial statements which includes:

- the presentation of the statement of profit or loss into five categories, namely the operating, investing, financing, discontinued operations and income tax categories, as well as newly-defined operating profit subtotals;
- disclosure of management-defined performance measures (MPMs) in a single note; and
- enhanced requirements for grouping (aggregation and disaggregation) of information.

In addition, the Group will be required to use the operating profit subtotal as the starting point for the statement of cash flows when presenting operating cash flows under the indirect method.

The Group plans on adopting the amendment for the reporting period ending 30 June 2028. The Group is still in the process of assessing the impact of the new standard, particularly with respect to the structure of the Group's statement of profit or loss, the statement of cash flows and the additional disclosures required for MPMs. The Group is also assessing the impact on how information is grouped in the financial statements, including for items currently labelled as "other".

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

2 FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks; market risk, credit risk, liquidity risk. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. Risk management is carried out by the Board and the financial risks faced by the Group other than liquidity risk are considered minimal at this stage.

Cash is held at two of the big four banks in Australia that is exposed to variable rates. This is managed through holding the cash in a high interest bearing account and is transferred to ordinary account as required.

The Group holds the following financial instruments:

	2025	2024
	\$	\$
Financial assets		
Cash and cash equivalents	272,734	537,573
Trade and other receivables	7,193	1,439,447
	<u>279,927</u>	<u>1,977,020</u>
Financial liabilities		
<i>Current liabilities</i>		
Trade and other payables	7,149,414	15,714,279
Borrowings	43,815,894	23,912,386
<i>Non-current liabilities</i>		
Borrowings	5,680,996	14,332,037
	<u>56,646,304</u>	<u>53,958,702</u>

a) Market risk

(i) Interest rate risk

The Group's and Parent's main interest rate risk arises from borrowings, cash and cash equivalents and deposits with banks and project financier.

Sensitivity

At 30 June 2025, if interest rates had changed by lower/higher 100 basis points from the year-end rates with other variables held constant, post-tax loss for the year would have been \$97 lower/higher (2024: change of 100 bps: \$48,825 lower/higher), as a result of lower/higher net interest expenses from borrowings, cash and cash equivalents and deposits with banks and project financier.

(ii) Foreign Exchange Risk

The Group operates domestically in Australian dollar (AUD) and Solomon Islands in Solomon Islander dollar (SBD), Kolosori Project finance in United States dollar (USD), hence exposures to exchange fluctuations arise. The Group does not hedge these exposures. The cash at bank held by the Company currently comprises AUD, USD and SBD. The Group managed the foreign currency transactions on a monthly basis to avoid the fluctuation on the exchange rate, while the Group does not have any material foreign currency risk exposure. Where exposures do arise, forward foreign exchange contracts will be applied.

(iii) Price Risk

The Group is not exposed to equity securities price risk. The Group is indirectly exposed to commodity price rise to the extent of its operations which are undertaken in the mineral sector.

b) Credit Risk

Credit risk arises from cash and cash equivalents and deposits with banks, as well as credit exposures in respect of outstanding receivables and committed transactions.

The maximum exposure to credit risk at the reporting date is the carrying amount of the financial assets.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

2 FINANCIAL RISK MANAGEMENT (CONTINUED)

c) Liquidity Risk

The Group manages liquidity risk by monitoring actual cash flows and maintaining sufficient cash to fund operations. Surplus funds are generally only invested in short term deposits with Australian Banks.

The Group's position with respect to going concern is outlined in note 1(a).

Maturities of financial liabilities

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date.

Consolidated	Less than 6 Months	6-12 Months	Between 1 and 2 Years	Between 2 and 5 Years	Over 5 Years	Total contractual cash flows	Carrying amount liabilities
	\$	\$	\$	\$	\$	\$	\$
2025							
Non-derivatives							
Non-interest bearing	7,149,414	-	-	-	-	7,149,414	7,149,414
Variable rate							
Borrowings	39,466,952	4,348,942	5,680,996	-	-	49,496,890	49,496,890
Total Non-derivatives	46,616,366	4,348,942	5,680,996	-	-	56,646,304	56,646,304

Consolidated	Less than 6 Months	6-12 Months	Between 1 and 2 Years	Between 2 and 5 Years	Over 5 Years	Total contractual cash flows	Carrying amount liabilities
	\$	\$	\$	\$	\$	\$	\$
2024							
Non-derivatives							
Non-interest bearing	15,714,279	-	-	-	-	15,714,279	15,714,279
Variable rate							
Borrowings	18,489,926	5,422,460	13,128,308	1,203,729	-	38,244,423	38,244,423
Total Non-derivatives	34,204,205	5,422,460	13,128,308	1,203,729	-	53,958,702	53,958,702

d) Fair value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

The fair value of financial instruments that are not traded in an active market (for example, investments in unlisted subsidiaries) is determined using valuation techniques.

e) Capital risk management

The Group has long term loan facility with Glencore International AG to develop the Kolosori Project. The Company announced a trading halt on the ASX on 16 July 2024 and a voluntary suspension on 18 July 2024 pending discussions with its lender Glencore regarding the working capital and creditors of the operation and the weak nickel ore price outlook in the short and medium term. On 23 June 2025, the securities of PNM were suspended from quotation by the ASX under Listing Rule 17.3.1. The suspension will remain in effect until the ASX is satisfied that PNM is in compliance with the listing rules, including 12.1 and 12.2, and that it is otherwise appropriate for the Company's securities to be reinstated to quotation.

Previously, Glencore had reserved its right on the project debt as noted in the ASX release dated 13 June 2024 due to the non-payment of debt principal due in April 2024.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2025

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the entity and that are believed to be reasonable under the circumstances.

Exploration and evaluation expenditure

Certain exploration and evaluation expenditure is capitalised where it is considered likely that the expenditure will be recovered by future exploitation or sale, or where activities have reached a stage which permits a reasonable assessment of the existence of commercially recoverable reserves. This process necessarily requires management to make certain estimates and assumptions regarding future commodity prices and level of demand for these commodities, production rates, metallurgical recovery and cost of production, which will affect the viability of the operations. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised expenditure under this policy it is concluded unlikely that the expenditure will be recovered by future exploitation or sale, the relevant amount capitalised is written off to the consolidated statement of profit or loss and other comprehensive income. Carried forward exploration, evaluation and development expenditures amounting to \$46,118,544 and relate primarily to capitalisation and evaluation costs from activities in the Solomon Islands.

4 SEGMENT INFORMATION

The economic entity operates in one segment within mineral exploration and development in Australia. The Group has one reportable segment, as described below, for which the Board of Directors (the chief operating decision maker) reviews internal management reports on a regular basis.

Solomon Islands

The development of the Group's interest in the Kolosori Nickel Project ("Kolosori") and Jejevo Nickel Project ("Jejevo") on the Santa Isabel Island.

Segment assets

Information about reportable segments

The key segment assets as reported to the Board are as follows:

	2025 \$	2024 \$

Non-Current liabilities

Secured loan

b	<u>5,680,996</u>	<u>14,332,037</u>
----------	------------------	-------------------

a) Unsecured loan

On 26 August 2024, the Group entered into an unsecured loan from Key Management Personnel for an amount of \$30,000. The loan was provided for a term of three months, bearing interest at 12% per annum, with both principal and interest payable at maturity. As the loan was not repaid upon maturity, a default interest rate of 15% per annum was applied to the outstanding balance from the expiry of the initial term until the date of repayment. As 30 June 2025, accrued interest on the loan totalled \$3,965, which was recognised as a current liability in the consolidated statement of financial position and as interest expense in the consolidated statement of profit and loss for the year ended 30 June 2025. The loan principal and accrued interest were repaid in full on 14 August 2025, with total interest paid of \$4,126.

b) Secured Loan

On 19 April 2023, the Company entered a debt and sale facilities with Glencore International AG to advance to the pre-production funding requirements of the Kolosori Nickel Project.

Key terms associated with the debt and sale facilities include:

Loan Agreement

- Project loan facility of up to A\$32 million (US\$22 million).
- 3-year repayment term commencing after the first shipment and with no scheduled repayment due during the wet season months.
- Interest rate is 11% plus the US Secured Overnight Financing Rate.
- Repayments effected pursuant to a cash sweep mechanism and early repayments permitted without penalty.
- No mandatory hedging.
- Events of Default standard for a facility of this nature.
- Security provided via a charge over the shares of Pacific Nickel Mines Kolosori Ltd, a charge over the assets of Pacific Nickel Mines Kolosori Ltd and a corporate guarantee.

Offtake Agreement

- 6-year Term.
- Take or pay contract.
- Price received linked to agreed 1.5% DSO Nickel benchmarks and adjusted for nickel and moisture bonus/penalty payments.
- Ownership transfer of nickel ore passes to the buyer upon the nickel ore being put on board of the vessel.
- Quantity to be 100% of mine production during the Term.
- FOB Kolosori delivery basis with 85% payment upon provisional invoicing, and balance of 15% on confirmation.

The Group had an opening balance of A\$39.036 million (US\$25.496 million) in a secured loan facility with Glencore International AG, together with accrued interest of A\$5.353 million (US\$3.496 million).

During the period August to October 2024, the Group made additional drawdowns totalling A\$4.517 million (US\$2.950 million) under the same facility.

As at 30 June 2025, the total loan balance, inclusive of accrued interest, amounted to A\$49.467 million (US\$32.309 million) and was classified as a current and non-current liability in the consolidated statement of financial position.

The Group's objective when managing capital is to safeguard its ability to continue as a going concern (refer to note 1(a)), so that it can continue to maintain an optimal capital structure to reduce the cost of capital. The Group monitors capital on a regular basis in order to achieve the objectives. The Group's strategy has remained unchanged from the prior year.

55,250

30 EVENTS SUBSEQUENT TO REPORTING DATE

On 5 August 2025, 14,130,000 performance rights have lapsed as the conditions have become incapable of being satisfied.

On 1 September 2025, the dormant subsidiaries of Pacific Nickel Mines (SI) Limited, which are Sunshine Nickel Limited, Pacific Nickel Mines Moumolu Limited, and Sunshine Moumolu Limited were deregistered.

On 4 November 2025, Pacific Nickel International Pty Ltd (PNI), a wholly owned subsidiary of Pacific Nickel Mines Limited (PNM), entered into a Share Sale and Purchase Agreement (SPA) to sell 100% of its interest in Pacific Nickel Mines (SI) Ltd, a wholly owned subsidiary of PNI that holds 80% of the Jejevo and Kolosori Projects in the Solomon Islands, to Green Rock Limited (Buyer). G.R.P. & Associates Limited has agreed to guarantee the obligations of Green Rock under the SPA.

The sale, for nominal consideration of A\$1.00, is subject to several conditions precedent including PNM shareholder approval and receipt of several regulatory approvals in the Solomon Islands. As part of the transaction, PNI will enter into a Royalty Agreement with the Buyer, under which PNI may receive royalties on ore shipped from the Kolosori Nickel Project when certain condition is met. PNM and PNI will also enter into a Deed of Release with Glencore International AG, the financier of the Kolosori Nickel Project, releasing PNM, PNI and their respective associated persons from all liability, obligations and claims under the Glencore Secured Facility Agreement.

On 25 February 2026, PNI and the Buyer agreed to extend the conditions precedent end date to 3 March 2026. Subsequently, on 13 March 2026, the Company announced that PNI and the Buyer had formally agreed to a further extension of the conditions precedent end date to 27 May 2026. Details of the conditions precedent are set out in the Company's announcement dated 4 November 2025.

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in future financial years.

CONSOLIDATED ENTITY DISCLOSURE STATEMENT

Basis of preparation

This consolidated entity disclosure statement has been prepared in accordance with the s295(3A)(a) of the *Corporations Act 2001* and includes the required information for Pacific Nickel Mines Limited and the entities it controls in accordance with AASB 10 Consolidated Financial Statements.

Tax residency

S295(3A)(vi) of the *Corporations Act 2001* defines tax residency as having the meaning in the Income Tax Assessment Act 1997. The determination of tax residency may involve judgement as there are different interpretations that could be adopted and which could give rise to different conclusions regarding residency.

In determining tax residency, the consolidated entity has applied the following interpretations:

Australian tax residency

Current legislation and judicial precedent has been applied, including having regard to the Tax Commissioner's public guidance.

Foreign tax residency

Where appropriate, independent tax advisers have been engaged to assist in the determination of tax residency to ensure applicable foreign tax legislation has been complied with.

DIRECTORS' DECLARATION

In accordance with a resolution of the directors of Pacific Nickel Mines Limited, the directors of the Company declare that:

1. the financial statements and notes, as set out on pages 18 to 42, are in accordance with the *Corporations Act 2001* and:
 - a. comply with Australian Accounting Standards applicable to the Entity, which, as stated in accounting policy Note 1 to the financial statements, constitutes compliance with International Financial Reporting Standards; and
 - b. give a true and fair view of the financial position as at 30 June 2025 and of the performance for the year ended on that date of the Consolidated Group;
2. in the directors' opinion there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable; and
3. the directors have been given the declarations required by s 295A of the *Corporations Act 2001* from the Chief Executive Officer and Chief Financial Officer.

The Company and a wholly owned subsidiary, Pacific Nickel Mines Kolosori Pty Ltd, have entered into a deed of cross guarantee under which the Company and its subsidiary guarantee the debts of each other.

On behalf of the Board

Terry Cuthbertson

Non-Executive Interim Chairman

Sydney, 20 April 2026

**INDEPENDENT AUDITOR'S REPORT TO THE OWNERS OF
PACIFIC NICKEL MINES LIMITED AND CONTROLLED ENTITIES
ABN 86 075 613 268**

Report on the Financial Report

Opinion

We have audited the financial report of Pacific Nickel Mines Limited (the Company) and controlled entities (the Group), which comprises the consolidated statement of financial position as at 30 June 2025, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policies, the consolidated entity disclosure statement and the directors' declaration.

In our opinion the accompanying financial report of the Group is in accordance with the *Corporations Act 2001*, including:

- a. giving a true and fair view of the Group's financial position as at 30 June 2025 and of its financial performance for the year then ended; and
- b. complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

The financial report also complies with the International Financial Reporting Standards as disclosed in Note 1.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those Standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Report* section of our report. We are independent of the Group in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110: *Code of Ethics for Professional Accountants* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of the Company, would be in the same terms if given to the directors as at the time of this auditor's report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter on Going Concern

Without qualifying our conclusion, we draw your attention to Note 1(a) in the financial report which indicates that the Group's cash position as at 30 June 2025 was \$272,734 (2024: \$537,573), experienced an operating loss of \$2,297,387 (2024: \$17,453,202) and cash outflows from operating activities of \$8,913,012 (2024: \$21,142,444) during the year. The continuing viability of the Group and its ability to continue as a going concern and meet its debts and commitments as and when they fall due are dependent upon the Group completing the Share Sale and Purchase Agreement with Green Rock with the support of Glencore. These conditions, along with other matters as set forth in Note 1(a), indicate the existence of a material uncertainty that may cast doubt about the Group's ability to continue as a going concern.

Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report for the year ended 30 June 2025. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key Audit Matter	How Our Audit Addressed the Key Audit Matter
<p>Capitalisation of expenditure</p> <p>During the period, the Group capitalised development costs of 5,913,988</p> <p>The assessment of the capitalised development costs require management to make significant judgements and estimates to determine whether expenditure meets the conditions of capitalisation under the Australian Accounting Standards, including AASB6 Exploration and Evaluation of Mineral Resources.</p>	<p>We have evaluated the appropriateness of amounts capitalised during the period, including:</p> <ul style="list-style-type: none"> Assessed estimates and judgements applied to the amounts capitalised; Assessed the Group's intention to carry out significant ongoing development costs activities which included reviewing the Group's approved cash-flow forecast and enquiring with management and the Directors as to their intentions and the strategy of the Group; and Reviewed related disclosures made within the financial report.

Going concern

Following continuing operating losses and cash flow deficits, there is a degree of judgement as to the Group's ability to continue as a going concern through the assessment period. Accordingly, we considered the appropriateness of the going concern assumption, the question as to whether there is a material uncertainty and the adequacy of management's disclosure to be a key risk.

We have challenged the key assumptions in management's forecast cash flows for the next 12 months (base case and downside possibilities) by:

- Assessed cash flow forecasts and assumptions used in support, and obtaining explanations for any significant differences;
- Ensuring consistency between the forecasts in the Group going concern model and those used in the asset value-in-use calculations for impairment assessment purposes;
- Assessed the historical accuracy of forecasts prepared by management;
- Testing the mechanical accuracy of the model used;
- Challenging management's plans for mitigating any identified exposures, obtain additional sources of financing;
- Considering whether the disclosures relating to going concern referred to in the basis of preparation section of the accounting policies are balanced, proportionate and clear; and
- Assessed the disclosures made in Note 1(a) and Note 30.

Impairment review

As at 30 June 2025, the Group held investments of \$915,738 exploration and evaluation expenditure of \$8,733,850 and development costs of \$37,384,694.

The assessment of the carrying value of these assets and impairment considerations requires management to make significant judgements and estimates to determine whether the assets require impairment in accordance with Australian Accounting Standard AASB 136 Impairment and AASB 6 Exploration for Evaluation of Mineral Resources.

Management has assessed the recoverable amount of these assets to be lower than their carrying amount, and therefore an impairment of \$7,000,000 has been recognised in the statement of profit or loss for the year ended 30 June 2025.

We have evaluated the appropriateness of management's judgements including:

- Considering if there are indicators that suggest the carrying amount of these assets exceeds its recoverable amount.
- Assessed if there are facts or circumstances that indicate exploration and evaluation expenditure exceeds its recoverable amount;
- Reviewing management's assessment of recoverable amounts, including assumptions, production forecasts and funding arrangements; and
- Assessed the disclosures made in Note 1(g) of the financial report.

There were no restrictions on our reporting of Key Audit Matters.

Information Other than the Financial Report and Auditor's Report Thereon

The directors are responsible for the other information. The other information comprises the information included in the Group's annual report for the year ended 30 June 2025, but does not include the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The directors of the group are responsible for the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- b) *the consolidated entity disclosure statement that is a true and correct in accordance with the Corporations Act 2001*, and

for such internal control as the directors determine is necessary to enable the preparation of:

- a) the financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free of material misstatement, whether due to fraud or error, and
- b) *the consolidated entity disclosure statement that is a true and correct* and is free of material misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial report. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Remuneration Report

Opinion on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2025.

In our opinion, the Remuneration Report of Pacific Nickel Mines Limited and controlled entities for the year ended 30 June 2025 complies with s 300A of the *Corporations Act 2001*.

Responsibilities

The directors of the Company are responsible for the preparation and presentation of the Remuneration Report in accordance with s 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.
