## March 2026 - Quarter Activities Report

During the quarter, Black Horse Mining Ltd (**Black Horse** or the **Company**) completed its maiden drilling program at the Mt Egerton Gold Project.<sup>1,2</sup>

The Company drilled a total of 618m of diamond core across seven holes within Target Area B (Figure 1), as detailed below, and as announced to the market on 11 and 24 March 2026.<sup>1,2</sup>

Assay results for holes 25MEDD002, 002A, 003, and 26MEDS001 are still pending and will be reported to the market as they become available.

### MT EGERTON PROJECT

The Company completed its maiden drilling program at the flagship Mt Egerton Gold Project confirming exceptional, high-grade, near-surface gold mineralisation. Hole 26MEDD005 intersected a 5.2 m mineralised zone from 55.8 m (with assayed intervals up to 17.4 g/t Au and 14.6 g/t Au). Hole 26MEDD004 returned a 4.4 m mineralised zone from 49.65 m with assays up to 46.2 g/t Au and 20.5 g/t Au, extending the high-grade zone encountered in 26MEDD005 by approximately 10 m vertically. Importantly, the assayed portions returned compelling high-grade results, and the true grade of the interval is likely understated due to the conservative treatment of unsampled core, as outlined in the March announcements.<sup>1,2</sup>

Several historical underground workings were intersected during drilling, with one void captured on video (<https://youtu.be/DhaWjUhv9yg>). The footage shows significant quartz spur veining interpreted to be extensional arrays associated with dilational jogs on reverse faults – structures well-documented as high-grade hosts in the Bendigo-Ballarat goldfields.

Historical results from a road cutting within the project area were tested by channel sampling; no significant results were returned.

Results from the ground magnetotelluric (MT) geophysical survey, and reprocessed data from historical ground penetrating radar (GPR), were compiled and integrated in the 3D geological model for the project.

The Company is preparing to commence the deeper drill testing of the project.
