

Activities Report for the Quarter Ended 31 March 2026

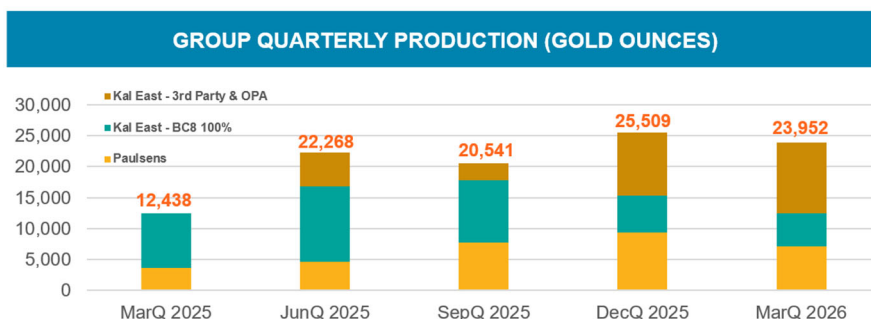

Black Cat Syndicate Limited (“**Black Cat**” or “**Company**”) is pleased to report activities for the quarter ended 31 March 2026.

HIGHLIGHTS¹

- **Solid operating cash flow:** of \$61M, generated from 10,374oz of gold sold at an average realised price of \$6,817/oz.
- **Strong balance sheet and liquidity:** Cash, bullion and listed investments increased to \$92M (\$91M at 31 December 2025), a pleasing result after spend on mine ramp up. Stored bullion increased 503oz to 5,323oz valued at \$36M².
- **Significant growth:**
 - **Kal East mine ramp up:** The Group invested \$46M of growth capital at Fingals and Majestic as production ramped up. The development has been delivered ahead of schedule and in line with capital estimates. This led to an increase of Ore stockpiles to 184,000 tonnes (“t”), providing flexibility in the months ahead.
 - **Processing:** The Board approved the \$20M expansion of the Lakewood processing facility from 1.2 Mtpa to 1.5 Mtpa³, to be funded from operating cash flow.
 - **Resource upgrade:** Mt Clement Mineral Resource upgraded with contained antimony in the Eastern Zone increasing 95% to 25.8kt, reinforcing the project’s scale and growth potential⁴
- **Strategy and outlook:** During the quarter, management responsibilities were successfully transitioned from Gareth Solly to James Bruce.⁵ The Company is developing a Growth Strategy, focused on clearly articulating its capabilities, growth initiatives and capital deployment priorities, with an update expected within the next three months. Following completion of this process and from 1 July 2026, the Company intends to provide annual guidance, including AISC, as part of its year-end reporting cycle.

QUARTERLY UPDATES

- **People, health and safety:** In advance of future growth, the Group increased employee and contractor numbers 12% from 552 to 618 over the quarter. One LTI occurred during the quarter. Targeted actions are underway to reinforce critical controls and improve safety performance during operational growth.
- **Group gold production:** 23,952oz (including third-party production of 11,553oz), which was slightly below the outlook of 25,000-28,000oz⁶.
 - **Paulsens:** Produced 7,110oz with production expected to increase going forward as higher-grade stopes are accessed.
 - **Kal East:** Produced 16,842oz (including 11,553oz from third-party Ore). The first 100% BC8 Ore from Fingals and Majestic commenced on 28 March 2026.⁷
- **Fuel security:** Despite unprecedented fuel price increases, fuel costs had a relatively minor impact, increasing from 6% of total costs in January, to 8% in March. A new long-term bulk fuel supply agreement was executed. Together with Lakewood’s grid-connected power, the Group is not experiencing any fuel supply constraints, supporting uninterrupted operations.
- **Group gold production outlook:** For the June 2026 quarter, the Group expects production to be similar to the March 2026 quarter, however the transition to 100% BC8 Ore is expected to deliver significantly higher cash margins versus processing third-party Ore.

Activities Report for the Quarter Ended 31 March 2026

PAULSENS GOLD OPERATION 100%

Paulsens comprises a high-grade underground gold mine, a 450ktpa processing facility, a 140-room camp and associated infrastructure.

- Gold production totalled 7,110oz (Dec quarter: 9,313oz) due to mining lower grade zones.
- Belvedere development progressed during the quarter and is expected to improve mining flexibility and grade control over time.
- Underground diamond drilling continued at Paulsens. Results reported during the quarter confirmed multiple high-grade intercepts outside the current Resource, supporting ongoing mine development and potential future mine life extensions.¹²

KAL EAST GOLD OPERATION 100%

Kal East is transitioning from majority third party material to two 100% owned mines, feeding the 1.2Mtpa Lakewood processing facility. Activities focused on the continued ramp-up of these two mines - Fingals open pit and Majestic underground mines.

- Produced 16,842oz including 11,553oz from third-party ore. The first 100% Black Cat Ore from Fingals and Majestic commenced as those mines ramp up and third party production is phased out.¹³
- Preliminary work commenced on the \$20M expansion of the Lakewood processing facility from 1.2 Mtpa to 1.5 Mtpa¹⁴, to be funded from operating cash flow.
- Mining at the Myhree and Boundary open pits was completed with Ore processing completed during the quarter.

MT CLEMENT ANTIMONY PROJECT 100%

Mt Clement hosts one of Australia's largest and highest-grade undeveloped antimony deposits. Following completion of the 6,904 m diamond drilling program in December 2025, final assay results were reported during the quarter, confirming continuity of high-grade antimony mineralisation within the Taipan Lode and identifying mineralisation outside the previous Resource envelope. These results underpinned an updated independent Resource (ASX: 2 March 2026).

- The updated Mineral Resource for the Eastern Zone increased contained antimony by 95% to 25.8kt, supports the scale and growth potential of the project and providing a strong foundation for further technical evaluation.¹⁵
- Metallurgical test work has commenced and will inform process design and economic studies.
- Planning for the next phase of drilling was completed, with infill drilling designed to upgrade portions of the Resource. Drilling is expected to recommence in the June 2026 quarter.

COYOTE GOLD OPERATION 100%

Coyote comprises 650km² of prospective tenements, located 20km on the WA side of the WA/NT border and on the Tanami Highway. Coyote has substantial infrastructure including an airstrip, underground mine, 300ktpa processing facility, 192-person camp and other related infrastructure.

Coyote remains on care and maintenance. The Company progressed preparatory heritage, environmental and technical activities to support planned exploration.

FORWARD LOOKING STATEMENTS

These materials prepared by Black Cat Syndicate Limited include forward looking statements. Often, but not always, forward looking statements can generally be identified by the use of forward looking words such as “may”, “will”, “expect”, “intend”, “believe”, “forecast”, “predict”, “plan”, “estimate”, “anticipate”, “continue”, “outlook”, and “guidance”, or other similar words and may include, without limitation, statements regarding plans, strategies and objectives of management, anticipated production or construction commencement dates and expected costs or production outputs.

Forward looking statements inherently involve known and unknown risks, uncertainties and other factors that may cause the Company’s actual results, performance and achievements to differ materially from any future results, performance or achievements. Relevant factors may include, but are not limited to, changes in commodity prices, foreign exchange fluctuations and general economic conditions, increased costs and demand for production inputs, the speculative nature of exploration and project development, including the risks of obtaining necessary licenses and permits and diminishing quantities or grades of reserves, political and social risks, changes to the regulatory framework within which the Company operates or may in the future operate, environmental conditions including extreme weather conditions, recruitment and retention of personnel, industrial relations issues and litigation.

Forward looking statements are based on the Company and its management’s good faith assumptions relating to the financial, market, regulatory and other relevant environments that will exist and affect the Company’s business and operations in the future. The Company does not give any assurance that the assumptions on which forward looking statements are based will prove to be correct, or that the Company’s business or operations will not be affected in any material manner by these or other factors not foreseen or foreseeable by the Company or management or beyond the Company’s control.

Although the Company attempts and has attempted to identify factors that would cause actual actions, events or results to differ materially from those disclosed in forward looking statements, there may be other factors that could cause actual results, performance, achievements or events not to be as anticipated, estimated or intended, and many events are beyond the reasonable control of the Company.

In addition, the Company’s actual results could differ materially from those anticipated in these forward-looking statements as a result of the factors outlined in the “Risk Factors” section of the Company’s continuous disclosure filings available on the ASX.

Accordingly, readers are cautioned not to place undue reliance on forward looking statements. Forward looking statements in these materials speak only at the date of issue. Subject to any continuing obligations under applicable law or the ASX listing rules, in providing this information the Company does not undertake any obligation to publicly update or revise any of the forward-looking statements or to advise of any change in events, conditions or circumstances.

COMPETENT PERSON’S STATEMENT

The Company confirms that it is not aware of any new information or data that materially affects the information in the original reports, and that the form and context in which the Competent Person’s findings are presented have not been materially modified from the original reports.

Where the Company refers to the exploration results, Mineral Resources, and Reserves in this report (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource and Reserve estimates with that announcement continue to apply and have not materially changed.

Notes on Resources:

- The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
- All tonnages reported are dry metric tonnes.
- Data is rounded to thousands of tonnes and thousands of ounces/tonnes for copper, antimony, silver, and lead. Discrepancies in totals may occur due to rounding.
- Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource.
- Resources are reported inclusive of any Reserves.
- Gold reported within this table is not reported within the preceding Gold Resources table.

The announcements containing the Table 1 Checklists of Assessment and Reporting Criteria relating for the 2012 JORC compliant Resources are:

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
