2 DETAILS OF THE OFFER

2.1 The Offer

The Company is making a pro-rata non-renounceable offer of Loyalty Option to Eligible Shareholders, on the basis of one (1) Loyalty Option for every fifteen (15) Shares held by Eligible Shareholders at 7:00pm (AEST) on the Record Date. The Loyalty Options are being offered for nil consideration, and will have an exercise price of A\$0.025 and expire at 5:00pm on 7 May 2030, being 4 years from the date of issue and are otherwise offered on the terms and conditions set out in Section 5.

As at the date of this Prospectus, the Company has on issue 477,049,389 Shares and 27,000,000 unquoted options. Please refer to Section 7.3 for more details on the Company's current capital structure.

On the assumption that no options are exercised before 7:00pm (AEST) on the Record Date, the Company proposes to offer approximately 31,803,293 Loyalty Options under the Offer. Where the determination of an Eligible Shareholder's Entitlement to Loyalty Options under the Offer results in a fraction, such fraction will be rounded down to the nearest whole option.

No proceeds will be made from the issue of the Loyalty Options because the Offer is being made for nil consideration; however, proceeds will be raised from the exercise of each Loyalty Option, if and when such Loyalty Option is exercised by the holder of the Loyalty Option.

The issue of Loyalty Options under the Offer is not conditional on Shareholder approval and will not count towards the Company's placement capacity in Listing Rules 7.1 or 7.1 A as it falls under an exemption in Listing Rule 7.2. In addition, the issue of Loyalty Options under the Offer to the participating Directors will not require prior Shareholder approval pursuant to Listing Rule 10.11 as it will fall under an exemption in Listing Rule 10.12.

All of the Shares issued upon exercise of the Loyalty Options will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 4.1 for further information regarding the rights and liabilities attaching to the Shares.

Pursuant to the ASIC Corporations (Application Form Requirements) Instrument 2017/241, as this is a pro rata bonus issue of options for nil consideration, Eligible Shareholders are not required to apply for Loyalty Options under the Offer and, accordingly, there is no application form attached to this Prospectus for the Offer.

Accordingly, the Offer is not being extended to, and does not qualify for distribution or sale by, and no options will be issued to Shareholders having registered addresses outside of Australia, New Zealand and Malaysia.

2.4 Purpose of the Offer

The purpose of the Offer is to recognise the invaluable support the Company has received from its Shareholders to date, and to reward existing Eligible Shareholders by making a bonus loyalty offer for nil consideration. The Offer is an opportunity for Eligible Shareholders to further participate in the development of the Company, and will provide the Company with a potential source of additional capital if the Loyalty Options are exercised.

2.5 Purpose of the Prospectus

Section 707(3) of the Corporations Act generally requires that a prospectus is issued in order for a person to whom Securities were issued without disclosure under Part 6D of the Corporations Act to on-sell those Securities within 12 months of the date of their issue. Consequently, the Company has issued this Prospectus for the Offer of Loyalty Options to Eligible Shareholders.

Accordingly, the purpose of this Prospectus is to:

- (i) make the Offer of Loyalty Options to Eligible Shareholders; and
- (ii) ensure that the on-sale of the Loyalty Options and new Shares issued on conversion of the Loyalty Options do not breach section 707(3) of the Corporations Act.

2.6 Use of Funds

No funds will be raised from the issue of the Loyalty Options as they are being offered for nil consideration.

The Company will receive \$0.025 for each Loyalty Option exercised. If all Loyalty Options under the Offer are issued and exercised, the Company will receive approximately \$954,099 (before costs). There is no certainty that any of the Loyalty Options will be exercised.

Funds raised from the exercise of the Loyalty Options under the Offer are intended to be applied to fund general working capital.

The above is a statement of current intentions at the date of this Prospectus. Intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way the funds are applied on this basis.

2.7 Transfer of entitlements under the Offer

The Offer is non-renounceable and therefore Eligible Shareholders cannot offer to sell or transfer any of their entitlement to participate in the Offer on ASX or via an off-market transfer (or any other exchange or private transfer).

2.8 Transfer of Options

If and when quoted, the Loyalty Options will be transferrable.

2.9 Issue Date

It is expected that Loyalty Options will be issued in accordance with the dates specified in the Indicative Timetable; however, this is subject to change.

Holding statements for the Loyalty Options issued under the Offer will be despatched as soon as practicable after their issue.

2.10 No Underwriting

The Offer is not underwritten.

2.11 **CHESS**

The Company participates in the Clearing House Electronic Sub-register System, known as CHESS. ASX Settlement Pty Limited, a wholly owned subsidiary of ASX, operates CHESS in accordance with the Listing Rules and the ASX Settlement Operating Rules.

Under CHESS, the Company does not issue certificates to investors. Instead, security holders will receive a statement of their holdings in the Company, including Loyalty Options issued under this Prospectus. If an investor is broker sponsored, ASX Settlement Pty Limited will send you a CHESS statement.

The CHESS statement will specify the number of Loyalty Options issued under this Prospectus, provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the Loyalty Options.

If you are registered on the issuer sponsored sub-register, your statement will be despatched by the Share Registry and will contain the number of Loyalty Options issued to you under this Prospectus and your security holder reference number.

A CHESS statement or issuer sponsored statement will routinely be sent to holders at the end of any calendar month during which the balance of their holding changes. Option holders may request a statement at any other time, however, a charge may be made for additional statements.

2.12 **Custodians, trustees and nominees**

Nominees and custodians that hold Shares should note that the Offer is available only to Eligible Shareholders. The Company is not required to determine whether or not any registered holder is acting as nominee or the identity or residence of any beneficial owners of Shares. If any nominee or custodian is acting on behalf of a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Offer is compatible with applicable foreign laws.

2.13 **ASX Quotation**

Subject to meeting the ASX's minimum eligibility criteria for quotation, the Company intends to seek quotation of the Loyalty Options, and at such time, the Loyalty Options, once quoted, shall be transferable. If the Loyalty Options do not meet the ASX's eligibility criteria for the quotation of options at the time of issue, the Loyalty Options may remain unquoted and non-transferable until such time as the ASX's minimum eligibility criteria can be met.

If the Loyalty Options meet the ASX's eligibility criteria for the quotation the Company will make an application for quotation with the ASX within 7 days after the date of the Prospectus.

If the ASX does not grant permission for quotation of the Loyalty Options within three (3) months after the date of this Prospectus (or any later date permitted by law), none of the Loyalty Options will be issued and if any have been issued, the issue will be void in accordance with section 723 of the Corporations Act, unless ASIC grants an exemption permitting the issue.

2.14 **Rights and liability attaching to Shares and Loyalty Options**

The Shares issued on the exercise of the Loyalty Options will be on a fully paid basis and will rank equally in all respects with existing Shares. Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, a copy of which may be downloaded from the Company's website at <https://www.ovanti.com> or is available for inspection at the Company's registered office during normal business hours.

A summary of the important rights attaching to the Shares is contained in Section 4.1 of this Prospectus. The terms and conditions of the Loyalty Options are described in Section 5.

2.15 **Acknowledgements**

By receiving this Prospectus, a Shareholder will be deemed to acknowledge and agree that such shareholder:

- (i) is a current holder of Shares with a registered address in a Permitted Jurisdiction;

- For personal use only
- (ii) is not in a country or jurisdiction that is not a Permitted Jurisdiction, or acting for the account or benefit of a person that is in a country or jurisdiction that is not a Permitted Jurisdiction; and
 - (b) is eligible under all applicable securities laws to receive an offer under the Entitlement Offer.

2.16 **Brokerage and Stamp Duty Costs**

No brokerage or stamp duty is payable by Eligible Shareholders on the issue of Loyalty Options under this Prospectus.

2.17 **Minimum and Maximum Subscription**

There is no minimum subscription under the Offer.

Under the Offer the Company will not issue Loyalty Options in excess of the person's Entitlement to Loyalty Options, which is one (1) free attaching Loyalty Option for every fifteen (15) Shares held by the Eligible Shareholder at 7:00pm (AEST) on the Record Date.

3 EFFECT OF THE OFFER

3.1 Effect of the Offer on the capital structure of the Company

The principal and immediate effect of the Offer, assuming all Loyalty Options offered under this Prospectus are issued, will be to increase the number of options currently on issue by up to approximately 31,803,293 options. The Company intends to apply for (but cannot guarantee) quotation of the Loyalty Options.

There will be no change to the number of Shares expected to be on issue as at 9:00am (AEST) on 23 April 2026. However, assuming that no further Shares are issued and none of the existing options are converted, the effect of the Offer on the Company's capital structure is set out below:

(a) Shares

Shares on issue at the date of this Prospectus	477,049,389
Shares offered pursuant to the Offer	-
Total Shares on issue after completion of the Offer¹	477,049,389

Notes:

1. If all Loyalty Options which may be issued under the Offer are exercised a further 31,803,293 Shares will be issued (assuming that no Shares are issued prior to the Record Date, including on exercise or conversion of Securities on issue). This number may vary due to rounding of entitlements under the Offer. If no Loyalty Options are exercised prior to the Loyalty Option Expiry Date, there will be no change to the number of Shares currently on issue as a result of the Offer.

(b) Options

Existing options on issue at the date of this Prospectus ¹	27,000,000
Maximum Loyalty Options available for issue under the Offer ²	31,803,293
Total options on issue after completion of the Offer²	58,803,293

Notes:

1. Comprising of the following unquoted securities:

Description	Number of options
Option expiring 31-dec-2028 exercise price \$0.08	6,000,000
Option expiring 14-jul-2028 exercise price \$0.26	3,500,000
Option expiring 28-jun-2027 exercise price \$0.40	1,250,000
Option expiring 28-jun-2027 exercise price \$0.30	500,000
Option expiring 28-jun-2027 exercise price \$0.50	1,750,000
Option expiring 09-may-2028 exercise price \$0.80	1,250,000
Option expiring 23-jan-2029 exercise price \$0.06	3,000,000
Option expiring 15-oct-2028 exercise price \$0.26	3,000,000
Option expiring 22-aug-2028 exercise price \$0.05	2,500,000
Option expiring 22-aug-2028 exercise price \$0.06	1,250,000
Option expiring 13-feb-2029 exercise price \$0.06	3,000,000

2. These numbers are indicative only, are subject to rounding of entitlements for the Loyalty Options and based on the number of Shares on issue as at the date of this Prospectus, assuming all Shares are held by Eligible Shareholders.

3.2 Potential effect on control of the Company

The issue of the Loyalty Options themselves will have no effect on the control (as defined by section 50AA of the Corporations Act) of the Company. No investor or existing Shareholder will have a Voting Power greater than 4.77% as a result of the completion of the Offer and the exercise of any Loyalty Options issued under the Offer.

There will be no change to any Shareholders' Voting Power as a result of the issue of Loyalty Options. Where Loyalty Options are exercised into Shares, the Voting Power of the Shareholders who exercise the Loyalty Options will increase. The likelihood of Loyalty Options being exercised is dependent on the price of the Shares from time to time until the Loyalty Options expire.

If all the Loyalty Options are exercised and the underlying Shares issued, the Shares issued on exercise will represent approximately 4.77% of the Shares on issue following completion of the Offer (assuming no Shares are issued or convertible Securities exercised or converted into Shares prior to the Record Date).

3.3 Financial effect of the Offer

The Loyalty Options to be issued pursuant to this Prospectus will be issued for nil consideration. Accordingly, there will be no immediate effect on the Company's balance sheet. However, capital will be raised if the Loyalty Options are exercised, which will affect the Company's balance sheet.

If all Loyalty Options are issued and exercised (which is not certain), the Company will receive approximately \$954,099 (before costs) in current assets. However, the Company is not able to specify with any certainty the extent of any change to the balance sheet given the uncertainty around the number of Loyalty Options to be ultimately issued, or if and when any of those Loyalty Options will be exercised.

A full copy of the Constitution is available from the Company on request free of charge or available on the ASX website, www.asx.com.au under the Company's code "OVT".

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the

Company. Shareholders may requisition meetings in accordance with section 249D of the Corporations Act.

(b) **Voting Rights**

Subject to any rights or restrictions attached to any class or classes of Shares, from time to time, at general meetings of Shareholders or classes of Shareholders:

(c) **Dividend Rights**

While there is no guarantee of any dividends or distributions by the Company, the Directors may from time to time decide to pay a dividend in compliance with the Corporations Act. The Directors may rescind a decision to pay a dividend if they decide, before the payment date, that the Company's financial position no longer justified the payment.

The Directors may from time to time pay to Shareholders any interim dividends that they may determine.

(d) **Winding Up**

No Shareholder is obliged to accept any Shares, securities or other assets in respect of which there is any liability.

(e) **Transfer of Shares**

Subject to the Company's Constitution, the Corporations Act or any other applicable laws of Australia and the Listing Rules, the Shares are freely transferable, subject to formal requirements, and so long as the registration of the transfer does not result in a contravention of or failure to observe the provisions of a law of Australia and the transfer is not in breach of the Corporations Act or the Listing Rules.

(f) **Variation of Rights**

If at any time the share capital of the Company is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the Shares of that class) may be varied, whether or not the Company is being wound up, with the consent in writing of the holders of three quarters of the issued Shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the Shares of that class. Any variation of rights is subject to Part 2F.2 of Chapter 2 of the Corporations Act.

(g) **Increases in capital**

The Company must not issue Shares or grant options if the issue or grant would result in a breach of the Listing Rules.

(h) **Amendments to the Constitution**

The Constitution can only be amended by a special resolution in accordance with section 136(2) and 136(5) of the Corporations Act.

6 RISKS

The Loyalty Options offered under this Prospectus are considered highly speculative. In addition, there are risks inherent in investing in the share market in general. The business activities of the Company are subject to risks and there are many risks which may impact on the Company's future performance. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but many are outside of the control of the Company and cannot be mitigated.

Eligible Shareholders should be aware that an investment in the Company involves risks. Prospective investors should carefully consider the risk factors described below, together with information presented elsewhere in this Prospectus, and should consult their professional advisors before deciding whether to apply for Securities.

The key risks identified by the Company are set out below but these are not an exhaustive list of the risks associated with an investment in the Company shares. There may be other risks which the Directors and/or management of the Company are unaware which may impact upon the Company, its operations and/or the value and performance of the Loyalty Options and the Company generally.

6.1 Risks associated with the Company

(a) Future Capital Requirements and Financial Risk

Ovanti's ongoing operations and growth initiatives, including the development of its US Buy Now, Pay Later (BNPL) business, merchant partnerships and global platform expansion, may require substantial further financing in addition to any prior or future capital raisings. Debt financing, if available, may involve restrictive covenants which could limit the Company's operations and business strategy. While the Company believes that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company, or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce, delay or suspend operations, which could have a material adverse effect on its activities and its ability to continue as a going concern.

(b) Share Price Volatility

Shares listed on a stock exchange can experience extreme price and volume fluctuations that are often unrelated to the operating performance of the listed company. The market price of Ovanti's Shares may fall as well as rise and may be subject to varied and unpredictable influences. General factors that may affect the market price of Ovanti's Shares include macroeconomic conditions, investor sentiment, local and international share market conditions, changes in interest rates and the rate of inflation, the global security situation, and changes to government regulation, policy or legislation.

(c) BNPL and Fintech Regulatory Risk

Ovanti operates in the rapidly evolving fintech and Buy Now, Pay Later sector, which is subject to increasing regulatory scrutiny in Australia, Malaysia, the United States and globally. Changes to consumer credit laws, payment services regulations, anti-money laundering requirements or data privacy legislation in any jurisdiction in which Ovanti operates could impose significant compliance obligations or restrict the Company's ability to offer its products and services. There is no guarantee that the Company's current or planned products will comply with future regulatory requirements, and non-compliance could result in financial penalties, licence revocation or reputational damage.

(d) Technology and Platform Risk

Ovanti's business is dependent on the reliability, security and continued development of its technology platforms, including its SMS and digital messaging solutions, mobile backend services and BNPL payment infrastructure. Any significant disruption, failure, security breach or cyberattack affecting these platforms could impair service delivery, damage customer relationships and expose the Company to financial liability. The Company faces ongoing risks from increasingly sophisticated cyber threats. There is no guarantee that the Company's security measures will be sufficient to prevent all data breaches or system failures.

(e) Customer and Revenue Concentration Risk

A significant portion of Ovanti's revenue will be derived from a concentrated base of institutional customers, including banks, insurers, telecommunications companies and corporate clients, primarily in Malaysia. The loss of one or more key customers, or a material reduction in transaction volumes from such customers, could have a disproportionate adverse effect on the Company's revenue and financial performance. There can be no assurance that the Company will be able to maintain existing customer relationships or attract new customers on acceptable terms.

(f) Malaysian Market and Foreign Currency Risk

Ovanti conducts a substantial portion of its operations in Malaysia and derives revenue in Malaysian Ringgit and other currencies. The Company is therefore exposed to foreign currency risk, including fluctuations in the exchange rate between the Malaysian Ringgit and the Australian dollar. Adverse movements in exchange rates could materially reduce the value of the Company's revenues and assets when translated into Australian dollars. Additionally, the Company's operations are subject to the political, regulatory and economic environment in Malaysia, including changes in government policy, taxation laws and local business conditions, any of which could adversely affect the Company's operations and financial performance.

(g) US Market Expansion Risk

Ovanti is investing in the expansion of its BNPL business into the United States market, which involves significant execution risk, capital requirements and competitive challenges. The US consumer finance market is subject to a complex and evolving regulatory landscape at both the federal and state level. There is no guarantee that the Company will be able to establish sufficient merchant and partnership agreements, attract consumers, obtain necessary licences or achieve commercially viable scale in the United States. Failure to execute on this strategy could result in the loss of invested capital and adversely affect the Company's overall financial position.

(h) Competition

Ovanti competes with a range of established and well-resourced competitors in the fintech, digital payments and BNPL sectors, including global BNPL providers, banks and technology companies operating in Australia, Malaysia and the United States. Many of these competitors have significantly greater financial, technical and marketing resources than Ovanti. Increased competition could result in pricing pressure, loss of market share and reduced profitability. There can be no assurance that the Company will be able to compete effectively with its existing or future competitors.

(i) Reliance on Key Personnel

Ovanti's success is dependent on retaining and attracting skilled personnel with expertise in fintech, software development, financial services and business development across multiple jurisdictions. The loss of key management or technical staff, or the inability to attract suitably qualified personnel, could have a material adverse effect on the Company's operations and growth prospects.

(j) Intellectual Property Risk

The Company's business depends on its proprietary technology, software platforms and related intellectual property. There is a risk that the Company's intellectual property protections may be inadequate, or that third parties may develop competing or infringing technologies. Any failure to adequately protect the Company's intellectual property, or any successful claim by a third party that the Company has infringed their intellectual property, could adversely affect the Company's competitive position and financial performance.

(k) Litigation Risk

The Company may be subject to litigation or regulatory proceedings in connection with its operations, including disputes with customers, counterparties, employees or regulators. Any such proceedings, if determined adversely to the Company, may have a material

adverse effect on the Company's operations, reputation, financial performance and financial position.

(l) Force Majeure

The Company's operations and activities may be adversely affected by risks outside its control, including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, cyber incidents, epidemics or quarantine restrictions.

(m) Climate Change Risk

The Company's operations and activities may be subject to changes in local or international compliance regulations related to climate change mitigation, environmental obligations and sustainability reporting requirements. While Ovanti's operations are technology-based and have a relatively modest direct environmental footprint, increasing regulatory requirements around ESG disclosure and sustainability could impose additional compliance costs on the Company.

6.2 Risks associated with the Offer

(a) Value of Loyalty Options

The Loyalty Options that are issued as part of the Offer require the exercise price of \$0.025 per Loyalty Option to be paid at the time of exercise. If the prevailing trading price of Shares is lower than the Exercise Price, then it is likely that the Loyalty Options will not be exercised. In this case, for investors, the unexercised Loyalty Options will not have value and will lapse on the Expiry Date of the Loyalty Options.

If the Loyalty Options are not exercised, or only some of the Loyalty Options are exercised, then the Company may not receive the proceeds that would otherwise be generated if Loyalty Option holders pay the Exercise Price. This possibility may reduce the amount of capital that the Company would receive if all of the Loyalty Options are exercised on or before the Expiry Date of the Loyalty Options.

(b) Nature of the Loyalty Options

The Company will seek quotation of the Loyalty Options therefore, the Loyalty Options will be transferrable following quotation, subject to meeting the ASX's minimum eligibility criteria for quotation (and actually being quoted, which cannot be guaranteed). Even if ASX grants Official Quotation of the Loyalty Options, the market for the Loyalty Options may be illiquid. The market for Shares may be illiquid. If ASX does not grant Official Quotation of the Loyalty Options, the Loyalty Options will not be listed on ASX and remain unquoted, and therefore will not be trading on a liquid market.

There is no certainty that Loyalty Options will trade above the exercise price and accordingly there is no certainty that Loyalty Option holders will realise any value from the Loyalty Options. In the event that the Loyalty Options are exercised, this will dilute the holdings of existing Shareholders.

6.3 General risks

(a) Potential for dilution

A shareholder's percentage holding in the Company will be diluted by not participating in the Offer (which will include all retail shareholders and those institutional shareholders who do not participate in the Offer), assuming Loyalty Options are exercised. It is not possible to predict what the value of the Company or its Shares will be following the completion of the Offer and the Directors do not make any representation as to such matters. The historical trading price of the Shares on ASX prior to the date of this Prospectus is not a reliable indicator as to the potential trading price of Shares after completion of the Offer.

(b) General Economic and Investment Risks

As with all stock market investments, there are risks associated with an investment in the Company. The trading price of the Company's Shares may fluctuate with movements in

equity capital markets in Australia and internationally, and may also be influenced by a number of factors, some of which are specific to Ovanti and its operations and some of which may affect listed companies generally. Generally applicable factors that may affect the market price of Shares include: i) general movements in Australian and international securities markets; ii) investor sentiment; iii) Australian and international economic conditions and outlook; iv) changes in interest rates and the rate of inflation; v) changes in government regulation and policies (including in relation to taxation); vi) announcement of new technologies; vii) and geopolitical instability. General economic conditions may also negatively affect the Company's performance and the performance of the Company's Shares. Any protracted slowdown in economic conditions or factors such as movements in inflation or interest rates, the cost and general availability of credit, and industrial disruption may have a negative impact on the Company.

(c) Taxation

The disposal of any newly acquired Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All investors are urged to obtain independent financial advice about the consequences of disposing of any new Shares from a taxation viewpoint and generally. To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of acquiring or disposing of the new Shares under this Offer.

(d) Government and legal Risk

Changes in government, monetary policies, taxation and other laws can have a significant impact on the Company's assets, operations and ultimately the financial performance of the Company and its Shares. Such changes are likely to be beyond the control of the Company and may affect industry profitability as well as the Company's capacity to explore and mine.

The Company is not aware of any reviews or changes that would affect its permits. However, changes in community attitudes on matters such as taxation, competition policy and environmental issues may bring about reviews and possibly changes in government policies. There is a risk that such changes may affect the Company's development plans or its rights and obligations in respect of its permits. Any such government action may also require increased capital or operating expenditures and could prevent or delay certain operations by the Company the future performance of the Company or any return on an investment in the Company.

(e) Geopolitical conditions

The nature and extent of the effect of global conflicts on the performance of the Company remains unknown. The Company may be affected by the impact that geopolitical factors have on the world or Australian economies or on financial markets and investments generally or specifically, and governmental responses to such activities. The Company's Share price may be adversely affected in the short to medium term by the economic uncertainty caused geopolitical factors.

(f) Data and cyber security risk

The integrity, availability and reliability of data within the Company's information technology systems may be subject to intentional or unintentional disruption. This Prospectus has been prepared in accordance with section 713 of the Corporations Act.

Section 713 of the Corporations Act enables companies to issue transaction specific prospectuses where those companies are, and have been for a period of 12 months, disclosing entities. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It does not contain the same level of disclosure as a prospectus prepared for an initial public offering.

The Company is a “disclosing entity” for the purposes of section 713 of the Corporations Act. As such, it is subject to regular reporting and disclosure obligations which requires it to disclose to ASX any information of which it is, or becomes, aware concerning the Company and which a reasonable person would expect to have a material effect on the price or value of Securities of the Company.

Information that is already in the public domain has not been reported in this Prospectus, other than that which is considered necessary to make this Prospectus complete.

Additionally, the Company is also required to prepare and lodge with ASX yearly and half yearly financial statements accompanied by a directors' statement and report and an audit review or report. These reports are released to ASX and published on the Company's and ASX's websites.

Copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, an office of ASIC. The Company will provide a copy of each of the following documents, free of charge, to any person who asks for it during the period of the Offer:

2 Target Market

The below table summarises the overall class of consumers that fall within the target market for the Loyalty Options, based on the product's key attributes and the objectives, financial situation and needs that it has been designed to meet:

Factor	Target Market
Investment objective	<p>The Company expects that an investment in the Loyalty Options will be suitable to persons:</p> <ul style="list-style-type: none"> • who wish to have a right, but not an obligation, in the short to medium term, to acquire Shares in the Company prior to the Expiry Date; • who wish to gain exposure to equities in a company listed on the ASX which delivers financial technology solutions and digital ecommerce platforms; and/or • hold medium term views on the Company's performance and/or the industry within which it operates.

Factor	Target Market
Investment timeframe	<p>The Loyalty Options have an expiry date of 4 years from their date of issue. The target market of investors will take a short to medium term outlook on their investment.</p> <p>Investors with a short-term outlook for their investment will benefit from an anticipated listing of the Loyalty Options on ASX, as well as the ability to exercise the Loyalty Options and trade the underlying Shares issued on exercise should the exercise price of the Loyalty Options be lower than the trading price of the Shares.</p> <p>Investors with a medium-term outlook will benefit from an ability to exercise the Loyalty Options up until the Expiry Date and increase their shareholding and exposure to the potential upside in the Company's Shares in the future.</p> <p>To exercise the Loyalty Options and acquire Shares, investors will need to pay the exercise price. Therefore, investors in the target market are in a financial position that is sufficient for them to invest their funds over a 4-year horizon in the period until the Expiry Date should they wish to exercise their Loyalty Options. Any decision to exercise the Loyalty Options is likely to be based on the trading price of Shares.</p>
Investor metrics	<p>While the Company does not have an established eligibility framework for investors based on metrics such as age, expected return or volatility, it is expected that the target market of investors will be able to withstand potential fluctuations in the value of their investment. The Loyalty Options (and any resulting shares in the Company) offer no guaranteed income or capital protection.</p> <p>To realise the underlying value of the Loyalty Options, the Loyalty Options must be exercised on or before their expiry on the Expiry Date. Investors in the target market will need to be in a financial position to have sufficient available funds so as to pay the exercise price to exercise the Loyalty Options prior to the Expiry Date.</p>
Excluded class of consumers	<p>The Loyalty Options are not suitable for investors:</p> <ul style="list-style-type: none"> • who are not seeking to have the potential to increase their investment in the Company; • who do not understand and appreciate the risks of investing in options as an asset class generally and the more specific risks of investing in the Company; • who do not ordinarily invest in speculative investments in the financial technology sector; • who require an income stream from their investment; and • who are residents outside Australia, New Zealand and Malaysia and are therefore not Eligible Shareholders under the Offer.
Risk	<p>The Company considers that an investment in the Loyalty Options is high risk and highly speculative, such that an investment in the Company is not appropriate for an investor who would not be able to bear a loss of some of all of the investment.</p> <p>Investors should have a sufficient level of financial literacy and resources (either alone or in conjunction with an appropriate adviser) to understand and appreciate the risks of investing in Loyalty Options as an asset class and generally the more specific risks of investing in the Company.</p> <p>Specific risks relating to the Company and an investment in securities under the Offer are set out in the Prospectus and investors should review those risks carefully before deciding whether to invest.</p>

For personal use only

Factor	Target Market
	Investors should consider that there is no guarantee that the Company's share price will exceed the exercise price of the Loyalty Options.

The Company has assessed the Loyalty Options and formed the view that the Loyalty Options are likely to be consistent with the objectives, financial situation and needs of investors in the target market as described above in this section 2.

3 Distribution conditions

The offer of Loyalty Options under the Prospectus is being made to Eligible Shareholders, who are registered as a holder of Shares with a registered address in Australia, New Zealand or Malaysia as at 7:00pm (AEST) on 30 April 2026.

The Prospectus will include jurisdictional conditions on eligibility. Retail clients cannot meet the eligibility criteria of the expected target market outlined in this TMD if they do not have a registered address in Australia, New Zealand or Malaysia.

As the Offer is a pro-rata bonus issue of options, Eligible Shareholders are not required to apply for Loyalty Options and, as such, there is no application form attached to the Prospectus.

In the Prospectus, the Company has outlined key risks of investment in the Loyalty Options and emphasised that investment in the Loyalty Options should be regarded as speculative. This would make it not suitable for investors for whom such an investment is inappropriate.

A copy of the Prospectus and this TMD is available on the Company's website, <https://www.ovanti.com/> and on the ASX website, <https://www.asx.com.au/> under the Company's code "OVT".

The Company considers that these distribution conditions will ensure that persons who invest in the Loyalty Options fall within the target market in circumstances where personal advice is not being provided to those persons by the Company.

4 Review Triggers

The Loyalty Options are being offered for a limited period set out in the Prospectus, after the conclusion of which the Loyalty Options will no longer be available for investment by way of issue. It follows that the TMD will only apply in the period between the commencement of the offer of the Loyalty Options and the issue of Loyalty Options shortly after the close of the Offer (**Offer Period**) after which the TMD will be withdrawn.

To allow the Company to determine whether circumstances exist that indicate this TMD is no longer appropriate to the Offer and should be reviewed, the following events and circumstances will be review triggers:

- (a) a material change to the Loyalty Options' key attributes that make it no longer consistent with the likely objectives, financial situation and needs of investors in the target market;
- (b) the Company lodges with the ASIC as supplementary or replacement prospectus in relation to the Prospectus;
- (c) the occurrence of a significant dealing in Loyalty Options that is not consistent with this TMD. The Company does not consider that an on-sale of the Loyalty Options on market is a significant dealing;
- (d) a substantial divergence in how the Loyalty Options are being distributed and purchased from this TMD;

For personal use only

- (e) ASIC raises concerns with the Company regarding the adequacy of the design or distribution of the Loyalty Options or this TMD;
- (f) there is a significant increase in the number of complaints received in respect of the Loyalty Options; and
- (g) material changes to the regulatory environment that applies to an investment in the Loyalty Options.

The Company may also amend this TMD at any time.

5 Review Period

If a review trigger occurs during the Offer Period, the Company will undertake a review of the TMD in light of the review trigger (as applicable) as soon as reasonably practicable and, in any case, within 10 business days of the review trigger occurring.

The Company will otherwise conduct a review of the TMD prior to the issue of Loyalty Options under the Offer.

6 Reporting Requirements

As the Company is not appointing external distributors of Loyalty Options in respect of retail clients, the Company will consider any of the following matters:

- (a) complaints received by the Company in relation to the Loyalty Options;
- (b) a significant dealing of the Loyalty Options which is inconsistent with this TMD;
- (c) any dealings outside of the target market (to the extent the Company is aware of such dealings); and
- (d) the conduct of the Company under the TMD.

Where relevant, the Company will consider any of the above matters and determine the appropriate steps that will be taken, including, where appropriate, reporting matters to ASIC.
