

24 April 2026

Quarterly Report For the Period Ended 31 March 2026

Operational Highlights

- Gold asset spin-out through an Initial Public Offering (IPO) into MB Gold Limited completed in February 2026
- Further advancement of Manna Lithium Project with submission of vital permitting applications with the Department of Mines, Petroleum and Exploration
- Advanced discussions, negotiations and exchanges of draft terms sheets for funding and offtake arrangements for Manna Lithium Project
- Key project appointments to senior management of the Company

Corporate

- Cash position of \$19.8m as at 31 March 2026

Established multi-asset West Australian lithium company Global Lithium Resources Limited (**ASX: GL1**, "**Global Lithium**" or "the **Company**") reports its activities for the quarter ended 31 March 2026.

Manna Lithium Project

Permitting applications to the Department of Mines Petroleum and Exploration (DMPE)

During the quarter, the Company lodged its Native Vegetation Clearing Permit (NVCP)¹ application and its Mining Development and Closure Proposal (MDCP)² with the Department of Mines, Petroleum and Exploration (DMPE).

The NVCP application relates to proposed vegetation clearing within the approved Development Envelope at the Manna Project. Subject to DMPE approval, the application represents an important early step in enabling further site-based activities required for the development of the Manna Project and forms part of GL1's systematic approach to de-risking and advancing the project toward a Final Investment Decision (FID).

The MDCP includes detailed plans for the development of essential infrastructure required for the Manna Project. Subject to its assessment and approval, the MDCP will permit the development of project components including the accommodation village, open pits, processing plant and access roads. Importantly, this proposal also encompasses the full mine closure strategy, aligning with the highest standards of environmental stewardship.

Advancement of Financing/Offtake Arrangements

During the quarter discussions, negotiations and, in some instances, drafting of term sheets took place with numerous parties in relation to securing funding and offtake arrangements for the Manna Lithium Project. The discussions included a variety of funding mechanisms. By the end of the quarter the Company had narrowed the number of potential funders and offtake partners and specific terms remained under negotiation.

Subsequent to quarter end, the Company executed a Binding Term Sheet with Jiangsu Lopal Tech. Group Co., Ltd which provides for an equity investment of A\$7.32 million, an offtake prepayment facility of US\$75 million and an offtake over 40% of the spodumene concentrate production which will accelerate and underpin the development of the Manna Lithium Project.³

Key Project Appointments

To further bolster the Manna Project's development and underscore our commitment to bringing it into production, several key appointments to our project leadership team were made during the quarter in the roles of Project Manager, Contracts Manager and Marketing Manager². These strategic hires reflect the Company's focus on building a robust, experienced team capable of executing the Manna Project effectively and efficiently.

Exploration

Minor site activities including regional water exploration commenced during the quarter at the Manna Project.

Community Relations

On 27 January 2026 the first Manna Lithium Project Community Relationship Committee meeting was held in Kalgoorlie. The committee including a Chair, a secretary and four other members was formally established, and the role of the committee was discussed.

The Committee's role is to oversee the Company's engagement with Traditional Owners and local communities, ensuring consultation, engagement and meaningful community benefit in relation to the Manna Lithium Project.

The Committee will meet on a quarterly basis.

1. ASX Announcement 10th February 2026 "GL1 submits NVCP application for Manna Lithium Project"
2. ASX Announcement 3rd March 2026 "Manna Lithium Project continues to advance with submission of MDCP and key project appointments"
3. ASX Announcement 22nd April 2026 "Transformational funding secured to underpin development".

Marble Bar Project

Exploration

No site activities were carried out during the quarter at Marble Bar.

Corporate

During the quarter the Company completed the IPO process to spin-out its prospective Marble Bar gold assets into MB Gold Limited (**MB Gold**). MB Gold was admitted to the Official List of the ASX and commenced trading on the 6th February 2026.³

The completion of this strategic spin-out marks another significant milestone for GL1, enabling the Company to dedicate its resources, expertise and capital primarily towards accelerating its flagship Manna Lithium Project toward a Final Investment Decision by the end of 2026.

During the quarter 1,230,000 ordinary shares were issued on the exercise of vested employee (230,000) and director (1,000,000) performance rights.^{4,5}

In March, Mr Daniel Coletta was appointed as Company Secretary and Chief Financial Officer following the retirement of Mr Kevin Hart.⁶
