

24 April 2026

Investigator Silver Limited
Quarterly Activities Report
Period ending 31 March 2026

HIGHLIGHTS

Paris Silver Project – DFS Outcome Confirmed Strong Economics

- Definitive Feasibility Study (DFS) confirms Paris as a high-margin, financeable silver project with a clear pathway to development.
- Pre-tax NPV₈ of A\$1.15B, IRR of 93%, and ~11-month payback from first production¹.
- Conventional, low-risk development: shallow open pit and standard processing flowsheet, supporting execution certainty and reliable ramp-up.
- Maiden Ore Reserve declared, underpinning the initial mine plan and development case.

Strategic Placement – Accelerate Paris Into Early Works

- Completed A\$55m institutional placement, including participation from major shareholder Jupiter Asset Management.
- Strengthened balance sheet to remove near-term funding uncertainty and enable early, schedule-critical workstreams ahead of a construction decision.

Corporate – Strengthened Balance Sheet

- Cash balance of A\$51M as at 31 March 2026. Post quarter end, shareholders approved the second tranche of the institutional placement of ~A\$13M, which is expected to provide additional funding upon completion.

Managing Director’s Comment

Investigator Silver Managing Director, Lachlan Wallace, commented on the quarter:

“The delivery of the DFS marks a significant inflection point for the Company, establishing Paris as a high-margin, financeable silver development in a Teir 1 jurisdiction with a clear pathway to production.

With funding secured during the quarter, our focus has shifted decisively to execution. We are progressing engineering, approvals and targeted drilling programs designed to support financing and enhance early project confidence.

This next phase is about systematically de-risking and advancing Paris toward a construction decision, while continuing to build scale through resource conversion and district exploration.”

¹ ASX Announcement 27 February 2026 - Paris Silver DFS Confirms High-Margin, Finance-Ready Development Pathway; Maiden Ore Reserve Declared. Based on silver price of US\$80/oz and exchange rate of AUD:USD 0.69.

QUARTERLY OVERVIEW

The March 2026 quarter represents a transformational period for Investigator Silver Limited (**ASX: IVR, Investigator, the Company**), with the completion of the Paris DFS and successful capital raising positioning the Company to transition from study into execution.

The Company is now focused on advancing Paris toward development, with workstreams aligned to financing readiness, engineering progression and project de-risking.

OPERATIONS

Paris Silver Project – Definitive Feasibility Study (DFS) Outcome

During the quarter, Investigator released the DFS for the Paris Silver Project on South Australia’s Eyre Peninsula.

The study confirms a robust, financeable development case, underpinned by strong margins, rapid capital payback and a modest development funding requirement relative to project value. Importantly, the project is designed around simplicity and execution certainty, utilising conventional mining and processing methods with no reliance on novel technologies.

The mine plan is deliberately structured to prioritise early access to higher-grade ore, accelerate cash flow and support rapid capital recovery. This is complemented by the establishment of stockpiles in the early years, providing operational flexibility and downside protection, key considerations for project financing.

The Project benefits from a single landholding, supportive stakeholder environment, and a jurisdiction recognised for regulatory clarity and investment attractiveness.

Strong financials¹

Key DFS outcomes (pre-tax, ungeared) include:

- A\$1.87B life-of-mine free cash flow (~11 years)
- NPV₈ A\$1.15B and IRR 93%
- ~11-month payback from first production
- Low AISC of A\$39.70, supporting strong operating margins ~64%
- Low capital intensity of A\$260M
- Strong leverage to silver price:
 - +US\$1/oz = ~A\$27M NPV uplift, and
 - +US\$1/oz = ~A\$42M life-of-mine free cash flow

Overall, the DFS highlights a capital-efficient development with strong cash generation and rapid deleveraging capacity, supporting a compelling financing profile.

¹ ASX Announcement 27 February 2026 - Paris Silver DFS Confirms High-Margin, Finance-Ready Development Pathway; Maiden Ore Reserve Declared. Based on silver price of US\$80/oz and exchange rate of AUD:USD 0.69.

EXPLORATION

Paris Silver Project – Drilling Program Commenced

During the quarter, the Company commenced a drilling program at the Paris Silver Project, marking the transition from study into execution-focused activities.

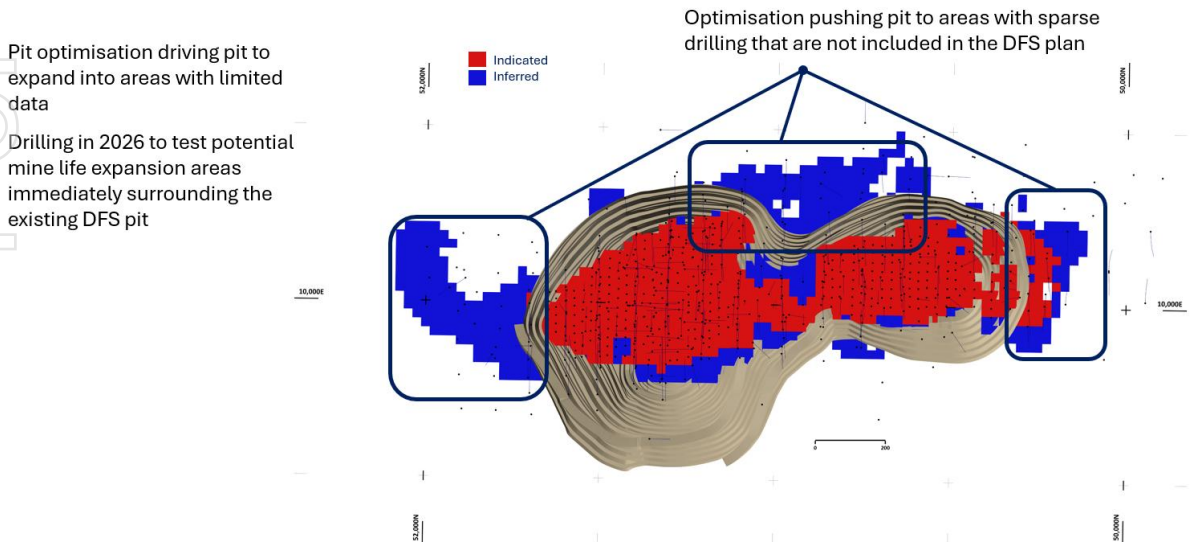

The program is designed to support the next phase of project development, with a primary focus on increasing data density within the early years of the mine plan to a level consistent with grade control. This work is specifically targeted at areas scheduled for mining during the initial years of operation, where confidence in grade, tonnage and continuity is most critical to financing and early project performance.

Figure 4 High density drilling to derisk production start up

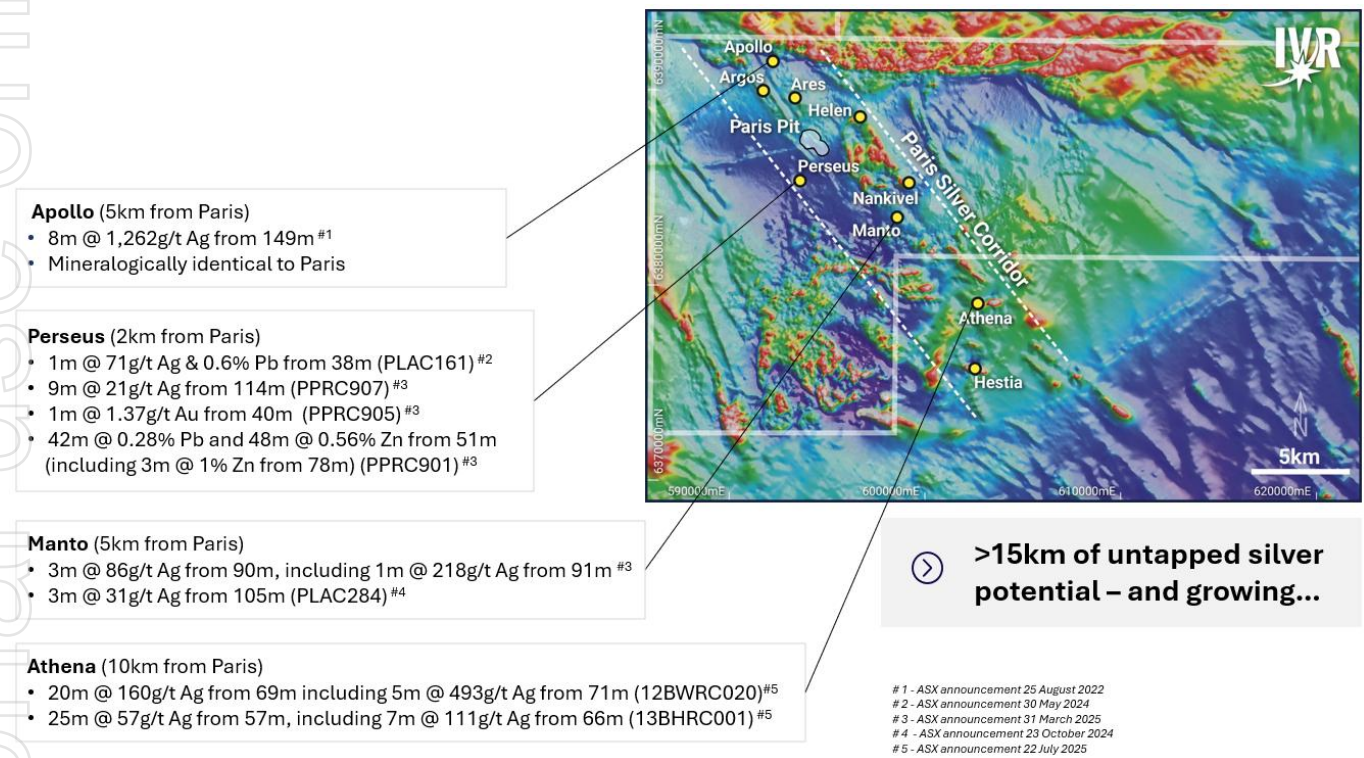

In addition, drilling is targeting mineralisation adjacent to the current pit design, where material is already defined but not yet included in the mine plan. As these areas are drilled and converted to higher confidence categories, there is clear potential to support pit expansion and enhance overall project scale and value.

Figure 5 Drilling to upgrade geological confidence

The program also forms part of a broader strategy to advance the Paris Silver Corridor, with selected drilling aimed at testing extensions of known mineralisation and supporting longer-term growth beyond the current mine plan.

Figure 6 Unlocking district scale opportunity within a 15km long mineralised corridor

Drilling commenced in early March and is progressing as planned, with results to be reported as they become available. Outcomes from the program are expected to support financing workstreams, mine plan optimisation and future resource growth.

Curnamona Project – Drill Program Update

At the Curnamona Project, drilling commenced in November 2025 and progressed through to the end of the year before pausing over the Christmas period.

Drilling resumed in early 2026 but was temporarily suspended due to wet weather conditions, resulting in the partial completion of the planned program. The drill rig has since been relocated to Paris to support current priorities, with the Company intending to return to Curnamona to complete the program in H2 2026.

No assay results have been received to date, with samples remaining on site due to weather-related access constraints. Results from this program are expected to support target refinement and planning for subsequent exploration phases.

CORPORATE ACTIVITIES

Molyhil Sale Completed

Investigator Silver completed the divestment of its 25% interest in the Molyhil Tungsten-Molybdenum Project in the Northern Territory, receiving the \$750,000 completion payment. The Company retains the rights to further deferred consideration totalling \$1,312,500, payable in three equal annual instalments (with 50% able to be paid in shares at Tivan's election, as previously disclosed⁵).

The completion of the Molyhil divestment is consistent with Investigator's strategy to streamline the portfolio and focus on its core precious metals growth platform, centred on the Paris Silver Project.

A\$55M Strategic Placement

The Company completed a A\$55 million two-tranche institutional placement supported by both existing and new domestic and international institutional investors.

On 9 March 2026 the settlement of Tranche 1 comprised of the issue of approximately 484.5 million New Shares at an Offer Price of \$0.086 per New Share, raising a total of ~A\$41.7 million with the allotment and trading of New Shares taking place on 10 March 2026.

Post quarter end, Tranche 2 of the Company's placement was approved by shareholders on 21 April 2026, at the Company's Extraordinary General Meeting. Completion of Tranche 2 is expected to provide additional funding of ~A\$13 million, subject to settlement.

With an estimated development funding requirement of approximately A\$260 million for Paris, the Company considered it important to secure funding at this stage to remove near-term financing uncertainty and enable an accelerated execution program.

The Placement strengthened Investigator's balance sheet and supports early, schedule-critical activities that position Paris for a construction decision and accelerate the pathway to first silver. Placement proceeds will also support general working capital and corporate purposes consistent with progressing the Paris Silver Project and maintaining disciplined financial management.

Cash position

At 31 March 2026, Investigator Silver held a strong cash position of A\$51 million, underpinned by the first tranche of the placement which was completed during the quarter. Post quarter end, shareholders approved a second tranche of the placement, which will provide additional funding upon completion.

In addition, the Company has \$19.4 million of in-the-money options on issue (expiry March 2028), which, if exercised, would further bolster the Company's financial position.

Corporate Disclosure and Reporting

In the attached Appendix 5B, the figure of \$129k (as disclosed in section 6.1 and 6.2) relates to all fees, salaries and superannuation paid to Investigators Directors for the March 2026 Quarter. The Company's cash spend on exploration and evaluation activities as outlined within this report was \$1.34 million for the quarter.

⁵ ASX Announcement 16 September 2025 - Molyhil Sale Crystallises Value and Sharpens Precious Metals Focus

Listed Options – IVROB

The Company had 462.6 million listed options (ASX: IVROB) on issue at the end of the Quarter with an exercise price of \$0.042 and expires 24 March 2028.

Following increasing enquiry from Option holders on how to exercise their IVROB options with the IVR share price currently trading in excess of the option exercise price, we outline the procedure below:

- Complete your Exercise of Options Notice Form provided by the share registry for the amount you wish to exercise by no later than 5:00pm (ACST) on 24 March 2028. This may be found by logging into your Computershare account under the Statements section.
- Remit the funds via EFT directly to the Company's bank account per the instructions included on the Option Exercise Form and include your SRN/HIN as the reference number.
- Email your completed exercise of Options Notice form and confirmation of bank transfer to info@ivrsilver.com.au
- The Company will issue the IVR Shares in respect of the New Options exercised within 5 business days following receipt of a Notice of Exercise Form and receipt of funds.

If you have any enquiries concerning your Option holding, please contact Computershare Investor Services Pty Limited on 1300 850 505.

LOOKING AHEAD

Over the coming quarter, Investigator will focus on advancing Paris toward a development decision through:

- Engineering progression toward a build-ready project (FEED and execution planning).
- Approvals pathway advancement, including environmental and permitting activities.
- Targeted infill drilling to increase data density in early mining areas, supporting financing due diligence.
- Resource conversion and near-pit drilling to support potential pit expansion.
- District-scale exploration across the broader Paris Silver Corridor to underpin long-term growth.
- Project financing workstreams, including lender engagement and data room readiness.
- Early works planning, focused on schedule-critical path items.

For and on behalf of the board.

ABOUT INVESTIGATOR SILVER

Investigator Silver Limited (ASX: IVR) is advancing its 100%-owned Paris Silver Project, located on South Australia's Eyre Peninsula approximately 70km north of Kimba.

Paris hosts a JORC 2012 Mineral Resource of 24Mt @ 73g/t Ag and 0.4% Pb for 57Moz silver and 99kt lead (Indicated + Inferred), and a maiden Ore Reserve of 12Mt @ 88g/t Ag for 33Moz silver (Probable).

The Company has completed a Definitive Feasibility Study (DFS) for Paris, confirming a conventional, low technical risk development pathway: a shallow open-pit orebody mined by contract mining, processed via a whole-ore cyanide leach flowsheet with Merrill–Crowe doré recovery.

The DFS outcomes support a fundable project profile, characterised by strong operating margins and rapid payback.

Investigator is now focused on progressing Paris from DFS into execution by advancing engineering, approvals and early development activities, while continuing exploration to support mine expansion and district-scale growth within the broader Paris region.

COMPETENT PERSONS STATEMENT

The information in this report relating to Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Mr Jason Murray who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM) and a full-time employee of the Company. Mr Murray has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that relates to Mineral Resource Estimates at the Paris Silver Project is extracted from the release titled "Paris Mineral Resource Estimate Update" dated 5 July 2023, and information in this report that relates to Paris Definitive Feasibility Study is extracted from the release titled "Paris DFS Confirms Maiden Ore Reserve, Strong Economics" dated 27 February 2026. Both announcements are available to view on the Company's website. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements, and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that relates to Ore Reserves is based on, and fairly represents, information and supporting documentation prepared by Mr Atish Kumar, who is a member of the Australasian Institute of Mining and Metallurgy (AusIMM) and a consultant to the Company and is employed by Perth Mining Consultants. Mr Kumar has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(364)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(1,340)
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(1,704)
8.4 Cash and cash equivalents at quarter end (item 4.6)	50,898
8.5 Unused finance facilities available at quarter end (item 7.5)	-
8.6 Total available funding (item 8.4 + item 8.5)	50,898
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	29.87
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: N/A	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: N/A	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: N/A	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- This statement gives a true and fair view of the matters disclosed.

Date: 24 April 2026

Authorised by: By the Board
(Name of body or officer authorising release – see note 4)

Notes

- This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
- If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]".
