Answer: No. While Operating expenses are likely to continue at the current levels, with the imminent mining of ore from Podosky, the company believes that the grade of ore found there will inject considerable cash in the short term.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: Yes. The board is currently investigating a number of financing/debt options that together with the expected increase in gold revenue and the unused Yogi Bear (see 7.6 above) facility will allow the business to continue to fund its operations.
