## Beforepay Group Limited Q3 FY26 Quarterly Activities and Appendix 4C Cash Flow Report (Unaudited)

### Beforepay accelerates personal-loan growth while continuing disciplined investment in business

Beforepay Group Limited (the Company) (ASX: B4P) has released its Quarterly Activities and Appendix 4C for the quarter ended 31 March 2026 (Q3 FY26).

*Beforepay Group CEO, Jamie Twiss said, "We have begun to scale the Personal Loan product, with a 73% increase in originations over last quarter, and have opened applications to new customers. Continued top-line growth and strong credit performance drove our strongest-ever Net Transaction Margin of \$7.9m, up 35% from last quarter. We also made pricing changes during the quarter, applying interest to a greater portion of pay advances."*

### Q3 FY26 Business Update

- **Profitability:** The Company had a Net Profit Before Tax (NPBT) of \$0.4m, up by \$0.1m from the previous quarter.
- **Advances:** Quarterly advances reached \$241m, up 20% year-on-year (YoY), driven by a 17% increase in the average advance size to \$455.
- **Revenue:** Revenue increased to \$12.1m, up 20%, underpinned by higher advance volumes and mix and pricing adjustments.
- **Personal Loans:** Personal Loans continue to scale with loans now offered to customers that are new to the Beforepay Group. 1,492 loans written in the quarter (up 61% from Q2 FY26). Total personal-loan originations were \$4.9m (up 73%) The average advance size was \$3,295, with a maximum limit of \$5,000 for up to 6 months for eligible customers.
- **Pay Advances:** The Company has applied interest charges to a larger portion of pay advances. During Q3, interest was charged on 2.7% of advances (by dollar volume). This increased over the course of the quarter, with interest charged on 7.2% of advances by volume in March 2026 and 16.3% of advances in the final 7 days of the quarter. Interest is charged at 2% per month and is in addition to the 5% origination fee.
- **Net defaults:** Net defaults decreased to 1.09%, down from 1.26% in Q3 FY25. This is in line with the seasonal holiday trend.
- **Duration:** the average Pay Advance duration remained at 26 days.
- **Net transaction margin (NTM):** NTM increased to \$7.9m in the quarter, up 34% YoY from \$5.9m in Q3 FY25, driven by higher advances.
- **Operating expenses:** Increased by 32% to \$6.8m from \$5.2m in the prior quarter. This

was driven by the non-recurrence of some incentive-pool writebacks in Q2, as well as an increase in marketing spend, an increase in depreciation, and filling some vacant positions as part of our continued investment in growth. The cost base is expected to stabilise, supporting operating leverage as revenue scales.

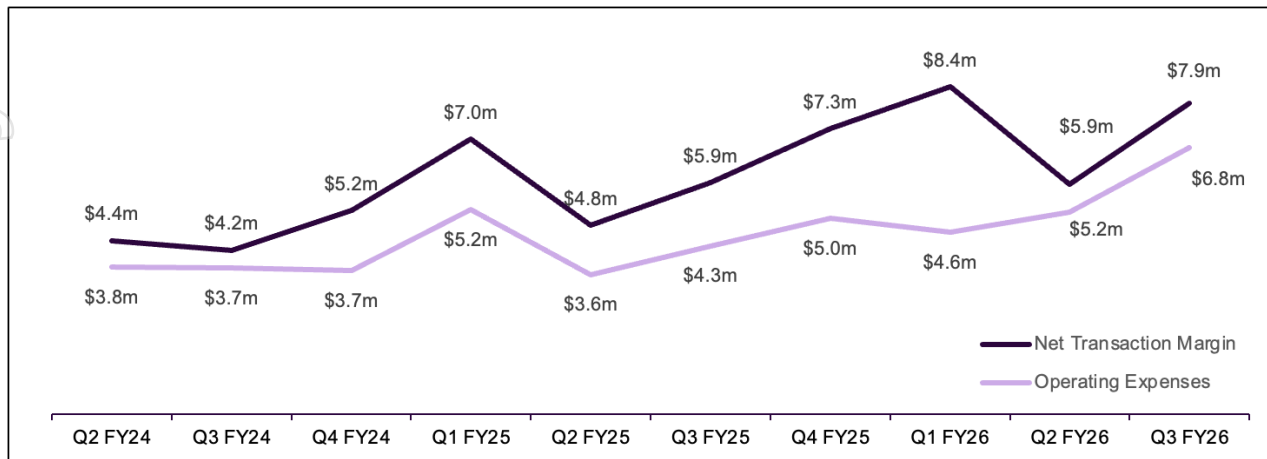

- **Active users:** Increased 2% QoQ to 272,191. The average customer acquisition cost (CAC) in the quarter was \$63. The Group continues to focus its acquisition efforts on higher-value customers as it improves its ability to forecast customer lifetime value and to reduce the acquisition of riskier and lower-value customers.
- **Balance Sheet:** The Company maintained a strong balance sheet with an equity balance of \$45.0m and Total Cash of \$12.2m as at Q3 FY26 (Q2 FY26 Total Cash of \$17.5m). Total Cash included \$7.2m of cash-at-bank and \$5.0m of cash held in our funding and settlement accounts. Total Cash declined \$5.3m QoQ in part due to an increase in the gross loan book from \$60.9m to \$67.0m.
- The Group continues to progress opportunities with Carrington Labs and has made some additions and adjustments to the product offering.

### About Beforepay Group

Beforepay Group was founded in 2019 to support working Australians who have not been well-served by the traditional financial-services industry. Our lending arm, Beforepay, offers consumers an ethical, customer-friendly way to help manage temporary cash-flow challenges through small pay advances, as well as offering personal loans.

Carrington Labs, our enterprise arm, enables banks, non-bank lenders, credit unions and fintechs to elevate their lending performance through deep credit risk insights that can help increase approval rates, cut defaults and grow margins.
