

Quarterly Activities Report For the Quarter Ending March 2026

US1 Critical Minerals Limited (**ASX:USC**) (**USC** or the **Company**) provides shareholders with the Company's Activities and Appendix 5B Cashflow Report for the quarter ending 31 March 2026.

US REE PROJECT

In the prior quarterly reports, the Company advised that it had entered into an agreement with Apex USA Resources LLC (Apex) with the objective of identifying and developing potentially promising Rare Earth Elements tenements (Tenements) in the USA (Apex Agreement) and the dispute that has arisen with Mr Stephen Baghdadi, Dateline Resources Ltd (ASX:DTR) and others (Respondents), in relation to certain tenements in California, USA identified by Apex pursuant to the Apex Agreement. The Company also advised that it and Apex commenced proceedings in the Federal Court against the Respondents to protect its position in relation to the Apex Agreement.

Mr Baghdadi and Dateline, including Dateline's subsidiaries, have provided an undertaking to the Court not to take any action to encumber, sell, transfer, dispose of or otherwise disturb the status quo of the Tenements the subject of the Agreement without first providing 14 business days prior written notice to the Company and Apex, or until further order of the Court.

During the quarter, the Company continued to undertake pre-trial activities in preparation for the legal proceeding which seeks to determine substantial issues in relation to the dispute. The trial of the legal proceedings commenced on 20 April 2026 before Justice Beach in the Federal Court. On 23 April 2026, the proceedings were adjourned part heard. The proceedings will resume for four days commencing 1 June 2026 for the purpose of undertaking cross examination of the Respondents' witnesses and the expert witnesses and for two days commencing 15 June 2026 for hearing closing arguments.

URANIUM TENEMENTS – TANZANIA

During the quarter, the Company continued its technical review of its Tanzanian uranium assets, including the South-West Corner, Mtyona, Likuyu North and Foxy prospects within the Mkuju Uranium Project region in south-west Tanzania. This work builds on the geological interpretation and radiometric results previously reported for the Likuyu South target and the broader Mkuju Project area. The Company maintains its view that the project area exhibits geological characteristics consistent with roll-front style uranium mineralisation, including the presence of an extensive redox front identified through historical drilling, surface geochemistry and ground radiometric surveys.

The directors are presently evaluating a program to enhance the geological understanding of the tenements through undertaking more detailed geological mapping.

Discussions in relation to the sale of several of the Company's Tanzanian uranium tenements are ongoing and shareholders are cautioned that no transaction may eventuate.

FEDERAL COURT OF AUSTRALIA PROCEEDINGS AGAINST ANDREW JOHN PRICE

As previously advised, the Company commenced legal proceedings by filing a statement of claim in the Federal Court of Australia (Proceedings) against Andrew John Price (Andrew Price). The Company alleges that since late-2023, Andrew Price has made numerous false and malicious statements via the X Platform (formerly Twitter) concerning the Company (the Statements), with the intention or with reckless disregard as to whether the Statements would injure the Company. The Company also alleges that Andrew Price's Statements were misleading or deceptive or likely to mislead or deceive or alternatively, false and misleading for the purposes of the Corporations Act 2001 (Cth). The Company seeks to recover damages from Andrew Price as the Statements have prevented the Company from pursuing commercial and business opportunities. The Board strongly condemns these targeted and malicious actions and intends to pursue all appropriate legal remedies available to it to protect the interests of the Company and its shareholders. During the quarter, the Company continued to undertake pre-trial activities.

CORPORATE

During the quarter, the Company completed the issue of listed bonus options to shareholders as well as the options arising from the December 2025 placement to sophisticated and professional investors. The options have an exercise price of \$0.015 and expire on 31 March 2029. As at 31 March 2026, the Company has 963,852,383 ordinary shares and 391,491,386 listed options on issue.

At the shareholders meeting called to approve the issue of options arising from the December 2025 placement, referred to above, shareholders also approved a grant of a total of 60 million performance options to Mr Geller.

During the quarter, the Company continued discussions regarding the potential acquisition of additional critical minerals and other assets. These discussions form part of the Company's broader strategy to expand and advance its asset base within stable and well-established mining jurisdictions. While discussions are ongoing, no binding agreement has been entered into and shareholders are cautioned that no transaction may eventuate. USC remains committed to and continues to assess opportunities that align with its strategic objectives and capital discipline. Shareholders will be kept informed in accordance with the Company's continuous disclosure obligations.

During the quarter, OTC Markets determined that the Company's securities, as quoted on that market, be moved from OTCQB to OTCID. This determination has no impact on the Company's primary listing on the ASX.

As of 31 December 2025, the Company had cash at bank of \$872k.

In April 2026, the Company advised that it had raised \$1 million through placing 50 million shares at \$0.02 per share.

Related party payments

Payments to related parties during the quarter, disclosed in section 6 of the Appendix 5B, of \$61k are for director fees and superannuation payments.

Further Information as Required under Listing Rule 5.3

Mining exploration activities undertaken during the quarter are detailed above. The main expenditure components were licence renewal costs of \$173k.

No mining production and development activities occurred during the quarter.

No licences were acquired or given up in the quarter. The Company's licences held by Zeus Resources in Tanzania are as set out in the attached schedule.

Authorisation

This announcement has been authorised for release by the board of US1 Critical Minerals Ltd.

About US1 Critical Minerals Ltd

US1 Critical Minerals Ltd (ASX: USC) is an Australian-listed exploration company advancing a portfolio of critical minerals opportunities with a strategic focus on the United States. In addition to its U.S. rare earths strategy, the Company maintains a substantial uranium and critical minerals project base in Tanzania, including the Mkuju Project (incorporating the Likuyu North deposit, Likuyu South target and the Mtonya-SWC corridor) and additional exploration assets such as the Eland and Foxy projects. USC's strategy is to develop a high-quality portfolio positioned to support U.S. supply-chain security and long-term development pathways through disciplined technical work, strategic partnerships, and access to international capital markets.

7. Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity. Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$A'000	Amount drawn at quarter end \$A'000
7.1 Loan facilities		
7.2 Credit standby arrangements		
7.3 Other (please specify)		
7.4 Total financing facilities		
7.5 Unused financing facilities available at quarter end		
7.6 Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		

8. Estimated cash available for future operating activities	\$A'000
8.1 Net cash from / (used in) operating activities (item 1.9)	(880)
8.2 (Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3 Total relevant outgoings (item 8.1 + item 8.2)	(880)
8.4 Cash and cash equivalents at quarter end (item 4.6)	872
8.5 Unused finance facilities available at quarter end (item 7.5)	
8.6 Total available funding (item 8.4 + item 8.5)	872
8.7 Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.99
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
Answer: Yes, whilst the Company remains in the development, pre-revenue stage.	
8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer: In April 2026, the Company advised that it had raised \$1 million through placing 50 million shares at \$0.02 per share.	
8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
Answer: Yes, with the initiatives referred to in the answer to 2 above and cash on hand.	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
