

## MARKET UPDATE FOR QUARTER ENDED 31 MARCH 2026

BauMart Holdings Limited (“BauMart” or the “Company”) is pleased to provide the following update on its operational and strategic progress for the quarter ended 31 March 2026, together with its Appendix 4C quarterly cash flow report.

The March quarter represented a period of purposeful progression across BauMart’s core business areas. The Company maintained a disciplined focus on advancing its priority initiatives, strengthening its operational foundations, and building the commercial pathways necessary to support sustainable growth in the periods ahead.

### Operational and Strategic Highlights

#### 1. Modular Building Initiative

- During the quarter, BauMart continued to advance its modular building solutions programme, with further development of design concepts, operational frameworks, and delivery models aligned with efficiency, sustainability, and scalability objectives. The initiative reflects the Company’s considered approach to building a commercially viable offering in this sector.
- The modular building initiative remains a key pillar of the Company’s diversification strategy, positioned to address evolving housing and infrastructure needs across Australian and regional markets. Engagement with selected industry participants and prospective partners continued during the quarter, with focus directed toward evaluating commercially viable project pathways and near-term opportunity pipelines.
- The Company anticipates providing further updates as these initiatives progress through defined planning and execution milestones, with the objective of transitioning from development activity to operational deployment in a structured and measured manner.

#### 2. Core Business Divisions

- BauMart continued to advance activity across its established operating divisions during the quarter, including:
  - international human resource solutions;
  - industrial and construction product distribution; and
  - sustainable energy and off-grid power initiatives.
- Each division continues to operate in alignment with the Company’s long-term objective of building a diversified and resilient business platform. Management’s focus during the quarter was directed toward operational refinement, market positioning, and the identification of opportunities to improve efficiency and revenue sustainability across each area.

### 3. Corporate and Financial Update

The Company continued to manage its capital position prudently during the quarter, maintaining an emphasis on cash discipline, working capital optimisation, and the prioritisation of expenditure in line with strategic objectives. Cash flow performance for the quarter was broadly in line with management expectations. Ongoing initiatives to improve cash conversion remained active, including the active management of accounts receivable and targeted renegotiation of selected commercial terms to better support operational funding requirements.

#### Outlook

BauMart enters the June quarter with a clear operational focus and a strengthened strategic foundation across each of its business areas. The ongoing development of modular building capabilities — alongside continued progress in sustainable energy and workforce solutions — positions the Company to pursue future growth opportunities in a disciplined and structured manner. The Board remains committed to operational execution, prudent financial management, and the delivery of long-term shareholder value, while retaining the flexibility to respond constructively to evolving market conditions and emerging commercial opportunities.
