

Quarterly Activities Report to 31 March 2026

29 April 2026

EMC Gold (ASX:EM3; “EMC” or “the Company”) is pleased to provide the following quarterly activities report for the period ending 31 March 2026.

Operational update

Salave Gold Project

During the quarter the company continued to work on project optimisation through a range of initiatives including investigating the use of inert sand by-product from gold recovery processes for potential industrial use.

It also moved forward with plans to undertake a drilling campaign, which once launched and completed will dually serve to enhance geological understanding of potential mineralisation extents at Salave and assist in the design of an integrated utilisation process for inert sands.

Subsequent to quarter end, the Company noted a ruling by the High Court of Asturias in relation to the proposed amendment to the municipal urban plan for the Salave Project (refer [ASX announcement](#) 1 April 2026).

The decision provides clarity, was procedural in nature and does not relate to the technical, environmental or economic merits of the Project.

The Company continues to progress Salave through ongoing stakeholder engagement and assessment of alternative development pathways with a long-term view of the Project’s potential.

WA exploration and tenement holding

During the quarter the Company submitted a surrender notice for the 115km² Ivan Well exploration tenement (E69/3818) in Western Australia, following a period of limited activity.

Located 160km northeast of Wiluna in the northern Goldfields, Ivan Well was first acquired in July 2022 as part of a package previously held by Marlee Gold.

In accordance with the *WA Mining Act 1978* a final surrender mineral exploration report will be lodged in April 2026, after which the relinquishment process will be complete.

Corporate update

About EMC Gold

EMC Gold (ASX:EM3) is an exploration company with a global portfolio of exploration assets. The Company's flagship project is Salave, one of the largest undeveloped gold projects in Europe. Salave is 100 per cent owned by the Company and located in the north of Spain in the Principality of Asturias.

For more information visit www.emcgold.com.au.

About Salave Gold Project

The project has a Measured Mineral Resource of 1.03 million tonnes grading 5.59 g/t Au, containing 0.19 million ounces of gold; an Indicated Mineral Resource of 7.18 million tonnes grading 4.43 g/t Au, containing 1.02 million ounces of gold, plus Inferred Resources totalling 3.12 million tonnes grading 3.47 g/t Au, containing 0.35 million ounces of gold.

The information in this announcement that relates to the Mineral Resource estimate for the Salave project was first released by the Company in its news release titled 'New NI 43-101 Mineral Resource Estimate Increases Resources at Salave' dated 31 March 2025.

EMC Gold confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

A full technical report summarising the Mineral Resource estimate completed by Bara Consulting is available on the Company's web site (www.emcgold.com.au) and posted on SEDAR. In addition to the current Mineral Resource, historical exploration work suggests there is the potential for additional mineralisation within EMC Gold's landholdings.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
