## **Refresh Waters**

The water business continued to deliver on its improved performance with a strong Q3 result of 5% growth compared to the same quarter in the previous financial year and is currently sitting 6% or \$611,000 favourable when compared to the year-to-date results from the prior year. The management focus has shifted from the turnaround plan to a future growth plan which is reflected in the improved results of the business.

Sales into major retailers increased throughout the period, whilst several initiatives to reduce the operational costs have helped to deliver profitable results in every branch for the quarter and year-to-date. Management commitment continues with further improvements to operational efficiencies being delivered through investment in our people and equipment.

Our main customer for bulk water in Darwin relocated their factory throughout January. As such, sales were understandably lower.

Due to a change in accounting practice for FY26, in which our custom label water revenue is now assigned directly to the manufacturing site as opposed to all being attributed to Sydney, our Victorian branch is benefiting from the change, and the New South Wales branch is showing a small decline. This is not reflective of overall performance as shown by the total overall increase.

## **Refresh Plastics**

The Plastics business experienced a quiet January but excelled in February and March to establish an 11% or \$226,000 revenue improvement year to date end of the Q3 period when compared to 2025. Modifications and redesigns of current saleable items has brought new opportunities for the Plastics business, and we continue to offer our bespoke service to new and existing customers to drive the business forward.

### **Update re impact of current Middle East war:**

The effects of the Middle East conflict and subsequent cost increases of fuel and raw materials were relatively low as we ended the quarter. However, we have started to receive notifications of significant cost movements in numerous raw materials, cost to manufacture and supply chain and such increases have started to flow in April.

Our management team are taking a proactive approach with suppliers and customers to address such pricing movement and to mitigate wherever possible.

In some circumstances where clients cannot carry the increases we may exit supply agreements if they turn negative in terms of profitability as loss making business is no longer part of our DNA at Refresh.

The team have a solid action plan and despite the significant challenges currently the Board has confidence that the plan and focus is what it needs to be in such an environment.

This announcement was authorised for release by Colin Moran, Non-Executive Chairman
