
ASX ANNOUNCEMENT

JAYRIDE Group Limited (ASX: JAY)
30 April 2026

Quarterly Commentary – March 2026 (Q3 FY25–26)

JAYRIDE Group Limited (“JAYRIDE”, ASX: JAY) (Jayride or the Company) during the quarter ended 31 March 2026 has continued to execute on its transformation from an airport-transfer aggregator into a scalable Mobility-as-a-Service (MaaS) and SaaS mobility platform. The Company made meaningful progress across capital management, technology delivery, and regional partnerships during the quarter.

OPERATIONAL AND STRATEGIC PROGRESS

Jayride advanced the rollout of its SaaS mobility platform across Australia, New Zealand, the Pacific, and Southeast Asia, enabling transport operators and enterprise clients to deploy white-label booking, payments, and fleet-management modules.

At the same time, the Company continues to operate its aggregator marketplace within refined, high-margin corridors, focusing on profitable segments and maintaining strict credit and partner-exposure controls to ensure the aggregator model remains complementary to the expanding SaaS licensing business. The Company will conduct its next round of fundraising to continue its platform development and improvements while sustaining operations.

Strategic Alliance with Xoomplay

During the Quarter, the Company announced they did not progress further to a final, binding commercial arrangement and resulted in no monetisation with the parties ceasing further discussions.

FINANCIAL PERFORMANCE

Operating cash outflows were limited to \$322,000 for the quarter showing the continued efforts of the Company to reduce its operating expenditure. Jayride closed the period with \$15,000 in cash at bank.

In accordance with Listing Rule 4.7C, there were no payments made to related parties and their associated during the quarter – this is contained in items 6.1 of the Appendix 4C, which include payments for remuneration of executive directors and non-executive director fees in the normal course of business at commercial rates, excluding reimbursements of out-of-pocket expenses. The Board continues to focus on prudent management of available capital, which has resulted in a material reduction in cash expenditure, with further cost-optimisation strategies expected to be implemented over future periods.

Q4 FY25-27 OUTLOOK

JAYRIDE enters the next calendar quarter with a new and improved SaaS platform, streamlined cost base, and expanding commercial pipeline. The Board remains confident that the Company’s hybrid model combining recurring-revenue SaaS contracts with a disciplined aggregator footprint positions Jayride to deliver scalable growth, improved margins, and sustainable long-term shareholder value. The company will implement a stable creditor repayment plan to address the outstanding transportation partner obligations.

The recapitalisation of the Company forms a central component of Jayride’s reinstatement to quotation process, allowing for a significantly strengthened balance sheet, providing growth capital for platform development, creditor management, and market expansion. The Company continues to work closely with its auditor, RSM, and the ASX to progress the steps required for re-quotation to trading.

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
<p>Answer:</p> <p>Jayride does not expect to have the same level of net operating cash flows in the near future. The Company notes that :</p> <ul style="list-style-type: none"> a) Jayride is launching a new SaaS based platform that will create entirely new revenue streams for the Company beyond its legacy aggregator model; b) Management expects that as the SaaS platform rolls out and payments to transport provider creditors return closer to an ordinary basis, suppliers will increase the use of the platform (legacy and SaaS) which will restore the booking volumes and thus cash receipts; c) The Company is continuing to reduce operating costs wherever possible. 	

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

The Company is taking steps towards raising further cash to fund its operations. Potential structures being considered include non-dilutive or limited dilution options such as debt and convertible notes, as well as equity capital raisings. The Company considers that raising capital will be successful having regard to the Company's prior success in raising capital when required to fund its business operations.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

The Company does expect to be able to continue its operations and to meet its business objectives and refers to its responses above in this regard.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
