

Chief Executive Officer and Managing Director Resignation

The board of **Jade Gas Holdings Ltd** (ASX: **JGH**) (**Jade** or **the Company**) advises that its Chief Executive Officer (CEO) and Managing Director, Mr Christopher Newport, has resigned with immediate effect due to unforeseen personal and family circumstances.

The Board extends its appreciation to Mr Newport's for his contribution in advancing the Company's flagship coal bed methane project in Mongolia and strengthening its strategic positioning in the Asian energy market. The Board wishes him well with his future endeavours.

Importantly, the Company's broader executive and operations team remains in place and is focused on delivering Jade's operational and commercial milestones in Mongolia.

A process to appoint a replacement CEO will commence shortly.

Mr Newport's Final Director's Interest Notice (Appendix 3Z) follows this announcement. The Company notes that all unvested options previously held by Mr Newport have lapsed in accordance with their terms, as the applicable vesting conditions were not satisfied.

About Jade Gas Holdings Ltd

Jade Gas Holdings Limited is a gas exploration company focused on the coal bed methane (CBM) potential of Mongolia. Jade's flagship project is the Coal Bed Methane gas project over the Production Sharing Agreement (PSA) area of Tavantolgoi XXXIII unconventional oil basin, (TTCBM Project). Jade operates and manages the project through its subsidiary Methane Gas Resource LLC (MGR), a joint venture (JV) company partnering with Erdenes Methane LLC (EM), the representative of the Mongolian Government. The TTCBM Project has a 2C Gross Unrisked Contingent Resource of 246 Bcf¹

Jade also entered into a JV with Hong Kong listed Mongolia Mining Corporation Limited (MMC), for the CBM rights over MMC's Baruun Naran coal mine, immediately adjacent to the TTCBM Project, called the BNG Project. MMC is Mongolia's largest publicly traded miner with a vision is to become the country's largest diversified mining company. With a known coal resource and operating mine at Baruun Naran, Jade is working with MMC to further appraise and determine the commercial pathway for gas in this project.

Jade's strategy is to develop all of its projects so that gas produced may, in the long-term, provide an economically viable and reliable supply option to the power and transport sectors in Mongolia, initially in the South Gobi. The Company is pursuing multiple commercialisation options to participate in the heavy vehicle transport and power sectors through both compressed and/or liquified natural gas projects. Achievement of Jade's strategy will displace the heavy reliance on imported gas and gas liquid products, especially diesel fuel, and coal fired power. This will increase the security of energy supply for Mongolia as well as provide significant improvement in air quality and other environmental outcomes.

Supporting Mongolia's energy transition is a key priority for Jade, and success will result in:

- Improving Mongolia's energy independence
- Supporting Mongolia's significant future energy demand growth
- Decarbonizing the economy by improving the energy mix with cleaner fuel sources
- Environmental and health benefits for the people and country of Mongolia.
