

ASX Announcement

MLG TO RENEW AND EXTEND ITS PROVISION OF INTEGRATED SITE SERVICES TO NEWMONT'S TANAMI OPERATIONS FOR A FURTHER FIVE YEARS

Key Highlights:

- Extension of MLG's long-term services at the Tanami Operations in the Northern Territory.
- Transition to a new five-year term from May 2026, with two additional one-year extension options.
- Contract expected to deliver approximately \$200 million in total revenue, with estimated annual revenues of around \$40 million.
- Continued delivery of a comprehensive scope of integrated site services supporting the Granites operation.

MLG Oz Limited (**ASX: MLG**) (**MLG or the Company**) is pleased to advise that it has agreed new commercial terms with Newmont Corporation (**ASX:NEM**) for the continuation and expansion of its integrated site services at the Tanami Operations (**Tanami**) in the Northern Territory.

The agreement provides a new five-year term, with two further one-year extension options. This agreement reflects confidence in MLG's operating model and reinforces its position as a trusted provider of critical services at Tanami.

Under the new agreement, MLG will continue to deliver a comprehensive suite of services supporting operations at Tanami, including haulage of ore and tailings fines, loading and unloading activities, rock breaking, tailings harvesting, stockpile management and crusher feed services. The breadth of this scope highlights the strength of MLG's integrated service model and its ability to deliver efficient, end-to-end solutions for its clients.

The contract is expected to generate approximately \$200 million in revenue over its term, equating to estimated annual revenues of \$40 million per annum. This provides strong medium-term revenue visibility and underpins a meaningful contribution to the Company's earnings base, with MLG's total group revenue for FY2025 being just under \$550 million.

The Tanami Operations, located in the Western Tanami Desert Region, include the Granites Gold Mine, situated approximately 560km north-west of Alice Springs and 940km south-west of Darwin.

MLG Chief Executive Officer, Mark Hatfield, said:

"We are very pleased to extend our long-standing partnership at the Tanami Operations for a further five-year term. This outcome reflects the consistent high-quality performance and commitment of our team at the Granites site and demonstrates the value of MLG's integrated service model in supporting safe, efficient and reliable operations. We look forward to continuing to build on this strong foundation over the next phase of the contract."

Authorised for release by the Board of Directors.

About MLG Oz Limited

MLG Oz Limited (ASX: MLG) is a Kalgoorlie-based integrated mining services and resource asset management company, founded by Managing Director Murray Leahy. MLG delivers tailored solutions to mining operations, primarily focused on supporting its clients' ore processing facilities across gold, iron ore and other base metals in Western Australia and the Northern Territory.

MLG offers a comprehensive range of services under an integrated business model, often within a single contractual framework. These include Civil & Construction, Crushing & Screening, Bulk Haulage & Site Services, and the supply of Open Pit Mining & Construction Materials from MLG's strategically located regional quarries.

The Company's key capabilities include build, own, and operate models, contract crushing and screening services, as well as crusher feed and material management.

Services extend to include construction, road maintenance, rehabilitation work, vehicle maintenance, and machinery and labour hire.
