Notice to non-Australian Amaero Shareholders

Restrictions in foreign jurisdictions may make it impractical or unlawful for Share Scheme Consideration to be issued under the Share Scheme to, or received under the Share Scheme by, Amaero Shareholders in certain jurisdictions outside Australia. Amaero Shareholders (whose addresses as shown in the Amaero Share Register on the Record Date) in Australia, Estonia, Germany, Hong Kong, Italy, New Zealand, the Philippines, Portugal, Singapore, United Arab Emirates, United Kingdom, United States and Vietnam will be entitled to receive this Scheme Booklet and have Share Scheme Consideration issued to them in accordance with the Share Scheme.

Nominees, custodians and other Amaero Shareholders who hold Amaero Shares on behalf of a beneficial owner resident outside Australia, Estonia, Germany, Hong Kong, Italy, New Zealand, the Philippines, Portugal, Singapore, United Arab

Emirates, United Kingdom, United States and Vietnam may not forward this Scheme Booklet (or any accompanying document) to anyone outside these countries without the consent of Amaero.

An Amaero Shareholder whose address shown in the Amaero Share Register is in a jurisdiction outside Australia, Estonia, Germany, Hong Kong, Italy, New Zealand, the Philippines, Portugal, Singapore, United Arab Emirates, United Kingdom, United States and Vietnam will be deemed to be an Ineligible Foreign Holder for the purposes of the Share Scheme. Amaero Shareholders who are deemed to be Ineligible Foreign Holders should refer to section 4.7 for more information.

Notice to non-Australian Amaero Option Holders

Based on the information available to Amaero as at the date of this Scheme Booklet, Amaero Option Holders whose addresses are shown in the Amaero Option Register on the Record Date as being in Australia, the United States and any other person or jurisdiction in respect of which Amaero is satisfied, acting reasonably, that the laws of that place permit the offer and issue of Amaero US HoldCo Options to that Option Scheme Participant and, in Amaero US HoldCo's sole discretion, is not unduly onerous or impracticable for Amaero US HoldCo to do so, will be entitled to have Amaero US HoldCo Options issued to them pursuant to the Option Scheme, and subject to the qualifications (if any) set out below and in section 10.7 in respect of that jurisdiction.

Not an offer

This Scheme Booklet is not a disclosure document for the purposes of Chapter 6D of the Corporations Act and does not constitute, nor contain, an offer to sell, or a solicitation of an offer to purchase, any securities in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or solicitation.

The release, publication or distribution of this Scheme Booklet and/or the accompanying documents into jurisdictions other than Australia may be restricted by law and this Scheme Booklet and/or the accompanying documents may not be distributed or published in any jurisdiction except

under circumstances which result in compliance with applicable laws and regulations. Therefore, persons into whose possession this Scheme Booklet and/or the accompanying documents come should inform themselves about, and observe, any such restrictions. Any failure to comply with these restrictions may constitute a violation of the securities laws and regulations of any such jurisdiction.

See section 10.7 for further information on legal restrictions outside Australia on the distribution of this Scheme Booklet and participation in the Schemes.

Notice to Amaero Shareholders and Amaero Option Holders in the United States

The issuance of the Amaero US HoldCo CDIs and Amaero US HoldCo Options has not been registered under the US Securities Act or the securities laws of any state or other jurisdiction of the United States. Instead, Amaero US HoldCo intends to rely on an exemption from the registration requirements of the US Securities Act provided by section 3(a)(10) of the US Securities Act in connection with the consummation of the Schemes and the issuance of Amaero US HoldCo CDIs and Amaero US HoldCo Options.

Section 3(a)(10) exempts securities issued in exchange for other securities from the general requirement of registration where the terms and conditions of the issuance and exchange have been approved by a court of competent jurisdiction, after a hearing upon the fairness of the terms and conditions of the issuance at which all persons to whom the securities will be issued have the right to appear. Approval of the Schemes by the Court will be relied upon by Amaero and Amaero US HoldCo for the purposes of qualifying for the section 3(a)(10) exemption.

The Amaero US HoldCo CDIs and Amaero US HoldCo Options issued under the Schemes to Share Scheme Participants and Option Scheme Participants will be freely tradable under the US Securities Act, except by persons who are deemed to be "affiliates" (as that term is defined under Rule 144 promulgated under the US Securities Act) of Amaero US HoldCo,

including persons who are deemed to have been affiliates of Amaero US HoldCo or Amaero within 90 days before the date of the closing of the Schemes. In the event that the Amaero US HoldCo CDIs and Amaero US HoldCo Options issued under the Schemes are in fact held by affiliates or such former affiliates of Amaero US HoldCo or Amaero, those holders may either transfer the securities in accordance with the applicable provisions of Rule 144 promulgated under the US Securities Act, or as otherwise permitted under the US Securities Act.

Amaero Shareholders and Amaero Option Holders in the United States should note that the Schemes will be conducted in accordance with the laws of Australia and the Listing Rules. As a result, it may be difficult for you to enforce your rights, including any claim you may have arising under United States federal securities laws, as Amaero is incorporated in Australia and some of its officers and directors are resident in Australia. As such, you may not be able to take legal action against Amaero or its officers and directors in Australia for violations of US securities laws and it may be difficult to compel Amaero and its officers and directors to subject themselves to a United States court's judgement.

Forward looking statements

Certain statements in this Scheme Booklet relate to the future, including forward looking statements and information ('forward looking statements') within the meaning of Australian and United States securities laws. The forward looking statements in this Scheme Booklet, including statements relating to Amaero Group and the transactions contemplated by the Scheme Implementation Deed, are not based on historical facts, but rather reflect the current views and expectations of Amaero. These statements may generally be identified by the use of forward looking verbs such as 'aim', 'anticipate', 'believe', 'estimate', 'expect', 'foresee', 'intend' or 'plan', qualifiers such as 'may', 'should', 'likely' or 'potential', or similar words. Similarly, statements that describe the expectations, goals, objectives, plans, targets and future costs of Amaero are, or may be, forward looking statements.

Forward looking statements involve known and unknown risks, uncertainties, assumptions and

other important factors that could cause the actual results, performances or achievements of Amaero or Amaero Group to be materially different from future results, performances or achievements expressed or implied by such statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which Amaero and Amaero Group will operate in the future, including the price of commodities, anticipated costs and ability to achieve goals. Certain important factors that could cause actual results, performances or achievements to differ materially from those in the forward looking statements include, among others, customer risks, commodity price volatility, operational and development risk, litigation risks, regulatory restrictions (including environmental regulatory restrictions and liability), activities by governmental authorities (including changes in taxation), currency fluctuations, dilution, share price volatility, competition, loss of key directors and employees, additional funding requirements and risks associated with the Schemes.

See section 7 for a (non-exhaustive) discussion of potential risk factors underlying, and other information relevant to, the forward looking statements and information. Forward looking statements should, therefore, be construed in light of such risk factors and undue reliance should not be placed on them. All forward looking statements should be read in light of such risks and uncertainties.

You should note that the historical performance of Amaero is no assurance of its or Amaero Group's future financial performance. The forward looking statements in this Scheme Booklet reflect views and expectations held only at the date of this Scheme Booklet. Amaero believes that all forward looking statements included in this Scheme Booklet about Amaero and Amaero US HoldCo have been made on a reasonable basis. However, none of Amaero and its directors nor any other person gives any representation, assurance or guarantee that any outcome, performance or results expressed or implied by any forward looking statements in this Scheme Booklet will actually occur. Amaero Shareholders and Amaero Option Holders should

therefore treat all forward looking statements with caution and not place undue reliance on them.

Subject to any continuing obligations under law, Amaero, Amaero US HoldCo and their respective directors disclaim any obligation to revise or update, after the date of this Scheme Booklet, any forward looking statements to reflect any change in views, expectations or assumptions on which those statements are based.

Diagrams, charts, maps, graphs and tables

Any diagrams, charts, maps, graphs and tables appearing in this Scheme Booklet are illustrative only and may not be drawn to scale. Unless stated otherwise, all data contained in diagrams, charts, graphs and tables is based on information available as at the Last Practicable Date.

A number of figures, amounts, percentages, prices, estimates, calculations of value and fractions in this Scheme Booklet, including but not limited to those in respect of the Share Scheme Consideration and Option Scheme Consideration, are subject to the effect of rounding (unless otherwise stated).

Accordingly, the actual calculation of these figures may differ from the figures set out in this Scheme Booklet, and any discrepancies in any table between totals and sums of amounts listed in that table or to previously published figures are due to rounding.

Letter from the Chairman of Amaero

7 May 2026

Dear Amaero Shareholders and Amaero Option Holders,

Introduction

I am pleased to provide you with this Scheme Booklet containing information about the proposed schemes of arrangement between Amaero and Amaero Shareholders and Amaero Option Holders, under which Amaero Group will re-domicile from Australia to the State of Delaware in the United States. If the Schemes become Effective:

- Amaero US HoldCo, a newly-formed company incorporated in the State of Delaware in the United States for the purpose of the Proposed Transaction, will acquire all of the Amaero Shares, issue Amaero US HoldCo Options in exchange for the cancellation of Amaero Options and become the new holding company of Amaero and the ultimate parent company of Amaero Group;
- you will retain an equivalent proportional economic interest in Amaero US HoldCo as you previously held in Amaero, and will be entitled to one Amaero US HoldCo CDI for each Amaero Share you hold on the Record Date, subject to the Sale Facility aspect of the Proposed Transaction dealing with the interests of Ineligible Foreign Holders;
- an Amaero US HoldCo CDI is a CHESS depositary interest that will confer a beneficial interest in 1/40th of an Amaero US HoldCo Share, which will be quoted on ASX (with the Amaero US HoldCo Shares that underpin the Amaero US HoldCo CDIs being registered in the name of CDN);
- Amaero will cancel all of the Amaero Options and, in exchange, Option Scheme Participants will receive one Amaero US HoldCo Option for every Scheme Option held which will, upon exercise, entitle the relevant Amaero US HoldCo Option Holder to one Amaero US HoldCo CDI; and
- the operations, management or overall strategy of Amaero Group will remain unchanged.

In order for the Proposed Transaction to be effected, the Schemes must be approved by Amaero Shareholders and Amaero Option Holders. Amaero Shareholders and Amaero Option Holders are being asked to vote on the Schemes at the Scheme Meetings to be held via an online platform at www.investor.automic.com.au/#/home on Friday, 5 June 2026, with the Share Scheme Meeting commencing at 10:00am (Sydney time) and the Option Scheme Meeting commencing at the later of 10:30am (Sydney time) and the conclusion of the Share Scheme Meeting.

In addition, the Extraordinary General Meeting will be held via an online platform at www.investor.automic.com.au/#/home on Friday, 5 June 2026, commencing at the later of 11:00am (Sydney time) and the conclusion of the Option Scheme Meeting, which eligible Amaero Shareholders will be asked to consider the Director Options Resolution.

The business of the Extraordinary General Meeting is to consider and, if thought fit, to pass the

Director Options Resolution. In order to be passed, the Director Options Resolution must be approved by at least 50% of votes cast by Amaero Shareholders entitled to vote on the Director Options Resolution.

If the Director Options Resolution is approved, 600,000 Amaero Options will be issued to Tim Johnson under the Employee Incentive Plan on the terms set out in section 10.1 as soon as practicable following the date of the Extraordinary General Meeting.

Recommendation of the Amaero Board

The Amaero Board unanimously recommends that:

- Amaero Shareholders vote in favour of the Share Scheme, subject to no superior proposal emerging and the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero Shareholders;
- Amaero Option Holders vote in favour of the Option Scheme, subject to no superior proposal emerging and the Independent Expert continuing to conclude that the Option Scheme is in the best interests of Amaero Option Holders; and
- Amaero Shareholders vote in favour of the Director Options Resolution.

Subject to these qualifications, each Amaero Director intends to vote the Amaero Shares which they hold (or that are held on their behalf) in favour of the Share Scheme and the Director Options Resolution and the Amaero Options which they hold (or that are held on their behalf) in favour of the Option Scheme.

Key reasons to vote in favour of the Schemes

The key reasons for the unanimous recommendation by the Board in respect of the Schemes are set out in section 2.1.

In summary, the Amaero Board believes that the Proposed Transaction will best position Amaero Group for the next phase of its growth as Amaero seeks to continue its growth in the defence industrial base and the sovereign manufacturing and supply chain, including by:

- positioning Amaero Group in a larger, deeper capital market in the United States for continuing growth in the defence industrial base and the re-shoring of sovereign manufacturing and supply chain where investors, allowing existing Amaero Shareholders and Amaero Option Holders to benefit from that growth and more clearly evaluate the performance and future prospects of Amaero Group, whilst maintaining a listing on ASX;
- providing access to a broader US investor pool that previously could not, or were unlikely to, invest in non-US securities in a market which is familiar with and is generally better informed regarding defence industrial base and sovereign manufacturing and supply chain companies due to its greater number of market participants and investors, which has the potential to lead to a stronger valuation of Amaero US HoldCo over time and improve liquidity in trading of shares;
- improving access to lower-cost US debt and equity capital markets, which are larger and more diverse than Australian capital markets, which may enable future growth to be financed at a lower cost and potentially favourable financing conditions in the United States;

- as Amaero US HoldCo will be a United States Delaware corporation, the Schemes are likely to simplify Amaero Group's corporate structure for potential future United States merger, sale or acquisition transactions, which may increase Amaero Group's attractiveness as a potential target to strategic and merger partners, sellers or acquirers to United States domiciled companies and better alignment with key stakeholders;
- positioning Amaero for a potential initial public offering and listing in the US in late CY2026 or early CY2027 subject to equity market conditions; and
- enable Amaero to negotiate potentially less restrictive measures to mitigate foreign ownership, control and influence concerns in its pursuit of classified contracts with the United States Department of War and other federal government customers on the basis that Amaero US HoldCo, as a United States Delaware corporation, is not a foreign (non-US) entity.

While the Amaero Board considers that these advantages outweigh the disadvantages and recommends that Amaero Shareholders and Amaero Option Holders vote in favour of the Schemes, you should be aware of the possible reasons to vote against the Schemes, including:

- you may disagree with the unanimous recommendation of the Amaero Board and the conclusion of the Independent Expert;
- you may decide that you do not wish to become a CDI holder or option holder of a United States domiciled company;
- the potential taxation consequences of the Schemes may not suit your current financial position or taxation circumstances;
- the trading value of the Share Scheme Consideration is not certain and will depend on the price at which Amaero US HoldCo CDIs trade on ASX after the Implementation Date; and
- there may be exposure to increased litigation as a result of a parent company being domiciled in the United States, as the United States' legal environment is generally understood to be more litigious than that of Australia.

Amaero Shareholders and Amaero Option Holders should carefully consider the key reasons to vote in favour of, or against, the Schemes set out in sections 2.1 and 2.2 respectively before voting on the Schemes.

Independent Expert

McGrathNicol Transaction Advisory Pty Limited, the Independent Expert engaged by the Amaero Board, has concluded that the Share Scheme is in the best interests of Amaero Shareholders as a whole and the Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information. The Amaero Board encourages you to read and consider the Independent Expert Report, which is contained in Annexure A.

Hank J. Holland

2. Key considerations relevant to your vote in favour of or against the Schemes

This section 2 sets out some of the reasons why:

1. the Amaero Board unanimously recommends that you vote in favour of the Schemes in the absence of a superior proposal and subject to the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero Shareholders and the Option Scheme is in the best interests of Amaero Option Holders; and
2. notwithstanding the unanimous recommendation of the Amaero Board, you may decide to vote against the Schemes.

You should read and carefully consider the information in this Scheme Booklet in its entirety before deciding how to vote on the Schemes. There are answers to questions you might have in section 3.

If you require further information or have any questions in relation to the Schemes, please contact the Amaero Schemes Information Line on 1300 441 599 (within Australia) or +61 2 9068 1927 (outside Australia) Monday to Friday between 8:30am and 7:00pm (Sydney time).

Key reasons to vote **in favour** of the Schemes

✓	Position Amaero Group in a larger, deeper capital market in the United States for continuing growth in the defence industrial base and the re-shoring of sovereign manufacturing and supply chain, allowing existing Amaero Shareholders and Amaero Option Holders to benefit from that growth and more clearly evaluate the performance and future prospects of Amaero Group, whilst maintaining a listing on ASX
✓	Provide access to a broader US investor pool that previously could not, or were unlikely to, invest in non-US securities which has the potential to lead to a stronger valuation of Amaero US HoldCo over time and improve liquidity in trading of shares
✓	Improve access to lower-cost US debt and equity capital markets, which may enable future growth to be financed at a lower cost and potentially favourable financing conditions in the United States
✓	Amaero Shareholders will retain their existing exposure to Amaero Group by receiving equivalent securities in Amaero US HoldCo
✓	Simplify the corporate structure of Amaero Group for potential future United States merger, sale or acquisition transactions, which may increase Amaero Group's attractiveness as a potential target to strategic and merger partners, sellers or acquirers to United States domiciled companies and better alignment with key stakeholders
✓	Position Amaero for a potential initial public offering and listing in the US in late CY2026 or early CY2027, subject to equity market conditions
✓	Enable Amaero to negotiate potentially less restrictive measures to mitigate foreign ownership, control and influence concerns in its pursuit of classified contracts with the United States Department of War and other federal government customers on the basis that Amaero US HoldCo, as a United States Delaware corporation, is not a foreign (non-US) entity, providing benefits to Amaero's customers and supply chain participants

Key reasons to vote **in favour** of the Schemes

The Amaero Board unanimously recommends that you vote in favour of the Schemes in the absence of a superior proposal and subject to the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero Shareholders and the Option Scheme is in the best interests of Amaero Option Holders

The Independent Expert has concluded that the Share Scheme is in the best interests of Amaero Shareholders as a whole and the Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information

These reasons are discussed in more detail in section 2.1.

Key reasons to vote **against** of the Schemes

You may disagree with the unanimous recommendation of the Amaero Board and the conclusion of the Independent Expert

You may decide that you do not wish to become a CDI holder or option holder of a United States domiciled company

The potential taxation consequences of the Schemes may not suit your current financial position or taxation circumstances

The trading value of the Share Scheme Consideration is not certain and will depend on the price at which Amaero US HoldCo CDIs trade on ASX after the Implementation Date, which will be subject to market conditions

There may be exposure to increased litigation as a result of a parent company being domiciled in the United States, as the United States' legal environment is generally understood to be more litigious than that of Australia

These reasons are discussed in more detail in section 2.2.

2.1 Why you should vote in favour of the Schemes

1. Position Amaero Group in a larger, deeper capital market in the United States for continuing growth in the defence industrial base and the re-shoring of sovereign manufacturing and supply chain, whilst maintaining a listing on ASX

The Amaero Board believes that the re-domiciliation of Amaero Group from Australia to the State of Delaware in the United States will position Amaero Group in a larger, deeper capital market in the United States for continuing growth in the defence industrial base and the re-shoring of sovereign manufacturing and supply chain, allowing existing

Amaero Shareholders and Amaero Option Holders to benefit from that growth and more clearly evaluate the performance and future prospects of Amaero Group, whilst it maintains a listing on ASX.

Provide access to a broader US investor pool that previously could not, or were unlikely to, invest in non-US securities which has the potential to lead to a stronger valuation of Amaero US HoldCo over time and improve liquidity in trading of shares

The Amaero Board believes that superimposing, or "top-hatting", a United States domiciled company as the new holding company of Amaero and the ultimate parent company of Amaero Group will increase the overall attractiveness of Amaero Group

by broadening and diversifying its shareholder base to extend to a United States investor pool that previously could not, or were unlikely to, invest in non-US securities. It is expected that this will lead Amaero Group to being more fully valued over time by a greater number of investors.

The Amaero Board also believes that the United States market is generally better informed regarding defence industrial base and sovereign manufacturing and supply chain companies due to its greater number of market participants and investors. The Schemes, once approved and implemented, will provide the North America investor pool with an opportunity to invest in a company that aims to continue growth in the defence industrial base and the re-shoring of sovereign manufacturing and supply chain. An opportunity such as this is something the United States pool of investors may not have previously had if they were unable to invest in non-US securities.

This enhanced attractiveness, awareness and visibility in the United States comes as a result of Amaero Group's parent company being a United States entity, which has the potential to lead to an increased valuation and improved liquidity (given higher levels of visibility in one of the deepest and most liquid global markets) of Amaero Group, and may attract further investments and provide increased funding opportunities, despite no changes to the operations or assets of Amaero Group.

2. Improve access to lower-cost debt and equity capital markets, which may enable future growth to be financed at a lower cost and potentially favourable financing conditions in the United States

The Proposed Transaction is expected to benefit the future growth and development of Amaero Group by providing improved access to lower-cost debt or equity capital markets in the United States in a more cost-effective way, which are both larger and more diverse than Australian capital markets.

A part of this improved access to markets is the broader pool of institutional investors in the United States which, in the Amaero Board's view, is more familiar with the structure of United States debt issues and has a stronger interest in manufacturing advanced materials on a larger scale than other markets to the currently underserved and growing

North America and Asia-Pacific markets, and may enable future growth to be financed at a lower cost.

Additionally, the Amaero Board believes that there is potentially a stronger appetite for better financing conditions for advanced manufacturing companies in the United States as opposed to Australia given financiers in the United States have stronger familiarity and interest in manufacturing advanced materials.

3. Amaero Shareholders and Amaero Option Holders will retain their existing exposure to Amaero Group by receiving equivalent securities in Amaero US HoldCo

If the Share Scheme becomes Effective, Amaero Shareholders (except for any Ineligible Foreign Holders) as at the Record Date will become holders of Amaero US HoldCo CDIs on a 1:1 basis.

Amaero US HoldCo CDIs will confer a beneficial interest in 1/40th of an Amaero US HoldCo Share and will be traded on ASX. Holders of Amaero US HoldCo CDIs will receive all the economic benefits of actual ownership of the underlying Amaero US HoldCo Shares.

If the Option Scheme becomes Effective, all Amaero Options on issue as at the Record Date will be cancelled in exchange for the issue of new Amaero US HoldCo Options on a 1:1 basis. One Amaero US HoldCo Option will, upon exercise, entitle the relevant Amaero US HoldCo Option Holder to one Amaero US HoldCo CDI.

4. Simplify the corporate structure of Amaero Group for potential future United States merger, sale or acquisition transactions, which may increase Amaero Group's attractiveness as a potential target to strategic and merger partners, sellers or acquirers to United States domiciled companies and better alignment with key stakeholders

As Amaero US HoldCo will be a United States Delaware corporation, the Proposed Transaction will provide a more attractive corporate structure for a potential United States merger, sale or acquisition transaction in the future. The Amaero Board believes the corporate structure after the Schemes are implemented will make it more attractive to the United States market due to their familiarity with,

and domestic nature of, a United States domiciled company. Further, United States investors and United States based employees are likely to better understand a United States corporate structure, which should increase Amaero Group's attraction and retention through equity-based compensation.

The Amaero Board believes that the re-domiciliation of Amaero Group from Australia to the State of Delaware in the United States may therefore increase the attractiveness of Amaero US HoldCo as a potential merger partner, seller or acquirer to such United States domiciled companies. If a merger, sale or acquisition with attractive terms were consummated, it could further benefit Amaero US HoldCo CDI Holders and Amaero Option Holders.

Re-domiciling Amaero Group from Australia to the State of Delaware in the United States would also allow a corporate structure to be better aligned with those key stakeholders of Amaero Group's key stakeholders which are based in the United States. This includes, for example, those stakeholders who are based in the United States and a significant portion of the Directors and senior management.

5. Position Amaero for potential US initial public offering and listing in late CY2026 or early CY2027

For similar reasons to the above, implementation of the Schemes will mean that Amaero US HoldCo, as a United States domiciled company, will be better positioned for an initial public offering and listing in the US in late CY2026 or early CY2027 of Amaero US HoldCo Shares, subject to equity market conditions as it will be more familiar with and have greater exposure to the United States market.

Companies within the United States are generally more familiar with the legal, taxation and other corporate issues of SEC-registered and listed entities on a United States securities exchange (such as NASDAQ) than they are of an Australian domiciled entity offering American Depositary Shares on a United States exchange.

A listing on a securities exchange such as NASDAQ would afford Amaero Group the opportunity to provide education to a wider investor and analyst audience through its book building process. As a result, there would likely be more demand for Amaero US HoldCo Shares in the event of a listing if Amaero

Group re-domiciles from Australia to the State of Delaware in the United States than if it does not.

Enable Amaero to negotiate potentially less restrictive measures to mitigate foreign ownership, control and influence concerns in its pursuit of classified contracts with the United States Department of War and other federal government customers on the basis that Amaero US HoldCo, as a United States Delaware corporation, is not a foreign (non-US) entity, providing benefits to Amaero's customers and supply chain participants

Once the Schemes have been implemented, Amaero intends to pursue opportunities with the United States federal government (including the Department of War) which may involve classified information.

In order to be eligible for such contracts, Amaero will require a facility clearance granted by the Defense Counterintelligence and Security Agency (**DCSA**). DCSA reviews facility clearance requests for foreign ownership, control, and influence (**FOCI**) risks and may require mitigation measures where FOCI risks are present. DCSA will typically require its contractors to enter into a Special Security Agreement (**SSA**) where its parent company is a foreign (non-US) entity. Among other things, an SSA requires the appointment of three outside directors and restricts the sharing of information (both classified and unclassified) with a contractor's parent company.

Given Amaero US HoldCo is a United States Delaware corporation, it will not be considered a foreign (non-US) entity by DCSA, which lessens the possibility that they would require Amaero US HoldCo to enter into an SSA. As a result, Amaero US HoldCo may instead seek a lesser form of mitigation strategy that is less disruptive to the operations and information sharing abilities of the Amaero Group, which will enable Amaero US HoldCo to differentiate itself from other companies without a facility clearance and help establish a reputation of trustworthiness and credibility in being able to handle United States national security responsibilities. This will also ultimately benefit Amaero's customers (including OEMs) and supply chain participants.

6. The Amaero Directors unanimously recommend that you vote in favour of the Schemes in the absence of a superior proposal and subject to the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero Shareholders and the Option Scheme is in the best interests of Amaero Option Holders

The Amaero Board unanimously recommended that Amaero Shareholders vote in favour of the Share Scheme and Amaero Option Holders vote in favour of the Option Scheme, in the absence of a superior proposal and subject to the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero Shareholders and Option Scheme is in the best interests of Amaero Option Holders.

In reaching their recommendation, the Amaero Board has assessed and had regard to, among other things, the key reasons to vote in favour of or against the Schemes as set out in full in this section 2, and the risks set out in section 7.

In the absence of a superior proposal and subject to the Independent Expert maintaining its conclusion that the Share Scheme is in the best interests of Amaero Shareholders and Option Scheme is in the best interests of Amaero Option Holders, each Amaero Director intends to vote the Amaero Shares which they hold (or that are held on their behalf) in favour of the Share Scheme and the Amaero Options which they hold (or that are held on their behalf) in favour of the Option Scheme.

7. The Independent Expert has concluded that the Share Scheme is in the best interests of Amaero Shareholders as a whole and the Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information

The Independent Expert, McGrathNicol Transaction Advisory Pty Limited, has prepared the Independent Expert Report to provide an opinion as to whether the Share Scheme is in the best interests of Amaero Shareholders and Option Scheme is in the best interests of Amaero Option Holders. The Independent Expert has concluded that the Share Scheme is in the best interests of Amaero Shareholders as a whole and the Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information.

In the Independent Expert's opinion, the advantages of the Schemes outweigh their disadvantages.

A copy of the Independent Expert Report is included as Annexure A.

Amaero Shareholders and Amaero Option Holders are encouraged to read the Independent Expert Report carefully and in its entirety, including the assumptions, qualifications and disclaimers on which the Independent Expert's opinion is based.

2.2 Why you may wish to vote against the Schemes

1. You may disagree with the Amaero Directors' unanimous recommendation or the Independent Expert's conclusion

You may disagree with the unanimous recommendation of the Amaero Board and the conclusion of the Independent Expert, who has concluded that the Share Scheme is in the best interests of Amaero Shareholders as a whole and the Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information.

If this be the case, further insight into the weight given to the advantages and disadvantages of the Proposed Transaction can be found in the Independent Expert Report in Annexure A.

2. You may decide that you do not wish to become a CDI holder or option holder of a United States domiciled company

Amaero US HoldCo, as a company incorporated in the State of Delaware, will not be subject to the Corporations Act to which Amaero is currently subject (except insofar as it applies to registered foreign companies) and will instead be subject to the DGCL.

The rights of holders of Amaero US HoldCo CDIs and Amaero US HoldCo Options will be governed by the laws of the United States, the State of Delaware, the laws of any other states in the United States in which it operates in, as well as the Amaero US HoldCo Charter Documents comprised of the Amaero US HoldCo Certificate of Incorporation and Amaero US HoldCo Bylaws. Amaero US HoldCo will also be bound by the Listing Rules if ASX grants permission for Amaero US HoldCo CDIs to be quoted on ASX (except to the extent that ASX grants waivers).

As a result of the differences in rights and obligations under the DGCL and the Amaero US HoldCo Charter Documents as compared to their current rights and obligations, Amaero Shareholders and Amaero Option Holders may decide that they do not wish to become a CDI holder or option holder of a United States domiciled company and prefer instead to remain a shareholder or option holder of an Australian domiciled company.

In addition, although CDI holders receive all of the economic benefits of actual ownership of the underlying shares, there are a number of differences between holding a CDI and holding the underlying share, some of which could be viewed as disadvantageous. For example, holders of CDIs will need to act through CDN for the purposes of voting the underlying shares and exercising shareholder rights attaching to the underlying shares (although CDN is required to comply with the instructions of the CDI holder in exercising shareholder rights available to CDN).

Amaero Shareholders and Amaero Option Holders should consider further information regarding Amaero US HoldCo CDIs in Annexure J and the non-exhaustive comparison of corporate laws applicable in respect of Amaero and Amaero US HoldCo set out in Annexure K.

3. The potential taxation consequences of the Schemes may not suit your current financial position or taxation circumstances

Implementation of the Schemes may trigger taxation consequences for you depending on your individual personal circumstances. A general guide to the United States and Australian taxation implications of the Schemes is set out in section 8.

All Amaero Shareholders and Amaero Option Holders are advised to seek independent professional advice about their particular circumstances, including foreign taxation consequences for non-Australian Amaero Shareholders and Amaero Option Holders.

4. The trading value of the Share Scheme Consideration is not certain and will depend on the price at which Amaero US HoldCo CDIs trade on ASX after the Implementation Date, which will be subject to market conditions

The exact value of the Share Scheme Consideration that would be realised by individual Amaero

Shareholders will depend on the price at which Amaero US HoldCo CDIs trade on ASX after the Implementation Date. The value, price and trading volume of Amaero US HoldCo CDIs is not certain and is subject to market conditions and Amaero's ability to translate the Proposed Transaction into a successful business in the United States.

In addition, the Sale Agent will be issued the Amaero US HoldCo CDIs that would otherwise have been issued to Ineligible Foreign Holders and will sell them as soon as reasonably practicable. Although the quantum of these sales is expected to be limited (particularly since there are no Ineligible Foreign Holders as at the date of this Scheme Booklet), it is possible that such sales may exert downward pressure on the share price of Amaero US HoldCo during the applicable period.

5. There may be exposure to increased litigation as a result of a parent company being domiciled in the United States, as the United States' legal environment is generally understood to be more litigious than that of Australia

Amaero US HoldCo, as a Delaware corporation, may be exposed to more litigation than Amaero due to the more litigious legal environment in the United States as compared to Australia. For example, under certain circumstances and in accordance with applicable law, a shareholder of a Delaware corporation may bring a class action lawsuit as a representative of a group (the "class") of similarly situated shareholders to attempt to enforce an obligation owed by the corporation and/or its directors or officers to shareholders where the requirements for maintaining a class action under Delaware law have been met. There is a risk that any material or costly dispute or litigation could adversely affect Amaero US HoldCo's reputation, financial performance or value.

2.3 Other relevant considerations

1. No brokerage or stamp duty will be payable in connection with receiving the Share Scheme Consideration or Option Scheme Consideration

You will not incur any brokerage or stamp duty costs in connection with the disposal of Amaero Shares under the Share Scheme, cancellation of Amaero Options under the Option Scheme or on the acquisition of Amaero US HoldCo CDIs under the Share Scheme in any Australian State or Territory.

Brokerage fees will, however, be incurred by Ineligible Foreign Holders whose attributable Amaero US HoldCo CDIs will be issued to, and sold by, the Sale Agent, and the net cash proceeds of the sale remitted to the Ineligible Foreign Holders by the Sale Agent.

2. The Schemes may become Effective even if you do not vote, or vote against the Schemes

Even if you do not vote, or you voted against the Schemes, the Schemes may still become Effective if it is approved by the Requisite Majority of Amaero Shareholders, Requisite Majority of Amaero Option Holders and the Court. If this occurs and you are an Amaero Shareholder or Amaero Option Holder as at the Record Date, your Amaero Shares will be transferred to Amaero US HoldCo and you will receive the Share Scheme Consideration, and your Amaero Options will be cancelled and you will receive the Option Scheme Consideration, even though you did not vote on, or voted against, the Schemes.

3. Deemed warranties by Share Scheme Participants about their Scheme Shares

If the Share Scheme becomes Effective, each Share Scheme Participant will be deemed to have warranted to Amaero and Amaero US HoldCo that to the extent permitted by law:

- a. all of their Scheme Shares (including any rights and entitlements attaching to those shares) which are transferred to Amaero US HoldCo under the Share Scheme will, at the date of transfer, be fully paid and free from any Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind; and
- b. they have full power and capacity to sell and transfer their Scheme Shares (including all rights and entitlements attaching to them) to Amaero US HoldCo.

4. Deemed warranties by Option Scheme Participants about their Scheme Options

If the Option Scheme becomes Effective, each Option Scheme Participant will be deemed to have warranted to Amaero and Amaero US HoldCo that to the extent permitted by law:

- a. all of their Scheme Options (including all rights and entitlements attaching to those options) which are cancelled under the Option Scheme will, on the date of the cancellation, be fully paid and free from any Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind; and
- b. they have full power and capacity to sell and transfer their Scheme Options (including all rights and entitlements attaching to them), including the cancellation of the Scheme Options under the Option Scheme.

4. Overview of the Proposed Transaction

4.1 Background

Amaero is proposing to re-domicile from Australia to the State of Delaware in the United States through a transaction that will involve:

- superimposing, or “top-hatting”, a new Delaware company, Amaero US HoldCo, as the new holding company of the Amaero Group; and
- Amaero US HoldCo acquiring all Amaero Shares in exchange for the issue of Amaero US HoldCo CDIs and all Amaero Options being cancelled in exchange for the issue of Amaero US HoldCo Options by way of a Court and shareholder approved mechanism known as a ‘scheme of arrangement’.

Amaero and Amaero US HoldCo have entered into the Scheme Implementation Deed, under which the parties have agreed to implement the Share Scheme between Amaero and Amaero Shareholders and Option Scheme between Amaero and Amaero Option Holders.

A summary of the Scheme Implementation Deed is included in section 9.1 and a copy of the Scheme Implementation Deed is set out in Annexure B.

This Scheme Booklet contains important information that you should consider before voting on the Scheme Resolutions. The Amaero Board encourages you to read this Scheme Booklet in its entirety and recommends that you vote in favour of the Scheme Resolutions, subject to the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero Shareholders and the Option Scheme is in the best interests of Amaero Option Holders.

4.2 Effect on Amaero Shareholders and Amaero Option Holders if the Schemes become Effective

If the Schemes become Effective:

1. under the Share Scheme, all Amaero Shares will be transferred to Amaero US HoldCo;
2. Amaero US HoldCo will become the new parent company of Amaero Group and will retain Amaero’s listing on ASX via CDIs;

3. in consideration for the transfer of the Amaero Shares to Amaero US HoldCo, Amaero Shareholders will receive one Amaero US HoldCo CDI (conferring an interest in 1/40th of an Amaero US HoldCo Share) for each Amaero Share held on the record date for the Share Scheme, which will continue to be traded on ASX under the code “3DA”;
4. under the Option Scheme, all Amaero Options will be cancelled in exchange for each Amaero Option Holder receiving one Amaero US HoldCo Option for every one Amaero Option held on the record date for the Option Scheme, entitling them to one Amaero US HoldCo CDI upon exercise;
5. Amaero Shareholders and Amaero Option Holders will retain an equivalent proportional economic interest in Amaero US HoldCo as they previously held in Amaero, subject to the Sale Facility aspect of the Share Scheme dealing with the interests of Ineligible Foreign Holders; and
6. the operations, management and strategy of Amaero Group will remain unchanged.

4.3 Recommendation of the Amaero Board

The Amaero Board has evaluated the Proposed Transaction and other strategic alternatives to enhance value for Amaero Shareholders and Amaero Option Holders. As part of this evaluation, the Amaero Board has considered their independence and believe that there are no factors impacting their independence at the time of the Schemes or that are likely to arise after implementation of the Schemes as a result of the Proposed Transaction. Senior management has participated in the discussions and analysis surrounding the Proposed Transaction but will not receive any direct benefit from implementation of the Proposed Transaction.

Having considered various options, the Amaero Board considers the Proposed Transaction is the most appropriate way forward and unanimously recommends that Amaero Shareholders and Amaero Option Holders vote in favour of the Schemes, subject to no superior proposal emerging and the Independent Expert continuing to conclude that the Share Scheme is in the best interests of Amaero

4. OVERVIEW OF THE PROPOSED TRANSACTION (CONTINUED)

Shareholders and the Option Scheme is in the best interests of Amaero Option Holders.

The Amaero Directors intend to vote, or procure the voting, in favour of the Schemes with respect to any Amaero Shares and Amaero Options controlled or held by, or on behalf of, them.

4.4 Share Scheme Consideration

If the Share Scheme becomes Effective, each Share Scheme Participant (other than any Ineligible Foreign Holder) will be entitled to receive the Share Scheme Consideration of one Amaero US HoldCo CDI in exchange for every Amaero Share held as at the Record Date. One Amaero US HoldCo CDI will confer a beneficial interest in 1/40th of an Amaero US HoldCo Share. The Share Scheme Consideration will be issued to Share Scheme Participants on the Implementation Date.

Importantly, the Proposed Transaction will not change a Share Scheme Participant's underlying ownership interests in Amaero Group (subject to the Sale Facility aspect of the Proposed Transaction dealing with the interests of Ineligible Foreign Holders).

Refer to section 4.8 for further details on the Sale Facility.

4.5 Option Scheme Consideration

If the Option Scheme becomes Effective, on implementation of the Option Scheme, Option Scheme Participants will receive one Amaero US HoldCo Option for every Scheme Option held on the Record Date. One Amaero US HoldCo Option will, upon exercise, entitle the relevant Amaero US HoldCo Option Holder to one Amaero US HoldCo CDI.

Each Amaero US HoldCo Option issued as Option Scheme Consideration under the Option Scheme will:

1. have an exercise price per Amaero US HoldCo CDI equal to the exercise price per Amaero Share of the relevant Amaero Option it replaces, converted from Australian dollars to US dollars at the prevailing currency exchange rate on the Implementation Date, as reasonably determined by Amaero;
2. have an exercise period equal to the remaining exercise period of the relevant Amaero Option it replaces;
3. be vested to the same extent and have the same terms as to vesting as the relevant Amaero Option it replaces;
4. for Amaero Option Holders with a registered address in Australia and New Zealand on the Amaero Option Register, provide that securities issued on exercise of the Amaero US HoldCo

Option will be Amaero US HoldCo CDIs by default, unless the Amaero Option Holder elects to receive Amaero US HoldCo Shares;

5. for Amaero Option Holders with a registered address outside of Australia and New Zealand on the Amaero Option Register, provide that securities issued on exercise of the Amaero US HoldCo Option will be Amaero US HoldCo Shares by default, unless the Amaero Option Holder elects to receive Amaero US HoldCo CDIs; and
6. otherwise be on the same terms as the Amaero Option it replaces, with necessary changes made due to Amaero US HoldCo being the issuer in place of Amaero. Amaero Option Holders should be aware that the AUD:USD exchange rate may fluctuate between the date of this Scheme Booklet, the time of the Option Scheme Meeting, the Implementation Date and the exercise date. Those Amaero Option Holders who receive Amaero US HoldCo CDIs upon exercise of their Amaero US HoldCo Options should also be aware that whilst the exercise price payable is in US dollars, the trading value of the Amaero US HoldCo CDIs on ASX received upon exercise will be in Australian dollars and the AUD:USD exchange rate may fluctuate.

4.6 CHESSESS depositary interests

CDIs are instruments used to enable securities of foreign companies, such as Amaero US HoldCo, to be traded on ASX and settled and held in CHESSESS.

Amaero US HoldCo CDI Holders will obtain all the economic benefits of actual ownership of Amaero US HoldCo Shares. Amaero US HoldCo CDIs will confer the beneficial interest in Amaero US HoldCo Shares on the holders while the legal title or beneficial ownership to Amaero US HoldCo Shares will be held by CHESSESS Depository Nominees Pty Limited (CDN), a wholly owned subsidiary of ASX Limited.

Amaero US HoldCo CDIs can be converted into Amaero US HoldCo Shares (on a 40:1 basis) and vice versa (on a 1:40 basis) at any time following the Implementation Date.

Annexure J to this Scheme Booklet provides a further description of the rights and entitlements attaching to CDIs generally, including in relation to voting.

4.7 Ineligible Foreign Holders

An Ineligible Foreign Holder is an Amaero Shareholder:

1. whose address as shown in the Amaero Share Register on the Record Date is a place outside

4. OVERVIEW OF THE PROPOSED TRANSACTION (CONTINUED)

1. of Australia, Estonia, Germany, Hong Kong, Italy, New Zealand, the Philippines, Portugal, Singapore, United Arab Emirates, United Kingdom, United States and Vietnam; and
2. who Amaero determines (in its absolute discretion) that it would be unlawful, unduly onerous or unduly impractical to issue the Share Scheme Consideration to such Share Scheme Participant in the relevant jurisdiction.

Ineligible Foreign Holders will not be issued Amaero US HoldCo CDIs. Instead, the Amaero US HoldCo CDIs to which Ineligible Foreign Holders would otherwise be entitled to under the Share Scheme will be issued to the Sale Agent and sold through the Sale Facility, with the net proceeds of the sale being remitted to those Ineligible Foreign Holders.

As at the date of this Scheme Booklet, there are no Ineligible Foreign Holders.

If you are an Ineligible Foreign Holder, refer to section 4.8 for further information on the Sale Facility.

4.8 Sale Facility

The Sale Facility will be established to sell the Share Scheme Consideration that would otherwise have been issued to Ineligible Foreign Holders.

If you are an Ineligible Foreign Holder, the entire Share Scheme Consideration that would otherwise have been issued to you will be issued to the Sale Agent, as your nominee on trust, for sale through the Sale Facility and you will receive a pro rata share of the net proceeds from the sale of all Share Scheme Consideration sold through the Sale Facility. Ineligible Foreign Holders will receive the proceeds of sale after deductions for applicable brokerage, foreign exchange, stamp duty and other selling costs, taxes and charges.

The Sale Agent will sell the Amaero US HoldCo CDIs in such manner, on such financial markets, at such price and on such other terms as the Sale Agent determines in good faith, having due regard to the desire to achieve the best price reasonably available at the time of sale.

The Sale Facility will operate as follows:

1. as soon as reasonably practicable (**Sale Period**), the Sale Agent will arrange for the sale of all the Amaero US HoldCo CDIs allotted to it, held for the

- benefit of Ineligible Foreign Holders; and
2. after settlement of the sale of the last of the Amaero US HoldCo CDIs held by the Sale Agent, the Sale Agent will then promptly remit the sale proceeds in A\$ dollars, less any applicable brokerage, foreign exchange, stamp duty, currency conversion and other selling costs, taxes and charges, to Amaero US HoldCo who will procure the Amaero Share Registry to make the payment to each Ineligible Foreign Holder for their pro rata share of the aggregate sale proceeds.

Each Ineligible Foreign Holder will receive their pro rata share of the aggregate sale proceeds on an averaged basis so that all Ineligible Foreign Holders will receive the same A\$ equivalent price per Amaero US HoldCo CDI (subject to rounding down to the nearest whole cent (in Australian dollars)).

The actual price received by an Ineligible Foreign Holder for their Amaero US HoldCo CDIs that are sold under the Sale Facility may be less than the actual price that is received by the Sale Agent for those Amaero US HoldCo CDIs, less any applicable brokerage, foreign exchange, stamp duty and other selling costs, taxes and charges in respect of those Amaero US HoldCo CDIs.

Payment of the proceeds of the sale of Amaero US HoldCo CDIs under the Sale Facility will be in full and final satisfaction of the rights of Ineligible Foreign Holders under the Share Scheme, and will be made as soon as practicable after implementation of the Share Scheme by either:

1. electronic funds transfer in A\$ into a bank account with any Australian "Authorised Deposit-taking Institution" (as defined in the Corporations Act) notified by the relevant Ineligible Foreign Holder to Amaero (or the Amaero Share Registry via www.portal.automic.com.au/investor/#/home) and recorded in, or for the purposes of, the Amaero Share Register at the Record Date; or
2. if a bank account has not been notified to Amaero US HoldCo, despatching a cheque for the relevant amount in A\$ sent to the relevant Ineligible Foreign Holder by prepaid post (at the risk of that Ineligible Foreign Holder) to their address as it appears on the Amaero Share Register on the Record Date.

There is no guarantee that there will be a liquid

market for the Amaero US HoldCo CDIs. Prices for the Amaero US HoldCo CDIs may rise and fall during the Sale Period and will depend on many factors, including the demand for and supply of the Amaero US HoldCo CDIs. As such, the proceeds that Ineligible Foreign Holders receive under the Sale Facility may be less than the market value of Amaero Shares as at the date of this Scheme Booklet.

None of Amaero, Amaero US HoldCo or the Sale Agent gives any assurance as to the price that will be achieved for the sale of the Amaero US HoldCo CDIs under the Sale Facility. The sale of the Amaero US HoldCo CDIs will be at the risk of the relevant Ineligible Foreign Holder and the Sale Agent is not liable for failure to sell any Amaero US HoldCo CDIs under the Sale Facility at a particular price.

If Amaero US HoldCo receives professional advice that any withholding or other tax is required by law or by a Regulatory Authority to be withheld from a payment to an Ineligible Foreign Holder, Amaero US HoldCo will withhold the relevant amount before making the payment to the relevant Ineligible Foreign Holder. Amaero US HoldCo will pay any withheld amounts to the relevant tax authorities in accordance with the applicable laws. If requested in writing by the relevant Ineligible Foreign Holder, Amaero US HoldCo will provide a receipt or other appropriate evidence of such payment to that Ineligible Foreign Holder.

4.9 US withholding taxes under the Sale Facility

US back-up withholding may apply to the proceeds from the Sale Facility payable to a US Holder (as that term is defined in section 8.1) if such holder fails to provide its correct taxpayer identification number or otherwise fails to certify its exemption from backup withholding. US Holders who are required to establish their exempt status generally will be required to provide a properly completed applicable IRS Form W-9 or W-8 to the Amaero Share Registry. Non-US Holders may be subject to backup withholding unless such holder establishes an exemption, for example, by properly certifying such holder's non-US status on a properly completed IRS Form W-8. It is the responsibility of all Share Scheme Participants who may receive proceeds from the Sale Facility to determine whether they are required to lodge such IRS forms.

4.10 Conclusions of the Independent Expert

Amaero has appointed McGrathNicol Transaction Advisory Pty Limited as the Independent Expert to prepare a report to ascertain whether, in its view, the Share Scheme is in the best interests of Amaero Shareholders and the Option Scheme is in the best interests of Amaero Option Holders.

A copy of the Independent Expert Report is set out in Annexure A.

The Amaero Board encourages you to read the Independent Expert Report in full before deciding how to vote on the Schemes.

4.11 Warranty and appointment of Amaero as agent and attorney by Amaero Shareholders

Under the terms of the Share Scheme, each Amaero Shareholder:

1. warrants to Amaero US HoldCo and is deemed to have authorised Amaero to warrant to Amaero US HoldCo as agent and attorney for the Share Scheme Participant by virtue of clause 7.3 of the Share Scheme, that to the extent permitted by law:
 - a. all their Scheme Shares (including any rights and entitlements attaching to those shares) transferred to Amaero US HoldCo under the Share Scheme will, at the date of transfer, be fully paid and free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind; and
 - b. they have full power and capacity to sell and to transfer their Scheme Shares (together with any other rights and entitlements attaching to those shares) to Amaero US HoldCo under the Share Scheme; and

 - b. the Court; and
3. all other conditions precedent to the Schemes are satisfied or, where applicable, waived,

Amaero will lodge the Court order approving the Schemes with ASIC, upon which the Schemes will become Effective and the Proposed Transaction will be implemented, including the issue of the Share Scheme Consideration to Share Scheme Participants (and, in the case of Ineligible Foreign Holders, to the Sale Agent) and the issue of the Option Scheme Consideration to Option Scheme Participants.

It is expected that the Schemes will be implemented on Monday, 22 June 2026. The key dates and times in relation to the Schemes are set out at the beginning of this Scheme Booklet. These key dates are indicative only and are subject to change.

4.17 Effect on Amaero Shareholders and Amaero Option Holders if the Schemes do not become Effective

If the Schemes are not approved and do not become Effective:

1. Amaero Shareholders and Amaero Option Holders will retain their current interests in Amaero and will continue to receive the benefits of, and be exposed to the risks associated with, holding an investment in Amaero;
2. Amaero will continue to operate as the parent company of Amaero Group and Amaero Group will remain domiciled in Australia;
3. Amaero Shareholders will not receive the Share Scheme Consideration and Amaero Option Holders will not receive the Option Scheme Consideration;
4. Amaero's share price may be reduced to the extent that the market reflects an assumption that the Schemes will be implemented;
5. Amaero will have incurred significant costs, time and resources for no outcome;

7. some of the key disadvantages and risks of the Proposed Transaction as described in section 2.2 of this Scheme Booklet may not arise.

4.18 Listing of Amaero US HoldCo on ASX and a United States securities exchange

1. ASX

An application will be made for the admission of Amaero US HoldCo to the official list of ASX and for the quotation of Amaero US HoldCo CDIs after the date of this Scheme Booklet. Approval of the listing of Amaero US HoldCo is a condition to implementation of the Share Scheme.

It is expected that, provided ASX grants approval for the listing and quotation, that Amaero US HoldCo CDIs will commence trading on ASX, initially on a deferred settlement basis commencing on the Business Day after the Effective Date.

2. United States securities exchange

If the Proposed Transaction is completed, Amaero

US HoldCo, as a United States domiciled company, believes that it will be better positioned for an initial public offering and listing in the United States in late CY2026 or early CY2027, subject to equity market conditions. If a listing in the United States does occur, Amaero Shareholders will have the option of trading Amaero US HoldCo CDIs on ASX in Australia or, after converting Amaero US HoldCo CDIs into Amaero US HoldCo Shares, trading Amaero US HoldCo Shares on a securities exchange in the United States.

Even if a listing on a United States securities exchange does not occur, the Amaero Board believes that a re-domiciliation of Amaero Group from Australia to the State of Delaware in the United States would have sufficient benefits to warrant doing so.

See section 5.3(9) for further details.
- In July 2023, Amaero signed a lease to be the sole tenant in a 100,000 square foot facility in McDonald, Tennessee, US where it has established its flagship titanium powder manufacturing facility.

5.3 Business and operations overview

The principal activities of Amaero focus on producing high-value refractory, specialty alloy and Ti-64 powder for additive manufacturing (**AM**) of mission-critical components for the defence, space and aviation industries.

Using next generation EIGA Premium technology, Amaero will produce powder for powder bed fusion (PBF) applications utilised in AM. Amaero also utilises PM-HIP to produce custom near net shape parts for use in demanding, critical applications.

Amaero's collaborative PM-HIP process combines their extensive knowledge of numerical modelling with the expertise of powder metallurgy. This allows Amaero to produce premium quality parts for the defence, aerospace and oil and gas industries with precision and efficiency, helping alleviate the strained domestic supply chain for castings and forgings of large components.

Amaero provides applied engineering and commercialisation services in collaboration with aerospace, defence and other industries that utilise additive manufacturing.

1. Master purchasing agreement

As announced on 10 April 2026, Amaero entered into a Master Purchasing Agreement that includes a A\$7.8 million minimum commitment for titanium alloy powders, with equal quarterly shipments scheduled from July 2026 to June 2027, providing meaningful revenue visibility for FY2027 and reflecting continued commercial traction in Amaero's powder materials business.

The customer, a private equity-backed manufacturing technology and advanced materials business, may increase volumes above the minimum commitment through additional purchases orders, and the customer expects FY2027 orders to exceed the contracted minimum.

2. United States Navy issues letter of support

On 11 December 2025, Amaero received a Letter of Support from the Department of the Navy validating PM-HIP manufacturing as a viable and technically-ready alternative to castings and forgings for the Maritime Industrial Base and confirming Amaero's strong and differentiated technical capability.

The Amaero Board considers the Letter of Support from the Department of the Navy to be material as it confirms that the Maritime Industrial Base Program is facing long lead times and capacity constraints with the casting and forging supply chain and that the Navy recognises PM-HIP manufacturing technology as a mature and well-established process that meets rigorous technical requirements and compresses production timelines. Further, after intensive collaborative efforts over 18 months, the Navy has affirmed that Amaero has demonstrated strong and differentiated technical capability.

3. Titomic long-term supply agreement

In August 2025, Amaero entered into a five-year exclusive supplier and development agreement with Titomic Limited (ASX:TTT) for refractory and titanium alloy spherical powders (**Supplier and Development Agreement**). Pricing will change for each alloy powder and depends on the landed cost of the feedstock bar (inclusive of shipping, tariffs etc), with

a set markup. Amaero and Titomic will meet twice a year to review the price.

Under the Supplier and Development Agreement, Amaero and Titomic will jointly select and develop new spherical refractory and titanium alloy powders for use in Titomic's cold spray technology for mission-critical defence, space and aerospace applications, with Amaero producing the powders and Titomic manufacturing coatings and parts using its cold spray technology. Amaero and Titomic will collaborate on testing and share resulting data and intellectual property. Amaero will be Titomic's exclusive supplier of the above mentioned alloy powders unless Amaero fails to achieve certification for any selected alloys within 12 months or in certain other limited cases. Amaero has also agreed it will not enter into development collaborations with certain Titomic competitors, however Amaero is permitted to sell powder to Titomic's competitors.

On 19 December 2025, Amaero announced that it has received a purchase order from Titomic in the amount of A\$4.6 million for refractory alloy powders.

This development collaboration combines Amaero's pioneering experience in gas atomisation of refractory and titanium alloy powders, its industry-leading atomisation technology and its large scale, highly responsive production capability with Titomic's pioneering experience in cold spray applications and its patented cold spray technology. With a collaborative and responsive advance material partner, Titomic is well positioned to pursue production opportunities that include titanium pressure vessels, domes, and thermal protection systems.

4. Velo3D long-term supply agreement

In April 2025, Amaero signed a five-year exclusive supply agreement with Velo3D, a leading US based, metal additive manufacturing technology company for mission-critical parts in the defence, space, and aviation industries.

On 8 July 2025, Amaero announced that recent printing and testing of Amaero's C103 and Ti64 (or Ti-6Al-4V) powder by Auburn University's National Center for Additive Manufacturing Excellence has demonstrated that the powders conform with industry accepted standards and based on Auburn's testing and certification, Amaero has satisfied Velo3D's qualification condition.

Based on demand estimates from Velo3D, revenue from C103 and titanium alloy powder sales over the five-year agreement are expected to equal approximately A\$35 million. Actual revenues may change and are subject to Velo3D's production demand.

Amaero will be an exclusive supplier to Velo3D for Niobium C103 and other refractory alloy powders, including molybdenum, tantalum, tungsten, and zirconium alloys. Amaero will be the preferred supplier to Velo3D for titanium alloy powders. Velo3D will develop proprietary print parameters exclusively for Amaero's C103 and refractory alloy powders on all Velo3D Sapphire family of printers.

Velo3D will develop proprietary print parameters for Amaero's titanium alloy powder and exclusively provide print parameters for the Amaero's titanium powders with new machine sales. The print parameters will be provided with 3D printing machine licensing at no additional cost to customers.

Velo3D will exclusively use Amaero's C103, refractory alloy powders for all parts production, including its Rapid Production Solutions (RPS) initiative. Amaero will be a preferred supplier for titanium alloy powders for all parts production. Velo3D will dedicate a Sapphire machine to production with C103 powder and will dedicate a minimum of one large format Sapphire XC machine to production with titanium alloy powder. Velo3D will exclusively offer Amaero's C103, refractory and titanium alloy powders for sale to its 3D printing machine customers.

The exclusive supply agreement underscores Amaero's strategic initiatives to support the reshoring of advanced manufacturing and integrated supply chains to the United States.

5. EXIM credit agreement signed for approximately A\$35 million (US\$22.8 million)

As announced on 26 February 2025, Amaero executed a credit agreement for a US\$22.8 million from EXIM. A fixed interest rate of 5.43% per annum was locked upon execution of the credit agreement. The total loan cost equals approximately 7.05% per annum over an 8-year period, providing an attractive and flexible funding source for Amaero. The financing will fund approximately 75% of the cost of capital equipment to be installed at Amaero's manufacturing facility in Tennessee.

The EXIM loan is the sixth MMIA loan to be approved and the first MMIA loan that supports advanced materials and additive manufacturing, an important signal of US government support to the capital markets and commercial customers. In conjunction with executing the EXIM Bank Credit Agreement, Amaero terminated the US\$5 million cash secured credit facility with Western Alliance Bank. This credit facility was announced on 27 December 2023.

On 27 June 2025, Amaero completed its first draw on the US\$35 million EXIM Bank equipment financing loan and received US\$5.4 million of net proceeds.

On 3 October 2025, Amaero completed a second on the EXIM equipment financing loan and received US\$5.7 million of net proceeds.

After the recent draw, the EXIM loan balance equals US\$13.3 million net of exposure fee. Amaero expects to draw the balance of the loan during FY2026.

6. Long-term supply agreement for US-melt titanium bar

In December 2024, Amaero signed a 3-Year supply agreement (**Supply Agreement**) for US-melt and forged titanium alloy bar with The Perryman Company (**Perryman**). For the 3-year term of the contract, Perryman will be Amaero's preferred and primary supplier of high quality, reliable, and scalable US-melt and forged titanium alloy bar feedstock for its atomisation of premium spherical powder.

The Supply Agreement provides a baseline price in CY2025. For the subsequent years of the contract, the base price increases annually by an agreed upon fixed percentage and includes a variable raw material surcharge that's based on a reference index market price for Ti64. Amaero has provided non-binding estimates of minimum annual demand and will provide Perryman with updates on a quarterly basis. Amaero has not provided a take or pay guarantee, however the stipulated pricing is based on achieving minimum annual order threshold of 45 metric tonnes for calendar year CY2025 and 100 metric tonnes for CY2026 and CY2027. The Supply Agreement does not provide a maximum volume and it is understood that Amaero may increase volume to meet its order demand.

7. Metal powder and PM-HIP production AS9100D accreditation

In December 2024, Amaero received the Aerospace Quality Management System, AS9100D Accreditation (**AS9100D**) for manufacturing and testing of metal powder and for PM-HIP production at its McDonald, Tennessee flagship facility. The AS9100D accreditation, an enhancement of ISO 9001, is an internationally recognised standard for quality management designed for the aerospace, defence, and aviation industries. After successfully completing the audit process, Amaero has demonstrated that the quality management system at its flagship Tennessee facility delivers the highest quality, reliability and safety in its products. It signifies that the systems, processes and procedures meet rigorous requirements designed to help ensure the delivery of high-performance and safe products. Amaero was evaluated across different categories including strategic direction of Amaero, Amaero leadership, quality planning, support, capital equipment and plant, performance evaluation and continuous improvement.

Second atomizer commissioned and third atomizer ordered

In December 2024, Amaero signed a binding equipment supply contract (**Order**) with ALD Vacuum Technology North America, Inc. to purchase a third EIGA Premium atomizer. Amaero's EIGA Premium #1 was commissioned in June 2024 and was the first custom designed and manufactured EIGA Premium to be commissioned in the US and the second to be commissioned globally.

On 23 June 2025, Amaero announced that it has completed commissioning of the second advanced EIGA Premium on schedule at its flagship Tennessee manufacturing facility. Amaero's advanced atomizer technology is the second custom designed EIGA Premium to be commissioned in the US and the third to be commissioned in the world. The third EIGA Premium atomiser that was ordered in December 2024 is on schedule to be delivered in March 2026 and to be commissioned in June 2026 and is expected to be the third custom designed and manufactured EIGA Premium to be commissioned in the US.

The contractual price is consistent with the budgeted capital expense that was reflected in guidance for capital expenditure in FY2025 and FY2026.

8. Qualification completion of Niobium C103 with ADDMAN

In September 2024, Amaero completed the qualification of Niobium C103 AM powder in accordance with ADDMAN Group and its subsidiary Castheon's, technical specifications.

The achievement of C103 qualification with a leading technical and manufacturing authority was achieved ahead of schedule. Amaero's successful qualification of C103 AM powder triggers ADDMAN's offtake obligation with 2.0 tonnes expected to ship in CY2025. The qualification commences a five-year preferred supplier agreement whereby Amaero will be the primary supplier of C103, refractory, and titanium alloy AM powder to ADDMAN Group and its subsidiaries, including Castheon and Keselowski Advanced Manufacturing.

5.4 Business strategies and plans

Amaero's strategic focus on specialty alloy production positions it at the intersection of US national security and economic interests.

Amaero's key business strategies are to:

- address a fundamental gap in the US manufacturing ecosystem by commissioning the largest-capacity, lowest cost domestic production of refractory and titanium alloy spherical powders, and by providing pioneering capabilities to manufacture large near-net shape components as an immediate and viable substitute to long lead time castings and forgings;
- deepen customer integration and strategic partnerships to capitalise on US re-industrialisation and reshoring trends, embedding Amaero's powders and additive manufacturing components into long-term programs across defence, aviation, space, medical and industrial sectors; and
- support the transition to full-scale operations by leveraging off the corporate, operational and deep industry experience of the Amaero Board and senior management.

6.4 Capital structure

1. Current capital structure of Amaero US HoldCo

Amaero US HoldCo is authorised to issue up to 150,000,000 shares of common stock with a par value of US\$0.00001 per share and 15,000,000 shares of preference stock with a par value of US\$0.00001 per share.

As at the date of this Scheme Booklet, no Amaero US HoldCo Shares, Amaero US HoldCo Options or other securities have been issued by Amaero US HoldCo and until the Schemes are implemented, Amaero US HoldCo will not have issued any securities.

2. Capital structure of Amaero US HoldCo on the Implementation Date

- a. If the Schemes become Effective:
 - i. each Share Scheme Participant (other than any Ineligible Foreign Holder) will be entitled to receive the Share Scheme Consideration of one Amaero US HoldCo CDI in exchange for every Amaero Share held as at the Record Date; and
 - ii. each Option Scheme Participant will be entitled to receive the Option Scheme Consideration of one Amaero US HoldCo

6. PROFILE OF AMAERO US HOLDCO (CONTINUED)

i. Option in exchange for every Amaero Option held as at the Record Date which will, upon exercise, entitle the relevant Amaero US HoldCo Option Holder to one Amaero US HoldCo CDI.

b. Each Amaero US HoldCo Option issued as Option Scheme Consideration under the Option Scheme will:

i. have an exercise price per Amaero US HoldCo CDI equal to the exercise price per Amaero Share of the relevant Amaero Option it replaces, converted from Australian dollars to US dollars at the prevailing currency exchange rate on the Implementation Date, as reasonably determined by Amaero;

ii. have an exercise period equal to the remaining exercise period of the relevant Amaero Option it replaces;

iii. be vested to the same extent and have the same terms as to vesting as the relevant Amaero Option it replaces;

iv. for Amaero Option Holders with a registered address in Australia and New Zealand on the Amaero Option Register, provide that securities issued on exercise of the Amaero US HoldCo Option will be Amaero US HoldCo CDIs by default, unless the Amaero Option Holder elects to receive Amaero US HoldCo Shares;

v. for Amaero Option Holders with a registered address outside of Australia and New Zealand on the Amaero Option Register, provide that securities issued on exercise of the Amaero US HoldCo Option will be Amaero US HoldCo Shares by default, unless the Amaero Option Holder elects to receive Amaero US HoldCo CDIs; and

vi. otherwise be on the same terms as the Amaero Option it replaces, with necessary changes made due to Amaero US HoldCo being the issuer in place of Amaero. Amaero Option Holders should be aware that the AUD:USD exchange rate may fluctuate between the date of this Scheme Booklet, the time of the Option Scheme Meeting, the Implementation Date and the exercise date. Those Amaero Option Holders who receive Amaero US HoldCo CDIs upon exercise of their Amaero US HoldCo Options should also be aware that whilst the exercise price payable is in US dollars, the trading value of the Amaero US HoldCo CDIs on ASX received upon exercise will be in Australian dollars and

the AUD:USD exchange rate may fluctuate.

c. The Amaero US HoldCo Options expected to be on issue immediately following implementation of the Option Scheme, assuming all unexercised Amaero Options on issue on the Implementation Date are cancelled and replaced with Amaero US HoldCo Options, are those set out in the list of options set out in section 5.6(2) as well as an additional 600,000 Amaero US HoldCo Options (in the event that the Director Options Resolution is passed at the Extraordinary General Meeting, and 600,000 Amaero Options on the terms set out in the Notice of Extraordinary General Meeting are issued to Tim Johnson before the Record Date).

d. Amaero has applied to the ASX for a waiver from ASX Listing Rule 6.23.2 to the extent necessary to permit the Amaero Options to be cancelled for consideration without requiring the approval of Amaero Shareholders. See section 10.8(1)(l) for further details.

e. If an Amaero Option Holder exercises its Amaero Options prior to the Record Date, Amaero will issue Amaero Shares to that Amaero Option Holder to facilitate that person's participation in the Share Scheme as an Amaero Shareholder.

f. Based on the capital structure of Amaero as at the date of this Scheme Booklet, immediately following implementation of the Proposed Transaction, Amaero US HoldCo will have on issue 952,933,460 Amaero US HoldCo CDIs (being the total number of Amaero Shares currently on issue, rounded up to the nearest number wholly divisible by 40) and 107,295,119 Amaero US HoldCo Options plus an additional 600,000 Amaero US HoldCo Options (in the event that the Director Options Resolution is passed at the Extraordinary General Meeting, and 600,000 Amaero Options on the terms set out in the Notice of Extraordinary General Meeting are issued to Tim Johnson before the Record Date). Given fractional Amaero US HoldCo Shares cannot be issued, an additional 20 Amaero US HoldCo CDIs will be issued to and held by a fractional holder account maintained by Amaero US HoldCo to ensure that the total number of Amaero US HoldCo CDIs on issue immediately following implementation of the Schemes is wholly divisible by 40.

3. Other securities

No other securities in Amaero US HoldCo have been issued or agreed to be issued other than in accordance with the terms of the Schemes.

6.5 Options and incentive plan

Upon implementation of the Schemes, Amaero US HoldCo will assume all obligations in relation to the Amaero Options under the existing Employee Incentive Plan. Amaero US HoldCo intends to adopt a new incentive plan (or amend and restate the existing Employee Incentive Plan) to enable Amaero US HoldCo to issue long-term incentives to senior management and other service providers of Amaero US HoldCo (including, for example, a grant of restricted stock or stock options) subsequent to completion of the Proposed Transaction. If a new incentive plan is adopted, it is currently anticipated that the plan will be in a form and contain provisions which are customary for a public company admitted to a major stock exchange in the United States, such as NASDAQ.

6.6 Differences between Amaero Shares and Amaero US HoldCo CDIs

Amaero US HoldCo CDIs will generally confer similar rights as Amaero Shares and Amaero US HoldCo Options will generally confer similar rights as Amaero Options. Certain differences exist due to the fact that the rights of Amaero US HoldCo CDI Holders and Amaero US HoldCo Option Holders will be governed by:

1. different corporate documents, being the Amaero US HoldCo Charter Documents rather than Amaero's constitution; and
2. different laws, being Delaware law and the United States law rather than Australian law.

Some of the differences between Australian and Delaware and United States laws could be viewed as advantageous to Amaero Shareholders and Amaero Option Holders, while others could be viewed as disadvantageous.

A further description of the rights and entitlements attaching to CDIs generally, including in relation to voting, is set out in Annexure J.

A non-exhaustive comparison of corporate laws applicable in respect of Amaero and Amaero US HoldCo is set out in Annexure K.

A full copy of the Amaero US HoldCo Charter Documents may be obtained by calling the Amaero Schemes Information Line on 1300 441 599 (within Australia) or +61 2 9068 1927 (outside

Australia) Monday to Friday between 8:30am and 7:00pm (Sydney time), or from Amaero's website at <https://amaeroinc.com/>.

6.7 Differences between corporate laws in Australia and the choice of jurisdiction

The Amaero Board considers that the State of Delaware is an appropriate jurisdiction for the domicile of Amaero Group's parent entity. A significant number of publicly traded companies are incorporated in Delaware. In addition, Delaware provides a well-developed body of law defining the fiduciary duties and decision-making processes expected of boards of directors in a variety of contexts, including evaluating potential and proposed corporate takeover offers and business combinations.

Amaero's aim is to re-domicile Amaero Group from Australia to the State of Delaware in the United States and obtain the advantages of Amaero US HoldCo being a United States company. Amaero US HoldCo has adopted a form of Bylaws for a Delaware corporation that it believes is customary and appropriate for a company that intends to pursue a listing on a United States securities exchange, such as NASDAQ, rather than adopting Bylaws that provide Australian-style protections for Amaero US HoldCo CDI Holders and Amaero US HoldCo Option Holders.

Amaero Shareholders receiving Amaero US HoldCo CDIs as part of the Share Scheme Consideration under the Share Scheme and Amaero Option Holders receiving Amaero US HoldCo Options as part of the Option Scheme Consideration under the Option Scheme should note that they may have reduced takeover protection under Delaware and United States laws, compared to the protection available under Australian law.

A non-exhaustive comparison of corporate laws applicable in respect of Amaero and Amaero US HoldCo is set out in Annexure K.

6.8 Change in reporting obligations

1. IFRS and US GAAP

If the Schemes become Effective, Amaero US HoldCo will initially continue to report in accordance with International Financial Reporting Standards (IFRS) until such time as it becomes subject to the reporting requirements of the Exchange Act, following which it

will report in accordance with US Generally Accepted Accounting Principles (**US GAAP**) as parent company of Amaero Group and the Amaero Group fiscal year end will change from 30 June to 31 December.

The Amaero Board believes that there is no material difference in reported results under the different sets of financial statements and that Amaero Shareholders and Amaero Option Holders who currently rely on Amaero's financial statements prepared in accordance with IFRS will continue to understand the content of Amaero US HoldCo's financial statements when prepared solely in accordance with US GAAP.

IFRS and US GAAP are both comprehensive and widely recognised financial reporting frameworks. While they are similar in many respects, they are not identical and differ in certain recognition, measurement, presentation and disclosure requirements. As a result, financial information prepared under IFRS may differ in some respects from financial information prepared under US GAAP.

A detailed comparison of the financial reporting regimes in Australia and the United States and how these differences may have affected Amaero's accounts is set out in Annexure L. Amaero Shareholders and Amaero Option Holders should note that the comparison in Annexure L is not an exhaustive statement of all relevant financial reporting principles and is intended as a general guide only.

2. Exchange Act

Following implementation of the Schemes, if Amaero US HoldCo Shares are listed on a United States securities exchange, such as NASDAQ, or Amaero US HoldCo otherwise is required to register under the Exchange Act, Amaero US HoldCo will become subject to the reporting requirements of the Exchange Act and will be required to file periodic and current reports, proxy statements and other information with the SEC.

6.9 Corporate governance

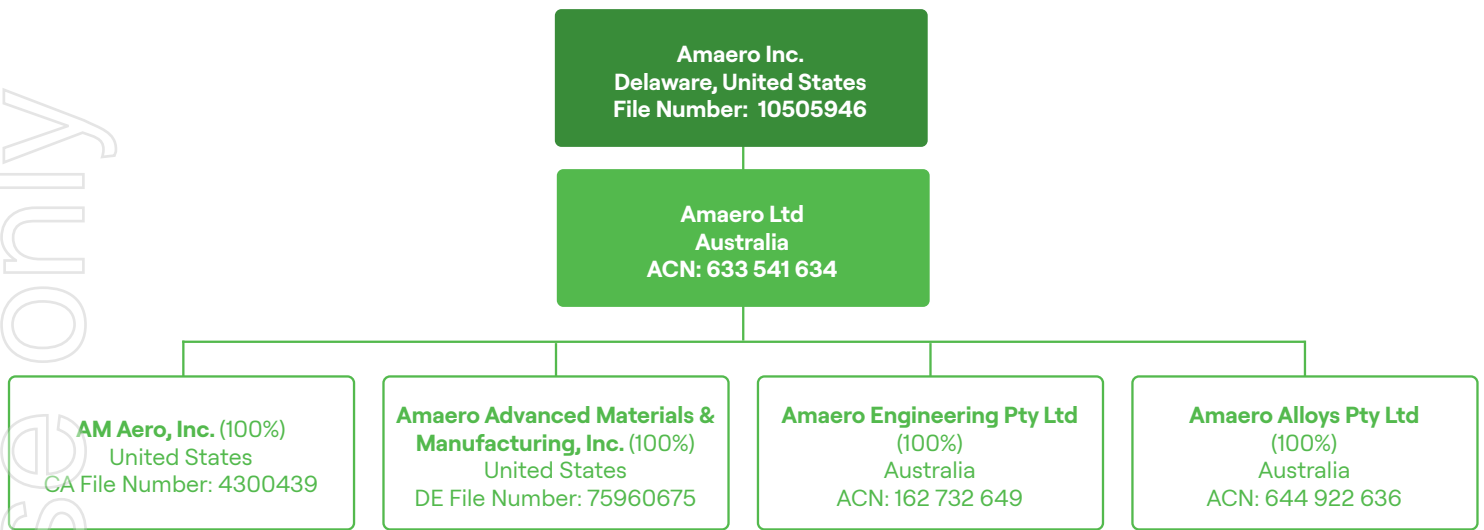

In the event that Amaero US HoldCo lists on a United States securities exchange, Amaero US HoldCo will adopt corporate governance policies and establish and adopt charters for its audit and finance committee, remuneration committee and nominating

and corporate governance committee as necessary or appropriate to comply with applicable listing standards.

Amaero US HoldCo is committed to ensuring that its corporate governance systems comply with statutory and stock exchange requirements and to maintaining its focus on transparency, responsibility and accountability.

6.10 Corporate structure after implementation of the Proposed Transaction

The corporate structure of Amaero Group immediately after implementation of the Proposed Transaction, based on the corporate structure of Amaero Group as at the date of this Scheme Booklet, is shown on the following page.

Amaero has commenced the process of deregistering its two Australian subsidiaries, Amaero Engineering Pty. Ltd. and Amaero Alloys Pty Ltd, which is expected to complete on or around the Implementation Date for the Schemes. If such deregistrations occur on or before the Implementation Date, Amaero Engineering Pty. Ltd. and Amaero Alloys Pty Ltd will no longer be subsidiaries of Amaero or part of the Amaero Group.

6.11 Amaero US HoldCo’s intentions for Amaero’s business, assets and employees following implementation

1. Introduction

Amaero US HoldCo’s current intentions for Amaero’s business, assets and employees following implementation are set out below. The following statements are based on facts and information known to Amaero and Amaero US HoldCo at the time of preparing this Scheme Booklet that concern Amaero as well as the general business environment. Accordingly, future economic, market and business conditions may cause Amaero US HoldCo to make changes it considers necessary and in the interests of Amaero US HoldCo CDI Holders and Amaero US HoldCo Option Holders.

2. Business, assets and employees

If the Schemes become Effective, all Amaero Options will be cancelled and Amaero US HoldCo will own all of the Amaero Shares. The Amaero US HoldCo Board intends to operate the business of Amaero Group in a manner consistent with the past practice of Amaero,

and as previously disclosed by Amaero. Amaero US HoldCo intends to continue to carry on the business and operations of Amaero Group without any material change.

The Amaero US HoldCo Board intends to continue the employment of its current employees, without any major change (although the Amaero US HoldCo Board may undertake a review of Amaero Group after the implementation of the Proposed Transaction to consider whether there are any appropriate measures required to compensate and retain key employees and streamline its operations and structure further).

Amaero has commenced the process of deregistering its two Australian subsidiaries, Amaero Engineering Pty. Ltd. and Amaero Alloys Pty Ltd, which is expected to complete on or around the Implementation Date for the Schemes. Following implementation of the Schemes, the Amaero Group may decide to transfer all of the shares held by Amaero in its US subsidiaries (AM Aero, Inc. and Amaero Advanced Materials & Manufacturing, Inc.) to Amaero US HoldCo with a view to further mitigating foreign ownership, control and influence concerns in its pursuit of classified contracts with the United States Department of War and other federal government customers.

Except as otherwise disclosed in this section 6.11(2), no winding up, merger or liquidation of Amaero, nor any transfer of material assets from Amaero to Amaero US HoldCo, is currently contemplated.

Amaero US HoldCo intends to undertake activities in the ordinary course of Amaero’s business, including

entering into debt-financing, capital raising and offtake arrangements at the operating level.

Amaero Group's operations will be unchanged following implementation of the Proposed Transaction. Notwithstanding the above, current and future economic, market and business conditions may cause the Amaero US HoldCo Board to make changes that it considers necessary and in the interests of Amaero US HoldCo CDI Holders and Amaero US HoldCo Option Holders.

3. ASX listing

If the Schemes become Effective, the existing listing of Amaero Shares on ASX will be replaced with a new listing of the Amaero US HoldCo CDIs on ASX. This means that Amaero will be removed from the official list of ASX and, contemporaneously, the Amaero US HoldCo CDIs will be listed on ASX.

4. Potential listing on a United States securities exchange

If the Schemes become Effective, Amaero US HoldCo may seek to have its shares traded on a United States securities exchange, such as NASDAQ, in late calendar year 2026 or early 2027 subject to equity market conditions. If this listing does occur, Amaero US HoldCo must comply with the rules and requirements of the applicable listing exchange.

5. Conversion of Amaero to a proprietary company limited by shares

On and from the Implementation Date, all Amaero Options will be cancelled and Amaero US HoldCo will own all of the Amaero Shares and Amaero will become a wholly-owned subsidiary of Amaero US HoldCo. Shortly after the Implementation Date, Amaero US HoldCo expects to pass a special resolution to convert Amaero from a public company to a proprietary company limited by shares, and to lodge all necessary documentation with ASIC to give effect to that conversion.

6. Dividend policy

Amaero has not paid a dividend to Amaero Shareholders. The Amaero US HoldCo Board will review the amount of any future dividends to be paid to Amaero US HoldCo CDI Holders having regard to, among other things, Amaero Group's results of operations, financial condition and solvency and

distributable reserves tests imposed by law and such other factors that the Amaero US HoldCo Board may consider relevant. Amaero US HoldCo does not anticipate paying any cash dividends on Amaero US HoldCo Shares in the foreseeable future.

7. Corporate governance

Subject to any changes required to comply with the laws of the State of Delaware and United States federal securities laws and United States market practice, Amaero US HoldCo intends to assume similar corporate governance, disclosure, trading, diversity, audit, remuneration, independent professional advice, identification and risk management, ethical standards and other relevant policies as have currently been put in place by Amaero. Amaero US HoldCo intends to hold annual general meetings in the United States (which may also be accessed by virtual means). See section 6.9 for further details.

8. Changes to Amaero's Constitution

Consistent with its current intention to convert Amaero into a proprietary company limited by shares, Amaero US HoldCo intends to replace Amaero's existing constitution with a constitution appropriate for a proprietary company limited by shares following implementation of the Schemes.

9. No other intentions

Other than as set out in this Scheme Booklet, Amaero US HoldCo has no other intentions regarding:

- the continuation of Amaero Group's business;
- any major change to Amaero Group's business, including any redeployment of Amaero Group's fixed assets; or
- the future employment of Amaero Group's present employees.

7. Risks

7.1 Introduction

The Schemes present a number of potential risks that Amaero Shareholders and Amaero Option Holders should consider when deciding how to vote on the Schemes. Many of these risks are risks to which Amaero, and therefore Amaero Shareholders and Amaero Option Holders, are already currently exposed, while others arise as a result of the Proposed Transaction.

In order to facilitate the understanding of the risks described below, the risks have been categorised as:

1. risks relating to holding Amaero US HoldCo CDIs and Amaero US HoldCo Options;
2. specific risks relating to the Proposed Transaction;
3. risks relating to Amaero US HoldCo's business after the Schemes become Effective; and
4. risks if the Schemes do not become Effective.

Amaero Shareholders and Amaero Option Holders should note that the risks they will be exposed to in respect of the assets, operations and business of Amaero US HoldCo are effectively the same risks that they are currently exposed to in relation to Amaero Group's existing business. This is because the Proposed Transaction simply re-domiciles Amaero Group from Australia to the State of Delaware in the United States.

There are, however, additional new risks that Amaero Shareholders who receive Amaero US HoldCo CDIs and Amaero Option Holders who receive Amaero US HoldCo Options may be exposed to which specifically relate to the change in jurisdiction from Australia to the State of Delaware in the United States. These risks are outlined in detail in section 7.2 below.

Amaero Shareholders and Amaero Option Holders should also note that there are certain implementation specific risks in relation to the Proposed Transaction, which are discussed below in section 7.3.

While this section 7 identifies the major areas of risk associated with being an Amaero US HoldCo CDI Holder and a holder of Amaero US HoldCo Options,

it should not be taken as an exhaustive list of the potential risk factors to which Amaero Shareholders and Amaero Option Holders are exposed. These risk factors do not take into account the individual investment objectives, financial situation, position or particular needs of Amaero Shareholders and Amaero Option Holders. As a result, before voting on the Schemes, you should carefully consider the following risks and understand them having regard to your own individual risk profile, portfolio strategy, investment objectives, financial circumstances and taxation position, as well as the other information contained in this Scheme Booklet.

7.2 Risks relating to holding Amaero US HoldCo CDIs and Amaero US HoldCo Options

Amaero Shareholders (other than Ineligible Foreign Holders) who receive the Share Scheme Consideration and Amaero Option Holders who receive the Option Scheme Consideration may be exposed to the following additional new risks relating to holding Amaero US HoldCo CDIs and Amaero US HoldCo Options.

1. Application of Delaware and United States law

As a company incorporated in the State of Delaware, Amaero US HoldCo will be subject to the law of the State of Delaware and the federal law of the United States, and will not be subject to the Corporations Act except in so far as it applies to a registered foreign company in Australia.

Refer to Annexure K for a more detailed summary of some of the key differences between the Australian and United States legal regimes.

2. Changes to the tax environment

If the Proposed Transaction proceeds, there may be tax consequences for Amaero Shareholders and Amaero Option Holders. See section 8 for more information. Amaero Shareholders and Amaero Option Holders should seek their own professional advice regarding the individual tax consequences applicable to them.

In addition, to the extent Amaero acquires assets, companies or businesses outside the United States,

returns from those investments may be reduced by irrecoverable foreign withholding or other taxes, which may reduce returns derived by investors from a shareholding or option holding in Amaero.

3. Payment of dividends

Any future determination to declare cash dividends will be made at the discretion of the Amaero US HoldCo Board, subject to compliance with applicable laws and covenants under future credit facilities, which may restrict or limit Amaero US HoldCo's ability to pay dividends, and will depend on its financial condition, operating results, capital requirements, general business conditions and other factors that the Amaero US HoldCo Board may deem relevant.

Amaero US HoldCo does not anticipate paying any cash dividends on Amaero US HoldCo Shares in the foreseeable future. As a result, a return on your investment will only occur if Amaero US HoldCo's share price appreciates.

4. Issuance of preferred stock

The Amaero US HoldCo Certificate of Incorporation authorises the Amaero US HoldCo Board to issue, from time to time, one or more series of preferred stock having such designations, preferences, and rights, and the qualifications, limitations or restrictions thereof, including preferences in respect of dividends and distributions, as the Amaero US HoldCo Board decides, authority to do so being expressly vested in the Amaero US HoldCo Board.

The terms of one or more classes or series of preferred stock could adversely impact the voting power or value of Amaero US HoldCo Shares. Similarly, the redemption rights or liquidation preferences that may be granted to holders of preferred stock could affect the residual value of Amaero US HoldCo Shares.

5. Exclusive forum selection

The Amaero US HoldCo Bylaws provide that, unless Amaero US HoldCo consents in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware (or if the Court of Chancery of the State of Delaware does not have jurisdiction, another State court in Delaware or the federal district court for the District of Delaware) will, to the fullest extent permitted by applicable law, be

the sole and exclusive forum for (a) any derivative action or proceeding brought on behalf of the Company, (b) any action asserting a claim of breach of a fiduciary duty owed by any director, stockholder, officer or other employee of the Company to the Company or the Company's stockholders, (c) any action arising pursuant to any provision of the DGCL or the Amaero US HoldCo Certificate of Incorporation or the Amaero US HoldCo Bylaws (as either may be amended from time to time) or (d) any action asserting a claim governed by the internal affairs doctrine, in each such case subject to such Court of Chancery of the State of Delaware determining that that there is an indispensable party not subject to the jurisdiction of such court (and the indispensable party does not consent to the personal jurisdiction of such court within 10 days following such determination).

The Amaero US HoldCo Bylaws further provide that the federal district courts of the US shall be the sole and exclusive forum for the resolution of any complaint asserting a cause of action arising under the US Securities Act against any person in connection with any offering of the Company's securities, unless Amaero US HoldCo consents in writing to the selection of an alternative forum. Any person or entity purchasing, holding or otherwise acquiring any interest in Amaero US HoldCo Shares (including in Amaero US HoldCo CDIs and Amaero US HoldCo Options) will be deemed to have notice of, and consented to, the provisions of section 9.5 of the Amaero US HoldCo Bylaws.

6. United States listing of Amaero US HoldCo Shares

While after the implementation of the Schemes and subject to market conditions, Amaero US HoldCo may pursue a listing of Amaero US HoldCo Shares on a United States securities exchange in accordance with the US Securities Act, such as NASDAQ, it cannot be assured that such listing will ever occur. However, should a listing on a United States securities exchange not eventuate, Amaero US HoldCo CDI Holders will still be able to trade their Amaero US HoldCo CDIs on ASX. Further, the Amaero Board believes that a re-domiciliation of Amaero Group from Australia to the State of Delaware in the United States itself, even in the absence of a United States listing, would have sufficient benefits to warrant doing so.

If Amaero US HoldCo Shares are listed on a United States securities exchange, Amaero US HoldCo completes a listing at some point in the future, or otherwise becomes subject to reporting obligations under federal securities laws, Amaero US HoldCo will become a United States public company subject to the reporting requirements of the Exchange Act and will be required to file periodic reports and other information with the SEC and the United States securities exchange, as applicable. The requirements of being a public company in the United States may strain Amaero US HoldCo's resources and distract management.

7.3 Specific risks relating to the Proposed Transaction

The following risks have been identified as being key risks specific to an investment in the Amaero US HoldCo. These risks have the potential to have a significantly adverse impact on Amaero US HoldCo and may affect Amaero US HoldCo's financial position, prospects and price of its securities.

1. Contract risk

The Share Scheme or the issue of Amaero US HoldCo CDIs by Amaero US HoldCo upon implementation of the Share Scheme may be deemed (under contracts to which Amaero or Amaero US HoldCo or their subsidiaries are a party) as a change of share ownership event in respect of Amaero or Amaero US HoldCo that allows the counterparty to review or terminate the contract as a result of the change, or be issued shares by Amaero US HoldCo upon implementation of the Share Scheme.

If the counterparty to any such contract were to validly seek to renegotiate or terminate the contract on that basis, this may have a material adverse effect on the financial performance of Amaero US HoldCo, depending on the relevant contracts.

Based on Amaero's due diligence and enquiries of current key contractual counterparties, Amaero does not currently expect that any of its material contracts will be terminated as a result of the Proposed Transaction.

2. Accounting risk

In accounting for the Proposed Transaction, Amaero presently expects the Proposed Transaction to be accounted for as a "common control transaction",

with Amaero US HoldCo recognising the assets and liabilities transferred at their historical carrying values.

Amaero US HoldCo's financial reporting will remain subject to applicable accounting standards and regulatory guidance, including any future changes that may affect the preparation and presentation of its consolidated financial statements.

3. Tax losses risk

Although the ability to utilise Australian tax losses carried forward in future periods is subject to applicable tax tests, Amaero currently maintains full valuation allowances against those tax losses and therefore does not presently expect to realise a tax benefit from them, particularly given Amaero's business, operations and strategic focus are now principally US-based.

4. Roll-over relief risk

Subject to receipt of the class rulings from the ATO, there is a risk that Amaero Shareholders and Amaero Option Holders will not be entitled to CGT roll-over relief in respect of the disposal of their Amaero Shares and cancellation of Amaero Options pursuant to the terms of the Schemes.

5. Conditions precedent risk

The Schemes are subject to a number of conditions precedent, including Court approval of both the Share Scheme and the Option Scheme. There is a risk that Court approval may not be obtained in respect of the Share Scheme and/or Option Scheme, or may be obtained subject to conditions which Amaero and/or Amaero US HoldCo (as applicable) are not prepared to accept (acting reasonably), or may be delayed, or that the Requisite Majority of Amaero Shareholders and Requisite Majority of Amaero Option Holders may not approve the Schemes.

7.4 Risks relating to Amaero US HoldCo's business after the Schemes become Effective

There are certain risks which relate directly to Amaero's business and are largely beyond the control of Amaero and the Amaero Board because of the nature of the business.

Amaero Shareholders and Amaero Option Holders are currently already exposed to these risks as

shareholders and option holders (respectively) of an Australian domiciled holding company given they relate to the assets, operations and business of Amaero. Share Scheme Participants (other than Ineligible Foreign Holders) and Option Scheme Participants will continue to be exposed to materially the same risks flowing from Amaero US HoldCo's business after implementation of the Schemes. Accordingly, we have provided a brief summary of these risks below.

COMPANY AND INDUSTRY RISKS

1. Product manufacturing and powder qualification

As announced on 4 June 2024, Amaero installed and commissioned the first of its electrode inert gas atomizers. Amaero is in process of optimising the process parameters to commence commercial powder production. Amaero's production system and manufacturing set-up remains in development and is not yet mature. As such, Amaero's success in producing and delivering powder at scale is contingent on it successfully building-out and completing the production system and manufacturing set-up and its ability to continuously improve that system and operation in an efficient and compliant manner.

Achieving the desired quality and consistency in the produced powders requires precise control over various process parameters such as temperature, pressure, and gas flow rates. Any deviations or errors during the optimisation phase can lead to suboptimal powder characteristics and result in production delays and increased costs. In addition, operational risks, such as equipment malfunctions, unexpected downtimes, or technical failures, can disrupt the production process.

Once the powder production process is optimised, Amaero will work with aerospace and defence, as well as medical customers to qualify the powder. The qualification process in these industries can be rigorous and high value powder sales are subject to material qualification, often requiring extensive testing and validation to ensure that the powders meet stringent performance, quality and safety standards. Delays or failures in the qualification process can hinder Amaero's ability to secure contracts and generate revenue from customers in these sectors. Amaero's ability to attract and

maintain relationships with major customers is integral to its financial performance.

2. Fluctuations in demand for, and prices of, Titanium C103 and specialty alloys

Amaero expects to generate revenue from the sale of titanium, C103 and specialty alloys. As a result, Amaero's profitability could be adversely affected by changes in demand and the market price of Titanium C103 and specialty alloys. Certain alloys may be sourced outside of the United States and subject to tariff levy. Changes in levied tariffs could adversely impact both the purchase price of and sales price of each alloy.

3. Regulatory and compliance risk

The defence, space and aviation industries are highly regulated and Amaero faces risks associated with regulatory compliance. Ensuring adherence to stringent industry-specific standards involves significant costs related to quality assurance, certification processes, and continuous monitoring. Non-compliance can result in severe financial penalties, legal liabilities, operational restrictions, and loss of business opportunities, severely impacting Amaero's financial performance and reputation. Given Amaero continues to build-out and complete its production system and manufacturing set-up, non-compliance risks are higher during this period of its maturity than would be the case when the production system is mature.

4. Inability to retain and attract appropriately skilled employees

The future financial and operational performance of the Amaero Group is significantly dependent on the performance and expertise of key personnel given the highly specialised industries in which the Amaero Group operates. Amaero's ability to complete its production system and manufacturing set-up, innovate, maintain high product quality, and meet customer demands hinges on its ability to retain experienced personnel and attract new talent with the necessary technical skills and industry knowledge. The unplanned loss of key personnel, or the inability to retain high performing individuals may adversely impact the Amaero Group's ability to deliver its customer commitments and future financial performance.

5. Unanticipated risk of increased costs or delays with ongoing McDonald, TN facility build out

Unanticipated costs or delays associated with Amaero's ongoing build out of the McDonald, TN facility could materially and adversely affect Amaero's financial condition or results of operations. The continued build out of Amaero's facility requires the commitment of substantial personnel resources and capital expenditures, in a highly regulated and complex environment. Amaero's future expenditures may increase should additional consultants, personnel and machinery and equipment be required. The success of the build out and completion of the Amaero production system and manufacturing set-up and the amounts and timing of expenditures will depend on the following: Amaero's ability to timely procure equipment in line with the optimal manufacturing set-up for Amaero, certain of which may involve long lead-times; procuring applicable state and local permits; negotiating contracts for equipment, timing of equipment installation, testing and certification and completing infrastructure and construction work.

6. Future capital requirements

The Amaero Group is currently loss making and may require additional financing in the future to sufficiently fund its operations, including research and development and manufacturing, if projected revenues do not materialise in line with Amaero Group's expectations.

Although the Amaero Directors believe additional capital can be obtained if required, there can be no assurance that additional financing will be available on acceptable terms or at all. Any inability to obtain additional financing could have a material adverse effect on the Amaero Group's business, financial condition, and results of operations.

Any additional equity financing may dilute existing shareholdings. Debt financing, if available, may involve restrictions on financing and operating activities.

7. Competition risk

A number of companies in the US, Canada and Europe manufacture titanium C103 and speciality alloy powder. Amaero faces competition in its markets and the failure to effectively compete could lead to erosion of market position, decreased sales

volumes, and reduced profitability, impacting both financial results and operational sustainability in the long term.

8. Contractual risk

The products Amaero intend to produce may be used in critical applications. Use in these applications could result in death, personal injury, property damage, loss of production, punitive damages and consequential damages. Actual or claimed defects in the products we supply could result in contractual default. The outcome of any potential negative contractual claim cannot be predicted with certainty and may be determined adversely to us and as a result, could have a material adverse effect on Amaero's assets, liabilities, business, financial condition or results of operations.

9. Joint ventures, contracts and agents

There may be risk of financial failure or default by a participant in any joint venture to which Amaero is or may become a party; or the insolvency or other managerial failure by any of the contractors used by Amaero in any of its activities; or the insolvency or other managerial failure by any of the other service providers used by Amaero for any activities. Amaero may not be able to meet forecast production, or to complete planned exploration, appraisal and development programmes if there is a failure by these parties.

10. Operating risks

The operations of Amaero may be affected by various factors, including: operational and technical difficulties; difficulties in commissioning and operating plant and equipment; mechanical failure or plant breakdown; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment. Such changes may have an adverse effect on the operations and production ability of Amaero by increasing costs or delaying activities.

11. Acquisition and investment risks

Amaero may seek potential acquisitions and investments to complement its existing assets. Whilst Amaero will undertake thorough due diligence on any acquisitions or investments, there are risks associated with acquisitions or investments

which may not be fully mitigated. Furthermore, any acquisition or investment may require Amaero to raise additional capital, which may be dilutive for Amaero Shareholders and Amaero Option Holders.

12. Key personnel

The ability of Amaero to achieve its objectives depends on the retention of key personnel who provide technical expertise. If Amaero cannot secure external technical expertise or if the services of the present technical panel cease to become available to Amaero, this may affect Amaero's ability to achieve its objectives either fully or within the timeframes and the budget Amaero has decided upon. Whilst the ability of Amaero to achieve its objectives may be affected by the matters mentioned above, the Amaero Directors believe that appropriately skilled and experienced professionals will be available to provide services to Amaero at market levels of remuneration in the event key external contractors cease to be available.

13. Dividends policy

The Amaero Directors are unable to say if and when Amaero will be able to pay dividends. Any future determination as to the payment of dividends by Amaero will be at the discretion of the Amaero Directors and will depend on the availability of profit, operating results, the financial position of Amaero, future capital requirements and general business and other factors considered relevant by the Directors. No assurances in relation to the payment of dividends, or the franking credits attached to such dividends, can be given.

GENERAL RISKS

14. Securities investments and share market conditions

There are risks associated with any securities investment. The prices at which the securities trade may fluctuate in response to a number of factors. Furthermore, the stock market may experience extreme price and volume fluctuations that may be unrelated or disproportionate to the operating performance of such companies. These factors may materially adversely affect the market price of the securities of Amaero regardless of Amaero's operational performance. Neither Amaero nor the Amaero Directors warrant the future performance of

the Amaero, or any return of an investment in Amaero Group.

15. Liquidity risk

Liquidity risk is the risk that Amaero will not be able to meet its financial obligations as they fall due. Amaero's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Amaero's reputation. Amaero manages liquidity risk by maintaining adequate cash reserves from funds raised in the market and by continuously monitoring forecast and actual cash flows. Typically, Amaero ensures it has sufficient cash on demand to meet expected expenditures, including servicing financial obligations; this excludes the potential impact of extreme circumstances that cannot be reasonably predicted.

16. Economic risk

Changes in economic and business conditions or government policies in Australia or internationally may affect the fundamentals of Amaero's target markets or its cost structure and profitability. Adverse changes in the level of inflation, interest rates, exchange rates, government policy (including fiscal, monetary and regulatory policies), consumer spending, and employment rates, are outside the control of Amaero and the management team and may have an adverse effect on the financial performance and/or financial position of Amaero.

17. Changes in laws and government policy

Changes to government regulations, law (including taxation and royalties) and policies, both domestically and internationally, under which Amaero operates may adversely impact Amaero's activities, planned projects and the financial performance of Amaero Group.

18. Global credit and investment markets

Global credit, commodity and investment markets volatility may impact the price at which Amaero Shares trade regardless of operating performance, and affect Amaero's ability to raise additional equity and/or debt to achieve its objectives, if required.

19. Counterparty risk

There is a risk that contracts and other arrangements which Amaero is party to and obtains a benefit from, will not be performed by the relevant counterparties if those counterparties become insolvent or are otherwise unable to perform their obligations.

Amaero and its projects may suffer material adverse consequences such as increased costs, delayed projects, loss of market share, or loss of customers.

20. Unforeseen expenditure risk

Expenditure may need to be incurred that has not been considered in this Scheme Booklet. Although Amaero is not aware of any such additional expenditure requirements, if such expenditure is subsequently incurred this may adversely affect the expenditure proposals and activities of Amaero, as Amaero may be required to reduce the scope of its operations and scale back its programmes. This could have a material adverse effect on Amaero Shares and Amaero Options.

21. Cybersecurity risks

Cybersecurity and cyber incidents may adversely affect Amaero's business. Attempts to gain unauthorised access to Amaero's information technology systems may be related to industrial or other espionage, include the introduction of malware to Amaero's computers and networks. The theft, unauthorised use, or publication of Amaero's confidential business information could harm Amaero's competitive position or otherwise adversely affect Amaero's business. In addition, the devotion of additional resources to the security of Amaero's information technology systems in the future could significantly increase the cost of doing business or otherwise adversely impact Amaero's financial results.

22. Insurance risk

Amaero Group intends to insure its operations in accordance with industry practice. However, in certain circumstances, the Amaero Group's insurance may not provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial position, and results of the Amaero Group.

23. Litigation risk

Amaero Group is not currently engaged in any litigation proceedings. However, the industry is frequently subject to class actions and other litigation in the US as well as in other jurisdictions. There's a risk that a member of the Amaero Group could be made a party to such litigation. If any claim was successfully pursued it may adversely impact the financial performance, financial position, cash flow, share price and/or industry standing of the Amaero Group.

For additional information on specific risks to Amaero and the manufacturing industry, please refer to Amaero's 2025 Annual Report and relevant ASX announcements by visiting ASX's website at www.asx.com.au and Amaero's website at <https://amaeroinc.com/>.

7.5 Risks if the Schemes do not become Effective

Amaero Shareholders and Amaero Option Holders should be aware that if the Schemes do not become Effective, transaction costs of approximately A\$510,000 (excluding GST) are expected to be paid by Amaero. In any event, Amaero is not obliged to pay a break fee or similar payment to Amaero US HoldCo if the Schemes do not become Effective.

8. Taxation considerations

8.1 Certain material US federal income tax implications

The following discussion sets forth certain material US federal income tax consequences of the Proposed Transaction to Amaero Shareholders and Amaero Option Holders that are US Holders (as defined below) and of the ownership, exercise (as applicable) and disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options received by Amaero Shareholders and Amaero Option Holders pursuant to the Proposed Transaction.

This summary is based on current provisions of the Internal Revenue Code of 1986 (the **Code**), applicable Treasury regulations issued thereunder, or Treasury Regulations, judicial authority and the United States Internal Revenue Service, or the IRS, administrative rulings and pronouncements, all of which are subject to change, possibly with retroactive effect, or a different interpretation. Any such change or different interpretation could alter the tax consequences to holders of Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options, as described herein. This summary does not purport to address all US federal income tax matters that may be relevant to a particular holder of Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options.

The discussion applies only to holders of Amaero Shares or Amaero US HoldCo CDIs that hold Amaero Shares or Amaero US HoldCo CDIs as capital assets within the meaning of section 1221 of the Code (generally, property held for investment), and does not address the tax consequences that may be relevant to holders of Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options who are subject to special tax rules that apply to certain types of investors, such as:

- insurance companies;
- tax-exempt entities or organisations (including an “individual retirement account” or “Roth IRA” as defined in sections 408 or 408A of the Code);
- banks, broker-dealers, other financial institutions;
- traders in securities that elect to mark to market;

- certain former citizens or long-term residents of the United States;
- partnerships or other pass-through entities for US federal income tax purposes;
- holders who hold Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options as part of a hedge, straddle, constructive sale or conversion transaction;
- holders who actually or constructively own five percent or more (by vote or value) of the Amaero Shares or Amaero US HoldCo CDIs (including as Amaero Options or Amaero US HoldCo Options);
- holders who are subject to the alternative minimum tax or the Medicare tax on net investment income provisions of the Code;
- Ineligible Foreign Holders;
- US Holders whose functional currency is not the US dollar; or
- holders who acquired Amaero Shares pursuant to the exercise of employee incentive stock options or otherwise as compensation.

Further, except where noted below in relation to compensatory Amaero Options, the following discussion assumes that Amaero US HoldCo CDIs received in the Proposed Transaction represent consideration for the Amaero Shares exchanged and not compensation and that the Amaero US HoldCo Options received in the Proposed Transaction in exchange for Amaero Options that were acquired as capital assets represent consideration for such Amaero Options and not compensation. Finally, the following discussion does not address: (a) the tax consequences under US federal estate and gift tax laws, or state, local or non-US tax laws; (b) the tax consequences of transactions occurring prior to, concurrently with or after the Proposed Transaction (whether or not such transactions are in connection with the Proposed Transaction) including, without limitation, the exchange, conversion or exercise of warrants, options or other rights to purchase Amaero Shares in anticipation of or in connection with the Proposed Transaction; or (c) the tax consequences regarding any compensatory payments made to the

8. TAXATION CONSIDERATIONS (CONTINUED)

holders of Amaero Shares in connection with the Proposed Transaction.

For purposes of this discussion, a **US Holder** is a beneficial owner of Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options who is for US federal income tax purposes:

- an individual who is a citizen or resident of the United States, as determined for US federal income tax purposes;
- a corporation (or other entity taxable as a corporation for US federal income tax purposes) created or organised under the laws of the United States or any state thereof or the District of Columbia;
- a trust: (a) the substantial decisions of which are controlled by one or more United States Persons (within the meaning of the Code) and which is subject to the primary supervision of a United States court; or (b) that has validly elected under applicable Treasury regulations to be treated as a United States person for US federal income tax purposes; or
- an estate that is subject to US federal income tax on its income regardless of source.

A **Non-US Holder** is a beneficial owner of Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options who is not a partnership (including any entity or arrangement treated as a partnership or other flow-through entity and the equity holders therein) and is not a US Holder for US federal income tax purposes.

If an entity or an arrangement treated as a partnership or other flow-through entity for US federal income tax purposes holds Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options, the US federal income tax consequences of the Proposed Transaction or of owning or disposing of Amaero US HoldCo CDIs or owning, exercising or disposing of Amaero US HoldCo Options to a partner in such partnership (or owner of such entity) generally will depend on the status of the partner (or owner of such entity) and the activities of the partnership (or entity). Any entity treated as a partnership or other flow-through entity for US federal income tax purposes that holds Amaero Shares, Amaero Options, Amaero US HoldCo CDIs or Amaero US HoldCo Options, and any partners

in such partnership, are urged to consult their tax advisors with respect to the tax consequences of the Proposed Transaction or of owning, exercising or disposing of Amaero US HoldCo CDIs or Amaero US HoldCo Options in their specific circumstances.

The tax consequences of the Proposed Transaction and holding Amaero US HoldCo CDIs and Amaero US HoldCo Options will depend on a holder's specific situation. You should consult with your tax advisor as to the tax consequences of the Proposed Transaction and holding Amaero US HoldCo CDIs and Amaero US HoldCo Options in your particular circumstances, including the applicability and effect of the alternative minimum tax and any state, local, foreign or other tax laws and of changes in those laws.

1. Treatment of Amaero US HoldCo CDIs

A holder of Amaero US HoldCo CDIs generally will be treated, for US federal income tax purposes, as the owner of the underlying shares of common stock of Amaero US HoldCo that are represented by such CDIs. Accordingly, deposits or withdrawals of Amaero US HoldCo Shares for Amaero US HoldCo CDIs will not be subject to US federal income tax. The following discussion assumes that Amaero US HoldCo CDIs will be so treated.

2. Certain material US federal income tax considerations of the Proposed Transaction to US Holders of Amaero Shares and Amaero Options

The following discussion applies only to Amaero Shareholders and Amaero Option Holders that are US Holders. Holders of Amaero Shares and Amaero Options other than US Holders should consult with their own tax advisors regarding the tax consequences of the Proposed Transaction.

a. In general

Amaero and Amaero US HoldCo intend for the Proposed Transaction to be treated as an exchange described in section 351(a) of the Code and a reorganization under section 368(a)(1)(B) of the Code for US federal income tax purposes. However, the tax treatment of the Proposed Transaction is complex and may be adversely affected by facts that are outside of Amaero or Amaero US HoldCo's control, including the impact of any cash payable to Ineligible Foreign Holders. Neither Amaero nor

8. TAXATION CONSIDERATIONS (CONTINUED)

Amaero US HoldCo has requested a ruling from the IRS in connection with the Proposed Transaction or related transactions. The discussion below neither binds the IRS nor precludes it from adopting a contrary position. The obligation of the parties to consummate the Proposed Transaction is not conditioned upon the receipt of an opinion of counsel regarding the qualification of the Proposed Transaction as an exchange described in section 351(a) of the Code or a reorganization under section 368(a)(1)(B) of the Code. Even if Amaero and Amaero US HoldCo report the Proposed Transaction as qualifying as an exchange described in section 351 of the Code or a reorganization under section 368(a)(1)(B) of the Code, there can be no assurance that the IRS will not assert, or that a court would not sustain, a position contrary to the position taken by Amaero and Amaero US HoldCo.

US Holders of Amaero Shares and Amaero Options should consult with their tax advisors regarding the tax consequences of the Proposed Transaction and the requirements that must be satisfied in order for the Proposed Transaction to qualify as an exchange described in section 351 of the Code or a reorganization under section 368(a)(1)(B) of the Code.

b. Tax consequences if the Proposed Transaction qualifies as an exchange described in section 351 of the Code or a reorganization under section 368(a)(1)(B) of the Code

Provided that the Proposed Transaction qualifies as an exchange described in section 351 of the Code, and subject to the discussion below under the caption heading “*PFIC considerations*”, the following US federal income tax consequences will result to a US Holder of Amaero Shares in the Proposed Transaction:

- i. No gain or loss will be recognised by a US Holder of Amaero Shares for US federal income tax purposes on the exchange of its Amaero Shares for Amaero US HoldCo CDIs in the Proposed Transaction.
- ii. The aggregate tax basis of the Amaero US HoldCo CDIs received in the Proposed Transaction by a US Holder of Amaero Shares will be equal to the aggregate tax basis of the Amaero Shares it exchanged in the Proposed Transaction.

- iii. The tax holding period of the Amaero US HoldCo CDIs received in the Proposed Transaction by a US Holder of Amaero Shares will include the holding period of the Amaero Shares that it surrendered in exchange therefor in the Proposed Transaction.

Provided that the Proposed Transaction qualifies as a reorganization under section 368(a)(1)(B) of the Code, and subject to the discussion below under the caption heading “*PFIC considerations*”:

- (i) the US federal income tax consequences to a US Holder of Amaero Shares in the Proposed Transaction will generally be similar to that described above; and
- (ii) the US federal income tax consequences to a US Holder of Amaero Options held as capital assets in the Proposed Transaction will generally be similar to that described above for US Holders of Amaero Shares.

If the Proposed Transaction qualifies as an exchange described in section 351 of the Code but does not qualify as a reorganization under section 368(a)(1)(B) of the Code, the exchange of Amaero Options held as capital assets for Amaero US HoldCo Options will generally be treated as described below under “*Tax consequences if the Proposed Transaction fails to qualify as an exchange described in section 351 of the Code or a reorganization under section 368(a)(1)(B) of the Code*”.

With respect to Amaero Options that are not treated as capital assets (e.g. that were issued in a compensatory transaction), no taxable gain or loss should be recognised by a US Holder that exchanges Amaero Options for Amaero US HoldCo Options in the Option Scheme, assuming the value of an Amaero Option equals the value of an Amaero US HoldCo Option.

c. Tax consequences if the Proposed Transaction fails to qualify as an exchange described in section 351 of the Code or a reorganization under section 368(a)(1)(B) of the Code

If the Proposed Transaction fails to qualify as either an exchange described in section 351 or a reorganization under section 368(a)(1)(B) of the Code, and subject to the discussion below under the caption heading “*PFIC considerations*”, US Holders of Amaero Shares and Amaero Options that are held as capital assets would be treated as if they sold their Amaero Shares or Amaero Options in a fully taxable

8. TAXATION CONSIDERATIONS (CONTINUED)

transaction. In that case, each US Holder of Amaero Shares and Amaero Options that are held as capital assets would recognise gain or loss with respect to the disposition of each of its shares of Amaero Shares or Amaero Options equal to the difference between: (a) the US Holder's basis in each such share of Amaero Shares or Amaero Options; and (b) the fair market value of the Amaero US HoldCo CDIs or Amaero US HoldCo Options received in the Proposed Transaction, determined as of the date such CDIs are received. Such gain or loss would be treated as capital gain or capital loss and would be treated as long-term capital gain or loss if the Amaero Shares or Amaero Options have been held for more than one year as of the date of the Proposed Transaction. Long-term capital gains of non-corporate US Holders generally are eligible for reduced rates of taxation. A US Holder's aggregate tax basis in the Amaero US HoldCo CDIs or Amaero US HoldCo Options so received would equal its fair market value as of the date such Amaero US HoldCo CDIs or Amaero US HoldCo Options are received, and a US Holder's holding period for such Amaero US HoldCo CDIs or Amaero US HoldCo Options would begin the day after such Amaero US HoldCo CDIs or Amaero US HoldCo Options are received.

US Holders of Amaero Options acquired as compensation should not recognise gain or loss or taxable compensation income with respect to the cancellation of their Amaero Options and issuance of replacement Amaero US HoldCo Options in the Proposed Transaction, even if the Proposed Transaction fails to qualify as either an exchange described in Section 351 of the Code or a reorganization under Section 368(a)(1)(B) of the Code.

d. PFIC considerations

The Proposed Transaction could be a taxable event to US Holders of Amaero Shares and Amaero Options that are held as capital assets if Amaero were treated as a passive foreign investment corporation, or PFIC, for any taxable year during the period such US Holders held Amaero Shares or Amaero Options that are held as capital assets.

A non-US corporation will be classified as a PFIC for US federal income tax purposes if either: (a) at least 75% of its gross income in a taxable year, including its pro rata share of the gross income of any corporation in which it is considered to own at

least 25% of the shares by value, is passive income; or (b) at least 50% of its assets in a taxable year (ordinarily determined based on fair market value and averaged quarterly over the year), including its pro rata share of the assets of any corporation in which it is considered to own at least 25% of the shares by value, are held for the production of, or produce, passive income. Passive income generally includes dividends, interest, rents and royalties (other than rents or royalties derived from the active conduct of a trade or business) and gains from the disposition of passive assets.

Section 1291(f) of the Code requires that, to the extent provided in Treasury Regulations, a United States person who disposes of stock of a PFIC recognise gain notwithstanding any other provision of the Code. No final Treasury Regulations are currently in effect under section 1291(f) of the Code. However, proposed Treasury Regulations under Section 1291(f) of the Code have been promulgated with a retroactive effective date. If finalised in their current form, those proposed Treasury Regulations may require gain recognition to US Holders of Amaero Shares and Amaero Options that are held as capital assets upon the Proposed Transaction if: (a) Amaero were classified as a PFIC at any time during such US Holder's holding period for such Amaero Shares; and (b) the US Holder had not timely made: (i) a QEF Election (as described below) for the first taxable year in which the US Holder owned such Amaero Shares or Amaero Options or in which Amaero was a PFIC, whichever is later; or (ii) a mark-to-market election (as described below) with respect to such Amaero Shares or Amaero Options. The tax on any such recognised gain would be imposed based on a complex set of computational rules.

Under these rules:

- i. the US Holder's gain will be allocated ratably over the US Holder's holding period for such US Holder's Amaero Shares or Amaero Options that are held as capital assets;
- ii. the amount of gain allocated to the US Holder's taxable year in which the US Holder recognised the gain, or to the period in the US Holder's holding period before the first day of the first taxable year in which Amaero was a PFIC, will be taxed as ordinary income;

- iii. the amount of gain allocated to other taxable years (or portions thereof) of the US Holder and included in such US Holder's holding period would be taxed at the highest tax rate in effect for that year and applicable to the US Holder; and
- iv. an additional tax equal to the interest charge generally applicable to underpayments of tax will be imposed on the US Holder in respect of the tax attributable to each such other taxable year of such US Holder.

It is difficult to predict whether, in what form and with what effective date, final Treasury Regulations under section 1291(f) of the Code will be adopted. Therefore, if Amaero has ever been a PFIC, US Holders of Amaero Shares and Amaero Options that are held as capital assets who have not made a timely QEF election or a mark-to-market election (both as defined and described below) may, pursuant to the proposed Treasury Regulations, be subject to taxation on the Proposed Transaction to the extent their Amaero Shares or Amaero Options have a fair market value in excess of their tax basis therein. However, a US Holder of Amaero Options that are held as capital assets may not make or have made a QEF election with respect to Amaero Options. In addition, a US Holder of Amaero Options may only make a mark-to-market election if the Amaero Options are publicly traded for purposes of the PFIC rules. The following discussion assumes no QEF election or mark-to-market election has been made with respect to the Amaero Options.

The QEF election is made pursuant to section 1295 of the Code on a shareholder-by-shareholder basis and, once made, can be revoked only with the consent of the IRS. Retroactive QEF elections generally may be made only by filing a protective statement with the tax return for the first taxation year for which the statement will apply, and if certain other conditions are met or with the consent of the IRS. US Holders should consult their tax advisors regarding the availability and tax consequences of a retroactive QEF election under their particular circumstances. A US Holder that makes a QEF Election may be referred to as an **Electing Shareholder**. An Electing Shareholder generally would not be subject to the adverse PFIC rules discussed above with respect to their Amaero Shares. As a result, a US Holder that is

an Electing Shareholder should not recognise gain or loss as a result of the Proposed Transaction.

The impact of the PFIC rules on a US Holder of Amaero Shares may also depend on whether the US Holder has made a "mark-to-market" election under section 1296 of the Code. Pursuant to section 1296 of the Code, US Holders who hold (actually or constructively) stock of a non-US corporation that is classified as a PFIC may elect to mark such stock to its market value if such stock is regularly traded on an established exchange. No assurance can be given that Amaero Shares have been considered to be regularly traded for purposes of the mark-to-market election or whether the other requirements of this election have previously been satisfied.

Although Amaero does not believe that it was a PFIC for its most recent taxable year ended on 31 December 2025 or the year that includes the Proposed Transaction, each US Holder should consult with its tax advisors regarding the application of PFIC rules in their particular circumstances. Holders of Amaero Options that are not held as capital assets should consult their own tax advisor regarding the implications to them of Amaero is a PFIC.

e. Information reporting and backup withholding

Assuming the Proposed Transaction qualifies as an exchange described in section 351 of the Code, US Holders of Amaero Shares that hold 1% or more (by vote or value) of the outstanding Amaero US HoldCo CDIs will be required to attach a statement to their federal income tax returns that contains the information listed in Treasury Regulation section 1.351-3. Assuming the Proposed Transaction qualifies as a reorganization under section 368(a)(1)(B) of the Code, US Holders of Amaero Shares that hold 1% or more (by vote or value) of the outstanding Amaero Shares or Amaero Shares with a basis of \$1,000,000 or more, or US Holders of Amaero Options that are held as capital assets with a basis of \$1,000,000 or more, will be required to attach a statement to their federal income tax returns that contains the information listed in Treasury Regulation section 1.368-3. Such statement, among other things, must include the fair market value of Amaero Shares or Amaero Options surrendered by the holder in the Proposed Transaction and the holder's tax basis in such Amaero Shares or Amaero Options, in both

8. TAXATION CONSIDERATIONS (CONTINUED)

cases determined immediately prior to the Proposed Transaction.

Under certain circumstances, information reporting and/or backup withholding may apply to US Holders with respect to the consideration received pursuant to the Proposed Transaction. However, US Holders generally can avoid backup withholding by furnishing a properly executed IRS Form W-9 (or an acceptable substitute form) certifying that such holder is not subject to backup withholding or by otherwise establishing an exemption.

Backup withholding is not an additional tax. Any amounts withheld under the backup withholding rules generally will be allowed as a refund or a credit against a US Holder's US federal income tax liability if the required information is furnished by the US Holder in a timely manner to the IRS.

THE PRECEDING DISCUSSION IS INTENDED ONLY AS A SUMMARY OF CERTAIN US FEDERAL INCOME TAX CONSEQUENCES OF THE PROPOSED TRANSACTION UNDER CURRENT LAW. TAX MATTERS CAN BE COMPLICATED AND THE TAX CONSEQUENCES OF THE PROPOSED TRANSACTION TO YOU WILL DEPEND ON THE FACTS OF YOUR OWN SITUATION. YOU ARE URGED TO CONSULT YOUR OWN TAX ADVISORS TO FULLY UNDERSTAND THE TAX CONSEQUENCES OF THE PROPOSED TRANSACTION TO YOU, INCLUDING THE APPLICABILITY AND EFFECT OF FEDERAL, STATE, LOCAL AND NON-US INCOME AND OTHER TAX LAWS.

3. Certain US federal income tax considerations of ownership, exercise (as applicable) and disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options

a. US Holders

i. Distributions on Amaero US HoldCo CDIs

If Amaero US HoldCo makes distributions on Amaero US HoldCo CDIs (including constructive distributions, but not including certain distributions of stock or rights to acquire Amaero US HoldCo CDIs), those payments will constitute dividends for US federal income tax purposes to the extent paid from Amaero US HoldCo's current or accumulated earnings and profits, as determined under US federal income tax principles. To the extent those distributions exceed Amaero US HoldCo's current and accumulated

earnings and profits, the excess will constitute a return of capital and will first reduce US Holder's basis in Amaero US HoldCo CDIs, but not below zero, and then will be treated as gain from the sale of stock as described below under "*Gain on disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets*".

Any dividends that a US Holder receives generally will be includable in such US Holder's gross income as ordinary income on the day actually or constructively received. A preferential US federal income tax rate will apply to any dividends received by non-corporate US Holders if certain holding period requirements are met. Dividends received by corporate US Holders will generally be eligible for the dividends received deduction, or DRD, if certain holding period and other requirements are met. No assurance can be given that we will have sufficient earnings and profits (as determined under US federal income tax principles) to cause any distributions to be eligible for a DRD.

ii. Gain on disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets

Upon a sale or other taxable disposition of Amaero US HoldCo CDIs or Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets, a US Holder generally will recognise capital gain or loss in an amount equal to the difference between the amount realised and the holder's adjusted tax basis in such Amaero US HoldCo CDIs or Amaero US HoldCo Options. Capital gain or loss will constitute long-term capital gain or loss if a US Holder's holding period for such Amaero US HoldCo CDIs or Amaero US HoldCo Options exceeds one year. Capital gain is taxed at preferential rates for non-corporate US Holders. The deductibility of capital losses is subject to certain limitations.

iii. Exercise of Amaero US HoldCo Options received in exchange for Amaero Options that were acquired as compensation

Generally, a US Holder that is an individual will not recognise taxable income upon exercise of an Amaero US HoldCo Option that qualifies as an incentive stock option (an **ISO**) for US tax purposes. If the Amaero US HoldCo CDIs received upon exercise

of an ISO are held for: (i) more than one year after the date of exercise; and (ii) more than two years after the date of grant of the ISO, any gain or loss upon sale or other disposition of the Amaero US HoldCo CDIs received will be treated as long-term capital gain or loss. If the Amaero US HoldCo CDIs received upon exercise of an ISO that are disposed of prior to the end of the holding periods described above (a "disqualifying disposition"), the US Holder will recognise taxable ordinary income on the excess, if any, of the lesser of: (1) the fair market value of the Amaero US HoldCo CDIs on the date of exercise; or (2) the proceeds from the sale or other disposition, in each case, over the purchase price. The excess, if any, of the realised gain over such ordinary income recognised on a disqualifying disposition is taxable as capital gains income. Disqualifying disposition income is reportable as taxable wage income but not subject to tax withholding or employment taxes.

A US Holder will recognise income, taxable at ordinary income tax rates, upon the exercise of an Amaero US HoldCo Option that is treated as a nonqualified stock option (an **NSO**) for US tax purposes. The amount of income is equal to the excess of the fair market value of the Amaero US HoldCo CDIs received over the exercise price paid. If the US Holder is currently an employee or was an employee at the time of the grant of the NSO, such income will constitute wages and will be subject to payment and withholding of applicable US federal income and employment taxes. Any additional gain or loss upon disposition of the Amaero US HoldCo CDIs will be taxed as capital gain or loss.

iv. Exercise of Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets

Upon the exercise of Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets, a US Holder generally will not recognise gain or loss for US federal income tax purposes. The US Holder's initial tax basis in the Amaero US HoldCo CDIs received upon exercise of Amaero US HoldCo Options will equal such holder's adjusted tax basis in the Amaero US HoldCo Options exercised. It is unclear whether such holder's holding period for the Amaero US HoldCo CDIs received will commence on the day of exercise or the following day; however, in either case, the holding period will

not include the holding period of the Amaero US HoldCo Options exercised.

b. Non-US Holders

i. Distributions on Amaero US HoldCo CDIs

As described above under "*Certain US Federal Income Tax Considerations to US Holders of Ownership, Exercise (as Applicable) and Disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options – US Holders – Distributions on Amaero US HoldCo CDIs*", any distributions made by Amaero US HoldCo on Amaero US HoldCo CDIs will constitute dividends for US federal income tax purposes to the extent paid from Amaero US HoldCo's current or accumulated earnings and profits, as determined under US federal income tax principles. To the extent those distributions exceed Amaero US HoldCo's current and accumulated earnings and profits, the excess will constitute a return of capital and will first reduce Non-US Holder's basis in Amaero US HoldCo CDIs, but not below zero, and then will be treated as gain from the sale of stock as described below under "*Gain on disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets.*"

Subject to the discussions below regarding effectively connected income, backup withholding and Foreign Account Tax Compliance Act (**FATCA**) withholding, any dividend paid to Non-US Holders generally will be subject to US federal withholding tax either at a rate of 30% of the gross amount of the dividend or such lower rate as may be specified by an applicable income tax treaty between the United States and a Non-US Holder's country of residence. In order to receive a reduced treaty rate, a Non-US Holder must provide Amaero US HoldCo or the applicable paying agent with an IRS Form W-8BEN or W-8BEN-E or other appropriate version of IRS Form W-8 certifying qualification for the reduced rate. Under applicable Treasury Regulations, Amaero US HoldCo may withhold up to 30% of the gross amount of the entire distribution even if the amount constituting a dividend, as described above, is less than the gross amount. Non-US Holders may obtain a refund of any excess amounts withheld by filing an appropriate claim for refund with the IRS. If Non-US Holders hold Amaero US HoldCo CDIs through a financial institution or other agent acting on Non-US Holder's behalf, such Non-US Holders will be required

8. TAXATION CONSIDERATIONS (CONTINUED)

to provide appropriate documentation to the agent, which then will be required to provide certification to Amaero US HoldCo or its paying agent, either directly or through other intermediaries. Special certification and other requirements apply to certain Non-US Holders that are pass-through entities rather than corporations or individuals.

Dividends received by a Non-US Holder that are treated as effectively connected with Non-US Holder's conduct of a US trade or business (and, if required by an applicable income tax treaty, that are attributable to a permanent establishment or fixed base maintained by a Non-US Holder in the United States) are generally exempt from the 30% US federal withholding tax, subject to the discussions below regarding backup withholding and FATCA withholding. In order to obtain this exemption, Non-US Holder must provide Amaero US HoldCo with a properly executed IRS Form W-8ECI or other applicable IRS Form W-8 or a successor form properly certifying such exemption. Such effectively connected dividends, although not subject to US federal withholding tax, generally are taxed at the US federal income tax rates applicable to US persons, net of certain deductions and credits. In addition, if Non-US Holder is a corporate non-US Holder, dividends such Non-US Holder receives that are effectively connected with Non-US Holder's conduct of a US trade or business may also be subject to a branch profits tax at a rate of 30% or such lower rate as may be specified by an applicable income tax treaty between the United States and Non-US Holder's country of residence. Non-US Holders should consult their own tax advisors regarding the tax consequences of the ownership and disposition of Amaero US HoldCo CDIs, including the application of any applicable tax treaties that may provide for different rules.

ii. *Gain on disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets*

Subject to the discussions below regarding backup withholding and FATCA withholding, Non-US Holders generally will not be required to pay US federal income tax on any gain realised upon the sale or other disposition of Amaero US HoldCo CDIs or

Amaero US HoldCo Options received in exchange for Amaero Options that were held as capital assets unless:

- » the gain is effectively connected with a Non-US Holder's conduct of a US trade or business (and, if an applicable income tax treaty so provides, the gain is attributable to a permanent establishment or fixed base maintained by a Non-US Holder in the United States);
- » Non-US Holder is an individual who is present in the United States for a period or periods aggregating 183 days or more during the calendar year in which the sale or disposition occurs and certain other conditions are met; or
- » such Amaero US HoldCo CDIs or Amaero US HoldCo Options constitute United States real property interests by reason of Amaero US HoldCo's status as a "United States real property holding corporation" (**USRPHC**) for US federal income tax purposes at any time within the shorter of the five-year period preceding Non-US Holder's disposition of, or holding period for, such Amaero US HoldCo CDIs or Amaero US HoldCo Options.

Amaero US HoldCo believes that it is not currently and will not become a USRPHC for US federal income tax purposes, and the remainder of this discussion so assumes. However, because the determination of whether Amaero US HoldCo is a USRPHC depends on the fair market value of Amaero US HoldCo's US real property interests relative to the fair market value of Amaero US HoldCo's US and worldwide real property interests plus Amaero US HoldCo's other assets used or held for use in a trade or business, there can be no assurance that Amaero US HoldCo will not become a USRPHC in the future. Even if Amaero US HoldCo becomes a USRPHC, however, as long as Amaero US HoldCo CDIs are regularly traded on an established securities market, a Non-US Holder's Amaero US HoldCo CDIs will be treated as US real property interests only if a Non-US Holder actually (directly or indirectly) or constructively holds more than five percent of Amaero US HoldCo's regularly traded common stock or similar equity at any time during the shorter of the five-year period preceding Non-US Holder's disposition of, or holding period for, Amaero US HoldCo CDIs. Special rules may apply to Non-US

8. TAXATION CONSIDERATIONS (CONTINUED)

Holders of Amaero US HoldCo Options, who should consult their tax advisors.

Non-US Holders described in the first bullet above generally will be required to pay tax on the gain derived from the sale (net of certain deductions and credits) at US federal income tax rates applicable to US persons, and a corporate Non-US Holder described in the first bullet above also may be subject to the branch profits tax at a 30% rate, or such lower rate as may be specified by an applicable income tax treaty. Non-US Holders described in the second bullet above will be subject to tax at 30% (or such lower rate specified by an applicable income tax treaty) on the gain derived from the sale, which gain may be offset by US source capital losses for the year, provided a Non-US Holder has timely filed US federal income tax returns with respect to such losses. Non-US Holders should consult their tax advisors regarding any applicable income tax or other treaties that may provide for different rules.

iii. *Exercise of Amaero US HoldCo Options*

For a Non-US Holder subject to US taxation, the US federal income tax treatment of the exercise of an Amaero US HoldCo Option generally will correspond to the US federal income tax treatment of the exercise of an Amaero US HoldCo Option by a US Holder, as described above. Non-US Holders who are not subject to US taxation would be subject to the tax under the applicable laws of their local jurisdiction upon exercise of an Amaero US HoldCo Option.

c. **Backup withholding and information reporting**

Generally, Amaero US HoldCo must report annually to the IRS the amount of dividends paid to a recipient, the name and address of such recipient, and the amount of tax withheld, if any. A similar report will be sent to the recipient. Pursuant to applicable income tax treaties or other agreements, the IRS may make these reports available to tax authorities in the recipient's country of residence.

Payments of dividends on or of proceeds from the disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options that are held as capital assets made to US Holders may be subject to backup withholding at the applicable statutory rate if a US Holder fails to provide an accurate taxpayer identification number (generally on a properly completed IRS Form W-9) or is otherwise subject to

backup withholding. Such payments made to Non-US Holders may also be subject to backup withholding at the applicable statutory rate unless a Non-US Holder establishes an exemption, for example, by properly certifying Non-US Holder's non-US status on a properly completed IRS Form W-8BEN or W-8BEN-E or another appropriate version of IRS Form W-8. Notwithstanding the foregoing, backup withholding and information reporting may apply if either Amaero US HoldCo or Amaero US HoldCo's paying agent has actual knowledge, or reason to know, that a Non-US Holder is a US person.

Backup withholding is not an additional tax; rather, the US federal income tax liability of persons subject to backup withholding will be reduced by the amount of tax withheld. If withholding results in an overpayment of taxes, a refund or credit may generally be obtained from the IRS, provided that the required information is furnished to the IRS in a timely manner.

d. **Additional withholding requirements under the Foreign Account Tax Compliance Act**

FATCA, including sections 1471 through 1474 of the Code and the Treasury Regulations and other official IRS guidance issued thereunder, generally imposes a US federal withholding tax of 30% on dividends (including constructive dividends) on, and, subject to the proposed regulations discussed below, the gross proceeds from a sale or other disposition of, Amaero US HoldCo CDIs and Amaero US HoldCo Options that are held as capital assets, paid to a "foreign financial institution" (as specially defined under these rules), unless such institution enters into an agreement with the US government to, among other things, withhold on certain payments and to collect and provide to the US tax authorities substantial information regarding the US account holders of such institution (which includes certain equity and debt holders of such institution, as well as certain account holders that are non-US entities with US owners) or otherwise establishes an exemption. FATCA also generally imposes a US federal withholding tax of 30% on dividends (including constructive dividends) on, and the gross proceeds from a sale or other disposition of, Amaero US HoldCo CDIs and Amaero US HoldCo Options that are held as capital assets paid to a "non-financial foreign entity" (as specially defined under these rules) unless such entity provides the

withholding agent with a certification identifying the substantial direct and indirect US owners of the entity, certifies that it does not have any substantial US owners, or otherwise establishes an exemption.

The withholding obligations under FATCA generally apply to dividends (including constructive dividends) on Amaero US HoldCo CDIs and to the payment of gross proceeds of a sale or other disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options. However, the US Treasury Department has issued proposed regulations that, if finalised in their present form, would eliminate FATCA withholding on gross proceeds of the sale or other disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options (but not on payments of dividends). The preamble of such proposed regulations states that they may be relied upon by taxpayers until final regulations are issued or until such proposed regulations are rescinded. The withholding tax will apply regardless of whether the payment otherwise would be exempt from withholding tax, including under the exemptions described above under the heading "*Certain US Federal Income Tax Considerations to US Holders of Ownership, Exercise (as Applicable) and Disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options – Non-US Holders – Distributions on Amaero US HoldCo CDIs*". Under certain circumstances, Non-US Holders might be eligible for refunds or credits of such taxes. An intergovernmental agreement between the United States and Non-US Holder's country of residence may modify the requirements described in this section. Each Non-US Holder should consult with its own tax advisors regarding the application of FATCA withholding to ownership and disposition of Amaero US HoldCo CDIs and Amaero US HoldCo Options.

THE PRECEDING DISCUSSION OF US FEDERAL INCOME TAX CONSIDERATIONS IS FOR GENERAL INFORMATION ONLY. IT IS NOT TAX ADVICE TO HOLDERS OF AMAERO US HOLDCO CDIS OR AMAERO US HOLDCO OPTIONS IN THEIR PARTICULAR CIRCUMSTANCES. YOU SHOULD CONSULT YOUR OWN TAX ADVISORS REGARDING THE PARTICULAR US FEDERAL, STATE AND LOCAL AND NON-US TAX CONSIDERATIONS OF OWNING, EXERCISE AND DISPOSING OF AMAERO US HOLDCO CDIS AND AMAERO US HOLDCO OPTIONS, INCLUDING THE

CONSEQUENCES OF ANY PROPOSED CHANGE IN APPLICABLE LAWS.

8.2 Certain material Australian tax implications

Amaero is not able to consider the potential tax implications of each individual Share Scheme Participant and Option Scheme Participant. Based on current shareholder and option holder information, the majority of Amaero Shareholders and Amaero Option Holders are residents of Australia and the United States. This section 8.2 provides a general summary of certain Australian tax consequences for Australian and certain non-Australian resident Share Scheme Participants from exchanging their Amaero Shares for Amaero US HoldCo CDIs as contemplated by the Share Scheme, and Australian and certain non-Australian resident Option Scheme Participants from cancelling their Amaero Options for Amaero US HoldCo Options as contemplated by the Option Scheme.

The categories of Share Scheme Participants and Option Scheme Participants considered in this section 8.2 are limited to individuals (including certain employees who own options under an employee share scheme), companies, complying superannuation entities and certain trusts, each of whom hold their investments (including shares and options) on 'capital' account for Australian tax purposes. For the avoidance of doubt, it is noted that this section 8.2 does not consider other types of Share Scheme Participants and Option Scheme Participants (such as partnerships) or Share Scheme Participants and Option Scheme Participants that do not hold their Amaero Shares and Amaero Options on 'capital' account for Australian tax purposes (e.g. where the Amaero Shares and Amaero Options are held on 'revenue' account, as trading stock or as part of certain employment arrangements).

This section 8.2 is prepared solely for the Share Scheme Participants and Option Scheme Participants as described and limited above. This section 8.2 is not intended to and should not be used or relied upon by anyone else and there is no acceptance of a duty of care to any other person or entity. This section 8.2 has been prepared for the purpose of enabling certain Share Scheme Participants and Option Scheme Participants to broadly understand certain

Australian taxation implications of the proposed Schemes as outlined in this Scheme Booklet.

This section 8.2 does not constitute tax advice and is intended only as a general guide to certain Australian tax implications of participating in the Schemes based on taxation law and administrative practice in effect as at the date of this Scheme Booklet (which are both subject to change at any time, possibly with retrospective effect). It does not consider any specific facts or circumstances that may apply to particular Share Scheme Participants and Option Scheme Participants.

As the tax consequences of participating in the Schemes will depend on each Share Scheme Participant's and Option Scheme Participant's own individual circumstances, all Share Scheme Participants and Option Scheme Participants are strongly advised to seek independent professional advice regarding the tax consequences of disposing of their Amaero Shares and Amaero Options according to their own particular circumstances.

Amaero has sought ATO Class Rulings to confirm certain aspects of the Australian income tax consequences resulting from the Schemes.

The ATO Class Rulings will only apply to Amaero Shareholders and Amaero Option Holders insofar as their Amaero Shares or Amaero Options are held on capital account for Australian tax purposes. The scope of the ATO Class Rulings will be limited to:

- Amaero Shareholders which are:
 - » Australian residents; or
 - » foreign residents which hold their Amaero Shares, and will hold the Share Scheme Consideration, as taxable Australian property (**TAP**); and
- Amaero Option Holders which are:
 - » Australian residents; or
 - » foreign residents which hold their Amaero Options and will hold Amaero Options as TAP,

(collectively, the **Covered Participants**).

It is anticipated the ATO Class Rulings will confirm that Covered Participants will:

- be eligible to choose scrip for scrip roll-over relief under section 124-780 of the ITAA 1997 for the

Share Scheme in respect of their Amaero Shares if they would make a capital gain from the exchange of their Amaero Shares for Amaero US HoldCo CDIs under the Share Scheme;

- where their Amaero Options that are eligible for tax deferral under Subdivision 83A-C of the ITAA 1997 have not yet been subject to an Employee Share Scheme (ESS) deferred tax point, be entitled to treat their Amaero US HoldCo Options acquired under the Option Scheme as a continuation of their options and will not be subject to tax under section 130-80 and Division 83A of the ITAA 1997 until the ESS deferred taxing point happens for their Amaero US HoldCo Options; and
- be entitled to choose scrip for scrip roll-over relief under section 124-780 of the ITAA 1997, for the Option Scheme.

1. Australian tax residents

a. Disposal of Amaero Shares

i. CGT event

The disposal of Amaero Shares by a Share Scheme Participant pursuant to the Share Scheme will constitute a "CGT event" for Australian tax purposes. The CGT event will occur at the time the Share Scheme Participant disposes of its Amaero Shares under the Share Scheme, which should be the Implementation Date. However, as discussed further below, CGT roll-over relief may be available in Australia for a Share Scheme Participant to choose to disregard any capital gain which arises from this CGT event.

In the absence of such CGT roll-over relief, a capital gain or capital loss may arise as a consequence of this CGT event. A Share Scheme Participant will make a capital gain if the capital proceeds exceed the Share Scheme Participant's cost base for the Amaero Shares and a capital loss if the capital proceeds are less than the Share Scheme Participant's reduced cost base for the Amaero Shares (all in Australian dollars).

A Share Scheme Participant's cost base (or reduced cost base) in the Amaero Shares should generally include the historical amount paid by the Share Scheme Participant to acquire the Amaero Shares, plus any incidental costs of acquisition and disposal (e.g. brokerage fees and stamp duty).

ii. *CGT roll-over relief*

A Share Scheme Participant who prima facie makes a capital gain or loss from the disposal of their Amaero Shares may be able to choose to obtain CGT roll-over relief in Australia. CGT roll-over relief enables a Share Scheme Participant to choose to disregard the capital gain they make from disposing of their Amaero Shares in exchange for Amaero US HoldCo CDIs.

The choice to apply CGT scrip for scrip roll-over is evidenced by the way in which the Share Scheme Participant prepares their income tax return.

iii. *Consequences if CGT roll-over relief is available and is chosen*

If a Share Scheme Participant chooses CGT roll-over relief, the following general treatment should apply.

- » Capital gain is disregarded
If a Share Scheme Participant chooses CGT roll-over relief, any capital gain or loss arising on the disposal of their Amaero Shares in exchange for Amaero US HoldCo CDIs should be disregarded for Australian tax purposes.
- » Cost base and reduced cost base of Amaero US HoldCo CDIs
If a Share Scheme Participant chooses to obtain CGT roll-over relief, the first element of the cost base and reduced cost base of each Amaero US HoldCo CDI is calculated by reference to the cost base of the Amaero Shares.
- » Acquisition date of Amaero US HoldCo CDIs
If a Share Scheme Participant chooses to obtain CGT roll-over relief, the acquisition date of the Amaero US HoldCo CDIs for Australian CGT purposes is taken to be the date when the Share Scheme Participant originally acquired the corresponding Amaero Shares exchanged for the relevant Amaero US HoldCo CDIs.
This acquisition date will be relevant for the purposes of determining whether any subsequent entitlement to the Australian CGT discount regime is potentially available in respect of any future disposal of the Amaero US HoldCo CDIs where those Amaero US HoldCo CDIs are held by an Australian resident

individual, trust or superannuation fund.

iv. *Consequences if CGT roll-over relief is not chosen or is not available*

If a Share Scheme Participant does not qualify for CGT roll-over relief or the Share Scheme Participant chooses not to apply the roll-over relief, the following general Australian tax treatment should apply.

- » Capital loss
If a Share Scheme Participant makes a capital loss from the disposal of their Amaero Shares, this may be used to offset capital gains they derive in the same or subsequent years of income (subject to satisfying certain conditions), but cannot be offset against ordinary income nor carried back to offset net capital gains arising in earlier income years.
- » Discount CGT treatment
If a Share Scheme Participant makes a capital gain and has held, or is taken to have held, its Amaero Shares for at least 12 months at the time of the disposal of its Amaero Shares, the discount CGT provisions may apply. The discount is 50 percent for individuals and trusts, and 33 1/3 per cent for complying superannuation entities. Companies are not entitled to a CGT discount.
If a Share Scheme Participant derives a discount capital gain, any of their available capital losses will be applied to reduce the capital gain before the discount is applied. The resulting amount is then included in the Share Scheme Participant's net capital gain for the income year.
Where a Share Scheme Participant is a trustee, the rules relating to capital gains and the CGT discount are complex. Subject to certain requirements being satisfied, the capital gain may flow through to the beneficiaries in that trust, who will assess eligibility for the CGT discount in their own right.
- » Cost base and reduced cost base of Amaero US HoldCo CDIs
The first element of the cost base (and reduced cost base) of the Amaero US HoldCo CDIs received by a Share Scheme Participant should be equal to the Australian dollar market

value of the Amaero Shares it exchanges for the Amaero US HoldCo CDIs on the Implementation Date.

- » Acquisition date of Amaero US HoldCo CDIs
The acquisition date of the Amaero US HoldCo CDIs for Share Scheme Participants for CGT discount purposes should be the Implementation Date.

A Share Scheme Participant who does not elect roll-over treatment will need to hold their Amaero US HoldCo CDIs for at least 12 months after the Implementation Date before the CGT discount may apply on a subsequent disposal of the Amaero US HoldCo CDIs.

b. Cancellation of Amaero Options

i. Capital gains tax

CGT Event C2 may apply to Amaero Option Holders upon cancellation of their Amaero Options in exchange for Amaero US HoldCo Options. The CGT event should occur when the Amaero Options are cancelled (on the Implementation Date).

The following tax consequences are expected to arise for Amaero Option Holders from the cancellation of their Amaero Options:

- » a capital gain will be realised (subject to the relief discussed below) to the extent the capital proceeds received by the Amaero Option Holder from the cancellation of their Amaero Options exceed the cost base of those Amaero Options; or
- » a capital loss will be realised to the extent the capital proceeds received by the Amaero Option Holder from the cancellation of their Amaero Options are less than the reduced cost base of those Amaero Options.

Subject to the relief discussed below, a capital gain that arises to an individual, a trust or a complying superannuation fund may qualify for a CGT discount if they have held their Amaero Options for at least 12 months before the Implementation Date. Where the CGT discount applies, the capital gain will be reduced by 50 percent for an individual or a trust, or 33.33 percent for a complying superannuation fund. Capital losses can only be offset against capital gains derived in the same income year or later income years.

The cost base of Amaero Options will generally include the amount paid to acquire them or the market value of any property given to acquire them, plus certain incidental costs such as brokerage. However, the actual cost base will depend on the Amaero Option Holder's own circumstances.

The capital proceeds relating to the cancellation of each Amaero Option will be the market value of the replacement Amaero US HoldCo Options received in exchange determined on the Implementation Date.

- ii. *ESS Amaero options via Employee Incentive Plan and for Amaero Directors in accordance with terms and conditions separate to the Employee Incentive Plan*

Section 83A-130 of the ITAA 1997 may apply to ensure holders of ESS interests, which have not been subject to an ESS deferred taxing point, are not adversely affected by takeovers and restructures. It achieves this purpose, in part, by deeming new ESS interests to be continuations of old ESS interests which have been replaced pursuant to the takeover or restructure (i.e. it provides a "roll over" mechanism).

Accordingly, no ESS deferred taxing point occurs for ESS interests as a result of qualifying takeovers and restructures.

The requirements of section 83A-130 of the ITAA 1997 are satisfied in respect of the Option Scheme such that no ESS deferred taxing point should arise as a result of it being undertaken for Amaero Options which are ESS interests that are eligible for tax deferral under Subdivision 83A-C and which have not been subject to an ESS deferred taxing point.

A deferred taxing point may instead arise in relation to Amaero US HoldCo Options issued as a result of the Option Scheme.

- iii. *Amaero Options already subject to a deferred taxing point and non-ESS Amaero Options*

- » Scrip for scrip roll-over relief
Eligible Amaero Option Holders (i.e. Covered Participants) who hold Amaero Options which have been subject to an ESS deferred taxing point, or who do not hold Amaero Options as ESS interests, may choose to apply CGT

roll-over relief for any capital gain arising from the cancellation of their Amaero Options under section 124-780 of the ITAA 1997 similar to the comments above in respect of eligible Amaero Shareholders.

» Where roll-over relief is chosen

Where an Amaero Option Holder chooses to obtain roll-over relief under section 124-780 of the ITAA 1997 for the cancellation of their Amaero Options under the Option Scheme:

the Amaero Option Holder will be entitled to disregard any capital gain resulting from the cancellation of their Amaero Options in working out their net capital gain or loss for the income year in which the Implementation Date occurs;

- i. the first element of the cost base and reduced cost base of each of the Amaero US HoldCo Options will be worked out by reasonably attributing the cost base of the Amaero Options; and
- ii. for the purposes of determining future eligibility for the CGT discount, the acquisition date of the Amaero US HoldCo Options received under the Option Scheme will be taken to be the date when the Amaero Option Holder originally acquired their Amaero Options.

As with scrip for scrip roll-over relief (discussed above in respect of the Amaero Shares), the benefit of choosing CGT roll-over relief will depend upon the individual circumstances of each Amaero Option Holder. Amaero Option Holders who wish to choose to apply roll-over relief must make the choice by the time they lodge their income tax return for the year of income in which the Implementation Date occurs. The choice to apply CGT scrip for scrip roll-over is evidenced by the way in which the Amaero Option Holder prepares their income tax return.

c. Where roll-over relief is not chosen

Where an Amaero Option Holder does not choose to obtain scrip for scrip roll-over relief under section 124-780 of the ITAA 1997 for the cancellation of their Amaero Options under the Option Scheme:

- i. the Amaero Option Holder will be required to take into account any capital gain or capital loss resulting from the cancellation of their Amaero Options in working out their net capital gain or net capital loss for the income year in which the Implementation Date occurs;
- ii. the first element of the cost base and reduced cost base of Amaero US HoldCo Options received pursuant to the Option Scheme will equal the total of the market value of the Amaero Options cancelled in exchange for the Amaero US HoldCo Options worked out on the Implementation Date; and
- iii. for the purposes of determining future eligibility for the CGT discount, the acquisition date of the Amaero US HoldCo Options received under the Option Scheme will be taken to be the Implementation Date.

2. Ongoing ownership of Amaero US HoldCo CDIs

The following comments are made on the basis Amaero US HoldCo will not be a resident of Australia for Australian income tax purposes, such that Share Scheme Participants will own securities in a foreign tax resident company.

a. Taxation of dividends received

Generally, a Share Scheme Participant will be required to include in its assessable income the gross amount of any dividends it received from Amaero US HoldCo when those dividends are paid or credited to them.

On the basis that Amaero US HoldCo will not be an Australian tax resident, it will not be able to frank any dividends it pays to its shareholders. Accordingly, Share Scheme Participants will not receive franked dividends (and will not be entitled to any franking credits in respect of such dividends) from Amaero US HoldCo.

If a Share Scheme Participant is an Australian tax resident company that holds at least 10% of the 'direct participation' interest in Amaero US HoldCo, dividends received from Amaero US HoldCo may be treated as non-assessable non-exempt income for Australian tax purposes if certain conditions are satisfied. For completeness, it is also noted that Amaero US HoldCo dividends received indirectly by a company through interposed trusts and partnerships may also be eligible for such treatment (i.e. non-

8. TAXATION CONSIDERATIONS (CONTINUED)

assessable non-exempt) if the company's 'direct participation' and 'indirect participation' interests in Amaero US HoldCo are at least 10% and certain other conditions are satisfied.

Share Scheme Participants in these circumstances are advised to seek independent tax advice (based on their individual circumstances), regarding the treatment of dividends received from Amaero US HoldCo, including potential eligibility for non-assessable non-exempt income treatment.

b. Future disposals of Amaero US HoldCo CDIs

On a future disposal of Amaero US HoldCo CDIs, Share Scheme Participants may make a capital gain if the capital proceeds of that disposal are more than the cost base or a capital loss if the capital proceeds of that disposal are less than the reduced cost base.

Any foreign capital proceeds (i.e. US dollars) should be converted into Australian dollars at the prevailing exchange rate at the time of the transaction for Australian tax purposes.

Where the Share Scheme Participant is an Australian resident company which holds more than 10% of Amaero US HoldCo, the capital gain or capital loss on disposal of Amaero US HoldCo CDIs may, in certain circumstances, be reduced by a percentage that reflects the degree to which the underlying assets of Amaero US HoldCo are used in an 'active business' are not 'taxable Australian property'.

The rules regarding this CGT exemption are complex and dependent on the facts at the time of disposal (including the manner in which Amaero US HoldCo CDIs are held and the underlying asset composition of Amaero US HoldCo at that time). Share Scheme Participants in these circumstances are strongly advised to seek independent tax advice based on their individual circumstances, including regarding whether capital gains or capital losses arising from disposal of their Amaero US HoldCo CDIs may be eligible for this CGT exemption treatment.

c. Foreign income tax

Share Scheme Participants may be entitled to obtain an Australian non-refundable tax offset for foreign income tax paid (such as US withholding tax on dividends). This offset can reduce the Australian tax payable on the amounts included in a Share Scheme Participant's assessable income, subject to an offset limit and certain other conditions being satisfied.

d. Foreign income anti-deferral rules

In certain (limited) circumstances, the Australian foreign income anti-deferral rules can operate to tax an Australian tax resident shareholder on the income of a foreign company even though the shareholder has received no actual distributions from the foreign company through the "controlled foreign company" (CFC) rules.

The CFC rules generally only apply where the Share Scheme Participant has a controlling interest and usually do not apply to income from active businesses in countries such as the United States. These rules are extremely complex and may be subject to change.

Accordingly, Share Scheme Participants with a significant interest in Amaero are strongly urged to monitor developments in this area closely and consult their own tax advisers as to the application of the foreign income anti-deferral rules to their holding of Amaero US HoldCo CDIs in their own individual circumstances.

3. Foreign (i.e. non-Australian) tax residents

a. Disposal of Amaero Shares

i. CGT Event A1 may apply to foreign Amaero Shareholders upon their disposal of their Amaero Shares. The CGT event should occur when the Amaero Options are cancelled (on the Implementation Date).

ii. Amaero Shareholders may make:

- » a capital gain to the extent that the capital proceeds received by the Amaero Shareholders from the disposal of their Amaero Shares exceed the cost base of those Amaero Shares; or
- » a capital loss to the extent that the capital proceeds received by the Amaero Shareholders from the disposal of their Amaero Shares are less than the cost base of those Amaero Shares, however, the gain or loss may be disregarded if the Amaero Shares are not considered taxable Australian property (TAP).

iii. Amaero Shares are only considered TAP if either:

8. TAXATION CONSIDERATIONS (CONTINUED)

- » more than 50% of the market value of Amaero's assets is attributable to Australian real property (i.e. a freehold or leasehold interest in Australian real property or mining, quarrying, or prospecting rights in land in Australia), whether the interest is held directly by Amaero or its subsidiaries; or
- » the Amaero Shareholder used the shares at any time in carrying on a business through a permanent establishment **(PE) in Australia.**
- iv. Amaero does not hold material interests in Australian real property. As a result, the Amaero Shares should not be TAP.
- v. Accordingly, foreign Amaero Shareholders that hold their Amaero Shares on capital account should be entitled to disregard their capital gain or loss for Australian CGT purposes

b. Cancellation of Amaero Options

CGT Event C2 may apply to Amaero Option Holders upon cancellation of their Amaero Options in exchange for Amaero US HoldCo Options. The CGT event should occur when the Amaero Options are cancelled (on the Implementation Date).

Amaero Option Holders may make:

- i. a capital gain to the extent the capital proceeds received by the Amaero Option Holder from the cancellation of their Amaero Options exceed the cost base of those Amaero Options; or
- ii. a capital loss to the extent the capital proceeds received by the Amaero Option Holder from the cancellation of their Amaero Options are less than the reduced cost base of those Amaero Options.

Similar to the above comments for foreign Amaero Shareholders, eligible non-resident Amaero Option Holders should be entitled to disregard any capital gain or loss resulting from the Option Scheme. This is on the basis that on the Implementation Date of the Option Scheme, less than 50% of the market value of Amaero's assets are represented by direct and indirect interest in taxable Australian property. For similar reasons, foreign resident capital gain withholding tax should not apply.

c. Taxation on dividends received

Foreign Amaero Shareholders should generally not be subject to Australian income tax or withholding taxes on dividends received from Amaero US HoldCo (on the basis Amaero US HoldCo will not be an Australian tax resident).

d. Future disposals of Amaero US HoldCo CDIs

Foreign Amaero Shareholders should generally not be subject to Australian CGT on the disposal of Amaero US HoldCo CDIs.

4. GST

Share Scheme Participants and Option Scheme Participants should not be liable to Australian GST in respect of either a disposal of their Amaero Shares under the Share Scheme, cancellation of Amaero Options under the Option Scheme or on the acquisition of Amaero US HoldCo CDIs under the Share Scheme, regardless of whether the Share Scheme Participant or Option Scheme Participant is registered for GST or not.

Neither Amaero nor Amaero US HoldCo takes any responsibility for such trading.

10. Additional information

10.1 Director Options Resolution

Following the nomination of Tim Johnson as a non-executive director on the Amaero Board on 10 March 2026, Amaero is proposing to issue 600,000 Amaero Options to Tim Johnson under the Employee Incentive Plan on the terms set out in this section 10.1.

The Amaero Board unanimously recommends that you vote in favour of the Director Options Resolution.

If the Director Options Resolution is approved, 600,000 Amaero Options will be issued to Tim Johnson under the Employee Incentive Plan on the terms set out in this section 10.1 as soon as practicable following the date of the Extraordinary General Meeting, but no later than the Record Date.

1 Executive summary

Independent Expert's Report

Dear Directors,

1.1 Introduction

- 1.1.1 Amaero Ltd (**Amaero** or the **Company**) is a dual Australian Securities Exchange (**ASX**) and OTC Markets (ASX:3DA; OTCQX:AMROF) listed producer of high-value refractory and titanium alloy powders for additive and advanced manufacturing of components utilised by the defence, space, aviation, and medical industries in the United States (**US**). Amaero's manufacturing and corporate headquarters are located in Tennessee, US.
- 1.1.2 On 24 February 2026, Amaero announced it had entered into a scheme implementation deed (**SID**) with Amaero Inc., (a newly-formed Delaware corporation) (**Amaero US HoldCo**) to pursue a re-domiciliation of Amaero and its subsidiaries (**Amaero Group**) from Australia to the State of Delaware in the US by way of proposed schemes of arrangement with its shareholders (**Amaero Shareholders**) and its option holders (**Amaero Option Holders**) under Part 5.1 of the Corporations Act 2001 (Cth) (**Corporations Act**) (**Proposed Share Scheme** and **Proposed Option Scheme**, respectively, and collectively referred to as the **Proposed Schemes**). Under the Proposed Schemes, Amaero US HoldCo will become the ultimate parent company of the Amaero Group.
- 1.1.3 Under the Proposed Share Scheme, all ordinary shares in Amaero (**Amaero Shares**) will be transferred to Amaero US HoldCo. It is intended that Amaero US HoldCo will retain the Company's listing on the ASX via CHES depositary interests (**CDIs**). Amaero Shareholders will receive one CDI in Amaero US HoldCo (conferring a beneficial interest in 1/40th of a share of common stock in Amaero US HoldCo (**Amaero US HoldCo CDI**) for each Amaero Share held on the Record Date for the Proposed Share Scheme.
- 1.1.4 Under the Proposed Option Scheme, Amaero will cancel all existing unlisted options to acquire Amaero Shares (**Amaero Options**). In exchange, Amaero Option Holders will receive one unlisted option in Amaero US HoldCo (**Amaero US HoldCo Option**) for every Amaero Option held, which will, upon exercise, entitle the holder to one Amaero US HoldCo CDI.
- 1.1.5 Amaero Shareholders and Amaero Option Holders will retain equivalent proportional economic interest in Amaero US HoldCo as previously held in Amaero.¹
- 1.1.6 The operations, management and strategy of Amaero Group will remain unchanged should the Proposed Schemes be implemented.
- 1.1.7 Implementation of the Proposed Schemes is subject to the approval of Amaero Shareholders (in respect of the Proposed Share Scheme) and Amaero Option Holders (in respect of the Proposed Option Scheme) and certain regulatory and court approvals.
- 1.1.8 The Proposed Share Scheme is conditional on the approval of the Proposed Option Scheme by the Court and, similarly, the Proposed Option Scheme is conditional on the approval of the Proposed Share Scheme by the Court.
- 1.1.9 A more detailed description of the Proposed Schemes is set out in Section 2.

1.2 Purpose

- 1.2.1 The directors of Amaero have appointed McGrathNicol Transaction Advisory Pty Limited (**McGrathNicol**) to prepare an Independent Expert's Report in relation to the Proposed Schemes to determine whether the Proposed Share Scheme is in the best interests of Amaero Shareholders and separately, whether the Proposed Option Scheme is in the best interests of Amaero Option Holders.

¹ With the exception of Amaero Shareholders deemed to be 'Ineligible Foreign Shareholders'. Management represented there are no Amaero Shareholders deemed to be 'Ineligible Foreign Shareholders' as at the date of this Report.

1.2.2 Our Independent Expert's Report (this **Report**) has been prepared to assist Amaero Shareholders and Amaero Option Holders to form a view as to whether to approve the Proposed Schemes. McGrathNicol is independent of Amaero and has no involvement with, or interest in, the outcome of the Proposed Schemes other than the preparation of this Report.

1.3 Summary of opinion

Opinion

1.3.1 In our opinion, the Proposed Share Scheme is in the best interests of Amaero Shareholders as a whole, in the absence of an alternative proposal or any further information.

1.3.2 In our opinion, the Proposed Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information.

1.3.3 Prior to deciding whether to vote in favour or against the Proposed Schemes, Amaero Shareholders and Amaero Option Holders are strongly encouraged to:

- (a) have regard to the Scheme Booklet and this Report in its entirety;
- (b) seek advice from their own professional advisers; and
- (c) consider their own individual circumstances.

Basis of evaluation

1.3.4 In forming our opinion, we compared the potential advantages and disadvantages to Amaero Shareholders and Amaero Option Holders should the Proposed Schemes be implemented. In our opinion, the advantages of the Proposed Schemes outweigh the disadvantages. We summarise both advantages and disadvantages below and provide more detail in Section 6.

Advantages of the Proposed Schemes

1.3.5 The key advantages to Amaero Shareholders and Amaero Option Holders should the Proposed Schemes be implemented include:

- (a) The underlying proportional economic interests of Amaero Shareholders and Amaero Option Holders will not change as a result of implementation of the Proposed Schemes.
- (b) Re-domiciling to the US is expected to better position Amaero Group in a larger, deeper capital market to take advantage of several US Government structural policy initiatives whilst also retaining a listing on the ASX. Management represented it expected demand for Amaero Group's manufacturing capability and product offering to increase as a result of the initiatives relating to the promotion of sovereign manufacturing and supply-chain re-shoring, in which case would better position Amaero for future growth.
- (c) Interposing a US head company for the Amaero Group is expected to provide access to a broader pool of investors who previously may not have invested in non-US securities which is expected to increase funding opportunities for Amaero Group, without having to change the current operations of Amaero Group.
- (d) Re-domiciling to the US is expected to improve access to lower-cost US debt capital markets which are larger and more diverse than Australian debt capital markets.
- (e) Implementation of the Proposed Schemes is expected to simplify the Amaero Group corporate structure and align current operations, a significant proportion of which are already located in the US, which may increase Amaero Group's attractiveness as a potential target to strategic and merger partners.
- (f) Re-domiciling to the US is expected to better position Amaero for an initial public offering (**IPO**) and listing in the US, which is currently anticipated for late 2026 or early 2027, subject to equity market conditions.
- (g) Having a US head company is expected to place Amaero Group in a better position to negotiate less restrictive security clearance mitigation measures in pursuit of classified United States Department of War and other federal contracts as Amaero Group will no longer be considered a foreign (non-US) entity.

Disadvantages of the Proposed Schemes

- 1.3.6 The key disadvantages to Amaero Shareholders and Amaero Option Holders should the Proposed Schemes be implemented include:
- (a) Amaero Shareholders and Amaero Option Holders may not wish to become a CDI holder or option holder of a US domiciled company. There are differences between holding CDIs and holding the underlying shares directly, as well as differences in the legal framework governing US-domiciled versus Australian-domiciled entities, including a potential reduction of Amaero Shareholder and Amaero Option Holder protection under Delaware corporate legislation compared to Australian corporate legislation.
 - (b) The potential taxation consequences of the Proposed Schemes may not suit existing circumstances of Amaero Shareholders and Amaero Option Holders.
 - (c) The trading value of the consideration under the Proposed Share Scheme as at the date of implementation is not certain, given it depends on the price at which Amaero HoldCo CDIs trade on the ASX after implementation.
 - (d) There may be potential exposure to increased litigation as a result of a parent company being domiciled in the US which is generally considered more litigious than the Australian legal environment.

Implications if the Proposed Schemes do not become Effective

- 1.3.7 If the Proposed Schemes are not approved, or if the conditions for the Proposed Schemes to proceed² are not satisfied or waived, then the SID may be terminated and the Proposed Schemes will not become Effective.
- 1.3.8 In this circumstance, the position of Amaero Shareholders and Amaero Option Holders will remain largely the same as under the current circumstances, in that they will continue to hold shares and options in Amaero (i.e. the Australian listed company).
- 1.3.9 In addition, we note that, if the Proposed Schemes are not implemented:
- (a) the advantages and disadvantages associated with being a company domiciled in the US will not materialise;
 - (b) the share price of Amaero Shares, listed on the ASX, may be reduced to the extent the market had anticipated the Proposed Schemes and the re-domiciliation being implemented; and
 - (c) implementation costs associated with the Proposed Schemes, estimated to be approximately A\$510k as at the date of this Report, will not be recoverable and become "sunk costs". We note these costs reflect one-off costs to Amaero Group.

Assessment of alternatives

- 1.3.10 The Amaero Board represent that if the Proposed Schemes are not approved:
- (a) Amaero Group will continue to pursue capital raises in the same manner as it has historically, noting approximately A\$149m has been raised since May 2022; however
 - (b) The Board anticipates that Amaero Group could face a narrower range of financing alternatives and potentially less favourable pricing and terms.

1.4 Consent and other matters

- 1.4.1 This Report is to be read in conjunction with the scheme booklet prepared by Amaero (**Scheme Booklet**) in which this Report is included, and is prepared for the exclusive purpose of assisting Amaero Shareholders and Amaero Option Holders. This Report should not be used for any other purpose.
- 1.4.2 McGrathNicol consents to the issue of this Report in its form and context and consents to its inclusion in the Scheme Booklet.

² Refer to Paragraphs 2.1.3 and 2.1.4

1.4.3 This Report constitutes general financial product advice only and in undertaking our assessment, we have considered the likely impact of the Proposed Schemes separately to Amaero Shareholders as a whole and to Amaero Option Holders as a whole. We have not considered the likely impact of the Proposed Schemes to individual Amaero Shareholders and individual Amaero Option Holders. Individual Amaero Shareholders and individual Amaero Option Holders have different financial circumstances, and it is neither practicable nor possible to consider the implication of the Proposed Schemes on individual Amaero Shareholders and individual Amaero Option Holders.

1.4.4 The decision of whether or not to approve the Proposed Schemes is a matter for each Amaero Shareholder and each Amaero Option Holder based on, amongst other things, their own views, their risk profile, liquidity preference, investment strategy and tax position. Individual Amaero Shareholders and individual Amaero Option Holders should therefore consider the appropriateness of our opinion to their specific circumstances before acting on it. If Amaero Shareholders or Amaero Option Holders are in doubt about the action they should take, they should seek their own professional advice.

1.5 Other

1.5.1 This letter is a summary of McGrathNicol's opinion on the Proposed Schemes. This letter should be read in conjunction with the detailed Report and appendices as attached. Unless the context requires otherwise, references to "we", "our" and similar terms refer to McGrathNicol. For the avoidance of doubt, all amounts presented are in Australian dollars (**AUD** or **A\$**) unless otherwise indicated.

Yours faithfully

2 The Proposed Schemes

2.1 Overview of the Proposed Schemes

2.1.1 Amaero has entered into a SID with Amaero US HoldCo, a newly formed company incorporated in the State of Delaware, US, to pursue a re-domiciliation of Amaero Group from Australia to the State of Delaware in the US by way of proposed schemes of arrangement with Amaero Shareholders and Amaero Option Holders under Part 5.1 of the Corporations Act.

2.1.2 If the Proposed Schemes become Effective:

- (a) Amaero US HoldCo will acquire all Amaero Shares and issue Amaero US HoldCo Options in exchange for the cancellation of Amaero Options, to become the ultimate parent company of the Amaero Group;
- (b) Amaero US HoldCo will retain Amaero's listing on the ASX via CDIs;
- (c) Amaero Shareholders and Amaero Option Holders will retain an equivalent proportional economic interest in Amaero US HoldCo as previously held in Amaero. Further detail in relation to the consideration under the Proposed Share Scheme is set out in Section 2.2 and under the Proposed Option Scheme is set out in Section 2.3; and
- (d) the operations, management and overall strategy of Amaero Group will remain unchanged.

2.1.3 For the Proposed Schemes to become Effective, the following conditions must be satisfied:

- (a) the Proposed Share Scheme being approved by the Requisite Majority³ of Amaero Shareholders at the Share Scheme Meeting⁴ and the Proposed Option Scheme being approved by the Requisite Majority of Amaero Option Holders at the Option Scheme Meeting;
- (b) the Australian Securities and Investment Commission (**ASIC**) and ASX to provide all reliefs, confirmations, consents, approvals, qualifications or exemptions required to implement the Proposed Share Scheme and separately, the Proposed Option Scheme;
- (c) Court approval of the Proposed Share Scheme and the Proposed Option Scheme; and
- (d) no judgment, order, injunction, restraint or prohibition being issued by any regulatory authority or the Court that prevents implementation of the Proposed Schemes.

2.1.4 For the Proposed Share Scheme to become Effective, the following additional conditions must also be satisfied:

- (a) ASX approving the admission of Amaero US HoldCo to the official list of the ASX and the official quotation of the Amaero US HoldCo CDIs; and
- (b) Amaero US HoldCo and Amaero having done everything necessary under the ASX Settlement Rules to enable CHES Depository Nominees Pty Limited (**CDN**) to allot and issue consideration under the Proposed Share Scheme.

2.1.5 In addition, the Proposed Share Scheme is conditional on the approval of the Proposed Option Scheme by the Court and, similarly, the Proposed Option Scheme is conditional on the approval of the Proposed Share Scheme by the Court.

2.2 Proposed Share Scheme

2.2.1 If the Proposed Share Scheme becomes Effective, on implementation Amaero Shareholders will receive one CDI in Amaero US HoldCo for each Amaero Share held on the Record Date for the Proposed Share Scheme (**Share Scheme Consideration**).

2.2.2 Amaero US HoldCo CDIs will confer a beneficial interest in 1/40th of an Amaero US HoldCo Share.

³ Refer to Section 4.16 of the Scheme Booklet or Section 6.5 of this Report.

⁴ Share Scheme Meeting means the meeting of Amaero Shareholders convened by the Court in relation to the Proposed Share Scheme pursuant to section 411(1) of the Corporations Act and includes any adjournment of that meeting.

2.2.3 Holders of Amaero US HoldCo CDIs will receive all the economic benefits of actual ownership of the underlying Amaero US HoldCo Shares, such as dividends, bonus issues and rights issues. However, as the underlying securities of Amaero US HoldCo are held in the US and are governed by the laws and regulations of the State of Delaware, certain differences arise, as set out in Annexure K of the Scheme Booklet.

2.2.4 The exchange ratio of 40:1 for the conversion of Amaero US HoldCo CDIs into Amaero US HoldCo Shares under the Proposed Scheme has been determined by Amaero and Amaero US HoldCo having regard to:

- (a) the current trading price of Amaero Shares listed on ASX;
- (b) the theoretical trading price of Amaero US HoldCo Shares under a range of potential exchange ratios; and
- (c) the fact that Amaero currently has 952,933,460 Amaero Shares on issue.

2.2.5 The exchange ratio reflects a consolidation of Amaero Shares. If the Proposed Schemes are implemented, Amaero US HoldCo will have 1/40th of the number of shares on issue as compared with the number of Amaero Shares that Amaero currently has on issue. Should the Proposed Share Scheme be implemented, the exchange ratio does not affect the proportional ownership interest an Amaero Shareholder has in Amaero US HoldCo.

2.2.6 Immediately following implementation of the Proposed Schemes, Amaero US HoldCo will have on issue 952,933,460 Amaero US HoldCo CDIs, reflecting the number of Amaero Shares on issue as at the date of this Report, rounded up to the nearest number wholly divisible by 40. Given fractional Amaero US HoldCo Shares cannot be issued, an additional 20 Amaero US HoldCo CDIs will be issued to and held by a fractional holder account maintained by Amaero US HoldCo.

2.2.7 Once issued, Amaero US HoldCo CDIs can be converted into Amaero US HoldCo Shares (on a 40:1 basis) and vice versa (on a 1:40 basis) at any time following implementation of the Proposed Schemes.

2.3 Proposed Option Scheme

2.3.1 If the Proposed Option Scheme becomes Effective, on implementation Amaero Option Holders will receive one Amaero US HoldCo Option for every Amaero Option held on the Record Date for the Proposed Option Scheme (**Option Scheme Consideration**). Upon exercise, each Amaero US HoldCo Option will entitle the holder to one Amaero US HoldCo CDI.

2.3.2 Each Amaero US HoldCo Option will:

- (a) have an exercise price per Amaero HoldCo CDI equal to the exercise price per Amaero Share of the Amaero Option it replaces, converted from Australian dollars (**AUD**) to US dollars (**USD**) at the prevailing exchange rate on Implementation Date;
- (b) have an exercise period equal to the remaining exercise period of the relevant Amaero Option it replaces;
- (c) be vested to the same extent and have the same terms as to vesting as the Amaero Option it replaces (if applicable);
- (d) for Amaero Option Holders with a registered address in Australia and New Zealand, be for Amaero US HoldCo CDIs, and for Amaero Option Holders with a registered address outside Australia and New Zealand, Amaero US HoldCo Shares (unless the holder elects for the opposite); and
- (e) otherwise be on the same terms to the Amaero Option it replaces, with necessary changes made due to Amaero US HoldCo being the issuer of the options (rather than Amaero).

2.3.3 Amaero Option Holders will retain an equivalent proportional economic interest in Amaero US HoldCo as previously held in Amaero. As such, immediately following implementation of the Proposed Schemes, Amaero US HoldCo will have on issue 107,295,119 Amaero US HoldCo Options, reflecting the number of Amaero Options on issue as at the date of this Report.⁵

⁵ This number excludes 600,000 Amaero Options proposed to be issued to Tim Johnson under the Director Options Resolution (refer Section 10.1 of the Scheme Booklet).

2.4 Ineligible Foreign Shareholders

2.4.1 An ineligible foreign shareholder (**Ineligible Foreign Shareholder**) is an Amaero Shareholder:

- (a) whose address is registered in the Amaero Share Register on the Record Date in a jurisdiction other than Australia, Estonia, Germany, Hong Kong, Italy, New Zealand, the Philippines, Portugal, Singapore, United Arab Emirates, United Kingdom, United States and Vietnam; and
- (b) whom Amaero otherwise determines, in its absolute discretion, that it would be unlawful, unduly onerous or unduly impracticable to issue the Share Scheme Consideration to in the relevant jurisdiction.

2.4.2 Amaero Ineligible Foreign Shareholders are entitled to participate in the Proposed Share Scheme on the same basis as all other Amaero Shareholders. However, they are not entitled to receive the Share Scheme Consideration in the form of Amaero US HoldCo CDIs.

2.4.3 Amaero US HoldCo CDIs to which Ineligible Foreign Shareholders would otherwise be entitled to under the Share Scheme will be issued to the Sale Agent and sold through the Sale Facility, with the net proceeds of the sale being remitted to the relevant Ineligible Foreign Shareholders.

2.4.4 As at the date of the Scheme Booklet, Amaero Group had not identified any Ineligible Foreign Shareholders.

3 Scope of our Report

3.1 Purpose of the report

- 3.1.1 Section 411 of the Corporations Act governs schemes of arrangement between companies and its members. When a scheme of arrangement is proposed under Section 411 of the Corporations Act, Section 412(1) of the Corporations Act requires that an explanatory statement accompanies the Notices of Scheme Meeting relating to the proposed scheme of arrangement which includes information that is material to the making of a decision by a member whether or not to agree to the proposed scheme.
- 3.1.2 It is proposed that Amaero and Amaero US HoldCo will have the same directors. Under Part 3 Schedule 8 of the Corporations Regulations the explanatory statement to be sent to shareholders as part of the Notices of Scheme Meeting must include a report by an expert where the parties to the proposed scheme have a common director(s).
- 3.1.3 The independent expert must state whether, in the expert's opinion, the proposed scheme of arrangement is in the best interests of the members of the body as a whole and set out the expert's reasons for forming that opinion.
- 3.1.4 In accordance with the above, Amaero has appointed McGrathNicol as an independent expert to express an opinion addressing whether or not the terms of the Proposed Schemes are fair and reasonable to Amaero Shareholders (in relation to the Proposed Share Scheme) and Amaero Option Holders (in relation to the Amaero Option Scheme).
- 3.1.5 Our Independent Expert's Report has been prepared to assist Amaero Shareholders and Amaero Option Holders in forming the view as to whether to approve the Proposed Schemes.

3.2 Basis of assessment

- 3.2.1 In undertaking our work we have considered the requirements of the Corporations Act and relevant Regulatory Guides issued by ASIC.
- 3.2.2 McGrathNicol has had regard to ASIC Regulatory Guide 111 "Content of expert's reports" (**RG 111**) in relation to the content of Independent Expert's Reports. RG 111 requires an Independent Expert's Report to be prepared in connection with change of control transactions. Given the underlying ownership interests of Amaero Shareholders and Amaero Option Holders will not change as a result of the Proposed Schemes⁶, in our opinion the Proposed Schemes do not represent a change of control transaction.
- 3.2.3 RG 111.35 and RG 111.36 state that where there is no change of control in the underlying ownership interests of security holders or selective treatment of security holders, the issue of 'value' may be of secondary importance:
- "If the expert does not undertake such a valuation, to the extent reasonably practicable, and where it can do so with sufficient precision to assist security holders, the expert should quantify the advantages and disadvantages that it considers to be material".*
- 3.2.4 RG 111.37 states where a transaction:
- "involves a scheme of arrangement and the expert concludes that the advantages of the transaction outweigh the disadvantages, the expert should say that the scheme is in the best interests of members".*

3.3 Limitations and reliance on information

- 3.3.1 McGrathNicol's opinion is based on economic, share market, business and trading conditions prevailing at the date of this Report. These conditions can change significantly over relatively short periods. If they did change materially, our opinion could vary significantly.

⁶ With the exception of Ineligible Foreign Shareholders.

- 3.3.2 This Report is based upon financial and non-financial information provided by Amaero and its advisers. To the extent that there are taxation or legal matters relating to assets, properties or business interests or issues relating to compliance with applicable laws, continuous disclosure rules, regulations, and policies, McGrathNicol:
- (a) assumes no responsibility and offers no legal opinion or interpretation on any issue; and
 - (b) has generally assumed that matters such as title, compliance with laws and regulations and contracts in place are in good standing and will remain so and that there are no legal proceedings, other than as publicly disclosed.

4 Profile of Amaero

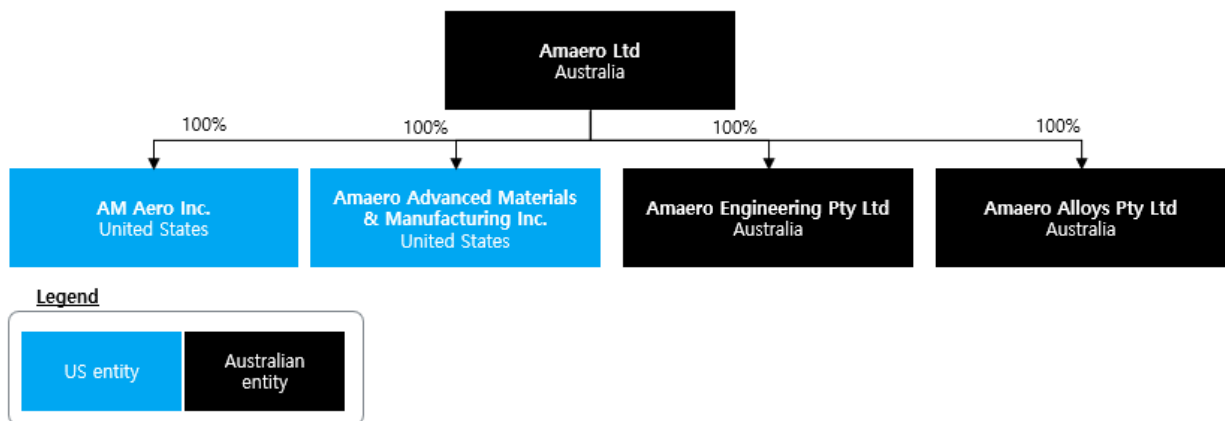

4.1 Background

4.1.1 Amaero was established in May 2019 and operates as a US-based producer of high value refractory and titanium alloy spherical powders and a manufacturer of near-net-shape parts for mission critical components across defence, space, aviation, medical and industrials.

4.1.2 As at the date of this Report Amaero had 51 employees. Apart from one accountant in Australia, all staff and management are located in the US.

4.1.3 Figure 1 sets out the group structure before the proposed re-domiciliation.

4.1.4 Figure 2 sets out the group structure after the proposed re-domiciliation.

Figure 2: Group structure after the proposed re-domiciliation

4.1.5 Amaero has commenced the process of deregistering its two Australian subsidiaries, Amaero Engineering Pty Ltd and Amaero Alloys Pty Ltd, which is expected to complete on or around the Implementation Date of the Proposed Schemes. Following deregistration, these two entities will no longer be subsidiaries of Amaero or part of the Amaero Group.

4.1.6 Amaero Management represented following implementation of the Proposed Schemes, Amaero Group may decide to transfer all of the shares held by Amaero in its US subsidiaries (AM Aero, Inc. and Amaero Advanced Materials & Manufacturing, Inc.) to Amaero US HoldCo with a view to further mitigating foreign ownership, control and influence concerns in the pursuit of classified contracts with the US Department of War and other federal government customers (refer Paragraphs 6.3.15 and 6.3.16).

4.2 Operations

Overview

4.2.1 Amaero's manufacturing operations are based in a 100,000-square-foot titanium powder manufacturing facility located in McDonald, Tennessee, US, which Amaero relocated to in July 2023. In June 2025, Amaero completed a A\$28m facility infrastructure improvement project to enhance production capabilities and prepare for scale.

4.2.2 The principal activities of Amaero focus on producing high-value refractory, specialty alloy and Ti-64⁷ powder for additive manufacturing (**AM**) of mission-critical components for the defence, space and aviation industries.

4.2.3 Amaero's manufacturing processes utilise electrode induction melting inert gas atomisation premium (**EIGA Premium**) technology to produce powder for powder bed fusion (**PBF**) applications utilised in AM. As at the date of this Report, Amaero had commissioned two EIGA Premium atomisers, with a third expected to be commissioned in June 2026, and a fourth in June 2027.⁸

4.2.4 Additionally, Amaero utilises Powder Metallurgy Hot Isostatic Pressing (**PM-HIP**) technology to manufacture custom near-net-shape components for the defence, aerospace, space and energy sectors. PM-HIP manufacturing processes involve fabricating pre-formed, hollow moulds for large scale components and filling them with metal powder. In FY25, Amaero achieved AS9100D accreditation for its operations that use PM-HIP technology.⁹

4.2.5 In December 2025, Amaero received a Letter of Support from the US Department of the Navy validating PM-HIP manufacturing as a viable and technically ready alternative to castings and forgings for the Maritime Industrial Base Program¹⁰.

4.2.6 Amaero has also designed and invested in manufacturing equipment to recycle Argon¹¹ (**Argon Recycling Plant**) which allows Amaero to recapture 95% of the Argon produced during the manufacturing process of refractory powders. The Argon Recycling Plant is expected to be installed by the end of CY2026 with commissioning expected during the first quarter of CY2027. The total cost of the Argon Recycling Plant is expected to be A\$6m and the payback period on the investment is estimated to be 2 to 2.5 years.

Key supplier arrangements

4.2.7 Amaero's key long-term supplier and support arrangements include:

- (a) **The Perryman Company:** In December 2024, Amaero entered into a three-year strategic supply agreement with The Perryman Company, a US producer of titanium products serving aerospace and defence applications. Under the agreement, The Perryman Company is Amaero's preferred and primary supplier for US-melt titanium alloy bar feedstock for atomisation of spherical powder. The agreement is expected to support Amaero's expansion of advanced powder manufacturing in the US.

⁷ Ti-64 is a high-performance titanium alloy that is widely used in aerospace, automotive and medical implant industries.

⁸ ASX Announcement *Amaero Accelerates Growth Initiatives with Major Equipment Orders* dated 11 December 2025, page 1.

⁹ AS9100D is a generally accepted certification standard for quality management systems (QMS) across the aerospace sector.

¹⁰ Established in September 2024, the Maritime Industrial Base Program is a US Government initiative aimed at strengthening and sustaining the defence maritime industrial base that builds and maintains surface ships, aircraft carriers, and submarines critical to national defence.

¹¹ Argon is a colourless, odorless, and inert gas that belongs to the noble gases group in the periodic table.

- (b) **Auburn NCAME:** In July 2025, Amaero announced that it had established a technical development collaboration with the Auburn National Center for Additive Manufacturing Excellence (**NCAME**), a specialist US-based research and testing organisation. As part of this collaboration, Auburn NCAME conducted printing and performance testing of Amaero's C103 and Ti-6Al-4V (Ti64) powders. The results confirmed that the powders meet recognised industry standards. Based on Auburn NCAME's testing outcomes and certification, Amaero has satisfied the powder qualification requirements set by Velo3D.
- (c) **Tennessee Valley Authority:** In July 2023, Amaero announced it has secured a long-term support arrangement with the Tennessee Valley Authority (**TVA**). This commitment includes an investment credit and a discounted electricity pricing arrangement for a 10-year period. This arrangement is expected to provide long-term cost and operational support for Amaero's manufacturing activities.

Commercialisation progress and key customer arrangements

4.2.8 Amaero commenced commercial sale of refractory and titanium powders during FY25. Refer to Section 4.3 for an overview of Amaero's historical financial performance.

4.2.9 Over the past twelve months, Amaero secured several key supply contracts with the following customers:

- (a) **Velo3D:** In April 2025, Amaero entered into a five-year exclusive supply agreement with Velo3D, a leading US AM technology company. Under the agreement, Amaero will act as the exclusive supplier of C103 and other refractory alloy powders and as a preferred supplier for titanium alloy powders. Velo3D estimates revenue from this agreement to be A\$35m.
- (b) **US Department of Defence Prime Contractor:** In August 2025, Amaero announced that it had received contracts from a US Department of Defence prime contractor. Amaero delivered First Article¹² components during 1HY26, reflecting an important milestone toward securing contracts for production parts.
- (c) **Titomic Limited:** In December 2025, Amaero received a A\$4.6m refractory powder order from Titomic under its five-year exclusive supplier and development agreement for refractory and titanium spherical powders.
- (d) **The Boeing Company:** In August 2025, Amaero announced it had entered into a development collaboration with The Boeing Company to combine Amaero's expertise in PM-HIP manufacturing of large, near-net-shape components with Boeing's manufacturing capabilities and materials engineering experience.
- (e) **Knust-Godwin:** In October 2025, Amaero announced it had entered into a five-year exclusive supplier agreement for titanium alloy powders and strategic development agreement with Knust-Godwin. Knust-Godwin is an integrated additive manufacturer and precision machining firm that operates from a 240,000 square foot facility near Houston, Texas.

¹² First Article refers to the initial production manufactured using the intended production processes, tools, and materials, aimed at demonstrating and validating compliance with all technical, quality, and contractual requirements prior to the launch of full-scale production.

4.3 Historical financial performance

4.3.1 The consolidated statement of financial performance of Amaero for the years ended 30 June 2024 (FY24), 30 June 2025 (FY25) and six-month period ended 31 December 2025 (1HY26) is set out in Figure 3.

4.3.2 In relation to Amaero's historical financial performance, we note:

- Amaero has been in a net loss position historically, given commercialisation of Amaero's technology and products only began in FY24.
- Revenue increased from A\$464k in FY24 to A\$3.8m in FY25 driven by growth in powder sales (A\$2.4m; FY24 – A\$nil) as well as growth in sales of PM-HIP components (A\$1.4m; FY24 – A\$nil). Half-year revenue for 1HY26 was A\$7.8m, comprising A\$6.7m of revenue from powder sales and A\$1.0m of revenue from PM-HIP sales.

- (c) Cost of sales comprises plant wages, warehouse overheads, repairs and maintenance and insurance. Cost of sales increased from A\$(340)k in FY24 to A\$(5.3)m in FY25 due to the growth in revenue. 1HY26 cost of sales was A\$(9.2)m.
- (d) Other income/(loss) comprises foreign exchange gains and losses, lease modifications and grant income. Other income increased to A\$1.0m in FY25 driven by net foreign exchange gains of A\$703k.
- (e) A breakdown of general and administrative expenses is provided in Figure 4.

- (f) General and administrative expenses increased from A\$(13.6)m in FY24 to A\$(22.0)m in FY25 and continued to increase in 1HY26 reflecting the timing of Amaero's investment in its manufacturing facility in Tennessee, US. Amaero commenced preparation of the facility following lease execution in July 2023, with meaningful investment occurring from 2HFY24 as Amaero Group advanced towards and commenced commercial sales. In relation to Amaero's historical general and administrative expenses, we further note:
- Employee benefits increased from A\$(3.3)m in FY24 to A\$(6.9)m in FY25 and were A\$(4.3)m in 1HY26, driven by an increase in average employee FTE from 14 to 50 as Amaero scaled personnel to support manufacturing and corporate infrastructure;
 - Share-based payments increased from A\$(3.8)m in FY24 to A\$(4.2)m in FY25 due to the issuance of 19.37m share options. Share-based payments for 1HY26 were \$(2.4)m, with a further 21.4m options issued during this period;
 - Contracting and consulting costs increased from A\$(398)k in FY24 to A\$(1.9)m in FY25 due to an increase in production and commercialisation activity over the period. 1HY26 contracting and consulting costs were \$(2.0)m;
 - Legal and company secretarial costs increased from A\$(506)k in FY24 to A\$(1.5)m in FY25 due to the increase in corporate activity over the period; and
 - Other expenses primarily comprise accounting and audit costs, insurance, investor and public relations expenses, listing and share registry costs, occupancy costs, and travel.

4.3.3 Research and development costs decreased from A\$(2.6)m in FY24 to A\$(641)k in FY25 as Amaero transitioned from development stage to early commercial operations. For 1HY26, research and development costs were A\$(775)k.

4.3.4 Finance costs in FY24 of A\$(829)k reflect interest expense recognised from 1 January 2024 to 30 June 2024 in respect of the Tennessee facility lease, following commencement of rent in January 2024. Finance costs increased to A\$(1.6)m in FY25 driven by the full year recognition of interest expense on the Tennessee facility lease. Additionally, during FY25 Amaero secured an equipment financing loan of A\$34.8m with Export-Import Bank of the United States (**EXIM**), at a fixed interest rate of 5.43% per annum over an eight-year term. 5 Industry overview

5.1 Introduction

- 5.1.1 Amaero operates in the additive manufacturing industry manufacturing alloys.¹⁷ This industry section provides an overview of the advance materials manufactured by Amaero, demand for these materials and the supply chain of the broader additive manufacturing industry.
- 5.1.2 Amaero produces high-temperature metal powders and alloys, specialising in high-melting-point refractory metals and specialty alloys, including C103¹⁸, titanium, tungsten, molybdenum, and niobium. These refractory metals can withstand extreme heat and pressure and are critical in applications where durability and resilience are paramount. Amaero's refractory powders and alloys are used across a range of industries such as defence, space, aerospace, oil & gas, industrial, heavy industry, medical, and energy.¹⁹
- 5.1.3 Amaero also offers advance manufacturing solutions through its PM-HIP technology. This process enables domestic manufacture of components, while traditionally produced via casting or forging, at lower production volumes requirements and greater part complexity, regardless of materials or components size. Amaero's metallurgical modelling and can-design expertise allow it to deliver PM-HIP parts closer to final geometry, reducing post-processing requirements, and reducing the lead time and cost for non-serial production.²⁰
- 5.1.4 Amaero also offers EIGA Premium technology to manufacture refractory material. This process is a contact-free melt process that is characterised by high scalability, low operating cost, relatively high feedstock to powder yield value (c. 50%) and low contamination concern.²¹

Value chain overview

- 5.1.5 Amaero has identified a market opportunity to position itself as a pivotal player in building integrated and scalable US domestic industrial production and supply chain, by addressing the following value chain challenges:
- (a) current refractory powder producer treats advanced manufacturing powders as secondary product lines, resulting in long lead times, inconsistent quality and limited responsiveness across strategic industries;
 - (b) fragmented supply chains introduce variability across feedstock sourcing, powder production and component manufacturing, causing inconsistent performance and higher scrap rates; and
 - (c) the lack of a single supplier controlling the entire value chain creates costly bottlenecks and limits commercialisation, particularly as increasing alloy complexity driven by industry demands accelerates the shift toward advanced materials.²²

5.2 Demand

Recent industry trends impacting Demand for Advanced Manufacturing in the US

- 5.2.1 The impact of the recent changes in the US trade and tariff policies has been largely favourable for advanced alloy producers:
- priority industrial policies have incentivised the reshoring of manufacturing, supply chains, and procurement to the US. These policy shifts reinforce a broader national strategy to reindustrialise the economy, bringing back high-skill, high-wage manufacturing jobs; and
 - a new wave of private capital investment is flowing into US manufacturing, particularly in the semiconductor, aerospace, and defence sectors.²⁴

5.3 Supply

- 5.3.1 As noted above, the US has exempted a few critical minerals from tariffs, but most high-value defense and aerospace materials, such as C103 and Ti-64, remain protected, favouring domestic producers. The push to reduce foreign dependency is accelerating investment domestically, which will positively impact Amaero and other market participants.
- 5.3.2 The US manufactures 10 million metric tons of global metal castings which is significantly low compared to China which manufactures 52 million metric tons.²⁵ This suggests that there is opportunity for Amaero and other market participants to secure new customers and volumes as the US continues to prioritise domestic manufacturers.

5.4 Outlook

- 5.4.1 Amaero is in the early stages of commercialisation of its products manufactured through PM-HIP and EIGA technologies. Overall, the outlook can be considered positive due to the following:
- Regulatory tailwinds – There has been a strong emphasis by the US Government to reshore manufacturing capabilities, particularly for critical industries such as defence and aerospace; and

6 Evaluation of the Proposed Schemes

6.1 Conclusion

- 6.1.1 In our opinion, the Proposed Share Scheme is in the best interests of Amaero Shareholders as a whole, in the absence of an alternative proposal or any further information.
- 6.1.2 In our opinion, the Proposed Option Scheme is in the best interests of Amaero Option Holders as a whole, in the absence of an alternative proposal or any further information.

6.2 Basis of assessment

- 6.2.1 In forming our opinion, we compared:
- (a) The potential advantages of the Proposed Schemes to Amaero Shareholders and Amaero Option Holders (refer to Section 6.3); and
 - (b) The potential disadvantages of the Proposed Schemes to Amaero Shareholders and Amaero Option Holders (refer to Section 6.4).
- 6.2.2 Other considerations in relation to the Proposed Schemes that may apply to Amaero Shareholders and Amaero Option Holders are provided in Section 6.5 and the position of Amaero Shareholders and Amaero Option Holders if the Proposed Schemes are not approved is discussed in Section 6.6.
- 6.2.3 We have considered the potential impact of the Proposed Schemes to Amaero Shareholders and Amaero Option Holders as a whole. We have not considered the potential impact of the Proposed Schemes on individual Amaero Shareholders or individual Amaero Option Holders. Individual Amaero Shareholders and individual Amaero Option Holders have different financial circumstances, and it is neither practicable nor possible to consider the implications of the Proposed Schemes on individual Amaero Shareholders and Amaero Option Holders.

6.3 Advantages of the Proposed Schemes

No change to the underlying economic interests of Amaero Shareholders and Amaero Option Holders

- 6.3.1 If the Proposed Share Scheme is implemented, Amaero Shareholders (other than Ineligible Foreign Shareholders) will receive Amaero US HoldCo CDIs on a 1:1 basis. Amaero US HoldCo CDIs will confer a beneficial interest in 1/40th of an Amaero US HoldCo Share and will be traded on the ASX. Holders of Amaero US HoldCo CDIs will receive all the economic benefits of actual ownership of the underlying Amaero US HoldCo Shares.
- 6.3.2 If the Option Scheme is implemented, all Amaero Options on issue will be cancelled in exchange for the issue of new Amaero US HoldCo Options on a 1:1 basis. One Amaero US HoldCo Option will, upon exercise, entitle the relevant Amaero US HoldCo Option Holder to one Amaero US HoldCo CDI.
- 6.3.3 Amaero Shareholders and Amaero Option Holders will retain equivalent proportional economic interest in Amaero US HoldCo as previously held in Amaero.

Position Amaero Group in a larger, deeper capital market

- 6.3.4 The US Government is currently pursuing significant structural policy initiatives (such as the National Defense Industrial Strategy²⁸), aimed at promoting sovereign manufacturing and supply-chain re-shoring, particularly in strategic sectors such as defence, a key market for the supply of materials produced by Amaero.
- 6.3.5 The re-domiciliation of Amaero to the US, being a larger and deeper capital market, is expected to better position Amaero to take advantage of these US Government initiatives and allow existing Amaero Shareholders and Amaero Option Holders to benefit from expected growth, whilst also maintaining a listing on the ASX.

Provide access to a broader pool of investors

- 6.3.6 If the Proposed Schemes are implemented, a US domiciled company will be the new holding company of Amaero and the ultimate parent company of Amaero Group. This may result in Amaero Group being able to more easily raise capital and access a broader range of investors who previously may not have invested in non-US securities and may be attracted to an opportunity to invest in a US domiciled company which supports the US Government's promotion of sovereign manufacturing and supply chain re-shoring, particularly in the defence industrial base.
- 6.3.7 The US market has a greater number of market participants and investors. To demonstrate, Figure 12 sets out the market capitalisation of the NASDAQ and ASX and the number of companies listed on the ASX and the market capitalisation of the ASX and the number of companies (and exchange traded products) listed on the NASDAQ and the market capitalisation of the NASDAQ.

Note 1: Information for the ASX is based on the latest available information as sourced from the ASX website as at 15 April 2026.

Note 2: NASDAQ market capitalisation converted into A\$ using an exchange rate of AUD\$1 to USD\$0.7138 as at 15 April 2026. Number of NASDAQ companies includes Exchange Traded Products of 1,112. NASDAQ market capitalisation and number of entities and Exchange Traded Products information is as at 31 December 2025.

- 6.3.8 Re-domiciling Amaero from Australia to the US to allow access to a broader pool of investors is expected to increase funding opportunities for the Amaero Group, without having to change the operations of Amaero Group.

Improve access to lower-cost debt capital markets

- 6.3.9 Re-domiciling Amaero from Australia to the US is expected to provide improved access to lower-cost US debt capital markets, which are larger and more diverse than Australian debt capital markets.
- 6.3.10 The Amaero Board believes institutional investors are more familiar with the structure of US debt issuances and have a stronger interest in manufacturing advanced materials on a larger scale than in other markets, which may help secure lower-cost debt to support the growth aspirations of Amaero Group.

Corporate structure simplification and stakeholder alignment

- 6.3.11 A significant portion of Amaero Group's interests are located in the US, including:
- (a) all of the seven senior managers of Amaero Group, and 50 out of 51 of its current employees;
 - (b) five out of the seven directors;
 - (c) the entirety of its revenue and clients in FY24, FY25 and 1HY26;
 - (d) its manufacturing plant and headquarters, located in McDonald, Tennessee; and
 - (e) the growth opportunities identified by the directors within the US defence manufacturing industrial base, as set out in the section 5.4 of the Scheme Booklet.
- 6.3.12 If the Proposed Schemes are implemented, the re-domiciliation will simplify Amaero Group's corporate structure aligning the Amaero Group with its principal and target market, the location of the majority of its employees, senior management team and directors, and its manufacturing facilities which may enhance its attractiveness as a potential merger partner, seller or acquirer to US domiciled companies.

Position Amaero for a potential US IPO and listing

- 6.3.13 Amaero US HoldCo intends to undertake an IPO and listing of Amaero US HoldCo shares in the US in late 2026 or early 2027, subject to equity market conditions. Implementation of the Proposed Schemes and re-domiciling Amaero from Australia to the US is expected to better position the Amaero Group for a potential IPO and listing.

- 6.3.14 Companies domiciled and operating within the US are generally considered to be more familiar with the legal, taxation and other corporate considerations of US Security and Exchange Commission-registered and listed entities on a US securities exchange compared with Australian-domiciled entities which, in the alternative, can offer American Depository Shares on a US exchange.

Better position Amaero to negotiate less restrictive security clearance mitigation measures in pursuit of classified United States Department of War and other federal contracts

- 6.3.15 If the Proposed Schemes are implemented, Amaero intends to pursue opportunities with the US federal Government (including the Department of War) which may involve classified information. To be eligible for such contracts, Amaero will require a facility clearance granted by the Defense Counterintelligence and Security Agency (**DCSA**), which reviews facility clearance requests for Foreign Ownership, Control and Influence (**FOCI**) risks. The FOCI risks result in several additional measures for non-US owned entities, which may impact the competitiveness of Amaero.

- 6.3.16 If the Proposed Schemes are implemented, Amaero US HoldCo will not be considered a foreign (non-US) entity by DCSA. As such, Amaero Group expects to more easily meet facility clearance requirements resulting in less disruption to business operations. This may also enable Amaero Group to differentiate from its competitors who don't have appropriate facility clearances.

6.4 Disadvantages of the Proposed Schemes

Shareholders and Option Holders may not wish to become a CDI or option holder of a US-domiciled company

- 6.4.1 Amaero US HoldCo, as a company incorporated in the State of Delaware, will not be subject to the Corporations Act, which currently applies to Amaero. Instead, Amaero US HoldCo will be governed primarily by the Delaware General Corporation Law. The rights and obligations of holders of Amaero US HoldCo CDIs and Amaero US HoldCo Options will be governed by the federal laws of the US, laws of the State of Delaware and the laws of any other US states applicable to Amaero US HoldCo's operations. These rights will also be governed by the Amaero US HoldCo constitutional documents. In addition, if the ASX approves the quotation of Amaero US HoldCo CDIs, Amaero US HoldCo will be subject to the ASX Listing Rules, except to the extent that the ASX grants any waivers.

- 6.4.2 Further, while CDI holders are entitled to all the economic benefits associated with the ownership of the underlying shares, there are differences between holding CDIs and holding the underlying shares directly, some of which may be viewed as disadvantageous. For example:

- (a) CDN may charge CDI holders a custody fee, including registration, compliance, dividend payment, and recordkeeping services; and
- (b) CDI holders are required to exercise voting rights and other shareholder rights through CDN, rather than directly. Although CDN is required to act in accordance with the instructions of CDI holders when exercising such rights, this indirect mechanism may be perceived as disadvantageous compared to direct share ownership.

- 6.4.3 As a result of the legal framework differences above, Amaero Shareholders and Amaero Option Holders may determine that they do not wish to hold CDIs or options in a US-domiciled company and may prefer instead to remain investors in an Australian-domiciled entity.

Taxation consequences

- 6.4.4 The implementation of the Proposed Schemes will involve the transfer of Amaero Shares under the Share Scheme and the cancellation of the Amaero Options under to the Option Scheme, which may have taxation implications for Amaero Shareholders and Amaero Option Holders, depending on their individual personal circumstances.

- 6.4.5 An overview of the tax implications for Amaero Shareholders and Amaero Option Holders that may arise as a result of the Proposed Schemes is set out in Section 8 of the Scheme Booklet.

- 6.4.6 In addition, there are certain tests that must be satisfied to carry forward Australian tax losses to be utilised against Australian assessable income in future years. There is a risk that implementation of the Proposed Schemes may cause Amaero to fail one or more of these tests, although we understand Amaero will continue to monitor these tests going forward and use reasonable endeavours to utilise its Australian tax losses if required.

Value of Share Scheme Consideration is not certain until after Implementation Date

- 6.4.7 The value of Share Scheme Consideration that could be realised by Amaero Shareholders depends on the price at which Amaero HoldCo CDIs trade on the ASX after the Implementation Date of the Proposed Schemes. As such, the trading value of Amaero US HoldCo CDIs is currently unknown.

Exposure to the US legal environment which is more litigious in nature

- 6.4.8 Should the Proposed Schemes be implemented, Amaero Shareholders and Amaero Option Holders will have increased exposure to a more litigious legal environment, given Amaero US HoldCo will be domiciled in the US. The US legal environment is generally considered more litigious than the Australian legal environment and there is a risk that any material or costly dispute or litigation could adversely affect Amaero US HoldCo's reputation, financial performance or value.

Reduction of shareholder and option holder protection

- 6.4.9 Amaero US HoldCo has adopted by-laws in a form customary for a Delaware corporation. These by-laws do not replicate certain Australian-style shareholder protections that currently apply to Amaero Shareholders and Option Holders.

- 6.4.10 Amaero Shareholders receiving Amaero US HoldCo CDIs under the Proposed Share Scheme, and Amaero Option Holders receiving Amaero US HoldCo Options under the Proposed Option Scheme, should note that they may be afforded reduced takeover and shareholder protections under Delaware and United States law compared with the current protections under Australian law.

- 6.4.11 A non-exhaustive comparison of corporate laws regimes applicable to Amaero and Amaero US HoldCo is set out in Annexure K of the Scheme Booklet.

6.5 Other considerations

The Proposed Schemes may be approved even if Amaero Shareholders and Amaero Option Holders do not vote, or vote against the Proposed Schemes

- 6.5.1 Even if Amaero Shareholders or Amaero Option Holders do not vote or vote against the Proposed Schemes, the Proposed Schemes may still be implemented if approved by the Requisite Majority of Amaero Shareholders or Amaero Option Holders and by the Court.

- 6.5.2 A Requisite Majority of Amaero Shareholders means:

- (a) a majority in number (more than 50%) of Amaero Shareholders present and voting at the Share Scheme Meeting (in person, online, or by proxy, attorney or body corporate representative); and
- (b) at least 75% of the total number of votes cast on the Share Scheme Resolution at the Share Scheme Meeting (in person, online, or by proxy, attorney or body corporate representative).

- 6.5.3 A Requisite Majority of Amaero Option Holders means:

- (a) a majority in number (more than 50%) of Amaero Option Holders present and voting at the Option Scheme Meeting (in person, online, or by proxy, attorney or body corporate representative); and
- (b) at least 75% of the total number of votes cast on the Option Scheme Resolution at the Option Scheme Meeting (in person, online, or by proxy, attorney or body corporate representative).

Change in reporting obligations

- 6.5.4 If the Proposed Schemes are implemented, the financial reporting regime applicable to the Amaero Group is expected to change as a result of the proposed re-domiciliation.

- 6.5.5 Following implementation of the Proposed Schemes, Amaero US HoldCo will initially continue to prepare its consolidated financial statements in accordance with International Financial Reporting Standards (**IFRS**). Once Amaero US HoldCo becomes subject to the reporting requirements of the US Securities Exchange Act of 1934 (**Exchange Act**), it will be required to prepare its financial statements in accordance with United States Generally Accepted Accounting Principles (**US GAAP**).

6.5.6 Financial reporting under US GAAP is broadly similar to IFRS. US GAAP is generally regarded as more prescriptive and may involve more detailed disclosure and accounting requirements than those typically applicable to Australian-domiciled companies.

6.5.7 In addition, certain items are classified, measured, or accounted for differently under US GAAP compared to IFRS. These differences may not be familiar to Amaero Shareholders and Amaero Option Holders who are familiar with financial reporting prepared under IFRS.

6.5.8 A detailed non-exhaustive comparison of the financial reporting regimes in Australia and the US, and an explanation of how they highlighted key differences between IFRS and US GAAP may affect Amaero's financial statements, is set out in Annexure L of the Scheme Booklet.

Conditions precedent risk

6.5.9 As detailed in Section 2, the Proposed Schemes are subject to a number of conditions precedent, including approval by the Court of both the Proposed Share Scheme and Proposed Option Scheme.

6.5.10 There is a risk that Court approval may not be obtained or may be obtained subject to conditions that Amaero and/or Amaero US HoldCo are not prepared to accept.

6.5.11 In addition, there is a risk that the Requisite Majority of Amaero Shareholders and/or the Requisite Majority of Amaero Option Holders may not approve the Schemes, in which case the Schemes would not be implemented.

Election to receive HoldCo Shares

6.5.12 From Implementation Date onwards, the conversion of Amaero US HoldCo CDIs into Amaero US HoldCo Shares may be possible, at the election of the relevant Amaero Shareholder, noting that:

- (a) the conversion is not carried out as part of the Proposed Share Scheme;
- (b) the conversion process, and any associated costs or fees, including brokerage fees or legal advice, will be borne by the relevant Amaero Shareholder; and
- (c) once converted into Amaero US HoldCo Shares, those shares will not be tradeable on the ASX.

6.6 Implications of not approving the Proposed Schemes

6.6.1 If the Proposed Schemes are not approved, or if the conditions for the Proposed Schemes to proceed are not satisfied or waived, then the SID may be terminated and the Proposed Schemes will not become Effective.

6.6.2 In those circumstances, the position of Amaero Shareholders and Amaero Option Holders will remain substantially unchanged, in that they will continue to be shareholders and option holders in Amaero, an Australian listed company.

6.6.3 In addition, if the Proposed Schemes are not implemented:

- (a) the potential advantages and disadvantages associated with Amaero being a company domiciled in the US will not materialise;
- (b) the market price of Amaero shares listed on the ASX may be adversely affected to the extent that the market had anticipated the implementation of the Proposed Schemes and the completion of the re-domiciliation; and
- (c) implementation costs associated with the Proposed Schemes, currently estimated to be approximately A\$510k as at the date of this Report, will not be recoverable and will constitute "sunk costs". We note these costs reflect one-off costs to Amaero Group.

Except as otherwise expressly provided in this deed, a party may give or withhold its consent or approval to any matter referred to in this deed in its absolute discretion. They survive the execution and delivery of any assignment or other document entered into to implement any transaction contemplated under this deed, and must continue in force after the Implementation Date.

11.13 Severability

- (1) Any provision of this deed which is prohibited or unenforceable in any jurisdiction is ineffective as to that jurisdiction to the extent of the prohibition or unenforceability.
- (2) The provisions contained in each clause and sub clause of this deed shall be enforceable independently of each of the others and their validity shall not be affected if any of the others is invalid.

11.14 No partnership or agency

Nothing in this deed is to be treated as creating a partnership and, except as expressly set out in this deed, no party may act as agent or in any way to bind another party to any obligation.

11.15 Indemnities

The indemnities in this deed are continuing obligations, independent from the other obligations of the parties under this deed and continue after this deed ends. It is not necessary for a party to incur expense or make payment before enforcing a right of indemnity under this deed.

5.5 Orders of a Court or Regulatory Authority

If written notice is given to Amaero (or the Amaero Share Registry) or Amaero US HoldCo (or Amaero US HoldCo's share registry) of an order or direction made by a court of competent jurisdiction or by another Regulatory Authority that:

- (1) requires consideration to be provided to a third party (either through payment of a sum or the issuance of a security) in respect of Scheme Shares held by a particular Share Scheme Participant, which would otherwise be payable or required to be issued to that Share Scheme Participant by Amaero or Amaero US HoldCo in accordance with this clause 5, then Amaero or Amaero US HoldCo shall be entitled to procure that provision of that consideration is made in accordance with that order or direction; or
- (2) prevents Amaero or Amaero US HoldCo from providing consideration to any particular Share Scheme Participant in accordance with this clause 5, or the payment or issuance of such consideration is otherwise prohibited by applicable law, Amaero or Amaero US HoldCo shall be entitled to (as applicable) retain an amount, in Australian dollars, equal to the number of Scheme Shares held by that Share Scheme Participant multiplied by the Share Scheme Consideration and/or direct CDN or Amaero US HoldCo not to issue, or to issue to a trustee or nominee, the Amaero US HoldCo CDIs (as applicable) that Share Scheme Participant would otherwise be entitled to under clause 5.1, until such time as provision of the Share Scheme Consideration in accordance with this clause 5 is permitted by that (or another) order or direction or otherwise by law.

5.6 Status of Amaero US HoldCo Shares

Subject to the Share Scheme becoming Effective, Amaero US HoldCo must:

constituent documents of Amaero US HoldCo and the laws governing Amaero US HoldCo); and

- (4) use reasonable endeavours to ensure that the Amaero US HoldCo CDIs issued as Share Scheme Consideration will be listed for quotation on the official list of ASX in accordance with the terms of the Scheme Implementation Deed.

6 Dealings in Scheme Shares

6.1 Determination of Share Scheme Participants

To establish the identity of Share Scheme Participants, dealings in Amaero Shares or other alterations of the Amaero Share Register will only be recognised if:

- (1) in the case of dealings of the type to be effected using CHESSE, the transferee is registered in the Amaero Share Register as the holder of the relevant Amaero Shares on or before the Record Date; and
- (2) in all other cases, registrable transmission applications or transfers in registrable form in respect of those dealings or valid requests in respect of other alterations are received on or before the Record Date at the place where the Amaero Share Register is kept,

and Amaero must not accept for registration, nor recognise for any purpose (except a transfer to Amaero US HoldCo pursuant to this Share Scheme and any subsequent transfer by Amaero US HoldCo or its successors in title), any transfer or transmission application or other request received after such times, or received prior to such times but not in registrable or actionable form, as appropriate.

6.2 Amaero Share Register

- (1) Amaero must register any registrable transmission applications or transfers of the Scheme Shares received in accordance with clause 6.1 on or before the Record Date, provided that, for the avoidance of doubt, nothing in this clause 6.2(1) requires Amaero to register a transfer that would result in an Amaero Shareholder holding a parcel of Amaero Shares that is less than a 'marketable parcel' (for the purposes of this clause 6.2(1), 'marketable parcel' has the meaning given in the ASX Settlement Rules).
- (2) If the Share Scheme becomes Effective, each Share Scheme Participant (and any person claiming through that holder) must not dispose of, or purport or agree to dispose of, any Scheme Shares or any interest in them after the Record Date otherwise than pursuant to the Share Scheme and any attempt to do so will have no effect and Amaero shall be entitled to disregard any such disposal.
- (3) For the purpose of determining entitlements to the Share Scheme Consideration, Amaero will, until the Share Scheme Consideration has been issued to Share Scheme Participants, maintain or procure the maintenance of the Amaero Share Register in accordance with this clause 6.2. The Amaero Share Register in this form will solely determine entitlements to the Share Scheme Consideration.
- (4) All statements of holding in respect of Amaero Shares (other than statements in favour of Amaero US HoldCo) will cease to have effect after the Record Date as documents of title in respect of those shares. After the Record Date, each entry current on the Amaero Share Register on the Record Date (other than entries in respect of Amaero US HoldCo and its successors in title) will cease to have effect except as evidence of entitlement to the Share Scheme Consideration in respect of the Amaero Shares relating to that entry.

- For personal use only
- (5) As soon as practicable after the Record Date, and in any event within one Business Day of the Record Date, Amaero will ensure that details of the names, registered addresses and holdings of Amaero Shares for each Share Scheme Participant, as shown in the Amaero Share Register on the Record Date, are available to Amaero US HoldCo in such form as Amaero US HoldCo reasonably requires.

6.3 Quotation of Amaero Shares

- (1) Amaero will apply to ASX to suspend trading in Amaero Shares with effect from the close of trading on ASX on the Effective Date.
- (2) With effect on and from the close of trading on the Trading Day immediately following, or shortly after, the Implementation Date, Amaero will apply:
 - (a) for termination of the official quotation of Amaero Shares on ASX; and
 - (b) to have itself removed from the official list of the ASX.

7.3 Warranty by Share Scheme Participants

Each Share Scheme Participant warrants to Amaero US HoldCo and is deemed to have authorised Amaero to warrant to Amaero US HoldCo as agent and attorney for the Share Scheme Participant by virtue of this clause 7.3, that to the extent permitted by law:

- (1) all their Scheme Shares (including any rights and entitlements attaching to those shares) transferred to Amaero US HoldCo under the Share Scheme will, at the date of transfer, be fully paid and free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise, and restrictions on transfer of any kind; and

7.4 Title to and rights in Scheme Shares

- (1) To the extent permitted by law, the Scheme Shares (including all rights and entitlements attaching to the Scheme Shares) transferred under this Share Scheme to Amaero US HoldCo will, at the time of the transfer of them to Amaero US HoldCo, vest in Amaero US HoldCo free from all Encumbrances and interests of third parties of any kind, whether legal or otherwise, and free from any restrictions on transfer of any kind.
- (2) Immediately upon the provision of the Share Scheme Consideration to each Share Scheme Participant in the manner contemplated by clause 5 of this Share Scheme, Amaero US HoldCo will be beneficially entitled to the Scheme Shares to be transferred to it under the Share Scheme pending registration by Amaero of Amaero US HoldCo in the Amaero Share Register as the holder of the Scheme Shares.

7.5 Appointment of Amaero as agent and attorney

On this Share Scheme becoming Effective, each Share Scheme Participant, without the need for any further act, is deemed to have irrevocably appointed Amaero and all of its directors and officers (jointly and severally) as its attorney and agent for the purposes of:

- (1) enforcing the Share Scheme Deed Poll against Amaero US HoldCo;
- (2) in the case of Scheme Shares in a CHES holding:
 - (a) causing a message to be transmitted to ASX Settlement in accordance with the ASX Settlement Rules so as to transfer the Scheme Shares held by the Share Scheme Participant from the CHES sub-register of Amaero to the issuer sponsored sub-register operated by Amaero or the Amaero Share Registry at any time after Amaero US HoldCo has provided the Share Scheme Consideration which is due under this Share Scheme to Share Scheme Participants; and

and Amaero accepts such appointment. Amaero as attorney and agent of each Share Scheme Participant, may sub-delegate its functions, authorities or powers under this clause 7.5 to all or any of its directors and officers (jointly, severally or jointly and severally).

7.6 Instructions, notifications or elections

If not prohibited by law (and including where permitted or facilitated by relief granted by a Regulatory Authority), all instructions, notifications or elections given by an Amaero Shareholder to Amaero that are binding or deemed binding between the Amaero Shareholder and Amaero relating to Amaero or Amaero Shares including instructions, notifications or elections relating to:

- (1) whether dividends are to be paid by cheque or into a specific bank account;

will be deemed from the Implementation Date (except to the extent determined otherwise by Amaero US HoldCo in its sole discretion), by reason of the Share Scheme, to be made by the Share Scheme Participant to Amaero US HoldCo and to be a binding instruction, notification or election to, and accepted by, Amaero US HoldCo in respect of the Amaero US HoldCo CDIs issued to that Share Scheme Participant until that instruction, notification or election is revoked or amended in writing by the Amaero Shareholder in writing addressed to Amaero US HoldCo at its registered address.

7.7 Appointment of sole proxy

Immediately from the provision of the Share Scheme Consideration to each Share Scheme Participant (or to the Sale Agent in the case of the Ineligible Foreign Holders) in the manner contemplated by clause 5, and until Amaero registers Amaero US HoldCo in the Amaero Share Register as the holder of the Scheme Shares, each Share Scheme Participant:

- (1) is deemed to have appointed Amaero US HoldCo as attorney and agent (and directed Amaero US HoldCo in each such capacity) to appoint any director, officer, secretary or agent nominated by Amaero US HoldCo as its sole proxy and, where applicable or appropriate, its corporate representative to attend shareholder meetings of Amaero, exercise the votes attaching to the Scheme Shares registered in the name of the Share Scheme Participant and sign any shareholders resolution or document;

- (2) The accidental omission to give notice of the Share Scheme Meeting to any Amaero Shareholders, or the non-receipt of such a notice by any Amaero Shareholders, will not, unless ordered by the Court, invalidate this Share Scheme or the proceedings at the Share Scheme Meeting.

8.3 Further assurances

Each party must, at its own expense, whenever requested by the other party, promptly do or, to the extent reasonably practicable, arrange for others to do everything, including executing any documents, reasonably necessary to give full effect to this Share Scheme and the transactions contemplated by this Share Scheme.

8.4 No liability when acting in good faith

Each Share Scheme Participant agrees that neither Amaero, Amaero US HoldCo nor any of their respective directors, officers, employees or agents is liable for anything done or omitted to be done in the performance of this Share Scheme or the Share Scheme Deed Poll in good faith.

8.5 Withholding

If Amaero US HoldCo considers that it must pay an amount to the Commissioner of Taxation (**Commissioner**) under Subdivision 14-D of Schedule 1 of the *Taxation Administration Act 1953* (Cth) (**TAA**) in relation to the acquisition of the Scheme Shares from a Share Scheme Participant, Amaero US HoldCo will:

- For personal use only
- (1) determine the amount to be paid to the Commissioner (**Withholding Amount**) being 12.5% (or a lesser rate approved by the Commissioner) of the Share Scheme Consideration otherwise payable to the Share Scheme Participant or Sale Agent, as appropriate;
 - (2) withhold the Withholding Amount from the Share Scheme Consideration (by issuing such lesser number of Amaero US HoldCo CDIs to the Share Scheme Participant or Sale Agent, as appropriate for the Withholding Amount) and remit the Withholding Amount to the Commissioner within the timeframe required under the TAA (and issued of the reduced number of Amaero US HoldCo CDIs shall be taken to be full payment of the Share Scheme Consideration for the purposes of this Share Scheme); and
 - (3) if requested in writing by the relevant Share Scheme Participant, provide a receipt or other appropriate evidence of payment of the Withholding Amount to the Commissioner (or procure the provision of such receipt or other evidence) to the relevant Share Scheme Participant.

Notice of Option Scheme Meeting

2. at least 75% of the votes cast on the resolution, (the **Requisite Majority**).

The Court has the discretion under section 411(4)(a)(ii)(A) of the Corporations Act to approve the Option Scheme if it is approved by at least 75% of the votes cast on the resolution but not by a majority in number of Amaero Option Holders present and voting at the Option Scheme Meeting.

Voting at the Option Scheme Meeting will be by poll rather than by a show of hands.

3.3 Court approval

In accordance with section 411(4)(b) of the Corporations Act, the Option Scheme (with or without alteration or conditions) is subject to approval of the Court. If the resolution proposed at the Option Scheme Meeting is approved by the Requisite Majority, and the relevant conditions of the Option Scheme (other than approval by the Court) are satisfied, or waived, by the time required under the Option Scheme, Amaero intends to apply to the Court for the necessary orders to give effect to the Option Scheme.

ANNEXURE J – SUMMARY OF CDIS

1. Definitions

Capitalised terms used in this Annexure and not otherwise defined have the same meanings as set out in the Glossary of the Scheme Booklet.

2. Introduction

In order for Amaero US HoldCo Shares to trade electronically on ASX, Amaero US HoldCo intends to participate in the electronic transfer system known as CHESSE operated by ASX Settlement.

CHESSE cannot be used directly for the transfer of securities of companies domiciled in certain foreign jurisdictions, including the United States. To enable companies, such as Amaero US HoldCo, to have their securities cleared and settled electronically through CHESSE, CHESSE depository interests (CDIs) are issued on ASX. Accordingly, Amaero US HoldCo CDIs will be issued under the Share Scheme to Share Scheme Participants.

Only Amaero US HoldCo CDIs (not Amaero US HoldCo Shares) can be traded on ASX.

3. Features of CDIs

3.1 General

CDIs are financial products quoted on ASX that confer the beneficial ownership in the underlying security of a foreign company to the holder. The legal title to the underlying shares, or beneficial ownership to them, is held by the Australian depository. This allows investors to trade interests in foreign securities by trading the relevant CDIs on ASX.

Amaero US HoldCo will appoint CHESSE Depository Nominees Pty Limited ACN 071 346 506 (**CDN**) to act as its Australian depository. CDN is a wholly owned subsidiary company of ASX that was created to fulfil the functions of a depository nominee.

All Amaero US HoldCo Shares, including those beneficially held by CDN in connection with the Amaero US HoldCo CDIs, will rank equally in all respects with all Amaero US HoldCo Shares. The rights attaching to an Amaero US HoldCo Share that underlies an Amaero US HoldCo CDI must be exercised under the ASX Settlement Operating Rules.

Except for certain differences noted below, the rights attaching to Amaero US HoldCo CDIs are economically equivalent to the rights attaching to Amaero US HoldCo Shares, and Amaero US HoldCo will generally be required to treat holders of Amaero US HoldCo CDIs as if they were the holders of the Amaero US HoldCo Shares represented by those Amaero US HoldCo CDIs in accordance with the ASX Settlement Rules. This means that economic benefits such as dividends, bonus issues and rights issues will generally flow through to holders of Amaero US HoldCo CDIs as if they were the registered holders of the underlying Amaero US HoldCo Shares.

3.2 Number of CDIs issued in relation to Amaero US HoldCo Shares

Each Amaero US HoldCo CDI will represent a beneficial interest in 1/40th of an Amaero US HoldCo Share.

Given the ratio of Amaero US HoldCo CDIs to Amaero US HoldCo Shares is not 1:1, and any entitlement will be determined on the basis of Amaero US HoldCo Shares rather than Amaero US HoldCo CDIs, a holder of Amaero US HoldCo CDIs may not always benefit to the same extent. Amaero US HoldCo will, however, be required under the ASX Settlement Rules to minimise any such differences where legally permissible. If a cash dividend or any other cash distribution is declared in a currency other than Australian dollars, Amaero US HoldCo currently intends to convert that dividend or other cash distribution to which a holder of Amaero US HoldCo CDIs are entitled to Australian dollars and distribute it to the relevant holder of Amaero US HoldCo CDIs in accordance with their entitlement.

Due to the need to convert dividends from United States dollars to Australian dollars in the above mentioned circumstances, holders of Amaero US HoldCo CDIs may potentially be advantaged or disadvantaged by exchange rate fluctuations, depending on whether the Australian dollar weakens or strengthens against the United States dollar during the period between the resolution to pay a dividend and conversion into Australian dollars.

3.3 Evidence of ownership

If Amaero US HoldCo CDIs are issued to a Share Scheme Participant under the Share Scheme, the Share Scheme Participant will receive a holding statement in respect of their Amaero US HoldCo CDIs (setting out the number of Amaero US HoldCo CDIs held and the reference number for the holding), rather than a holding statement or share certificate for the underlying Amaero US HoldCo Shares. These holding statements will be provided to a holder when a holding is first established and where there is a change in the holdings of Amaero US HoldCo CDIs. The despatch of holding statements and confirmation advices for Amaero US HoldCo CDIs issued under the Share Scheme is expected to occur as soon as practicable after the Implementation Date.

Amaero US HoldCo will operate a register of shares in the United States, and an uncertificated issuer sponsored and CHESSE sub-registers of CDIs in Australia. A share register is the register of legal title (and Amaero US HoldCo's share register will reflect either registered legal title, or beneficial ownership, by CDN of the Amaero US HoldCo Shares underlying the Amaero US HoldCo CDIs) and the two uncertificated sub-registers combined will make up the register of beneficial title of the Amaero US HoldCo Shares underlying the Amaero US HoldCo CDIs.

3.4 Trading on ASX

1. Cessation of trading in Amaero Shares on ASX

Trading in Amaero Shares on ASX is expected to cease from the close of trading on the Effective Date. This will be the last day for trading Amaero Shares prior to the Share Scheme becoming Effective.

On a date to be determined by Amaero US HoldCo, Amaero will apply for termination of the official listing of Amaero Shares on ASX.

2. Trading in Amaero US HoldCo CDIs on ASX

Trading in Amaero US HoldCo CDIs on ASX will commence following the listing of Amaero US HoldCo CDIs on ASX, which is expected to occur on a deferred settlement basis on the trading day after the Effective Date and, after that, on a normal T+2 settlement basis commencing on the Business Day after the Implementation Date

(or such other date as ASX requires, with the despatch of holding statements and confirmation advices for Amaero US HoldCo CDIs issued under the Share Scheme expected to occur as soon as practicable after the Implementation Date).

Former Amaero Shareholders trading Amaero US HoldCo CDIs on a deferred settlement basis and before the issue of holding statements in respect of their Amaero US HoldCo CDIs, do so at their own risk. The proceeds from sale of securities sold on a deferred settlement basis will not be received until after the deferred settlement period has ended.

3. Local and international trading in Amaero US HoldCo CDIs

Amaero US HoldCo CDI Holders who wish to trade their Amaero US HoldCo CDIs will be transferring the beneficial interest in the underlying Amaero US HoldCo Shares that the Amaero US HoldCo CDIs represent, rather than the legal title to those Amaero US HoldCo Shares. The transfer will be settled electronically by delivery of the relevant Amaero US HoldCo CDI holding through CHESSE. In other respects, trading in Amaero US HoldCo CDIs is essentially the same as trading in other CHESSE approved securities, such as Amaero Shares.

3.5 Converting from a CDI holding to a direct holding of Amaero US HoldCo Shares

Amaero US HoldCo CDI Holders who wish to convert their ASX-listed Amaero US HoldCo CDIs to Amaero US HoldCo Shares can do so by instructing Amaero US HoldCo's Australian CDI registry either:

1. directly in the case of CDIs on the issuer sponsored sub-register operated by Amaero US HoldCo, CDI holders will be provided with a form entitled "CDI Cancellation: Australia to United States Share Register" for completion and return to the Australian CDI registry; or
2. through their 'sponsoring participant' (usually a broker) in the case of CDIs which are sponsored on the CHESSE sub register. In this case, your sponsoring broker will arrange for completion of the relevant form and its return to the Australian CDI registry.

Amaero US HoldCo's Australian CDI registry will then arrange with Amaero US HoldCo's US share registry

for the transfer of Amaero US HoldCo Shares from CDN to the former CDI holder and issue Amaero US HoldCo Shares to the former CDI holder in book-entry form (i.e. uncertificated). This will cause Amaero US HoldCo Shares to be registered in the name of the holder on Amaero US HoldCo's share register with a holding statement despatched by post to the holder's registered address, and trading on the ASX will no longer be possible.

It is expected that this process will be completed within two Business Day, provided that Amaero US HoldCo's Australian CDI registry is in receipt of a duly completed and valid CDI cancellation request form. However, no guarantee can be given about the time for this conversion to take place. Amaero US HoldCo's Australian CDI registry will not charge an individual security holder a fee for transferring CDI holdings into Amaero US HoldCo Shares (although a fee will be payable by market participants). A holder of Amaero US HoldCo Shares will not be able to trade those shares on ASX.

3.6 Converting from a direct holding of Amaero US HoldCo Shares to a CDI holding

If holders of Amaero US HoldCo Shares wish to convert their holdings to CDIs, they can do so by contacting Amaero US HoldCo's US share registry. Amaero US HoldCo's US share registry will not charge a fee to a shareholder seeking to convert Amaero US HoldCo Shares to Amaero US HoldCo CDIs (although a fee will be payable by market participants). In this instance, underlying Amaero US HoldCo US Shares will be transferred to CDN and a holding statement for the CDIs will be issued to the relevant security holder. No trading in Amaero US HoldCo CDIs on ASX can take place until this conversion process is complete.

3.7 Communications from Amaero US HoldCo

Amaero US HoldCo will communicate directly with holders of Amaero US HoldCo CDIs with respect to corporate actions and will send or make available online all notices, company announcements and other documents (such as notices of meeting and annual reports) that shareholders are entitled to receive from Amaero US HoldCo.

3.8 Exercise of shareholder rights

As holders of CDIs are not registered shareholders of Amaero US HoldCo, the rights attaching to Amaero

US HoldCo Shares which underlie their CDIs must be exercised by CDN as the depositary. A holder of CDIs may instruct the depositary to exercise those rights on their behalf.

In contrast, a registered holder of Amaero Shares can directly exercise the rights attaching to their Amaero Shares in such manner as they choose.

3.9 Voting

Amaero US HoldCo CDI Holders will be sent notices of general meeting of Amaero US HoldCo Shareholders. Given that Amaero US HoldCo CDI Holders are not the registered holders of the Amaero US HoldCo Shares represented by the Amaero US HoldCo CDIs they hold, they will not be automatically entitled to vote in person at a general meeting of Amaero US HoldCo Shareholders.

However, under the Listing Rules, Amaero US HoldCo (as an issuer of CDIs) must allow Amaero US HoldCo CDI Holders to attend any meeting of the holders of the underlying securities unless the relevant United States laws at the time of the meeting prevents Amaero US HoldCo CDI Holders from attending those meetings. Amaero US HoldCo CDI Holders can then direct CDN to have votes cast in a particular manner on their behalf, or they can convert their Amaero US HoldCo CDIs into a holding of Amaero US HoldCo Shares prior to the record date for the meeting and vote these at the meeting (however, if thereafter the former Amaero US HoldCo CDI Holder wishes to sell their investment on ASX, it would be necessary to convert Amaero US HoldCo Shares back to Amaero US HoldCo CDIs). The conversion must be done prior to the record date for the meeting. CDI voting instruction forms and details of these alternatives will be included in each notice of meeting sent to Amaero US HoldCo CDI Holders by Amaero US HoldCo.

3.10 Dividends

Amaero US HoldCo will distribute any dividend declared on Amaero US HoldCo Shares directly to holders of Amaero US HoldCo CDIs in Australian dollars. Any dividends will not be franked on the basis that Amaero US HoldCo is not expected to be an Australian resident for tax purposes.

3.11 Takeovers

Under the ASX Settlement Rules, CDN must not accept a takeover offer in respect of any Amaero

US HoldCo Shares representing Amaero US HoldCo CDIs unless otherwise authorised by the Amaero US HoldCo CDI Holders to accept the offer. CDN must accept a takeover offer in respect of Amaero US HoldCo Shares represented by a holding of Amaero US HoldCo CDIs if the relevant holder of Amaero US HoldCo CDIs instructs it to do so and must notify the entity making the takeover bid of the acceptance.

3.12 Rights on liquidation or winding up

In the event of Amaero US HoldCo's liquidation, dissolution or winding up, an Amaero US HoldCo CDI Holder will be entitled to the same economic benefit on their Amaero US HoldCo CDIs as Amaero US HoldCo Shareholders.

3.13 Fees

An Amaero US HoldCo CDI Holder will not incur any additional ASX or ASX Settlement fees or charges as a result of holding CDIs rather than Amaero US HoldCo Shares.

3.14 Further information

Further information about CDIs is available from ASX in ASX Guidance Note 5 – CHESS Depository Interests or the Amaero Share Registry.

Amaero is incorporated under Australian law and the rights attaching to Amaero Shares are governed by the laws of Australia and Amaero's constitution. Amaero US HoldCo is incorporated under the laws of the State of Delaware, so the rights attaching to Amaero US HoldCo Shares and Amaero US HoldCo Options are governed by the law of the State of Delaware and the United States, and the Amaero US HoldCo Charter Documents.

Except for certain differences noted in Annexure I, the rights attaching to Amaero US HoldCo CDIs are economically equivalent to the rights attaching to Amaero US HoldCo Shares, and Amaero US HoldCo will generally be required to treat holders of Amaero US HoldCo CDIs as if they were the holders of the Amaero US HoldCo Shares represented by those Amaero US HoldCo CDIs in accordance with the ASX Settlement Rules.

Shareholder meetings

Requirement for annual meetings Under the Corporations Act, the annual meeting of a company's shareholders is required to be held at least once every calendar year and within five months after the end of each financial year (unless an extension is granted by ASIC).

Under the DGCL, an annual meeting of a company's stockholders is expected to be held once every year in the manner provided for in the company's bylaws. But a failure to hold the annual meeting will not affect otherwise valid corporate acts or work a forfeiture or dissolution of the corporation except as may be otherwise specifically provided in the DGCL.

The corporation must prepare, no later than the tenth day before each meeting of stockholders, a complete list of the stockholders entitled to vote at the meeting (provided, however, if the record date for determining the stockholders entitled to vote is less than ten (10) days before the meeting date, the list shall reflect the stockholders entitled to vote as of the tenth day before the meeting date). The list must show the address of each stockholder and the number of shares registered in the name of each stockholder.

Under the Amaero US HoldCo Bylaws, the annual meeting of stockholders will be held at such place, if any, either within or outside the State of Delaware, as may be designated by resolution of the Amaero US HoldCo Board. Notice requirements are described below.

If Amaero US HoldCo pursues a listing on a United States securities exchange, such as NASDAQ, it will be required under the applicable listing standards to hold an annual meeting of stockholders during each financial year following its listing on NASDAQ.

Ability to call general / special meetings Under the Corporations Act, a general meeting of a company's shareholders may be called by shareholders holding at least 5% of the total votes that may be cast at the meeting. Under Amaero's constitution, each Amaero Director (for so long as Amaero is admitted to the official list of ASX) and the Amaero Board by ordinary resolution is given the power to convene a general meeting of Amaero Shareholders.

Under the Amaero US HoldCo Charter Documents, subject to the terms of any series of preferred stock, special meetings of stockholders may be called only by the Amaero US HoldCo Board of Directors (acting pursuant to a resolution adopted by a majority of the Whole Board (as defined in the Amaero US HoldCo Certificate of Incorporation)), the Chairperson of the Amaero US HoldCo Board, the Chief Executive Officer of Amaero US HoldCo, or the President of Amaero US HoldCo. Any power of the stockholders to call a special meeting of stockholders is specifically denied.

Under the DGCL, a director or stockholder may petition the Court of Chancery of Delaware for an order compelling the holding of an annual meeting of the company's stockholders if:

- no annual meeting has been held, or no action by written consent to elect directors in lieu of an annual meeting has been taken, for a period of 30 days after the date designated for the annual meeting; or
- no date for an annual meeting has been designated and 13 months have passed since the latest to occur of the organization of the corporation, the last annual meeting, or the last action by written consent to elect directors in lieu of an annual meeting.

Notice of meeting Under the Corporations Act, no less than 28 days' notice of a general meeting must be given to Amaero Shareholders.

The notice of meeting must comply with section 249L of the Corporations Act and must specify the date, time and place of the meeting, and state the general nature of the business to be transacted at the meeting. The notice of meeting must be given to each Amaero Shareholder entitled to vote, each Amaero Director, the auditor of Amaero and, for so long as Amaero while Amaero is admitted to the official list of ASX, to ASX in accordance with the timing limits prescribed by the Listing Rules.

Under the Amaero US HoldCo Bylaws, except as otherwise provided in the DGCL, the Amaero US HoldCo Certificate of Incorporation, or the Amaero US HoldCo Bylaws, notice of any meeting of stockholders must be given no less than 10 and no more than 60 days before the date of the meeting to each stockholder of Amaero US HoldCo entitled to vote at the meeting as of the record date for determining stockholders entitled to notice of the meeting.

Under the DGCL and Amaero US HoldCo Bylaws, the notice of meeting must state the place, if any, date and hour of the meeting, means of remote communications, if any, by which stockholders and proxy holders may be deemed present in person and vote at the meeting, the record date for determining stockholders entitled to vote at the meeting (if it is different from the record date for determining stockholders entitled to notice of the meeting) and, if it is a special meeting, the purpose for which the meeting is called.

Number of directors

Amaraero's constitution provides that the Amaraero Board can determine the number of Amaraero Directors, subject to there being not less than three and no more than 10 Amaraero Directors (provided the number so determined at a particular time must not be less than the number of Amaraero Directors when the determination takes effect), provided they have been authorised by Amaraero in general meeting to make such a determination if required under the Corporations Act.

Under the DGCL, the Amaraero US HoldCo Board must consist of one or more individuals. Under the Amaraero US HoldCo Bylaws, unless the Amaraero US HoldCo Certificate of Incorporation fixes the number of directors, the number of Amaraero US HoldCo Directors will be determined by resolution of the whole Amaraero US HoldCo Board. Amaraero US HoldCo Directors do not need to be stockholders of Amaraero US HoldCo.

Election of directors

Under the Listing Rules, Amaraero must accept nominations for the election of Amaraero Directors up to 35 Business Days (or 30 Business Days in the case of a general meeting requested by Amaraero Shareholders) before the date of a general meeting at which the Amaraero Directors may be elected.

Under Amaraero's constitution, each candidate for election as an Amaraero Director must be:

- a retiring Amaraero Director who is standing for re-election;
- nominated by the Amaraero Board for election; or
- nominated by an Amaraero Shareholder (with the nominee's consent) at least 35 Business Days before the meeting (or, in the case of a meeting that Amaraero Shareholders have requested the Amaraero Directors to call in accordance with the Corporations Act, 30 Business Days).

Under Amaraero's constitution, an Amaraero Director does not need to be an Amaraero Shareholder. The Amaraero Board may appoint any natural person as an Amaraero Director, provided they retire at the next annual general meeting after their appointment to the Amaraero Board and may stand for re-election. Amaraero Directors are otherwise subject to a rotation regime and must retire no later than the longer of the third annual general meeting or three years after their last election or appointment.

Under the Amaraero US HoldCo Charter Documents, Amaraero US HoldCo Directors will be elected at each annual meeting of Amaraero US HoldCo stockholders by such stockholders who have the right to vote on such election. From and after the Trigger Event (as defined in the Amaraero US HoldCo Certificate of Incorporation), the Amaraero US HoldCo Directors shall hold office for a three year term and until their successor is duly elected and qualified, subject to such Amaraero US HoldCo Director's earlier death, resignation, disqualification or removal. Such election is not required to be by written ballot.

From the effectiveness of the filing of the Amaraero US HoldCo Certificate of Incorporation through to the Trigger Event, the Amaraero US HoldCo Directors (other than those who may be elected by the holders of preferred stock under specified circumstances) shall be in a single class and shall serve for one-year terms. From and after the Trigger Event, the Amaraero US HoldCo Directors shall be divided into three classes (Class I, Class II, and Class III), as nearly equal size as practicable. At the first annual meeting of stockholders following the Trigger Event, the term of office of the Class I directors shall expire and Class I directors shall be elected for a full term of three years. At the second annual meeting of stockholders following the Trigger Event, the term of office of the Class II directors shall expire and Class II directors shall be elected for a full term of three years. At the third annual meeting of stockholders following the Trigger Event, the term of office of the Class III directors shall expire and Class III directors shall be elected for a full term of three years. At each succeeding annual meeting of stockholders, directors shall be elected for a full term of three years to succeed the directors of the class whose terms expire at such annual meeting.

The Amaraero US HoldCo Bylaws also provide the procedures for nominations of directors. Generally, nominations may be made at an annual or special meeting of stockholders only by or at the direction of the board of directors, or by a stockholder who has met the requirements and complied with the procedures for advance notice and nominations set forth in the Amaraero US HoldCo Bylaws.

Further, as the Amaraero US HoldCo CDIs will be listed on ASX, Amaraero US HoldCo will be subject to the Listing Rules and must ensure compliance with its director election regime.

Removal of directors

Under the Corporations Act, Amaero Shareholders may, by resolution, remove an Amaero Director from office. A notice of intention to move the resolution must be given to Amaero at least two months before the general meeting is to be held. However, if Amaero calls a general meeting after the notice of intention is given, the meeting may pass the resolution even though the meeting is held less than two months after the notice of intention is given. The relevant Amaero Director is entitled to put their case to Amaero Shareholders.

Amaero's constitution provides that a person ceases to be an Amaero Director if that person:

- fails to attend meetings of the Amaero Board (personally or by an alternate) for a continuous period of three months without the consent of the Amaero Board;
- resigns by notice in writing to Amaero;
- retires in accordance with Amaero's constitution and is not re-elected;
- is removed from office pursuant to the Corporations Act;
- if an executive Amaero Director, ceases to be an employee of Amaero or a Related Body Corporate;
- becomes insolvent under administration;
- becomes of unsound mind or a person whose property is liable to be dealt with under a mental health law; or
- is not permitted to be a director or to manage a corporation pursuant to the Corporations Act.

Under the Amaero US HoldCo Charter Documents, prior to the Trigger Event, any Amaero US HoldCo Director or the entire Amaero US HoldCo Board of Directors may be removed from office at any time by the affirmative vote of at least a majority of the voting power of the issued and outstanding capital stock of Amaero US HoldCo entitled to vote in the election of the directors.

From and after the Trigger Event, for so long as the Amaero US HoldCo Board of Directors is classified and subject to the rights of holders of preferred stock, any director or the entire Board of Directors may be removed from office at any time, but only for cause, and only by the affirmative vote of the holders of at least majority of the voting power of the then outstanding capital stock of Amaero US HoldCo entitled to vote at an election of directors.

Any director may also resign at any time upon notice given in writing or by electronic transmission to the company.

Remuneration of directors and officers

Under the Listing Rules and Amaero's constitution, each non-executive Amaero Director is entitled to the remuneration determined by the Amaero Directors, but the remuneration of non-executive Amaero Directors must not exceed in total in any year the amount fixed by Amaero in general meeting for that purpose.

Under Amaero's constitution, Amaero pay to each executive Amaero Director an amount of remuneration determined by the Amaero Board.

Amaero's constitution also provides that:

- Amaero Directors may be paid additional remuneration or provided benefits for extra or special services performed with the approval of the Amaero Board;
- the remuneration paid to Amaero Directors must not be calculated as a commission on, or percentage of, operating revenue or, in the case of non-executive Amaero Directors, profits;
- Amaero Directors and their alternates are entitled to be reimbursed for reasonable expenses incurred in connection with the business of Amaero; and
- subject to applicable law, Amaero may establish superannuation or similar benefit arrangements and may provide payments or benefits in connection with an Amaero Director's retirement, resignation, loss of office or death while in office.

Amaero's annual report includes a remuneration report within the Amaero Directors' report. This remuneration report is required to include a discussion of the Amaero Board's policy in relation to remuneration of key management personnel of Amaero. Under the Corporations Act, Amaero must put its remuneration report to a shareholder vote at its annual general meeting. If, at the previous annual general meeting of a company, 25% or more of the votes cast on the resolution vote against adopting the remuneration report, a 'spill resolution' must then be put to Amaero Shareholders at the next annual general meeting. A spill resolution is a resolution that a spill meeting be held and all Amaero Directors (other than a Managing Director) cease to hold office immediately before the end of the spill meeting. If the spill resolution is approved by the majority of votes cast on the resolution, a spill meeting must be held within 90 days at which Amaero Directors wishing to remain Amaero Directors must stand for re-election.

The Listing Rules concerning the maximum amount to be paid to a company's directors will continue to apply to Amaero US HoldCo as an ASX-listed company.

Further, under the DGCL, the Amaero US HoldCo Board has the power to fix the compensation of Amaero US HoldCo Directors. Compensation can also include fringe benefits, such as travel and incidental expenses.

Where participation is permitted, Amaero's constitution provides that an Amaero Director may still be counted towards a quorum (if entitled to vote on at least one resolution at the meeting), may participate in and vote on matters relating to the disclosed interest (provided required disclosure is made before the transaction is entered into) and may retain benefit from a transaction involving that interest.</p>	<p>Under Delaware law, directors owe common law fiduciary duties of care and loyalty. The duty of loyalty requires acting, or deciding not to act, on a disinterested and independent basis, in good faith, and with the honest belief that the action or decision is in the best interests of the company and its stockholders as a whole. The duty of loyalty also includes the duty of disclosure/candour (that is, providing all material and accurate information to other directors and to stockholders when asking stockholders to take action based on a communication) and oversight (that is, duties to establish board-level systems to monitor mission-critical business risks and to actually monitor/respond to the risks).</p> <p>Under Delaware law, officers generally owe the same fiduciary duties that directors owe.</p> <p>Under Delaware law, there are generally three standards of judicial review for matters involving fiduciary duties. Directors are afforded some latitude in business-making decisions by the business judgment rule presumption. So long as disinterested directors act in good faith, on an informed basis, and in the honest belief that the action or inaction is in the best interests of the corporation and its stockholders, the decision will not later be second-guessed by a court if it is attributable to any rational business purpose, even if it later turns out to be unwise.</p> <p>An "intermediate" standard of scrutiny applies in certain situations and requires that directors have acted reasonably in connection with certain sale of control transactions and in situations where the board acts defensively.</p> <p>Lastly, the "entire fairness" standard of review applies in situations where (1) there is evidence to suggest the board has breached its fiduciary duties, (2) at least half of the board has a disabling conflict of interest, (3) a fiduciary has a hidden and material conflict of interest, or (4) a controlling stockholder has a conflict of interest, and certain cleansing mechanisms are not implemented. The entire fairness standard provides that the transaction must have both "fair process" and a "fair price."</p>

Release from liability and indemnification of directors and officers

Under Australian law, Amaero cannot:

- exempt an officer or auditor from liability to Amaero incurred in their capacity as an officer or auditor;
- indemnify an officer or auditor against a liability owed to Amaero or a Related Body Corporate; or
- indemnify an officer or auditor against the legal costs incurred in defending certain legal proceedings, including proceedings in which the person is found liable to Amaero or a Related Body Corporate.

Payments by Amaero of insurance premiums which cover conduct involving a wilful breach of duty in relation to Amaero or a breach of an Amaero Director's statutory duty not to improperly use their position or information is also prohibited under the Corporations Act.

Amaero's constitution provides that to the extent permitted by law, Amaero must indemnify each person who is or has been a director, alternative director or company secretary of Amaero against a liability of that person and the legal costs of that person. This indemnity is a continuing obligation, is enforceable without the officer first incurring any expense or making any payment, and applies to all liabilities and costs incurred both before and after the effective time of the indemnity.

Amaero's constitution also permits, to the extent permitted by law, Amaero to advance or loan money for legal costs, to enter into insurance agreements covering liabilities and legal costs of relevant officers, and to enter into deeds or agreements with current or former officers under which Amaero agrees to provide access to company books, indemnities, advancement of legal costs and insurance.

AMAERO US HOLDCO

Under the DGCL, a corporation may indemnify any person who was or is a party or is threatened to be made a party to any proceeding by reason of the fact that such person is or was a director, officer, employee or agent of the corporation against expenses actually and reasonably incurred in connection with such proceeding if such person acted in good faith and in a manner such person reasonably believed to be in or not opposed to the best interests of the corporation and, with respect to any criminal proceeding, had no reasonable cause to believe the person's conduct was unlawful. However, in the case of a proceeding brought by or in the right of the corporation to procure a judgment in its favour, no person may be indemnified with respect to any claim, issue, or matter as to which such person has been adjudged liable to the corporation unless and only to the extent that the appropriate court has determined that indemnity in such circumstances is proper.

The DGCL and the Amaero US HoldCo Bylaws also provide that where expenses have been advanced to a director or officer of Amaero US HoldCo in advance of the final disposition of the litigation, and it is ultimately determined that such director or officer is not entitled to be indemnified by Amaero US HoldCo, the director or officer must repay the amount.

Under the Amaero US HoldCo Charter Documents, Amaero US HoldCo must generally indemnify (and advance expenses to) directors and officers to the fullest extent permitted by the DGCL.

Directors and officers of Amaero US HoldCo will not be personally liable either to Amaero US HoldCo or to any of its stockholders for monetary damages for breach of fiduciary duty as a director or officer, except to the extent that such exemption from liability or limitation is not permitted under the DGCL.

Under the DGCL, Amaero US HoldCo cannot eliminate or limit the personal liability of a director or officer to the company or its stockholders for monetary damages:

- for breaches of the duty of loyalty;
- for acts or omissions not in good faith or involving intentional misconduct or a knowing violation of law;
- for directors, for unlawful payment of a dividend, share repurchase or redemption;
- for any transaction from which the director or officer derived an improper personal benefit; or
- for officers, in any action by or in the right of the corporation.

Relationship between the company and its shareholders**Protection of minority shareholders and the oppression remedy**

Under the Corporations Act, any Amaero Shareholder can bring an action in cases of conduct which is either contrary to the interests of Amaero Shareholders as a whole, or oppressive to, unfairly prejudicial to, or unfairly discriminatory against, any Amaero Shareholder (whether in their capacity as an Amaero Shareholder or otherwise). Former Amaero Shareholders can also bring an action if it relates to the circumstances in which they ceased to be an Amaero Shareholder.

A statutory derivative action may also be instituted by an Amaero Shareholder, former Amaero Shareholder or person entitled to be registered as an Amaero Shareholder or a shareholder or a Related Body Corporate, or an officer or former officer of Amaero. In all cases, leave of the court is required. Such leave will be granted if the court is satisfied that:

- it is probable that Amaero will not itself bring the proceedings or properly take responsibility for them or for the steps in them;
- the applicant is acting in good faith;
- it is in the best interests of Amaero that the applicant be granted leave;
- if the applicant is applying for leave to bring proceedings, there is a serious question to be tried; and
- at least 14 days before making the application, the applicant gave written notice to Amaero of the intention to apply for leave or the reasons for applying, or it is otherwise appropriate to grant leave.

• Delaware law does not offer a standalone cause of action for stockholder oppression.

• However, because Delaware law recognises that controlling stockholders have fiduciary duties, a minority stockholder may bring an oppression-like claim against controlling stockholders for breach of fiduciary duties in certain situations.

AREA AMAERO**AMAERO US HOLDCO****Variation of class rights**

- Under the Corporations Act, rights attaching to any class of shares may only be varied:
 - by a special resolution passed at a meeting of the shareholders entitled to vote and holding shares in that class; or
 - with the written consent of shareholders with at least 75% of the votes in the class.
- The Corporations Act provides that where shareholders in an affected class do not all agree to the variation or cancellation of their rights, or a modification to the company's constitution to allow their rights to be varied or cancelled, shareholders with at least 10% of the votes in the affected class may apply to a court (within a limited time frame) to have the variation, cancellation or modification set aside. Subject to the terms of issue of any given class of shares and the Corporations Act, the rights attached to a class of shares are not deemed varied by the issue of further shares ranking equally with those shares.
- Under Amaero's constitution, the issue of new Amaero Shares ranking equally with existing Amaero Shares does not constitute a variation of the rights conferred on the holders of the existing Amaero Shares. However, the issue of any new Amaero Shares ranking in priority ahead of an existing class of preference Amaero Shares constitutes a variation of the rights attached to that preference share class.

Any change in the powers, preferences, or special rights of stock requires an amendment to the Amaero US HoldCo Certificate of Incorporation, such amendment must be approved by both the Amaero US HoldCo Board and Amaero US HoldCo Shareholders pursuant to the DGCL and Amaero US HoldCo Charter Documents, and may require separate approval of the affected class or series of stock.

Right to inspect register of shareholders, corporate books and records

- Under Australian law, the register of shareholders of a company is usually kept at the registered office or principal place of business in Australia and must be available for inspection to shareholders free of charge at all times when the registered office is open to the public. If a person asks a company for a copy of the company's share register (or part of that register) and pays the requested fee (up to a prescribed amount), the company must give that person the copy within seven days of the date on which the company receives such payment.
- Under the Corporations Act, a shareholder must obtain a court order to obtain access to the corporate books. The applicant must be acting in good faith and be making the inspection for a proper purpose.

Under the DGCL, a stockholder is permitted to inspect, make copies of, and take extracts from, certain books and records for any proper purpose, during normal business hours, upon the stockholder making a sworn written demand stating the proper purpose. If the corporation, or an officer or agent thereof, refuses to permit an inspection sought by a stockholder or attorney or other agent acting for the stockholder or does not reply to the stockholder's demand for inspection within 5 business days after the demand has been made, the stockholder may apply to the Delaware Court of Chancery for an order to compel such inspection.

Source and payment of dividends**Source and payment of dividends**

- Under the Corporations Act, a company must not pay a dividend unless:
 - the company's assets exceed its liabilities immediately before the dividend is declared and the excess is sufficient for the payment of the dividend;
 - the payment of the dividend is fair and reasonable to shareholders as a whole; and
 - the payment of the dividend does not materially prejudice the company's ability to pay creditors.
- Subject to the Corporations Act and Amaero's constitution, the Amaero Board may declare or determine that a dividend is payable, fix the amount and the time for payment and authorise the payment or crediting by Amaero to, or at the direction of, each Amaero Shareholder entitled to that dividend.

Under the DGCL, directors may declare and pay dividends upon the shares of its capital stock either:

- out of its surplus; or
- in case there is no surplus, out of its net profits for the fiscal year in which the dividend is declared and/or the preceding fiscal year.

A Delaware corporation must also be solvent to pay dividends. "Solvency" in this context requires that, after giving effect to the dividend, the corporation would be able to pay its debts as they become due; that its liabilities would not exceed its assets; that it could continue as a going concern; and that it would not have an unreasonably small amount of capital.

Disclosure requirements**Disclosure obligations**

Amaero is a "disclosing entity" for the purposes of the Corporations Act and subject to the periodic and continuous disclosure requirements of the Corporations Act and the Listing Rules. Broadly, these obligations include the requirement, subject to exceptions for certain confidential information, to notify ASX immediately of any information of which it becomes aware that a reasonable person would expect to have a material effect on the price or value of Amaero Shares.

Amaero is also required to make announcements to ASX on specified issues. Some of these announcements are required on a regular basis, including notifying ASX of proxy voting results at the annual general meeting, providing dividend details and providing copies of notices of meeting. Other one-off announcements are required depending upon a company's individual circumstances at a particular time.

There are also periodic reporting and disclosure rules that apply to Amaero, requiring it to report to the ASX at the end of every half year and annually in respect of its financial statements and reports. In respect of its mining and exploration activities, Amaero is also required to report quarterly to the ASX.

As an ASX-listed company, Amaero US HoldCo will need to comply with the continuous disclosure regime under the Listing Rules.

Delaware law generally does not require corporations to make public filings. Once Amaero US HoldCo is either listed on a United States securities exchange or otherwise satisfies certain asset and record holder requirements, Amaero US HoldCo will become subject to the periodic reporting requirements of the Exchange Act. United States federal securities laws and regulations require Amaero US HoldCo to publicly file various documents with the SEC, which are further described in Annexure L, including:

- annual reports on Form 10-K;
- quarterly reports on Form 10-Q;
- current reports containing material information required to be disclosed on Form 8-K;
- company insider reports; and
- proxy statements.

Disclosure of substantial shareholders

Under the Corporations Act, a person who obtains voting power in 5% or more of an ASX-listed company is required to publicly disclose that fact within two Business Days via the filing of a substantial holding notice. A person's voting power consists of their own 'relevant interest' in shares plus the relevant interests of their associates. A further notice needs to be filed within two Business Days after each subsequent voting power change of 1% or more, and after the person ceases to have voting power of 5% or more. The notice must attach all documents which contributed to the voting power the person obtained and provide a written description of arrangements which are not in writing.

There are no disclosure requirements under Delaware law in respect of substantial stockholdings.

Once Amaero US HoldCo is either listed on a United States securities exchange or otherwise satisfies certain asset and record holder requirements, it will be required to disclose certain beneficial ownership information regarding directors, officers and 5% stockholders in its public filings.

Issue of new shares

Subject to applicable law (including the Corporations Act, the Listing Rules) and any rights or restrictions attaching to a class of Amaero Shares or other securities, the Amaero Board has the power under Amaero's constitution to issue, allot, grant options over, or otherwise deal with or dispose of Amaero Shares or other securities as the Amaero Directors think fit.

Subject to specified exceptions (e.g. for pro rata issues), the Listing Rules restrict Amaero from issuing, or agreeing to issue, more equity securities (including Amaero Shares, Amaero Options and Amaero Convertible Notes) than the number calculated as follows in any 12-month period without the approval of Amaero Shareholders:

- 15% of the total of:
 - » the number of Amaero Shares on issue 12 months before the date of the issue or agreement to issue; plus
 - » the number of Amaero Shares issued in the 12 months under a specified exception; plus
 - » the number of partly paid Amaero Shares that became fully paid in the 12 months; plus
 - » the number of Amaero Shares issued in the 12 months with shareholder approval; less
 - » the number of Amaero Shares cancelled in the 12 months,
- less the number of equity securities issued or agreed to be issued in the 12 months before the date of issue or agreement to issue but not under a specified exception or with Amaero Shareholder approval.

As Amaero US HoldCo intends to be listed on ASX, the Listing Rules regarding restrictions on the issue of new securities will continue to apply to Amaero US HoldCo.

Under the DGPL, shares can be issued for such consideration as is determined from time to time by the directors of the company provided, however, that in the case of shares having par value, the value of such consideration cannot be less than such par value. The consideration for newly issued shares may consist of cash, any tangible or intangible property, or any benefit to the company and will be paid in such form and manner as the directors of the company determine. A resolution of the board of directors may delegate to a person or body, in addition to the board of directors, the authority to enter into one or more transactions to issue stock if the board resolution authorising such issuance or issuances at least specifies:

- the maximum number of shares that may be issued pursuant to such resolution;
- a time period during which such shares may be issued; and
- the minimum amount of consideration for which such shares may be issued.

Under the Amaero US HoldCo Certificate of Incorporation, Amaero US HoldCo is authorised to issue up to 165,000,000 shares of capital stock, consisting of 150,000,000 shares of common stock with a par value of US\$0.00001 per share and 15,000,000 shares of preferred stock with a par value of US\$0.00001 per share. The number of authorised shares of common stock or preferred stock may be increased or decreased (but not below the number of shares thereof then outstanding) by the affirmative vote of the holders of a majority of the voting power of all the then-outstanding shares of capital stock of Amaero US HoldCo entitled to vote thereon unless a vote of any holders of one or more series of preferred stock is required pursuant to the terms of any certificate of designation relating to any series of preferred stock.

In the event that Amaero US HoldCo pursues a listing on a United States securities exchange, such as NASDAQ, it will be required under the applicable listing standards to obtain stockholder approval for certain significant issuances of Amaero US HoldCo Shares, including an issuance:

- in connection with new or materially amended equity compensation plans, subject to certain exceptions;
- of common stock or securities convertible into common stock in excess of 1% of the number of shares or voting power outstanding to:
 - » a director, officer or substantial security holder of Amaero US HoldCo;
 - » a subsidiary, affiliate or other closely-related person of such a party; or
 - » any company or entity in which such a party has a substantial direct or indirect interest, subject to certain exceptions;
- in any transaction or series of related transactions if:
 - » the Amaero US HoldCo Shares have, or will have upon issuance, voting power equal to or in excess of 20% of the voting power outstanding before the issuance of such Amaero US HoldCo Shares or securities convertible into or exercisable for Amaero US HoldCo Shares; or
 - » the number of Amaero US HoldCo Shares to be issued is, or will be upon issuance, equal to or in excess of 20% of the number of Amaero US HoldCo Shares outstanding before the issuance of the Amaero US HoldCo Shares or securities convertible into or exercisable for Amaero US HoldCo Shares, unless, in either case, the issuance is involving (i) any public offering for cash or (ii) any bona fide private financing, if such financing involves a sale of Amaero US HoldCo Shares, for cash, at a price at least as great as each of the book and market value of the Amaero US HoldCo Shares, or securities convertible into or exercisable for Amaero US HoldCo Shares, for cash, if the conversion or exercise price is at least as great as each of the book and market value of the Amaero US HoldCo Shares; or
- that will result in a change of control of Amaero US HoldCo.

AREA AMAERO

Share buy-back and redemptions

The Corporations Act allows Amaero to buy-back its own Amaero Shares through a specific buy-back procedure provided that:

- the buy-back does not materially prejudice Amaero's ability to pay its creditors; and
- Amaero follows the procedures set out in the Corporations Act.

The buy-back procedure, which includes a form of Amaero Shareholder approval (for example, ordinary, special or unanimous resolutions), notice period and disclosure to be given to Amaero Shareholders, depends on the type of buy-back.

Generally, if all Amaero Shareholders are given an equal opportunity to have their Amaero Shares bought back and the buy-back would result in Amaero, during the 12-month period prior to and including the buy-back, acquiring 10 percent or more of the smallest number of votes attaching to voting Amaero Shares on issue, then an ordinary resolution of Amaero Shareholders would be required. A selective buy-back, where not all Amaero Shareholders are given an equal opportunity to access the buy-back, would require a special resolution of the Amaero Shareholders whose shares are not being bought back.

Amaero Shares that have been bought back must be cancelled.

Transactions involving directors, officers or other related parties

The Corporations Act prohibits Amaero from giving a related party a financial benefit unless it:

- obtains Amaero Shareholder approval and gives the benefit within 15 months of such approval; or
- falls within an exception set out in the Corporations Act.

A related party is defined in the Corporations Act and includes any entity which controls the public company, directors of the public company, directors of any entity that controls the public company and, in each case, spouses and certain relatives of such persons. Exempt financial benefits include indemnities, insurance premiums and payments for legal costs which are not otherwise prohibited by the Corporations Act, benefits given on arm's length terms and reasonable remuneration or reimbursement of an officer or employee.

Subject to limited exceptions, the Listing Rules prohibit Amaero from acquiring a substantial asset from, or disposing of a substantial asset to, any Amaero Directors (or other person of influence, including Amaero Shareholders who have or have had (in aggregate with any of their associates) holding voting power of more than 10% of Amaero Shares in the prior six-month period) unless it obtains Amaero Shareholder approval. Additionally, the Listing Rules prohibit Amaero from issuing securities to any Amaero Directors unless it obtains Amaero Shareholder approval prior to the issue or an exemption applies to the share issue. Exempt share issues include issues made pro rata to all shareholders, under an underwriting agreement in relation to a pro rata issue, under certain dividend or distribution plans or under an approved employee incentive plan.

The Corporations Act generally requires an Amaero Director who has a material personal interest in a matter that relates to the affairs of Amaero to give the other Amaero Directors notice of that interest. That Amaero Director must not be present at a meeting where the matter is being considered or vote on the matter unless the other Amaero Directors or ASIC approve, or the matter is not one which requires disclosure under the Corporations Act. Under the Corporations Act, failure of an Amaero Director to disclose a material personal interest, or voting despite a material personal interest, does not affect the validity of any act, transaction, agreement, instrument, resolution or other thing. Amaero Directors, when entering into transactions with Amaero, are subject to the common law and statutory duties to avoid conflicts of interest.

AMAERO US HOLDCO

Under the DGCL, a company may repurchase its shares, subject to certain limitations, including those related to statutory surplus and solvency requirements.

In the event that Amaero US HoldCo pursues a listing on a United States securities exchange, such as NASDAQ, it will typically disclose certain information prior to undertaking a purchase of its own shares to ensure compliance with United States laws prohibiting fraudulent and manipulative practices relating to their own securities. Information typically disclosed includes the estimated time period during which the acquisition will be made, maximum number of shares proposed to be acquired or amount of funds to be expended and an indication of how the buy-back will be conducted. It would also be required under SEC rules to include certain information regarding share repurchase activity on a quarterly basis.

Generally, under the DGCL, a transaction between a corporation, on the one hand, and one or more of the corporation's directors or officers (or any entity in which a director or officer has an interest), on the other hand, may not be the subject of equitable relief, or give rise to an award of damages, against a director or officer of the corporation because of the foregoing circumstances or the receipt of any benefit by any such director, officer, or entity or because the director or officer is present at or participates in the meeting of the board or committee which authorises the act or transaction or was involved in the initiation, negotiation, or approval of the act or transaction (including by virtue of a director's vote being counted for such purpose) if the transaction is: (1) approved by a majority of the disinterested directors (if at least half of the directors are disinterested) or by a committee of disinterested directors; (2) approved or ratified by an informed and uncoerced vote of disinterested stockholders; or (3) fair as to the corporation and its stockholders.

Generally, under the DGCL, a transaction between the corporation, on the one hand, and a controlling stockholder or a control group, on the other hand, or a transaction from which a controlling stockholder or a control group receives a financial or other benefit not shared with the corporation's stockholders generally (a "controlling stockholder transaction") (other than any going private transaction (as defined in the DGCL)) may not be the subject of equitable relief, or give rise to an award of damages, against a director or officer of the corporation or any controlling stockholder or member of a control group, by reason of a claim based on a breach of fiduciary duty by a director, officer, controlling stockholder, or member of a control group, if the transaction is: (1) approved by a properly constituted and empowered committee of disinterested directors; (2) approved or ratified by an informed and uncoerced vote of disinterested stockholders; or (3) fair as to the corporation and its stockholders.

Generally, under the DGCL, a controlling stockholder transaction constituting a going private transaction (as defined in the DGCL) may not be the subject of equitable relief, or give rise to an award of damages, against a director or officer of the corporation or any controlling stockholder or member of a control group by reason of a claim based on a breach of fiduciary duty by a director, officer, controlling stockholder, or member of a control group, if it is approved by both a properly constituted and empowered committee of disinterested directors and an informed and uncoerced vote of disinterested stockholders.

Additionally, section 203 of the DGCL restricts certain "business combinations" (including mergers, asset sales and other transactions in which stockholders receive or could receive a financial benefit other than on a pro rata basis with other stockholders) with "interested" stockholders (generally, a stockholder with beneficial ownership of 15% or more of the outstanding stock) of a Delaware corporation that has a class of voting stock that is listed on a national securities exchange or held of record by more than 2,000 stockholders for a three-year period following the time the "interested" stockholder became an "interested" stockholder, unless a statutory exception applies or the corporation has opted out of being subject to Section 203 of the DGCL. Amaero US HoldCo has not opted out of being subject to Section 203 of the DGCL.

Amaero US HoldCo will need to ensure compliance with the Listing Rules in relation to related party transactions.

AREA AMAERO**AMAERO US HOLDCO****Transactions with significant shareholders**

The Listing Rules contain restrictions on listed companies, such as Amaero, in respect of acquiring or disposing substantial assets from, or to, a substantial shareholder who, along with their associates, holds at least 10% of the company's voting securities (or has in the last six months), without disinterested shareholder approval. Substantial assets are assets that represent at least five% of the company's equity interests (essentially 5% of its net asset value), as set out in the latest financial statements. Shareholder approval for such transactions requires a simple majority of votes cast by the company's ordinary shareholders, with parties to the transaction (and their associates) not voting.

As noted above, unless a statutory exception applies, section 203 of the DGCL restricts certain business combinations with interested stockholders of certain Delaware corporations. Delaware law recognises that controlling stockholders owe fiduciary duties when exercising control over the company in certain circumstances—though controlling stockholders can generally vote their shares and make investment decisions in their own interest.

Certain statutory provisions under Delaware law provide a "safe harbor" for transactions in which a controlling stockholder receives a non-ratable benefit. These procedures require, depending on the transaction structure, approval by a committee of disinterested directors and/or approval by disinterested stockholders and are more fully described above in connection with the discussion of "Transactions involving directors, officers or other related parties."

Amaero US HoldCo will need to ensure compliance with the Listing Rules in relation to transactions with significant stockholders.

Takeovers**Takeover requirements**

Under the Corporations Act, any acquisition by a person of a "relevant interest" in a "voting share" of Amaero is restricted where, because of a transaction, that person or someone else's percentage "voting power" in Amaero increases above 20% (or, where the person's voting power was already above 20% and below 90%, increases in any way at all). Exceptions to this restriction include:

- an acquisition of no more than 3% of the voting shares in Amaero within a six-month period;
- an acquisition approved by an ordinary resolution (requiring more than 50% of votes cast) of Amaero Shareholders, but with no votes cast in favour by the person proposing to make the acquisition or their associates;
- an acquisition made under a takeover bid conducted in accordance with Australian law; and
- an acquisition that results from a court-approved compromise or arrangement that requires approval by a majority in number and at least 75% of the votes cast by Amaero Shareholders in each class on which the arrangement will be binding.

Takeover bids must treat all shareholders alike and must not involve any collateral benefits. Various restrictions about conditional offers exist and there are also restrictions concerning the withdrawal and suspension of offers.

Amaero Shareholders may be required to sell their Amaero Shares:

- under compulsory acquisition requirements, such as where a bidder has made a takeover offer for all shares in a class and the bidder acquires a relevant interest in at least 90% (by number) of shares in the class (having acquired at least 75% of the shares the bidder offered to acquire), or
- pursuant to a court-approved compromise or arrangement.

Because of the strong statutory takeover protections that apply to Australian companies under the Australian takeovers legislation and policy, boards of Australian companies are limited in the additional non-statutory defensive mechanisms that they can put in place to discourage or defeat a takeover bid. Therefore, it is likely that the adoption of certain antitakeover mechanisms by the board without shareholder approval, such as a shareholders' rights plan (or so-called 'poison pill'), would give rise to a declaration of unacceptable circumstances by the Australian Takeovers Panel if it discouraged or defeated a takeover bid.

Under the DGCL, Amaero US HoldCo is not subject to any equivalent statutory provision. Despite that, Amaero US HoldCo will remain subject to section 203 of the DGCL which restricts certain business combinations with "interested" stockholders of Amaero US HoldCo unless a statutory exception applies. Under section 251 of the DGCL, the board of directors of a target corporation may adopt a resolution approving an agreement of merger or consolidation and declaring its advisability. Subject to limited exceptions, such agreement must be submitted to the stockholders for consideration and is subject to approval by a majority of the outstanding voting power of the shares of the corporation entitled to vote.

Under Delaware case law, in the context of a takeover, management and directors have fiduciary obligations to act in good faith, with due care and loyalty, in what they believe to be the best interests of the corporation and the stockholders. In the context of a takeover, management and directors may also have a duty to act "reasonably."

Directors and management are generally not obligated to negotiate with third parties, or to sell the corporation, if a good faith, informed decision is made that it would be in the corporation's best interests to reject the negotiation. The degree of judicial scrutiny of the actions taken by the directors and management will be more rigorous depending on whether defensive tactics have been employed against a hostile takeover bid and whether directors and management have an interest in rejecting the takeover bid.

AREA	AMAERO	AMAERO US HOLDCO
Winding up	<p>Under Australian law, an insolvent company may be wound up by a liquidator appointed by either creditors or the court.</p> <p>Directors cannot use their powers after a liquidator has been appointed. If there are funds left over after payment of the costs of the liquidation, and payments to other priority creditors, including employees, the liquidator will pay these to unsecured creditors. The shareholders rank behind the creditors and are, therefore, unlikely to receive any dividend in an insolvent liquidation.</p> <p>Under Australian law, shareholders of a solvent company may decide to wind up the company if the directors are able to form the view that the company will be able to pay its debts in full within 12 months after the commencement of the winding-up. A meeting at which a decision is made to wind up a solvent company requires at least 75% of votes cast by the shareholders present and voting.</p> <p>Subject to any rights or restrictions being attached to a class of Amaero Shares, Amaero's constitution states that if Amaero is wound up and there is a surplus, the excess must be divided among Amaero Shareholders in the proportions which the amount paid (including amounts credited) on the Amaero Shares is of the total issue price of the Amaero Shares of all Amaero Shareholders. In respect of the division of property, the liquidator may, with the sanction of a special resolution, divide among the Amaero Shareholders the whole or any part of the property of Amaero and determine how the division is to be carried out as between the members or different classes of members.</p>	<p>Under the DGCL, a majority of a company's board must pass a resolution stating their intention to dissolve the company, which must be approved by a majority vote from the company's stockholders. Dissolution may also occur without the action of the company's board if all the stockholders entitled to vote consent to the dissolution in writing.</p> <p>After stockholders approve the board resolution or the stockholders unanimously consent to the dissolution in writing without board action, a certificate of dissolution must be filed with the Delaware Secretary of State's office. Even after the dissolution is effective, the company will continue in existence for a period of three additional years, solely for the purposes of prosecuting and defending lawsuits, settling and closing the business, selling or disposing of property, and discharging liabilities and distributing assets. The board can choose one of two procedures to discharge and distribute assets following dissolution under the DGCL. The first procedure involves notice to those with potential claims against the corporation and a filing with the Delaware Court of Chancery. The second procedure requires the board of directors to adopt a plan of distribution before the expiration of the three-year continuation period. Under this plan of distribution, the corporation must:</p> <ul style="list-style-type: none"> • pay or make reasonable provision for payment of all known claims (including contingent, conditional or unmaturred claims); • make provision as would be reasonably likely to be sufficient to provide compensation for any pending litigation; and • make provision that would be reasonably likely to be sufficient for payment of all unknown claims that are likely to arise within ten years of the date of dissolution. <p>Any corporation that has followed either of these statutory procedures may distribute any remaining assets to its stockholders.</p>
Amendments to constituent documents	<p>Any amendment to Amaero's constitution must be approved by a special resolution passed by Amaero Shareholders present and voting on the resolution. In order to be passed, a special resolution requires approval of at least 75% of the votes cast by the company's shareholders entitled to vote.</p>	<p>Under the Amaero US HoldCo Charter Documents, the Amaero US HoldCo Bylaws may generally be amended by the affirmative vote of the holders of at least a majority of the total voting power of all the then outstanding shares of stock entitled to vote, noting however, that at least two-thirds of the total voting power of outstanding voting securities, voting together as a single class, shall be required to amend any bylaw inconsistent with the following provisions of the Amaero US HoldCo Bylaws: Article II, Sections 3.1, 3.2, 3.4 and 3.11 of Article III, Article VIII, Section 9.5 of Article IX or Article X. The Amaero US HoldCo Board of Directors, acting pursuant to a resolution of the Whole Board (as defined in the Amaero US HoldCo Certificate of Incorporation), also has the power to amend the Amaero US HoldCo Bylaws (excluding any bylaw amendment adopted by stockholders specifying the votes necessary for the election of directors).</p> <p>The Amaero US-HoldCo Certificate of Incorporation may be amended under the default DGCL process, noting however that approval of the board of directors acting pursuant to a resolution of the Whole Board (as defined in the Amaero US HoldCo Certificate of Incorporation) and an affirmative vote of two-thirds of the voting power of the then outstanding voting securities of Amaero US HoldCo is required to amend the following provisions: Section 3 of Article IV, Article VI, Article VII, Article VIII, Article IX, or Article XII.</p>

ANNEXURE L – COMPARISON OF AUSTRALIAN AND UNITED STATES FINANCIAL REPORTING REGIMES

The table below provides a comparison of the periodic reporting requirements under the applicable laws of Australia and the United States for Amaero and Amaero US HoldCo. If Amaero US HoldCo lists on a United States securities exchange or otherwise is required to register under the Exchange Act, Amaero US HoldCo will become subject to periodic reporting requirements under the Exchange Act, which will require quarterly and annual reporting. It is intended as a general guide only. Amaero Shareholders and Amaero Option Holders should consult with their own legal, financial or other independent and qualified professional adviser if they require further information.
