

ASX Announcement

11 May 2026

ASX: MKR

Supplementary Disclosure – March 2026 Quarter Activities and Cashflow Reports

Manuka Resources Limited (**ASX: MKR, NZX: MKR**) (the **Company**) refers to the March 2026 Quarter Activities and Cashflow Reports released on 30 April 2026 (**Quarterly Report**).

The Quarterly Report included references to an Exploration Target on page 6 and exploration results (Figures 2 and 3) at Pipeline Ridge without including the cross-references required under ASX Listing Rule 5.23.1 and the Cautionary Statement of JORC Code (2012) Clause 17.

The Company confirms the information relating to the Exploration Target and exploration results referred to in the Quarterly Report is based on, and fairly represents, information previously announced to the market.

In accordance with Listing Rule 5.23.1, the Company advises:

- the Exploration Target and exploration results referenced in the Quarterly Report are supported by the information contained in the Company's announcement titled Amended Announcement – "Mt Boppy Gold Project Exploration Update" (**Amended Announcement**) released on 11 May 2026;
- the Amended Announcement includes information required under Listing Rules 5.7 and 5.22, including the relevant Competent Person statements and consents; and

The Exploration Target on page 6 was estimated from preliminary interpretation and modelling of existing drilling (refer Annexure 2 and Annexure 3: Table 1, Section 2 borehole information contained in the Company's Amended Announcement released on 11 May 2026).

The Exploration Target was prepared using drilling information and interpreted mineralised trends between cut-off grades of 0.6 and 0.8 g/t Au.

The Exploration Target, including the potential quantity and grade is conceptual in nature. There has been insufficient exploration completed to estimate a Mineral Resource in accordance with the JORC Code (2012) and the Exploration Target is not yet fully constrained by drilling information. It is uncertain if further exploration will result in the estimation of a Mineral Resource.

The Company confirms:

- it is not aware of any new information or data that materially affects the information included in the Amended Announcement; and
- all material assumptions and technical parameters underpinning the Exploration Target continue to apply and have not materially changed.

Authorised for release to the ASX by Manuka Resources Limited Executive Chairman.
