Ventia secures Yarra Valley Water contract renewal

Ventia Services Group Limited (ASX:VNT) announces renewal of its maintenance services contract with Yarra Valley Water valued at \$405 million. The nine-year contract consolidates existing service contracts, sewerage and water network reactive maintenance and mechanical and electrical planned and reactive maintenance.

Under Yarra Valley Water's new delivery model, two strategic partners will manage maintenance services across North and South regions. Ventia has secured the South region, reinforcing its position as a trusted delivery partner in essential services.

The new partnership arrangements will commence October 2026 and is a testament to Ventia's proven track record as a strategic partner to Yarra Valley Water. Ventia has been delivering sewerage and network maintenance services for Yarra Valley Water since 2015.

"We're pleased to continue our partnership with Yarra Valley Water as we continue to deliver reliable services for people and businesses within their service area. The team has already achieved strong results in customer experience and response times, and as we enter this new phase, we remain focused on transformational asset management and enhanced service delivery," said Managing Director and Group CEO Dean Banks.

This announcement has been authorised for release by the Ventia Disclosure Committee.
