(An Exploration Stage Company)

CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

**For the three months ended March 31, 2026
(Unaudited)**

(Expressed in United States Dollars)

For personal use only

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL INFORMATION

The accompanying condensed interim consolidated financial statements and all other financial information included in this report are the responsibility of management. The condensed interim consolidated financial statements have been prepared in accordance with IFRS Accounting Standards ("IFRS"). Financial statements include certain amounts based on estimates and judgments. When alternative methods exist, management has chosen those it deems most appropriate in the circumstances to ensure that the condensed interim consolidated financial statements are presented fairly, in all material respects.

Management maintains appropriate systems of internal control, consistent with reasonable cost, to give reasonable assurance that its assets are safeguarded, and the financial records are properly maintained.

The Board of Directors is responsible for ensuring that management fulfils its responsibilities for financial reporting and internal control. The Audit Committee, which is comprised of three Directors, all of whom are non-management and independent, meets with management to review the consolidated financial statements to satisfy itself that management is properly discharging its responsibilities to the Directors, who approve the condensed interim consolidated financial statements.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial reporting standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

NOTICE OF NO AUDITOR REVIEW OF INTERIM FINANCIAL STATEMENTS

Under National Instruments 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the interim financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying unaudited condensed interim consolidated financial statements have been prepared by and are the responsibility of the Company's management. The Company's independent auditor has not performed a review of these financial statements in accordance with the standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

The accompanying notes are an integral part of these consolidated financial statements.

1. NATURE OF OPERATIONS

Sarama Resources Ltd (the “Company” or “Sarama”) was incorporated on April 8, 2010, under the laws of the Province of British Columbia, Canada. The Company’s address is Unit 8, 245 Churchill Avenue, Subiaco, Western Australia, Australia 6008. The Company’s registered office address is Suite 2200, HSBC Building, 885 West Georgia Street, Vancouver BC, Canada, V6C 3E8. The Company is listed on the TSX Venture Exchange (“TSXV”) under the symbol “SWA” and on the Australian Securities Exchange (“ASX”) under the symbol “SRR”.

ASX uses an electronic system called CHESS for the clearance and settlement of trades on ASX. The Company is incorporated in British Columbia, Canada, and the requirements of British Columbia law are such that registered shareholders have the right to receive a stock certificate, with such requirement not permitting the CHESS system of holding uncertificated securities. Accordingly, to enable companies such as the Company to have their securities cleared and settled electronically through CHESS, depositary instruments called CDIs are issued. CDIs represent the beneficial interest in the underlying shares in a foreign company such as the Company and are traded in a manner similar to shares of Australian companies listed on ASX. Each CDI is equivalent to one Share.

Statement of compliance

These condensed interim consolidated financial statements have been prepared in United States Dollars.

The board of directors of the Company have approved these condensed interim consolidated financial statements on May 15, 2026.

Business Activities

The consolidated entity, consisting of Sarama Resources Ltd. and its subsidiaries is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties. As at March 31, 2026, the Company is in the process of exploring its principal mineral properties and has not yet determined whether the properties contain gold reserves that are economically recoverable.

The condensed interim consolidated financial statements for the period ended March 31, 2026, comprise the accounts of Sarama Resources Ltd and its subsidiaries and the Company’s interest in equity accounted investments.

Basis of Presentation

These condensed interim consolidated financial statements have been prepared under the historical cost convention except for financial assets and liabilities at fair value through profit or loss and in accordance with IFRS Accounting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

Going Concern

The condensed interim consolidated financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the condensed interim consolidated financial statements for the period ended March 31, 2026, the Company recorded a loss of \$427,683 and had a net cash outflow from operating activities of \$603,547. As at March 31, 2026, the Company had available cash of \$289,998 and a deficit of current assets over current liabilities of \$1,421,128.

The Directors have reviewed cashflow forecasts for the upcoming period and assessed that the Company will need to complete a capital raising or obtain alternative sources of financing to support forecast future cashflows over the relevant period of twelve months from the anticipated date of signing of these financial statements. A process is currently being conducted to determine the likely timing and quantum of these future sources of funding.

Should this capital raising or alternative source of financing not eventuate, or not eventuate on a sufficiently timely basis, there is a material uncertainty that may cast significant doubt as to whether the consolidated entity will continue as a going concern and realise its assets and extinguish its liabilities in the normal course of business and at the amounts stated in the financial report.

2. MATERIAL ACCOUNTING POLICIES

a) Standards and Interpretations applicable to March 31, 2026

In the period ended March 31, 2026, the Directors have reviewed all the new and revised Standards and Interpretations issued by the IASB that are relevant to the consolidated entity and effective for the current annual reporting period. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Company and, therefore, no material change is necessary to the consolidated entity's accounting policies.

b) Standards and Interpretations in issue not yet adopted

The Directors have also reviewed all the new and revised Standards and Interpretations in issue not yet adopted for the period ended March 31, 2026. As a result of this review the Directors have determined that there is no material impact of the Standards and Interpretations in issue not yet adopted on the consolidated entity and, therefore, no change is necessary to the consolidated entity's accounting policies.

IFRS 18 – Presentation and Disclosure in Financial Statements

In April 2024, the IASB issued IFRS 18, Presentation and Disclosure of Financial Statements (IFRS 18), which replaces IAS 1, Presentation of Financial Statements. IFRS 18 introduces a specified structure for the income statement by requiring income and expenses to be presented into the three defined categories of operating, investing and financing, and by specifying certain defined totals and subtotals. Where company-specific measures related to the income statement are provided, IFRS 18 requires companies to disclose explanations around these measures, which are referred to as management defined performance measures. IFRS 18 also provides additional guidance on principles of aggregation and disaggregation which apply to the primary financial statements and the notes.

IFRS 18 will not affect the recognition and measurement of items in the financial statements, nor will it affect which items are classified in other comprehensive income and how these items are classified. The standard is effective for reporting periods beginning on or after January 1, 2027, including for interim financial statements. Retrospective application is required, and early application is permitted. The Company is currently assessing the effect of this new standard on its financial statements.

c) Basis of Consolidation

The condensed interim consolidated financial statements incorporate the assets and liabilities of the Company as at March 31, 2026 and the results of all subsidiaries for the period then ended.

Subsidiaries are all entities over which the Company has control (Note 10). The Company controls an entity when the Company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Company. They are deconsolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Company.

d) Foreign Currency Translation

(a) Functional and Presentation Currency

Sarama Resources Ltd
An Exploration Stage Company
Notes to the Consolidated Financial Statements
Expressed in United States Dollars unless otherwise stated

Items included in the financial statements of each of the Company's consolidated entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The condensed interim consolidated financial statements are presented in United States dollars ("USD"), which is the Company's functional and presentation currency.

(b) Transactions and Balances

Monetary assets and liabilities of the Company are translated into USD at the exchange rate in effect at balance date while non-monetary assets and liabilities, revenues and expenses are translated using exchange rates in effect at the time of each transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

All foreign exchange gains and losses are presented separately in profit or loss for the financial period.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair-value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss.

(c) Functional Currency

The results and financial position of foreign operations that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the balance date,
- income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case, income and expenses are translated at the dates of the transactions), and
- all resulting exchange differences are recognised in other comprehensive income.

e) Financial Instruments

Cash and cash equivalents are classified as current assets and include short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value. The Company places the majority of its cash holdings with an Australian financial institution which has a high credit rating.

Non-derivative financial assets and liabilities

The Company has the following non-derivative financial assets and liabilities:

- i. **Receivables**
Receivables are financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are initially recognised at fair value, less any directly attributable transaction costs. Subsequent to initial recognition, receivables are measured at amortised cost using the effective interest method, less any impairment losses.
- ii. **Financial assets at fair value through profit or loss (FVTPL)**
Financial assets that are held within a different business model other than 'hold to collect' or 'hold to collect and sell' are categorised at fair value through profit or loss. Further, irrespective of the business model, financial assets whose contractual cash flows are not solely payments of principal and interest are accounted for at FVTPL. Assets in this category are measured at fair value with gains or losses recognised in profit or loss. The fair values of financial assets in this category are determined by reference to active market transactions or using a valuation technique where no active market exists.
- iii. **Amounts payable and other accrued liabilities**

Such financial liabilities are recognised initially at fair value, net of any directly attributable transaction costs. Subsequent to initial recognition, these financial liabilities are measured at amortised cost using the effective interest method if significant.

f) Exploration and Evaluation Assets

Mineral exploration, evaluation, and acquisition costs are expensed as incurred based upon each area of interest. Where a decision has been made to proceed with development in respect of a particular area of interest, all future costs are recorded as a development asset.

g) Impairment of Plant and Equipment

At the end of each reporting period, the carrying amounts of the Company's plant and equipment are reviewed to determine whether there is any indication that those assets are impaired. If any such indication exists, the recoverable amount of these assets is estimated in order to determine the extent of the impairment, if any. The recoverable amount is determined as the higher of the fair value less costs to sell for the asset and the asset's value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time-value-of-money and the risks specific to the asset. If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount and the impairment loss is recognised within profit or loss for the period. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash generating unit to which the asset belongs.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit) is increased to the revised estimate of its recoverable amount, but to an amount that does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

h) Plant and Equipment

The cost of all plant and equipment is stated at historical cost less depreciation and impairment charges. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Assets are depreciated over their estimated useful service lives using the straight-line method as follows:

Office equipment	4 years
Plant and equipment	3 years
Motor vehicles	4 years

i) Stock-based Compensation

The fair value of share purchase options or warrants granted is determined by the Black-Scholes option pricing model using estimates for the volatility of the trading price of the Company's stock, the expected lives of share purchase options awarded, the fair value of the Company's shares and the risk-free interest rate.

For employees, the fair value of the options is measured at the date of the grant. For non-employees, the fair value of the options is measured on the earlier of the date on which the counterparty performance is complete or the date the performance commitment is reached or the date at which the equity instruments are granted if they are fully vested and non-forfeitable. The estimated fair value of awards of share purchase options is charged to expense over the vesting period, with offsetting amounts to equity. If the share purchase options are granted for past services, they are expensed immediately. If the share purchase options are forfeited prior to vesting, no amounts are charged to expense. If share purchase options are exercised, then the fair value of the options is reclassified from stock-based compensation reserve to share capital.

At each reporting date, the amount recognised as an expense is adjusted to reflect the actual number of share purchase options or warrants that are expected to vest. The corresponding entry is recognised in the stock-based compensation reserve.

j) Basic and Diluted Earnings/Loss per Share

The Company presents basic and diluted earnings/loss per share data for its common shares, calculated by dividing the result attributable to common shareholders of the Company by the weighted average number of common shares outstanding during the period. Diluted earnings per share does not adjust the profit or loss attributable to common shareholders or the weighted average number of common shares outstanding when the effect is anti-dilutive.

k) Share Warrants

In accordance with IFRS, an obligation to issue shares for a price that is not fixed in the Company's functional currency, and that does not qualify as a rights offering, must be classified as a derivative liability and measured at fair value through profit or loss in accordance with the requirements of IAS 32 Financial Instruments: Presentation. The financial liability will be accounted for at fair value through profit or loss until such time that the warrants are exercised or lapse, at which point the liability will be transferred to equity.

l) Income Taxes

Income tax on the profit or loss for the period presented comprises current and deferred tax. Income tax is recognised in profit or loss except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax expense is the expected tax payable on the taxable income for the year, using tax rates enacted or substantively enacted at year end, adjusted for amendments to tax payable with regards to previous years.

Deferred tax is provided for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: goodwill not deductible for tax purposes; the initial recognition of assets or liabilities that affect neither accounting nor taxable profit; and differences relating to investments in subsidiaries, associates, and joint ventures to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date applicable to the period of expected realisation or settlement.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised.

m) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker is responsible for allocating resources and assessing performance of the operating segments. Refer to note 13 for further information.

n) Critical Estimates and Judgements

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continually evaluated and are based on management experience and other factors, including expectations about future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Information about significant areas of estimation uncertainty considered by management in preparing the financial statements is described below.

Measurement of warrants and stock options

The Company determines the fair value of both warrants and options classified as liabilities at fair value through profit or loss using the Black-Scholes Model. Note 7 provides detailed information about the key assumptions used in the determination of the fair value of options and warrants.

6. INVESTMENT IN ASSOCIATE

The Company has determined that it has significant influence over Joint Venture BFI Inc., a joint venture focussed on the exploration and evaluation of the Karankasso Project (“the Project”) in Burkina Faso, as it holds 17.45% (2025: 17.45%) of the voting power as well as holding 2 out of the 4 Board positions. The Company’s interest is accounted for using the equity method in the consolidated financial statements. Summarised financial information of the joint venture, based on IFRS financial statements, and a reconciliation with the carrying amount of the investment in the condensed interim consolidated financial statements are set out below. The Company has not made any additional contributions during the period ended March 31, 2026.

Sarama Resources Ltd

Notes to the Consolidated Financial Statements
Expressed in United States Dollars unless otherwise stated

Gold project in Western Australia. The warrants were issued at an exercise price of A\$0.05 expiring on December 5, 2026, at a fair value of \$27,216 (A\$42,269).

The fair value of the acquisition warrants are recognised within the share-based payments reserve, within the equity section of the financial statements, in accordance with IFRS 2.

The fair value of shareholder warrants are recognised as a derivative liability in the financial statements in accordance with IAS 32. As the exercise price of the warrants is denominated in Australian dollars ("AUD"), which is different from the Company's functional currency (United States dollars ("USD")), the warrants do not meet the "fixed-for-fixed" criteria under IAS 32, Financial Instruments: Presentation. Consequently, the warrants are classified as a derivative financial liability.

The derivative liability was initially measured at its fair value on the date of issuance and is subsequently re-measured at each reporting date. Unrealized gains and losses arising from the re-measurement are recognized in the consolidated statement of loss and comprehensive loss.

The following table illustrates the changes in the derivative liability for the year:

	Number of Warrants issued in CAD	Number of Warrants issued in AUD	Carrying amount in USD
Balance – December 31, 2024	-	26,666,666	49,379
Warrants Issued		30,000,000	230,603
Warrants Expired	-	-	-
Changes in fair value of derivative liability	-	-	207,146
Balance – December 31, 2025	-	56,666,666	487,128
Warrants Issued		-	-
Warrants Expired	-	-	-
Changes in fair value of derivative liability	-	-	(96,004)
Balance – March 31, 2026	-	56,666,666	391,124

The fair value of the derivative warrant liability as at March 31, 2026, and at issuance was estimated using the Black-Scholes option pricing model with the following weighted average assumptions:

	March 31, 2026	At issuance
Risk-free interest rate	4.56%	2.92 - 4.22%
Volatility	81%	46 - 64%
Expected life	0.2 to 2.7 years	3 to 4 years
Expected dividend yield	0%	0%

Sarama Resources Ltd
An Exploration Stage Company
Notes to the Consolidated Financial Statements
Expressed in United States Dollars unless otherwise stated

The fair value of the warrants recognised in the financial statements has been estimated using the Black-Scholes Option-Pricing Model at inception with the following assumptions:

Warrant issue	Price of Security on issue date	Risk – free interest rate	Expected dividend yield	Expected stock price volatility	Remaining warrant life
Broker Warrants issued October 7, 2025	A\$0.03	2.92%	0%	85%	32 months
Shareholder Warrants issued October 7, 2025, and October 21, 2025	A\$0.03	2.92%	0%	85%	32 months
Broker Warrants issued February 10, 2025	A\$0.03	2.98%	0%	54%	32 months
Shareholder Warrants issued February 10, 2025	A\$0.03	2.98%	0%	54%	32 months
Acquisition Warrants issued December 5, 2024	A\$0.03	3.03%	0%	55%	8 months
Shareholder Warrants issued June 21, 2023	A\$0.08	4.22%	0%	62%	3 months
Shareholder Warrants issued June 14, 2023	A\$0.08	4.15%	0%	61%	3 months
Shareholder Warrants issued April 13, 2023	A\$0.12	3.59%	0%	64%	1 months

(d) Company Stock Option Plan

The Company has a stock option plan (the “**Plan**”) that provides for the issuance of up to 10% of the issued and outstanding shares of the Company. The board of directors is authorised to set the exercise price, expiry date, and vesting provisions for each grant, subject to the policies of the TSX Venture Exchange. The plan provides for a maximum grant period of ten years. Options can be exercised at any time prior to their expiry date.

Stock option transactions are summarized as follows:

	Number of Options	Weighted Average Exercise Price (A\$)
Balance – December 31, 2024	19,431,664	0.10
Granted	4,550,000	0.04
Expired	(2,721,665)	0.22
Balance – December 31, 2025	21,259,999	0.07
Granted	-	-
Expired	-	-
Balance – March 31, 2026	21,259,999	0.07

As at March 31, 2026 the following stock options were outstanding and exercisable:

Grant Date	No.	Exercise Price	Expiry Date
April 20, 2023 (fully vested)	6,809,999	A\$0.16	April 20, 2026
July 23, 2024 (fully vested)	9,900,000	A\$0.03	July 23, 2027
April 2, 2025 (fully vested)	4,550,000	A\$0.04	April 2, 2028
	21,259,999		

No options were granted in the period ended March 31, 2026 (period ended March 31, 2025: Nil).

No options were exercised in the period ended March 31, 2026 (December 31, 2024: Nil).

(e) Equity Incentive Plan

The Company has an equity incentive plan that provides for the issuance of equity incentives, together with any other security-based compensation arrangements, of up to 10% of the issued and outstanding shares at any time. The Board of directors is authorised to determine which directors, officers, employees or consultants are eligible

Sarama Resources Ltd
An Exploration Stage Company
Notes to the Consolidated Financial Statements
Expressed in United States Dollars unless otherwise stated

to receive equity incentives ('Awards') under the Equity Incentive Plan; determine conditions under which Awards be granted, vested or exercised, including the expiry date, exercise price and vesting schedule of the Equity Incentives, and determine the number of Shares to be covered by any Award. Details are as follows:

Grant Date	Restricted Share Units ("RSUs")		Performance Share Units ("PSUs")	
	Outstanding	Vested	Outstanding	Vested
April 11, 2025	2,310,000	-	9,240,000	-

The Awards are subject to the following vesting conditions:

Vesting Condition	Expiry Date of Vesting Condition	Number of incentives
No lost time injuries at any of the Company's projects	11 April 2026	1,155,000
20 day VWAP reaches a minimum of A\$0.06/share for a continuous period of 10 trading days	11 April 2028	4,042,500
Drill program returns 3 or more downhole intersection of a minimum of 20gm gold at the Cosmo Project or Mt Venn Project, with a minimum cut-off grade of 0.5 grams per tonne of gold and a minimum intercept length of 1 metre.	11 April 2028	1,155,000
The announcement of a Maiden Mineral Resource Estimate in accordance with the JORC Code of 200,000 ounces of gold at a 0.5g/t gold cut off of at least the Inferred category.	11 April 2028	2,887,500
Continuous service of 18 months from date of grant	11 October 2026	2,310,000

RSUs

Each RSU is redeemable into one common share of the Company.

During the year ended December 31, 2025, the Company granted 2,310,000 RSUs at an average fair value of A\$0.029 each to employees of the Company. The RSUs will vest upon continuous service eighteen months after the grant date.

During the period ended March 31, 2026, no (March 31, 2025 – nil) RSUs were redeemed for an equal number of common shares of the Company, and no (March 31, 2025 – nil) unvested RSUs were forfeited.

Sarama Resources Ltd
An Exploration Stage Company
Notes to the Consolidated Financial Statements
Expressed in United States Dollars unless otherwise stated

PSUs

Each PSU is redeemable into one common share of the Company.

During the year ended December 31, 2025, the Company granted 9,240,000 PSUs at an average fair value of A\$0.027 each to employees of the Company. The PSUs will vest upon meeting certain conditions as follows;

- twelve months after the grant date (1,155,000 PSUs)
- within three years after the grant date (8,085,000 PSUs)

During the period ended March 31, 2026, no (March 31, 2025 – nil) PSUs were redeemed for an equal number of common shares of the Company, and no (March 31, 2025 – nil) unvested PSUs were forfeited.

(f) Stock-Based Compensation

The following table summarizes stock-based compensation expense by unit type:

	March 31, 2026	March 31, 2025
	\$	\$
Stock Options	-	-
Restricted share units	8,101	-
Performance share units	11,639	-
Total stock-based compensation	19,740	-

8. FINANCIAL INSTRUMENTS

The Company is exposed to financial risks through the normal course of its business operations. The key risks impacting the Company's financial instruments are considered to be foreign currency risk, interest rate risk, liquidity risk, credit risk and equity price risk. The Company's financial instruments exposed to these risks are cash and short-term deposits, receivables, trade payables and investments in foreign operations.

The executive management team monitors the financial instrument risk to which it is exposed and assesses the impact and likelihood of those risks on an ongoing basis. Where material, these risks are reported and reviewed by the board of directors.

(a) Fair Values

The fair value of the Company's financial instruments approximates their carrying values due to the immediate or short-term maturity of these financial instruments. The Company's financial assets and liabilities are measured and recognised at fair value as at March 31, 2026 according to the following fair value measurement hierarchy:

- (a) quoted prices (unadjusted) in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities (level 1),
- (b) quoted prices in markets that are not active, or inputs that are observable, either directly or indirectly, for substantially the full term of the asset or liability (level 2), and
- (c) prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable (supported by little or no market activity) (level 3).

(b) Financial Instrument Risk Exposure

Foreign currency risk

The Company has international operations in Australia, West Africa, namely Burkina Faso, and an administrative office in Western Australia. The multiple locations expose the Company to foreign exchange risk as detailed below:

- Canadian dollar (CAD) – primary source of Company funding and its corporate and regulatory costs.
- Australian dollar (AUD) – administrative costs in Western Australia.
- Euro and Communauté Financière Africaine Francs (CFA) – funding of African operations.

For personal use only

Sarama Resources Ltd
An Exploration Stage Company
Notes to the Consolidated Financial Statements
Expressed in United States Dollars unless otherwise stated

Management's policy is to actively manage foreign exchange risk. Management mitigates foreign exchange risk by continuously monitoring forecasts and spot prices of foreign currency and holding foreign currency based on expected future expenditure commitments.

The carrying amounts of the Company's financial assets and liabilities are denominated in USD, except as set out below:

	As at March 31, 2026		
	AUD	CAD	Euro
	\$	\$	€
Cash and cash equivalents	387,889	32,223	1,117
Payables	903,714	262,039	10,066

	As at December 31, 2025		
	AUD	CAD	Euro
	\$	\$	€
Cash and cash equivalents	1,234,765	4,588	30,630
Payables	1,007,822	267,247	26,418

Sensitivity

Based on the financial instruments held as at March 31, 2026, had the US dollar weakened/strengthened by 10% against the AUD, CAD or Euro, with all other variables held constant, the Company's losses/gains for the period would have been mainly as a result of foreign exchange gains/losses in translation of foreign denominated currencies. The following table summarises the sensitivity of the Company's cash and cash equivalents to changes in foreign exchange rates.

The Company's exposure to other foreign exchange movements is not material.

	As at March 31, 2026		
	AUD	CAD	Euro
	\$	\$	€
USD Strengthened by 10%	32,220	14,995	936
USD Weakened by 10%	(39,379)	(18,328)	(1,144)

	As at December 31, 2025		
	AUD	CAD	Euro
	\$	\$	€
USD Strengthened by 10%	(75,000)	(304)	(3,269)
USD Weakened by 10%	91,667	372	3,995

Credit risk

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss. Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalents and accounts receivable.

The Company has reduced its credit risk by holding all of its cash and cash equivalents with an Australian financial institution, whose Moody's Investor Service rating is Aa2, except for working capital requirements in West Africa.

Liquidity risk

Ultimate responsibility for liquidity risk rests with the Board of Directors, who oversee a liquidity risk management framework for the management of the Company's funding and liquidity requirements.

For personal use only

The Company manages liquidity risk by continuously monitoring forecast and actual cash flows and ensuring there are adequate funds available to meet its operating and growth objectives. The Company relies on issuance of shares to fund exploration programs and will most likely issue additional shares in the future.

Interest rate risk

The Company is exposed to interest rate risk as entities in the Company deposit funds at both short-term fixed and floating rates of interest. Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate due to changes in market interest rates. Cash bears interest at variable rates. The fair value of cash approximates its carrying value due to the immediate or short-term maturity of this financial instrument.

Other current financial assets and liabilities are not exposed to interest rate risk because they are non-interest bearing.

Price risk

The Company is exposed to price risk with respect to commodity prices. Commodity price risk is defined as the potential adverse impact on earnings and economic value due to commodity price movements and volatilities. The Company closely monitors the commodity prices of precious metals and the stock market to determine the appropriate course of action to be taken by the Company.

9. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern and to maintain a flexible capital structure which optimises the costs of capital at an acceptable risk.

The Company manages its capital structure and makes adjustments to it in accordance with the objectives stated above, as well as responding to changes in economic conditions and the risk characteristics of the underlying assets. There were no changes in the Company's approach to capital management during the period ended March 31, 2026. Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the company, is reasonable. The Company is not subject to externally imposed capital requirements.

The properties in which the Company currently has interests are in the exploration stage. As such, the Company does not recognise revenue from its exploration properties. The Company's historical source of capital has consisted of the issue of equity securities, options and warrants. In order for the Company to carry out planned exploration and development and pay for administrative costs, the Company will spend its working capital and expects to raise additional amounts externally as needed.

The Company is exposed to various funding and market risks which could curtail its access to funds.

10. SUBSIDIARIES

The condensed interim consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 2:

14. ACCOUNTS PAYABLE & ACCRUED LIABILITIES

	March 31, 2026	December 31, 2025
	\$	\$
Accounts payable	242,267	349,150
Directors' fees	25,395	24,695
Deferred salaries	545,080	542,179
Annual leave entitlements	360,587	341,767
	<u>1,173,329</u>	<u>1,257,791</u>

Deferred salaries and annual leave entitlement (together “employee entitlements”) relate to 3 key management personnel, and each have agreed a contract variation to their employment agreement whereby:

- i) if an employment contract is terminated, the employee will not enforce immediate payment of their employee entitlements.
- ii) the variation remains in place until January 1, 2027.
- iii) in the event this employment agreement is terminated by either party prior to January 1, 2027, the employee agrees to convert any employee entitlements payable into an unsecured loan from the Company with interest accrued based on 90 day bank bill swap rate plus 8%.
- iv) if the Company is subject to a change of Control event, the loan becomes due and payable immediately.
- v) In the event a Change of Control event occurs this variation terminates immediately.

15. ARBITRATION PROCEEDINGS – LITIGATION FUNDING

In October 2024, the Company advised that it had entered into a Litigation Funding Agreement (“LFA”) with Locke Capital II LLC, an arm’s length party that specializes in providing funding for dispute resolution (the “Funder”) to commence international arbitration proceedings in relation to its investment dispute (the “Dispute”) with the Government of Burkina Faso. (refer announcement October 24, 2024)

The LFA provides a four-year non-recourse loan facility (“Facility”) of US\$4.4 million to the Company to cover all fees and expenses related to its Claim to Arbitration (the “Claim”). If there is no settlement or award (or no default by Sarama under the LFA), the Company does not have an obligation to repay the loan. In the event of the occurrence of a material adverse change under the LFA, the Funder shall be entitled to recover only those funds which were advanced but remain unspent.

The Company has engaged Boies Schiller Flexner (UK) LLP (“BSF”), a leading international law firm, to assist with legal matters pertaining to the Dispute. The costs incurred by BSF are presented to the Company for approval prior to being submitted for payment by the Funder.

16. SUBSEQUENT EVENTS

On April 21, 2026, the Company announced it had entered into a binding Share Sale Agreement (“SSA”) with Riedel Resources Ltd (“Riedel”) (ASX:RIE) to sell its Cosmo and Mt Venn Projects (the “Projects”) in exchange for a combination of equity consideration and the payment of certain project-related expenses (the “Transaction”).

Pursuant to the SSA, Riedel will acquire Sarama’s interest in the Projects through the acquisition of a 100% interest in Sarama’s wholly-owned subsidiary, Yikarri Resources Pty Ltd for consideration comprising equity in Riedel and payment of certain project-related expenses on Sarama’s behalf as follows:

- issuance of 150 million shares in Riedel to Sarama (or its nominee);
- issuance of 100 million performance rights in Riedel to Sarama (or its nominee) across four tranches vesting upon the achievement of certain exploration, mineral resource and share price milestones; and
- payment of project-related costs that are incurred by Sarama, capped at A\$300,000 (excluding GST).

Completion is targeted for June 2026, subject to the satisfaction of certain conditions precedent, including (amongst others) Riedel shareholder approval.
