**INTERIM CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS**

FOR THE THREE MONTHS ENDED

MARCH 31, 2026 AND 2025

(UNAUDITED - EXPRESSED IN CANADIAN DOLLARS)

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying interim condensed consolidated financial statements of Laramide Resources Ltd. were prepared by management in accordance with International Financial Reporting Standards. The most significant of these standards have been set out in the December 31, 2025 audited consolidated financial statements and in the Note 2 of these interim condensed consolidated financial statements. Any applicable changes in accounting policies have also been disclosed in these consolidated financial statements. Management acknowledges responsibility for the preparation and presentation of the consolidated financial statements, including responsibility for significant accounting judgments and estimates and the choice of accounting principles and methods that are appropriate to the Company's circumstances.

The Board of Directors is responsible for ensuring management fulfills its financial reporting responsibilities and for reviewing and approving the unaudited financial statements together with other financial information. The Audit Committee assists the Board of Directors in fulfilling this responsibility. The Audit Committee meets with management to review the internal controls over the financial reporting process and the interim condensed consolidated financial statements together with other financial information of the Company. The Audit Committee reports its findings to the Board of Directors for its consideration in approving the financial statements together with other financial information of the Company for issuance to the shareholders.

Management recognizes its responsibility for conducting the Company's affairs in compliance with established financial standards, and applicable laws and regulations, and for maintaining proper standards of conduct for its activities.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Management is responsible for establishing and maintaining adequate control over its financial reporting. Management conducted an evaluation of the effectiveness of internal control over financial reporting based on "Internal Control Over Financial Reporting Guidance for Smaller Public Companies" issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that the Company's internal control over financial reporting was effective as at March 31, 2026.

CONCLUSION RELATING TO DISCLOSURE CONTROLS AND PROCEDURES

An evaluation was performed under the supervision and with the participation of management, including the Chief Executive and Chief Financial Officers, of the effectiveness of the Company's disclosure controls and procedures as defined in the National Instrument 52-109. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the design and operation of the Company's disclosure controls and procedures were effective as at March 31, 2026.

NOTICE TO READER

Under National Instrument 51-102, Part 4, subsection 4.3(3)(a), if an auditor has not performed a review of the financial statements, they must be accompanied by a notice indicating that the financial statements have not been reviewed by an auditor.

The accompanying financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of financial statements by an entity's auditor.

NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED - EXPRESSED IN CANADIAN DOLLARS)
Three Months Ended March 31, 2026 and 2025

1. NATURE OF OPERATIONS

Laramide Resources Ltd. (the "Company" or "Laramide") is a publicly traded company incorporated in Canada and listed on the Toronto Stock Exchange and the Australian Securities Exchange under the symbol "LAM" and, starting on August 17, 2021, on the OTCQX Market in the United States under the symbol "LMRXF". The Company is involved in the exploration and development of mineral properties in Australia and the United States of America (USA). The mineral properties of Laramide are all in the exploration stage. Laramide's registered office address is 130 King Street West, Suite 3680, Toronto, Ontario, M5X 1B1, Canada.

On May 13, 2026, the Board of Directors approved the interim condensed consolidated financial statements for the periods ended March 31, 2026 and 2025.

2. BASIS OF PREPARATION

Statement of Compliance

These interim condensed consolidated financial statements have been prepared in accordance with International Accounting Standards ("IAS") 34 *Interim Financial Reporting* and do not include all the information required for full annual financial statements by International Financial Accounting Standards ("IFRS") as issued by International Accounting Standards Board ("IASB").

These financial statements should be read in conjunction with the Company's audited consolidated financial statements for the years ended December 31, 2025 and 2024 which include the information necessary or useful to understanding the Company's business and financial statement presentation. In particular, the Company's material accounting policies are presented as Note 3 in the audited consolidated financial statements for the years ended December 31, 2025 and 2024, and have been consistently applied in the preparation of these financial statements.

Principles of Consolidation

The interim condensed consolidated financial statements include all entities over which the Company has control. For accounting purposes, control is established by an investor when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company, and are no longer consolidated on the date control ceases.

The interim condensed consolidated financial statements include the accounts of the Company, its wholly owned U.S. subsidiaries, Laramide La Sal Inc., Laramide Resources (USA) Inc. and NuFuels Inc.; its wholly owned Australian subsidiaries, Lagoon Creek Resources Pty Ltd., Westmoreland Resources Pty Ltd. and Tackle Resources Pty Ltd and, at December 31, 2025, Aral Resources Ltd. ("Aral") a controlled entity located in the Republic of Kazakhstan with no share capital.

Effective January 20, 2026, Laramide no longer has control on the Aral operating policies; accordingly, Laramide derecognized the related assets and liabilities of Aral at that date, as described in Note 19. The consolidated comparative figures of the Company at December 31, 2025 includes Aral.

Intercompany balances and any unrealized gains and losses or income and expenses arising from intercompany transactions are eliminated in preparing the interim condensed consolidated financial statements.

LARAMIDE RESOURCES LTD.
NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED - EXPRESSED IN CANADIAN DOLLARS)
Three Months Ended March 31, 2026 and 2025

2. BASIS OF PREPARATION (Continued)

Basis of Measurement

The interim condensed consolidated financial statements are presented in Canadian dollars which is also the functional currency of the parent, Laramide Resources Ltd., located in Canada. The functional currencies of the Australian and the U.S. subsidiaries are the Australian dollar and US dollar, respectively. The functional currency of Aral Resources Ltd. is the Kazakhstani Tenge.

The interim condensed consolidated financial statements are prepared on the historical cost basis except the following assets and liabilities, which are stated at their fair value: financial assets and financial liabilities classified as fair value through profit and loss (FVTPL) and financial instruments classified as fair value through other comprehensive income (FVTOCI).

The accounting policies set out below have been applied consistently to the years presented in the interim condensed consolidated financial statements, except where noted.

Foreign Currency Translation

Foreign currency transactions are initially translated into the functional currency at the transaction date exchange rate. At each period end, monetary assets and liabilities denominated in a foreign currency are translated into the functional currency at the balance sheet date's exchange rate and non-monetary assets and liabilities at the historical rate. These foreign currency adjustments are recognized in net loss of the interim condensed consolidated statement of operations.

Financial statements of the Australian and U.S. subsidiaries and of the controlled entity located in Kazakhstan, for which the functional currency is not the Canadian dollar are translated to Canadian dollar, as this is the presentation currency, as follows: all asset and liability accounts are translated at the balance sheet date's exchange rate and all earnings and expense accounts and cash flow statement items are translated at average exchange rates for the period. The resulting translation gains and losses are recorded as foreign currency translation adjustments in other comprehensive income (loss).

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, foreign currency gains and losses arising from such item are considered to form part of a net investment in the foreign operation and are recognized in other comprehensive income (loss).

3. ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of interim condensed consolidated financial statements requires the Company's management to make certain estimates and assumptions that they consider reasonable and realistic. Despite regular reviews of these estimates and assumptions, based in particular on past achievements or anticipations, facts and circumstances may lead to changes in these estimates and assumptions which could impact the reported amount of the Company's assets, liabilities, equity or earnings.

The interim condensed consolidated financial statements reflect the accounting estimates and judgements outlined by the Company in its audited consolidated financial statements for the years ended December 31, 2025 and 2024.

These estimates, assumptions and judgements notably relate to the following items:

Assessment of impairment indicators and valuation of mineral properties and related deferred costs - Management uses significant judgement in determining whether there is any indication that mineral properties may be impaired. Significant judgements and estimates include the market pricing and market conditions for uranium based on the global demand, assessment of the Company's market

3. ACCOUNTING ESTIMATES AND JUDGEMENTS (Continued)

capitalization, management plans, inventory and production, the Company's ability to obtain additional financing, the political environment in Australia, negotiation with aboriginal groups or local populations affecting our efforts to explore, develop, or produce uranium deposits, assessment of commercially viable quantities of mineral resources and the ability to defer tenement spending requirements and/or reach commercial milestones. Although the Company has taken steps to verify title to the properties on which it is conducting exploration and in which it has an interest, in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements, unregistered claims, aboriginal claims and non-compliance with regulatory and environmental requirements.

Stock-based payment, derivative liability and warrants - The Company utilizes the Black-Scholes option pricing model to determine the fair values of the stock-based payments, derivative liabilities and warrants. The Company uses significant judgement in the evaluation of the input variables in the Black-Scholes calculation which includes: risk free interest rate, expected stock price volatility, expected life, expected dividend yield and forfeiture rate.

Debt modification - From time to time, the Company pursues amendments to its credit agreements based on prevailing market conditions. Such amendments, when completed, are considered by the Company to be debt modifications or extinguishments based on management's assessment of whether the modification is substantial.

Going concern assessment - The Company has exercised significant judgement in determining no going concern uncertainties are applicable to the Company.

Amount recoverable on deconsolidation - The Company has exercised significant judgement in determining the amount of prepaid expenses that can be recovered from the supplier of the deconsolidated entity.

4. BUSINESS SEGMENT DATA

The Company has one operating segment and operates in the mining, exploration and development business and has operations in Canada, the USA and Australia. The comparative period includes the operations in Kazakhstan which is no longer controlled by the Company. The Company's Board of Directors evaluates the performance of these geographical locations and allocates resources based on certain measures.

The information based on the geographical location of the assets is as follows:

	\$ 0.77	750,000	933,500	-	-	1,683,500

At March 31, 2026 the weighted average life is 1.4 years (December 31, 2025 - 1.7 years).

In connection to the non-brokered private placement closed on July 31, 2025, the Company issued 933,500 broker warrants which entitles to holders to acquire one common share at a price of \$0.60 with an expiration date of July 31, 2027. The fair value of \$168,853 assigned to the warrants was estimated using the Black-Scholes option pricing model with the following assumptions: share price \$0.52, dividend yield 0%, expected volatility based on historical volatility 69.1%, an annual risk free interest rate of 2.79% and an expected maturity of 2 years.

14. STOCK-BASED COMPENSATION

The Company has a stock option plan (the "Plan") in place under which it is authorized to grant options to acquire shares of the Company to directors, officers, consultants and other key employees of the Company. The number of common shares subject to options granted under the Plan is limited to 10% in the aggregate, and 5% with respect to any one optionee, of the number of issued and outstanding common shares of the Company at the date of the grant of the option. The exercise price of any option granted under the Plan may not be less than the fair market value of the common shares at the time the option is granted, less any permitted discount. Options issued under the Plan may be exercised during a period determined by the board of directors which cannot exceed five years. The plan does not require any vesting period and the board of directors may specify a vesting period on a grant by grant basis. As at March 31, 2026, the Company has 16,290,328 (December 31, 2025 – 16,287,036) options available for issuance under the plan. See subsequent granting of stock options in Note 20.

As at March 31, 2026, the outstanding options to acquire common shares of the Company are as follows:

	Number of Options	Exercise Price	Expiry Date
	5,100,000	0.80	June 1, 2026
	1,000,000	0.65	July 25, 2027
	5,975,000	0.77	October 28, 2027
	12,075,000	\$ 0.77	

At March 31, 2026 the weighted average life is 0.8 years (December 31, 2025 - 1.1 years).

At March 31, 2026 and December 31, 2025 the outstanding options are fully vested and exercisable. The average fair market value at the exercise date of the options exercised in the comparative period was \$0.60 per share.

During the comparative period, \$143,692 of stock-based compensation was capitalized to mineral properties and related deferred costs and \$465,144 was expensed to operations. The offsetting charge pertaining to the recognition of the fair value of options vesting during the comparative period of \$608,836 was allocated to contributed surplus.

15. RELATED PARTY TRANSACTIONS

During the period, \$7,629 (2025 - \$12,457) was charged by a law firm in which an officer of the Company is a partner. At March 31, 2026 there is \$8,621 (December 31, 2025 - \$56,408) payable to the firm.

At March 31, 2026, there is \$49,705 of unpaid directors' fees (December 31, 2025 - \$48,550).

17. COMMITMENTS AND CONTINGENCIES

Commitments and contingencies not otherwise disclosed in these statements and notes are as follows:

a) **COMMITMENTS**

Exploration Tenement Expenditure Requirements

In order to maintain current rights to tenure of exploration tenements, the Company will be required to outlay amounts in respect of tenement rent to the relevant governing authorities and to meet certain annual exploration expenditure commitments. It is likely that variations to the terms of the current and future tenement holdings, the granting of new tenements and changes at renewal or expiry, will change the expenditure commitments for the Company from time to time.

The outlays (exploration, environmental, rent and other expenditures), which arise in relation to granted tenements but not recognized as liabilities, are as follows:

	March 31, 2026	December 31, 2025
Not longer than one year	\$ 764,491	\$ 729,176
Longer than one year but not longer than three years	887,075	938,285
Longer than three years	839,152	800,363
	\$ 2,490,718	\$ 2,467,824

Production fees

The debt agreement with Extract provides Extract a production fee of USD\$0.50 (CAD\$0.72) per pound of U308 produced from any of the projects owned by the Company. The production fee may be repurchased by the Company for \$2 million after the repayment of the debt.

b) **CONTINGENCIES**

i) With respect to the Company's wholly owned Australian subsidiary, Tackle Resources Pty Ltd, no provision has been made for the possibility of native title claim applications at some future time, under the provisions of the Australian Native Title Act (1993), which may impact exploration tenements under application. Any substantiated claim may have an effect on the value of the tenement application affected by the claim. The amount and likelihood of any such claim(s) in the future cannot be reasonably estimated at this time.

ii) During the normal course of the Company's operations, various disputes, legal and tax matters are pending. In the opinion of management involving the use of significant judgement and estimates, these matters will not have a material effect on the Company's interim condensed consolidated financial statements.

iii) The Company's subsidiary, NuFuels, Inc. has been notified by the USEPA that as the current owner, it may be responsible for cleaning up, or otherwise addressing, any contamination that has already occurred at the Old Churchrock Mine Site. The Company is currently working with the USEPA to resolve this matter. Any potential resulting costs are not determinable at this time.

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

Capital Management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral properties. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital to include its working capital position and the capital stock, warrant, and option components of its shareholders' equity.

At March 31, 2026, the Company has a working capital of \$2,615,223 (December 31, 2025 - \$3,681,455). The capital stock, warrants and contributed surplus total \$240,166,845 (December 31, 2025 - \$240,147,090).

To effectively manage the Company's capital requirements, the management has in place planning, budgeting and forecasting processes to help determine the funds required to ensure the Company has the appropriate liquidity to meet its operating and growth objectives. The Company ensures that there is sufficient working capital to meet its short-term business requirements, taking into account its holding of cash and current investments.

At March 31, 2026, the Company expects its capital resources and projected future cash flows from financing to support its normal operating requirements on an ongoing basis, and planned development and exploration of its mineral properties and other expansionary plans.

The properties in which the Company currently has an interest are in the exploration stage; as such the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the three months ended March 31, 2026.

Risk Disclosures

Exposure to credit, interest rate, price, liquidity and currency risks arises in the normal course of the Company's business.

Interest Rate Risk

The Company has no exposure to interest rate cash flow risk in the short and long-term loans arranged with debtors since all of them carried a fixed rate of interest.

Foreign Currency Risk

The Company is exposed to foreign currency risk on financial assets and liabilities that are denominated in a currency other than the Canadian dollar. The currencies giving rise to this risk are the Australian dollar and the US dollar.

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Price Risk

Price risk is the risk that the fair value of financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk) caused by factors specific to a security, its issuer or all factors affecting a market or a market segment. Exposure to price risk is mainly in equities and commodities.

Credit Risk

The Company has cash balance and cash equivalents balance of \$1,641,542 (December 31, 2025 - \$3,869,131). The Company's current policy is to invest excess cash, when available, in investment grade short-term deposit certificates issued by its banking institutions. The Company periodically monitors the investments it makes and is satisfied with the credit ratings of its banks.

Other receivables as of March 31, 2026 of \$363,970 (December 31, 2025 - \$111,488) are in good standing. Management believes that the credit risk concentration with respect to financial instruments included in other receivables is minimal.

Liquidity Risk

The Company is exposed to liquidity risk primarily as a result of its accounts payable and accrued liabilities, short-term loans and current portion of long-term debt. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2026, the Company had a cash and cash equivalents balance of \$1,641,542 (December 31, 2025 - \$3,869,131), and a current investments balance of \$1,441,956 (December 31, 2025 - \$1,470,457) available to settle \$1,263,515 of current liabilities (December 31, 2025 - \$2,203,975).

The following are the undiscounted contractual maturities for the Company's obligations:

March 31, 2026	Carrying Amount	Contractual Cash Flow	Less Than One Year	1 - 2 years

Sensitivity Analysis

In managing currency risks the Company aims to reduce the impact of short-term fluctuations on the earnings. Over the longer term, however, permanent changes in foreign exchange would have an impact on interim condensed consolidated earnings.

As at March 31, 2026, the carrying and fair value amounts of the Company's financial instruments are approximately equivalent.

18. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (Continued)

Based on management's knowledge and experience of the financial markets, the Company believes the following movements are "reasonably possible" over a twelve-month period.

- i) The Corporation is exposed to foreign currency risk on fluctuations of financial instruments that are denominated in US and Australian dollars related to cash, accounts receivable, investments, accounts payable and accrued liabilities and short and long-term debt. Sensitivity to a plus or minus 10% change in the foreign exchange rate would affect the net comprehensive income by \$92,637.
- ii) The Company is exposed to market and price risk as it relates to its investments held in marketable securities. If market prices had varied by 10% from their March 31, 2026 fair market value positions, the net comprehensive income would have varied by \$144,196.

Fair Value Hierarchy

The following summarizes the methods and assumptions used in estimating the fair value of the Company's financial instruments where measurement is required. The fair value of short-term financial instruments approximates their carrying amounts due to the relatively short period to maturity. These include cash and investments and accounts payable. The fair value of short and long-term debt approximates their carrying amount due to the interest rate being close to the market rate. Fair value amounts represent point in time estimates and may not reflect fair value in the future. The measurements are subjective in nature, involve uncertainties and are a matter of significant judgment. The methods and assumptions used to develop fair value measurements, for those financial instruments where fair value is recognized in the balance sheet, have been prioritized into three levels as per the fair value hierarchy. Level one includes quoted prices (unadjusted) in active markets for identical assets or liabilities. Level two includes inputs that are observable other than quoted prices included in level one. Level three includes inputs that are not based on observable market data; the Company has included in this classification its investments in warrants and no quoted value shares, as described in Note 7.

March 31, 2026	Level One	Level Two	Level Three
Investments (Note 7)	\$ 1,304,748	\$ -	\$ 137,208

December 31, 2025	Level One	Level Two	Level Three
Investments	\$ 925,813	\$ -	\$ 544,644

There have been no transfers between levels 1, 2 or 3 during the periods.

19. DECONSOLIDATION OF ARAL RESOURCES LTD.

On January 20, 2026, Laramide terminated its Option Agreement with Aral Resources Ltd. ("Aral"), the owner of the Chu-Sarysu Project in Kazakhstan; as a consequence, Laramide ceased to be the operator of the Project and no longer has control on the operating policies of Aral; accordingly, Laramide derecognized the related assets and liabilities of Aral at that date.

Laramide did not receive any consideration in the deconsolidation. The final terms of the termination are in progress and are yet to be finalized. As of the date of the filing of these financial statements, management believes there are no further material liabilities for the Company.

The following table summarizes the financial information related to Aral immediately prior to the deconsolidation:

	January 20, 2026
Cash	\$ 638,030
Accounts receivable	42,846
Property, plant and equipment	6,980
Total assets	687,856
Accounts payable and accrued liabilities	(13,279)
Net assets deconsolidated	674,577
Fair value of recoverable assets (i)	250,000
Loss on deconsolidation (ii)	\$ (424,577)

(i) The recoverable assets represent the amount of certain prepaid expenses that the Company estimates to receive from a supplier; it is presented in the accounts receivable and prepaid expenses account of the interim condensed consolidated balance sheet and in Note 6.

(ii) The loss on deconsolidation is reported in the interim condensed consolidated statement of operations of the current period.

The net cash outflow arising from Aral deconsolidation is \$638,030 which is the balance of the deconsolidated cash account at that date.

20. SUBSEQUENT EVENTS

- On April 1, 2026, the Company granted a total of 6,050,000 options to directors, officers, employees and consultants to buy common shares at an exercise price of \$0.70 per common share and expiring on April 1, 2029. The options vest 50% at the date of grant and 50% after six months from the date of grant (October 1, 2026).

- Subsequent to the period end, the Company received \$200,000 from the exercise of 250,000 options at an exercise price of \$0.80 each.
