Dear ASX Supervision,

RE: Strickland Metals Limited (ASX:STK): Price Query

We refer to your letter to Strickland Metals Limited (**Strickland** or the **Company**) dated 18 May 2026 titled *Strickland Metals Limited ("STK"): Price and Volume Query*.

We respond to each of your queries as follows:

1. Is STK aware of any information concerning it that has not been announced to the market which, if known by some in the market, could explain the recent trading in its securities?

No, the Company is not aware of any information concerning it that has not already been announced to the market which might explain the recent trading in the Securities of the Company.

2. If the answer to question 1 is "yes":

(a) Is STK relying on Listing Rule 3.1A not to announce that information under Listing Rule 3.1? Please note that the recent trading in STK's securities would suggest to ASX that such information may have ceased to be confidential and therefore STK may no longer be able to rely on Listing Rule 3.1A. Accordingly, if the answer to this question is "yes", you need to contact us immediately to discuss the situation.

Not Applicable.

(b) Can an announcement be made immediately? Please note, if the answer to this question is "no", you need to contact us immediately to discuss requesting a trading halt.

Not Applicable.

(c) If an announcement cannot be made immediately, why not and when is it expected that an announcement will be made?

Not Applicable.

3. If the answer to question 1 is “no”, is there any other explanation STK may have for the recent trading in its securities?

The Company refers to its announcement dated 4 May 2026 regarding exploration activities at the Rogozna Project in Serbia (**4 May Announcement**). In that 4 May Announcement, the Company advised that it was experiencing unexpected delays to the commencement of its exploration drilling program as it had not yet received the required final approvals from the Ministry of Mines and Energy regarding expansion of exploration drilling work plans for the main (Shanac) license, which contains the existing deposits of Gradina, Shanac, Copper Canyon and Medenovac. As at the date of your correspondence, the Company is still awaiting receipt of these approvals from the Ministry of Mines and Energy. The 4 May Announcement also provided an update on the workstreams the Company is looking to progress as it works towards a Mineral Resource upgrade at the Gradina Deposit. The Company intends to provide a further, non-market sensitive announcement later this month to advise on the expected timing for a Mineral Resource upgrade at Gradina.

The Strickland team in Serbia continues focused on carrying out numerous essential field-based activities including environmental rehabilitation, community engagement, hydrogeological studies and environmental baseline studies. The Company has taken a cautious approach to other field activities and plans to continue programs when more expansive activities are approved for recommencement.

More broadly, the Company notes that there is currently heightened political and regulatory uncertainty in Serbia associated with the upcoming election cycle, with mining and resource development policies receiving increased public and political scrutiny. Recent commentary and press coverage have highlighted the Rogozna Project in this broader context of evolving sentiment toward the sector. While the Company continues to cautiously advance its activities in Serbia, broader market sentiment toward companies with exposure to the region may have been impacted by these developments.

The Company also notes the recent decline in the gold price, which has fallen approximately 5% over the past week, and which may have contributed to broader weakness and volatility across the junior gold and exploration sector generally.

4. Please confirm that STK is complying with the Listing Rules and, in particular, Listing Rule 3.1.

We confirm that the Company is, and remains in compliance with the Listing Rules and, in particular, Listing Rule 3.1.

5. Please confirm that STK’s responses to the questions above have been authorised and approved under its published continuous disclosure policy or otherwise by its board or an officer of STK with delegated authority from the board to respond to ASX on disclosure matters.

The Company’s responses to the questions above have been authorised and approved in accordance with the Company’s Continuous Disclosure Policy or otherwise by its board or an officer of Strickland with delegated authority from the board to respond to ASX on disclosure matters.

Yours faithfully
