SIETEL LIMITED
DIRECTORS' REPORT FOR THE HALF YEAR ENDED 31 MARCH 2026

The directors of the Company in office at the date of this report are:
Richard Rees, Geoffrey Lloyd Rees and Thomas Rees.

It is recommended that the half-year financial report be read in conjunction with the annual report for the year ended 30 September 2025 and considered together with any public announcements made by Sietel Limited during the half-year ended 31 March 2026 and to the date of this report in accordance with the continuous disclosure obligations of the ASX listing rules.

REVIEW OF OPERATIONS

The majority of investment properties owned by the Chief Entity were tenanted during the year, however one small office premises and one industrial warehouse have been unoccupied. Re-letting has proved difficult with continued high interest rates and general economic conditions impacting small to medium businesses. Two other existing tenants have indicated they will not be seeking to renew their leases and have entered in negotiations to reach a financial settlement to release themselves from the balance of their current lease terms of 13 months and 53 months.

Cook's Body Works Pty Ltd, continued to occupy one of the Chief Entity's properties in the Moorabbin area.

Cook's Body Works Pty Ltd has had to face difficult trading conditions with reducing demand for its products, as the transport and logistics industry experience excessive capacity.

Cook's management have continued to work on expansion of the customer base and product offering plus efficiency improvements to maintain turnover and margins. However, supply disruptions and the shortage of suitable candidates to fill vacancies has continued to restrict the businesses' ability to fully capitalise on their product and production improvements.

The Company's management assisted, by the Chairman, have reviewed various investment options in the real estate, equities, direct investment and product development markets over the half year with the objective of improving the medium to long term performance of the group.

The directors continue to review the balances of investment fund allocation between cash equivalents and longer-term investments such as equities, real estate and operating businesses via subsidiary companies with the objective of achieving long term profitable performance but realising current gains as opportunities arise.

The portfolio of unlisted investments represented by startups and new technology companies have underperformed reflecting the general difficulties being confronted by new businesses to attract capital, advance their projects and convert their products to a cash flow positive stage.

The directors have continued the policy of reviewing all these unlisted investments and revaluing or impairing them as considered appropriate. In the current six months, an impairment loss of \$511,002 (2025 impairment loss of \$320,000) has been deducted against the profit in the Statement of Profit and Loss.

DIRECTORS' REPORT (cont.)

REVIEW OF OPERATIONS (cont.)

The subsidiary, Alliance Appliances Australia Pty Ltd has continued to design and develop products for manufacture by third party offshore manufacturers and commence small scale importation and distribution of a very limited range of domestic gas water heaters into the Australian market. The operation has been restricted by the impact of environmental groups supported by government's moves which have been unfavourable to the gas industry and largely supported new products and operators based significantly on energy ratings but limited long term established whole of life product performance, reliability and durability.

The Cylinder Company operated in line with budget during the half year in its role as an internal maintenance provider and services to the group's property management and investment operations.

Twin Rivers pursues primary production via an agistment agreement with the existing farmer continuing grazing, breeding and preparation of cattle for sale. A more comprehensive farm development and improvement plan has been prepared and commenced with the objective of achieving a positive improvement over the medium term for the property. Improvement of soil and pastoral crops combined with reduction in unwanted species of weeds is in the early stages.

All business operations have increase investment in security measures given recent experiences of vandalism and pressure from insurance underwriters. Management resources have needed to be directed to this area which is unfortunately adversely impacting on time available for normal business activities. The Directors look forward to governments at all levels tackling this unfortunate situation.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

There have been no significant changes in the state of affairs of the Consolidated Entity during this period, not reflected in the half year accounts.

Auditor's Responsibility for the Review of the Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the Group's financial position as at 31 March 2026 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
