## ASX ANNOUNCEMENT

# IMEXHS Wins Aquila+ Public Tender in Mexico - \$384,000 in New ARR

## Highlights

- IMEXHS has won a public tender contract for 20 hospitals and clinics in Zacatecas, Mexico, contributing \$384,000 in new ARR plus a \$50,000 implementation fee.
- The deployment includes the Company's five proprietary AI workflow agents embedded across Aquila+, together with two Gleamer diagnostic algorithms - ChestView and Fracture Detection.
- The contract was secured through distributor partner GOBA and advances IMEXHS's Mexico expansion strategy.

IMEXHS Limited (ASX: IME) is pleased to announce it has won a public tender contract for the deployment of its Aquila+ platform across 20 hospitals and clinics in the city of Zacatecas, Mexico. The contract was secured through IMEXHS distributor partner GOBA.

The contract contributes approximately \$384,000 in Annual Recurring Revenue (ARR) to IMEXHS, plus a one-time implementation fee of \$50,000.

The deployment spans 20 public hospital sites and includes the Company's five proprietary AI workflow agents embedded across the Aquila+ platform, together with two AI diagnostic algorithms from Gleamer - ChestView and Fracture Detection. IMEXHS's combination of agentic workflow automation and embedded diagnostic AI across a public hospital network represents one of the most comprehensive AI-integrated radiology deployments undertaken anywhere to date.

Implementation has commenced and is expected to be completed across all 20 sites by the end of June 2026, with full ARR run rate expected from September 2026.

The contract reinforces IMEXHS's Mexico expansion strategy and the Company's capacity to compete and win in public sector procurement processes.

Authorised for release by the Board of IMEXHS Limited.
