

28 May 2026

Twelfth Month Seaweed Trading Results – Second Highest Monthly Result as Trading Momentum Accelerates

Highlights

- Gross sales of IDR 4,965,000,000 (approximately A\$391,000) for the twelfth trading period (15 April 2026 – 14 May 2026).
- Second highest monthly trading result achieved to date.
- Aggregate gross sales of approximately A\$3.33 million generated over the Company's first twelve months of trading operations.
- Strong rebound in trading activity as Makassar transitions out of monsoon conditions.
- Improved harvesting conditions supporting increased trading volumes and product availability.
- Continued stable demand across domestic and export markets.
- Future reporting periods to transition to calendar month reporting basis.

Results Overview

The Board of BPH Global Ltd (ASX: BP8) (BPH or Company) advises that it has recorded gross sales of IDR 4,965,000,000 (approximately A\$391,000) for the twelfth trading period from 15 April 2026 to 14 May 2026 based on fulfilled purchase orders with payments pending settlement under standard trading terms.

The Month 12 result represents the Company's second highest monthly trading performance since commencement of operations in May 2025, exceeded only by the Month 6 record result.

Aggregate gross sales generated over the Company's first twelve months of trading operations are now approximately A\$3.33 million, continuing to demonstrate the ongoing scale-up of the Company's Indonesian seaweed trading platform.

Trading performance during the period reflected a continued improvement in operating conditions following the monsoon season in Makassar. Improved weather conditions have supported stronger harvesting activity, improved product quality and increased seaweed availability, contributing to the upward swing in trading volumes.

Underlying customer demand remained stable across both domestic and export channels during the period.

Operational Positioning

With Makassar now moving further into favourable dry season conditions, the Company expects continued consistency in harvesting activity and trading performance in the near term.

The Company continues to focus on:

- strengthening engagement with Makassar-based farmer networks;
- increasing procurement consistency and trading throughput; and
- supporting reliable supply into both domestic and export markets.

Reporting Transition

The next trading update will cover the period from 15 May 2026 to 30 June 2026.

This transition period is intended to:

- align reporting with the Company's FY26 reporting period ending 30 June 2026; and
- facilitate future trading updates being reported on a calendar month basis.

The Company will continue to provide periodic updates on sales volumes from its Indonesia-based seaweed operations.
