Accelerate Resources Limited (ASX: AX8) ("Accelerate" or "the Company") is pleased to announce that it has received firm commitments from institutional, professional and sophisticated investors to raise gross proceeds of A\$2.0 million (before costs) via a two-tranche share placement (**Placement** or the **Offer**). The Placement was priced at A\$0.005 ("**Offer Price**") per new fully paid ordinary share in the Company ("**New Share**").

Proceeds from the Placement, together with existing cash, will fund the Company's aggressive dual-project exploration strategy.

Approximately A\$1.2 million of the Placement will settle in the first tranche of the Placement, utilising the Company's available placement capacity pursuant to ASX Listing Rules 7.1 and 7.1A ("**Tranche One**").

The remaining A\$0.8 million will settle in a second tranche, subject to shareholder approval, to be sought at an upcoming Extraordinary General Meeting ("**EGM**") to be held in early-July 2026 ("**Tranche Two**").

The Board of Directors and CEO of the Company have committed to A\$75,000 in the Placement, which will settle subject to receiving shareholder approval at a General Meeting.

Accelerate Resources Chief Executive Officer Luke Meter commented: "Accelerate is very pleased with the strong support received for this Placement and we welcome our new

shareholders to the register. I would also like to thank our existing shareholders for their continued support.

The Placement provides the funding to keep momentum across both Balagundi and Woodie Woodie North. At Balagundi, we are continuing to test multiple gold targets within a consolidated and highly prospective position near Kalgoorlie. At Woodie Woodie North, we will advance the next phase of manganese exploration, including gravity, heritage and RC drilling programs across Area 42, Gingarrigan and El Largo.

We are entering a very active period for the Company, with field programs and results expected across both gold and manganese. I am excited by the potential of both projects and look forward to updating shareholders as this work progresses.”
